INTRODUCTION

This document provides an overview of the software changes delivered in the 10.30.2 release of the Online RMS product and will assist with release preparation activities including:

- Internal staff training
- Customer release training
- Customer release notes
- Release announcement and promotion
- Online help and eLearning updates
- Updates to web site product information and product collateral

PRODUCT REQUIREMENTS

For best performance, we recommend a computer, laptop, or tablet purchased within the last 3 years; running an industry popular web browser that is actively supported by the browser manufacturer and connects to the internet using DSL, Cable, or 4G cellular. The browser must support TLS 1.0 or higher.

IA-65464*	N/A	Google Maps - Add Default Map Key	Technical Upgrade	<p>Effective June 11, 2018 Google is no longer supporting keyless API requests for geocoding of addresses and use of Google maps. The Caliber Online RMS utilizes Google's free mapping service. Caliber has registered a Google account to generate an API key to continue service however Google enforces limits on the number of requests allowed per month without incurring a charge. Caliber will operate within this limit.</p> <p>To ensure there are no interruptions with the free integrated Google mapping service, agencies may register with Google to obtain their own API key for use with Online RMS. Agencies can enter their API key on the Agency Profile Maintenance page - Agency Setting tab - API key. API keys can be obtained from the following website: https://developers.google.com/maps/documentation/embed/get-api-key.</p> <p>If you plan to register for an agency specific API key with Google, please enable the Geocoding API, Maps JavaScript API, and Maps Static APIs for your Google project. Google offers a monthly credit that should more than cover the usage for an individual agency.</p>
IA-65475	N/A	Add Personnel Code tables to Tadpole	Configuration	Internal configuration for Client Support to configure Personnel Management code tables.
