INTRODUCTION

This document provides an overview of the software changes being delivered in the 10.18.1 release of the InterAct RMS product. This document is intended to provide information to assist in release preparation activities including:

- Internal staff training
- Customer release training
- Customer release notes
- Release announcement and promotion
- Online help and eLearning updates
- Updates to web site product information and product collateral

RELEASE OVERVIEW

This section includes an overview of major enhancements included in the 10.18.1 release. Items marked with an asterisk are released in a disabled state and may require agency configuration, deployment of multiple InterAct products, and/or additional training prior to the capabilities being enabled for an agency. Agencies that are interested in the below capabilities should inquire with InterAct's Operation/Support team by submitting a help ticket. Additional information is provided in the summary overview sections.

The scope of this release is defined below:

- Civil Process Enhancements
 - Court Paper Print
- Incident Enhancements
 - Update Primary & Alias Name

InterAct Mobile: During this RMS release cycle, InterAct Mobile now has the ability to query RMS Master Names and return RMS Master Name "Caution Codes" via NCIC/CJIS name queries. The Caution Code information will be displayed as part of the "Regional" search results that is managed via InterAct InterDex.

NEW FEATURES

The following are the new features and enhancements included in the release of InterAct RMS version 10.18.1.

ENHANCEMENTS

CIVIL PROCESS ENHANCEMENTS

IA-3512 - Additional Print Options for Court Paper

Prior to this enhancement, users did not have the ability to specify whether or not to include certain sections to be printed in the Court Paper report. Now, the Print function for Court Paper will include a screen with choices of what types of information to include in the Court Paper report. Users will also be able to quickly print a Court Report that contains basic information using the Quick Print functionality. Quick Print does not offer any print options to the user.

The choices offered by the Print function for Court Paper information include:

- Logs
- Fee Collections (this option is not available if Fee Collections is turned off)
- Fee Audit Logs (this option is not available if Fee Collections is turned off)
- Attachments
- Custom Forms
- Other People and Organizations
- Officers
- Service Notes. This is a new feature in the printed report. It is a blank section which can be used by an officer to manually make notes while serving the paper.

To access the new Print options for Court Paper, a user creates, views or edits an existing Court Paper. Clicking the Print Button will result in a pop up dialog which displays print options described above.

INCIDENT ENHANCEMENTS

IA-32672 - Change Person's Name Type on Printed Incident Report

Users now have the option to select or change a Person's (offender, victim, witness etc.) Name Type when printing an Incident Report.

When a Primary Name Type for a Person is associated with the incident, the printed Incident Report will display the Person's Primary Name. If the Name Type associated with the incident is anything other than a Primary Name Type, the printed Incident Report will display all known names for the Person(s) i.e. Offenders, Victims and Other People.
