ONLINE RMS 11.4.0 HIGHLIGHTS

Criminal Complaints

Streamline Court Filings with integration to Trial Court Charging Systems. The **Criminal Complaint** module allows users, with appropriate permissions, to create and manage criminal complaints against arrestees and offenders, and approve or dis-approve through a guided review process before submitting to the state.

A new **Agency Feature** and **Role permissions** control access to the Criminal Complaint module. Contact your Customer Success Manager (**CSM**) or Support representative to enable the Criminal Complaint module.

Review **Chapter 13** of the **Online RMS 11.4.0 User Guide** for more information on the features and capabilities of the Criminal Complaint module. Caliber offers supplementary training services for Criminal Complaints and other modules of Online RMS as your agency is ready to do more. Contact your CSM for additional information.

A few features and capabilities of the Criminal Complaint module are highlighted below.

Two workflows exist for Users having permission to create Criminal Complaints:

1. Create a Criminal Complaint from a Field Arrest.
 - a. A new Criminal Complaint section appears on **Field Arrests** to add a Criminal Complaint or access existing Criminal Complaints.

FIGURE 1: FIELD ARREST CRIMINAL COMPLAINT SECTION - ADD CRIMINAL COMPLAINT

- b. Information entered on the Field Arrest **automatically flows** to the Criminal Complaint to improve data accuracy and streamline the process for creating a criminal complaint.
 - i. An option exists via **Agency maintenance** settings to enable the capability to generate an **arrest tracking #** for use on the criminal complaint or for LiveScan device integration.

Incident Enhancements

Improved awareness of security group assigned to incident report.

- Incident Report – View assigned **Security Groups** from the **Incident Supplements** display, without having to drill down to incident security.

The screenshot shows the 'Incident Report - Incident Supplements Display' page. At the top, there's a navigation bar with 'Administration', 'Incidents', 'Master Indices', 'Records Management', 'Forms And Reports', and 'Help'. Below this, a breadcrumb trail reads 'Incident Approval / Incident Report 2020D4210238 / Incident Report Filter'. The main content area displays incident details: 'Incident Summary: 03/16/2020 0838 Hrs - 5 Main #123 Denver, CE 12345' and 'Offense(s): 16-42-19-16 - HEALTH- LEGEND DRUG FRAUD'. A table lists incident supplements with columns: Report Type, Date, Reporting Officer, Supplement Owner, Approval Status, Security Level, Security Groups, and Actions. The 'Security Groups' column for the first entry is highlighted with a red box, showing 'Test 42'. Buttons for 'Go Back', 'Quick Print', 'Print', and 'Update Report #' are at the top right. 'Go Back' and 'Show Report(s)' are at the bottom.

APPENDIX: SERVICE COMMITMENTS

Caliber Public Safety designs its processes and procedures related to its RMS system based on the service commitments that Caliber Public Safety makes to its business units, the laws and regulations that govern the system and the operational and compliance requirements that Caliber Public Safety has established.

Security, availability, confidentiality, and processing integrity commitments include, but are not limited to, the following:

Security Commitments

- Secure Socket Layer (SSL) FIPS140-2 compliant encryption is used to encrypt the transmission of data with Caliber hosted systems.
- Access to customer data is restricted to Caliber employees and/or subcontractors whose job function requires access.
- RMS Development, operations, and customer service personnel are required to maintain active CJIS certification.
- Systems are subject to vulnerability scanning.

Availability Commitments

- Caliber will maintain a highly available platform (99.99% uptime) that includes redundancy for critical system components except during planned downtime as communicated to users or unplanned downtime caused by circumstances beyond its reasonable control.
- User entity data is backed up daily and replicated to a secondary location.
- User entity data is maintained and stored within the United States.

Confidentiality Commitments

- Upon termination of services, Caliber will return confidential data to customers subject to the terms of the current RMS SaaS agreement.
- Caliber shall protect information designated as confidential from unauthorized access.
- Confidential data shall only be stored within Caliber's company information systems.

Processing Integrity Commitments

- The organization communicates requirements to user entities regarding the information, data or other specifications necessary to complete processing in alignment with standard business operations.
- Data processing requests are only performed as authorized by the user entity.
- Data shall be stored and maintained in the system with no unauthorized alteration.
