INTRODUCTION

This document provides an overview of the software changes delivered in the 11.5.0 release of the Online RMS product and will assist with release preparation activities including:

- Internal staff training
- Customer release training
- Customer release notes
- Release announcement and promotion
- Online help and eLearning updates
- Updates to web site product information and product collateral

PRODUCT REQUIREMENTS

For best performance, we recommend a computer, laptop, or tablet purchased within the last 3 years; running an industry popular web browser that is actively supported by the browser manufacturer and connects to the internet using DSL, Cable, or 4G cellular. The browser must support TLS 1.2 or higher.

RELEASE MILESTONES

The following table contains the high-level release milestones for the Online RMS 11.5.0 release.

| End Date | Milestone |
|--------------------|------------------------------------------------------------------------|
| 04 Aug 2020 | 11.5.0 Sprint 1 Starts / 11.4.0 Release Available |
| 18 Aug 2020 | 11.5.0 Sprint 1 Ends / Sprint 2 Starts |
| 01 Sep 2020 | 11.5.0 Sprint 2 Ends / Sprint 3 Starts / 11.4.1 Service Pack Available |
| 15 Sep 2020 | 11.5.0 Sprint 3 Ends / Sprint 4 Starts |
| 29 Sep 2020 | 11.5.0 Sprint 4 Ends / Sprint 5 Starts |
| 06 Oct 2020 | 11.4.2 Service Pack Available |
| 13 Oct 2020 | 11.5.0 Sprint 5 Ends / Sprint 6 Starts |
| 27 Oct 2020 | 11.5.0 Sprint 6 Ends / Sprint 7 Starts |
| 03 Nov 2020 | 11.4.3 Service Pack Available |
| 10 Nov 2020 | 11.5.0 Sprint 7 Ends / Stabilization Sprint Starts |
| 18 Nov 2020 | 11.5.0 RTO (Release to Training / Operations) |
| 01 Dec 2020 | 11.5.0 Stabilization Sprint Ends / Code Lock |
| 08 Dec 2020 | 11.5.0 Release Available |

RELEASE ANNOUNCEMENT

Caliber Public Safety announces the release of **Online RMS 11.5.0** to the **Nlets production environment** on **Tuesday, December 8, 2020 at 1:00 am (Eastern)**. Our hosted delivery approach ensures that all clients benefit from the continual improvements and many benefits of Online RMS without the worries of installing software.

Read the Product Release Bulletin (PRB) via the Online RMS Help menu (Help > Online Help > Product Release Bulletins) and **Watch the Release Overview Videos** to learn more about new features and functionality available in **Online RMS 11.5.0**.

Online RMS 11.5.0 includes enhancements and improvements that touch approximately 50 RMS components, including; **Criminal Complaints, Custom Forms, Field Arrests, Incident Reporting, Evidence Management, Master Indices, Calls For Service, Warrants, User Management, Collapses, NIBRS State Submission Compliancy, Application Interfaces (APIs), and Technology Upgrades**; as well as many other product enhancements, integration improvements, and issue resolutions. Our overall release focus was on contractual commitments, increasing operational efficiencies, simplifying data management, and improving ease of use.

Over the last three (4) years, by listening to and working hand in hand with our customers, Caliber has improved over user efficiency; including decreasing the average time to complete an incident report by approximately 70%.

Below are a few software enhancements available in Online RMS 11.5.0. Check out the PRB and User Guide via Help - Online Help for more details on new modules and major features.

RMS 11.5.0 Release Highlights:

- **Streamline Criminal Complaint Court Filings.**
 - Ordered entry fields to improve usability and conciseness for users.
 - Enhanced functionality to set fields as required or disabled and filter the Hearing Type list of values based on the Complaint Type selected.
- **Enhance your use of Custom Forms**
 - Accountability - Multi-tier routing has been added to route a form through multiple levels of review. Configure one or multiple review levels.
 - Traceability - Number Generation for Custom Forms provides the ability to set a format and number sequence for each custom form type.
 - Usability/Awareness – The Custom Form Name has been added as a subcategory for Notifications to group custom form notifications by Form name.
- **Incident Report Accountability and Security Awareness**
 - Relate Incident Types to one or more Offenses. When adding Incident Report Types to Incident an associated offense will be required.
 - Incident Security Alert – Banner added to main incident page to highlight security groups listed on Incident Report.
- **Enhanced your use of Fleet Management**
 - New Permissions allow for improved management of Fleet Vehicles by different user groups.
 - Validations to ensure closure of users assigned to a vehicle when an assignment is ended.
 - Assurance Warning if more than one user is assigned to the same vehicle at the same time.
 - Ease of Entry - Oil icon to quickly add a new Fuel/Oil/Mileage record from the Fleet Management landing screen Cost of Ownership grid.
 - Maintenance setting to require Off Duty Miles and Service Interval when entering fuel and oil.
- **Always Advancing**
 - **Improved Accountability**
 - ✓ Broadcast messages – Login and require acknowledgement types enhanced to send broadcast messages to specific roles.
 - ✓ Evidence – Change of Location, chain-of-custody logs specified officer as From and To.

- ✓ Warrants – Status of 'Held - Out of County' will show as Active Warrant alert.
- ✓ Civil Process – Option to print Mugshot when printing papers.
- ✓ Field Arrest Questions – Improved awareness of answers requiring comments.
- ✓ User Management - Employee Image add to User Profile and Employee pages.
- **Efficiency Gains**
 - ✓ Arrest Pending Release – Improved management of Arrestees held in Custody.
 - Add Log entries for activities.
 - Add and release property.
 - Release Field Arrest.
 - ✓ Master Vehicle –
 - Search by DLN using Person additional search criteria.
 - Search by “current status” as listed on Incident Report. Easily identify vehicles reported as stolen.
 - ✓ Calls for Service –
 - Filter map to only show CFS events with valid Geo Coordinates.
 - Create Incident Reports within Online RMS from CFS events spilled to RMS without an Incident Report assigned.
 - ✓ Warrants –
 - View served date from Search Results without having to drill down to warrant.
 - Multi-Agency schemas - Assign officers regardless of agency.
 - Display of all charges and warrant reference numbers on search results.
 - ✓ Court Case Appearance – Quick select Incident Reports and Arrest from People associated to Court Case.
 - ✓ Court Location – Sort Order added to order primary Court location first in List of Values.
 - ✓ Person Collapse – Move DLN and SSN to primary search filters.
 - ✓ User Management – Left hand navigation menu simplifies user management.

- **Enhanced Security**
 - ✓ IP white listing - For agencies having security requirements to not allow access to Online RMS outside of approved networks.
 - Define authorized IP ranges for client network requests.
 - Bundle with 2FA for access outside of IP ranges.
- **Federal and State Compliance**
 - IL NIBRS
 - MA NIBRS.
 - GA, IN, MD, NC, NJ, and OK updates.
- **Integrations that save time and improve data quality**
 - Electronic Application for Criminal Complaint – Automated filings of Criminal Complaints with Trial/Criminal Court Systems.
 - Hunter Smartshot Image Capture – Integration with Hunter Smartshot camera systems that streamlines capturing and storing Person and SMT images in Online RMS.
 - LiveScan Data Transfer – LiveScan exports for CrossMatch and MorphoTrust LiveScan devices.
 - LexisNexis ETHOS Crash – Single sign-on integration to streamline workflow and usability for creating and view Ethos crash reports.
 - VA DMV OnBase URL Integration – URL integration to VA DMV OnBase file attachment storage system.
- **Evergreen Worry-free Technology Updates**
 - Technology and security updates required to make sure Online RMS remains secure and operating efficiently.
- **Miscellaneous Software Fixes and Resolutions**

We hope you join us in our excitement for the release of Online RMS 11.5.0. If you have questions about the release, please contact us by email at rms@caliberpublicsafety.com.

Our Very Best,

Caliber Public Safety

NEW FEATURES & ENHANCEMENTS

Online RMS 11.5.0 includes many new updates, based on customer input, contractual commitments, and Public Safety State and Federal mandates. The overall release focus was on increasing operational efficiencies, simplifying data management, and improving ease of use.

Please see Online RMS User Help and Admin documentation for more details on the enhancements and features highlighted in this release bulletin.

ONLINE RMS 11.5.0 HIGHLIGHTS

Criminal Complaints

Streamline completion of Criminal Complaint filings and alleviate common entry errors/omissions. The **Criminal Complaint** module allows users, with appropriate permissions, to create and manage criminal complaints against arrestees and offenders and approve or disapprove through a guided review process before submitting to the state.

Ordered entry fields for Complaint Type, Charge Type, Hearing Type, and Threat Type to improve usability and conciseness for users. **Enhanced functionality** to set fields as required or disabled and filter the Hearing Type list of values based on the Complaint Type selected. based on Complaint Type. Configurations for required and disabled fields are managed by Caliber Admins. If your agency uses Criminal Complaints and would like to use these configurations, please contact Caliber Support. Below is an example of how this configuration is enabled for Massachusetts customers.

- **If Complaint Type = "Arrest" - Charge Type, Hearing Type and Threat Type** list of values shall be **disabled** to not allow entry.
- **If Complaint Type Warrant". Charge Type and Hearing Type** list of values shall be **disabled** to not allow entry, **Threat Type is required.**
- **If Complaint Type = "Hearing" – Then**
 - **Charge Type and Hearing Type are Required. Threat Type** should be **disabled.**
 - **Hearing Type** shall filter to only **"With Notice"**. If only one value is available, based on filtered values, RMS will default the value as selected.
- **If Complaint Type = 'Summons' then**
 - **Charge type, Hearing Type, and Threat type** fields shall be **Required.**
 - **Hearing Type** shall filter to only **"Without Notice"**. If only one value is available, based on filtered values, RMS will default the value as selected.

The screenshot shows the 'Criminal Complaint Search / Criminal Complaint Search Results / Edit Criminal Complaint' page. The 'Complaint Details' section contains several fields. A red box highlights the 'COMPLAINT TYPE' dropdown menu, which is currently set to 'Hearing'. Other fields include 'CRIMINAL COMPLAINT NUMBER' (20-CC-031), 'DATE AND TIME' (11/13/2020 1220), 'STATUS' (Initial), 'STATUS DATE AND TIME' (11/13/2020 1220), 'COURT' (Wrentham District Court), 'COURT CASE NUMBER', 'SUBMISSION STATUS', 'SUBMISSION STATUS DATE AND TIME', 'CHARGE TYPE' (Only Misdemeanors), 'HEARING TYPE' (With Notice), 'THREAT TYPE', and 'Franklin Police Department'.

FIGURE 1: EXAMPLE OF DYNAMIC FIELD DISPLAY FOR COMPLAINT TYPE OF "HEARING".

Usability improvement to quick select Complainant Officer as "Myself" or and Officer listed on associated Incident Reports or Field Arrests.

The screenshot shows the 'Complainant Details' section. A red box highlights two quick select options: 'Select Myself as Officer' and 'Select Officer'. Below these options, the 'OFFICER' field displays 'John Maloney (Badge #: M307) - Franklin Police Department'.

FIGURE 2: CRIMINAL COMPLAINT - OFFICER COMPLAINANT - QUICK SELECT OPTIONS

An **Agency Feature** and **Role permissions** control access to the Criminal Complaint module. Contact your Customer Success Manager (**CSM**) or Support representative to enable the Criminal Complaint module.

Review **Chapter 13** of the **Online RMS 11.4.0 User Guide** for more information on the features and capabilities of the Criminal Complaint module. Caliber offers supplementary training services for Criminal Complaints and other modules of Online RMS as your agency is ready to do more. Contact your CSM for additional information.

Court Case Management

Quick Select options for Agencies using standalone Court Case functionality without Criminal Complaints

Add people to the Court Case and use the quick select option to select Incident Reports and Arrest from People associated to Court Case.

The screenshot shows the 'Officers' section with a table listing 'Officer Jake St. Cyr' and his badge number. Below this, there are sections for 'Arrests' and 'Incidents'. In the 'Arrests' section, there are buttons for 'Add Arrest' and 'Select Arrest(s)'. In the 'Incidents' section, there are buttons for 'Add Incident' and 'Select Incident(s)'. These buttons are highlighted with red boxes.

FIGURE 3: COURT CASE – QUICK SELECT OPTIONS FOR FIELD ARRESTS AND INCIDENTS.

An **Agency Feature** and **Role permissions** control access the Court Case module. Contact your Customer Success Manager (CSM) or Support representative to enable the Court Criminal Complaint module.

Review **Chapter 14: Court Case** and **Chapter 15: Court Appearance** of the **Online RMS 11.5.0 User Guide** for more information on the features and capabilities of the Court Case module. Caliber offers supplementary training services for Court Case & Appearances and other modules of Online RMS as your agency is ready to do more. Contact your CSM for additional information.

Custom Form Enhancements

Enhance your use of Custom Forms using Number Generation and Form Review.

1. **Accountability** - Multi-tier routing has been added to route a form through multiple levels of review.

The screenshot shows the 'Form Administration / Manage Forms / Trespassing Notice' interface. At the top, there are buttons for 'Exit Form Editor' and 'Preview'. Below this is a tabbed interface with tabs for 'Form Details', 'Number Generation', 'Field List', 'Designer', 'Reports', 'Code Tables', 'Routing', and 'Status'. The 'Routing' tab is selected and highlighted with a red box. Below the tabs, there is a checkbox labeled 'Enable Routing For This Form' which is checked and highlighted with a red box. To the right of this checkbox are buttons for 'Add Level' and 'Save', also highlighted with red boxes. At the bottom, there is a text prompt: 'Use this screen to add/edit as many route levels as you would like. When you are done, click the save button'.

FIGURE 4: CUSTOM FORM - ROUTING TAB

Configure one or multiple levels of review. Define the following for each review level.

- Select **General Route** options
 - Require Comment on Submission of route.
 - Mandatory – User may not remove selected users/roles. Checking this box, restricts reviewer from removing designated users or roles from review level.

- User may not add additional user/roles. Checking this box, restricts users from including adding user/roles to the route when reviewing.
- User may cancel next Level. Checking this option allows the reviewer to cancel the next level of review. This option does not apply to the first review level.
- Select **Users**, and **Roles/Agencies** for routing.

FIGURE 5: CUSTOM FORM - ROUTE LEVEL OPTIONS

| Name | Options | Agencies | Roles | Users | Actions |
|----------------|----------------------------------------------------------------------------------------------------------------|----------|--------------------|-------|-----------------|
| Review Level 1 | Comment Required: Yes Disable Add: Yes Disable Remove: Yes Can Cancel: No | | OFFICER_SUPERVISOR | | [Edit] [Delete] |
| Review Level 2 | Comment Required: No Disable Add: Yes Disable Remove: Yes Can Cancel: Yes | | LEA_RECORDS_MGMT | | [Edit] [Delete] |

FIGURE 6: CUSTOM FORM - MULTIPLE LEVELS CONFIGURED

2. **Traceability** - Number Generation for Custom Forms provides the ability to set a format and number sequence for each custom form type.
 - Select Enable Number Generation for forms requiring individual tracking numbers.

The screenshot shows the 'Form Administration / Manage Forms / Trespassing Notice' page. The 'Number Generation' tab is selected. A red box highlights the 'Enable Number Generation for this form' checkbox, which is currently unchecked. Below the checkbox is a 'Save' button.

FIGURE 7: CUSTOM FORMS - NUMBER GENERATION TAB

- Define the Format, Place Holder value, Starting/Next number sequence, and Effective/Start and End dates.

The screenshot shows the 'Form Administration / Manage Forms / Trespassing Notice' page. The 'Number Generation' tab is selected. The 'Enable Number Generation for this form' checkbox is checked. Below the checkbox, the following configuration options are visible:

- FORMAT:** YYIR0000
- PLACE HOLDER:** -TP-
- END DATE:** 12/31/2020
- NEXT NUMBER:** 1001
- EFFECTIVE DATE:** 11/15/2020

 A 'Save' button is located at the bottom right of the configuration area.

FIGURE 8: CUSTOM FORM - NUMBER GENERATION CONFIG OPTIONS

- Custom Form Instance Number will be generated from the configured Number Generation upon saving the Form.

- A new Validation Warning for Offense Tab will appear to inform officer that an offense is required for the selected Incident Report Type.

The screenshot shows the 'Incident Report 20-000045' form. The 'Offense' tab is selected, and a validation warning is displayed: 'Domestic Violence - Requires at Least One Related Offense'. The 'Incident Summary' shows the date '08/25/2020 1539 Hrs' and 'Offense(s): No Offense Specified'. The 'Header Information' section includes 'REPORT SECURITY' (Patrol Officer) and 'FOR PUBLIC RELEASE' (Yes). The 'MEDIA/CRIME SUMMARY' section has a 'Summary' field. The 'INCIDENT REPORT TYPES' section shows 'Domestic Violence' selected.

FIGURE 13: INCIDENT REPORT - OFFENSE VALIDATION FOR INCIDENT TYPE REQUIRING OFFENSE

- On the Add Offense page, select "Quick Select Report Type Offenses" to easily add offenses related to Incident Report Types on the Incident report that require an offense.

The screenshot shows the 'Add Offense' page for 'Incident Report 20-000045'. The 'Offenses' tab is selected. The 'Incident Summary' shows the date '08/25/2020 1539 Hrs' and 'Offense(s): No Offense Specified'. The 'Agency' is 'Caliber Public Safety PD' and the 'Report #' is '20-000045'. A message states: 'Please add file class/offenses to the incident report. The system will prompt you to complete the required information for State, NIBRS or UCR reporting based on the selected offense(s). If the report has more than one offense, add offenses in the order of severity, the most severe offense being the first.' The 'FIND OFFENSE CODE' section has a search bar and a 'Quick Select Report Type Offenses' button. The 'Back To Previous Section' and 'Skip Offense Section' buttons are at the bottom.

FIGURE 14: INCIDENT REPORT - OFFENSE PAGE - QUICK SELECT REPORT TYPE OFFENSES

- On the **Incident Type Offenses Quick Select** page, click the  icon to select offenses. Use the filter by pick list to filter offenses by Incident Types listed on the Incident Report having a mapping to one or more offenses.

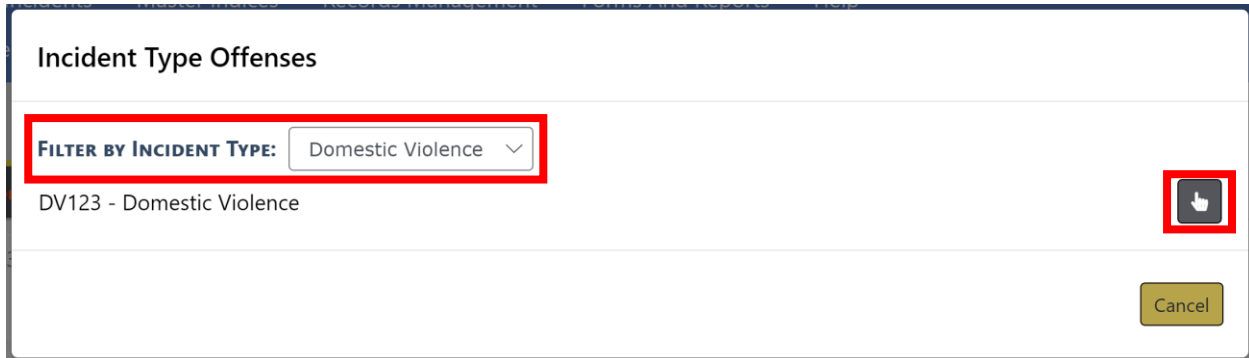

FIGURE 15: INCIDENT TYPE OFFENSES - QUICK SELECT PAGE

- Incident **Security Group** alert banner added to main incident page to highlight security groups listed on Incident Report.

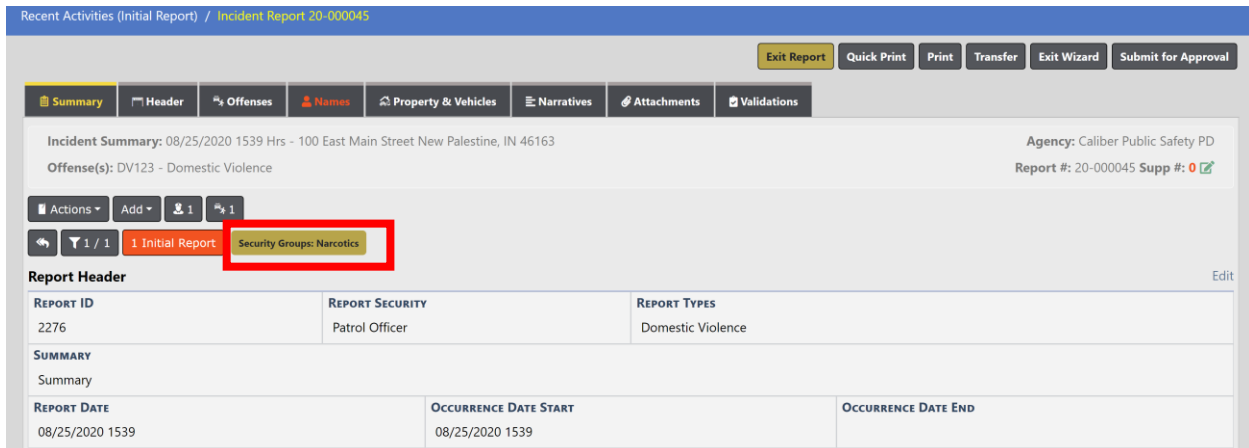

FIGURE 16: INCIDENT SUMMARY PAGE - SECURITY GROUP ALERT BANNER

Fleet Management

Enhance your use of Fleet Management. Enhancements to the fleet management module improve usability and data entry quality.

1. Quickly search for unassigned fleet vehicles via the addition of a "Vehicle Not Assigned" search Option.

The screenshot shows the 'Fleet Vehicle Search' form. The 'VEHICLE NOT ASSIGNED' checkbox is highlighted with a red box. The form includes various search criteria such as Agency, Year, VIN, License #, Make, Model, Type, Style, License State, Misc ID Type, Misc ID Value, Fleet ID, Unit Number, Group, Current Mileage, Service Request Status, Category, Budget, Delinquent Mileage, Status, Assignment, and Rating.

FIGURE 17: FLEET VEHICLE SEARCH - "VEHICLE NOT ASSIGNED" SEARCH OPTION

2. Improved logic added for ordering Fleet Vehicles by Unit # combination text and numbers.

The screenshot shows the 'Fleet Vehicle Search Results' page. The table displays search results for 11 vehicles. The 'Unit Number' column is highlighted with a red box. The table includes columns for Vehicle ID, Unit Number, Make, Model, Status, Agency, Assigned Officers, Purchased Date, Current Mileage, and Actions.

| Vehicle ID | Unit Number | Make | Model | Status | Agency | Assigned Officers | Purchased Date | Current Mileage | Actions |

Always Advancing

Dedicated to constant improvement in usability and advancement of functionality, Caliber is please to highlight the below advancements in Online RMS.

1. **User Management** page enhanced with **left hand navigation menu** to simplify navigation. **Employee Image** added for improved accountability and personalizing account. Upload photos via the Employee Management page.

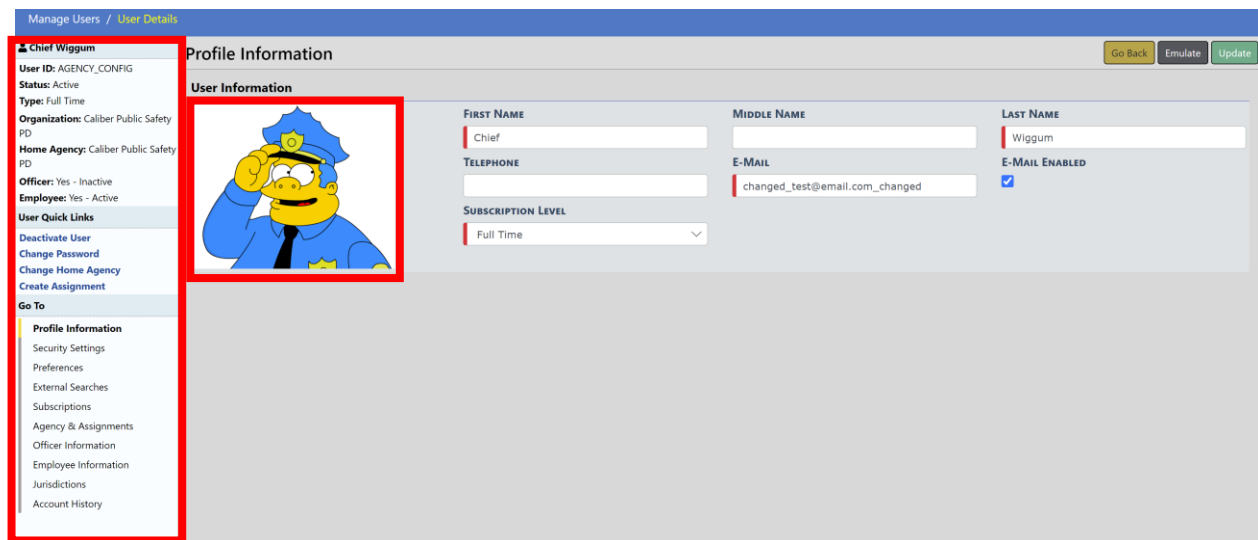

FIGURE 24: USER MANAGEMENT PAGE - LEFT HAND MENU AND EMPLOYEE IMAGE

2. **Broadcast Login** and **Require Acknowledgement Messages** enhanced to restrict messages to specific roles.

The screenshot shows the 'MESSAGE' form in the system. At the top, it says 'Broadcast Message - Login Notification'. Below this, there are fields for 'MESSAGE TYPE' (set to 'Tip of the Day') and 'PRIORITY' (set to 'High'). Under the 'GLOBAL' section, there are two checkboxes: 'LOGIN NOTIFICATION' (checked) and 'REQUIRE ACKNOWLEDGEMENT' (unchecked). Both checkboxes are highlighted with red boxes. Below these is a rich text editor with the text: 'Login and require acknowledgement types enhanced to restrict broadcast messages to specific roles.' At the bottom, there are sections for 'AGENCY RECIPIENTS' (showing 'Caliber Public Safety PD') and 'ROLE RECIPIENTS' (showing 'CID_SUPERVISOR'), both highlighted with red boxes. There are also date/time pickers for 'START DATE / TIME' and 'END DATE / TIME', and 'Go Back' and 'Save' buttons at the bottom.

FIGURE 25: BROADCAST MESSAGE ENHANCEMENTS

3. **Evidence Change of Location** action enhanced to log specified officer as **Custody From** and **Custody To** in **Chain of Custody**.

| Chain Of Custody | | | | | | | | | |

7. Enhanced functionality to Search **Master Vehicles**.

- Search by DLN using Person additional search criteria.

The screenshot shows the 'Vehicle Search' interface. At the top, there are tabs for Person, Address, Organization, Vehicle (selected), Property, and Gang. Below the tabs, there are various search fields including Year, VIN, License Plate, Creator, Creation Date From, Creation Date To, Make, Type, License State, Model, Style, Index ID, Last Name, First Name, Middle Name, DOB, Approx. Age, Role, and Drivers License. The 'Additional Search Criteria' dropdown is highlighted with a red box and set to 'People'. The 'Drivers License' field is also highlighted with a red box.

FIGURE 32: MASTER VEHICLE SEARCH - ADDITIONAL SEARCH CRITERIA - PEOPLE DLN

- Search Master Vehicles by “current status” as listed on Incident Report. Search to see all vehicles identified as stolen.

The screenshot shows the 'Vehicle Search' interface. At the top, there are tabs for Person, Address, Organization, Vehicle (selected), Property, and Gang. Below the tabs, there are various search fields including Year, VIN, License Plate, Creator, Creation Date From, Creation Date To, Make, Type, License State, Model, Style, Index ID, Last Name, First Name, Middle Name, DOB, Approx. Age, Role, and Drivers License. The 'Additional Search Criteria' dropdown is highlighted with a red box and set to 'Incident Status'. Below it, the 'Status' dropdown is also highlighted with a red box and set to 'Stolen'. The 'Vehicle Role' dropdown is set to '-Select-'.

APPENDIX: 11.5.0 PRODUCT CHANGE NOTICE (PCN) – DETAILED JIRA LISTING

TABLE A: Release Enhancements and Product Software Issue Resolutions

This table contains enhancement, software issue, and interface JRAs contained in the 11.5.0 release.

| JIRA # | Client Ticket # | Summary | Type of Issue | RMS Module | Functional Documentation |
|----------|-----------------|---------------------------------------------------------------------|---------------|---------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| IA-36790 | 373647 | Civil Process- Person Mugshot Profile Print of Court Paper | Enhancement | Civil Process | Usability Improvement - New print option for Court Papers. "Print Mugshots (if available)". If the option is selected, any People to Be Served with a mugshot available will have their primary mugshot printed with their person information. If the person has no mugshot available or is an unknown person, no photo section will display. |
| IA-37086 | 373629 | Warrant Search Results - Display all ID#'s and charges | Enhancement | Warrants | Usability Improvement - New column added to Warrant Search Results page to display charge information selected on warrant. State IDs column renamed to IDs. The column will now display all reference #s added to the warrant. |

| JIRA # | Client Ticket # | Summary | Type of Issue | RMS Module | Functional Documentation |
|----------|------------------|--------------------------------------------------------------------------------|---------------|----------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| IA-55576 | 154310 | Master Indices - Warrant address not associating to person | Enhancement | Warrants | Usability Improvement - Service Addresses selected on Warrant will appear on the Person Address Common Event Associations for the warrant person. |
| IA-59056 | 169287 | Warrants - Add ability to assign officers outside agency | Enhancement | Warrants | Usability Improvement - Agency filter added to filter officers by user's agency, user's organization, or ability to select from other agencies sharing the same Online RMS schema/instance. |
| IA-65138 | 359859 | Add ability to search Vehicles by current status and display plate information | Enhancement | Master Indices | Usability Improvement - Search by "current status" as listed on Incident Report. Search to see all vehicles identified as stolen. |
| IA-66712 | 370921 396189 | Attachments - Post warning or error when attachment is null - Research | Enhancement | Attachments | Usability Improvement - A new warning will display at the top of the page to indicate if an image failed to upload due to an error processing the image file. The dialog will indicate each file that failed. |

| JIRA # | Client Ticket # | Summary | Type of Issue | RMS Module | Functional Documentation |
|----------|------------------|----------------------------------------------------------------------------------|---------------|-----------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| IA-67447 | 383773 393039 | Update Jasper server login to include setting time zone | Bug/Defect | AdHoc Reporting | Usability Improvement – adjustment to handle passing of timezones for scheduling of reports. |
| IA-67832 | 375943 | Updating Vehicle Plate information | Enhancement | Master Indices | Usability Improvement - A "Populate From Most Recent" button is now available to quickly create a new description by copying data from the most recent description. This will allow users to quickly copy data and then update license expiration dates or license number without having to manually enter each vehicle description field. |
| IA-68114 | 376747 | Warrant Mugshot image displays smaller in 11.0 than 10.31 | Bug/Defect | Warrants | Usability Improvement - A new "Download Original Image" link appears below the Warrant image that will download the full-size original image to the user's computer. |
| IA-68391 | N/A | Incidents: Dispatch date in CFS grid is incorrectly displaying the CFS call date | Bug/Defect | Incidents | Software Improvement - Dispatch Date column in the CFS grid updated to display Dispatch date/time rather than the Call Date. |

| JIRA # | Client Ticket # | Summary | Type of Issue | RMS Module | Functional Documentation |
|----------------------|-----------------|---------------------------------------------------------------------------------|---------------|--------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------|
| IA-68538 | N/A | User Security Questions Issues | Enhancement | Admin | Security Improvement - General security improvement to the User Security Questions page. |
| IA-69451 | 384308 | Incident Delete Log - Search Issue pagination and Export Issues | Bug/Defect | Incidents | Usability Improvement - Options to export as PDF and Excel are available. Searching, Sorting, and Pagination improvements. |
| IA-69616 | 385319 | Incidents - Reports only allow selection of Assist Agency on the Offense Status | Enhancement | Incidents | Usability Improvement - Improved process for agencies using the Assist Agency feature and updating Assist Agency value in supplements. |
| IA-69854 | N/A | Admin: User Jurisdiction ISSUES | Bug/Defect | Admin | Usability Improvement - Improvement to updating Jurisdiction for Users have access to more than one Online RMS schema/instance. |
| IA-70028 | 388633 | Enhancement Request / LOE - Add Sequential Number Field to a Custom Forms | Enhancement | Custom Forms | Contractual commitment - Number Generation for Custom Forms provides the ability to set a format and number sequence for each custom form type. |
| IA-70029 IA-71466 | 388635 | Enhancement Request / LOE - Add Secondary Review Process to Custom Forms | Enhancement | Custom Forms | Contractual commitment - Multi-tier routing has been added to route a custom form through multiple levels of review. Configure one or multiple review levels. |

| JIRA # | Client Ticket # | Summary | Type of Issue | RMS Module | Functional Documentation |
|----------|-----------------|-------------------------------------------------------------------------------------------------|---------------|-----------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| IA-70103 | N/A | Master Person Search Enhancement | Enhancement | Master Indices | Usability Improvement - New Additional Search Criteria ("Person Images") available for Searching Persons to search by Photo type and date range. |
| IA-70138 | 389099 | Warrants - Allow status of Held Out of County to give Active Warrant Warning | Enhancement | Warrants | Usability Improvement - Warrants with status 'Held - Out of County' will display active warrant alerts on the person and address search results. |
| IA-70148 | N/A | Case Mgmt: Evidence Action - UI Updates | Bug/Defect | Follow-up Cases | Usability Improvement - UI updates to Case Management Evidence action page. |
| IA-70200 | N/A | Arrests View/Edit Page - Add involved Court Cases | Enhancement | Court Case | Usability Improvement - Grid added to Field Arrest page to display court cases associated to Field Arrests from the Court Case Module or via the Criminal Complaint module having Court Cases generated. |
| IA-70261 | N/A | MECC - Hunter SmartShot - RMS Camera Interface Control Document | Enhancement | Interface | Interface Control Document Created. |
| IA-70268 | 389698 | Fleet Mgmt - Unit # on Search results pages not sorting correctly - Research possible solutions | Bug/Defect | Fleet Mgmt | Usability Improvement - improved sorting order of Fleet Vehicles by unit #. |

| JIRA # | Client Ticket # | Summary | Type of Issue | RMS Module | Functional Documentation |
|-----------------|-----------------|--------------------------------------------------------------------------------------------|---------------|------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| IA-70329 | 390565 | Fleet Mgmt - Make Off Duty Miles and Service Interval Mandatory Fields on Fuel & Oil entry | Enhancement | Fleet Mgmt | Usability Improvement - Maintenance setting to require Off Duty Miles and Service Interval when entering fuel and oil. If set to "Y", the fields become required, and the record will not save without populating them. A red validation indicator will alert for missing data. |

| | | | | | |
|-----------------|--------|---------------------------------------------------------------------------------------------------------------------|-------------|------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| IA-70333 | 390652 | Fleet Mgmt. Permissions - Remove vehicle editing from Fleet Mgmt -Always Edit Vehicle Assignments | Enhancement | Fleet Mgmt | <p>Configuration/Usability Improvement - New Permissions allow for improved management of Fleet Vehicles.</p> <ul style="list-style-type: none"> Fleet Management - Always Edit Assignments now works like always edit fuel oil mileage. You need the specific Permission category to always edit otherwise users can only edit assignment they create. New permission category for Deleting a fleet vehicle. Permission removed from the Fleet Manager Permission Category. Agency Admins will need to assign the Delete Fleet Vehicle category to roles that shall be able to delete a fleet vehicle. New permission to edit Vehicle Primary Fields. The permission is added to the Fleet Manager Permission Category by default. This permission allows the user to edit the primary details of the fleet vehicle. Roles without the Fleet Manager Permission |
|-----------------|--------|---------------------------------------------------------------------------------------------------------------------|-------------|------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

| JIRA # | Client Ticket # | Summary | Type of Issue | RMS Module | Functional Documentation |
|----------|-----------------|---------------------------------------|---------------|--------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| | | | | | <p>Category will not be able to the primary Fleet Vehicle detail fields.</p> <ul style="list-style-type: none"> New Permission Category added "Fleet Management - Mid-Level Manager". This new Permission Category has the same permissions as the Fleet Manager Permission Category except the permission to edit Vehicle Primary Fields. This allows mid-level managers to manage assignments but not edit the primary vehicle fields. |
| IA-70342 | N/A | Custom Form - Notification type | Enhancement | Custom Forms | Usability Improvement - Custom Form Name has been added as a subcategory for Notifications to group custom form notifications by Form name. This will allow acting on Custom Form Review notifications by Form Name. |
| IA-70373 | 390925 | Address - Addresses will not collapse | Bug/Defect | Collapse | Usability Improvement - Address collapse improvement for handling addresses previously flagged as not duplicates. |

| JIRA # | Client Ticket # | Summary | Type of Issue | RMS Module | Functional Documentation |
|----------|-----------------|-----------------------------------------------------------------------|---------------|--------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| IA-70390 | N/A | Broadcast Messages - Add Ability to send message to a specific schema | Enhancement | Broadcast Messages | Usability Improvement - Caliber Admin improvement to direct broadcast message to specific Customer schemas. |
| IA-70459 | N/A | Cadillac Online Training Video: Embedded video entry points | Enhancement | Admin | Usability Improvement - Caliber Admin improvement to configure training videos to support configuring more than one entry point for triggering playing video. |
| IA-70518 | N/A | Warrants - Create new permissions | Enhancement | Warrants | <p>Usability Improvement - Added new permission ("Warrants - Add and Edit on a Schema Level") for managing warrants at the System level permission apply to</p> <ul style="list-style-type: none"> • Adding a Warrant (Agency selection is all schema Agencies). • Editing a Warrant (Agency selection is all schema Agencies). • Searching a Warrant (Edit button will always show for users with the schema edit permission). <p>For users without the Warrants - System permission, the Warrants module will operate as it does for agency warrants.</p> |

| IA-71956 | N/A | Criminal Complaint: Adjust printed complaint font size | Enhancement | Criminal Complaint | Usability Improvement – Increase font size on printed complaint data fields. |
| IA-71986 | N/A | Person Summary Counts Showing Arrests When Person Not Arrested | Bug/Defect | Master Indices | Display Improvement - Adjust logic for calculating Person Involvement Summary counts. |

--END--

APPENDIX: SERVICE COMMITMENTS

Caliber Public Safety designs its processes and procedures related to its RMS system based on the service commitments that Caliber Public Safety makes to its business units, the laws and regulations that govern the system and the operational and compliance requirements that Caliber Public Safety has established.

Security, availability, confidentiality, and processing integrity commitments include, but are not limited to, the following:

Security Commitments

- Secure Socket Layer (SSL) FIPS140-2 compliant encryption is used to encrypt the transmission of data with Caliber hosted systems.
- Access to customer data is restricted to Caliber employees and/or subcontractors whose job function requires access.
- RMS Development, operations, and customer service personnel are required to maintain active CJIS certification.
- Systems are subject to vulnerability scanning.

Availability Commitments

- Caliber will maintain a highly available platform (99.99% uptime) that includes redundancy for critical system components except during planned downtime as communicated to users or unplanned downtime caused by circumstances beyond its reasonable control.
- User entity data is backed up daily and replicated to a secondary location.
- User entity data is maintained and stored within the United States.

Confidentiality Commitments

- Upon termination of services, Caliber will return confidential data to customers subject to the terms of the current RMS SaaS agreement.
- Caliber shall protect information designated as confidential from unauthorized access.
- Confidential data shall only be stored within Caliber's company information systems.

Processing Integrity Commitments

- The organization communicates requirements to user entities regarding the information, data or other specifications necessary to complete processing in alignment with standard business operations.
- Data processing requests are only performed as authorized by the user entity.
- Data shall be stored and maintained in the system with no unauthorized alteration.
