Product Change Notice for Online RMS 10.14.3
(June 4, 2013)

Fixes

- **SCR22500**—XML Interface enhanced to clean-up orphaned ejs_notes entries.
- **SCR23222**—UCR Return A - Number of officers assaulted is included.
- **SCR23249**—Ad Hoc Reports mismatched parameters have been corrected.
- **SCR23353**—Property value and description are retained on the Property page after navigating to the Evidence page without a save.
- **SCR23385**—Warrant printing issue resolved.
- **SCR23394**—Agency Administration page navigation issue resolved.
- **SCR23405**—INC_CASE_STATUS_CODES script was cleaned up.
- **SCR23414**—NIBRS – Incident validate selection enhanced to support validation of a large number of incident reports.
- **SCR23426**—Data Submission Feature has been provided with a permission category.
- **SCR23441**—UCR report corrections – Totals are now derived from NIBRS data submission tables.
- **SCR23461**—CAD Interface modified to support processing of Call Types having a length greater than 60 characters.
- **SCR23478**—UCR report – Adult ASR Report – Corrected misspelling of offenses.
- **SCR23488**—UCR Report subtotal columns for (1) Sale/Manufacturing Subtotal & 185 (2) Possession Subtotals are now included in the new ASR report.
- **SCR23498**—Vehicle XML upload process was enhanced to support data conversions.
- **SCR23509**—Incident Reports – Resolved Incident Classification information save issue in Incident Wizard.
- **SCR23510**—Resolved issues identified in NIBRS testing with FBI on behalf of ISP. Error report issues from FBI on NIBRS data has been addressed.

- **SCR23525**—Incident Extract modified to be based on Incident Supplement status of “Approved” rather than on the approval date.
- **SCR23531**—Incident Reports – Arrest Details validation was enhanced to handle deletion of offenses that have arrest details entered.
- **SCR23575**—Statistical Report was cleaned up.

Performance and Usability

- **SCR23203**—Sub-report included in UCR Return A report.
- **SCR23396**—Enhanced XMLUPLOAD to use generic upload for RMS tables.
- **SCR23413**—Jasper Report Server – Added nightly job to create report agency for new customers.
- **SCR23417**—Created procedure for SOLR package to allow rebuild of indices within current schemas.
- **SCR23476**—UCR Detail Reports were enhanced to support an option to include the related incident report number when printing UCR reports.

Enhancements

- **SCR21973**—Supplementary Homicide Report has been created.
- **SCR21974**—Law Enforcement Officers Killed or Assaulted (LEOKA) report has been created.
- **SCR23371**—Data Submissions - Dataset creations page was enhanced.
- **SCR23379**—JailTracker Web Service enhanced.
- **SCR23389**—Enhancement to Master Property, Vehicle, Organization, Address, and Gang indices to base record “lock hours” on creation data. The creator of the record can edit the record within the record lock hours. Only administrators can edit records after lock hours have expired.
- **SCR23420**—Case Management - Case activity notes were enhanced to restrict the edit or delete of case note to the creator of the note or authorized administrators.
- **SCR23425**—Arson – Report created for monthly return of arson offenses known to law enforcement.
