Chapter 1. Introduction

Access Administration

Use the following procedure to access Online RMS Administration.

1. Open the RMS application to the *Home*page to display the Navigation bar as shown.

Collber Administration - Incidents - Master Indices - Records Management - Forms And Reports - Help -

- **Note:** The icons/labels vary in the Navigation bar depending upon which areas your assigned roles allow you to access. For example, if none of your roles include working with incident reports, you would not have an Incidents icon/label in your Navigation bar.
- 2. Perform one of the following steps:
 - Click on the *Administration* label to display the drop-down menu and select the appropriate option.

Note: On the *Administrative Home* page the icons are arranged in functional groups as shown in the screen examples below.

• Click the *Administration* label, then click *Administration* again from the drop-down menu to display the *Administration Home* page as shown.

Note: The appearance of the menu and page varies depending upon your agency's set-up.

3. Click the appropriate icon to open the portion of the program in which you want to work.

Levels of Administration

Company Level

The first and top level of administration is the company level. Only Caliber Public Safety personnel can administer application functionality at this level.

| System | | | System Administration | |
|--------------------|----------------------|-----------------|-----------------------|---------------------|
| G Manage System | Agencies (77) | | SELECT SYSTEM | • |
| Security | | | Miscellaneous | |
| Roles (47) | Security Groups (11) | Users (225) | Reports | Message Center |
| Maintenance | | | Contraction Settings | Log Files |
| Permissions (2284) | Tables | Custom Forms | Maint Vals | Technical Notes Log |
| Module Admin | | | Search Settings | Training Videos |
| Administrative | | | | |
| View Cache | Auditing | IP Whitelisting | | |

For agencies having security requirements to not allow access to Caliber Online RMS outside of approved networks, Caliber Public Safety personnel can define the following settings via the **IP Whitelisting** icon under the *Administrative* section:

- Define Authorized IP ranges for client network requests.
- Bundle with 2FA for access outside of IP ranges.
- Requires a system admin or Caliber DBA to configure.

| P Range | | |
|------------------------------------|---|--|
| Agency | Active | |
| All Agencies | ✓ ✓ | |
| Addresses | | |
| | Add individual IP addresses or ranges of IP addresses below, one per line. To specify a range, use a '-' (hyphen) to denote the range. e.g. 10.0.1.1 - 10.2.2.2 | |
| 10.0.1.1 - 10.2.2.2 10.19.152.2 | | |

Schema Level

Another level of administration is the Schema Level. Each agency has their own schema, unless they are a multiple agency schema. Another example might consist of administration of law enforcement agencies using Online RMS within a county or district; for example, the sheriff's office and all police departments within a specific county.

| System | | | System Administration | |
|--------------------|---------------------------|--------------|-----------------------|----------------|
| G | P | | SELECT SYSTEM | |
| Manage System | Agencies (75) | | ISP Test (TSTC) | ~ |
| Security | | | Miscellaneous | |
| Roles (39) | ر Security Groups (10) | Users (204) | Reports | Message Center |
| Maintenance | | | | |
| Permissions (2055) | Tables | Custom Forms | | |
| Module Admin | | | | |
| Administrative | | | | |
| ا Auditing | | | | |

Agency Level

The third level of administration is at the agency level. This level applies to administration of an individual agency that uses Online RMS. The following *Administrative Home* page shows

the features available to administrators with this level of access.

| System | | Miscellaneous | |
|--------------------------|--------------------|---------------|----------------|
| gen Agency | | Reports | Message Center |
| Security | | | |
| ی Security Groups (1) | Users (9) | | |
| Maintenance | | | |
| B Custom Forms | re Module Admin | | |
| Administrative | | | |
| | | | |

Within the system, all users, including administrative users, are defined by the roles and permissions assigned to them. The features and functions available to individual users vary considerably. "Roles and Permissions" below for more information.

Roles and Permissions

Once a user has been added to an agency, that user can log into the system but has no access to system features until his/her roles have been assigned. Caliber Public Safety develops roles for each type of personnel employed by an agency, and these roles consist of permissions or privileges. Several permissions are used to make up each of the various roles used by an agency.

Because system tasks performed by one user (for example, an officer) differ from those performed by another user (for example a patrol supervisor), the two roles also differ. Certain users are given permissions to perform specific tasks within the system by the Officer role while other users are given permissions to perform other tasks by the Patrol Supervisor role.

- A user must be assigned at least one role in order to perform tasks within the system.
- A user can be assigned more than one role.
- Two different roles may include one or more of the same permissions, but within a specific agency, each role is unique in its permissions make-up.
- Certain users may be able to delegate some or all their permissions/privileges to another user for a period of time.

Master Index Security

User access to master index data in Online RMS is controlled by **Master Index Security**, a hierarchical design where **Level 1** is the lowest and **Level 3** is the highest security. The Security Level exists on every master index record, and on each user account, to control data access. The **Master Index Security** applies to all master indices: Person, Address, Organization, Vehicle, Property, and Gang.

Master Indices Security Levels

| SECURITY LEVEL | |
|---|--|
| Level 1 - Access to all Data Level 2 - Conditional Access to Data Level 3 - No Access to Data | |

- Level 1
 - No security restrictions to the master index record.
 - The default level for new master indices records.
- Level 2
 - Conditional security in place to restrict viewing of involvement data from the indices summary page.
- Level 3
 - Restrict viewing of the master indices in searches and displaying on event records.

User Account Index Security Levels

- Level 1
 - View full details of master index records having Security Level 1.

- Only view the indices demographic information for master indices records having **Security Level 2**.
- And, Not see master indices records that have Security Level 3.
- The default level for all new user accounts.
- Level 2
 - View the full details for master indices records having **Security Level 1**.
 - View the details for master indices records having **Security Level 2**.
 - And, Not see master indices records that have **Security Level 3**.
- Level 3
 - View the full details for master indices records having Security Level 1.
 - View the full details for master indices records having **Security Level 2**.
 - And, view the full details for master indices records having Security Level 3.

Chapter 2. System Administration

The *Administrative Home* page has a **System** section which may contain one to three icons, depending on user privileges.

If a particular schema has more than one agency involved, there will be a **Select System** selection list in the upper right corner of the screen. If you are an administrator with permissions for multiple agencies, use this drop-down list to select an agency. Most administrators, however, only have permissions in one agency.

System Information

Use the following procedure to edit data on the **System Information** tab of the *Manage System* page.

- 1. From the Administrative Home page, click the Manage System icon to open the Manage System page. For details on accessing the Administration Home page, refer to "Access Administration" on page 1
- 2. If needed, click the System Information tab to bring it to the front as shown.

- 3. Make changes as needed to the fields in the **System Information** section. The County Code and County Name are read-only, they are not modifiable.
- 4. Select the System Administrator from the list.
- 5. Make changes as needed to the fields in the Mailing Address section.
- 6. Make changes as needed to the fields in the Application Settings section.
- 7. Click **Update** to display the message, *System updated successfully*.

Quick Links

Your agency administrator can preset **Internal Quick Links** and **External Quick Links** for the agency, making them available to all users with appropriate permissions who want them on their Home Page.

- Internal Quick Links provide quick access to areas within Online RMS.
- External Quick Links provide quick access to external URLs.

Use the following procedure to add or edit links on the **Quick Links** tab of the *Manage System* page.

1. Click the Quick Links tab to bring it to the front as shown.

| Internal Quick Links | | | Add Internal Quick Lin |
|------------------------------------|----------------|-----------------------------|------------------------|
| Quick Link | Category | Agency | Actions |
| Address | Default Links | | 1 |
| Approve Incident Report | Reports | District 42, Versailles | 12 a |
| Broadcast Messages | Default Links | District 21, Toll Road - SC | 2 🕯 |
| Create Field Arrest | RMS | District 16, Peru - GA | 1 |

| URL | |
| https://1 | /rms/ApprovalIncReport.do?dispatchto=getRecen |
| Agency | |
| District 4 | ~ |
| | |
| | Cancel |

- Select and type changes in the fields as needed.

b. To Add New

- Click Add Internal Quick Links for an internal link, or click Add External Quick Links for an external URL to open the associated Quick Link window.
- Give the Quick Link a **Name**.
- Provide the remaining information.
- 3. Click Save to save the changes.
 - **Note:** The users with appropriate permissions can choose which available Quick Links they want to display on their Home Page. Refer to the *Caliber Online RMS User Guide* for more information.

Chapter 3. Attachments

Attachments Overview

Attachments are files that are accessed by other programs, such as a picture, document, spreadsheet, etc. These files are uploaded and saved to Online RMS modules that support attachments. For example, mugshot attachments could be uploaded and saved to person records, or mechanic hand-written quotes uploaded to Fleet Vehicle records.

Attachments appear in a grid, or columnar format.

| Attachments Add Attachment | | | | | |
|--------------------------------|-----------|-------------|--------------|---------|--|
| Keyword | File Name | Description | Date of Info | Actions | |
| Mugshot - Front | 383_1 | | 09/25/2012 | 1 C 💼 | |

You can edit and delete attachments that were only created by you. Users with administrator privileges have the ability to edit and delete attachments for any user.

Click on the **Image Library** link to access your personal RMS image library that contains images uploaded by you from a mobile device, or other devices. For more information on the **Image Library**, refer to the *Image Library* chapter of the *Online RMS User Guide*.

Add Attachments

Several Online RMS modules support **Attachments**. Access the module and record that contains the **Attachment** you need to add. For example, to add an Attachment tied to a person, go to that person record and page down to the **Attachment** section, then follow the directions below.

| | | | | | rary 🔁 Add Attachment |

1. Click on the Add Attachment link to begin the upload process. For information on the Image Library link, refer to "Attachments Overview" above.

Note: By using the **Add Attachment** link, attachments are added to a temporary holding place or queue; you must then upload the files.

a. Drag files to the Queue or click Here to add files from Windows Explorer.

| Add Person Attachments | Go Back |
|---|---|
| Instructions Click to dis | splay instructions |
| You may use this to upload pdf, greater than 10 megabytes. | jpg.jpeg,bmp,png,doc,docx,xls,xlsx,txt,ppt,vsf,pptx files. Files must be no |
| You may upload a maxiumum o | of 10 files at once. |
| Once you have uploaded the file | es, you will be able to add descriptions / edit file names / etc |
| | |
| | Start Upload |
| | |
| Option 1: Drag and drop files into this box | Drop Files Here, Or Click Here to Add Files |
| | Option 2: Click on the word Here to add files |

b. When all the files are in the **Queue**, click **Start Upload** button to add the attachments. Click on **Remove File** to remove from the Queue.

Note: To abandon the upload process and return to the previous window click the **Go Back** button.

c. Modify the attachment details when the following dialog window appears.

| Type of Attachment Person Image | ~ | Image | |
|------------------------------------|---------------|--------------|-----------------|
| FILE NAME | | DATE OF INFO | |
| Fred_Flintstone.png | | 06/14/2021 | |

| DESCRIPTION | | | |
| | | | |
| | | | |
| | Save & Close | | |

- d. Click Save & Close to save each attachment individually, or click Save & Close All to save all of them at once.
- e. The attachments then appear in the **Attachments** grid. You can view additional information, download, edit, or delete the attachment.
- **Note**: Up to ten (10) items or a maximum of 10 megabytes per file can be uploaded at one time. Agencies may purchase a Rich Media Package that allows file uploads with a max of 50 MB per file and rich media file types.

Edit Attachments

Several Online RMS modules support **Attachments**. Access the module and record that contains the **Attachment** you need to update. For example, to update an Attachment tied to a person, go to that record and page down to the **Attachment** section, then follow the directions below.

1. Click the edit icon on the record you need to update.

| Attachments Edit Image Library • Add to | | | | | ment te |
|---|-----------|-------------|--------------|---------|-------------------|
| Keyword | File Name | Description | Date of Info | Actions | |
| Mugshot - Front | 383_1 | Dow | 09/25/2012 | - 2 0 | ī |

Note: You cannot update attachments created by another user.

2. Make the necessary updates in the Edit window.

Note: The content of the Edit window will vary by module and file type. The Edit Person Attachment is used for illustration purposes.

| Edit Person Attachment Go | Back |
|--|----------|
| ATTACHMENT TYPE | |

| Update | |

3. Click **Update** to update the record, or click **Go Back** to return to the previous window without saving.

Delete Attachments

Several Online RMS modules support **Attachments**. Access the module and record that contains the **Attachment** you need to delete. For example, to delete an **Attachment** tied to a person, go to that record and page down to the **Attachment** section, then follow the directions below.

1. Click the delete icon a on the record you want to delete.

| Ø Attachments | | E | dit 🔤 Image Li | brary 🔂 Add Atta Del | chmen ete |
|----------------------|-----------|-------------|----------------|-------------------------|--------------|
| Keyword | File Name | Description | Date of Info | Actions | Ļ |
| Mugshot - Front | 383_1 | Dov | 09/25/2012 | | |

NOTE: You cannot delete attachments created by another user.

2. A confirmation window appears. Click **Yes** to delete or **No** to return to the previous window without deleting.

Download Attachments

Several Online RMS modules support **Attachments**. Access the module and record that contains the **Attachment** you want to download. For example, to download an **Attachment** tied to a person, go to that record and page down to the **Attachment** section, then follow the directions below.

1. Click the download icon on the record you want to download.

| Attachments EditImage Library ③ Add Attachments | | | | |
|---|-----------|-------------|--------------|---------|
| Keyword | File Name | Description | Date of Info | Actions |
| Mugshot - Front | 383_1 | Dov | 09/25/2012 | 2 🖸 🖻 |

- 2. The file downloads automatically to your local machine.
- 3. Click on the file to open.

Chapter 4. Manage Agencies

Manage Agencies Overview

To access this option from the Online RMS*Home* page, perform one of the following tasks:

- Click on the Administration top menu option to display the drop-down menu, then select the Agencies option.
- Click the Administration top menu option, then click Administration from the drop-down menu to open the Administration page, then click the Agencies icon.

To add an agency, refer to "Add Agency" on page 73 for more information.

To update an agency, click [edit] next to an agency name to open the existing Agency Profile.

Refer to "Agency Profile" below for agency profile details.

Agency Profile

From the *Manage Agencies* page, click **[edit]** next to an agency to open the *Agency Profile* page for that agency. The *Agency Profile* contains up to six tabs. You may or may see all tabs, depending on your permissions.

| gencies / Agency Profile | | | | | | |
|---|-----------|----------------|---------------------|---------|-------|----------------------|
| | | | Go Back | Update | Man | age Agency Credentia |

| Select User | ▼ Add | | | | | |

The **Agency Information** tab is the first tab (far left) on the *Agency Profile* page. If another tab is in front, click the **Agency Information** tab to bring it to the front. "Agency Information Tab" below for more information.

Agency Information Tab

The Agency Profile has five tabs, defaulting to the Agency Information tab.

| gencies / Agency Profile | | | | | |
|--|------------|---------------------|-----------------------|-------------|---------------------|
| | | | Go Back | Update Man | age Agency Credenti |
| Agency Information - Ang Police Department | Sub Agency | Agency Organization | Number Generation | Quick Links | Agency Settings |

| (GMT-06:00) Central Time(US and Canada | a) | • | | | |
| Agency Administrators | | | | | |
| Add User | | | | | |
| Select User | | Add | | | |

The Agency Information tab has twelve sections, depending on your permissions:

Agency Information

This section is used to record and maintain identification and other information data specific to the agency. The data recorded here is printed under the badge/logo on the incident reports.

Agency Administrators

This section is comprised of a grid or table listing all agency administrators. When agency

administrators are listed, click in the **Actions** column to open the *Manage User* page for the agency administrator listed in that row. The *Manage User* page allows you to enter-/edit profile information, security settings, preferences, subscriptions, and employee information for the selected user. ("Manage Users" on page 93 for more information.)

To add an agency administrator, select a user from the drop-down box and click Add.

Agency User Subscriptions

Agency administrators can easily track end-user subscriptions by monitoring the allocation and usage of user subscriptions. Caliber Admins enter user subscription limits when a new agency is added to Online RMS, and subscription limits are updated when your agency purchases additional user subscriptions.

This section is read-only to agencies. The *Manage Subscription Counts* link is accessible to Caliber Admin staff only.

| Agency User Subscriptions | Manage Subscription Counts | | |
|---------------------------|----------------------------|--------|------------|
| Subscription Type | Allocated | Actual | Difference |
| Full Time | 10 | 0 | 10 |
| Part Time | 10 | 0 | 10 |
| Reserve | 10 | 0 | 10 |
| Full Time Non-Sworn | 10 | 0 | 10 |
| Part Time Non-Sworn | 10 | 0 | 10 |
| View Only | 10 | 0 | 10 |
| TOTAL | 60 | 0 | 60 |

Note: If your agency's user subscription allowed limit has been reached, you receive a warning stating the maximum number has been reached and to contact support to add additional subscriptions, or deactivate an existing user account. For more information on User Subscriptions, refer to "Agency Information Tab" on the previous page.

You have reached the maximum number of active named user accounts for your Organization. Please contact support to add additional user accounts or deactivate an existing user account.

Features

The section enables Online RMS personnel to enable the features.

Search Interfaces

This section allows the agency to select interfaces to use. The <u>Setup User Search Inter-</u> <u>face Access</u> link opens the *Setup User Search Interfaces* page where you can select screens from the drop-down selection list (or leave the default values as is) and select available search interfaces from the drop-down selection list.

| Search Interfaces | |
|---|--|
| SELECT SEARCH INTERFACES | |
| × InterAct (Tab) × LEAP Quick Search (Tab) × Jail Tracker: Person In Jail (Tab) | |
| Setup User Search Interface Access | |

Attachment Interfaces

Jail Tracker - Facilities to Search

State Submissions Configuration

Miscellaneous

This section is used to set up LEA Security Level and LEA CASE Update Days and other miscellaneous information. It is also used to select NIBR City Indicators from the **Avail-able** box and moved them to the **Selected** box. An administrator with the appropriate permissions can use the arrows to move available features

NIBR City Indicator

Address Information

This section is used to edit/maintain agency address information and set the Geo Code (latitude and longitude values) for the agency address.

Agency Logo

This section is used to upload and display an image of the agency logo. This logo appears on printed incident reports.

Enter the necessary data into this tab, then click the **Update** button.

If needed, click the **Manage Agency Credentials** button to add or update *Credentials*; the user name and password for a NIBRS Portal as an example.

Sub Agency Tab

A sub agency is one for which the primary agency dispatches in response to calls for service. The **Sub Agency** tab is used to add sub agencies and to delete them.

Use the following procedure to add a sub agency.

- 1. Access the Agency Profile page for the primary agency.
- 2. Click the Sub Agency tab, the second from the left tab.

| Agencies / Sub Agencies | | | | | |
|--|-------------|----------------------|-------------------|------------|-------------------|
| | | | | | Go Back |
| Agency Information - Ang Police Department | Sub Agency | Agency Organization | Number Generation | Quick Link | s Agency Settings |
| | | | | | 🔂 Add Sub Agency |
| Show 10 ¢ entries | | | | | Search: |
| Sub Agency | ti Sub Agei | ncy Type | | ŤĹ | Actions |
| | | No data available in | n table | | |
| Showing 0 to 0 of 0 entries | | | | | Previous Next |

3. Click the Add Sub Agency link to open the Add Sub Agency window.

| Add Sub Agency | |
|----------------|-------------|
| SUB AGENCY | |
| ANGTESTAGENCY | ~ |
| Түре | |
| - Select - | ~ |
| | Cancel Save |

- 4. Click T to the right of the **Sub Agency** field and select an agency.
- 5. Click **⊥** to the right of the **Type** field and select an agency type.
- 6. Click **Save** to close the window and return to the **Sub Agency** tab of the *Agency Profile* page with the new sub agency listed.

Agency Organization Tab

Agency Organization is the third tab from the left on the Agency Profile page. If another tab is in front, click the Agency Organization tab to bring the Agency Organization Entry page to the front as shown in the following example.

| | | | Go Back Upda |
|-------------------------------------|----------------------------------|--|-----------------------------|
| Agency Information - Ang Police | Department Sub Agency A | gency Organization Number Generation | Quick Links Agency Settings |

| Edit Route Settings | | | |
| | | Go Back Update | |

This tab is used for statewide configurations. To share data with agencies outside of your State, contact Caliber Support to configure this ability. The parent agency is made a root agency then the regions or districts are configured as child agencies. This function is configured by Caliber Admins only. Then the Header can be configured to show the agency's name.

Note: To share data with agencies outside of your State, contact *Caliber Support* to configure this ability.

The top panel is used to set and maintain organization settings.

Current Org Settings: Display the current settings.

Edit Org Settings: Provide fields and boxes to use for editing organization settings.

The bottom panel is used to specify a unique display header.

Display Header - This field is used to specify a unique display header that may appear on reports and screens for this organization unit.

Current Display Header (This Org Unit)

Edit Display Header: Use this text field to edit the display header.

Active Display Header (This Org Unit Or a Parent)

Route Settings:

<u>Edit Route Settings</u> link opens the *Agency Route Settings* page where you can select the appropriate value for **Case Management Review**, **Field Arrest Submit**, **Impound Submit**, and **Pending Approval**.

| CASE MANAGEMENT REVIEW | Go Back Save |
|------------------------|--------------|
| User Agency | ~ |
| FIELD ARREST SUBMIT | |
| User Agency | ~ |
| IMPOUND SUBMIT | |
| User Agency | ~ |
| PENDING APPROVAL | |
| User Agency | ~ |

Click **Save** to save new settings; click **Go Back** to return to the *Agency Organization Entry* page.

Number Generation Tab

The **Number Generation**tab is the fourth tab on the *Agency Profile* page. The **Number Generation** tab is used to set up and format automatic number generation for system forms and reports.

Add Number Generation

Beginning with Online RMS 11.3.2, agencies can create *Community Reporting* public forms using the *Custom Forms* module, making the forms available to the public via the agency's website. Publicly available custom forms require an active **Number Generation** format.

For more information about *Community Reporting* public forms, refer to "Community Reporting with Custom Forms" on page 273.

Use the following procedure to add a number generation for a type of form/report.

1. On the *Administrative Home* page, click the **Agencies** icon to display the *Manage Agencies* page.

- 2. Click [edit] in the same row as an agency listing to open the *Agency Profile* page for that agency.
- 3. On the *Agency Profile* page, click the **Number Generation** tab to bring it to the front as shown.

| Agency Information - Olive Branch Poli | ce Department | Sub Agency | Agency Organization | Number Generation | Quick Links | Agency Settings | | |
|--|---------------|------------|---------------------|-------------------|-------------|-----------------|----------|-----------------|
| Indicates # is currently in use | Hide Expired | | | | | | OA | dd Number Gener |
| Гуре | Format | | Next Number | Placeholder | Effective | Date | End Date | Actions |
| Dispatch # | YYYY0000000 | 00 | 1 | | 1/1/11 1 | 2:00:00 AM | | 21 |
| Dispatch # | YYYY0000000 | 0 | 1 | - | 1/1/11 1 | 2:00:00 AM | | |
| Evidence Audit Report # | YYYYIR000 | | 1 | • | 1/1/11 1 | 2:00:00 AM | | 1 |
| Evidence Audit Report # | YYYYIR000 | | 1 | - | 1/1/11 1 | 2:00:00 AM | | 2 |
| ncident | YYYY0000000 | 0 | 1 | - | 1/1/11 | 2:00:00 AM | | 21 |
| ncident | YYYY0000000 | 0 | 1 | • | 1/1/11 | 2:00:00 AM | | 21 |
| EA Case Number | 0000YY | | 1 | - | 1/1/11 | 2:00:00 AM | | |
| Officer Daily Log # | YYMMIR0000 | 1 | 1 | - | 1/1/11 1 | 2:00:00 AM | | 12 |

4. Click the Add Number Generation link on the top right, immediately under the tab headers to open the Number Generation form.

| Number Generation | | | |
|-------------------|---|-------------|------------|
| Туре | | FORMAT | |
| Warrant | ~ | 000YYYYMM | ~ |
| PLACE HOLDER | | NEXT NUMBER | |
| - | | 1 | |
| EFFECTIVE DATE | | END DATE | |
| 04/01/2019 | 曲 | | 曲 |
| | | | |
| | | | Close Save |

5. In the selection field under the **Type** column, click [▲] and select a type (for example, Dispatch, Incident, or Officer Daily Log #) from the list.

Note: If using the *Create Incident* option from publicly available custom forms, select *Incident* as the **Type**.

6. In the select format field under the **Format** column, click ✓ and select a format from the list.

Zeros represent the number of digits in each Next Number; the IR Value is whatever value you choose (one or more letters, numbers, symbols, and so forth - or nothing at all); YY indicates a two digit representation of the year; YYYY represents a four digit representation of the year; and MM represents a two digit representation of the month.

- Note: If using the *Create Incident* option from publicly available custom forms and users manually enter the Incident Number from Caliber CAD, select a **Format** that matches the **Tracking Number** format configured in Caliber CAD.
- 7. Enter the Place Holder.
 - Note: If using the *Create Incident* option from publicly available custom forms, enter a **Place Holder** such as **CR**. This placeholder value replaces the **IR** value in the selected format.
- 8. In the Next Number field, type the beginning number for this series of numbers (e.g. 1).

- 9. In the Effective Date field, use the calendar tool to specify a beginning date.
- 10. Optionally, use the calendar tool to specify an End Date.
- 11. Click Save to add this generation of numbers.
 - **Note**: You cannot create a number generation when a valid, unexpired already exists. You can edit an existing entry to add an expiration date, then create a new one to pick up where the last one left off.

Edit Number Generation

Use the following procedure to edit a number generation.

- 1. On the Administrative Home page, click the Agencies icon to display the Manage Agencies page.
- 2. Click [edit] on the same row as an agency listing to open the Agency Profile page for that agency.
- 3. On the Agency Profile page, click the Number Generation tab to bring it to the front as shown.

Note: If using the Create Incident option from publicly available custom forms and users manually enter the Incident Number from Caliber CAD, enter **0** (zero) as the **Next Number**.

| Agency Information - Olive Branch Police | Department | Sub Agency | Agency Organization | | Quick Links | Agency Settings | | |
|--|--------------|------------|---------------------|-------------|-------------|-----------------|----------|-------------------|
| Indicates # is currently in use | Hide Expired | | | | | | O A | dd Number Generat |

| incident | YYYY00000 | 000 | 1 | • | 1/1/11 | L2:00:00 AM | | 2 0 |
| EA Case Number | 0000YY | | 1 | - | 1/1/11 | L2:00:00 AM | | 2 0 |
| Officer Daily Log # | YYMMIR00 | 00 | 1 | - | 1/1/11 | L2:00:00 AM | | 1 |

- 4. Locate the listing of the number generation that you want to edit in the Number Generation grid.
- 5. Click in the Actions column to the far left in the same row as the listing to pull the details of that record into the fields at the bottom of the page as shown.

| Number Generation | |
|-------------------|-------------|
| Түре | FORMAT |
| Warrant 🗸 | 000YYYYMM 🗸 |
| PLACE HOLDER | NEXT NUMBER |
| - | 1 |
| EFFECTIVE DATE | END DATE |
| 04/01/2019 | * |
| | |
| | Close Save |

- 6. Make changes as needed. (Use the drop-down selection lists and calendar icons where available to ensure consistency and accuracy.)
- 7. Click Save to save the changes and refresh the display with the new values.

Delete Number Generation

Use the following procedure to delete a number generation record.

- 1. On the *Administrative Home* page, click the **Agencies** icon to display the *Manage Agencies* page.
- 2. Click [edit] the same row as an agency listing to open the *Agency Profile* page for that agency.

- 3. On the *Agency Profile* page, click the **Number Generation** tab to bring it to the front as shown.
- 4. Locate the listing of the number generation that you want to delete in the Number Generation grid.
- 5. Click to the far left in the same row to display the prompt, Are you sure?
- 6. Click **Yes** to confirm deletion and close the window.

The listing no longer appears in the Number Generation grid.

Quick Links Tab

Access the *Agency Profile* page for any agency from the *Manage Agency* page. The Quick Links tab is the fourth (from the left) on the *Agency Profile* page. If another tab is in front, click the **Quick Links** tab to bring it to the front as shown in the following example.

| | | | | | Go Bac |

- "Edit Quick Link" below for instruction on editing an existing quick link.
- "Add Quick Link" on the next page for instruction on creating a new quick link.

Edit Quick Link

On the Agency Quick Links page, use the following procedure to edit an agency quick link.

1. From the Agency Internal Quick Links grid or the Agency External Quick Links grid, click in the Action column in the same row as the link to be edited.

The *Edit Agency Internal Quick Link* or the *Edit Agency External Quick Link* window displays.

- 2. Make changes to the field content as needed.
- 3. Click **Update** to save the changes, close the window, and return to the *Agency Quick Links* page.

Add Quick Link

Use the following procedure to add a quick link.

- 1. Determine if you want to add an internal quick link or an external quick link.
 - Click Add Agency Internal Quick Link to open the Add Agency Internal Quick Link window.

| Internal Quick Link | |
|---------------------|-------------|

This page consists of five panels, each of which contains links to specific areas of the Online RMS application. Assignment Set Up and Activity Tables are used in the Officer Daily Module. Calls for Service Tables are used only in the Calls for Service module. The County &

Township Tables and Other Tables are self explanatory. Each of these tables is described in a separate topic as listed.

Assignment Setup Panel - "Assignment Set up" below.

Activity Tables Panel - "Activity Tables" on page 37.

Calls for Service Tables Panel - "Calls for Service Tables" on page 43.

County and Township Tables Panel - "County and Township Tables" on page 47.

Other Tables Panel - "Other Tables" on page 51.

Assignment Set up

The **Assignment Setup** panel contains four links to the *Officer Daily Log Administration* page which contain several tabs of information. Each link in the **Assignment Setup** panel display a total record count of information that exists in particular tabs of the *Officer Daily Log Administration* page.

Type an alphanumeric code in the **Impound Location Code** field, and type a description for the code in the **Description** field. Click **Save** to save the code and return to the *Vehicle Impound Location Code* page with the new code listed.

Add as many location codes as needed. The following page example shows four location codes.

To edit a code, click in the **Actions** column to the far right of the code listing to open the *Edit Vehicle Impound Location Code* window where you can edit the code and/or description then click **Save**.

To delete a code click in the **Actions** column to the far right of the code listing to open the message, *Vehicle Impound Code Deleted Successfully*. Click **Yes** to return to the page where the deleted code is no longer listed.

Narrative Templates

The Narrative Templates link opens the Narrative Templates page.

| | | | | | Gol | Back Add | d Templat |
|----------------|--------|----------------------------|------------------|----------|-----|----------|-----------|
| Agency Templat | tes | Effective Agency Templates | | | | | |
| Show 10 ¢ | entrie | 25 | | | | | |

| | | | | | | | | | | | | | | | | |
| | | | | | | | | | | | | | | | | |

- Complete the fields at the top of the page appropriately.
- Type the content of the template in the large pane, using the tool bar at the top of the pane to format the text as needed.
- Click **Save** to save the new template as often as needed.
- Click **Go Back** to close the *Add Narrative Template* page and return to the *Narrative Templates* page.

• Click **Go Back** to return to the *Agency Settings* page.

Case Routing

Administrators with appropriate permissions can route cases to external agencies.

The Case Routing link opens the Agency Case Routing page.

| Go Back |
|--|
| In addition to agencies within the organization, select the external agencies cases can be routed to |
| SELECT AGENCIES |
| × A_standalone Pd |
| Save |

- To *select* an available agency, click in the **Select Agencies** box then select one or more agencies from the list that appears.
 - To *deselect* an agency, click on the X to the left of the agency name to remove it from the **Select Agencies** box.
- Click Save. A successful message appears in green when the save is complete.
- Click **Go Back** on the upper right of the page to return to the *Agency Settings* page.

Search Options

Administrators of a multi-tier organization have the ability with appropriate permissions to set the Online RMS *Default Search Options* to control what agency data is searchable by default. For example, the *Search Option* default could be set to either allow users to search data within their agency, all agencies within an organization., or all agency schemas.

The <u>Search Options</u> link opens the *Agency Search Options* page.

| FAULT SEARCH AGENCY | |
|---------------------|---|
| All Agencies/Schema | ~ |

- Click on the down arrow then select an option from the list.
- Click **Update** to save the change.
- Click **Go Back** on the upper right of the page to return to the *Agency Settings* page.

Maint Values

Maintenance Values provides administrators with proper permissions the ability to configure module behavior and restrictions for the agency.

For details, refer to "Maintenance Values" on page 345.

Notification User Groups

Provides the ability to configure user groups at the agency level to allow defined users to filter Notifications on their Home Page by that user group.

| User Groups | | Go Back Add Group |
|--------------------------------|---|-------------------|
| Show 100 ¢ entries | | Search: |
| Name | ti Users | 11 Actions |
| ISP 1 | Sally (osuper) Adams Admin 1 NEW 4 Annelyn Aficial | Ø 🔳 |
| Test Notification Agency Group | Christine Saur Dana M | 6 |
| howing 1 to 2 of 2 entries | | Previous 1 Next |

Click the Add Group button to add a new group.

| | Go Back |
|---|-----------|
| Group Details | |
| Group Options | |
| Name | |
| Test Group 2 | |
| Users | |
| | 23 |
| SELECTED USERS [Remove All] | |
| Officer 1 - Police Agency Officer 2 - Police Agency Admin 1 - Police Agency | |
| Save | |

- Enter a **Name** for the group.
- Select the **Users** for the group.
- Click Save.

Users identified in the group can then filter Notifications on their Home Page by that group.

Notifications

| -Filter By Users- | 7 |
|--------------------------------|---|
| -Filter By Users- | |
| Daytime Officers | |
| Daytime Officers | |
| Weekend Officers | |
| ISP 1 | |
| Shift #1 D42 | |
| Test Group 2 | |

Add Agency

Use the following procedure to add an agency record.

- 1. On the *Administrative Home* page, click the **Agencies** icon to display the *Manage Agencies* page.
- 2. Choose one of the following options to add an agency:
 - a. Click Add Agency link in the upper right corner to display the Agency Profile page.

| | | | Go Back Save |
|--------------------------|------|------------------|---------------------|
| Agency Information - | | | |
| Agency Information | | | |
| AGENCY INTERNAL CODE | | ORI NUMBER | |
| | | | |
| AGENCY DISPLAY CODE | | WEBSITE | |
| | | | |
| AGENCY CODE DISPLAY TEXT | | PHONE | |
| AGENCY TYPE | | FAX | |

| TIME ZONE | | POINT OF CONTACT | |
| -Select- | ~ | | |
| External Authentication | | | |
| Enabled Type Host | Port | Shared Secret | Enable Level Action |
| | | | ✓ |
| Agency Administrators | | | |

Enter data into the available fields in each section, then click Save.

The form saves and opens in edit mode with six tabs:

- "Agency Information Tab" on page 18 for information on the Agency Information tab.
- "Sub Agency Tab" on page 21 for information on the Sub Agency tab.
- "Agency Organization Tab" on page 21 for information on the Agency Organization tab.
- See "Number Generation Tab" on page 23 for information on the **Number Generation** tab.
- See "Quick Links Tab" on page 27 for information on the Quick Links tab.
- "Agency Settings" on page 29 for information on the Agency Settings tab.
- b. Or, click the AgencySetup Wizard to guide you through the setup process. You can either manually enter data or upload setup data from an Excel spreadsheet using this method.

TO UPLOAD:

Click **Download Template** to download a formatted Excel spreadsheet.

Enter data into the AgencySetup.xls Excel spreadsheet and Save.

In Online RMS, click **Choose File** and select the *AgencySetup.xls* Excel spreadsheet. Click **Upload**.

TO MANUALLY ENTER DATA:

Click Manually Enter Data to open the Wizard.

Enter data into the first tab then click **Next**. Repeat until all tabs are completed. Click **Finish**.

Chapter 5. Roles

Once a user has been added to an agency, that user can log into the system but has no access to system features until his/her roles have been assigned. Caliber Public Safety develops roles for each type of personnel employed by an agency, and these roles consist of permissions or privileges. Several permissions are used to make up each of the roles used by an agency.

Because system tasks performed by one user (for example, an officer) differ from those performed by another user (for example a patrol supervisor), the two roles also differ. Certain users are given permissions to perform specific tasks within the system by the Officer role while other users are given permissions to perform other tasks by the Patrol Supervisor role.

- A user must be assigned at least one role in order to perform tasks within the system.
- A user can be assigned more than one role.
- Two different roles may include one or more of the same permissions, but within a specific agency, each role is unique in its permissions make-up.
- Certain users may be able to delegate some or all their permissions/privileges to another user for a period of time.

Access Roles Module

System roles used by an agency can be added and edited via the **Role**s module by certain users with administrative permissions.

From the *Home* page access the Roles module one of two ways:

• Click on the Administration menu option to display a drop-down menu and select the **Roles** option.

• Click on the Administration menu option, then click again on the Administration drop-down option to display the *Administrative Home* page. On the *Administrative Home* page, click the **Roles** icon located under the Security section.

From this page, administrative users with the appropriate roles/permissions can edit existing roles, add new roles, compare roles, and copy roles for the agency.

- "Edit Role" below.
- "Add Role" on page 81

Edit Role

Use the following procedure to edit a role.

- **Note**: Never edit Roles that came with the software; make a copy of the Role then edit the copy as needed. For details on how to copy a Role refer to "Copy Role" on page 83.
- 1. From the *Roles* page, locate the record to be changed as follows:
 - Scroll down the list of roles until you locate the one you want to edit. (Only roles with an edit icon in the Actions column can be edited.)
 - Use the **Search** fields to return the record as shown.

| Show 10 + entries | | | |
|-------------------|-------------------------------------|----------------------|-----------------|
| Compareî↓ | Role Name 🌐 | Role Description | Actions 11 |

| | | Go Back | Save | |

- 3. If needed, make changes to the **Role Description** and **Access Level** fields. (**Role Name** cannot be changed.)
- 4. Continue with Step 5 or go directly to Step 7, as appropriate.
- 5. Click **Role Permission Categories** tab to display the *Role Permission Categories* page as shown in the example.

- 6. Remove or add permissions to this role for your agency as follows:
 - In the panel to the left, click
 (minus sign) to the far right in the same line to remove
 that permission.
 - In the panel to the right, click (plus sign) to the far right in the same line to add that permission.
 - Repeat as needed until you have removed or added permissions to tailor this role to your agency's needs.
- 7. Click **Save** at the bottom of the page to save changes and return to the *Roles* page.

Add Role

Use the following procedure to add a role for your agency.

1. From the *Roles* page, click the <u>Add Role</u> button in the upper right corner to display the *Add Role* page as shown.

| ROLE NAME | | |
|------------------|--------------------------------|---|
| | | |
| ROLE DESCRIPTION | | |
| | | |
| ACCESS LEVEL | RESTRICT TO ORGANIZATION | |
| -Select- | ✓ -Select- | ~ |
| | Go Back Save | |

- 2. Type the name you want to use for this role in the **Role Name** field. The name must be unique.
- 3. Optionally, type a Role Description you want to use.
- 4. Click I to the far right in the Access Level field to display a list of selections as shown in the following example. This list may vary by agency.

| • | 00 | ESS | 1000 |
|---|----|-----|------|
| | | | |
| | | | |

| -Select- |

| Notifications - Add Notifications | _ ~ | Administration - Deactivate Users in Agency | + ~ |

- 9. Add permissions to this role for your agency as follows:
 - In the panel to the right, click (plus sign) to the far right in the same line to add that permission.
 - Repeat as needed until you have added permissions to tailor this role to your agency's needs.

- If you add a permission by mistake, click (minus sign) in the left panel to the far right to remove that permission.
- 10. Click **Save** at the bottom of the page to save your changes.
- 11. Review permissions and continue as follows:
 - If needed, make additional changes and click **Save** to return to the *Edit Role* page.
 - If changes are not needed, click **Go Back** to return to the *Edit Role* page.
- **12.** Continue as follows:
 - If needed, make changes and click **Save** to return to the *Roles* page.
 - If changes are not needed, click **Go Back** to return to the *Roles* page.

Copy Role

To save time setting up a new role, you have the ability to copy one role to another role if they have similar traits. During the copy process, you can update the new role as needed.

Note: Never edit Roles that came with the software; make a copy of the Role then edit the copy as needed. For details on how to edit a Role refer to "Edit Role" on page 79.

Use the following procedure to copy one role to another role for your agency.

1. From the *Roles* page, locate the role you want to copy then click the *Copy* icon under the *Actions* column to display the *Copy Role* page as shown.

| Compareî↓ | Role Name 🛛 🕄 | Role Description | Actions | ţ1 |

- 9. Add permissions to this role for your agency as follows:

 - Repeat as needed until you have added permissions to tailor this role to your agency's needs.
 - If you add a permission by mistake, click (minus sign) in the left panel to the far right to remove that permission.
- 10. Click **Save** at the bottom of the page to save your changes.
- **11.** Review permissions and continue as follows:
 - If needed, make additional changes and click **Save** to return to the *Edit Role* page.
 - If changes are not needed, click **Go Back** to return to the *Edit Role* page.
- **12.** Continue as follows:
 - If needed, make changes and click **Save** to return to the *Roles* page.
 - If changes are not needed, click **Go Back** to return to the *Roles* page.

Compare Role

Compare two or more roles to understand permission differences between them, and to identify potential duplicates.

Use the following procedure to compare roles for your agency.

1. From the *Roles* page, place a check mark on each role you want to compare, then click the **Compare** button on the top right of the window.

| Show 10 | ¢ entries | | o Back Add Role Compare |
|-----------|---------------------------------|---|-------------------------|
| Compareî↓ | Role Name 🛛 | Role Description | Actions 11 |

3. Click the **Back** button on the top right of the page to return to the *Roles* page.

Chapter 6. Security Groups

Within an agency, security groups can be created to provide additional security for certain kinds of records. For example, an agency might want to restrict access to open cases except for those individuals who are working on and/or supervising the progress of those cases.

Access Security Groups Module

Security Groups for an agency can be added, edited, and deleted via the Security Groups module. Users with the appropriate administrative permissions can access the Security Groups module as follows:

From the *Home* page,

- hover the cursor over the Administration menu/label to display a drop-down menu and select the Security Groups option, or
- from the Administrative Home page, click the Security Groups icon.

The Security Groups page displays as shown.

| ID | 11 Security Group Name | Agency Description | 11 Actions |
|----|------------------------------|-----------------------------|------------|
| 1 | Admins | District 21, Toll Road - SC | C i |
| 2 | Case & Incident Dist 21 ONLY | District 21, Toll Road - SC | |
| 3 | DIC | District 16, Peru - GA | 2 |
| 4 | Dist 16 CID users | District 16, Peru - GA | |
| 5 | Dist 21 CID Members Only | District 21, Toll Road - SC | 2 |
| 6 | District 16 and 21 Patrol | District 21, Toll Road - SC | 2 |
| 7 | Internal Affair | District 52, Indianapolis | |
| 8 | Multi-Agency Group | District 21, Toll Road - SC | 2 |
| 9 | NO AGENCY TEST | | 2 |
| 10 | Test 42 | District 42, Versailles | 2 |

From this page, administrative users with the appropriate roles/permissions can edit existing security groups, delete security groups, and add new security groups for the agency.

- "Edit Security Group" below.
- "Delete Security Group" on page 90
- "Add Security Group" on page 90.

Edit Security Group

Use the following procedure to edit a security group.

- 1. From the *Security Groups* page, locate the record to be changed, using one of the following methods:
 - Scroll down the list of groups until you locate the one you want to edit.
 - Use the **Search** fields to return the record.

| ID îl | Security Group Name | Agency Description | ţ1 | Actions |
|-------|------------------------------|-----------------------------|----|---------|
| 2 | Case & Incident Dist 21 ONLY | District 21, Toll Road - SC | | 2 0 |
| 4 | Dist 16 CID users | District 16, Peru - GA | | 6 |
| 5 | Dist 21 CID Members Only | District 21, Toll Road - SC | | 2 0 |

2. Click in the Actions column to display the *Edit Security Group* page as shown in the example.

| | Go Back |
|--|---------|
| NAME | |
| Dist 16 CID users | |
| AGENCY | |
| District 16, Peru - GA | ~ |
| Security Group Users | |

| Masterson,Bat (cid) R (District 16, Peru - GA) Goodman,Charles (cid) H (District 16, Peru - GA) | |
| ENFORCE EXCLUSIVE ACCESS | |
| | |
| Go Back Update | |

- 3. If needed, make changes to the Agency field. (The Name field cannot be changed.)
- 4. Change the users listed in the Selected Users field as follows:
 - a. To add users, click into the **Select User** field and begin typing the first or last name to display a list of users that match your entered text, then select one or more from the list to add it to the **Selected Users** box.

| Security Group Users | | |
|---|----------|---|
| SELECT USER | | |
| ch | | |
| Chuck (evid) Albert - District 14, Lafayette | ⊳ | ^ |
| Herman (cid) Chapman - District 22, Ft Wayne | | |
| In Ch arge - District 52, Indianapolis | | |
| In Ch arge - Indiana State Police | | J |
| | | |

- b. To remove a user from the **Selected Users** box, select the name and **double-click** on the name.
- 5. To select users from another agency, click the **Agency** field and choose from the dropdown list. Follow the previous step to add or remove users for that agency.
- 6. Click **Update** to save changes and return to the *Security Groups* page.
- 7. Click Go Back to return to the Administrative Home page

Delete Security Group

Use the following procedure to delete a security group record.

- 1. On the *Administrative Home* page, click the **Security Groups** icon to display the *Security Groups* page.
- 2. In the Action column, click in the same row as a security group listing to display the prompt, *Are you sure you want to delete this Work Group?*
- 3. Click Yes to confirm deletion and close the window.

The listing no longer appears on the Security Groups grid.

Add Security Group

Use the following procedure to add a security group for your agency.

1. From the *Security Groups* page, click the **Add Security Group** button in the upper right corner to display the *Add Security Group* page as shown.

| | Go | Back |
|--------------------------|--------------|------|
| NAME | | |
| 1 | | |
| AGENCY | | |
| Select Agency | | ~ |
| Security Group Users | | |

- 4. Select the agency for which you are adding this group.
- 5. Add users to this group as follows:
 - a. To add users, click into the **Select User** field and begin typing the first or last name to display a list of users that match your entered text, then select one or more from the list to add it to the **Selected Users** box.

| ecurity Group Users | | | |
|--|----------|---|---|
| ELECT USER | | | |
| ch | | | × |
| Chuck (evid) Albert - District 14, Lafayette | ⊳ | ^ | |
| Herman (cid) Ch apman - District 22, Ft Wayne | • | | |
| In Ch arge - District 52, Indianapolis | | | |
| In Ch arge - Indiana State Police | | J | |
| | | * | |

- b. To remove a user from the **Selected Users** box, select the name and **double-click** on the name.
- 6. To select users from another agency, click the **Agency** field and choose from the dropdown list. Follow the previous step to add or remove users for that agency.
- 7. Check the Enforce Exclusive Access box, if applicable.
- 8. Click Save to save and return to the Security Groups page.

Chapter 7. Manage Users

Users Overview

Administrators with the appropriate permissions can add and update users to an agency or schema.

- One user may be permitted to log into different schemas, depending upon the roles assigned to that user.
- A user has multiple roles, depending upon the tasks that user is expected to perform.
- User names cannot be deleted, only disabled (made inactive).
- A user name can only be used once within one database.
- An administrator with the appropriate permissions can emulate another user and view that user's screens to troubleshoot.

Manage Users

From the *Administration Home* page, click the **Users** icon to open the *Manage Users* page. (Alternatively, select **Users** from the **Administration** drop-down menu.) For details on accessing the *Administration Home* page refer to "Access Administration" on page 1.

| anage U | lsers | | | | | | | | | |

| howing | 1 to 1 of 1 | entries | | | | | | | | Emulate Deletion Change Password Previous 1 |
| | | | | | | | Go Ba | ck | | |

The *Manage Users* page contains buttons to add users, and two tabs: *User Accounts* and *Log.* The *User Accounts* tab opens by default.

Filter Results List

You can filter the results list by using the Search, Status, and Subscription Level search boxes. For example, to only list active user accounts, select *Active* in the Status field, or enter part of the person's name in the Search text box.

Click the Search button to display the search results based on the entries in the search fields.

Add User Buttons

You can add one user or enter multiple users by using the Add User or Mass User Entry button on the top right of the form.

To add one user, refer to "Add a User" on page 124.

To add multiple users, refer to "Add Mass Users" on page 125.

User Accounts Tab

From the *User Accounts* tab you can use the icons in the *Action* column to Manage User Accounts, Change Passwords, Deactivate or Activate Users, and Emulate Users.

 Click the Edit icon under the Actions column to open the User Details page to update user roles, employee information, security settings, etc. See "User Details" on page 97 for more information.

- Emulate users icon
 - Click the Emulate icon under the Actions column.
 - See "Emulate a User" on page 121 for instructions.

Change passwords 🗖 icon

There are two ways to change a password: The Change Password or Edit Icon.

a. Change Password Icon

Click the **Change Password icon** under the *Actions* column to display the *Change Password* window.

| Change Passwo | rd | | |
|-----------------|--------|-----------------|------------------|
| NEW PASSWORD | | | |
| CONFIRM PASSWOR | D | | |
| | | | |
| | Cancel | Change Password | Reset Via E-Mail |

Enter New Password and re-enter to Confirm, then click Change Password or Reset Via Email.

b. Edit Icon

Click the **Edit icon** under the *Actions* column to open the *User Details* page, then click the **Change Password** link on the left sidebar navigation under *User Quick Links*. See "User Details" on page 97 for more information.

- Deactivate and Activate users icons
 - Click on the red or green person icon under the *Actions* column, whichever applies. (The example displays a red icon.)
 - See "Deactivate a User" on page 101 and "Activate a User" on page 100 for instructions.

Log Tab

Multi-tier organizations can temporarily assign a user to a different agency. Assignment changes are recorded automatically to a database log table. The *Log* tab allows you to view the assignment changes that have taken place.

Click on the *Log* tab to open the search screen.

| | _ | | | Go Ba | Add User Mass User Entry |
|-------------------|---|------------|--------------|----------|--------------------------|
| User Accounts Log | 9 | | | | |
| Agency | | OLD AGENCY | DATE FROM | DATE T | 0 |
| -Select- | • | -Select- | • | # | 曲 |
| ASSIGNEE | | Туре | | | |
| | | All | * | | |
| | | | Reset Search | | |
| | | | Go Back | | |

Enter your **search criteria**, then click the **Search** button to list records that match your entered data.

- Select a specific Agency. To select all, leave the choice as -Select-.
- Select a specific Old Agency. To select all, leave the choice as -Select-.
- Select the **Date From** and **Date To**, or leave them blank to select all dates.
- Enter all or part of the Assignee name, or leave it blank to select all.
- Select the **Type** of assignment.

Note: The **Type** *Home* means the default agency association changed to another agency within the organization.

User Details Page Layout

The User Details page contains three sections on the left sidebar of the window:

| 🛓 Dana M |
|--------------------------------------|
| User ID: D_OFFICER |
| Status: Active |
| Type: Full Time |
| Organization: Indiana State Police |
| Home Agency: District 42, Versailles |
| Officer: No |
| Employee: Yes - Active |
| User Quick Links |
| Deactivate User |
| Change Password |
| Change Home Agency |
| Create Assignment |
| Go To |
| Profile Information |
| Security Settings |
| Preferences |
| External Searches |
| Subscriptions |
| Agency & Assignments |
| Officer Information |
| Employee Information |
| Jurisdictions |
| Account History |
| |

• User Information.

- Various user information, such as the user id, an active or inactive user account, whether the user is full or part time, the organization and home agency of the user, whether or not the user is an officer, and whether the user is an active or inactive employee.
- This section is read-only.
- Quick Links.
 - Links for quick access to specific functions, such as the ability to quickly deactivate or inactivate the user, change the password, change their home agency, and create an assignment.

"Deactivate a User" on page 101

"Activate a User" on the next page

"Change Password" on page 102

"Change Home Agency" on page 104

"Create Assignment" on page 105

- Go To.
 - These are tabs to other user settings, such as Subscriptions, Officer Information, Preferences, and more.
 - Click a tab to display the user settings for that tab. For example, click Preferences to view and update notification and other preference settings.
 - The Profile Information tab opens by default when you access the *User Details* landing page.
 - Click on a tab under the **Go To** section of the left sidebar to access the tab. Profile Information is used in the below example.

| Profile Information | | | Go Back Emulate Update |
|---------------------|--------------------|-------------|------------------------|
| User Information | | | |
| | First Name | MIDDLE NAME | Last Name |
| | Dana | | м |
| | TELEPHONE | E-MAIL | E-MAIL ENABLED |
| | | JK @ha | |
| | SUBSCRIPTION LEVEL | | |
| | Full Time | ~ | |
| | | | |

Refer to the following for tab details:

"Profile Information Tab" on page 106

"Security Settings Tab" on page 106

"Preferences Tab" on page 108

"Subscriptions Tab" on page 110

"Agency & Assignments Tab" on page 111

"Officer Information Tab" on page 113

"Employee Information Tab" on page 115

"Jurisdictions" on page 117

"Account History" on page 120

Activate a User

Use the following procedure to activate a user.

- 1. Access the *Manage Users* page. For more information, refer to "Manage Users" on page 93.
- 2. Locate the user to *Activate* and click on the green person icon in the *Actions* column on the user record.

| lanage User | S | | | | | | | | |
|-------------|-----------|---------|-----------------|-------------|-----------------|-------------------------|---------|---------------------|--------------------|
| | | | | | | | | | Go Back Add User |
| User Accou | nts Log | | | | | | | | |
| Search | | | Status | Deactivated | Subsci | ription Level | AII- | Reset Search | Show 100 ¢ entries |

| Angeline | | Ng | OFFICER | Deactivated | | Indiana State Police | Default | AGENCY_ADMIN DBA | |

Note: The system does not allow you to create or reactivate an RMS user with a duplicate badge number.

Note: Agency administrators can easily track end-user subscriptions by monitoring the allocation and usage of User Subscriptions. If your agency's user subscription allowed limit has been reached, you receive a warning stating the maximum number has been reached and to contact support to add additional subscriptions, or deactivate an existing user account. For more information on **User Subscriptions**, refer to "Agency Information Tab" on page 18 of the Agency Profile.

3. Enter a reason for activating the user and click **Activate** to confirm, or **Cancel** to return to the *Users Lookup* page.

| Activate User | |
|--|-----------------|
| Please enter reason to activate this User: | |
| | h |
| | Cancel Activate |

Deactivate a User

Use the following procedure to deactivate, or disable, a user record to make them inactive.

- 1. Access the *Manage Users* page. For more information, refer to "Manage Users" on page 93.
- 2. Locate the user to *Deactivate* and click on the **red person** icon in the *Actions* column on the user record.

| Aanage Use | | | | | | | | | |

3. Enter a reason for deactivating the user and click **Deactivate** to confirm, or **Cancel** to return to the *Manage Users* page.

| Deactivate User | |
|--|-------------------|
| Please enter reason to deactivate this User: | |
| | Cancel Deactivate |

Change Password

Administrators can change a user's password when the user has forgotten their password or is locked out.

However, users are encouraged to reset their own password using the **forgot password** link on the login page. Refer to the *Forgotten Password Procedure* section in the *Online RMS User Guide* for instructions.

There are two ways to reset a user's password:

- From the Manage Users page.
- From the Users Detail page.

Reset from Manage Users Page

- 1. Access the *Manage Users* page from the Administration top menu bar and search for the user account. For instructions, refer to "Manage Users" on page 93.
- 2. Click on the Change Password icon.

- 5. Select the **Assignment** from the drop-down list.
- 6. Select the Start Date.
- 7. Optionally, select an End Date.
- 8. Deselect Active if you do not want enable this setting at this time, otherwise, keep it checked.
- 9. Click Save.
- 10. Click the **Update** button on the top right of the window.

Profile Information Tab

The Profile Information tab of the User Details page contains basic user contact information.

| Profile Information | | | Go Back Emulate Update |
|---------------------|--------------------|-------------|------------------------|
| User Information | | | |
| | First Name | MIDDLE NAME | Last Name |
| | Christine | | SaurTest |
| | TELEPHONE | E-MAIL | E-MAIL ENABLED |
| | 5551112222 | ccsa | |
| | SUBSCRIPTION LEVEL | | |
| | Full Time | ~ | |
| | | | |

For details on accessing the User Details page, refer to "User Details" on page 97.

Make any necessary changes then click the **Update** button to save changes.

To Emulate a user, refer to "Emulate a User" on page 121.

Security Settings Tab

The *Security Settings* tab of the *User Details* page contains settings, such as roles and security levels assigned to the user, two factor authentication, mobile integration, and Team Support login id.

Roles and Security Levels

- 1. Click in the Incident Security Level field and select the appropriate incident security level for this user.
- 2. Click in the Index Security Level field and select the appropriate index security level for this user.

Level 1 is the lowest security level; users with this security level have access only to data that has not been restricted. Level 3 is the highest level; users with this security level have access to all data.

- 3. Check the Is Caliber Employee System Admin box if this employee is an agency admin, or leave it blank.
- 4. Click on one or more **Roles** to *select* from the list of roles that appear on the left.

To *deselect* a role, click a **Role** on the right.

You can also shorten the roles list by using the **Search** text box. Enter part of the role name to shorten the list by your entered text.

Optionally, use the Select All or Select None button to quickly select or deselect all.

5. Click into the **Security Groups** text box, then select one or more security groups from the list of groups that appears. This feature is the same as that described for Roles.

Two Factor Authentication

- **1.** Check the box to Enable.
- 2. Optionally, type the User Name.

Mobile Integration

- 1. Enter the Mobile User Name, if applicable.
- 2. Enter a Terminal ID, if applicable.
- 3. Enter the Unit ID, if applicable.
- 4. Enter the **One Time Password User Name**, if applicable

Team Support

If configured for your agency, users with a Team Support account can sign into Team Support from within Online RMS using the single sign-on feature.

The following criteria must be met to utilize this feature:

- The Team Support SSO feature must be enabled for the agency.
- And the agency admin must have the permission category *Support Set Team Support SSO ID* to see and enter the Team Support Login ID on the User Admin page.
- And the user must have the following to submit tickets using SSO:
 - Permission category *Support Access Team Support SSO* assigned to their role.
 - Permission category *EJS Support submit tickets* assigned to their role.
 - Team Support Login ID.

Follow these steps to grant access to user:

- 1. Enter the user's Team Support Login ID or leave it blank.
 - Suppose a login id exists and the user chooses to submit a ticket from within Online RMS. In that case, a new browser window opens, logging the user into the Team Support website automatically, where they can submit a ticket.
 - Suppose the login id field is blank and the user chooses to submit a ticket from within the Online RMS. In that case, an Online RMS Support form opens, where they can submit a ticket or provide feedback to Caliber Staff without logging into Team Support.

For more information on submitting support tickets, refer to the *Caliber Online RMS User Guide*.

When finished updating the User, click **Update** on the top right of the window.

Preferences Tab

Administrators can update the user's preferences from the User Details page.

- 1. Access the *Manage Users* page from the Administration top menu bar and search for the user account. For instructions, refer to "Manage Users" on page 93.
- 2. Click the Edit icon on the Manage Users page.

| Manage U | lsers | | | | | | | | | | | |

Click the edit icon to edit the subscription, or click the trash icon to delete the sub-

With appropriate permissions, users can **Subscribe** to existing master index records (person, address, vehicle, etc.) to receive notification when someone views, updates or associates records to which they have interest.

For example, users can **Subscribe** to Williams Jones' master person record to receive notification when someone applies updates to his master person record.

For more information on creating a new subscription, refer to the Master Indices chapter in the *Caliber Online RMS User Guide*.

Agency & Assignments Tab

Administrators can update the user's agency and assignments from the User Details page.

- 1. Access the *Manage Users* page from the Administration top menu bar and search for the user account. For instructions, refer to "Manage Users" on page 93.
- 2. Click the Edit icon on the Manage Users page.

| /lanage Use | rs | | | | | | | | | |

| | Click Here to Add One | |

5. Complete each of the fields for which you have information.

Hover your mouse over the CAD Badge blue information bubble ¹ for mapping instructions with CAD users.

Note: For agencies with Caliber CAD spill integration with Online RMS, **CAD Badge** *must* match **Badge Number** in Caliber CAD.

Note: The system does not allow you to create or reactivate an RMS user with a duplicate badge number.

6. Click the **Update** button on the top right of the form to save.

Employee Information Tab

Administrators can update employee information from the User Details page.

- 1. Access the *Manage Users* page from the Administration top menu bar and search for the user account. For instructions, refer to "Manage Users" on page 93.
- 2. Click the Edit icon on the Manage Users page.

Emulate a User

Administrators, with appropriate permissions, can **Emulate** (act as) other users within their own agency. Emulation is a troubleshooting tool, allowing the administrator to look at a user account to determine the nature of a problem and facilitate solutions.

Note: Emulation activity is logged to the database for auditing and tracking purposes.

There are two ways to Emulate a user:

• From the *Manage Users* page.

• From the User Details page.

Manage Users Page

Use the following procedure to **Emulate** a user's account from the *Manage Users* page.

- 1. Access the *Manage Users* page and search for the user you want to emulate. For more information, refer to "Manage Users" on page 93.
- 2. Click on the emulate icon in the Actions column to display that user's Home page.

User Details Page

Use the following procedure to Emulate a user's account from the User Details page.

- 1. Access the *User Details* page for that user. For more information, refer to "User Details" on page 97.
- 2. Click the **Emulate** button on the top right of the window to emulate the user.

Emulate

Navigate Online RMS as the Emulated User

1. Whichever method you use to emulate a user, the **Home Page** appears as if you are that user.

Notice that the name of the user you are emulating appears on the top right.

- 2. Navigate through Online RMS as if you were the user to locate the information you need.
- 3. To stop emulation, refer to "Stop Emulating User" below.

Stop Emulating User

Whichever method you use to emulate a user, the same process stops emulation.

1. To stop emulating the user, click on the **user's name**, then select **[Emulation] Main User** from the drop-down list.

Add a User

Use the following procedure to add one user record.

Note: For instructions on adding multiple user records at once, refer to "Add Mass Users" on the facing page.

- 1. Access the *Manage Users* page. For details, refer to "Manage Users" on page 93.
- 2. Click the Add User button to open the Add User page.

| Manage Users | | |
|----------------------------------|----------------------|----------------------------------|
| User Accounts Log | , | Go Back Add User Mass User Entry |
| Manage Users / Add User | | |
| | | Go Back Save |
| User Information | | |
| This is a Caliber RMS Admin User | | |
| User ID | Password | Confirm Password |
| | | |
| FIRST NAME | MIDDLE NAME | Last Name |
| | | |
| Agency | E-MAIL | TELEPHONE |
| -Select- | | |
| * 🔿 Sworn 🔿 Not Sworn | Agency Administrator | |
| Sex | RACE | SUBSCRIPTION LEVEL |
| -Select- 🗸 | -Select- | ✓ -Select- ✓ |

Note: Agency administrators can easily track end-user subscriptions by monitoring the allocation and usage of **User Subscriptions**. If your agency's user subscription allowed limit has been reached, you receive a warning stating the maximum number has been reached and to contact support to add additional subscriptions, or deactivate an existing user account. For more information on **User Subscriptions**, refer to "Agency Information Tab" on page 18 of the Agency Profile. You have reached the maximum number of active named user accounts for your Organization. Please contact support to add additional user accounts or deactivate an existing user account.

- **Note**: When First Name, Last Name, Sex, and Race are entered, the app will check for duplicate Employee records matching these values. If any are found, a button will appear allowing you to select an Employee match to associate to the new user rather than create a new employee record. Similarly, when Sworn is selected and First Name and Last Name are entered, the same as above will occur for Officer matches.
- Note: Selecting an Employee record will add a field showing the Employee information and a button to de-select the record. Also, the Sex and Race fields will be disabled while an Employee is selected, as these fields now reflect an existing record's information (Sex and Race is stored solely in Employee records). Selecting an Officer record will also a field showing the Officer information and a de-select button will appear. The Detective, Supervisor, Title, Badge #, and CAD ID fields will be disabled while an Officer is selected to reflect the selected officer's information. Selecting Not Sworn after selecting an Officer match will clear the selected Officer and all Officer fields.
- 3. Check This is a Caliber RMS Admin User if the user is an admin user, otherwise leave it blank.
- 4. Complete the form with the appropriate information.
 - You must choose either **Sworn** or **Not Sworn**. The user is automatically assigned roles to fit these needs.
 - Check the Agency Administrator box if applicable.
- 5. Click Save to save your entries to this tab.

Note: The system automatically creates an employee record.

6. The User Details page opens. Enter the necessary information in the applicable sections.

For more information on the *User Details* page and applicable sections, refer to "User Details" on page 97.

Add Mass Users

Use the following procedure to add multiple user records at once.

Note: For instructions on adding one user record, refer to "Add a User" on page 124.

- 1. Access the *Manage Users* page. For details, refer to "Manage Users" on page 93.
- 2. Click the Mass User Entry button to open the Mass User Entry page.

| Manage Users | | | | | | |
|---|--|------|------------------------------------|-------|--|--------------|

For more information on User Subscriptions, refer to "Agency Information Tab" on page 18 of the Agency Profile.

You have reached the maximum number of active named user accounts for your Organization. Please contact support to add additional user accounts or deactivate an existing user account.

- Note: When First Name, Last Name, Sex, and Race are entered, the app will check for duplicate Employee records matching these values. If any are found, a button will appear allowing you to select an Employee match to associate to the new user rather, than create a new employee record. Similarly, when Sworn is selected and First Name and Last Name are entered, the same as above will occur for Officer matches.
- **Note**: Selecting an Employee record will add a field showing the Employee information and a button to de-select the record. Also, the Sex and Race fields will be disabled while an Employee is selected, as these fields now reflect

an existing record's information (Sex and Race is stored solely in Employee records). Selecting an Officer record will also a field showing the Officer information and a de-select button will appear. The Detective, Supervisor, Title, Badge #, and CAD ID fields will be disabled while an Officer is selected to reflect the selected officer's information. Selecting Not Sworn after selecting an Officer match will clear the selected Officer and all Officer fields.

- **Note**: Attempting to save a user add when a user has potential Employee/Officer matches, but for whom a match has not been selected, will display a dialog asking you if you wish to continue making new records despite matches to existing records. If multiple user records select the same Employee/Officer record, a validation error will occur.
- 3. Check This is a Caliber RMS Admin User if an admin user, otherwise leave it blank.
- 4. Complete the form with the appropriate information.
 - You must choose either Sworn or Not Sworn.
 - When you enter the person's first and last name, the NEW USER name on the left changes to the first and last name as shown below.

- 6. Repeat steps 3 and 4.
- 7. Repeat steps 5 and 6 until all the new users have been entered.
- 8. Click Save to save all new entries.
- 9. Click Go Back to return to the Manage Users page.
- **10.** On the *Manage Users* page, search for the newly added records to update the roles, preferences, subscriptions.

For more information on searching and updating, refer to "Manage Users" on page 93.

Chapter 8. Personnel Management

The **Personnel Management** module provides the ability to manage employee information, regardless of whether employees have an Online RMS account.

Administrators with the appropriate permissions can add personnel to an agency or schema. **Personnel Management** is included in release 10.30 and above as a standard feature.

- Master Employee records cannot be deleted, only disabled (made inactive).
- An employee name can only be used once within one database.
- Master Employee records can be archived (saved) before applying updates.
- Three new permission categories for managing personnel are available to assign to roles:
 - Schema/System Level
 - Organization/Multi-tier Agency Level
 - Agency Level
 - **Note**: The new permission categories are assigned to the *System_Admin*, *Organization_Admin*, and *Agency_Admin* roles, respectively, for the initial 10.30 release.

This module also provides a method of tracking training and certifications of employees, providing the **Training Module** is activated for your agency. For more information about the **Training Module** refer to "Training Module" on page 151. Training

Access Personnel Management

Click the **Records Management** option on the top navigation bar, then click Records Management on the menu that appears to display the *Records Management* page. Click the **Personnel Management** icon to open the *Employee Search* page. Alternatively, select **Personnel Management** from the **Records Management** drop down menu.

Option 1

Option 2

| Records Management ▼ Forms An |

| Warrants |

Enter your search criteria in the *Employee Search* page to display a list of employees, or click the **Add Employee** to add a new employee.

See "Employee Search" below and "Add an Employee" on the next page for instructions on searching and adding employees, respectively.

Employee Search

Use the following procedure to search for specific employee records.

- 1. Access the *Personnel Management* page. (See "Access Personnel Management" on page 129, if needed.)
- 2. Enter the search criteria on the *Employee Search* page. Enter data into as many fields as you would like. The more information you enter, the shorter the search results, or leave all fields blank to return a list of all employees.

| | | Go Back Reset Sear | ch | | |

Additional search criteria is included in Online RMS 10.31 and above. Click on **Additional Criteria** and choose *Course* or *Certifications* from the list.

| ADDITIONAL SEARCH CRITERIA | |
|---------------------------------------|---|
| -Select- Courses Certifications | 5 |

- Note: Leave the Is System User Yes and No options blank to return a list of employees that match the search criteria, regardless of whether or not they are Online RMS users. Click Yes to return a list of employees that are only Online RMS users. Click No to return a list of only employees that are not Online RMS users.
- 3. Click the **Search** button at the bottom of the page to display the *Employee Search Results*, or click the **Reset** button to remove the entered criteria to start the search over.

Users with proper permissions can edit employee records, export the search results to a file, or view basic employee information from the *Employee Search Results* page.

Employee Search Results Example

Note: The **Employee Info** data is shared with the *User Module* in instances when the employee has a corresponding Online RMS user record.

Additional Data

This area is used to capture other employee data such as, Service History, Education, Languages, Addresses, etc. You can also attach documents or photos, and add a picture of the employee. Click on an individual link, complete the entry form that appears, then click **Save**. The entry form is varies by individual link.

Example:

- a. Click on the Add Education link to display the Education entry form.
- b. Enter the appropriate data and click **Save**.

| Education | × |
|------------------|-------------|
| Түре | |
| Bachelor of Arts | ~ |
| DATE OF INFO | |
| 03/20/2019 | 曲 |
| COMMENTS | |

| | Cancel Save |

c. The saved data displays in the Education grid.

| i Education | | | | | |
|------------------|----------|--------------|---------|--|--|
| Education | Comments | Date Of Info | Actions | | |
| Bachelor of Arts | | 02/26/2019 | 2 | | |

Note: The Service History data is shared with the Officer Daily Log.

5. Optionally click on the *Training* tab to register the employee for training. For details refer to "Manage an Employee" below.

Manage an Employee

You can update an existing employee record, and with proper permissions, you can delete certain existing details of that employee such as, Education, Skills, Phone Numbers, etc.

If the employee is also an Online RMS user, a **Manage User** button appears on the *Employee* page for easy access to the user record.

If your agency is using the **Training Module**, and you have proper permissions, you can also track training and certifications for the employee.

Update Existing Employee Record

Use the following procedure to update an employee record.

- 1. Access the *Personnel Management* page. (See "Access Personnel Management" on page 129, if needed.)
- 2. Search for the employee record you need to update. (See "Employee Search" on page 131, if needed.)
- 3. Click in the Actions column to the far right of the user record to display the *Employee* page. There are two tabs: *Employee Info* and *Training*. The *Employee Info* tab opens by default.

- 4. To add an employee picture, page down while on the *Employee Info* tab then click the Add Attachment link, upload the photo, then choose **Employee Photo** as the image type.
- 5. Make other changes as needed on the *Employee Info* tab. Refer to "Add an Employee" on page 132 for instructions on adding additional data options.
 - Note: The Associate/Un-Associate User button appears as either Associate User or Un-Associate User depending on whether there is an existing user ID associated with the employee. Click the **Associate User** button to find potential matches to Online RMS user IDs based on First Name and Last Name. Click the **Un-Associate User** button to de-link an employee from a user ID.

- b. Click the **Delete** icon in the Actions column to delete.
- c. Click Yes to confirm delete or click No to exit without deleting.

| Message From RMS | |
|------------------|--------|
| Are You Sure? | |
| | No Yes |

Eligible Ranks

- a. The *Eligible Ranks* section is view only. Data cannot be changed or deleted from this section.
- 7. Click Update or Save (Save and Archive).

Update

This option updates the current *Master Employee* record. Select this option if you want to overwrite the *Master Employee* record without arching (saving) a copy prior to the update.

Save

This option creates a new *Master Employee* record with your changes, and archives (saves) a copy of the master record before the update. *Archived* data is an accumulation

of historical information that can be viewed later. Archived data is not changeable; it is meant to be a snapshot in time.

For example, if you add Kris LeClaire's middle name to her *Master Employee* record and click **Save**, then a new *Master Employee* record is created containing the middle name, and the record without the middle name is saved (archived) for later viewing under the *Employee History* grid of the *Employee* page.

Delete Additional Options

You can delete existing Additional Options (details) with the proper permissions.

1. Click the Delete icon and under to the *Actions* column to delete.

| Education Add Educat | | | | | | |
|--------------------------|----------|--------------|---------|--|--|--|
| Education | Comments | Date Of Info | Actions | | | |
| GED Certification | 0 | 02/28/2018 | 2 | | | |
| Certification | 0 | 12/02/2017 | 2 | | | |

2. Click Yes to confirm, or No to return to the Employee page without deleting.

| Message From RMS |
|------------------|
| Are You Sure? |
| No Yes |

If you chose to click **Yes**, then the *Additional Option* record is permanently removed and cannot be retrieved or viewed later.

Note: Additional Options are not Archived (saved).

Navigate to the User Record

If the employee is also an Online RMS user, a **Manage User** button appears on the *Employee* page for easy access to the user record, otherwise the button does not appear.

Caliber Public Safety

Chapter 9. Criminal Complaint

The Criminal Complaint module is for managing criminal complaints against arrestees and offenders, and approve or disapprove through a guided review process before submitting it to the state.

To utilize this module, it must be turned on for the agency.

Court Cases can be associated with Criminal Complaints.

Two Approval Levels

The agency has the option to utilize a 1 or 2 level approval for Criminal Complaints. Level 1 is the default.

Level 1

The creator of the complaint sends it to the supervisor for approval.

The supervisor can disapprove and send the complaint back to the creator.

The supervisor approves and submits the complaint data to the court in one action, or approves then submits later.

Level 2

The creator of the complaint sends it to the supervisor for approval.

The supervisor can disapprove and send the complaint back to the creator.

The supervisor approves the complaint.

The court officer can disapprove an approved complaint and send the complaint back to the creator.

The court officer submits the approved complaint data to the court.

Level 1 is the default setting. Your agency administrator can elect to turn on the 2-Level Approval Process using the **Maint Value** settings under the Administration menu.

Turn on Criminal Complaint Approval Level 2

With appropriate permissions, you can turn on 2-Level Approval for your agency using **Maint Value** settings:

- 1. Access the **Maint Value** table. For instructions, refer to "Access Maintenance Values" on page 346.
- 2. In the Search field, type **complaint_2** to display the record.

| Show 10 + entries Search | | | | | | h: complaint_2 | | | | |

| Showing 1 to 1 of 1 entries (fi | Itered fror | n 267 total entries) | | Prev | ious 1 Next |

3. Click the edit icon to open the *Edit Maintenance Value* dialog.

| Application | Module |
|----------------|-----------------------|
| E*Justice | E*Core |
| EFFECTIVE DATE | Keyword |
| 08/19/2020 | CRIM_COMP_SUBMIT_DAYS |
| VALUE | |
| 10 | |

- 4. Enter the number of days in the Value field.
- 5. Click OK.

Create Criminal Complaint from Arrest

With appropriate permissions, you can turn on the setting to allow users to create criminal complaints from the Arrests using **Maint Value** settings:

- 1. Access the **Maint Value** table. For instructions, refer to "Access Maintenance Values" on page 346.
- 2. In the Search field, type **complaint_create** to display the record.

| Show 10 💠 entries Search: complaint_create | | | | | | |
|--|---------------|---------------------------------------|----------------|------------|---------|------|
| Keyword 1 | Value 11 | Description 11 | Effective Date | End Date 1 | Actions | |
| COMPLAINT_CREATE_FROM_ARREST | Y | Create Criminal Complaint from Arrest | 08/26/2020 | | | Ľ |

3. Click the edit icon to open the *Edit Maintenance Value* dialog.

| Application | Module |
|----------------|---------------------------|
| E*Justice | E*Core |
| EFFECTIVE DATE | Keyword |
| 08/26/2020 | COMPLAINT_CREATE_FROM_ARI |
| VALUE | |
| Y | |

- 4. Enter the Y for allow and N for disallow in the Value field.
- 5. Click OK.

Chapter 10. Court Cases

The Court Case module allows users to create and manage court cases against arrestees and offenders.

To utilize this module, it must be turned on for the agency.

Court Cases can be associated with Criminal Complaints.

Configurations

Permissions

The following permissions are available:

- Court Case Add and Edit
- Court Case Delete
- Court Case Vlew
- Court Case Always Edit
- Manage Court Appearances

EJS_CODES

- Appearance Type = COURT_APP_CODES
- Appearance Reason = COURT_APP_REASON_CODES
- Appearance Status = COURT_APP_STATUS_CODES
 - Values: Active, Closed, Dismissed, CWOF, Guilty, Not Guilty

- Court Case Reference Number Type
- Court Case Status = COURT_CASE_STATUS_CODES
 - Values: Filed, Active, Denied, Closed

Notification Types

- COURT APPEARANCE ASSIGNED
- COURT APPEARANCE UPDATED
- COURT APPEARANCE CANCELLED

Chapter 11. Training Module

The **Training Module** provides administrators with proper permissions the ability to configure Training Courses and Certifications.

The **Training Module** is available with full subscription access to Caliber Online RMS 10.31 and higher. The Training Module is disabled by default but can be enabled, and additional user training is available for purchase. Contact Caliber Public Safety Support for more information.

Agency administrators have the ability to configure this module specific to your agency's needs, such as an eligible list of course types (i.e., gun safety, mobile training, etc.), classification levels, and other configuration settings as described later in this chapter.

There are two components to the Training Module:

- Courses
 - Courses are training classes with specific focus to refine skills (i.e., Online RMS training).
 - Configure courses by way of the Administration menu.
 - There are two components to Courses:

Template

A Course Template is a standard form that is used as a starting point when creating Course Instances. For example, users with proper permissions can create a Template that is pre-populated with a standard class description, prerequisites, and attached documents such as a class outline or handouts, that pull into a newly created Course Instance automatically.

Note: Templates are managed only through the *Administration* menu. For more information on managing Templates refer to "Manage Course Configurations" on page 155.

Course Instance

A specific course to which employees can be assigned. There could be multiple records of the same course, but with different dates or other information.

Note: Course Instances are managed through the *Training* option under the *Records Management* menu. For more information on Course Instances, refer to the *Caliber Online RMS User Guide*

- Certifications
 - Proof of achieving specific skills or knowledge level that are mandatory for specific job duties (i.e., gun safety certification).
 - Create and maintain certifications by way of the *Training* option under the *Records Management* menu.

Note: Certifications are managed through the *Training* option under the *Records Management* menu.

There are three new permissions categories beginning with the Online RMS 10.31 release:

- Training Schema Level Management (System Level)
- Training Organization Level Management (Multi-tier Agency Level)
- Training Agency Level Management
 - **Note**: The new permission categories are assigned to the *System_Admin*, *Organization_Admin*, and *Agency_Admin* roles, respectively, for the initial 10.31 release.

Access Course Configuration

1. Click the Administration icon on the top navigation bar, then click again on Administration from the drop-down menu to open the *Administration Home* page. Then click on the **Module Admin** link to display the *Module Configuration* page.

| | Go Back |

| MY TEMPLATE | | | | | Yes | e e |

The Training Administration page contains a Product Config tab with four sub-tabs:

- Course Templates
- Maintenance Settings
- Course Types
- Course Classifications

Configure Courses

The *Course Templates*, *Course Types*, and *Course Classifications* tabs are empty by default until configured by your agency administrator to meet your agency's needs. For details on how to configure courses, refer to "Manage Course Configurations" on the facing page.

Number of Days Nearing Expiration

The *Maintenance Settings* tab contains a list of Courses and Certifications that are due to expire within a specified number of days. For details on how to configure the number of days nearing expiration, refer to "Maintenance Settings" on page 162.

Manage Course Configurations

There are four configurations associated with a Course:

- Course Types
- Course Classifications
- Course Template
- Number of days to notify users before Courses and Certifications are due to expire.

It is best practice to configure the courses in the order listed, as *Course Types* and *Course Classifications* must exist before assigning them to a *Course Template*. For more information on associating a Course Type and Course Classification with a Course Template refer to #CourseTemplates.

Course Types

Add Course Type

- 1. Click on the **Course Types** tab on the *Training Administration* page. For details on accessing the *Training Administration* page refer to "Access Course Configuration" on page 152.
- 2. Click the Add Course Type button to open the Course Type Code window.

Note: The *Training Course Dashboard* and *Training Certification Dashboard* displays a list of Courses and Certifications that are due to expire within a specified number of days. For more information on the Training Dashboard refer to the *Training Module* section of the *Caliber Public Safety Online RMS User Guide*.

| ning Administration Go Ba | | | | | |
|---------------------------|----------------------|-------------------|------------------------|--------|---|
| Course Templates | Maintenance Settings | Course Types | Course Classifications | | |

Note: The same process applies to both the *Training Certification* and *Training Course* settings.

Chapter 12. Training Videos Module

Training Videos Overview

Beginning with Online RMS 11.4.0, agencies can enhance users' training and learning experience with the **Online Training** feature. The **Online Training** feature offers standard Caliber video-based learning to all users and, optionally, agency-specific videos. In addition, the agency administrator can enable a feature that pops up videos on a particular page, requiring users to watch the videos.

Video Rules and Requirements

- Agency must have the **Online Training** feature turned on and configured to get the pop up (required) videos. Contact Caliber Public Safety to turn on and configure this feature.
- Agency must enable this feature on the agency profile for users to have access to nonstandard videos.
- No roles or permissions are associated with this feature; the Online Training feature controls access.
- Supports only MP4 files at this time.
- Contact Caliber Public Safety to upload videos.
- The agency administrator has the option to require user acknowledgment after viewing the video.
- The **date and time** watched by users are saved to the database on videos that **require acknowledgment**.

Benefits of Video-Based Learning

- A cost-effective training approach.
- Provides up-to-date training opportunities.

• Provides a Training Video Library where users can keep track of their videos.

Note: For more information on the **Training Video Library**, refer to the *Online RMS User Guide*.

- Provides the ability to watch videos more than once.
- Enforces required training.
- Provides a history of e-training participation.

Access Training Videos

Follow these steps to access the Training Videos admin link:

1. Click on the Administration label on the top menu bar then click Administration again.

2. Click on Training Videos under Miscellaneous.

3. The Training Videos Administration grid appears.

| inin | g Videos Administration | | | | | | Go Back Add V |

| | |
| | Close Save |

5. Complete the following fields in the dialog box:

ID

The ID is read-only. This number uniquely identifies the video and is generated automatically when you click the **Save** button.

Video URL

The URL to the video file. Contact Caliber Public Safety to add videos.

Video File Type

Online RMS supports only MP4 files at this time.

Application Page

Select the appropriate Application Page from the drop-down list provided.

Application Page

| Data Submission |
|-------------------------|
| -Select- |
| Administration Agencies |
| Administration Landing |
| Administration Users |
| Data Submission |
| Forms and Reports |
| Home Page |
| Incident Names |
| Incident Narratives |
| Incident Offenses |
| Incidents Approval |
| Incidents Create |
| Incidents Header |
| Incidents Landing |
| Incidents Mapping |
| Incidents SmartSearch |
| Incidents Status |
| Incidents Summary |
| Master Indexes |

Video Description

Enter a description for the video.

Acknowledge Required

Keep the box checked to require users to acknowledge having watched the video. The video continues to pop up automatically each time users log into Online RMS and access a page to which the video is associated until they acknowledge having watched it. The date and time watched by the user is saved to the database on videos that are required.

Uncheck the box if users are not required to acknowledge having watched the video.

Sort Order

The Sort Order defaults to 0. The Sort Order is used if you have multiple videos that you want to appear on the same page in a particular order.

For example:

If you want two videos to show on the Home Page, you associate each video to the Home Page, then assign a Sort Order to each video: Video 1 could be Sort Order = 0 and Video 2 could be Sort Order = 1.

If the Sort Order is 0 on all videos, then the videos sort in the order you added the videos.

6. Click Save.

Edit Training Video

Follow these steps to add Training Videos to Online RMS:

- 1. Access *Training Videos Administration*. For instructions, refer to "Access Training Videos" on page 166.
- 2. Optionally, search for specific training videos to ensure the video you want to edit. For instruction, refer to "Search Training Videos" on page 167.
- 3. Click on the Edit icon on the video you want to update.

5. Update the values in the fields as needed:

ID

The ID is read-only. This number uniquely identifies the video and is generated automatically when you click the Save button.

Video URL

The URL to the video file. Contact Caliber Public Safety to add videos.

Video File Type

Online RMS supports only MP4 files at this time.

Application Page

Select the appropriate Application Page from the drop-down list provided.

| Data Submission |

| Incidents Approval |
| Incidents Create |
| Incidents Header |
| Incidents Landing |
| Incidents Mapping |
| Incidents SmartSearch |
| Incidents Status |
| Incidents Summary |
| Master Indexes |

Video Description

Enter a description for the video.

Acknowledge Required

Keep the box checked to require users to acknowledge having watched the video. The video continues to pop-up automatically each time you log into Online RMS and access a page to which the video is associated until you acknowledge having watched it. The date and time watched by the user is saved to the database on videos that are required.

Uncheck the box if users are not required to acknowledge having watched the video.

Sort Order

Enter the Sort Order if you want to sort the video list in a particular order. It sorts by ID by default.

6. Click Save.

Delete Training Videos

Follow these steps to delete Training Videos from Online RMS:

- 1. Access *Training Videos Administration*. For instructions, refer to "Access Training Videos" on page 166.
- 2. Optionally, search for specific training videos to ensure the video you want to add doesn't already exist. For instruction, refer to "Search Training Videos" on page 167.
- 3. Click the **Delete icon** on the video you want to remove.

4. Click Yes to confirm deletion, or No to return to the previous screen without deleting.

Chapter 13. Permissions Module

This module provides access to features used by your agency/schema to comprise the various roles necessary for daily operations. Access within this module varies greatly, depending upon the users administrative roles/permissions.

Permission Categories

Permission Categories are assigned certain Roles, and Roles are assigned specific Permissions.

Click the **Permissions** icon on the *Administration Home* page to open the *Permission Categories* page. Alternatively, click the **Permissions** option on the **Administration** menu.

| | | | | Go Back |

| Showing 1 to 10 of 388 entries Previous 1 2 | 3 4 | 5 | 39 | Next |

This page lists the various **Permissions Categories** that are available to your agency/schema. While Permissions Categories are managed by Caliber Public Safety personnel, agency personnel with proper permissions can view the available categories and details. **Permissions Categories** are listed in alphabetical order.

To view the Roles and Permission details of a particular Category, either click the View icon

in the Actions column or on the Category link to open the Permission Category Details

page. With appropriate permissions you can also add one or more roles directly to a Permission Category.

| CID_SUPERVISOR | | | |
| COMMAND | | | |
| COPY_DL TEST - | | | |

• View a list of active users that have one or more of the Roles listed.

Click the Active Users link to view the active user list.

Note: For more information on Roles, see "Roles" on page 77.

Chapter 14. Tables

Code Tables and RMS Tables are used throughout the Online RMS application by users with proper permissions and are maintained from the Tables page. Additional System Tables are available to Caliber Public Safety personnel only and are not available for general use.

Access Tables

Click the **Tables** icon on the *Administration Home* page to access the *Tables* page. For more information on accessing the *Administration Home* page, refer to "Access Administration" on page 1.

Alternatively, click on the **Administration** option on the top navigation bar to display the dropdown menu, then click **Tables**.

The Tables page opens with two tabs: Code Tables and RMS Tables.

Note: A *System Tables* tab is also available to Caliber Public Safety personnel only, for agency setup purposes.

- For information on Code Tables "Code Tables" below.
- For information on **RMS Tables** tab is the second tab. "RMS Tables" on page 184.

Code Tables

The **Code Tables** tab is open upon access of the *Tables* page.

| Code Tab | les RMS Tables | | Go Ba |
|----------------|------------------------------|------------------------------|---------|
| SEARCH B | | SEARCH | |
| -Select- | ~ | Enter search text | |
| | | Reset Search | |

| 12 | ADDRESS_COLLAPSE_SRCH_CODES | ADDRESS_COLLAPSE_SRCH_CODES | Ľ |
| 13 | SUBMIT_APPROVAL_GROUP | SUBMIT_APPROVAL_GROUP | ľ |

The **Code Tables** tab displays a list of code tables that RMS uses to populate Lists of Values (LOV), or pick lists.

From this tab, administrative users with the appropriate roles/permissions can perform the following tasks:

- Search existing code tables. "Search Code Tables" on the facing page for instructions.
- Edit a code in a code table. For more information, refer to "Edit a Code Table" on the facing page for instructions.

Search Code Tables

Use the following procedure to search the **Code Tables**.

- 1. Click I in the Search By field.
- Select from the drop-down. (Available options include: Code, Description, and Table Name.)
- 3. Click in the **Search** text field and type in a keyword.
- 4. Click the **Search** button to redisplay the table as shown below for a search for *codes* with the key word *INCIDENT*.

| Code Tables | RMS Tables | | Go Bac |
|-------------|-------------------------------|-------------------------------|--------|
| SEARCH BY | SEARCH | | |
| Code | Res | et Search | |
| S.NO | ↓↑ Code | 11 Description 11 Action | ons |

| 13 | INCIDENT_AUDIT_CODES | INCIDENT_AUDIT_CODES | |
| 14 | INCIDENTS | Incidents | |

Codes containing the keyword display.

5. Navigate to the Next page as needed until you locate the specific code.

Edit a Code Table

Use the following procedure to edit a code table.

- 1. Locate the code table on the *Tables* page. Refer to "Code Tables" on page 180 for details.
- 2. Click in the Actions column to display *Code Table Details*.

| | | | | | | Go Back | Setup Agency Codes |

Click **Save**, then click **Go Back** to return to the *Code Table Details* page.

- 6. To delete a code from the code table, refer to "Delete a Code" below.
- 7. Click **Save** at the bottom of the page to save changes and return to the *Tables* page.

Delete a Code

Use the following procedure to delete a code from a code table.

- 1. Locate the code table on the *Tables* page. Refer to "Code Tables" on page 180 for details.
- 2. Click in the Actions column to display the *Edit Code Table*. Refer to "Edit a Code Table" on page 181 for details.
- 3. Locate the code you want to delete then click 👼 to the right of the code.

4. Click Yes to confirm deletion, or click No to cancel deletion, and return to the *Tables* page.

RMS Tables

From the *Tables* page, click the **RMS Tables** tab to display the *Tables* page. For details on how to access the Tables page refer to "Access Tables" on page 179.

Each icon on this page provides links to an **RMS Table**.

Note: Links are permission-based, so the list varies by user. If you do not see a particular link on the **RMS Tables** tab, it is likely because your user account is not configured to access that item.

- The <u>Officer</u> link displays the *Officers* table. "Officers" on page 186 for information and instructions.
- The <u>Dispatch Event Types</u> link displays the *Dispatch Event Types* table. "Dispatch Event Types" on page 189 for information and instructions.
- The <u>NIBRS Offense Codes</u> link displays the *NIBRS Codes* table. "NIBRS Codes" on page 191 for information and instructions. (National Incident Based Reporting System (NIBRS) is an incident-based reporting system for crimes.)

- The <u>State Offense Codes</u> link displays the *State Offense Codes* table. "State Offense Codes" on page 194 for information and instructions.
- The <u>Local Offense Codes</u> link displays the *Local Offense Codes* table. "Local Offense Codes" on page 196 for information and instructions.
- The <u>Offense Group Codes</u> link display the *Offense Group Codes* table. See "Offense Group" on page 199 for information and instructions.
- The <u>Arrest Codes</u> link displays the *Arrest Charge Codes* table. "Arrest Charge Codes" on page 201 for information and instructions.
- The <u>Charge Codes</u> link displays the *Charge Codes* table. "Charge Codes" on page 204 for information and instructions.
- The <u>Charge Category Codes</u> link displays the *Charge Categories* table. See "Charge Categories" on page 209 for information and instructions.
- The <u>Caution Codes</u> link displays the *Caution Codes* table. See "Caution Codes" on page 211 for information and instructions.
- The Incident Status / Offense Status Mapping link displays the Incident Status/Offense Status Mapping table. See "Incident Status/Offense Status Mapping" on page 218 for information and instructions.
- The <u>Judges</u> link display the Judges table. See "Judges" on page 223 for information and instructions.
- The <u>Court Locations</u> link displays the *Court locations* table. See "Court Locations" on page 220 for information and instructions.
- The <u>Common Place Name</u> link displays the *Common Place Names* table. See "Common Place Names" on page 225 for information and instructions.
- The <u>Approval Routing</u> link displays the *Approval Routes* table. "Approval Routes" on page 230 for information and instructions.
- The <u>Manage External Mappings</u> link displays the *Mapping Types* table. "Mapping Types" on page 234
- The <u>Notifications Setup</u> link displays the *Notification Types* table. "Notification Types" on page 227 for information and instructions.

Officers

From the **RMS Tables** tab of the *Tables* page, click the <u>Officer</u> link to display the *Officers* table as shown in the following example. For details on how to access the *Tables* page refer to "Access Tables" on page 179.

Export Officer List to Excel

You can export the contents of the Officer Table to Excel. Click on the **Export All To Excel** button to download the Excel file to your local machine.

Search Officers

Use the following procedure to search the *Officers* table.

- 1. Click in the **Search** text field and type in a keyword.
- 2. The search results automatically return records where data matches the text you typed in the Search field.

186

Officer History appears on the bottom portion of the screen showing updates that have occurred to that particular record. Officer History does not appear if updates to the record have not yet occurred.

- 3. Make changes as needed, clicking **Save** as needed to prevent loss of changes.
- 4. When changes are complete, click **Update** to save the record and return to the *Officers* table.

Delete an Officer

Use the following procedure to delete an officer record from the Officers table.

- 1. Locate the officer record you need to delete from the table.
- 2. Click in the Actions column in the same row as the record listing to display the confirm deletion prompt.
- 3. Confirm deletion and return to the *Officers* table.

Dispatch Event Types

From the **RMS Tables** tab of the *Tables* page, click the <u>Dispatch Event Types</u> link to display the *Dispatch Event Types* table. For details on how to access the *Tables* page refer to "Access Tables" on page 179.

| Show 10 ¢ entries | | | Go Back Add Event Type Search: |

| Showing 1 to 3 of 3 entries | | | Previous 1 Next |

Add a Dispatch Event Type

Use the following procedure to add a dispatch event type record to the *Dispatch Events Types* table.

1. Click the Add Event Type button to display an Add Event Type prompt as shown.

| Add Event Type | |
|----------------|-------------|
| CODE | |
| | |
| DESCRIPTION | |
| ACTIVE | |
| \checkmark | |
| | |
| | Cancel Save |

- 2. Click in the Code field and type a code for the new dispatch event type.
- 3. Click in the **Description** field and type a brief description of the new dispatch event type.
- 4. Leave the Active button checked.
- 5. Click **Save** to save the record and return to the *Dispatch Events Types* table, or click **Cancel** to return without saving.

Edit a Dispatch Event Type

Use the following procedure to edit a dispatch event type record in the *Dispatch Event Types* table.

- 1. Locate the record you need to edit in the table.
- 2. Click in the Actions column in the same row as the record listing to display the Add *Event Type* prompt as shown with values in the fields and check box.

| Edit Event Type | |
|-----------------|-------------|
| CODE | |
| EMS | |
| DESCRIPTION | |
| EMS | |
| ACTIVE | |
| \checkmark | |
| | |
| | |
| | Cancel Save |

3. Make changes as needed, then click **Save** to save the changes, and return to the *Dispatch Event Types* table.

Delete a Dispatch Event Type

Use the following procedure to delete a dispatch event type record from the *Dispatch Event Types* table.

- 1. Locate the record you need to delete from the table.
- 2. Click in the Actions column.
- 3. Click **Yes** to confirm deletion, or click **No** to cancel deletion, and return to the *Dispatch Event Types* table.

NIBRS Codes

From the **RMS Tables** tab of the *Tables* page, click the <u>NIBRS Codes</u> link to display the *NIBRS Codes* table as shown in the following example. For details on how to access the *Tables* page refer to "Access Tables" on page 179.

Search NIBRS Codes

Use the following procedure to search the NIBRS Codes table.

- 1. Click in the **Search** text field and type in a keyword.
- 2. Click Search to redisplay the table with the search results.

Add a NIBRS Code

Use the following procedure to add a NIBRS code to the *NIBRS Codes* table.

1. Click the Add NIBRS Code button in the upper right corner of the NIBRS Codes table to display the Add NIBRS Code page.

| NIBRS Code | | | Go Back |
|----------------------|---------------|--------------|---------|
| CODE | OFFENSE GROUP | DESCRIPTION | |
| | -Select- | • | |
| DETAILED DESCRIPTION | | | |
| | | | |
| | | | 11 |
| CRIME TARGETS | | | |
| Click To Select | | | |
| | ١ | Go Back Save | |

- 2. Click in the **Code** field (required) and type in a code.
- 3. Select an Offense Group, if applicable.
- 4. Click in the **Description** field and type a brief description of the code.
- 5. Click in the **Detailed Description** field and type a long description, if applicable.
- 6. Click in the Crime Targets field and choose one or more options from the list.
- 7. Click **Save** to save the record and return to the *NIBRS Codes* table.

Edit a NIBRS Code

Use the following procedure to edit a NIBRS code to the NIBRS Codes table.

- 1. Locate the NIBRS code record you need to edit in the table.
- 2. Click in the Actions column in the same row as the record listing to display the *Edit Officer* page as shown.

| NIBRS Code | | | | Go Back |
|----------------------|---------------|---------|--------------------|---------|
| CODE | OFFENSE GROUP | | DESCRIPTION | |
| 90Z | в | Ŧ | All Other Offenses | |
| DETAILED DESCRIPTION | | | | |
| | | | | |
| CRIME TARGETS | | | | // |
| × PERSON × SOCIETY | | | | |
| | | Go Back | Save | |

3. Make changes as needed.

- 4. Click Save. A successful save message briefly appears at the top of the page.
- 5. Click **Go Back** to return to the *Officers* table.

Delete a NIBRS Code

Use the following procedure to delete a NIBRS code from the NIBRS Codes table.

- 1. Locate the NIBRS code record you need to delete from the table.
- 2. Click a in the Actions column.
- 3. Click **Yes** to confirm deletion, or click **No** to cancel deletion, and return to the *NIBRS Codes* table.

State Offense Codes

From the **RMS Tables** tab of the *Tables* page, click the <u>State Offense Codes</u> link to display the *State Offense Codes* table as shown in the following example. For details on how to access the *Tables* page refer to "Access Tables" on page 179.

| Show 10 💠 en | tries | | | Searc | | Add State Code |
|--------------------------|--------------------------|--|----------|-------|---------|----------------|
| State Offense †↓ Code | NIBRS Code 11 | Description 11 | Status | †↓ | Actions | ti. |
| 10-14-3-29.5 | 90Z - All Other Offenses | Public Safety- Violation Of Local Travel | Inactive | | | 2 |
| 11-8-8-15 | 90Z - All Other Offenses | CORRECTION- SEX OFFENDER FAIL TO POSSESS | Active | | | 2 |
| 11-8-8-17 | 90Z - All Other Offenses | Correction- Sex Offender Registration Vi | Active | | | 2 |
| 11-8-8-18 | 90Z - All Other Offenses | Correction- Sexual Violent Predator Duty | Active | | | |
| 1111555 | 90Z - All Other Offenses | Test | Active | | | 2 |

Search State Offense Codes

Use the following procedure to search the State Offense Codes table.

1. Click in the **Search** text field and type in a keyword.

2. Click **Search** to redisplay the table with the search results.

Add a State Offense Code

Use the following procedure to add a state offense code to the State Offense Codes table.

1. Click Add State Code button in the upper right corner of the *State Offense Codes* table to display an *Add State Offense Code* page as shown below.

| State Code | | | | Go Back |
|----------------------|------------|---------|--------------|---------|
| STATE OFFENSE CODE | NIBRS CODE | | DESCRIPTION | |
| | -Select- | ~ | | |
| DETAILED DESCRIPTION | | | | |
| | | | | |
| Астіче | IBR Code | | Arrest Codes | |
| | | | | |
| OFFENSE GROUPS | | | | |
| Click To Select | | | | |
| INCIDENT TYPE | | | | |
| Click To Select | | | | |
| | | Go Back | Save | |

- 2. Complete all required fields and applicable optional fields.
- 3. Leave the Active button checked.
- 4. Enter the IBR Code.
- 5. Optionally, select the Offense Groups.
- 6. Optionally, select the **Incident Type** to relate incident types to offenses.

Relating one or more Incident Types to an offense requires at least one related offense on the Incident Report when that Incident Type is added to an Incident Report.

7. Click **Save** to save the record and return to the *State Offense Codes* table.

Edit a State Offense Code

Use the following procedure to edit a state offense code in the *State Offense Codes* table.

1. Locate the state offense code you need to edit in the table.

2. Click in the Actions column in the same row as the record listing to display the *Edit State Offense Code* page as shown.

| | | Go Back |
|----------------------|----------------------|---|
| STATE OFFENSE CODE | NIBRS CODE | DESCRIPTION |

Search Local Offense Codes

Use the following procedure to search the Local Offense Codes table.

- 1. Click in the **Search** text field and type in a keyword.
- 2. Click Search to redisplay the table with the search results.

Add a Local Offense Code

Use the following procedure to add a local offense code to the *Local Offense Codes* table.

1. Click the Add Local Offense Code button to display the Add Local Offense Code page as shown below.

| | Go Back |
|-------------|----------|
| OFFENSE | |
| | |
| DESCRIPTION | |
| | |
| Go Ba | ack Save |

- 2. Complete fields.
- 3. Click Save to save the record and return to the Local Offense Codes table.

Edit a Local Offense Code

Use the following procedure to edit a local offense code in the Local Offense Codes table.

- 1. Locate the code you need to edit in the table.
- 2. Click in the Actions column in the same row as the record listing to display the *Edit Local Offense Code* page as shown.

| Local Offense Code | | Go Back |

| | Go Back Save | |

- 3. Make changes as needed.
- 4. Click Save to save changes and return to the Local Offense Codes table.

Delete a Local Offense Code

Use the following procedure to delete a local offense code from the *Local Offense Codes* table.

1. Locate the code you need to delete from the table.

2. Click in the Actions column to display a confirmation prompt.

Note: A confirmation prompt displays only if the code is not associated with an incident report. Otherwise, the following message displays: This offense cannot be removed because it is associated with one or more incident reports. You may edit this offense and set it to inactive. To inactivate the code, access the *Edit Local Offense Code* page and select **Inactive** from the drop-down menu in the **Status** field, then click **Save**.

3. Click Yes to confirm deletion, or click No to cancel deletion, and return to the *Local Offense Codes* table.

Offense Group

From the **RMS Tables** tab of the *Tables* page, click the <u>Offense Group Code</u> link to display the *Offense Group Codes* table. For instructions on accessing the *Tables* page refer to <u>AccessTables.htm</u>.

- 2. Complete all required fields and any applicable optional fields.
- 3. Check all boxes that apply to this charge code.

Note: The **Display** check box must be checked for the charge code to display throughout areas of Online RMS where charge codes pulled-in.

4. Click **Save** to save the record and return to the *Charge Codes* table.

Edit a Charge Code

Use the following procedure to edit a charge code in the Charge Codes table.

- 1. Locate the record you need to edit in the table.
- 2. Click in the Actions column in the same row as the record listing to display the *Edit Charge Code* page.
- 3. Make changes as needed.
- 4. Click **Save** to save changes and return to the *Charge Codes* table.

Delete a Charge Code

Use the following procedure to delete a charge code from the *Charge Codes* table. You can delete a charge code when it has not yet been used anywhere in Online RMS.

- 1. Locate the record you need to delete from the table.
- 2. Click in the Actions column in the same row as the record listing. If the delete icon is not available to you, then you are not able to delete the charge code. To disable the charge code, uncheck the **Display** check box.
- 3. If a confirmation prompt displays, click **Yes** to confirm deletion, or click **No** to cancel deletion, and return to the *Charge Codes* table.

Manage Charging Language Templates

Use the following procedure to manage charging language templates.

Note: You must have appropriate permissions to perform this function.

1. Click the **Manage Charging Language Templates** button in the upper right corner of the *Charge Codes* table to display a *Charging Language Templates* page as shown below.

Note: You cannot delete a charge code that has been used in Online RMS. To disable the charge code, uncheck the **Display** check box.

Add Template

1. Click the Add Template button to open the Add Charging Language Template form.

- 2. Enter a unique Template Name.
- **3.** Enter text into the body area of the template, optionally using the standard formatting options.
- 4. Click Save to create the template and return to Charging Language Template.

Edit a Charging Language Template

Use the following procedure to edit a Charging Language Template.

- 1. Locate the record you need to edit.
- 2. Click in the Actions column to open the *Edit Charging Language Template*.

| Edit Charging Language Template | Go Back |

| | | -Select- | • | | â |
| | | Save | | | |

- 2. Complete all required fields and any applicable optional fields.
- 3. Check the Active box on the top section of the form if applicable.
- 4. Check the Active box on the Class line items where applicable.
- 5. Click **Save** to save the record and return to the *Charge Categories* table.

Edit a Charge Category

Use the following procedure to edit a charge category in the *Charge Categories* table.

- 1. Locate the record you need to edit in the table.
- 2. Click in the Actions column in the same row as the record listing to display the *Charge Category* page.
- 3. Make changes as needed.
- 4. Click **Save** to save changes and return to the *Charge Categories* table.

Delete a Charge Category

Use the following procedure to delete a charge code from the *Charge Categories* table. You can delete a charge category when it has not yet been used anywhere in Online RMS.

Note: You cannot delete a charge category that has been used in Online RMS. To disable the charge category, uncheck the Active check box.

1. Locate the record you need to delete from the table.

- 2. Click in the Actions column in the same row as the record listing. If the delete icon is not available to you, then you are not able to delete the charge category. To disable the charge category, uncheck the Action check box.
- 3. If a confirmation prompt displays, click **Yes** to confirm deletion, or click **No** to cancel deletion, and return to the *Charge Categories* table.

Caution Codes

The **Caution Codes** table provides a method to create and maintain a customized set of warnings that can be used on Master Person and Master Address records to inform personnel, with access to Master Indices, of potential dangers or problems specific to those persons and addresses.

Caution examples

Persons with active warrants, on probation, known to carry firearms, or suicidal tendencies.

An address that has a violent dog or an unusually tall fence.

A red Alert icon appears next to the person's name or address in the *Search Results* window, indicating active Caution Codes or Warrants. Hover your mouse over the Alert icon to view a summary of the all the active alerts, or click on the Alert icon to open details of all active alerts in a pop-up window.

You may also search person or address records by Caution Code and date range. Refer to the *Caliber Public Safety Online RMS User Guide* for details.

Agency administrators with appropriate permissions can create **Caution Codes**, Caution Categories, and assign Caution Category Roles, allowing administration of **Caution Codes** by specified user Roles and Categories. For example, you could have a specialized unit that keeps track of persons on probation, and only agency administrators or users assigned to this Role can add, edit or delete these codes on person records.

From the **RMS Tables** tab of the *Tables* page, click the <u>Caution Codes</u> link to display the *Caution Codes* table. For instructions on accessing the *Tables* page refer to <u>AccessTables.htm</u>.

| | | | | _ | Add Caution Co |
|----------------|----------------------|-----------------|---|---------|----------------|
| ihow 10 \$ ent | Ti Description | 1 Category | Category Roles | Search: | Actions |
| ASC | Assaultive/Combative | category | | Yes | |
| AST | Assaulted officer | | | Yes | ď |
| DEA | Deceased | Gang Task Force | CID_SUPERVISOR, GANG ALWAYS EDIT AGENCY | Yes | ď |
| DMMCAUTION | Dana's Caution Code | Gang Task Force | CID_SUPERVISOR, GANG ALWAYS EDIT AGENCY | Yes | ď |

| FSG | FSG VIOLENT caution | | | Yes | ľ |
| GNG | Known Gang Member | Gang Task Force | CID_SUPERVISOR, GANG ALWAYS EDIT AGENCY | Yes | ľ |
| HAIDS | Has AIDS | VIPER | VIPER | Yes | ľ |
| HEA | Health/Handicapped | | | Yes | ľ |

Two tabs are associated with the **Caution Codes** page: *Caution Codes* and *Caution Category Codes*.

Caution Codes Tab

The *Caution Codes* tab lists the Category Codes and associated Caution Category Codes and Roles, if any.

Note: Caution Category Codes are optional. Refer to the "Caution Category Codes Tab" on page 216 section for more information.

| Caution Codes Caution Category Codes | | | | | | | |
|--|-------------------|-----------------------|--------------------|--|--------------|---------|--|
| ♦ Add Caution Code Show 10 ♦ entries Search: | | | | | | | |
| Code 1 | Caution ↑ Type | Description 1 | Category 🗈 | Category Roles | 1. Active 1. | Actions | |
| BOD | Address | Beware of Dog | | | Yes | 2 | |
| BF | Address | Big Fence | | | Yes | 2 | |
| PVA | Person | Armed at prior arrest | Gang Task Force | CID_SUPERVISOR, GANG ALWAYS EDIT AGENCY | Yes | 6 | |
| AST | Person | Assaulted officer | | | Yes | 2 | |
| ASC | Person | Assaultive/Combative | | | Yes | 2 | |

Associating a Category Code and Role to a Caution Code allows designated users exclusive access to administer the Category Code on a person record.

Note: If a Caution Category Role is not associated with a Role, or a Caution Category Code is not associated with a Caution category, then every user has access.

Add Caution Codes

Use the following procedure to add a caution code to the *Caution Codes* tab of the Caution Codes table.

1. Click the **Add Caution Code** button in the upper right corner of the *Caution Codes* table to display a *New Caution Code* page.

| New Caution Code | |
|------------------|------------|
| Code | |
| DESCRIPTION | |
| | |
| | |
| CAUTION TYPE | |
| -Select- | ~ |
| CATEGORY | |
| -Select- | ~ |
| CAN DUPLICATE | |
| | |
| | Close Save |

- 2. Complete all required fields.
- 3. Optionally select a **Category** from the list. Categories are defined under the *Caution Category Codes* tab.

Note: Refer to the "Caution Category Codes Tab" on page 216 section for more information.

- 4. Select all buttons that apply to this caution code. Green buttons are active and gray buttons are inactive.
- 5. Click **Save** to save the record and return to the *Caution Codes* table.

Edit Caution Codes

Use the following procedure to edit a caution code in the *Caution Codes* table.

- 1. Locate the record you need to edit.
- 2. Click in the Actions column in the same row as the record to display the *Edit Caution Code* page.

| Edit Caution Code | |
|-------------------|------------|
| Code | |
| BOD | |
| DESCRIPTION | |
| Beware of Dog | |

| | |
| CAUTION TYPE | |
| Address | ~ |
| Category | |
| -Select- | ~ |
| CAN DUPLICATE | |
| | |
| | |
| | Close Save |

- 3. Make changes as needed.
- 4. Click Save to save changes and return to the Caution Codes table.

Delete Caution Codes

Use the following procedure to delete a caution code from the Caution Codes table.

- 1. Locate the record you need to delete from the table.
- 2. Click in the Actions column in the same row as the record listing.
- 3. If a confirmation prompt displays, click **Yes** to confirm deletion, or click **No** to cancel deletion, and return to the *Caution Codes* table.

Caution Category Codes Tab

Caution Category Codes group similar Caution Codes and control who has access to administer the Caution Code by the Category Roles based on User Roles.

Note: It is not unusual to create new User Role(s) for Caution Code administration purposes. Refer to "Roles" on page 77 for more information on Roles.

Caution Categories are optional. You can have a few or as many that makes sense for your agency.

| ption 11 Category Rol | | earch: | dd Category Code | | | |

| | | | VIPER Yes | | | |

Add Caution Category Codes

Use the following procedure to add a Caution Category Code to the *Caution Category Codes* tab of the Caution Codes table.

1. Click the Add Category Code button in the upper right corner of the *Caution Category Codes* tab to display a *New Category Code* page.

| New Category Code |
|--|
| CODE |
| GIF |
| DESCRIPTION |
| Gang Task Force |
| ACTIVE |
| \checkmark |
| ROLES |
| * CID_SUPERVISOR * GANG ALWAYS EDIT AGENCY |
| |
| Close Save |

- 2. Complete all required fields.
- 3. The Active box is checked by default.
- 4. Click in the **Roles** field and select one or more from the list to associate to the **Category Code**.
- 5. Click Save to save the record and return to the Caution Category Codes tab.

Edit Caution Category Codes

Use the following procedure to edit a charge code in the *Caution Category Codes* tab of the Caution Codes table.

- 1. Locate the record you need to edit.
- 2. Click in the Actions column in the same row as the record to display the *Edit Caution Category Code* page.

| Edit Category Code | |
|--------------------|------------|
| CODE | |
| VIP DESCRIPTION | |
| VIPER ACTIVE | |
| ROLES | |
| * VIPER | |
| | Close Save |

- 3. Make changes as needed.
- 4. To remove a Role, click on the X on the left of that Role.
- 5. Click **Save** to save changes and return to the *Caution Category Codes* tab.

Delete Caution Codes

Use the following procedure to delete a caution code from the *Caution Codes* table.

- 1. Locate the record you need to delete from the table.
- 2. Click 💼 in the Actions column in the same row as the record listing.
- 3. If a confirmation prompt displays, click **Yes** to confirm deletion, or click **No** to cancel deletion, and return to the *Caution Category Codes* tab.

Incident Status/Offense Status Mapping

The **Incident Status / Offense Status Mapping** page allows *Incident Status* codes to be mapped to *Offense Status* codes to prevent mismatches.

During the approval process, if the user sets an *Incident Status* to something other than what has been mapped to an *Offense Status*, an error displays disallowing that selection and prompts them to verify the information and make any necessary changes.

From the **RMS Tables** tab of the *Tables* page, click the <u>Incident Status/Offense Status Mapping</u> link/icon to display the *Mappings* table. For instructions on accessing the *Tables* page refer to <u>AccessTables.htm</u>.

| ncident Status / | Go Back O Add Incident Map | | | |

- 2. Select an Incident Code from the list.
- 3. Select one or more Offense Codes.
- 4. Click **Save** to save the record and return to the *Mappings* table.

Edit Incident and Offense Status Mapping

1. Locate the record you need to edit.

2. Click in the Actions column in the same row as the record to display the *Incident Mapping* page.

| Incident Mapping | |
|--|------------|
| INCIDENT STATUS CODE Other Enforcement Action | |
| OFFENSE CODES [x 07: Other Enforcement Action] x 16: Open Pending Destrucyion Of Property] | |
| | Close Save |

- 3. Make changes as needed.
- 4. Click **Save** to save changes and return to the *Mappings* table.

Delete Incident and Offense Status Mapping

- 1. Locate the record you need to delete from the table.
- 2. Click in the Actions column in the same row as the record listing.
- 3. If a confirmation prompt displays, click **Yes** to confirm deletion, or click **No** to cancel deletion, and return to the *Mappings* table.

Court Locations

Agencies using the *Civil Process* and *Warrant* modules have the ability to manage Court Locations. Only agency administrators with proper permissions can add, edit, and delete *Court Locations*. The *Civil* and *Warrant* modules display the *Court Locations* as a list of values when adding court papers and warrants. You can only select a court location that appears in the list of values; as *Court Locations* change, the list of values from which to choose also automatically change.

There are up to three ways to access the *Court Locations* table, depending on your permission level:

- From the Main Menu select Administration, Module Admin, then Civil Process. For more information refer to "Civil Process Agency Settings" on page 294.
- From the Main Menu select Administration then Agencies. Find the appropriate agency
 from the listed agencies then click the <u>edit</u> link next to the agency name. For more information refer to the Other Tables section of "Agency Settings" on page 29.

 Click the <u>Court Locations</u> link on the **RMS Tables** tab of the *Tables* page to display the *Court Locations* table. For instructions on accessing the *Tables* page refer to <u>AccessT-ables.htm</u>.

| RMS Tables / Court Locations | | | | | | | |
|---------------------------------|--------------------------------------|--|----------|----------|------------------------|---------------|-------|
| | | | | | Go Back 🕀 | Add Court Loc | ation |
| Agency: District 42, Versailles | | | | | | | |
| Show 50 ¢ entries Search: | | | | | | | |
| ID îl | Name 🗈 | Address 11 | Status 🕮 | Court 11 | Receiving îl Agency | Actions | Ť1 |
| 1 | Court Location 1 - Alternate Name | 101 Webster St. Room #345 Bloomington Colorado 11111-2222 | Active | true | true | ľ | Ē |

- 4. Click Save to save changes and return to the Judges table.

Delete Judges

Use the following procedure to delete a judge from the *Judges* table.

- 1. Locate the record you need to delete from the table.
- 2. Click in the Actions column in the same row as the record listing.
- 3. Click **Yes** to confirm deletion, or click **No** to cancel deletion, and return to the *Judges* table.

Common Place Names

The **Clery Act** requires that higher education institutions report campus crimes associated with the institution. Many universities have only one address, yet the campus complex could have hundreds of buildings and locations that are either on or off the main campus, are residential facilities, or adjacent to campus; all of which share the same address. Online RMS provides the ability to associate any *Common Place Name* associated with an address and map it to any pre-defined location code.

For example, an officer taking a report for an incident that occurred in a classroom receives the option of choosing from a list of Clery locations like *On Campus* or *Residential Facility*; in this case the officer selects, *On Campus*.

Click the <u>Common Place Names</u> link on the **RMS Tables** tab of the *Tables* page to display your agency's *Common Place Names* table. For instructions on accessing the *Tables* page refer to AccessTables.htm.

| | | Go Back | Add Common Place Add Common Place Co |

Add Common Place Name

Use the following procedure to add a common place name to the *Common Place Names* table.

1. Click the Add Common Place button in the upper right corner of the *Common Place Names* table to open a blank entry form.

| Outside Store | Indiana State Police | ~ | \checkmark | |
|---------------|----------------------|---|--------------|--|
| ATEGORIES | | | | |

- 2. Enter the Name and select the Agency if applicable.
- 3. The Active box is checked by default.
- 4. Select one or more **Categories** that apply.

Note: Online RMS provides five *Categories* by default: Non-Campus, Off Campus, On Campus, Public Property, Residential Facilities. Contact Caliber Public Safety personnel to assist with updates to this list.

5. Click Save to save the record and return to the Common Place Names table.

Edit Common Place Names

Use the following procedure to edit a common place name in the *Common Place Names* table.

- 1. Locate the record you need to edit.
- 2. Click in the Actions column in the same row as the record to open the record for editing.
- 3. Make changes as needed.
- 4. Click **Save** to save changes and return to the *Common Place Names* table.

Delete Common Place Names

Use the following procedure to delete a common place name from the *Common Place Names* table.

- 1. Locate the record you need to delete from the table.
- 2. Click 👼 in the Actions column in the same row as the record listing.
- 3. If a confirmation prompt displays, click **Yes** to confirm deletion, or click **No** to cancel deletion, and return to the *Common Place Names* table.

Notification Types

From the **RMS Tables** tab of the *Tables* page, click the <u>Notifications Setup</u> link to display the *Notification Types* table. For instructions on accessing the *Tables* page refer to <u>AccessTables.htm</u>.

Search Notification Type

Use the following procedure to search the *Notifications Types* table.

- 1. Click I in the Search By field.
- 2. Select from the drop-down. (Available options include: Action URL, Description, Email, Information Notification, Priority, Roles, and Type.)
- 3. Click in the **Search** text field and type in a keyword.
- 4. Click **Search** to redisplay the table with the search results as shown in the example below.

| SEARCH | | SEARCH | | | | | Go Back |

| | Go Back | Update | |

- 2. If needed, click I in the **Priority** field and select another priority.
- 3. Click I in the **Notification type** field and select a type
- 4. Complete other fields as applicable.
- 5. Click to check Other Options boxes as needed.
- 6. Click **Save** to save the record and return to the *Notification Types* table.

Edit a Notification Type

Use the following procedure to edit a notification type record in the *Notification Types* table.

- 1. Locate the notification type record you need to edit in the table.
- 2. Click in the Actions column in the same row as the record listing to display the *Edit Notification Type* page.
- 3. Make changes as needed then click **Update**.

Delete a Notification Type

Use the following procedure to delete a notification type record from the *Notification Types* table.

- 1. Locate the notification type record you need to delete from the table.
- 2. Click in the Actions column in the same row as the record listing.
- 3. Click **Yes** to confirm deletion, or click **No** to cancel deletion, and return to the *Notification Types* table.

Approval Routes

From the **RMS Tables** tab of the *Tables* page, click the <u>Approval Routing</u> link to display the *Approval Routes* table as shown in the following example:

| Click individual links | Go Back |
|------------------------|---------|
| Routing Options | |
| Add Routes | |
| View Routes by Offense | |
| Route Simulator | |
| Review Routing | |

Add Routes

Click Add Routes to open the Add Approval Route page as shown.

| LOCAL CODE | |
| A | |
| SCHEMA | |
| -All Schemas- | ~ |
| | Cancel Save |

Edit the value in the Local Code field and select a difference schema as needed.

Click Save.

Chapter 15. Custom Forms

The Custom Forms feature must be enabled by Caliber Public Safety personnel in order for an agency to use it. In addition, only administrative user who have been assigned the appropriate role with the custom forms privileges can create or edit custom forms, and only users who have been assigned roles with the custom forms privileges can use the forms.

- "Set Up Agency" below for more information on enabling the feature.
- "Set Up Roles" on the next page for information on setting up roles with custom form privileges.

Community Reporting, a new Online RMS 11.3.2 feature (for minor crime, tips, and other police-related events), leverages the power of Online RMS Custom Forms, allowing agencies to create and manage their publicly available forms.

 See "Community Reporting with Custom Forms" on page 273 for information on Community Reporting.

Set Up Agency

Caliber Public Safety personnel has the ability to enable the Custom Forms feature for an agency; once it is enabled, agency users with the proper permissions can give appropriate access to other agency users.

The Agency Profile displays available and enabled features in a read-only format.

Note: For instructions on accessing the Agency Profile refer to "Manage Agencies" on page 17.

Set Up Roles

An administrator with the appropriate permissions must set up specific roles with permission to use Custom Forms. It is up to the agency as to which roles are assigned Custom Form privileges.

The administrator uses the following procedure to add Custom Forms rights to a role.

1. Access the Roles page and locate the Role you want to give Custom Forms rights to.

Note: For details on accessing the Roles page refer to "Roles" on page 77.

2. Click in the Actions column in the same row as the role to open the *Edit Role* page.

Note: Never edit Roles that came with the software; make a copy of the Role then edit the copy as needed. For details on how to copy a Role refer to "Copy Role" on page 83.

| Show 10 | entries | | Go Back Add Role Compare Search: copy |

Click
 to add permissions from the available list on the right, or click
 is to remove permissions from that role on the left.

Note: Custom Forms permissions include anything with the prefix User Form Admin.

- 5. Click Save to save changes.
- 6. When changes are complete for this role, click **Go Back** to return to the *Roles* page.
- 7. Log out or continue working in the Roles module as needed.

Form Administration

Click the **Administration** label to display the *Administration Home* page. From the *Administration Home* page, click the **Custom Forms** icon to open the *Form Administration* page.

| Form Administration | |
|-------------------------|---|
| Create New Form | Create and design a new form |
| Upload a Form Design | Create a new form by uploading an XML design file. The layout of the fields will be determined by this XML. |
| Manage Forms | Preview / Edit / Download or Delete Forms. |
| Manage Custom Fields | Manage custom fields for various application screens. |
| Manage Sub Forms | View / Modify Sub Forms |
| Add Sub Form | Create a new Sub Form. |
| Manage Form Code Tables | Manage Form Code Tables Used By All Forms. |
| Form Delete Log | Show log of deleted forms, custom fields, and sub forms. |

From here, an administrator can create a new custom form, upload a form design, manage forms, manage custom fields, manage sub forms, add sub form, manage code tables, and show the form delete log. When an administrator adds a new form, certain information is required, such as Name, Title, Default Security Level, Officer Entry, Roles, and Form Types. The agency administrator decides how to fill out the required fields. This information may be changed later if the administrator chooses to edit the forms.

Create (Add) New Form

Use the following procedure to create a new form.

- **Note:** You may flag a field on a custom form and have it displayed as an additional detail when the custom form is displayed in various tables throughout the application. These pages include My Forms (initial and rejected), Forms for Review, Form Search Results, and Notifications. Sub Form fields cannot be set as additional details.
- 1. From the *Form Administration* page, click the <u>Create New Form</u> link to open the *Add Form* page as shown.

| | Save |

- 2. Type a name for the form in the required **Title** field. This should be a name easily related to the form's function because it is what the user sees when searching for a form.
- 3. Type a brief description of the form in the optional **Description** field, including information for intended users about the forms purpose. The title is visible on the custom form within RMS but not on the printed form.
- 4. Type a header for the printed form in the optional **Print Header** field. The Printer Header appears only on the printed form.

- 5. Click in the **Restrict to Agency** field then select one or more agencies to give them the ability to view and edit the form. Usually this field is not used.
- 7. Click in the Officer Entry field and select the appropriate option. This selection determines whether an officer entry is required, optional, or unspecified when completing the form.
- 8. Check the **Review Required** box, if appropriate. A notification appears in a yellow box at the top of the *Submit for Review* page requesting a user review a PDF copy of the form before the creator submits it.
- 9. Check the **Restrict Edit** box, if appropriate.
- 10. Click in the **Roles** field and select one or more Roles to limit use of this form to those specific Roles.
- **11.** Click in the **Form Types** field and select one or more Form Types to limit this form to specific Form Types.
- **12.** Click **Save** to save.

The designer opens the new form in the Form Editor. "Form Editor" on page 253 for more information.)

| | | | |
| | | Remove Field | |
| | | Save | |

- 6. Complete the fields and select appropriate buttons and click **Save**.
- 7. Click Add Another Field to add another field, if needed.

Note: If you want to remove the newly added field, click the Remove Field button.

- 8. Repeat Steps 6 and 7 until you have added all the fields needed.
- 9. Click Go Back to return to the previous page and click Exit from Editor.
- Optionally click the **Designer** tab to open the Form Designer. This is used to position the fields on the form. For more information on the Form Designer, refer to "Designer Tab" on page 261.
- 11. Optionally click on the Code Tables tab to add a code table.
- 12. Click on the Status tab to activate or inactivate the form.
- 13. Click Exit form Editor to return to the *Custom Fields* home page.
- 14. Click **Go Back** to return to the *Form Administration* page.

Upload Custom Fields

1. From the *Form Administration* page, click the <u>Manage Custom Fields</u> link to open the *Custom Fields* page.

| Form Administration / Custo | m Fields | | | | |

2. Click the [©] Upload Custom Fields link to open the Upload Form.

| Form Administration | |
|----------------------------|---------|
| Select a File | Go Back |
| Choose File No file chosen | |
| Upload | |

- 3. Click **Browse** to the right of the **Select a File** field to open the *File Upload* window with your local directories.
- 4. Navigate to the folder containing form design documents.
- 5. Click to select a file and pull the path into the Select a File field.
- 6. Click **Upload** to upload the file and open the *Form Resource Review* page. Fleet Vehicle fields are used for illustration purposes, but the same general process applies to other areas.
 - a. If the Field IDs in the uploaded document match fields that already exist, then enter new **Field IDs** by entering new **Updated Value** values.
 - b. If no duplicate Field IDs are found in the uploaded document, a *No Duplicate Field Values Found* message appears.
- 7. Click the Continue to Preview button to open the Add Fields page
- 8. Select an Agency then click the Create Fields button to open the normal *Field List* screen.
- 9. Add more fields or click on the *Designer* tab to place the new fields on the form. For more information on the *Designer* tab refer to "Designer Tab" on page 261.

Manage Form Code Tables

Use the following procedure to manage form code tables.

1. From the *Form Administration* page, click the <u>Manage Form Code Tables</u> link to open the *Code Tables* page as shown.

| Form Administration / Form Code Tables | | | | | | |
|--|-----|----------------|--------|-----|---------|------------|

- a. Make changes to existing codes or add new codes (refer to "Add a Code Table." on the previous page)
- b. Click Save to save changes.
- c. Click **Go Back** to return to the *Code Tables* page.
- 5. Click **Go Back** to return to the *Form Administration* page.

Form Delete Log

Deleted form activity is written to the **Form Delete Log** table automatically with the form title, date it was deleted, comments, and the user who deleted the form.

Note: This table is read-only.

Use the following procedure to access the Form Delete Log table.

1. From the *Form Administration* page, click the <u>Form Delete Log</u> link to open the *Form Delete Log* page as shown.

| Form Delete Audit | | | | Go Ba |

The Form Editor also displays when you select a form to edit from the *Manage Forms* page after accessing it from the *Form Administration* page.

Note: The only field that cannot be changed once a custom form is published is the **Restrict to Agency** field. All other fields may be modified as long as the form's status is set to *Inactive*.

The Form Editor has seven tabs:

• The **Forms Details** is shown above. It opens upon initial creation of a form when a user saves a new form from the *Add Form* page. It also allows users to change form details after a form has been created.

- The **Number Generation** tab allows the user to configure number generation formats much like the number generation in other modules in Edit Agency. It also allows the user to enable or disable automatic number generation for custom forms. When enabled, a new Instance Number field containing the generated number displays on the view and edit screens. This number is unique to each customer form.
- The **Field List** tab displays a list of custom fields to be used on the form. From this tab, you can add additional fields and edit existing fields.
- The **Designer** tab is used to position the fields on the form.
- The **Reports** tab is used to specify a report for a form type with which the form is associated, including Incidents, Field Arrests, and Contacts.
- The Code Tables tab displays a list of Code Tables that the form uses.
- The **Routing** tab is used to specify the who, what, where, and when of form routing details. It also has a setting to allow the creation of an incident during the review process.
- The **Status** tab is used to publish and activate/deactivate forms. The current status of a form is always displayed on this tab.

Click on the Exit Form Editor button on the top right to exit the form editor at any time.

Form Details Tab

The **Form Details** tab of the Form Editor is used to manage the form title, define what prints as the header on the printed copy, manage form security, require review, and more.

Use the following procedure to complete the information on the Form Details tab.

- 1. Enter a unique **Title** for the custom form.
- 2. Optionally, enter a **Description**. This displays to users who are viewing or editing an instance of this form.
- 3. Optionally, enter the **Printer Header**. This appears on the top of the first page when printing this form.
- 4. Optionally, **Restrict To Agency**. Leave blank, or select as many as needed.
- 5. Select the **Default Security Level** from the list provided.
- 6. Select the Officer Entry from the list provided.

- 7. Optionally, check the **Review Required** box. A notification appears in a yellow box at the top of the *Submit for Review* page requesting a user review a PDF copy of the form before the creator submits it.
- 8. Optionally, check the **Restrict Edit** box to restrict the creator of an instance of this form from putting it back into edit mode once it has been approved and finalized. Only a user with special permissions is allowed to do so.
- 9. Select one or more Roles.
- 10. Select one or more Form Types.
 - **Note**: If you wish to use this form without having to attach it to a specific record, select **Freestanding Forms** from this list. This allows users to add new instances of this form in the Forms & Report page.
- 11. Optionally, select Form Admins. Users added to this list can administer this form regardless of agency.
- 12. Optionally, select **Restrict View Access Users**. Only users added to this list can view, print, and search on this form.
- 13. Click Save.

Number Generation Tab

The **Number Generation** tab of the Form Editor is used to configure number generation formats (a unique number) much like the number generation in other modules in Edit Agency, or to enable or disable automatic number generation. When enabled, a new Instance Number field containing the generated number displays on the view and edit screens.

Enable Number Generation

Use the following procedure to enable number generation.

1. From the Form Editor, click on the Number Generation tab.

| | | | | | | | | Exit Form Editor | Previ |
|--|-------------------|------------|----------|---------|-------------|---------|--------|------------------|-------|
| Form Details | Number Generation | Field List | Designer | Reports | Code Tables | Routing | Status | | |
| Enable Number Generation for this form | | | | | | | | | |
| | | | | | | | | | |
| | | | | | | | | | |
| | | | | | Save | | | | |

2. Check Enable number Generation for this Form to display additional fields.

| Form Details | Number Generation | Field List | Designer | Reports | Code Tables | Routing | Status | | | |
|--------------|--|------------|----------|---------|-------------|------------|--------|--|--|--|
| | Enable Number Generation for this form | | | | | | | | | |
| | | | | | | | | | | |
| Format | | | | | NED | T NUMBER | | | | |
| YYYYIR000 | | | | | ▼ 1 | | | | | |
| PLACE HOLDER | | | | | EFF | CTIVE DATE | | | | |
| CF | | | | | 1 | 0/21/2020 | | | | |
| END DATE | | | | | | | | | | |
| | | | | | 曲 | | | | | |
| | | | | | | | | | | |
| | | | | | Save | | | | | |
| | | | | | | | | | | |

a. Select a Format from this list.

Note: If the format you want is not listed, refer to the Number Generation tab of "Agency Profile" on page 17.

- b. Enter the **Next Number**; the beginning number of this series of number. For example, if you want the beginning number to be 1, enter 1.
- c. Enter the **Place Holder**. It could be letters or perhaps a hyphen (-). For example, if the number format you are using is YYYIR000 and place holder is CF, then CF replaces the IR in the format.
- d. Select the Effective Date.
- e. Select the End Date, if applicable.
- f. Click Save.
- Note: When Number Generation is enabled, a read-only field with the name Instance Number appears on the form containing the auto-generated number upon saving the form.

Note: The **Instance Number** also prints on standard Custom Form printouts.

Disable Number Generation

Use the following procedure to disable number generation.

- 1. From the Form Editor, click on the **Number Generation** tab.
- 2. Uncheck Enable Number Generation for this form.
- 3. All formatting fields no longer appear.
- 4. Click Save.

Field List Tab

The Field List tab of the Form Editor is used to create fields to be used on a custom form.

Public facing forms support the following Custom Form Field Types:

- Date
- Date & Time
- Text Single Line
- Text Multiple Line
- Checkbox
- Radio Buttons
- Select LOV Single Value
- Auto Complete

For more information on *Public facing forms*, refer to "Community Reporting with Custom Forms" on page 273.

Use the following procedure to set up fields for a form. Keep the above in mind if you are creating a *Public facing form*.

1. From the Form Editor, click on the Field List tab to display the Name Form.

| | | | | | | | | | | | | | Exit For | m Editor | Previe |
|-------------------------|--------|-------------------|---------|-----------------------------|-----|-----------|--------|----------------|----|------------------|----|---------|----------|----------|----------|
| Form Details | Field | List De | esigner | Reports | Cod | le Tables | Routin | g Status | | | | | | | |
| | | | | | | | | | | | | | | 🔂 Ado | l Field |
| Show 100 \$ | entrie | s | | | | | | | | | | Search: | | | |
| | | | | | | | | | | | | | | | |

| Field ID RANDOM_FIEL | | Label Random I | | Field Type Text - Single | 1. | | ed 14 | Required No | 11 | Displayed Yes | 14 | | 11 | Actions | ti Ti |

Note: You also open this page when you save a new form on the *Add Form* page, but the list is empty for a new form.

2. Click the Add Fields link to open the Add Fields page as shown in the following examples.

| | | | Go Back Add Another Field |
|------------|---|--------------|---------------------------|
| FIELD TYPE | | LABEL | FIELD ID |
| -Select- | ~ | | |
| REQUIRED | | DISPLAYED | COMMENT |
| | | \checkmark | Don't Specify Comment 🗸 🗸 |
| HELP TEXT | | | |
| | | | |
| | | | |
| | | Remove Field | |
| | | Save | |

3. Type values in the Label field and select to complete the Field Type field.

Note: Additional parameters may appear based on the chosen Field Type. For example, if you select the Field Type *LOV*, the required field **Field Code Type** appears and the user must select a value.

- 4. Enter a value in the Field ID.
- 5. Check the **Required** box if this field is to be a required field.
- 6. Check the **Displayed** box if this field is to be displayed on the form on screen.
- 7. Select a Comment.
- 8. Add content to the **Help Text** box if you want to provide instructions about completing this field.
- 9. You can also perform the following tasks:

• Click the <u>Add Another Field</u> link to add additional fields so that you can quickly add multiple fields without having to leave the page.

| | | Go Back Add Another Field | | | | | | | |
|------------------------|--------------|---------------------------|--|--|--|--|--|--|--|

Designer Tab

The fields that were set up on the **Field List** tab are positioned and sized on a form using the **Designer** tab of the Form Editor. The **Designer** tab allows you to layout a form using a drag/drop user interface.

- Use the Position Mode to design the visual layout of a form.
- Use the Resize Mode to adjust the position and size (width) of fields in a row based on a percentage of the total form width.

Use the following procedure to position fields on a form.

- 1. From the Forms Editor, click the **Designer** tab to open it.
- Click the <u>Launch Form Designer</u> link to display the form designer page as shown in the example.

| D42 Test Form | Controls | Available Fields |
|---------------|--------------------|----------------------|
| Random ×+ B | Edit Mode | L Additional Comment |
| | OResize Mode | E Random Field |
| | Okesize Mode | |
| | Add Section | |
| | Remove Empty Areas | |
| | × | |
| | | |
| | | |
| | | |
| | | |
| | | |
| | | ~ |
| | | |
| | | |

Note: This page does not adjust to the size of the browser window. Scroll to the right to see the Available Fields list.

You can drag and drop the **Controls** pane and the **Available Fields** list anywhere on the screen. For example, you might want to drag the **Available Fields** list so that it is located below the **Controls** to make it easier to see all the elements of the screen at once. However, should you close the Form Designer then reopen it, the elements appear in their default positions once again.

3. Click Add Section in the Controls pane to display the Section Details window as shown.

4. Type a name for the section in the **Name** field and a **Section Help Message**. Click **Save** to redisplay the page as shown in the example.

| D42 Test Form | | Controls | | Available Fields |
|---|--------|----------------------------|-----|----------------------|
| Test Section | ×+* 0 | Edit Node Position Mode | ^ | C Additional Comment |
| This section demonstrates how to add a new section. | 0 | OResize Mode | | |
| Random | ×+ + 6 | Add Section | - 1 | |
| | | Remove Empty Areas | | |
| | | | ~ | |
| | | | | |

- 5. Adjust a section as follows:
 - Click + in the far right of the new section to add a row, then drag and drop one or more fields into the row.
 - Click X to remove a section.
 - To delete a row from a section, click X in to the left of the row in the left margin of the section.
 - Rows can hold multiple fields horizontally; however, if you want to add fields vertically, you must add another row.
 - Both sections and rows can be repositioned. Use the drag and drop method or the up and down arrows.
- 6. Repeat Steps 3 through 5 to add and adjust as many sections as you need for the form.
 - **Note:** You can remove empty sections if you decide you need fewer sections. You can move sections and/or fields as needed by dragging and dropping, and you can revert at any time to return to the form to the state it was at the time you last saved.
- 7. Click **Save Form** at any time to save the work you have. If the form is not complete, a *Design Validation* box appears giving you the option to save or cancel your design.

- It is important to save often to avoid losing work.
- If needed, the **Revert** button allows you to return the form as it was the last time you saved.
- The **Save Form** button label displays in red if any changes have been made since the last save.
- 8. Click the **Resize Mode** radio button and adjust the horizontal alignment of fields as needed.

Fields appear where you can enter alignment values. The values in each box represent a percentage of the total form width. To increase the width of a field or label, type a higher number in the box; to decrease the width of a field or label, type a lower number.

- 9. When you think the form is complete, save and click **Exit Designer** to return to the **Designer** tab of the Forms Editor.
- 10. Click **Preview** to review your form.
 - Use the Switch to... button to toggle between View Mode and Edit Mode.
 - Click the Print button to open a pdf version of the form to see it as it will appear when printed.
 - If the form needs changes, click **Exit Preview** then click the <u>Launch Form Designer</u> link to display the form designer page again where you can make changes.

Reports Tab

The **Reports** tab of the Form Editor is used to specify a report for any Form Type with which a form is associated. Form Types include Incidents, Field Arrests, Field Contacts, and Vehicles.

Available options are based on Form Type selections made on the **Form Details** tab. Multiple types may be associated with a form simultaneously.

You have the ability to generate form letters and reports by integrating fillable PDFs.

Use the following procedure to download .jrxml template files.

1. From the Form Editor, click the **Reports** tab to open it.

| | | | | | | | | | | Exit Form Editor | Preview |

Report Types that were selected on the Form Details tab are reflected here.

Note: The link titles that appear in blue vary and may not appear exactly as shown in the example.

- 2. Use the <u>Get...Report Template</u> links to download .jrxml template files of the selected association types. Once they are downloaded you can save the templates then edit them as needed.
- 3. Optionally use the <u>Upload Fillable PDF</u> link to locate and upload an existing fillable PDF file that has at least one fillable field on it.

Note: The agency is responsible for procuring the appropriate PDF license that supports the creation of fillable PDFs.

• Click Browse to locate the PDF file, then click Upload.

| | Go Back |
|---|---------|
| The uploaded PDF cannot have any security The uploaded PDF must have at least one fillable field | |
| SELECT A FILE | |
| | Browse |
| Upload | |

- Enter a report **Name** and select **Default** to display this report on the Custom Form for users to print. Multiple fillable PDFs can be associated to one Custom Form. If only one PDF exists, it prints by default regardless if the **Default** option is checked.
- Click the Add Field link to map the Custom Form fields to the Fillable PDF fields.

| Edit Filla | ble PDF | Go Back |

A Format String (Token) can be entered for how the data should print, or leave it blank for the default.

For example, for a person the string {FULLNAME} {DOB} could be specified. Labels may also be included by entering the string {TOKEN|Optional label}.

Click on the Blue Info Bubble to view available format options.

Note: Tokens are case sensitive.

4. Optionally use the individual <u>Generate Domain for...</u> links to select the fields on which to report.

Note: Click the Generate Domain for ALL Form Types link to generate them all at once.

Optionally select agencies on the Configuration tab to include in the report. If no agencies are selected, the report includes all agencies.

| Go Ba | ck |
|---|----|
| Configuration D42 Test Form | |
| Select which fields you would like to report on. The page is organized based on the form and sub forms. One tab will be displayed for the main form, and a tab for each sub form will be displayed. | |
| For fields which have comments enabled, you may also choose to report on the comments. | |
| For more complex fields such as master index people, you will have to select exactly which information you want displayed. | |
| Important things to remember | |
| The more fields you select, the slower the report can get. Only select what is absolutely needed. Remember you can create multiple domains for the same form. The domain created will only be valid for this schema you are currently in. If you want to create a domain for the exact same form in a different schema, you will have to log into the RMS on that schema and repeat this process | |
| Below you may select which agencies will be reported on. If selected, the domain will be restricted to only these agencies forms. | |
| RESTRICT TO AGENCY | |
| × Ang Police Department × Indiana State Police | |
| Generate | |

• Click on the second tab and select the fields to include. The title of the second tab is the title you gave the report.

- 7. If needed, make changes and click Save.
- 8. Click Exit to return to the Form Editor as shown in Step 1 with the new report listed in the appropriate grid.

Code Tables Tab

The **Code Tables** tab of the Form Editor is used to list code tables used by the form for specified lists of values (LOV) fields, or pick lists, fields and to add code tables.

Use the following procedure to add and edit code tables associated with a form.

1. From the Form Editor, click the **Code Tables** tab to open it.

| | | | | | | | Exit Form Editor Preview |
|--------------|------------|----------|---------|-------------|---------|--------|--------------------------|
| Form Details | Field List | Designer | Reports | Code Tables | Routing | Status | |
| | | | | | | | • Add Code Table |

If the form has been set up to use one or more code tables for LOVs fields, the tables are listed here. The **Code Table ID** and, if entered, the **Description** of each table display, and

the edit icon in the Actions column provides the ability to edit the table.

- 2. To add a custom code table, continue as follows:
 - Click the <u>Add Code Table</u> link to open the *Code Table* page as shown.

| G | o Back |
|---|----------|
| Code Table Details | |
| TABLE IDENTIFIER (| |
| | |
| DESCRIPTION | |
| | |
| SORT ALPHABETICALLY When checked, the codes will be sorted alphabetically regardless of how you enter | er them. |
| Codes | |
| Save | |

- Complete fields as follows:
 - Table Identifier Enter a label to assign to the code table to differentiate it from other code tables. This label must be all upper case alpha-numeric characters with no spaces. Underscores are allowed. _CS_ must be added to the label as a prefix to conform to the naming convention for code tables. Note: This is a required field, and the record is not saved properly without a valid label.
 - **Description** Enter a description of the custom code table.
 - **Sort Alphabetically** Check the box if you want codes to be sorted alphabetically regardless of how they are entered.
- Click Save.
- 3. To add a code to the table, continue as follows:
 - Click <u>Add New Code</u> to open a **Code** field, a **Label** field, an **Active** box and a delete icon across the bottom of the page as shown.

| | | | Go B | Back |
|--------------------------------|------------------|----------------------|---|------|
| Code Table Details | | | | |
| TABLE IDENTIFIER | | | | |

| DESCRIPTION | | | | |
| | | | | |
| SORT ALPHABETICALLY When check | ked, the codes v | vill be sorted alpha | betically regardless of how you enter them. | |
| Codes | | | Add New C | Code |
| CODE | LABEL | + | ACTIVE | |
| | | | ✓ | |
| | | Save | | |

- Complete the Code and Label fields.
- Click Save.
- 4. To edit a code table, click in the Actions column (see example in Step 1 above) to display the *Code Table* page.

Note: Code tables can be used by more than one form. A list of forms that use this code table display in the yellow banner in the middle of the page.

- 5. Continue as follows:
 - Make changes to any field or box except the **Table Identifier** field. To change this value, you must delete the table and start over.
 - Use the delete icon to delete any unneeded codes.
 - Click <u>Add New Code</u> to add a new code. (See Step 3.)
 - When changes are complete, click **Save**.

Routing Tab

Custom forms can be routed in a way similar to Incident Report routing. Notifications are sent to designated users, roles, and/or - in a statewide organization - agencies. From the Form Editor, the administrator can set up one or more levels of routing as needed, entering comments that are included in the notifications sent to routing recipients.

Use the following procedure to set up routing for a custom form.

1. From the Form Editor, click the **Routing** tab to open the tab as shown.

| | | | | | | | | Exit Form Editor Preview |
|--------------|-------------------|------------|----------|---------|-------------|---------|--------|--------------------------|
| Form Details | Number Generation | Field List | Designer | Reports | Code Tables | Routing | Status | |
| Enable Routi | ng For This Form | | | | | | | Save |

2. Check the Enable routing for this form box to enable and display the tab as shown.

| | | | | | | | | Exit Form Editor Preview |
|---|------------------------|--------------|---------------|----------------|----------------|-------------|----------------|--------------------------|
| Form Details | Number Generation | Field List | Designer | Reports | Code Tables | Routing | Status | |
| Enable Routing For This Form Add Level Save | | | | | | | | |
| | Use this screen to add | /edit as mar | iy route leve | s as you wo | uld like. When | you are don | e, click the s | ave button |
| Name | Options | A | gencies | | Roles | Users | | Actions |
| | | | N | lo Levels To S | Show | | | |
| | | | | | | | | |

Note: If routing is not enabled for a form, review submission is not required.

Note: With Online RMS 11.5 and higher, multi-tier routing has been added to route a form through multiple levels of review.

3. Select the Add Level button on the right to open the *Route Level* form.

| oute Level | |
|---|------------------------|
| General Route Options | |
| | |
| Level 2 | |
| Require Comment On Submission Disable Addition of Users Disable Removal of Users Disable Addition of Roles Disable Removal of Roles Require One User User may cancel next level (Does not apply to first level) | vel) |
| User Route Options App User | |
| ADD USER | |

| Search | Select All Select None |
| AGENCY_AD_HOC_REPORTING_TOOL | A |
| AGENCY_ADMIN | |
| CAL_ADMIN | |
| | |
| | Cancel |
| | |

- 4. In the General Route Options section:
 - a. Check the **Require Comment On Submission** box if you want to require a comment when the user summits it.
 - b. Check the **Disable Addition of Users** box if you want to prevent users from adding additional users.
 - c. Check the **Disable Removal of Users** box if you want to prevent users from removing users.
 - d. Check the **Disable Addition of Roles** box if you want to prevent users from adding additional roles.
 - e. Check the **Disable Removal of Roles** box if you want to prevent users from removing roles.
 - f. Check the **Require One User** box to require the selection of a user at time of route generation.
 - g. Check the User may not cancel next level (Does not apply to first level) box if you do not want users to cancel the next level.
- 5. In the User Route Options section, specify which users are to receive notifications. Click into the Add User box and begin typing a user's name, then select the appropriate user

from the list. The selected user appears in the **Selected Users** box automatically. **Doubleclick** on a **Selected User** to remove them from the selected list.

- 6. In the **Role Route Options** section establish which users are to receive notification by role.
 - a. Choose Roles.
 - a. Choose Agencies.

Note: Statewide organizations also have the ability to choose route to specific agencies. If no agency is selected, the form automatically routes to the form creator's agency.

7. Click **Ok** to add the route to the Routing tab.

| Form Details | Number Generation | Field List | Designer | Reports | Code Tables | Routing | Status | | |
|----------------|--|------------|----------------------------------|------------|-------------|---------------------------------|--------------|---|-----------|
| 🗹 Enable Routi | ing For This Form | | | | | | | | Add Level |
| | | | | · | | | n you are do | one, click the save button | |
| Name | eate Incident During Options | Review Pro | ocess (Only Agencies | Applies to | | g Forms) les | | Users | Actions |
| Level 1 | Comment Required: Y Disable Add: No Disable Remove: No Can Cancel: No | 'es | District 21, T District 42, V | | O | A_CLERK FICER FICER_SUPEF | RVISOR | Benjamin (cid) Harrison Ralph Lauren | ď |

Note: Clicking Ok creates your route level only. To save your changes to the database, you must also click the **Save** button when finished adding route levels.

- 8. Optionally, click the Add Level button again to add an additional level, and repeat until all desired levels are complete.
- 9. Optionally, check the Allow Create Incident During Review... checkbox.

Checking this box allows users with appropriate permissions to create an incident during the form review process.

10. Click Save to commit your changes to the database.

Status Tab

From the Form Editor, click the **Status** tab to open it. The **Status** tab is used to publish and activate the form. Current status of the form is always displayed on this tab. It is important that the form is 100% complete and ready to be used before publishing it because some details cannot be changed after the form has been published.

| | | | | | | Exit Form Editor Preview |
|--------------|------------|-------------|----------------------------|---|---|--|

| form, | you can on | ly modify c | ertain prop Iplete befo | erties of the fo incompa re publishing! | orm and its atible with o You can pro | you can modify the design however you like. Once you publish a s fields, as changes to the fields can result in the form being existing data. review the form at any time using the form preview feature. You s is a one time operation! |
| | | | | P | ublish And A | Activate |

The **Publish and Activate Form** button is available only if the form has not yet been published. Click it to set the Published Status to *Published* and the Active Status to *Active*.

The following buttons appear once the form has been published:

Community Reporting with Custom Forms

In response to COVID-19, Caliber Public Safety is offering a new product feature with Online RMS 11.3.2 to support **Community Reporting** of minor crimes, tips, and other police-related events. The **Community Reporting** feature leverages the power of Online RMS *Custom Forms* for your agency to embed a public form in an existing website using only a couple lines of HTML code.

With this enhancement, your agency can create their **Community Reporting** public forms using the *Custom Forms* module and make the forms available to the public via your agency's website.

Benefits of Community Reporting:

 Promote social distancing by reducing officer to public interactions for minor police reports.

- Better service your community by reducing non-essential contacts to ensure officers are available to provide help when emergencies arise.
- Keep officers on patrol and protecting communities by offering an alternate method for the public to report minor police reports without the need to dispatch an officer.

This section provides instructions on how authorized Caliber Online RMS users administer and configure the **Community Reporting** feature.

Agency Responsibilities

The following are the responsibilities of the agency when requesting the **Community Report**ing feature and implementing *Public Custom Forms*:

- Contact your *Caliber Customer Success Manager (CSM)* or enter a support request to sign-up for **Community Reporting**.
 - Caliber will add the **Community Reporting** (*Public Custom Form*) feature to your agency setup.
- Agency administrators are responsible for creating and managing *Custom Forms* or assigning privileges to other agency personnel to create and manage *Custom Forms* for public availability.
- Maintain and manage your agency's existing public-facing agency website.
- Modifications to your agency's website to add Community Reporting.
 - Caliber recommends that a system or website administrator perform the modifications.

Once your agency has access to the **Community Reporting** feature, follow these steps to implement *Public Custom Forms*:

- 1. "Permissions and Settings" on page 275.
- 2. "Number Generation" on page 276.
- 3. "Maintenance Values" on page 278.
- 4. "Make Custom Forms Publicly Available" on page 280.
- 5. "Add Publicly Available Forms To Your Website" on page 285.

For an example of what the implemented *Public Custom Form* looks like on the website, refer to "Sample Public Custom Form Website Display" on page 287.

Note: If you are interested in using the **Community Reporting** feature or have questions about creating and managing *Custom Forms* for *Public Availability*, please contact your CSM or Caliber Support.

Permissions and Settings

There are two permission categories for public form access and management:

- User Form Admin Make Publicly Available
- User Forms Create Incident Form From

User Form Admin - Make Publicly Available

This permission category controls which Online RMS user roles have permissions to make a *Custom Form* publicly accessible (e.g. **Manage Public Access** button for *Custom Form*).

| Permissions | |
|---|----------------|
| Permission Description | |
| User Form Admin - Make Publicly Available | |
| | |
| Form Details Reid List Designer Reports Code Tables Routing Status | iditor Preview |
| This form is published and active. If you wish to make changes to the forms fields or layout, you must first deactivate it. The form will not be deleted, rather it will be made unavailable to users while you make changes to it. Once you making changes, you can activate the form once again. You can also set the form to view only mode, which means forms already entered can be viewed and printed, but new forms cannot be added. | are done |
| Deactivate Set to View Only Manage Public Access | |

The *Agency Admin* role has this new permission category by default. Assign the **User Form Admin - Make Publicly Available** permission category to other roles as needed.

Note: For more information on Permission Categories, refer to "Permission Categories" on page 175.

Note: For more information on Roles, see "Roles" on page 77.

User Forms - Create Incident From Form

This permission category controls whether the **Create Incident** option appears to Online RMS users when reviewing publicly available *Custom Forms* submitted by the public.

| Permissions | |
|--|------|
| Permission Description | |
| User Forms - Create Incident From Form | |
| | |
| Approve Form I View Form | |
| Соммент | |
| | |
| CREATE INCIDENT | |
| | Save |

Number Generation

The **Create Incident** option from publicly available *Custom Forms* requires that your agency has an active *Number Generation format* configured.

Note: For more information on the **Create Incident** option, refer to "Permissions and Settings" on page 275.

If your agency <u>does not</u> have an active *Number Generation format* configured, select one of the following options to generate an incident report from a publicly available custom form:

Generate Incident Number from Online RMS (Recommended)

1. On the Number Generation tab of the *Agency Profile*, create a *Number Generation format* with **Incident** as the *Type*.

Note: For detailed instructions on creating a *Number Generation format*, refer to "Add Number Generation" on page 23.

2. Once configured, users see that the Report Number auto-generates when selecting Create Incident from a publicly available custom form.

| الله Approve Form العناقة المعالم المعا |
|---|
| COMMENT |
| Reviewed community submission and creating incident report to document offense reported] |
| ireafe Incident |

| Upon Creation, this form will be associated with the incident. Any information entered here can be changed later. |
| Xeroer Numer. Auto Generated |

Manually enter Incident Number from CAD

This option is for agencies that use a CAD System to generate Incident and Case Report numbers for Online RMS.

Note: With this option, you need to request a case number from CAD or self-generate from Caliber Mobile.

- An additional setup is required to configure Online RMS to avoid the creation of an RMS incident report from a CAD spill. This prevents the Case number from generating an incident report in Online RMS before the officer has a chance to generate the incident report from the publicly available *Custom Form*.
 - a. In *Caliber CAD*, create a **Tracking Number Generator** for **Community Reports Submitted by the public** and configure a **Type Code**.
 - b. In Online RMS, update XML Doc Options for the CAD Interface to ignore the Case Tracking Number generator Type configure for Community Reports. Option code of IGNORE_INCIDENT_TYPES.

Note: If you need assistance, please call Caliber Customer Support.

- 2. In *Online RMS*, create a *Number Generation format* on the Number Generation tab of the *Agency Profile*, following #GenerateIncidentNumberFromRMS with two exceptions:
 - a. Select a Format that matches the Tracking Number format configured in Caliber CAD.
 - b. Enter 0 (zero) in the Next Number field.

3. Once configured, users are required to type the number provided from *Caliber CAD* when selecting **Create Incident** from a publicly available custom form to generate the incident report in *Online RMS*.

Make Custom Forms Publicly Available

Community Reporting leverages the power of Online RMS *Custom Forms*, allowing agencies to create and manage their publicly available forms.

Follow these steps to make *Custom Forms* publicly available:

1. Create a *Custom Form* containing fields you wish to present to the public.

For more information on *Custom Forms*, refer to "Custom Forms" on page 237.

Publicly Displayed Data

In addition to *Custom Form* data fields, the following appears on the agency's web page when the *Custom Form* displays to the public:

- Custom Form **Title** and **Description** fields from the *Form Details* tab.

| Form Details Field List | Designer Reports | Code Tables | Routing Status |

- 4. Configure Manage Public Access on the Status tab.
 - a. Select the Manage Public Access button.

Note: This button only appears for users having a role with the *User Form Admin - Make Publicly Available* permission.

| Form Details | Field List | Designer | Reports | Code Tables | Routing | Status | |
|--------------|---------------|-----------------------------------|-----------------------------|----------------|-------------------------------|-----------------------|--|
| form will i | not be delete | ed, rather it v tivate the for | vill be made rm once aga | unavailable to | users while set the for | you make m to view | or layout, you must first deactivate it. The changes to it. Once you are done making only mode, which means forms already not be added. |
| | | | | | Set to View (ublic Access | Dniy | |

- b. Select the Create Token button on the upper right.
- c. Select the Agency as the agency to Save for this Custom Form.

The form routes to this agency, unless a different agency is specified on the *Routing Options* tab.

d. Enter Allowed Domain(s).

This is the domain of the agency's website, where the public form is available. For example, if your website is <u>www.myagency.com</u>, you would enter *www.my-agency.com* for **Allowed Domains**.

| Create Public Access Token |
|--|
| Select the Agency This Form Will Be Saved To And Specify Allowed Domains |
| Select an Agency |
| City Police Department |
| Allowed Domains (e.g. myagency.com, countysheriff.com) |
| myagency.com |
| |
| Cancel Save |

- e. Click Save.
- f. A unique **Token ID Number** generates for the agency and form combination upon saving.
- g. Copy the Token by using your mouse to highlight the Token, then pressing Ctrl + C keys on your keyboard at the same time.

h. For **multi-tenant sites or agencies** configured as an Organization with sub-agencies, the same *Custom Form* can be made publicly available on different websites or web pages within the same website to route public submissions of the form to various agencies.

Select the **Create Token** button and enter the information to generate a unique Token for each agency and website/page combination, then enter the Token on the appropriate web page.

When the public completes and submits the form from your website, a *Custom Form* submission generates for the agency associated to the Token ID used to embed the public form on that web page.

| Agency | Token |
|------------------------------|--------------------------------------|
| Burlington Police Department | 59c40c00-ea85-40a6-96d6-503ea1549459 |
| Caliber Public Safety PD | b27fdfe7-fecc-4686-97a9-dc6c98c91317 |
| Model County | 37acd52f-7ec2-4749-9573-20d7e2ffb95b |

5. When finished with the *Custom Form*, click on the *Status* tab and select the **Activate** button.

- Note: Public Custom Forms are <u>not</u> accessible from your website until the form is activated.
- **Note:** If a *Public Custom Form* is <u>not</u> activated, the public will see the below error when navigating to the web page you configured to display the Public Form:

() ERROR RETRIEVING FORM: 404

Form ID: b27fdfe7-fecc-4686-97a9-dc6c98c91317

Environment: demo

Is the form active for Public Access?

Is 'community.public-safety-cloud.com' an Allowed Domain?

Add Publicly Available Forms To Your Website

Community Reporting easily displays within your agency's existing website, creating a consistent online experience for your community to submit report online. **Publicly Available** *Custom Forms* inherit the look and feel of its surroundings on your website, making it appear as if it were an original part of your web page.

Caliber recommends that a system or website administrator perform the following modifications to your existing website, as the specific way your website works may vary significantly from that of other agencies.

Web Page Modifications

The source of an existing web page is typically structured with an invisible **<head>** section (which contains many of the needed resources, such as JavaScript and CSS), and the **<body>** section that is displayed in the end user's internet browser. **Community Reporting** requires the addition of <u>one line</u> to the end the **<head>** section, and <u>one line</u> within the **<body>** section *where the custom form information should display*.

Below is a simplified example of a web page and how it should be modified to enable **Com-munity Reporting**.

- The id is the Token ID generated for the *Custom Form* in Online RMS.
- The id="12345678-abcd-1234-abcd-1234567890ab" in the <caliber-custom-form section must be changed to use the Token generated for your *Custom Form* in Online RMS.

For more information on the generated **Token ID**, refer to "Make Custom Forms Publicly Available" on page 280.

- The yellow highlighted lines must be added to your existing website.

- 1. Modification labeled 1 tells the internet browser where to find the JavaScript that displays the *Custom Form* from Online RMS.
 - Note: Do not modify the contents of this line. Any changes to this line may cause the *Custom Form* not to display and may break other functionality of your web page.
- 2. Modification labeled 2 identifies the location in your existing website where the *Custom Form* should display.
 - Note: You MUST update the id="12345678-abcd-1234-abcd-1234567890ab" to use the Token generated for your *Custom Form*. For more information on the generated Token, refer to "Make Custom Forms Publicly Available" on page 280.

Display Configuration Options

There are four (4) *optional* configuration settings that can be added to the **<caliber-custom-form...></caliber-custom-form>** line.

Configuration options with their default values:

| Configuration Options | Description |
|--|---|
| hide-images= <mark>"false"</mark> | Hides the section of the form that allows the end-user to submit a JPEG image which will be attached to the <i>Custom Form</i> in <i>Online RMS</i> . |
| hide-title= <mark>"false"</mark> | Removes the Custom Form's Title from the form when displaying on your website. This may be useful if the web page has an existing title/heading that you prefer to use. |
| hide-description= <mark>"false"</mark> | Removes the Custom Form's Description from the form when displaying on your website. This may be useful if the web page has an existing description that you prefer to use. |
| hide-section-headers= <mark>"false"</mark> | Removes the Custom Form's Section Group label from the Custom Form field designer when displayed on your website. |

If you desire different display options than the default values, you can override the default values by adding the appropriate configuration option to the **<caliber-custom-form...</caliber-custom-form>** line and setting the value to *"true"*.

Example 1

If you do <u>not</u> want to display the **Custom Form Title** on the web page, use *hide-title="true"*. The **id** is the **Token ID** generated for your *Custom Form*.

```
<caliber-custom-form
hide-title="true"
id="12345678-abcd-1234-abcd-1234567890ab">
</caliber-custom-form>
```

Example 2

Example of all available configuration options. The **id** is the **Token ID** generated for your *Custom Form*.

For more information on the generated **Token**, refer to "Make Custom Forms Publicly Available" on page 280.

For an example of how a *Public Custom Form* display on your agency website, refer to "Sample Public Custom Form Website Display" on page 287.

Sample Public Custom Form Website Display

Publicly Available Custom Forms inherit the look and feel of its surroundings on your website, making it appear as if it were an original part of your web page.

Below is an example of how a *Public Custom Form* displays on your agency website:

| Community Reporting Caliber ← → C G | | r Contact Request A Demo |

Chapter 16. Module Admin

The Module Admin feature must be enabled by Caliber Public Safety personnel in order for an agency to use it. In addition, only administrative users who have been assigned the appropriate role can access and manage the Module Configuration page.

Access Module Admin

Click on the **Administration** label, then **Administration** again, to access the *Administration Home* page.

Click the **Module Admin** link to open the *Module Configuration* page.

| Click on | individual links | Go Back |
|------------------------|--|---------|
| Incident Rules | Configure Incident rules for agency: -Select Agency- | ~ |

| Warrants | Configure Warrants | |
| Photo Lineups | Configure Photo Lineups | |
| Fleet Management | Configure Fleet Management for product and agency settings. | |
| Training | Configure Training. | |
| Personnel Management | Configure Personnel Management. | |

The column on the left of the *Module Configuration* page contains links to individual topics. Click on an individual link to open a unique configuration page for that topic.

Note: For multi-level agencies, administrators with appropriate permissions can choose a specific agency within their organization when managing *Incident Rules* and *Lost & Found Locations* configurations.

Civil Process, Fleet Management, and *Training* are used for illustration purposes; the remaining configuration setting options follow a similar process only with different data requirements.

Incident Rules and Validation Settings

Authorized users can configure Incident rules and validations.

Manage these options from the *Module Configuration* page. For instructions on accessing the *Module Configuration* page refer to "Access Module Admin" on page 289.

You can <u>Select Agency</u> to manage its configuration, or you click on the <u>Configure Rules For</u> <u>All Agencies</u> link to open the Rules & Validations page.

| Incident Rules | Configure Incident rules for agency: -Select Agency- | |
|--|--|---------------------------------------|
| Incident Rules | Configure Rules For All Agencies | |
| | | |
| Rules & Validations - Ang Pol | ice Department | |
| Incident Incident Offense Inc | cident Victims Incident Offenders | |

| Module: Incident | | |
| Color Indicates Condition is In | active | Show View: Condition Editor V |
| | | Add Condition Expand All Collapse All |
| My Agency Conditions No Conditions | | |
| | Save | |

Select each tab to add any necessary rule and validations.

You can set up a rule to trigger a set of questions to appear when a specific Incident Type is chosen. For example, Incident Type of Civil Dispute would trigger the Yes or No question of "Was a Civil Citation Issued?"

Civil Process Product Settings

Product configuration options include the following:

- Court Paper Types
- Court Paper Sub-Types
- Reference Types
- Other Party Roles
- Party/Org Roles
- Payment Types
- Log Action Types

To manage these options from the *Module Configuration* page, click the <u>Civil Process</u> link with *product and agency settings* in the description. For instructions on accessing the *Module Configuration* page refer to "Access Module Admin" on page 289.

| Civil Process | Configure Civil Process for product and agency settings. |
|---------------|---|
| Civil Process | Configure Civil Process For Your Agency District 42, Versailles |

The *Product Config* table opens with the seven configuration options in separate tabs across the top, resting on the **Court Paper Types** tab by default.

| il Process I | Product Admi | nistration | | Seven T | abs | | G |
|--------------|--------------|----------------------|-----------------|---|-----------------|---------------|---------------------------|
| Court Pap | er Types C | ourt Paper Sub-Types | Reference Types | s "Other" Party Roles | Party/Org Roles | Payment Types | Log Action Types |
| | | | I | | | G Ado | i Court Paper Type Coo |

| NTA | Notice to | Appear | Yes | Child Support Civil Civil Criminal Domestic Violence Emergency Order Extradition Interim Order Jury Trial Juvenile | | | ď E |
| ORD | Order | | Yes | Child Support Civil Criminal Domestic Violence | | | 2 |

Click on the individual tabs to access the different options. With the appropriate permissions, you can add, edit, and delete settings within each tab. While the data differs with each configuration option, the functionality remains consistent.

The **Court Paper Types** option is used for illustration purposes.

Add Court Paper Type Code

1. Click on the <u>Add Court Paper Type Code</u> link to display the *Court Paper Type Code* entry form.

| Court Paper Type Code |
|-----------------------------|
| CODE |
| OP |
| DESCRIPTION |
| Civil Protection Order |
| ACTIVE |
| \checkmark |
| SUB-TYPES |
| * Civil * Domestic Violence |
| Close Save |

- 2. Enter the Code and Description.
- 3. The Active box is checked by default. Deselecting this button allows you to save the information entered and activate the Court Paper Type at a later date.
- 4. Select all **Sub-Types** that apply.
- 5. Click **Save** to save the record and return to the *Product Config* table., or click **Close** to cancel without saving.

Edit Court Paper Type Code

1. Locate the record you need to edit in the table.

- 2. Click in the Actions column in the same row as the record listing to display the *Court Paper Type Code* page.
- 3. Make changes as needed.
- 4. Click **Save** to save changes and return to the *Product Config* table.

Delete Court Paper Type Code

- 1. Locate the record you need to delete from the table.
- 2. Click in the Actions column in the same row as the record listing.
- 3. If a confirmation prompt displays, click **Yes** to confirm deletion, or click **No** to cancel deletion, and return to the *Product Config* table.

Civil Process Agency Settings

On the *Module Configuration* page click the <u>Civil Process</u> link with your agency's name in the description. For instructions on accessing the *Module Configuration* page refer to "Access Module Admin" on page 289.

| Civil Process | Configure Civil Process for product and agency settings. |
|---------------|---|
| Civil Process | Configure Civil Process For Your Agency District 42, Versailles |

The Configuration page appears.

| Administration / Module Configuration / Civil Process Configuration | |
|---|-----|
| Civil Process Agency Administration | ack |
| FEE COLLECTIONS ENABLED | |
| Save | |
| Would you like to zero out existing court paper fees? Running this script will add a fee collection to all existing court papers in the amount of the total fees. Zero Fees | |
| Would you like to manage court locations and received from agencies for District 42, Versailles agency? Manage Court Locations | |

Check the Fee Collections box to enable, or uncheck to disable, then click Save.

Click Zero Fees to zero out existing court paper fees.

Click **Manage Court Locations** to manage Court Locations. For detailed instructions refer to "Court Locations" on page 220.

Click the **Go Back** button on the upper right of the page to return to the *Module Configuration* page.

Fleet Management Settings

Configuration options include the following:

- Equipment Types
- Vehicle Status, Vehicle Category, Vehicle Assignments, Vehicle Groups, Vehicle Repairs, and Vehicle Ratings
- Category Roles
- Misc IDs
- Vendors and Funding Vendors
- Service Request Types and Service Request Status
- Storage Locations
- Budget Codes
- Fuel Types and Fuel Payments
- Fluid Types
- Inspection Types and Inspection Status
- Insurance Claim Types
- Crash Hours Groups
- Crash Damage Codes
- Crash Cause Codes
- Crash Reference Types
- Crash Types Codes

To manage these options from the *Module Configuration* page, click the <u>Fleet Management</u> link. For instructions on accessing the *Module Configuration* page refer to "Access Module Admin" on page 289.

| Fleet Management | Configure Fleet Management for product and agency settings. |
|------------------|---|
| Training | Configure Training. |

The *Product Config* table opens with the configuration options in separate tabs across the top, resting on the **Equipment Types** tab by default.

| EQTYPE_4 | | | | | | | | | |

Click on the individual tabs to access the different options. With the appropriate permissions, you can add, edit, and delete settings within each tab. While the data differs with each configuration option, the functionality remains consistent.

The **Equipment Types** option is used for illustration purposes.

Add Equipment Types

1. Click on the Add Equipment Type button to display the Equipment Type entry form.

| Equipment Type | |
|----------------|------------|
| CODE | |
| DESCRIPTION | |
| ACTIVE | |
| | |
| | Close Save |

- 2. Enter the Code and Description.
- 3. The Active box is active by default. Deselecting this button allows you to save the information entered and activate the Equipment Type at a later date.
- 4. Click **Save** to save the record and return to the *Product Config* table., or click **Close** to cancel without saving.

Edit Equipment Types

- 1. Locate the record you need to edit in the table.
- 2. Click in the Actions column in the same row as the record listing to display the Equipment Type page.
- 3. Make changes as needed.
- 4. Click **Save** to save changes and return to the *Product Config* table.

Delete Equipment Types

- 1. Locate the record you need to delete from the table.
- 2. Click in the Actions column in the same row as the record listing.
- 3. If a confirmation prompt displays, click **Yes** to confirm deletion, or click **No** to cancel deletion, and return to the *Product Config* table.

Training Settings and Configuration

Configuration options include the following:

- Course Templates
- Maintenance Settings (List courses and certifications that are about to expire within a set number of days)
- Course Types
- Course Classifications

To manage these options from the *Module Configuration* page, click the <u>Training</u> link. For instructions on accessing the *Module Configuration* page refer to "Access Module Admin" on page 289.

| Fleet Management | Configure Fleet Management for product and agency settings. | | | |
|------------------|---|--|--|--|
| Training | Configure Training. | | | |

For details on settings and configurations refer to "Training Module" on page 151.

Chapter 17. Collapse Duplicate Master Indices

Master Indices are centralized pieces of data that are accessed from different modules of the system for consistency. Each index is represented only once, such as a person, address, vehicle, and organization. For example, all Caliber Public Safety Online RMS modules access the same person record for Joe Smith with SSN 123-12-1234 and the same vehicle record for VIN ABC1235223DE45455.

There may be times when users inadvertently create a duplicate master person, address, vehicle, or organization in Caliber Public Safety Online RMS. The agency administrator, with proper permissions, can identify and collapse duplicates records, creating one master person, address, or organization record.

Access Collapse Process

There are two ways to access the **Collapse** process.

Option 1

Click on the *Records Management* label and *Records Management* again, then click the appropriate icon that corresponds to the Master Index you want to collapse.

Option 2

Select **Person Records**, **Address Records**, **Organization Records**, or **Vehicle Records** from the **Records Management** drop down menu.

| Master Indices 🔻 | Record | s Management 🔻 | Forms An | d Reports 🔻 H | elp 🔻 | |

Search for Duplicate Master Indices

Use the following procedure to search for potential Master Index duplicate records. While the instructions are specific to Master Person, follow the same general process for Address, Vehicle, and Organization using different search criteria.

1. Access **Person Records** to open the *Select - Collapse Criteria* page to search for potential duplicates. (See "Access Collapse Process" on page 299, if needed.)

2. You must select one Master Person record as the *primary* record, and at least one Master Person record as the *duplicate*.

You can either manually search for and identify the duplicates, or you can let the system search for potential duplicates based on the search criteria you enter.

Select one option then follow the applicable steps below:

Select a Person

a. Select this option to manually search for and identify duplicates, then click **Continue** to open the *Master Index Search* page.

| | | | Mug Shot Si | earch - By Physical Description | Add Perso |
|--------------------|----------|-----------------------|-------------|---------------------------------|-----------|
| 💄 Person | | | | | |
| LAST NAME | | FIRST NAME | | MIDDLE NAME | |

- e. Optionally click the Add Duplicate Person link to search for and add another Master Person to the *Duplicates To Be Collapsed* list
- f. Click the select icon **b** in the *Actions* column on the record you want to use as the Primary Person. Hover your mouse over the hand icon to display the Make Primary Person message.

Note: You must select one Primary Person to continue the collapse process.

g. The selected duplicate record moves from the *Duplicate To Be Collapsed* section to the *Primary Person Details* section. This primary person record becomes the only Master Person Index record after the collapse process finishes.

- h. Click on the delete icon to remove records from the *Duplicates To Be Collapsed* list that should not be included in the collapse process, or click the not duplicate icon to flag the record as *Not Duplicate* and enter a comment as to why it is not considered a duplicate. Both methods remove the record from the *Duplicates To Be Collapsed* list.
- 3. Click **Next** to run the collapse process. For more information about running the collapse process refer to "Run Collapse Process" below for instructions on collapsing Primary and Duplicate Master Index Records into one Master Record.
 - Note: Before running the collapse process, double check the *Duplicates To Be Collapsed* list to ensure the only records that appear are those you want to collapse with the *Primary Person* record

Run Collapse Process

Use the following procedure to collapse Primary and Duplicate Master Index records into one Master Record. While the instructions are specific to Master Person, follow the same general process for Address, Vehicle, and Organization using different criteria.

1. Select the Primary and Duplicate Master Person Index records to collapse. (For more information on accessing the collapse process and searching for duplicates see "Access Collapse Process" on page 299 and "Search for Duplicate Master Indices" on page 301, respectively.)

Note: You must select one Primary Person and at least one Duplicate to run the collapse process.

- 2. Double check the *Duplicates To Be Collapsed* list to ensure the only records that appear are those you want to collapse with the *Primary Person* record; remove any that should not be included.
- 3. Click Next
- A warning message appears when the duplicate record is associated with other records in the system such as, incidents, arrests, etc. Hover the mouse over the red triangle for a summary of the associations.

In the example below, the duplicate person is associated with one incident.

| rimarv | Person I | Details | | | | | | | | | |
|--------|--------------|---------------|----------------|-------|-----------|--------|------------|-----------|---------|-------------------------|---------|
| D | Last Name | First Name | Middle Name | Race | Ethnicity | Sex | DOB | SSN | DL # | Creator Agency | Actions |
| 1080 | Clark | Ranelle | Marie | White | | Female | 03/16/1959 | 123991234 | | Indiana State Police | |
| | | | | | | | | | | | |

5. Select the box to the left of the person you want to transfer to the primary person.

6. Click the **Collapse** button to continue with the collapse process, click **Exit** to abort without collapsing, or click **Go Back** to return to the *Person Collapse* screen.

By choosing **Collapse**, the name on the associated records becomes the primary person name.

7. A warning and comment box appears. Enter a **Comment** and click **Save** to continue the collapse process, or click **Cancel** to abort without collapsing.

| Collapse People |
|---|
| Warning: All Duplicates selected will be collapsed into the selected primary Person. COMMENTS |
| Cancel Save |

8. The *Person Collapse* screen appears when the Collapse process is complete.

Click **Perform Another Task** to Collapse other records, click the **Edit Person** link to edit the person details, or click **Exit**.

9. Data is collected and logged during the collapse process for auditing and tracking purposes. The *Collapse Log* also provides a way to reverse the results of the collapse process, to *UnCollapse* the duplicate master index from the primary record.

For more information about the *Collapse Log* or the *UnCollapse* process, refer to "Collapse Log" below.

Collapse Log

Basic Master Index data is collected and logged during the collapse process for auditing and tracking purposes. The *Collapse Log* also provides a way to reverse the results of the collapse process, to *UnCollapse* the duplicate master index from the primary record.

The Collapse Date, Collapsed By, Master Index Name and other information depending on the Master Index are tracked in the *Collapse Log*. For example, for the Master Person Index, Race, Sex, DOB, SSN, and Driver's License Number of both the Primary and Duplicate Person records are logged.

Use the following procedure to access the *Collapse Log*. While the instructions are specific to Master Person, follow the same general process for Address, Vehicle, and Organization.

- Access the Collapse process through the *Records Management* menu, then select *Person Records* for Master Person. For more information on accessing the Collapse process refer to "Access Collapse Process" on page 299.
- 2. Click the Collapse Log button to open the Person Collapse Log.

3. Optionally click the Index ID link to open the *View Person* screen.

Note: The UnCollapse button provides a way to reverse the results of the collapse process. For instructions on using the UnCollapse button refer to "UnCollapse Master Index" below.

6. Click Go Back to return to the Person Collapse Log.

UnCollapse Master Index

The *Collapse Log* provides a way to reverse the results of the collapse process, to *UnCollapse* the duplicate master index from the primary record.

Use the following procedure to uncollapse a Master Index record. While the instructions are specific to Master Person, follow the same general process for Address, Vehicle, and Organization.

- 1. Access the **Collapse Log** through the *Records Management* menu, then select *Person Records* for Master Person. For more information on accessing the **Collapse Log** refer to "Collapse Log" on page 311.
- 2. Identify the collapsed record you want to uncollapse, then click on the **View** icon in the *Actions* column to open the *Person Collapse* screen.

Chapter 18. Inventory Administration

Inventory Administration allows users with proper permissions to configure and maintain settings for office supplies, fixed assets, weapons, equipment, vendor list, locations with assigned managers, clothing, and others.

Access Inventory Administration

Click on the Records Management label then click on User Inventory Management.

Click the **Administration** button to open the **Inventory Administration** page containing up to four tabs depending on your agency setup.

| | | | | | | Exit |
|----------------------|--------|----------|-------|----------------------|----------------|------|
| Inventory Management | | | | | | |
| Add New Inventory | Browse | Check-In | Packs | Inspections / Audits | Administration | |
| | | | | | | |
| | | | | | | |

- Inventory Setup
- Locations
- Organizations
- Vendors

Inventory Setup

The *Inventory Setup* tab of the **Inventory Administration** page contains configuration settings of clothing, equipment, fixed assets, office supplies, vehicles, and weapons.

| | Go Back |
|--|---------|
| Inventory Setup Locations Organizations Vendors | |
| Clothing Cup Equipment Fixed Assets Office Supplies Cup Control Contro | |

To the left of each category is a sideways **funnel**. Click on the **funnel** to drill-down for sub-categories, and sub-categories may also have funnels. You can keep drilling-down until no more funnels appear.

Locations

The *Locations* tab of the **Inventory Administration** page contains configuration settings for various types of locations such as a warehouse, closets, rooms, parking lots, and managers assigned to the locations.

| Go f Inventory Setup Locations Organizations Vendors | | | | | | | | | |

Hover your mouse over the blue information bubble to view a portion of a note entry that is associated with the vendor record, or click the blue information bubble to view the entire note entry.

Chapter 19. Reports

Online RMS reports consist of five report types: Ad Hoc, Custom Field, Custom Form, and Standard Menu.

- Ad-Hoc reports are created via Jasper Reports or iReports. Once a user with the appropriate permissions has created and saved ad hoc reports, other users within the agency/schema who have been the appropriate roles/permissions, can then use them.
 - Note: iReport allows for a detailed and specific set of design options. A user who wants to alter the form beyond the capabilities of the Custom Form Designer would do so in iReport. They can download the template, make the changes in iReport, then re-upload it here. This will require the user to know how to use iReport.
- Custom field reports are built from user-defined fields that have custom labels.
- Custom forms reports are based on an agency's needs and are designed to gather specific information to meet those needs.
- Standard menu reports are those that are delivered with the system. They are basic, outof-the-box reports for statistics and such.

For information on how basic users access and use the various RMS reports, refer to the *Caliber Online RMS*.

Report Administration

The Report Administration page provides administrators ways to manage the various reports.

Note: For information on how basic users access and use the various RMS reports, refer to the *Caliber Online RMS User Guide*. The Forms And **Reports** menu provides access to existing reports.

You can access, add, and update reports from the Report Administration page.

From the *Home* page, click the **Administration** menu label to open the *Administration Home* page, then click on the **Reports** icon to display the *Report Administration* page. For more

information on accessing the *Administration Home* page, refer to "Access Administration" on page 1.

This page displays both custom created reports and product reports.

To edit a product report, click the edit icon to display an *Edit Report* page. Here, you can change the report name, category, description, agencies if applicable, and roles. In addition, Operations can control who has access to which reports.

Ad Hoc Reports

As the name implies, an ad hoc report is one created for a specific purpose. Online RMS agencies can create reports that perform specific functions within their agencies. To create ad hoc reports, a user (sometimes referred to as a *superuser*) must have the appropriate permissions and have access to the Jasper Server.

Ad Hoc Tool Access

For a user to access the Open Ad Hoc Tool, an agency administrator must set up that user with the appropriate access permissions.

Use the following procedure to set up ad hoc tool access.

- From the Home page, open the Administration menu then click on Users to open the Manage Users page. The page opens to the User Accounts tab by default. For more information on accessing the Administration Home page, refer to "Access Administration" on page 1.
- 2. Use the **Search** fields to locate the user by typing a search parameter in the **Search** field, in the Status field select *Active*, then click the **Search** button to display a list of users that match your criteria.

| User Acc | counts Lo | ng | | | _ | | | | Go Back Add Use |

Ad-Hoc Reporting

With appropriate permissions you can create Ad-Hoc reports and, using the Repository, you can group them into custom categories or topics.

Create an Ad-Hoc Report

The following example steps you through the process to create an Ad-Hoc report and group by reporting areas.

Use the following procedure to select an ad-hoc topic that contains the **Reporting Area** field.

1. From the *Forms and Reports* page, click the **Launch** button under the <u>Ad-Hoc Reporting</u> section.

| Records Management | Forms And R | eports 🔻 Help 🔻 | _ | | |
|--|---------------------------------|----------------------|---|------------------------|---|

| | | | a vela | | |
| ▼ Popular Resources | | Dashbo | Darus | | |
| Popular Resources How-to videos | | Combine re | lated reports into custom | | |
| | | Combine re | | | |

2. Click Create under Ad Hoc Views to open the Select Data window.

Click on the appropriate icon to view the source in *Tree* format or in *List* format, respectively. The *List* format is selected by default.

Admin Guide

- 3. To choose using the *Tree* format:
 - a. Click + to the left of the Public folder to open the folder.
 - b. Click + to the left of Ad Hoc Components.

- c. Click + to the left of Topics.
- d. Select a topic.

Note: The following topics have been modified as follows:

• Calls for Service Topic has been modified as follows:

BEAT and SUB_BEAT is labeled Reporting Area.

Officer Information is labeled Primary Officer.

- Evidence Topic has the additional fields: Property Summary, Location Remarks, Reporting Area, and Status description.
- Field Arrest Charges Topic has the additional fields: Person Summary, Address Summary, Impound ID, Vehicle Seized, Vehicle Stored, Currency Seized, Currency Total, Discharge Date, Status Code, Status (to reference new columns), Case Number, Reporting Area, Longitude, and Latitude.
- Field Arrest Topic has the same additional fields as the Field Arrest Charges Topic (see above).
- Field Contact Topic has the additional fields: Notes, Address, Location Reporting Area and general summary information for Officer, Gang, Person, Organization and Vehicle.
- Incident Topic has the additional fields: Status (description), Address (summary), Reporting Area, Incident NIBR City, Incident County, Incident Township.
- Incident Offender Evidence Topic has the additional fields: Property Summary, Status (description), Address (summary), Location Remarks, Reporting Area, Location Agency, Incident NIBR City, Incident County, Incident Township.
- 4. To choose using the *List* format:
 - a. Scroll down and click on the source you want, then click the **Choose Data...** button to open the *Data Chooser* page.

| Fields Pre-filters | Source | Sel | ected Fields | |
|--------------------|---------------------------------|-----|--------------|--|
| Display | CITATION_VW | | | |
| Save as Topic | | < | | |
| | | | | |
| | | ** | | |
| | | ** | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |

- b. Click on items under the *Source* section then click the **right arrow** to move them into the *Selected Fields* section. Or **double-click** on selected *Source* items to move them automatically into the *Selected Fields* section.
- c. The **Pre-Filters**, **Display**, and **Save as Topic** buttons on the left become active. Click through each button to define the report.

| Data Chooser | Choose Data To move items in or out of selected fields, double-click th | nem, drag th | nem, or use the direction buttons. |
|--|--|--------------|------------------------------------|
| Fields Pre-filters Display Save as Topic | Source | ► ► ★ | Selected Fields CITATION_VW |

- **Pre-Filters**: Create filters to limit the data available in the editor. For example, you can limit the report to list citations with a specific citation type.
- **Display**: Change the display name for fields, re-order fields, and choose whether the fields are listed in groups or not.
- Save as Topic: Save the topic for later use.
- 5. Click OK to open the New Ad Hoc View page.

- 6. Click on titles on the left and drag and drop them into the Columns and Rows fields on the upper right.
- 7. Give your report a title in the designated text box.
- 8. Use the tool bar to apply other functions. Hover your mouse over each icon on the tool bar for a description of its function.

For more information on Ad Hoc Views, click on the View Tutorial link.

Group Ad-Hoc Reports using the Repository

With Online RMS 11.7.0 and above, you can add folders, or categories, to the report repository to better group your Ad-Hoc reports. Previously, all new Ad-Hoc reports were grouped under *Other Reports* automatically for the users who have permissions to run reports.

The example below illustrates how Ad-Hoc reports can reside in their own categories, separate from *Other Reports*.

Menu for users with permissions to run reports

| • | Another Matt Test |
|---|-------------------------------------|
| | TestArrest Report |
| 0 | Citation Reports |
| 0 | Clery Reports |
| 0 | Evidence\Property Reports |
| 0 | Fleet Management Reports |
| 0 | Incident Reports |
| • | Matt Test |
| | Permit Test 1 Report |
| 0 | Other Reports |
| • | Permit Reports |
| | Permit - Business Expire Listing |
| | Permit Test 1 Report |
| 0 | Permits Level 2 Folder |

Numbers 2, 3, 4 in the above example contains Ad-Hoc reports that have been categorized outside of *Other Reports* (number 1).

Before Online RMS 11.7.0, Ad-Hoc reports would all reside under the *Other Reports* category. To create new categories, see "To Create new categories" below.

For more information on how users run reports, refer to the Caliber Online RMS User Guide.

To Create new categories

- 1. From the *Forms and Reports* page, click the **Launch** button under the <u>Ad-Hoc Reporting</u> section as shown in Step 1 under "Create an Ad-Hoc Report" on page 325.
- 2. Click View on the top menu, then **Repository** to open the Repository.

330

| @InterAct | ÷ | Library | ľ | View 🗸 | Create 🗸 |
|-------------------------|---|---------|---|--------|-----------|
| Home | | | | Searc | h Results |
| | | | E | Repos | itory |
| • Recently Viewed Items | | | | Messa | iges |

3. Click + next to the **Reports** folder to expand subfolder categories that may exist, and repeat for any subfolders.

| ØInterAct 4 | Lib | rary | View 🗸 | Create 🗸 |

| Permit Reports Permits Level 2 Folder | | | | |
| ਜ Templates | - | | | |
| 🗐 Views | | | | |
| 💼 Public | | | | |

- 4. To create a new subfolder category, right-click on a folder then click Add Folder.
 - a. Enter the folder Name.
 - If you enter a unique name that does not exist, that new folder appears as its own category to the user, rather than under *Other Reports*. Refer to numbers 2 and 3 shown under "Menu for users with permissions to run reports " on the previous page.
 - If you wish to add Ad-Hoc reports to a category that already exists, enter that exact category name when creating the subfolder. *Permit Reports* is used in the example. Name the new subfolder *Permit Reports*, then Ad-Hoc reports added to that new subfolder will display under the existing *Permit Reports* category. Refer to number 4 shown under "Menu for users with permissions to run reports " on the previous page.
 - b. Optionally enter a **Description**.
 - c. Click Add.

Chapter 20. Message Center

This module allows administrators to setup and maintain broadcast messages for users. From the *Administration Home* page, click the **Message Center** icon to open the *Message Center* page as shown. (Alternatively, select **Broadcast Messages** from the **Administration** drop down menu on the top navigation bar.)

| | | | | team | | | |

This page has two tabs: **Broadcast Messages** and **Feature Communication**. Depending upon roles, some users see only the **Broadcast Messages** tab; others see both.

- "Broadcast Messages" on the next page for more information and instructions on the first tab.
- "Feature Communications" on page 340 for information and instructions on the second tab.

Broadcast Messages

The **Broadcast Messages** tab is used to manage administrative messages to users. These messages relay information concerning mandatory meeting or firearms qualification notices as well as time sensitive information such as an Attempt to Locate notice for a stolen vehicle or reckless driver. Administrators set up these messages to be displayed to recipients according to their agency affiliation and/or role designation. Each message includes a start and end date/time. Administrators can select from various message types (informational, web sites, Amber Alerts, warnings, training tips, and so forth) and set a specific priority level for each message.

Use the **Search** fields to search for a specific message as follows:

- 1. Type a string of characters in the first **Search** text field.
- 2. Select from the drop-down list in the subject field to specify where the string can be found.
- 3. Click Search to return search results.

Add Message

Use the following procedure to set up and post a broadcast message.

1. From the **Broadcast Messages** tab on the *Message Center* page, click the **Add Broadcast Message** button in the upper right corner to open the *Add Broadcast Message* page.

| roadcast Messages / Add Broadcast Message | | | |
|---|---------|-----------------|-----------------------|
| | | | Go Back Save |

| Online RMS mainten maintenance window. | | AM - 1:15 AM CST on S | unday, June 28, 2020. You will not have access to Online RMS during this |

- a. When you select the **Login Notification** checkbox, a text editor opens, where you can enter a message and format the content.
- b. Select the **Require Acknowledgment** checkbox if you want to require users to acknowledge the message. If this option is checked, the message appears every time a user logs in, until the user acknowledges the message.
- 6. Select one or more Agency Recipients for your message by selecting from a list.

Note: If Global is checked, skip this step.

- 7. Select one or more Role Recipients.
- 8. Edit the Start Date and Time if needed (default setting is current date and time) and set an End Date and Time.

The message automatically expires on the specified end date and time, unless you delete it before that time, or you edit the message and extend the date and time.

9. Click **Save** to save the message. The *Edit Message* page opens with two tabs: *Message Details* and *Attachments*.

Chapter 21. Maintenance Values

Maintenance Values provides administrators with proper permissions to configure module behavior and restrictions for the agency or schema.

Examples:

- Determine if incidents always require approval, regardless of whether or not an offense exists.
- Allow agency to select specific charge violation related to an offense code.
- Enable level 2 approval for criminal complaints.
- Turn email notifications on or off at the application level.
- Set max file size for attachment uploads.
- Set number of days to increment case activity review date.
- CAD IP Address.
- Allow officers to select another agency within their organization when creating evidence.
- Enable fee collections of court papers.
- Require at least one narrative for a field arrest.
- Set a default warrant status when it is added to a field arrest.
- Display criminal complaints under recent activities that were submitted within a specified number of days.
- Require Off Duty and Service Interval when entering fuel/oil.
- Set max number of allowed pinned records per user, if different than the default of 50.
- Optionally require at least one evidence processing record, if applicable to your agency.
- Default chain of custody to print in ascending order.
- Require Judge on warrant creation.

Access Maintenance Values

There are two ways to access Maintenance Values, depending on your permissions:

- Agency Profile Settings Tab.
 - Settings for a specific agency.
- Administration top menu.
 - Schema-level settings (all agencies).

Agency Profile Settings Tab

1. Click on the Administration top menu, then Agencies to open Agencies.

2. Click [edit] next to the appropriate agency to open the Agency Profile.

3. Click on the **Agency Settings** tab to display setting options, then click on **Maint Values** under the *Other Tables* section.

| gency Information - Caliber Public Safety | PD Sub Agenc | y Agency Organization | Number Generation | Quick Links Agency Settings |
|---|------------------|---|-------------------|--|
| Select one of the links below: | | | | |

| ALWAYS_REQUIRE_LOC_CATEGORY | Ŷ | Y or N. When enabled, will require a common place category even if no common place names are available. Only applies when ENABLE_INC_LOCATION_CATEGORIES is enabled | 08/02/2016 | | | ď | | |
| APPROVAL_REQ | Y | Determines if incidents require approval all the time regardless if offenses exist or not. | 01/01/2010 | | | 2 | | |
| ARREST_CHARGE_CODES | Y | Allow agency to select specific charge violation related to an Offense code | 04/02/2010 | | | Ø | | |

Chapter 22. Delegate Privileges

The Delegate Privileges feature allows users with certain administrative functions to transfer their privileges (roles) to other RMS users. For example, a user going away on vacation for two weeks might delegate certain of their roles to another user during that period of time. The next time the delegated user logs into the application, he will have the privileges associated with the delegated roles.

- It is up to the agency to decide whether to use this functionality or not.
- A user is only able to delegate the privileges (roles) that have been assigned to them.

Use the following procedure to delegate privileges.

1. Click the **Records Management** label on the top navigation bar, then click the **Delegate Privileges** option to open the *Delegate Privilege* page as shown.

2. Click the Add Delegate Privilege button in the upper right corner to display the Add Delegate Privilege page.

| Delegate Privileges / Add Delegate Priv | ilege | |
|---|-------|------------------------|
| | | Go Back |
| Role | | Expiration Date |
| -Select- | • | # |
| Users Q | | |
| Click To Select | | |
| | | Go Back Reset Delegate |

- 3. Select the **Role** for which you which to delegate privileges. (It may already appear in the field by default, but can be changed.)
- 4. Enter the Expiration Date.
- 5. Select the **User** by entering in the user's name then selecting the appropriate user(s) from

the displayed list, or click on the search icon search window.

6. Click **Delegate** to delegate the privileges associated with the specified role to the specified users and redisplay the *Delegate Privilege* page with the delegation listed in the grid.
