Online RMS

Product Release Bulletin
Version 10.25.1

October 4, 2016

REVISION HISTORY

Revised By	Revision Date	Version	Notes
T. Thompson	10/01/2016	1.0	Original Document

TABLE OF CONTENTS

INTRODUCTION

This document provides an overview of the software changes being delivered in the 10.25.1 release of the Online RMS product. This document is intended to provide information to assist in release preparation activities including:

- Internal staff training

- Customer release training

- Customer release notes

- Release announcement and promotion

- Online help and eLearning updates

- Updates to web site product information and product collateral

RELEASE MILESTONES

The following table contains the high level release milestones.

End Date	Milestone
06 Sep 2016	10.25.1 Sprint 1 Starts
08 Sep 2016	10.25 Code Branch
27 Sep 2016	10.25.1 Code Lock
04 Oct 2016	**10.25.1 Release Available**

APPENDIX: 10.25.1 DETAILED JIRA LISTING

TABLE A: RELEASE ENHANCEMENTS AND PRODUCT SOFTWARE ISSUE RESOLUTIONS

This table contains major product software issue JIRAs resolved in the 10.25.1 release along with any product enhancement JIRAs.

Key	Ticket #	Summary	Type of Issue	Documentation
IA-58618		KS-IBR: Property Code incorrect for Vehicles in DTPROP detail record	Release Defects	Update submission logic for KIBRS output submission file to include correct Kansas property code for vehicles.
IA-58644		KS-IBR - Suffix of Suspect, Arrestee and Victim is not written to Last Name data element	Release Defects	Kansas state reporting missing person suffix value. The suffix value was added to the KIBRS output submission file for state testing and certification efforts.
IA-58687		InterAct Online RMS eCrash Interface (Standard one-way inbound Data Exchange)	Enhancement	The ACRS eCrash Interface has been added to the Online RMS for the MDTA client. This interface uses a RestFul Web Service to pass the ACRS XML in the specified format to the RMS. The RMS processes the ACRS xml and updates the matching Incident report in the RMS with the data in the XML. This include ACRS Offenses, Address Latitude and Longitude and additional optional elements including narrative.
IA-59059		Supp to Return A Report fail to run	Bug/Defect	Report issue resolved.
IA-59126	170001	Incidents - Incident Search results are corrupted when exported to PDF or Excel	Bug/Defect	Fixed data export of search results to not include the actions column.
IA-59158		KS-IBR: DS file writing multiple lines for DTPDRG when Property Loss = 1	Release Defects	KIBRS submission logic updated to only write one property and drug line when loss code is 1 or 8.
IA-59232	170692	Court Location not displaying in Civil Process and Warrant	Bug/Defect	Court list of values on Civil Papers and Warrants were not displaying court locations. Issue has been resolved.

IA-59238		Person Master Index Search - Permission Configuration Causes No Filter Based on Schema	Bug/Defect	Master Index Statewide Search resolved to only return search results within the user's State.
IA-59277	170676	Evidence Mass Check In - Report Label displays No Report #	Release Defects	Logic updated to print report number.
IA-59285	170870	Caution Codes - Expiration date calendar does not go past Dec 2016	Release Defects	Date calendar was updated to display dates in the future.
IA-59286	170908	Incident Report - SSN does not display on Person Details in Full Incident Report print	Release Defects	Incident Default print settings have been updated to not redact the SSN for offenders/arrestees.
IA-59301	170986	RMS Screen goes white - Howard(IN34)	Bug/Defect	Application server tuned to resolve issues with application web pages not displaying.
IA-59327	171148	Incident Narratives - Quick Reference - Not available.to select	Bug/Defect	Permissions for Quick search were not in place. Added to all user roles.
IA-59348		New Tier Performance Tuning SQL	Performance	The broadcast messages queries were causing a performance issue on the new Oracle Tier. This was due to the newer version of the database on the Tier running the queries differently and less efficient. The queries were tuned for both the main screen and the search and admin screens. These tuned queries reduced the load on the servers and immediate performance improvement was obtained in a production roll out. The queries have been further tuned to reduce the load even further and free up the database tier resources.
IA-59376		Cargo Theft Indicator is not reported correctly	Data Issue	Update to logic for retrieving Cargo Theft indicator for the incident report. This script updates data issues with previously entered reports.
IA-59394		DataSourceFactory Performance Fix	Performance	Database tuning.
