Chapter 1. Introduction

Overview

The purpose of this document is to provide instructions on producing Incident Based Reports from the Online RMS application. The application collects FBI data based on the National Incident Based Reporting (NIBRS) requirements.

You access a data set (file) that contains all Agency reports that have a reportable offense that is in approved status. They filter out the reports for inclusion in the file to be used to create the NIBRS Reports. This is typically on a monthly basis but can be filtered as necessary.

Role and Permission Requirements

Your user account must have the role DATA_SUBMISSIONS_MGR or the *Incident Based Reporting* permission. The permission can be assigned to any role that the agency administrator would like. Please contact Online RMS Support for assistance on role or permission changes.

Accessing the IBR Module

From your *home page* there are two ways to access the **Incident Based Reporting (IBR) Module**.

- Method 1

Click on the **Incidents** button on the top navigation bar to display a drop-down menu, click on **Incident Reporting**, then **Incident Based Reporting**.

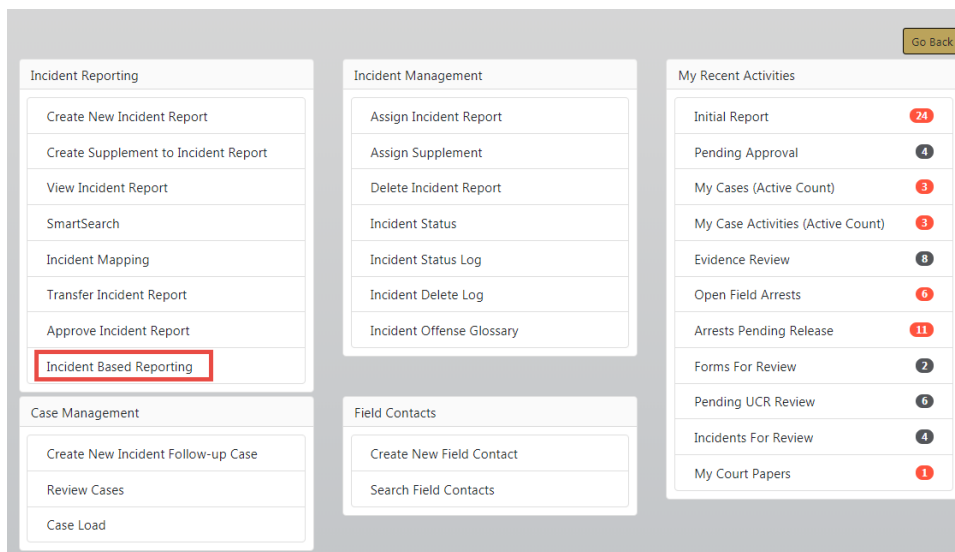

- Method 2

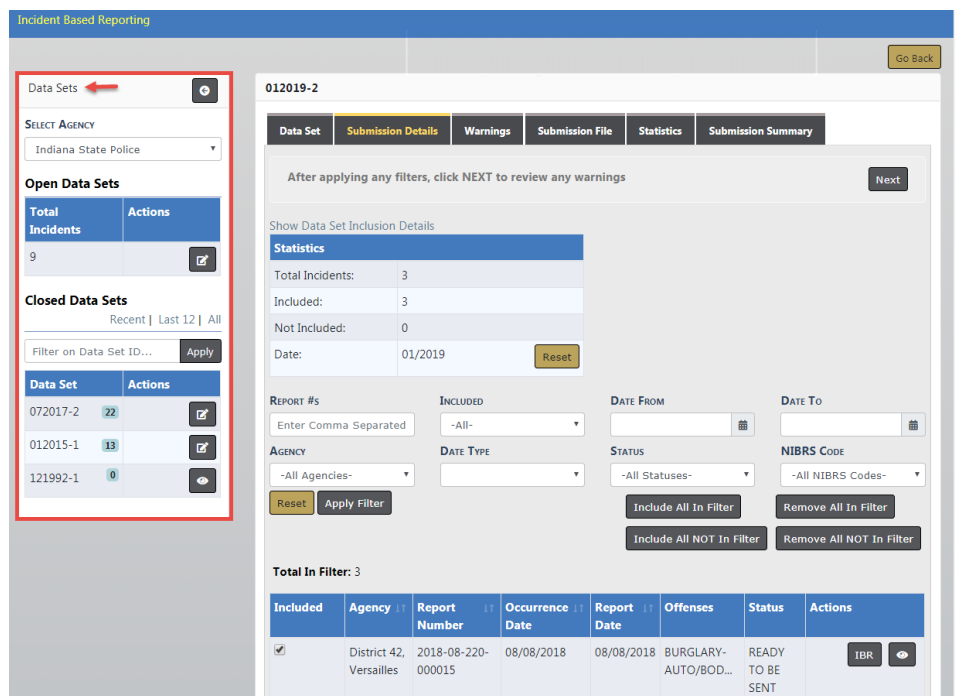

Click on the **Incidents** button on the top navigation bar to display a drop-down menu, then click on **Incidents**.

Click on the **Incident Based Reporting** link.

No matter which method you choose to access the Incident Based Reporting (IBR) Module, the **Data Sets** page opens:

For basic details on how to use this page, refer to "Basic Layout and Functionality" on page 5 .

Chapter 2. Basic Layout and Functionality

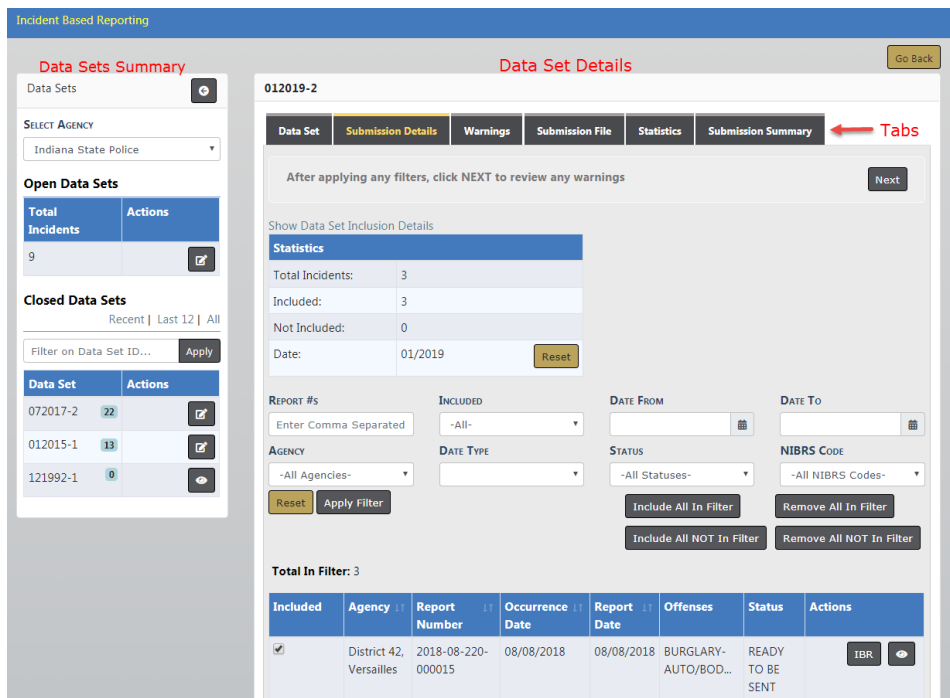

Page Layout

The layout of the Incident Based Reporting module is logically designed for easy navigation and use.

Data Set Summary and Details

A summary of all *Open* and *Closed* Data Sets appear on the left.

Data Set *details* appear on the right with tabs. If *details* do not appear on the right, click the edit icon  on one of the Data Sets in the summary section to open details of that Data Set.

The screenshot displays the Incident Based Reporting module interface. On the left, the 'Data Sets Summary' section shows a list of data sets with columns for 'Data Set' and 'Actions'. The 'Open Data Sets' section lists '072017-2' (22 incidents) and '012015-1' (13 incidents). The 'Closed Data Sets' section lists '121992-1' (0 incidents). A filter bar is present below the closed data sets.

The main area on the right is titled 'Data Set Details' for data set '012019-2'. It features a tabbed interface with tabs for 'Data Set', 'Submission Details', 'Warnings', 'Submission File', 'Statistics', and 'Submission Summary'. The 'Submission Details' tab is active. Below the tabs, there is a 'Next' button and a 'Reset' button. The 'Statistics' section shows 'Total Incidents: 3', 'Included: 3', and 'Not Included: 0'. The 'Date' is '01/2019'. The 'Report #s' section has a text input 'Enter Comma Separated' and a dropdown for 'INCLUDED' set to '-All-'. The 'AGENCY' dropdown is set to '-All Agencies-'. The 'DATE TYPE' dropdown is set to '-All-'. The 'DATE FROM' and 'DATE TO' fields are empty. The 'STATUS' dropdown is set to '-All Statuses-'. The 'NIBRS CODE' dropdown is set to '-All NIBRS Codes-'. There are buttons for 'Include All In Filter', 'Remove All In Filter', 'Include All NOT In Filter', and 'Remove All NOT In Filter'. The 'Total In Filter' is 3.

At the bottom, there is a table with the following data:

Included	Agency	Report Number	Occurrence Date	Report Date	Offenses	Status	Actions
<input checked="" type="checkbox"/>	District 42, Versailles	2018-08-220-000015	08/08/2018	08/08/2018	BURGLARY-AUTO/BOD...	READY TO BE SENT	IBR 

Page Adjustments

Page adjustments appear at the bottom of the Data Set Details section. The bottom left numbers are used to select the number of reports you want to see in the grid. The bottom right numbers represent the number of pages based on your data set selection and the number of reports chosen.

Tabs

Data in the Data Set Details section is grouped into tabs. Tab labels and contents vary between *open* and *closed* data sets.

Chapter 3. Submission Files

Initiate Submission File

Follow the instructions below to initiate a submission file.

1. Access the Incident Base Reporting Module. For details, refer to "Accessing the IBR Module" on page 1.
2. Click the edit icon  in the Actions column of the *Open Data Set* you want to use. The Data Set opens on the right side of the window defaulting to the *Submission Details* tab.

The screenshot shows a mobile application interface for 'Data Sets'. At the top, there's a 'Data Sets' header with a back arrow. Below it is a 'SELECT AGENCY' dropdown menu currently set to 'Indiana State Police'. The main content is divided into two sections: 'Open Data Sets' and 'Closed Data Sets'. The 'Open Data Sets' section has a table with two columns: 'Total Incidents' and 'Actions'. The first row shows '9' incidents and an edit icon (a square with a pencil) which is highlighted with a red box. The 'Closed Data Sets' section has a filter bar with 'Filter on Data Set ID...' and an 'Apply' button. Below this is a table with three columns: 'Data Set', a status indicator (a small green circle with a number), and 'Actions'. The first row shows '072017-2' with a status of '22' and an edit icon. The second row shows '012015-1' with a status of '13' and an edit icon. The third row shows '121992-1' with a status of '0' and a view icon (an eye).

Total Incidents	Actions
9	

Data Set	Status	Actions
072017-2	22	
012015-1	13	
121992-1	0	

The screenshot shows the 'Submission Details' tab for data set '012019-2'. The sidebar on the left lists 'Open Data Sets' with a total of 9 incidents and 'Closed Data Sets' with a total of 13 incidents. The main area displays a 'Statistics' table with 3 total incidents, all included, and a date filter set to 01/2019. Below the statistics are various filter options including 'REPORT #S', 'AGENCY', 'DATE FROM', 'DATE TO', 'STATUS', and 'NIBRS CODE'. There are also buttons for 'Include All In Filter', 'Remove All In Filter', 'Include All NOT In Filter', and 'Remove All NOT In Filter'. A 'Total In Filter: 3' is shown at the bottom.

With Online RMS 11.7.0 and above, the IBR submission process verifies if an incident with NIBRS data has been modified before including it with the data set for submission to the state.

- If an incident was previously submitted to the state, and accepted or rejected, then a supplement approved, it can verify that the supplement contains changes that require another NIBRS submission to replace the last submission.
 - For example, if the supplement only had a narrative or an attachment, a new submission is added to the IBR data set and submitted to the state as a replacement. The submission is created only if there are NIBRS related changes in the supplement.
 - Your agency administrator can turn off the incident supplement verification process to submit all reportable incidents that are supplemented to the data set by setting the NIBRS_VERIFY_SUBMISSION *Maintenance Value* to N.
3. Click on the *Data Set* tab and enter the **Month** and **Year** of the IBR report you intend to generate.

The submission file will contain incident reports from the targeted month and any incident reports from prior months that have not been reported or have since been modified.

If you have not completed this action before you will need to start at the Month and Year that you began using this application and create Submission File by Month until you reach the present.

Warnings and Notifications

Follow the instructions below to access and review warnings and notifications before submitting the file.

- Access the Incident Base Reporting Module. For details, refer to "Accessing the IBR Module" on page 1.
- Initiate a Submission File and apply applicable filters. For details, refer to "Initiate Submission File" on page 11.
- On the *Warnings* tab, review applicable warnings and notifications to identify incidents that are not susceptible to FBI Audit. Warnings and Warning Notification History are grouped into sub-tabs.

After reviewing any warnings (if applicable), click NEXT to generate the submission file. Next

Warnings **Warning Notification History** ← Sub-Tabs

Export to PDF or Excel File

The Data Audit Warnings tab provides the opportunity for an agency to self-audit incident reports included in the data submission that may be at risk of a data audit by the IBR authority. Data audits represent data situations that are commonly flagged by IBR authorities as uncommon or overly used that should be evaluated by the agency prior to submission. The goal of this process is to ensure the quality and accuracy of data submitted to the IBR authority.

# of Affected Incidents	Type	Message
1	NIBRS	Not all 35A offenders are under the influence at the time of the offense (For example, dealers). For drug offenses, at the time the offense occurred, was the offender suspected or known to be using drugs? If not, the entry should be N (Not Applicable).
4	NIBRS	Incident was listed as being a Cargo Theft. Please review the incident and verify that a cargo theft actually occurred.
6	NIBRS	Incident contains a Hate Bias Motivation. Please verify that Hate/Bias was a factor in the incident.

- On the *Warnings* sub-tab, click on the **arrow** to the far left of a warning message to display a list of incidents.

Create Submission File

There are two types of submission files:

- Flat Files

A flat file contains data that is stored in plain text format, and there is one record per line. Columns are typically separated by a tab, comma, or another single value character; Online RMS creates flat files with tabs to separate the columns.

For instructions on creating a **Flat File**, refer to "Flat File" below.

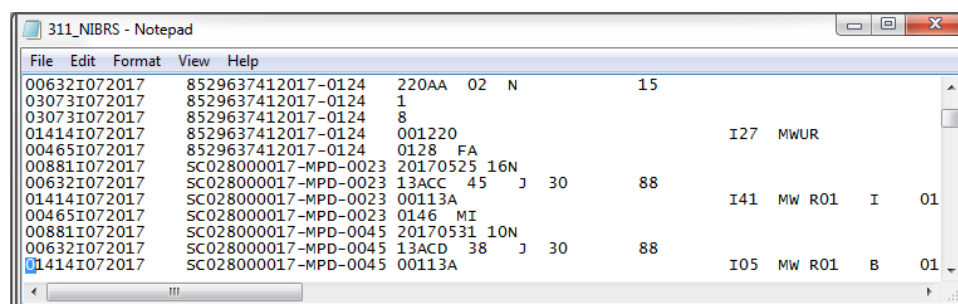

- XML Files

An XML file is an XML (Extensible Markup Language) data file. They are plain text files that store information in a hierarchical standard format that is commonly used in data transfers. Unlike flat files, *custom tags* are used in XML files instead of *tabs* to define different columns of data.

For instructions on creating an **XML File**, refer to "XML File" on page 21.

Flat File

A flat file contains data that is stored in plain text format, and there is one record per line. Columns are typically separated by a tab, comma, or another single value character; Online RMS creates flat files with tabs to separate the columns.

Follow the instructions below to create the Submission Flat File.

1. Access the Incident Base Reporting Module. For details, refer to "Accessing the IBR Module" on page 1.
2. Initiate a Submission File and apply applicable filters. For details, refer to "Initiate Submission File" on page 11.
3. Review any associated Warnings and react accordingly. For details, refer to "Warnings and Notifications" on page 15.
4. Access the *Submission File* tab.

The **Statistics** section on the *Submission File* tab help you to identify how many reports were in the original query and how many you did not include.

The **System** type section is specific to your agency or State. NIBRS is the basic, and is used by all agencies that report directly to the NIBRS Unit at the FBI.

Yes

Click **Yes** to continue, or **No** to return to the *Submission File* tab without generating the file.

Note: For details on finalizing Closed Data Sets, refer to "Reporting Errors and Finalizing Data Set" on page 26.

8. If you selected **Yes** to continue, the File Name and Date appears.

System	Download File	File Date	Generate File
NIBRS	292_NIBRS.txt <input type="button" value="Reset"/>	12/03/2020 1842	<input type="checkbox"/>

9. Submit the Submission File. For instructions on submitting the file, refer to "Submit File" on page 23.

XML File

An XML file is an XML (Extensible Markup Language) data file. They are plain text files that store information in a hierarchical standard format that is commonly used in data transfers. Unlike flat files, *custom tags* are used in XML files instead of *tabs* to define data.

```
<?xml version="1.0" encoding="UTF-8"?>
- <nibrs:Submission xmlns:s="http://release.
  xmlns:nc="http://release.
  xmlns:j="http://release.
  xmlns:cjis="http://fbi.gov/
    - <cjis:MessageMetadata>
      <cjis:MessageDateTime>2019-12-19T12:21:42</cjis:MessageDateTime>
      - <cjis:MessageIdentification>
        <nc:IdentificationID>NC0
        2019-0989</nc:IdentificationID>
      </cjis:MessageIdentification>
      <cjis:MessageImplementationVersion>4.2</cjis:MessageImplementationVersion>
      - <cjis:MessageSubmittingOrganization>
        - <j:OrganizationAugmentation>
          - <j:OrganizationORIIdentification>
            <nc:IdentificationID>NC0
            </nc:IdentificationID>
          </j:OrganizationORIIdentification>
        </j:OrganizationAugmentation>
      </cjis:MessageSubmittingOrganization>
    </cjis:MessageMetadata>
  - <nibrs:Report>
    - <nibrs:ReportHeader>
      <nibrs:NIBRSReportCategoryCode>GROUP A INCIDENT
      REPORT</nibrs:NIBRSReportCategoryCode>
      <nibrs:ReportActionCategoryCode>R</nibrs:ReportActionCategoryCode>
    - <nibrs:ReportDate>
      <nc:YearMonthDate>2019-11</nc:YearMonthDate>
```

Follow the instructions below to create the Submission XML File.

1. Access the Incident Base Reporting Module. For details, refer to "Accessing the IBR Module" on page 1.
2. Initiate a Submission File and apply applicable filters. For details, refer to "Initiate Submission File" on page 11.

3. Review any associated Warnings and react accordingly. For details, refer to "Warnings and Notifications" on page 15.
4. Access the *Submission File* tab.

The **Statistics** section on the *Submission File* tab help you to identify how many reports were in the original query and how many you did not include.

The **System** type section is specific to your agency or State. NIBRS is the basic, and is used by all agencies that report directly to the NIBRS Unit at the FBI.

The screenshot shows the 'Submission File' tab in the RMS11.9 interface. The 'Statistics' section is highlighted with a red box and contains the following data:

Statistics	
Total Incidents:	70
Included:	70
Not Included:	0
Date:	11/2019

Below the statistics is a 'Reset' button. To the right, there are tabs for 'System', 'Download File', 'File Date', and 'Generate File'. The 'System' tab is active, showing a table with one row for 'NIBRS' and a 'Generate Submission File' button. Below this, a message states 'One or more Systems is compatible with XML Generation.' and a table shows the '# of Files Generated' for 'NIBRS' as '66 / 70'. The 'Actions' column for this row contains four icons: a magnifying glass, a document, a download, and a person.

This close-up shows the '# of Files Generated' section. It displays '66 / 70' with a red arrow pointing to the text '66 out of 70 files generated'.

5. You can either generate all XML files at once, or view individual files and generate XML files for specific Incidents. Choose one of the following options:

Generate all eligible files

- a. Click the **Generate All Files** icon to generate all eligible files. 66 files are eligible in the example.

This screenshot shows the 'System' table from the previous image. A mouse cursor is hovering over the 'Generate All Files' icon (a document with a checkmark) in the 'Actions' column. A tooltip appears below the icon with the text 'Click to Generate All XML Files'.

Or, Selectively Generate Individual Files

- a. Click the **View Individual Files** icon to view a list of Incidents, then selectively **Generate Individual Files**.

One or more Systems is compatible with XML Generation.

System	# of Files Generated	Actions
NIBRS	66 / 70	   

Click to View Individual Files

Close Export to PDF

Click on the view icon  to view the Incident Summary.

Click the **Export to PDF** button to export the results to a PDF file. This can be done before or after the submission results are returned.

6. Submit the Submission Files. For instructions on submitting the files, refer to "Submit File" below.

Submit File

Follow the instructions below to submit the Submission File(s) to the NIBRS FBI Unit or your State Reporting Agency.

1. Access the Incident Base Reporting Module. For details, refer to "Accessing the IBR Module" on page 1.
2. Initiate a Submission File and apply applicable filters. For details, refer to "Initiate Submission File" on page 11.
3. Review any associated Warnings and react accordingly. For details, refer to "Warnings and Notifications" on page 15.
4. Create the Submission File(s). For details, refer to "Create Submission File" on page 18.

- After creating the Submission File(s), follow the instructions below based on the type of submission file you generated (Flat File or XML).

Flat File

- click on the file name in the System section of the *Submission File* tab to download the text file.

The screenshot shows the 'Submission File' tab for incident 112020-1. It features a 'Statistics' section on the left and a 'System' section on the right. The 'Statistics' section includes a 'Reset' button. The 'System' section has a table with columns for System, Download File, File Date, and Generate File. The 'Download File' column shows '292_NIBRS.txt' with a red box around it and a 'Reset' button. The 'File Date' column shows '12/03/2020' and '1842'. Below the table are buttons for 'Generate Submission File' and 'Close Data Set'.

Statistics	
Total Incidents:	925
Included:	925
Not Included:	0
Date:	11/2020

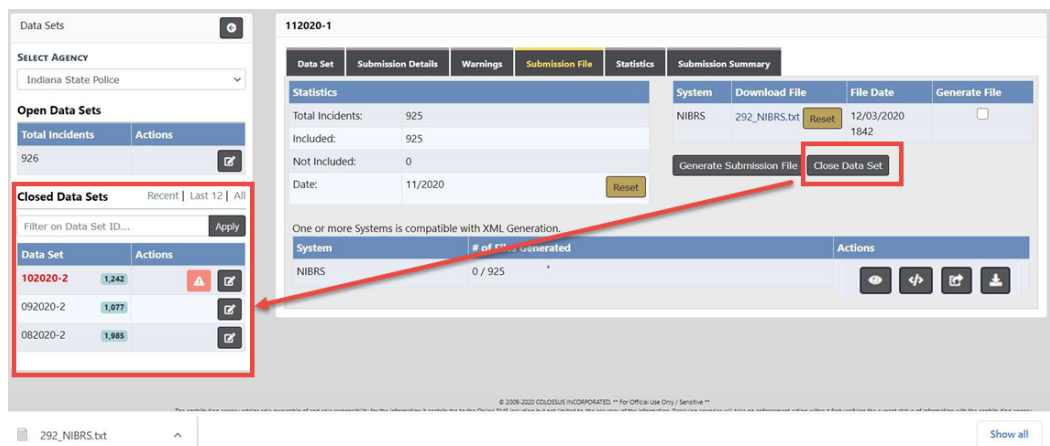

System	Download File	File Date	Generate File
NIBRS	292_NIBRS.txt	12/03/2020 1842	<input type="checkbox"/>

- Save, copy, or move the file to a location on your computer that makes sense to you for later access. The correct procedure for this depends on the browser and text software on your computer.

Note: If your State or NIBRS Agency requires that the submitted file name meet a specific naming convention, now is the time to rename the file to meet their file name requirements.

Note: Agencies reporting directly to NIBRS will email this file to their NIBRS representative.

- After saving the file, click the **Close Data Set** button to place the file (Data Set) in the Closed Data Set list in the Data Sets section of the Incident Based Reporting Module. Answer **Yes** to confirm.

The Data Set moves from the Open Data Sets section down to the Closed Data Sets section.

After submitting the file, you must report errors once an error report is returned from NIBRS or the State Agency.

For instructions on reporting errors and finalizing the data set, refer to "Reporting Errors and Finalizing Data Set" on the next page.

XML Files

There are up to two ways to submit XML files. Choose the submission method below.

- Click the **Submit All Files to State** button, OR for individual Incidents click the **Send to State** button. These buttons are only available to agencies that have a Web service interface set up with the State Repository.

OR

2019-2323	12/30/2019 1232	Submission status and date appears after sent to State							
2019-2324	12/19/2019 1221	12/19/2019 1224	SUCCESS						

- Or, **Download**  the generated XML files as a ZIP file, then either email or upload them to the State Repository.

After submitting the file, you must report errors once an error report is returned from NIBRS or the State Agency.

For instructions on reporting errors and finalizing the data set, refer to "Reporting Errors and Finalizing Data Set" below.

Reporting Errors and Finalizing Data Set

When you receive an Error Report back from NIBRS or your State Agency, it is necessary that you finalize the Data Set that you closed when making the Submission File.

Note: It is important to Accept or Reject the report before an additional supplement can be opened.

Note: Data Sets should be finalized before creating additional submissions files.

1. Access the Incident Base Reporting Module. For details, refer to "Accessing the IBR Module" on page 1.
2. Look under the **Closed Data Set** section for a warning icon. If it exists, hover over the icon to display the warning message.

Closed Data Sets

Filter on Data Set ID...		Apply
Data Set	Actions	
20140108-36 1		
20140108-35 1		
20130826-34 1		

Finalize Closed Data Set

Data Sets should be finalized before creating additional submissions files. It is important to Accept or Reject the report before an additional supplement can be opened.

1. Click on the edit icon  under the *Actions* column next to the Closed Data Set you want to finalize.

Closed Data Sets

Recent | Last 12 | All

Filter on Data Set ID... Apply

Data Set	Actions
20140108-36 1	
20140108-35 1	 
20130826-34 1	 

2. The chosen Data Set opens on the right of the screen. It asks if any errors were reported.

Data Set: 20140108-35

Closed Data Set	Warning Notification History	Migration Log
------------------------	------------------------------	---------------

Statistics		System	Download File	File Date
Total Incidents:	1	NIBRS		
Accepted Incidents:	0	One or more Systems is compatible with XML Generation.		
Rejected Incidents:	0	System	# of Files Generated	Actions
Balance:	1	NIBRS	0 / 1	 

Were there errors reported? Yes No

Select **No** to confirm that all Incidents were accepted by the IBR Authority. For instructions, refer to "Confirm all Incidents Accepted" on the next page.

Select **Yes** if errors are reported. For instructions, refer to "Errors Reported" on the next page.

Confirm all Incidents Accepted

If errors were not reported, click on the **No** button at the prompt to finalize the Closed Data Set.

1.

Were there errors reported?

Errors Reported

If errors were reported, you are required to select and reject Incidents with errors.

1. Click on the **Yes** button when asked if there were errors reported. A list of reports appears at the bottom.

Clicking 'Accept and Finalize' will lock the dataset and close out the submission

Accept And Finalize

Search and select incident reports with errors and mark as 'Rejected'

REPORT #S:

STATUS
--Select--

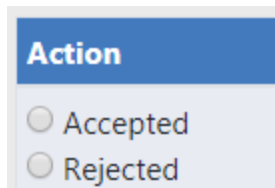

--Apply Status to All On Page--

Action	Agency	Report Number	Occurrence Date	Report Date	Offenses	Submission Status	Actions
<input type="radio"/> Accepted <input type="radio"/> Rejected	Train County	2014-00090	01/08/2014	01/08/2014	AGG ASSAULT W/DEAD...	SENT WAITING FOR RESPONSE	

10
25
50
100

You can filter the reports list by **Report Number**. Separate report numbers using a comma when entering more than one report number, then click **Apply Filter** to display a report list based on the provided filter.

- Click on the appropriate radio button to **Reject** or **Accept** each Incident in the list. While only one Incident appears in the example, there could be multiple.

Action

☐ Accepted

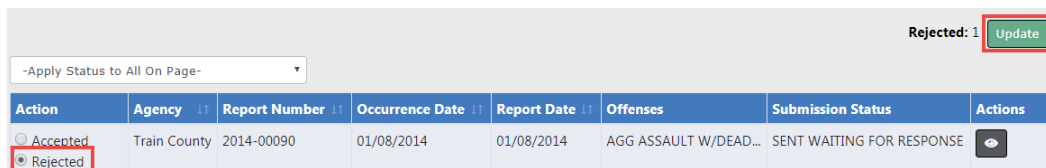

☐ Rejected

For instructions on Rejecting reports, refer to "Reject" below.

For instructions on Accepting reports, refer to "Accept" below.

Reject

- Select the **Rejected** radio button on each Incident on the page you want to reject, then click the **Update** button.

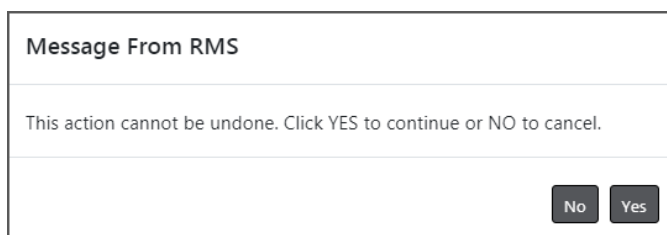

Rejected: 1 **Update**

-Apply Status to All On Page-

Action	Agency	Report Number	Occurrence Date	Report Date	Offenses	Submission Status	Actions
<input type="radio"/> Accepted <input checked="" type="radio"/> Rejected	Train County	2014-00090	01/08/2014	01/08/2014	AGG ASSAULT W/DEAD...	SENT WAITING FOR RESPONSE	

- Click **Yes** to confirm or click **No** to cancel.

Message From RMS

This action cannot be undone. Click YES to continue or NO to cancel.

No **Yes**

If you clicked **Yes**, you are returned to the report list to accept all remaining reports, if any.

If you clicked **No**, the confirmation window closes and you are returned to the report list.

For instructions on Accepting reports, refer to "Accept" below.

Accept

After rejecting the necessary reports, if any, you need to mark the remaining reports as **Accepted**. If reports span across multiple pages, you must repeat this process for every page.

For instructions on rejecting reports, refer to "Reject" on the previous page.

1. Select the **Accepted** radio button on each Incidents on this list you want to accept or quickly mark all Incidents in the list as Accepted by clicking into the *Apply Status to All On Page* field and choosing Accepted.

The screenshot shows a table with columns: Occurrence Date, Report Date, Offenses, Submission Status, and Actions. A dropdown menu is open, showing options: -Apply Status to All On Page-, -Apply Status to All On Page-, Accepted, Rejected, and Reject & Move. The 'Accepted' option is highlighted. In the top right corner, there is a red box around 'Accepted: 1' and a green 'Update' button.

Occurrence Date	Report Date	Offenses	Submission Status	Actions
2014-00090	01/08/2014	AGG ASSAULT W/DEAD...	SENT WAITING FOR RESPONSE	

If you chose to apply the status to all on the page, it marks all radio buttons as Accepted, but not the reports you rejected.

The number of reports Accepted are shown on the upper right of the screen. One report is Accepted in the example.

2. Click the **Update** button on the top right.
3. Click **Yes** to confirm or click **No** to cancel.

The dialog box has a title bar 'Message From RMS'. The main text says: 'This action cannot be undone. Click YES to continue or NO to cancel.' At the bottom right, there are two buttons: 'No' and 'Yes'.

4. If you have multiple reports that span over multiple pages, scroll down to the bottom and click the next page number. Repeat the Accept process until you have marked all reports on all pages as Accepted.

The pagination controls show a list of numbers: 10, 25, 50, 100. To the right of these is a red arrow pointing left with the text 'Select number of reports'. Further right is a red arrow pointing right with the text 'Page number'. To the right of these arrows are page numbers: <, 1, 2, 3, >.

Once all reports are marked as either rejected or accepted, you must finalize the submission data set. For instructions, refer to "Finalize Submission Data Set" below.

Finalize Submission Data Set

1. Click on the **Accept And Finalize** button to finalize the submission data set.
