APPENDIX: 10.28.2 Detailed JIRA Listing..... 5

 Table A: Release Enhancements and product Software Issue Resolutions 5

INTRODUCTION

This document provides an overview of the software changes being delivered in the 10.28.2 release of the Online RMS product. This document is intended to provide information to assist in release preparation activities including:

- Internal staff training
- Customer release training
- Customer release notes
- Release announcement and promotion
- Online help and eLearning updates
- Updates to web site product information and product collateral

PRODUCT REQUIREMENTS

For best performance, we recommend a computer, laptop, or tablet purchased within the last 3 years; running an industry popular web browser that is actively supported by the browser manufacturer and connects to the internet using DSL, Cable, or 4G cellular. The browser must support TLS 1.0 or higher.

RELEASE MILESTONES

The following table contains the high level release milestones.

| End Date | Milestone |
|------------------------|----------------------------------|
| 29 August 2017 | 10.28.2 Sprint Starts |
| 26 September 2017 | 10.28.2 Code Lock |
| 03 October 2017 | 10.28.2 Release Available |

**** Release Milestone Update - Online RMS 10.29.0 will be deployed to production on the second Tuesday of December; 12 Dec 2017 rather than 05 Dec 2017 as previously scheduled. ****

APPENDIX: 10.28.2 DETAILED JIRA LISTING

TABLE A: RELEASE ENHANCEMENTS AND PRODUCT SOFTWARE ISSUE RESOLUTIONS

This table contains major product software issue JIRAs resolved in the 10.28.2 release along with any product enhancement JIRAs.

| Key | Ticket # | Summary | Type of Issue | Documentation |
|-----------------|----------|------------------------------------------------------------------------------------------------------------------------|---------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| IA-61608 | 345084 | Warrants - Arrest Charges - will not save free text values | Bug/Defect | Resolved an issue where a free text description entered into the Warrant Charge field, did not display the "Add Charge" button. This prevented users from adding free text charge descriptions for warrants for non-criminal cases. The issue has now been resolved. |
| IA-62980 | N/A | Master Indices - Person Interface Matching Logic to handle More than one match | Enhancement | Interface improvement to identifying matching master person records when importing person data from external interfaces. The multi-match person logic was enhanced to handle situations where more than one RMS master person (Duplicate) is returned for the comparison against the external person data. The previous logic created a new person record if more than one match was found. The enhancement will support configuration for using the oldest or most recent master person name. |
| IA-63016 | 344398 | MO-IBR Error F6-61-01 Disposition under 17 | Bug/Defect | Resolution for IBR validation error encountered during certification testing for the State of Missouri's MO-IBRs program. |
| IA-63017 | 344398 | MO-IBR Errors F9-00-10 Missing Administration Segment, F7-51-06 Arrest Transaction # already used | Bug/Defect | Resolution for IBR validation error encountered during certification testing for the State of Missouri's MO-IBRs program. |
| IA-63030 | N/A | VIBRS: Data Element 31 (Aggravated Assault/Homicide Circumstances) incorrect for Police Officer Victim and 09B offense | Bug/Defect | Resolution for IBR validation error encountered during certification testing for the State of Virginia's VIBRS program. |

| Key | Ticket # | Summary | Type of Issue | Documentation |
|-----------------|----------|------------------------------------------------------------------------------------------|---------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| IA-63032 | 352392 | IBR - Need reports pushed to open dataset | Enhancement | Enhancement to allow client services to configure an agency to participate in NIBRS reporting and generate a NIBRS data set if not originally defined when the agency cut-live with Online RMS. |
| IA-63092 | 352547 | Incident Report - Agency only is restricting data within schema but not schema to schema | Bug/Defect | <p>Resolved an issue on the Master Person Indices Statewide search return page where a reference to an incident report was displayed regardless of the external agency's Incident security setting.</p> <p>Incident security for viewing external involvements for Master Name Person searches will now be enforced as follows for the supplement the person is listed on:</p> <ul style="list-style-type: none"> - Must not be agency only - Must not have an exclusive security/workgroup - Security level must be less than or equal to the maintenance value INCIDENT_XML_SECURITY_EXPORT (set to officer level by default). |
| IA-63093 | 352577 | Field Contacts - Unable to change security on field contacts | Bug/Defect | Resolved and issue where a user is unable to change the security level on a field contact. |
| IA-63108 | 352600 | Collapse - Collapsed Person Record displays no data | Bug/Defect | Resolved an issue where previously collapsed names were not displaying in the collapse log if the user id was the System user. Collapse names will now display regardless of the collapsed by user. Functionality note. Alias names can be deleted from a collapsed person record if the alias name was not linked to a prior event. If an alias name was manually deleted after a collapse the name will no longer display in the collapse log. |
| IA-63133 | N/A | Officer Table - Add officer hyperlink missing | Bug/Defect | Resolved an issue where the Add Officer Hyperlink was not displaying from the RMS Tables - Officer's Page. |

| Key | Ticket # | Summary | Type of Issue | Documentation |
|----------|----------|---------------------------------------------------------------------------------------|---------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| IA-63306 | N/A | CAD Interface - Make incident creation an option at the interface level | Enhancement | The Online RMS CAD Import interface was enhanced to support not creating an Incident number when loading legacy records for conversion purposes through the interface. |
| IA-63307 | N/A | RMS Online- Install script for release 10.28.2 | Configuration | Help Version Release Number updated. |
| IA-63354 | N/A | CAD Interface - Provide option to use CFS # instead of case# for RMS incident report. | Enhancement | The Online RMS CAD Import interface was enhanced to support using the CAD CFS event number as the RMS Incident Report number, when desired by agencies. |
| IA-63408 | N/A | Outbound Citation Timestamps | Bug/Defect | The Online RMS Citation Export (Get) Interface has been modified to correctly output the citation date and time fields in the correct time zone for the agency issuing the citation. |
| IA-63432 | N/A | DeSoto County Warrant Report - Add Person Middle name | Enhancement | Enhancement to print the middle name of the Warrant person on the DeSoto County, Mississippi version for printing warrants. |
| IA-63455 | N/A | CMS Warrant - Add Bond Information | Enhancement | Enhancement to the generic CMS Warrant interface deployed in South Carolina and Mississippi to support Bond Type and Bond Amount. |
| IA-63485 | N/A | Modify the purge XML docs job to a new Bottom of the hour schedule | Performance | Internal interface improvement to improve performance for purging processed XML files from external interfaces. |
| IA-63490 | N/A | Warrant Uploads - Time Zone Adjustment | Bug/Defect | Enhancement to the generic CMS Warrant interface deployed in South Carolina and Mississippi to support storing the time zone of the external CMS warrant system and ensuring date/time is appropriately converted to the default database time zone. |

| Key | Ticket # | Summary | Type of Issue | Documentation |
|----------|----------|-----------------------------------------------|---------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| IA-63515 | N/A | CAD Interface - Wrong incident report # saved | Bug/Defect | Resolved a data conversion configuration issue that was encountered with loading records for sites where the CAD interface was configured to use the CFS event number as the incident number when the spill configuration for incident creation was set to not create a RMS incident. |
| N/A | N/A | Online RMS Web Help Files Updated | Usability | The Online RMS Web Help Files have been updated to include features and functions as of release version 10.28. |
