INTRODUCTION

This document provides an overview of the software changes delivered in the 11.2.2 release of the Online RMS product and will assist with release preparation activities including:

- Internal staff training
- Customer release training
- Customer release notes
- Release announcement and promotion
- Online help and eLearning updates
- Updates to web site product information and product collateral

PRODUCT REQUIREMENTS

For best performance, we recommend a computer, laptop, or tablet purchased within the last 3 years; running an industry popular web browser that is actively supported by the browser manufacturer and connects to the internet using DSL, Cable, or 4G cellular. The browser must support TLS 1.2 or higher.

RELEASE MILESTONES

The following table contains the high-level release milestones for the Online RMS 11.3.0 release.

End Date	Milestone
26 Nov 2019	11.3.0 Sprint 1 Starts
03 Dec 2019	11.2.0 Release Available
10 Dec 2019	11.3.0 Sprint 1 Ends / Sprint 2 Starts
24 Dec 2019	11.3.0 Sprint 2 Ends / Sprint 3 Starts
02 Jan 2020	11.2.1 Code Lock
07 Jan 2020	11.2.1 Service Pack Available / 11.3.0 Sprint 3 Ends / Sprint 4 Starts
21 Jan 2020	11.3.0 Sprint 4 Ends / Sprint 5 Starts
29 Jan 2020	11.2.2 Code Lock
04 Feb 2020	11.2.2 Service Pack Available / 11.3.0 Sprint 5 Ends / Sprint 6 Starts
18 Feb 2020	11.3.0 Sprint 6 Ends / Sprint 7 Starts
26 Feb 2020	11.2.3 Code Lock
03 Mar 2020	11.2.3 Service Pack Available / 11.3.0 Sprint 7 Ends / Sprint 8 Starts
17 Mar 2020	11.3.0 Sprint 8 Ends / Stabilization Sprint Starts
25 Mar 2020	11.3.0 RTO (Release to Training / Operations)
01 Apr 2020	11.3.0 Stabilization Sprint Ends / Code Lock
07 Apr 2020	11.3.0 Release Available

RELEASE ANNOUNCEMENT

Caliber Public Safety announces the release of **Online RMS 11.3.0** to the **Online Training Environment** on **Wednesday, March 25, 2020**. The training environment will be unavailable for about 4 hours beginning at **5:00 pm (Eastern)**. An early preview of the Product Release Bulletin (PRB) is available from Online RMS Help menu. Help > Online Help > Product Release Bulletins.

Reminder: Online RMS 11.3.0 release to the **Nlets production environment** will occur on **Tuesday, April 7, 2020 at 1:00 am (Eastern)**. Our hosted delivery approach ensures that all clients benefit from the continual improvements and many benefits of Online RMS without the worries of installing software.

Please join us for one of (4) four Release Training sessions to learn more about new features and functionality available in Online RMS 11.3.0. Please mark your calendar to attend one of the below webinars for the date and time that works best for you.

- Tuesday, March 31, 2020 at 11:00 am (Eastern) - Click [HERE](#) to join the session!
- Wednesday, April 1, 2020 at 3:00 pm (Eastern) - Click [HERE](#) to join the session!
- Tuesday, April 7, 2020 at 3:00 pm (Eastern) - Click [HERE](#) to join the session!
- Friday, April 10, 2020, at 11:00 am (Eastern) - Click [HERE](#) to join the session!

Highlights of Online RMS 11.3.0 Release:

Online RMS 11.3.0 includes enhancements and improvements that touch approximately 30 RMS components, including; Incident Report Call for Service (CFS) People, Fleet Management, Fleet Vehicle Crashes, LInXs CFS Data Sharing Extract, User management, Search Enhancements, NIBRS State Submission Compliancy, and Technology Upgrades; as well as many other product enhancements, integration improvements, and issue resolutions. Our overall release focus is to increase operational efficiencies, simplify data management, and improve ease of use for our customers.

Over the last three (3) years, by listening to and working hand in hand with our customers, Caliber has improved user efficiency and decreased the average time to complete an incident report by 70%.

Below are a few software enhancements available in the next major release of Online RMS (version 11.3.0), planned for April 7, 2020. Check out the Product Release Bulletin via Online Help for a complete listing of software updates.

- **Spend more time on patrol and less time writing reports**
 - ✓ Automated reuse of CAD and CFS person data to improve data accuracy and spend less time on data entry. Exclusively for agencies with CAD integration or using the RMS Calls for Service (CFS) module.
 - Person data spilled from CAD or entered for a Call for Service (CFS) will automatically filter to the Online RMS Incident Report module and used to match to an existing Master Person record or create a new master person. For data spilled from CAD, if a person match exists or a new person created and the name has a valid involvement role entered, the name will automatically be added to the incident report Offender, Victim, or Other Names section
 - A quick entry flow streamlines the process to add a CAD or CFS person when no master name match exists or the person involvement role is not specified.
 - ✓ Incident Supplement workflow improvements provide greater flexibility and ease of use. Complete, Submit, and Approve incident report supplements that do not include NIBRS reporting data (e.g. Narratives or Attachments only), prior to the original report being approved.
- **Take Care of Your Fleet**
 - ✓ New Functionality - Fleet Management module expanded to track crashes involving fleet vehicles.
 - ✓ Improve data input accuracy - Lock Hours now apply to fuel & oil entries. Duplicate VIN check reduces data entry errors.
 - ✓ Simplified data entry – New permission to give clerical staff ability to enter fuel & oil without ability to edit vehicle.
 - ✓ Quick Display for fuel & oil entry page - New permission to bring focus to the most common entry fields for fuel & oil.
 - ✓ Extensibility - Custom fields included on Add page to streamline data entry by end users.
 - ✓ Quick Actions – Filter Fleet Management dashboards by Assignments.
 - ✓ Ease with searching - Unit # displayed in Search results for easy vehicle identification.

- **Protecting Communities with Data Sharing**
 - ✓ More Data - LInX Data Sharing enhanced to share Call for Service (CFS) data with LInX Regional data sharing systems.
- **Always Advancing**
 - ✓ **Efficiency gains -**
 - Incident Attachments – Description column enhanced to display up to 120 characters of description rather than info bubble.
 - Investigative Case Load – Supervisors can easily review investigative caseloads for officers with the addition of Offense description to the incident summary column.
 - Incident Field Arrest – View arrest disposition status directly from the Incident Field Arrest association’s grid.
 - Field Arrest Warrants – Enhanced to display and print system generated warrant number, as available.
 - Investigative Cases – Ability to schedule mass disposition of associated evidence directly from case and notify evidence custodian.
 - ✓ **Most Relevant Data -**
 - Custom forms enhanced to display and print the most recent person phone regardless of phone type.
 - Calls for Service report enhanced to print the most recent phone number regardless of phone type for each person included on CFS.
 - ✓ **Data Extensibility -**
 - Expand data capture for Investigative Case Activities with the addition of custom fields.
 - ✓ **Print with Ease -**
 - Master Person - “Select All” box available for Master Person print options.
 - ✓ **More Search Options -**
 - Business/Organization - Added ability to search by organization phone number.
 - Custom Forms – Wild card added to free text search fields.
 - ✓ **User Subscription Management -**
 - Alleviate common CAD spill issues - Real-time validation to make sure new and reactivated RMS user accounts do not have a duplicate CAD Badge number.
 - Allocated and available subscription types will only be available for selection when creating or editing user accounts.

- **Federal and State Compliancy**
 - ✓ Growing State NIBRS Compliancy - 22 States Supported.
 - ✓ Software updates and enhancements, as required to support agency certification testing in Oklahoma and New Jersey and to support existing certified State NIBRS submissions.
- **Evergreen Worry-free Technology Updates**
 - ✓ Technology and security updates required to make sure systems are secure and operating efficiently.

We hope you join us in our excitement for the release of Online RMS 11.3.0 on Tuesday, April 7, 2019. If you have questions about the release, please do not hesitate to contact us by email at rms@caliberpublicsafety.com.

Our Very Best,
Caliber Public Safety

NEW FEATURES & ENHANCEMENTS

Online RMS 11.3.0 includes many new updates, based on customer input, contractual commitments, and Public Safety State and Federal mandates. The overall release focus is to increase operational efficiencies, data management, and improve ease of use for all of our customers. ***Please see Online RMS User Help and Admin documentation for more details on the enhancements and features highlighted in this release bulletin.***

ONLINE RMS 11.3.0 HIGHLIGHTS

Incident CFS Streamlined Person Entry

Over the last three (3) years, by listening to and working hand in hand with our customers, Caliber has improved user efficiency and decreased the average time to complete an incident report by 70%.

We are not stopping there. An enhancement to leverage person data contributed to a Call for Service (CFS) in CAD, Mobile, or directly entered via the Online RMS CFS module will save officers even more time when completing an incident report.

Agencies using Caliber CAD and entering person contact data will experience time savings and efficiencies from Person Names automatically being added to the incident report without user action. Person unique identifiers contributed to the CAD Call CFS event are evaluated against existing RMS Master Name records to yield one of three outcomes.

1. Person exact match. CAD CFS "Contact Type" matches RMS involvement role.
 - **Outcome:** Person added to the incident report Offenders, Victims, or Other Names section automatically without user action.
2. Person exact match. CAD Person "Contact Type" **not** provided **nor** matches RMS involvement role.
 - **Outcome:** Person added to Master Person Index automatically without user action. Use "Quick Select" option for CFS People to add person to incident report.

3. **No** Person exact match.

- **Outcome:** Use “Quick Select” option for CFS People to create person and add to incident report.

Agencies using the Online RMS CFS module for direct entry will experience time savings and efficiencies from using the “Quick Select” option for CFS People.

Page Highlights:

- Unmatched names from CFS appear in new section on the Incident Names tab titled “Quick Select Names – CFS People”.
- Names appearing as a blue hyperlink were matched automatically to an existing RMS Master Name record.

Incident Summary: 03/25/2020 1225 Hrs - 2300 West Broad Street RICHMOND, VA 232...
Agency: Caliber Public Safety PD
Offense(s): No Offense Specified
Report #: 20-000011 **Supp #:** 0

Note: People listed in the below grid are from the CFS call on this report. These people could not be matched with RMS results due to too little information. You can use the provided actions to add them and use the person add screen to enter the missing information and select a potential duplicate.

Name	Address	Physical Description	Call #	Roles	Actions
Alfonso, Thomas Race: Black or African American Sex: Male DOB: 01/12/2067			CFS2020000002	None Specified	[Add] [Edit] [Delete]
Smith, Billy Ray Race: White Sex: Male DOB: 11/11/1994			CFS2020000002	Witness	[Add] [Edit] [Delete]
Spade, Samantha Race: White Sex: Female			CFS2020000002	None Specified	[Add] [Edit] [Delete]
Jazz, John Race: White Sex: Male DOB: 05/06/1977			CFS2020000002	Reporting Person	[Add] [Edit] [Delete]

Back to Previous Section Finished - Go To Next Section

FIGURE 1: INCIDENT NAMES TAB. QUICK SELECT NAMES – CFS PEOPLE GRID

- Click the appropriate quick select icon in the **“Actions”** column to add the name as an Offender, Victim, or Other Person. Hover your mouse over each icon for a description of what the icon does. A green icon suggests the Recommended Action based on the CFS “Contact Type”/Involvement Role.

FIGURE 2: INCIDENT CFS PEOPLE - QUICK SELECT OPTIONS.

- Names appearing as black text, lack unique person identifiers required to match to or create a new master person. Select appropriate quick select action icon to create person and add to the report. A streamlined workflow opens the **“Add Person”** page and populates the page with known person data from the CFS event. Add other person data and select **“Save & Select”** to add to the incident report.
 - ✓ The auto deduplication features compares data entered to existing master person records and turns yellow to alert the user of potential duplicates.

Fleet Management – Track your Fleet

Fleet Crashes

The Fleet Management module was enhanced to track crashes involving fleet vehicles. Maryland State Police sponsored this enhancement.

Fleet Managers, with proper permissions, have the ability to add crash reports to fleet vehicles. Refer to the Online RMS User Guide for more information.

Configure Fleet Management:

1. Access to fleet crash is managed via two (2) new permission categories. *Only users with the Fleet Management – Crash Tracking permission have access to create, manage, and view fleet crash information.*

2. Fleet Crash Management requires configuration of a new Agency Number Generation Type. From Agency Management – Number Generations – add generation format for **Fleet Crash Report #**.

A screenshot of the 'Number Generation' configuration form. The form is titled 'Number Generation' and contains several fields:

- TYPE:** A dropdown menu with 'Fleet Crash Report #' selected.
- FORMAT:** A dropdown menu with 'YYIR0000' selected.
- PLACE HOLDER:** A text input field containing '-'. There is a red vertical bar on the left side of the field.
- NEXT NUMBER:** A text input field containing '1001'. There is a red vertical bar on the left side of the field.
- EFFECTIVE DATE:** A date picker field showing '01/01/2020'.
- END DATE:** A date picker field showing '12/31/2020'.

At the bottom right of the form, there are two buttons: 'Close' (yellow) and 'Save' (green).

FIGURE 4: AGENCY ADMIN - NUMBER GENERATION - FLEET CRASH REPORT #.

- Fleet Management also requires configuration of Fleet Crash specific List of Value (LOV) codes. From Administration – Module Configuration – Fleet Management add codes for *Crash Type Codes, Crash Reference Types, Crash Cause Codes, Crash Damage Codes, Crash Hours Groups, Insurance Claim Types and other codes required for Fleet Management.*

Fleet Usability Enhancements

- Simplified data entry – New permission added to give clerical staff ability to enter fuel & oil without ability to edit vehicle. With this permission, the Records – Fleet Management link is view only, with the exception of adding Fuel, Oil, and Mileage to Fleet Vehicles.

Fleet Management - Manage Fuel Oil and Mileage Only +

- Quick Display for fuel & oil entry page. New permission added to bring focus to the most common entry fields for fuel & oil. Remove the Show All Fuel / Oil Fields permissions from roles that prefer the new quick entry page.

- The Show Fields button allow user to show additional Fuel, Oil, & Mileage fields if additional data entry is required.

FIGURE 8: FLEET VEHICLE - NEW QUICK ENTRY FUEL, OIL & MILEAGE DISPLAY.

- Improve Data Accuracy. Data alert added to auto complete fields for:
 - Vehicle Search - Make and Model fields
 - Vehicle Add/Edit - Make and Model fields
 - Vehicle Assignment - Officer field
 - Crash Officer Dialog - Officer field
 - Equipment Search - Make and Model fields
 - Equipment Add/Edit - Make and Model Fields

When navigating out of the field, if an invalid value exists, the field will highlight red with a red info bubble.

APPENDIX: 11.3.0 PRODUCT CHANGE NOTICE (PCN) – DETAILED JIRA LISTING

TABLE A: Release Enhancements and Product Software Issue Resolutions

This table contains enhancement, software issue, and interface JIRAs contained in the 11.3.0 release.

JIRA #	Client Ticket #	Summary	Type of Issue	RMS Module	Functional Documentation
IA-55037	151737	Organizations - Search by Phone number	Enhancement	Master Indices	Efficiency Gain - Additional Search Criteria of "Phones" added to Organization search page. Search supported for Phone Type, Phone #, and Extension.
IA-62141	N/A	Admin: arrest code delete throws generic error	Bug/Defect	Admin	Operational - Software update to include user-friendly error message to indicate the selected code is associated to child records and is unable to delete.
IA-64083	N/A	View Permission Category Page Enhancements	Enhancement	Admin	Efficiency Gain - Added a Search Field to support searching by text found in the Permission category description.

JIRA #	Client Ticket #	Summary	Type of Issue	RMS Module	Functional Documentation
IA-65115	362398	Attachments - Display actual Description not bubble	Enhancement	Incidents	Efficiency Gain - Incident Attachments – Description column enhanced to display up to 120 characters of description rather than info bubble.
IA-65430	364491	Fleet Mgmt - Need ability to make fields Mandatory	Enhancement	Fleet Mgmt	Data Input Accuracy - Duplicate VIN check included when entering fleet vehicles to reduce data entry errors. When trying to enter a fleet vehicle with a VIN that already exists, a validation message will display at the top of the screen that reads "VIN Already Exists".
IA-65714	N/A	LInX/N-DEx Delete Transaction for Expungements	Enhancement	Integration	Efficiency Gain - LInX Interface enhancement to update incident information or issue a delete transaction for expunged offenders. Incidents with one or more non-expunged offenders will reissue a LInX transaction minus the expunged offender. Incidents with all offenders expunged will issue a delete transaction for the incident report. Incident Security rules also apply.

JIRA #	Client Ticket #	Summary	Type of Issue	RMS Module	Functional Documentation
IA-65904	N/A	Searching for active warrants will not allow search "O' " names	Bug/Defect	Warrant	Software Update - Support searches for names containing an apostrophe.
IA-65940	367031	Personnel Management allows duplicate employee records to be created	Bug/Defect	Personnel	Data Input Accuracy - Added a validation check to the personnel add employee page to prevent users from entering duplicate employee records. When entering a new employee and clicking save, the system will perform and search by employee first and last name to identify potential duplicates. If a match exists, a warning alerts the user of the potential duplicate record.
IA-66589	370290	Add Other Comments field when viewing Property from IR	Enhancement	Incidents	Efficiency Gain - Added the Incident Property "Other Comments" entry field to the Incident Report Property display. The "Other Comments" field will display in view mode if the field has a value.
IA-66624	370533	Fleet Mgmt - Add an Assignment filter to Fleet Dashboard tabs	Enhancement	Fleet Mgmt	Efficiency Gain - Filter Fleet Management dashboards by Assignments.

JIRA #	Client Ticket #	Summary	Type of Issue	RMS Module	Functional Documentation
IA-66799	371353	Fleet Mgmt - Prevent system from accepting duplicate VIN	Enhancement	Fleet Mgmt	Data Input Accuracy - Duplicate VIN check included when entering fleet vehicles to reduce data entry errors. When trying to enter a fleet vehicle with a VIN that already exists, a validation message will display at the top of the screen that reads "VIN Already Exists".
IA-66818	371352	Fleet Mgmt - Prevent deleting of mileage entries once entered in Fuel and Oil tab	Enhancement	Fleet Mgmt	Data Input Accuracy - Lock Hours now apply to fuel & oil entries. The creator can update the record within the system lock hours. Edits outside system lock hours can only be made by users having the always edit fuel & oil permission.
IA-67048	372476 ; 372780	CAD to RMS Enhancement - Include additional person details	Enhancement	Incidents	Efficiency Gain - Person physical descriptors import from CAD spills when creating a person record in Online RMS.
IA-67347	373461	Fleet Mgmt - Add Unit # to the Fleet Vehicle Search Results screen	Enhancement	Fleet Mgmt	Efficiency Gain - Unit # displayed in Search results for easy vehicle identification.

JIRA #	Client Ticket #	Summary	Type of Issue	RMS Module	Functional Documentation
IA-67880	N/A	Unknown Offender cannot add duplicate descriptors	Bug/Defect	Incidents	Improved Data Entry - Added ability to add duplicate descriptors, such as clothing for Unknown Offenders added to an incident report. Offender display grid updated to show duplicate identifiers in the popup for the info bubbles.
IA-68110	377183	Offense Routing - Case Decision notification being sent on Incidents without Offense	Bug/Defect	Incidents	Software Update - For agencies using offense routing, with routes configured to send investigative follow-up case notification, the notification will no longer be automatically generate for Incident reports without an offense. As needed, send the incident for investigative follow-up by checking the route option.
IA-68254	375651	Incident - Add Field Arrest disposition information to Summary Page Field Arrest section	Enhancement	Incidents	Efficiency Gain - View arrest disposition status directly from the Incident Field Arrest association's grid.

APPENDIX: SERVICE COMMITMENTS

Caliber Public Safety designs its processes and procedures related to its RMS system based on the service commitments that Caliber Public Safety makes to its business units, the laws and regulations that govern the system and the operational and compliance requirements that Caliber Public Safety has established.

Security, availability, confidentiality, and processing integrity commitments include, but are not limited to, the following:

Security Commitments

- Secure Socket Layer (SSL) FIPS140-2 compliant encryption is used to encrypt the transmission of data with Caliber hosted systems.
- Access to customer data is restricted to Caliber employees and/or subcontractors whose job function requires access.
- RMS Development, operations, and customer service personnel are required to maintain active CJIS certification.
- Systems are subject to vulnerability scanning.

Availability Commitments

- Caliber will maintain a highly available platform (99.99% uptime) that includes redundancy for critical system components except during planned downtime as communicated to users or unplanned downtime caused by circumstances beyond its reasonable control.
- User entity data is backed up daily and replicated to a secondary location.
- User entity data is maintained and stored within the United States.

Confidentiality Commitments

- Upon termination of services, Caliber will return confidential data to customers subject to the terms of the current RMS SaaS agreement.
- Caliber shall protect information designated as confidential from unauthorized access.
- Confidential data shall only be stored within Caliber's company information systems.

Processing Integrity Commitments

- The organization communicates requirements to user entities regarding the information, data or other specifications necessary to complete processing in alignment with standard business operations.
- Data processing requests are only performed as authorized by the user entity.
- Data shall be stored and maintained in the system with no unauthorized alteration.
