End Date	Milestone
03 Jan 2016	10.26.2 Sprint 1 Starts
31 Jan 2017	10.26.2 Code Lock
07 Feb 2017	10.26.2 Release Available

APPENDIX: 10.26.2 DETAILED JIRA LISTING
TABLE A: RELEASE ENHANCEMENTS AND PRODUCT SOFTWARE ISSUE RESOLUTIONS

This table contains major product software issue JIRAs resolved in the 10.26.2 release along with any product enhancement JIRAs.

Key	Ticket #	Summary	Type of Issue	Documentation
IA-60714		Change Password Email - Update default from sender email address	Bug/Defect	<p>The change password email is being sent from an 'invalid' email address. This is causing the emails to be spam filtered by our customers.</p> <p>Fixed. When user uses the email password reset functionality, the temporary email sender is now noreply@public-safety-cloud.com</p>
IA-60659	339579	Property Status LOV not displaying values consistent with Offense (Attempt/Completed) status on Supplements	Bug/Defect	<p>Fixed the property validation when validating property loss codes.</p> <p>The validation will now use the most current 'version' of the offense and property records to get the correct A/C code, property status codes, and vehicle role code.</p> <p>NOTE: 'Most recent' above means use the values as found on the current supplement. If the offense, property, or vehicle record is not on the current supplement, then the logic looks backwards through the approved supplements to find the correct value.</p>

IA-60573	338038	MO-IBR Error F9-00-06 Missing Victim Segment	Bug/Defect	<p>Offense Code 13A is not requiring a person type victim for Missouri NIBRS.</p> <p>Found issue to be the Validation warning ERROR_DESCRIPTOR (which includes both offense code and description) exceeds the limits of the field.</p> <p>Increased the Length of Validations error description from 255 to 1000 to handle excessive offense descriptions.</p>
IA-60323	338157	Incidents: Incidents having more than one offense requiring a victim injury will not clear validations if one of the offenses is murder	Bug/Defect	<p>Fixed an issue where the latest offense information was not being retrieved based on current or the most recent approved supplement.</p>
IA-60733		InfoExchange Person REST Call - Certain Dates Failing	Bug/Defect	<p>Internally testing discovered an issue with date conversions when searching by date for incidents have a date of occurrence falling on the 30th or 31st.</p> <p>Date conversion logic updated.</p>
