 Table A: Release Enhancements and product Software Issue Resolutions 5

INTRODUCTION

This document provides an overview of the software changes delivered in the 10.29.1 release of the Online RMS product and will assist with release preparation activities including:

- Internal staff training
- Customer release training
- Customer release notes
- Release announcement and promotion
- Online help and eLearning updates
- Updates to web site product information and product collateral

PRODUCT REQUIREMENTS

For best performance, we recommend a computer, laptop, or tablet purchased within the last 3 years; running an industry popular web browser that is actively supported by the browser manufacturer and connects to the internet using DSL, Cable, or 4G cellular. The browser must support TLS 1.0 or higher.

RELEASE MILESTONES

The following table contains the high-level release milestones for the Online RMS 10.29.1 release.

End Date	Milestone
13 December 2017	10.29.1 Sprint Starts
30 January 2018	10.29.1 Code Lock
06 February 2018	10.29.1 Release Available

APPENDIX: 10.29.1 PRODUCT CHANGE NOTICE (PCN) - DETAILED JIRA LISTING
TABLE A: RELEASE ENHANCEMENTS AND PRODUCT SOFTWARE ISSUE RESOLUTIONS

This table contains minor enhancement, software issue, and interface JIRAs contained in the 10.29.1 service pack release. * - Denotes a software resolution was released prior to the 10.29.1 service pack installation date.

JIRA #	Client Ticket #	Summary	Type of Issue	Functional Documentation
IA-60193	00336143 00358284	Agency Setting - Set default for restrict all reports to agency only not working for Incident Reports created from a CAD interface.	Bug/Defect	Software update for sites with an active CAD interface spilling records into Online RMS. The RMS Agency configuration option to set default the "Agency Only" security flag for incidents will now apply to incident reports created from a CAD interface.
IA-61055*	342609	Incident Report - Delete duplicate name issue	Bug/Defect	Software update to resolve a display issue where a collapsed name was appearing twice in the Incident Report Victims grid.
IA-63642	TS354419	UCR Reports Cargo Theft Incident Reports	Bug/Defect	Software update to improve the performance of the UCR Cargo Theft Report. The report should now run in less than 10 seconds. If there are no cargo theft incidents in the dataset the report will include a message that no data was found for the report.
IA-63887	355926	Incident Report - Edit Offender to add arrest info leads to blank screen	Bug/Defect	This issue could not be replicated and was closed after several attempts to recreate the issue.
IA-63907	N/A	Cross Site Scripting	Engineering Enhancement	Engineering security update to ensure protection against SQL code injections.
IA-64018	N/A	Solr query using high CPU resources.	Performance	Engineering SOLR tuning update to improve the performance of a complex query.

IA-64060	356851	Incident Report : Exported History - Comments unreadable	Bug/Defect	Resolved an issue where an incident report history export included special characters in the export. The text will now export and print without special characters.
IA-64063*	TS356863	Unfounded offense with Cargo theft	Bug/Defect	Software update to handle the proper reporting of Cargo Theft for incidents involving unfounded and founded offenses.
IA-64068*	N/A	Citations - Add Appearance Time Field	Enhancement	<p>Citation import enhancement to handle the inclusion of appearance time. A new field was also added to the Online RMS View and Edit Citation pages to display and capture appearance times. A citation appearance date field was previously available.</p> <p>An optional agency level configuration was added to enforce appearance date/time as a required field. The default setting is required.</p>
IA-64118*	TS357128	Export File creation setting bad data- Error returned from the state	Bug/Defect	Resolved a Virginia State Specific NIBRS (VIBRS) issue where the specification document called for blanks to be submitted rather than 000.
IA-64119*	N/A	Field Arrest Search Results - Add Warrant Charge information	Enhancement	<p>Software enhancement to add warrant charge information to the Field Arrest warrant search results column.</p> <p>The "Warrants" column will now show each warrant and associated charge. If there is more than 1 warrant/charge, additional information will be shown in a blue bubble.</p> <p>Note: If exporting search results to Excel the warrant information is listed in a single column with line</p>

				breaks. To view the information click in the Excel column.
IA-64120	N/A	Warrant Charges Search Page Enhancement for Charges	Enhancement	Software enhancement to support searching Field Arrests by charges contained on warrants associated to a Field Arrest. The Charges search parameter on the Field Arrest Search page will now search across Arrest charges and Warrant charges when searching by a charge. Free text charge information added to a warrant is not supported at this time.
IA-64128	N/A	CAD to RMS Interface: Remove blank Involved Person from CFS Edit and View pages	Release Defects	Software update to resolve an issue where a blank person tag in the new CAD interface spill caused a blank field to display in the RMS CFS Person section. Additionally an issue was resolved to display the OLN# and State fields and labels in the RMS CFS Person View and Edit pages.
IA-64194*	N/A	Incode Citation Import - Remove Statute XSLT Mapping	Bug/Defect	Citation interface update to match on charge code only when attempting to match a citation charge to a charge in Online RMS. This will improve situations where matching on statute caused issues due to multiple charge codes having the same statute number listed.
IA-64202*	357683	Recent Activities - Initial Report hyperlink not working	Bug/Defect	Software update to resolve an issue where the Most Recent Activities - Edit Incident Report hyperlink was not working for Incident reports having more than 40 offenses.
IA-64204	357708	Evidence - Evidence is not showing in Evidence Module	Bug/Defect	Software update to resolve an issue where evidence transferred to another agency was not able to be acted on.

				Transferring evidence to another agency will now generate a notification to the transferred agency and the evidence will appear as Pending Check-In.
IA-64205	N/A	WVIBR: Victim Segment only reporting one victim	Bug/Defect	Software update to support West Virginia specific NIBRS reporting.
IA-64206	N/A	WVIBR: Victim segment is not correct	Bug/Defect	Software update to support West Virginia specific NIBRS reporting.
IA-64207*	357707	Local Codes do not load in Offense section of Incident Report	Bug/Defect	Software update to resolve an issue encountered for sites having local offense codes configured for incident reporting that did not have an associated NIBRS code.
IA-64216*	357762	Notifications : Evidence Pend Check-In - Not being deleted after check-in	Bug/Defect	Resolved an issue where pending check-in notifications were not being removed if action was taken via the evidence management module rather than directly on the notification.
IA-64222*	357693	Smart Search - Not returning results	Bug/Defect	Resolved an index issue where new Master Person Names were not immediately searchable in the Person Search page.
IA-64224	00357771 00358382	Incident Reporting - View Incident Report - Additional Search Criteria Age Range search not returning results	Bug/Defect	Software modification to resolve an issue where searching with an age range on the Incident Search page did not return results.
IA-64225*	357798	Evidence Custodian - Copy of Evidence Custodian Role does not allow user to access Evidence data	Bug/Defect	Software Role permission update to support granting evidence permissions to roles other than Evidence Custodian.
IA-64230*	N/A	Person Juvenile - Moment.js uses Zero Indexed Dates. December DOBs not properly Working	Release Defects	Software modification to the juvenile age check for person's with DOBs occurring in December.
IA-64235	N/A	VIBRS: Updated value for Cargo Theft is not reported if offense is copied to an incident supplement	Bug/Defect	Software modification to improve the handling of unfounded offenses on an Incident Report

				when producing Virginia specific NIBRS (VIBRS).
IA-64237*	357729	Address Collapse - Addresses not collapsing	Bug/Defect	Resolved an issue with the Address Collapse where collapses were failing if a collapse comment was not entered.
IA-64238	357755	Evidence Receipt - After evidence destroyed receipt now prints on multiple pages	Enhancement	Software enhancement to print multiple items of evidence on the same evidence receipt during any mass transaction, without page breaks.
IA-64254	N/A	Install table update for Release 10.29.1 (01/09/2018)	Configuration	Install table update for Release 10.29.1
IA-64270	N/A	WVIBR: Updated value for Cargo Theft is not reported if offense is copied to an incident supplement	Bug/Defect	Software modification to improve the handling of unfounded offenses on an Incident Report when producing Virginia specific NIBRS (VIBRS).
IA-64272*	TS358060	Unknown Offender cannot be related to Business Victim for 120 Offense	Bug/Defect	Resolved an NIBRS reporting issue where Robbery (120) offenses were listed on an offense having a victim type of business with an unknown offender.
IA-64289*	358216	Evidence : Chain of Custody- Checked out to not being added correctly when checking back in	Bug/Defect	Software update to the Evidence Check In process. The 'Custody From' field will now populate with the most current 'Custody To' information. If no data available then the 'Custody From' field will populate with the most current 'Custody From'.
IA-64291*	358252	Master Indices : Person - The name search is not returning synonym names	Bug/Defect	Resolved an issue where Master Name searches were not returning synonym names for some searches.
IA-64299*	00358214 00358482	Incident Printing - Error received when printing incident report	Bug/Defect	Resolved an issue where an incident report failed to print if the incident report had duplicated EJS Comments.
IA-64301*	358143	Duplicating name when adding person to report	Bug/Defect	Resolved an issue where previously collapsed names appeared multiple times when the person was added to an incident report.

IA-64305*	358229	Evidence : Pending Check-In - Custody Date is creator date not entered date	Bug/Defect	Resolved an issue with quick pending check ins, where the evidence custody date was displaying the creation date rather than displaying the custody date entered.
IA-64306*	358319	Error modifying Identification record - Master Indices - Person	Bug/Defect	Resolved an Internet Explorer browser issue that displayed a non-editable field as editable. Trying to edit the non-editable field caused an error when attempting to save the record.
IA-64308*	N/A	Statewide Search Results - County Not Display for Persons from Other Schemas Having an Active Warrant	Bug/Defect	Resolved an issue where the County Name was not appearing for some person records on the Statewide Search Results page.
IA-64324	N/A	CAD-RMS Interface - Update ICD to include person and vehicle enhancements	Engineering Task	The CAD to RMS Interface Control Document (ICD) was updated to include the 10.29.0 enhancements to import person and vehicle data.
IA-64326*	N/A	Change RMS Footer Year To 2018 - 10.29	Enhancement	End of the Year update to modify the year in the RMS Footer from 2017 to 2018.
IA-64346*	358684	Smart Search - Unable to see many reports outside reporting agency schema	Bug/Defect	Resolved an issue with viewing incident reports from the SmartSearch Results page that included incidents and persons from other Online RMS schemas.
IA-64347	358725	Calls for Service - Export to Excel errors out when using reporting area in search	Bug/Defect	Resolved an issue with exports from the RMS CFS Search Results page that included beat/sub beat data.
IA-64359	358860	Incident Mapping - Time zone conversion is not working correctly	Bug/Defect	Resolved an issue with time zone conversion when displaying incident reports on the map viewer.
IA-64363	358682	Invalid Char in Citation Export	Bug/Defect	Software modification to the eCitation interface to handle special characters inserted from copy and paste actions when uploading an external citation record in Online RMS.

IA-64373	0038736 00358900	Civil Process - List of available officers to assign is taking long time	Performance	Software modification to improve the performance of the Officer List of Values on the Civil Process entry and edit pages.
IA-64480	358993	CAD to RMS Interface modification request for Midland MI-UPDATE	Configuration	Interface configuration update for Midland County, MI CAD interface.
IA-64496*	359492	Evidence Audit - Edit a saved report causes error message	Bug/Defect	Resolved an issue where evidence audit reports having more than 256 evidence items encountered an error when attempting to edit.
IA-64519	N/A	Statewide Search doesn't show county code after master person is updated	Bug/Defect	Software update to resolve an issue where the County indicator was not getting indexed for Statewide searches after updating a name.
IA-64538	00359709	Admin - Remove Field Arrest feature and Add Field arrest hyperlink still appears	Bug/Defect	Software update to only display the Add Field Arrest hyperlink on the Incident Header tab if the Agency has the Field Arrest Feature enabled.
IA-64545	00359751 00359792	Evidence - Change ownership gives error message	Bug/Defect	Resolved an issue where the Evidence Change of Ownership process failed if the evidence was associated to multiple offenses on an incident report.
IA-64575	N/A	Add NIBRS Detailed Descriptions to All NIBRS Offense Codes	Configuration	Configuration update to populate the NIBRS Offense Detailed Description for NIBRS Offenses. The NIBRS Offense Detailed Description was added in 10.29 to assist officers with improving and ensuring the accuracy of offenses selected on an incident report. The column was not populated upon initial roll-out.
IA-64576	N/A	Inconsistency with Incident Offense Select LOV	Bug/Defect	Software update to improve the usability and searching of offenses when selecting to add an offense to an incident report.
