INTRODUCTION

This document provides an overview of the software changes delivered in the 11.7.0 release of the Online RMS product and will assist with release preparation activities including:

- Internal staff training
- Customer release training
- Customer release notes
- Release announcement and promotion
- Online help and eLearning updates
- Updates to web site product information and product collateral

PRODUCT REQUIREMENTS

For best performance, we recommend a computer, laptop, or tablet purchased within the last 3 years; running an industry popular web browser that is actively supported by the browser manufacturer and connects to the internet using DSL, Cable, or 4G cellular. The browser must support TLS 1.2 or higher.

IMPORTANT NOTICE FOR ONLINE RMS AGENCIES

ONLINE RMS DESUPPORTS INTERNET EXPLORER (IE)

EFFECTIVE, 03 AUGUST 2021

Microsoft announced Internet Explorer (IE) 11 will stop working optimally with Microsoft 365 services on August 17, 2021. Additionally, Internet Explorer (IE) 11 desktop application will be retired by Microsoft and go out of support on June 15, 2022. Microsoft Internet Explorer (IE) is no longer supporting new web standards that are used by modern applications.

For this reason, Caliber no longer considers Internet Explorer (IE) a modern web browser and is no longer supporting Internet Explorer (IE) for use with Online RMS as of August 3, 2021. There are significant security and performance concerns with Internet Explorer (IE) 11 (see [Microsoft FAQ](#)). Agencies still using Internet Explorer (IE) should move to a modern web browser such as Microsoft Edge, Google Chrome, Mozilla Firefox, or Apple Safari for accessing Online RMS.

RELEASE MILESTONES

The following table contains the high-level release milestones for the Online RMS 11.7.0 release.

End Date	Milestone
13 Apr 2021	11.7.0 Sprint 1 Starts / 11.6.0 Release Available
27 Apr 2021	11.7.0 Sprint 1 Ends / Sprint 2 Starts
04 May 2021	11.6.1 Service Pack Available
11 May 2021	11.7.0 Sprint 2 Ends / Sprint 3 Starts
25 May 2021	11.7.0 Sprint 3 Ends / Sprint 4 Starts
08 Jun 2021	11.7.0 Sprint 4 Ends / Sprint 5 Starts / 11.6.2 Service Pack Available
22 Jun 2021	11.7.0 Sprint 5 Ends / Sprint 6 Starts
06 Jul 2021	11.7.0 Sprint 6 Ends / Sprint 7 (Stabilization Sprint) Starts
13 Jul 2021	11.6.3 Service Pack Available
20 Jul 2021	11.7.0 Stabilization Sprint 7 Ends / Stabilization Sprint 8 Starts
21 Jul 2021	11.7.0 RTO (Release to Training / Operations)
27 Jul 2021	11.7.0 Code Lock
03 Aug 2021	11.7.0 Release Available

RELEASE ANNOUNCEMENT

The **Online RMS training/demo environments** will be upgraded to Online RMS 11.7.0 (RTO) release **between 6 pm - Midnight (Eastern)** on **Wednesday, July 21, 2021**. During this time, the Online RMS training/demo environments may not be available. The Online RMS production environment will not be impacted. As a reminder, Online RMS 11.7.0 production release will occur on **Tuesday, August 3, 2021, at 1:00 am (Eastern)**.

Release Overview Videos are available to help you prepare and learn more about the new and exciting features and functions coming to Online RMS in the 11.7.0 release. Click the **watch** hyperlink to watch each video. Beginning **Thursday, July 22, 2021**, access your training/demo environment for hands-on experience with 11.7.0 (RTO).

End-User Focused Videos:

- Easily Create Field Arrests from Incident Reports and CFS - [Watch](#)
- Jail Track Interface Improvements to View and Import People - [Watch](#)
- Improving Data Capture via Master Indices Required Fields - [Watch](#)
- Do more with Custom Forms for Fleet Vehicle & ODL Assignments - [Watch](#)
- Enhanced Searching for Tow/Impounds - [Watch](#)
- Manage Open Field Arrests via new Home Page Chart - [Watch](#)
- Warrant Search – Show Map - [Watch](#)

Admin Focused Videos:

- Better Manage Evidence & Property Locations - [Watch](#)
- Custom Forms – Create Incident Option - [Watch](#)
- TeamSupport – Submit a Ticket Integration - [Watch](#)

Online RMS 11.7.0 includes enhancements and improvements that touch approximately 45 RMS components, including **Field Arrest Creation, Property/Evidence Management, Custom Forms, Tow Impound Searching, Master Indices, Calls For Service, Fleet Management, Warrants, External Queries, NIBRS State Submission Compliancy, Application Interfaces (APIs), and Security upgrades**; as well as many other product enhancements, integration improvements, and issue resolutions. Our overall release focus

was on contractual commitments, increasing operational efficiencies, simplifying data management, and improving ease of use.

Below are a few software enhancements available in Online RMS 11.7.0. More information on features and functions available in the 11.7.0 release can be found by reading the Product Release Bulletin by navigating to Help > Online Help > Product Release Bulletins or by clicking [here](#).

RMS 11.7.0 Release Highlights:

- **More time for Patrol and Other Activities**
 - Agencies using the Online RMS Field Arrest module will experience several time saving enhancements.
 - ✓ Reduce the time to complete a Field Arrest by importing data from an Incident Report or Calls for Service record. Officer can also choose to easily create a Field Arrest for an Offender on an Incident Report directly from an open Supplement.
 - ✓ Data fields for location, Criminal Complaints, “Arrestee has No Property”, Vehicle Impound, Next of Kin, and Log Type have been relocated, modified, or added to streamline navigation and improve data entry when completing a field arrest.
 - ✓ The Duplicate Field Arrest process saves even more time when arresting multiple people on the same event by allowing the selection of additional arrestees from incident reports associated to the Arrest.
- **Making the most of Vehicle Impounds**
 - New search fields provide more options to find Vehicle Impounds.
 - ✓ Search by Approval Status, Type of Hold, Hold Reason, Hold Not Released, Associated People and Role, Associated Organizations and Role, Officers, and Tow Company. Create a Court Case directly from an Incident Report.
 - ✓ Search results updated to include:
 - Year, Make and Model added to ‘Vehicle Id’ column.
 - City and County added to ‘Towed From’ column.
 - New column for Tow Company.

- **More Information at your Fingertips**
 - Sites using Jail Tracker and Online RMS will notice and improved display and data import options, including Booking Photos for Jail Tracker inquiries.
 - Improved Accurant Public Data printed Vehicle Report to print a single report.
 - Expungement Comments visible to authorize users from Person Summary Details page.
- **Enhance your use of Custom Forms.**
 - New option to create an Incident Report for a custom form. Available for sites with Incident Report Number generation configured.
- **Fleet Management Usability Enhancers**
 - New Quick End Assignment button saves click when ending a vehicle assignment.
 - Custom Forms now available for Vehicle Assignments and ODL assignments. Create your own vehicle inspection forms and make available to assigned users or Supervisors to complete.
- **Always Advancing**
 - **Improved Accountability**
 - ✓ Ethnicity made required for Master People.
 - ✓ New agency configurations to require County and Lat and Long for Master Address records.
 - ✓ Ability to manual link a CFS record to an Incident Report.
 - ✓ Home Page Chart for Field Arrests Status.
 - ✓ AdHoc Reports - Customer Defined Folders and Configuring Role Access.
 - **Usability and Efficiency Gains**
 - ✓ Warrant Search Page - Map Display Option.
 - ✓ Inventory Asset module update for Officer and Employee assignments.
 - ✓ Added Duplicate Field Auto Search criteria highlighting to Add Person page. Mouse over info bubble to show fields that must be entered for duplicate matching to activate.
 - ✓ Fleet Vehicle "Assignment Location" added to Cost of Ownership Dashboard and Manage Vehicle Fleet Search Results pages.
 - ✓ Online Help Ability to submit tickets directly in Team Support via single sign-on.

- ✓ State Submission action buttons reorder for better workflow.
- ✓ Field Arrest – Print option for Log entries.
- ✓ Incident Report Search improvement to find reports by searching on one or more “Use of Restraint Types”.
- ✓ Field Contacts - View associated Incidents and CFS records.
- **Enhanced Security**
 - ✓ Prevent Lock-out when configuring or modifying IP Whitelisting.
- **Federal and State Compliancy**
 - FL, GA, IL, IN, MA, MD, MI, NC, NJ, and OK updates.
- **Evergreen Worry-free Technology Updates**
 - Technology and security updates required to make sure Online RMS remains secure and operating efficiently.
- **Miscellaneous Software Fixes and Resolutions**

We hope you join in our excitement for the release of Online RMS 11.7.0 to RTO on **July 21st** and are preparing your agency for production release on Tuesday, August 3, 2021. If you have questions about the release, please contact us by email at rms@caliberpublicsafety.com.

Our Very Best,

Caliber Public Safety

NEW FEATURES & ENHANCEMENTS

Online RMS 11.7.0 includes many new updates, based on customer input, contractual commitments, and changes to Public Safety State and Federal standards. The overall release focus was on increasing operational efficiencies, simplifying data management, and improving ease of use. **Please see *Online RMS User Help and Admin documentation for more details on the enhancements and features highlighted in this release bulletin.***

ONLINE RMS 11.7.0 HIGHLIGHTS

Field Arrest Creation

Simplifying Field Arrests. Reduce the time to complete a Field Arrest by importing data from an Incident Report or from a Calls for Service record. Officers can also choose to easily create a Field Arrest for an Offender from within an Incident Report supplement.

1. **Create Field Arrest for Offender within Incident Supplement** - In response to listening to our customers, the Incident Report writing process was enhanced to allow the creation of a Field Arrest for offenders listed on an Incident Report.
 - a. Click the handcuff icon to initiate a Field Arrest for an offender.

Offenders					Add Offender	Add Unknown Offender
Name	Age at time of Incident	Role(s)	Supp #	Actions		
Leuck, Alex Gordon Race: White Sex: M DOB: 01/23/1985	36 Years Old	Suspect / Offender	1	    		
Smith, Billy Ray Race: White Sex: M DOB: 11/11/1994	26 Years Old	Suspect / Offender	1	    		

FIGURE 1: INCIDENT REPORT - OFFENDERS - CREATE FIELD ARREST ICON

- b. Information from the Incident report (Location, Victims/Other Names, Vehicles, and Charges) is available to import into the field arrest, eliminating manual entry and reducing the time to complete a Field Arrest.

FIGURE 2: INCIDENT REPORT - CREATE FIELD ARREST IMPORT PAGE

2. **Quick Arrest From Incident or Calls for Service** – When choosing to Create a new Field Arrest, users can choose from Incident Reports or Calls for Service related to the selected person and import data from the selected record to auto-populate the Field Arrest.
 - a. Use the Radio Button selector to view Incident Reports or Calls for Service related to the selected arrestee.
 - b. The option to Create Arrest Without Importing is available to create a standalone Arrest that is not related to an existing Incident Report or Calls for Service.
 - i. For Arrests with no related Incident Reports or Calls for Service, the application will take the user directly to the Create Field Arrest page.

Field Arrest Navigation Improvements

Relocating data fields and tabs to match workflows. Based on feedback from our user community, we have relocated data fields and created new tabs to improve usability when entering data and view arrest information.

1. **New Tab for Criminal Complaints** – Adding a Criminal Complaint was moved from the bottom of the Arrest tab to its own Tab. This new tab will appear between the Vehicle / Towing and Narratives tab for agencies using the Criminal Complaint feature. Having Criminal Complaints as its own tab and locating after the core field arrest tabs improves the workflow experience of entering Arrestee information, Officers, and Charges, and then presenting the option to create a Criminal Complaint, which pulls data from the Field Arrest to populate the Criminal Complaint.

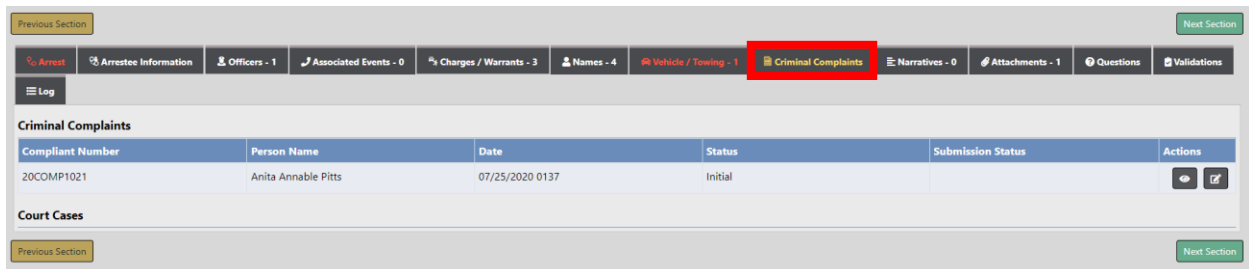

FIGURE 9: FIELD ARREST - CRIMINAL COMPLAINTS TAB

2. **Arrest Location** – Moved to the Arrest Tab rather than having as a separate tab. Improves usability by allowing the user to enter the core arrest demographics on one tab.

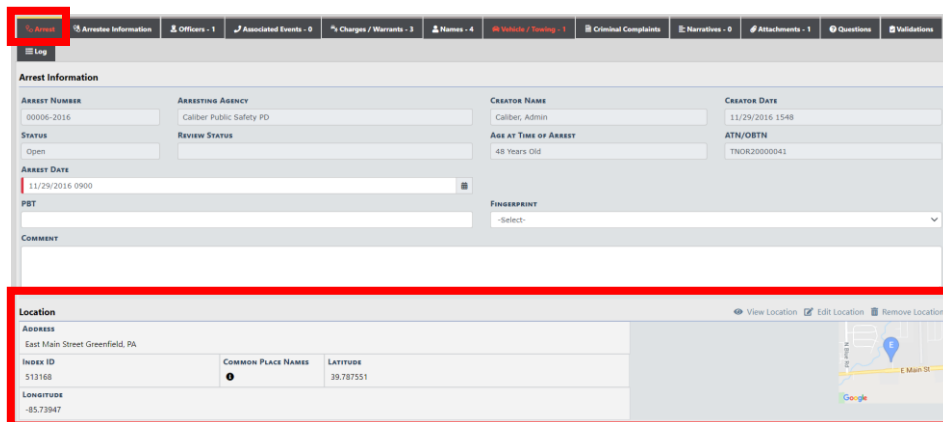

FIGURE 10: ARREST TAB - ARREST LOCATION GRID

3. **Next of Kin / Emergency Contact** – New option to add a relationship when only partial data is known, without creating a master person record.
 - a. Select **“Add Without Master Person”**.

FIGURE 11: FIELD ARREST - NAMES - NEXT OF KIN

- b. Add partial data. Use partial data to lookup potential matches.

Fleet Management Enhancements

A mix of client sponsored, and product enhancements focused on doing more with custom forms and usability improvements for Fleet Vehicles.

1. **Custom Forms For Vehicle Assignments** - client sponsored enhancement to expand the use of Custom Forms for Fleet Vehicle Assignments. As example, this update supports the ability to create a custom form for Fleet Vehicle Inspections and make available for Fleet Assignments.

FIGURE 29: CUSTOM FORM TYPES FOR FLEET VEHICLE ASSIGNMENTS AND FLEET VEHICLES

- a. **Custom Forms** - with Form Type of **Fleet Vehicle Assignments** appear as a **Quick Entry** icon on the Edit **Vehicle Assignments** tab for Fleet Admins, the **User's Current Assignments** and ODL (**Officer Daily Log**) pages. Click the paper icon  to add or view custom forms for assignment.

General Application Enhancements

In response to listening to our clients we are pleased to feature these general application updates focused on improving data entry, data quality, and overall application usability.

Usability and Search Improvements

1. **Impound Searching** – more options to find impound records.
 - a. Core Search fields added to search by Approval Status, Type of Hold, Hold Reason, and “Hold Not Released”.

FIGURE 40: VEHICLE IMPOUND SEARCH - NEW SEARCH FIELDS

- b. **Additional Search Criteria** to search by associated People and Role, associated Organizations and Role, Officers, and Tow Company.

FIGURE 41: VEHICLE IMPOUND SEARCH - ADDITIONAL SEARCH CRITERIA

- c. **Impound Search results** updated to include Impound Search results updated to include:
 - i. Year, Make and Model added to "Vehicle Id" column.
 - ii. City and County added to "Towed From" column.
 - iii. New column for Tow Company.

Impound ID	Vehicle ID	Towing Agency	Tow Date	Towed From	Tow Company	Approval Status	Actions

5. **Manually link and unlink a Call For Service** record to an Incident Report. This enhancement will allow users to associate additional Calls for Service to an incident report when the need arises.

The screenshot shows the 'Incident Report' form in the Caliber RMS PRB system. The form is divided into several sections:

- Header Information:** Includes 'REPORT SECURITY' (Patrol Officer) and 'FOR PUBLIC RELEASE' (Yes).
- MEDIA/CRIME SUMMARY:** A text area containing the word 'test'.
- INCIDENT REPORT TYPES:** A search bar with the text 'Click To Select'.
- REPORT DATE:** 07/19/2021 1829
- OCCURRENCE DATE START:** 07/19/2021 1829
- OCCURRENCE DATE END:** (Empty)
- DISPATCH DATE:** (Empty)
- ON SCENE DATE:** (Empty)
- CLEAR DATE:** (Empty)
- Specific Fields:** Includes 'WILDLIFE CATEGORY' (Empty).
- Field Arrests:** Includes an 'Add Field Arrest' button.
- Calls For Service:** Includes an 'Add Call for Service' button, which is highlighted with a red box.

A 'Continue' button is located at the bottom center of the form.

FIGURE 61: INCIDENT REPORT - ADD CALL FOR SERVICE

- a. A new Permission Category is available to Agency Admins to assign to user roles that are allowed to delete a Calls For Service association from an Incident Report. To remove a Calls For Service association, a user must have an open supplement on the Incident Report and a role with the **“Incidents – Delete Calls for Service Associations”** permission or the user was the actor that manually added the Calls For Service association to the Incident Report.

Category
Incidents - Delete Calls for Service Associations

FIGURE 62: NEW PERMISSION CATEGORY

Jasper AdHoc Report Agency Specific Folders

Client sponsored enhancement to better organize and manage agency created AdHoc reports.

Jasper Admins Only – Create new folders in the Jasper Server AdHoc **Reports** folder (on the jasper admin page). Any Folders located under the Jasper Server AdHoc **Reports** folder will auto publish to the **Online RMS Reports page**.

1. Right click on the Jasper Server AdHoc **Reports** folder and choose **Add Folder**.
 - a. If name of the new folder does not match an existing Folder Category displayed in the **Online RMS Reports page**, then the new folder will be auto published to the **Online RMS Reports page**.
 - b. If name of the folder matches an existing Folder Category displayed in the **Online RMS Reports page**, then all reports in the folder (and sub folders) will display under the existing **Online RMS Folder Category**.

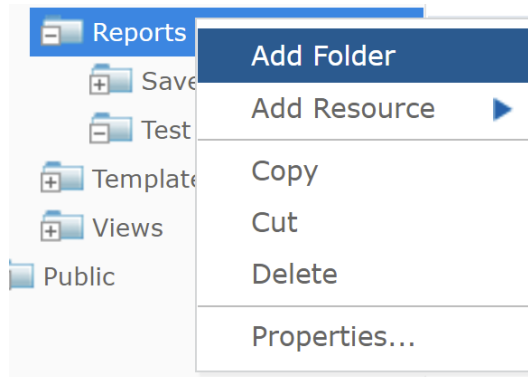

FIGURE 63: JASPER ADHOC REPORTING - ADD FOLDERS

 A screenshot of the 'Add Folder' dialog box. It has a title bar 'Add Folder'. There are two main input fields: 'Name (required):' with the text 'Test Folder Name' entered, and 'Description:' with the placeholder text 'Enter Name for Your New Folder Above'. At the bottom, there are two buttons: 'Add' and 'Cancel'. A red rectangular box highlights the 'Name (required):' field.

FIGURE 64: ADD FOLDER NAME AND DESCRIPTION

2. If choosing to change the name of a user created folder and the Name matches an existing Folder Category displayed in the **Online RMS Reports page**, then all reports in the folder (and sub folders) will display under the existing RMS Folder Category.
 - a. Right click on Folder and choose Properties to change the name of folders added for your Jasper Server AdHoc Reports folder.

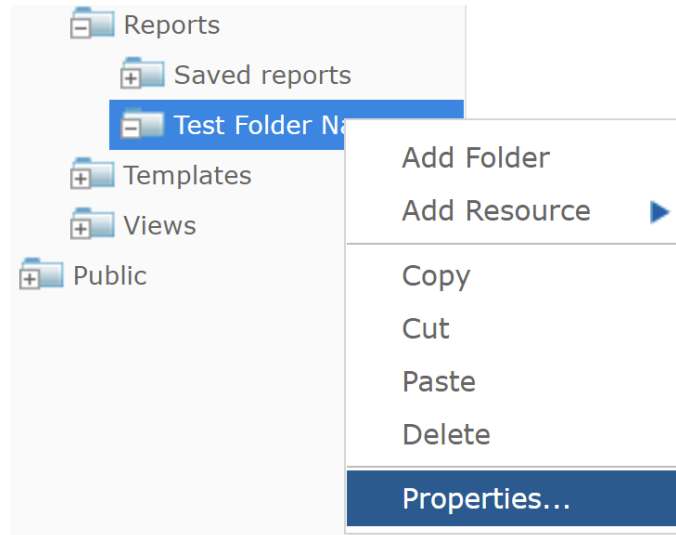

FIGURE 65: FOLDER PROPERTIES - CHANGE NAME

3. New Folders and Reports added to folders will appear for users based on permissions.

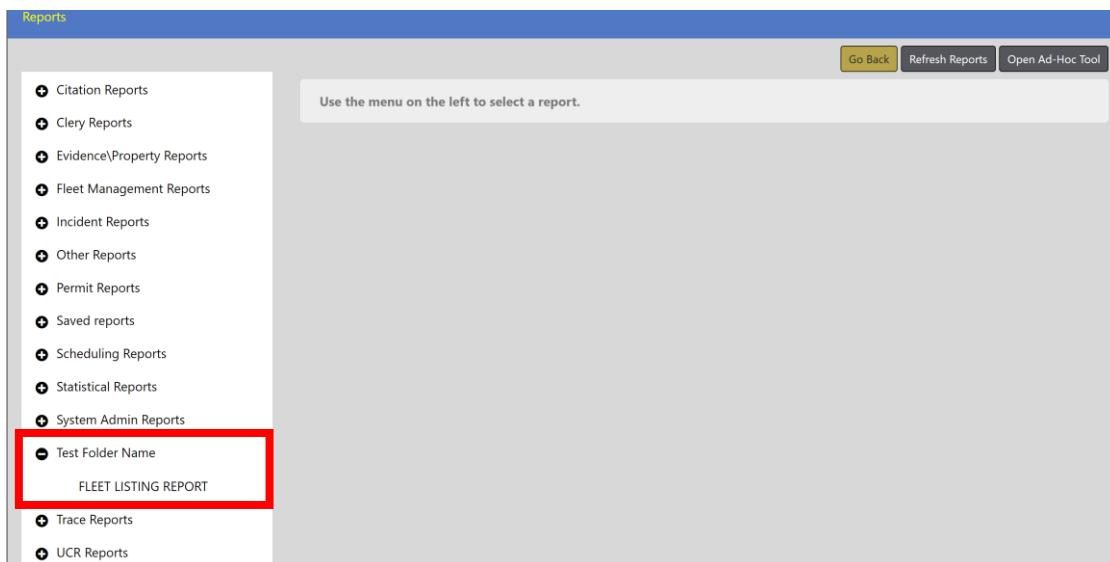

FIGURE 66: ONLINE RMS AdHoc REPORT MENU - NEW FOLDERS

4. A new folder was added to your Jasper Organization's project in the Jasper AdHoc application named "**Non-Published Reports**". This folder should be used for reports that you are in-progress and that you **do not want to publish** to the **Online RMS Report page**.

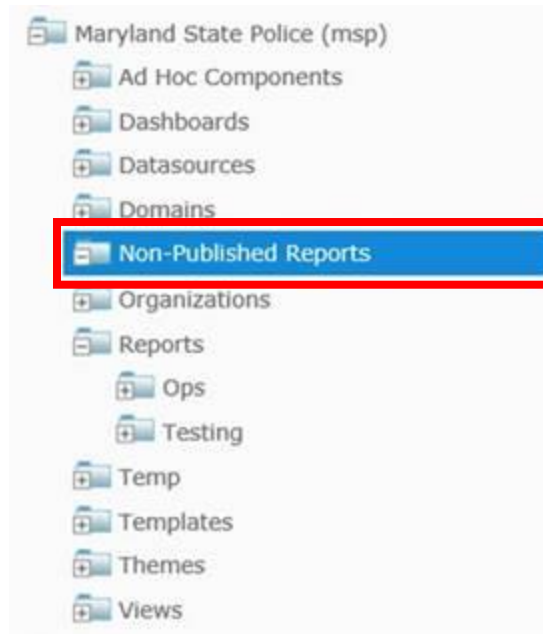

FIGURE 67: JASPER ADHOC SERVER - NEW FOLDER FOR NON-PUBLISHED REPORTS

Reminder: Any Folders located under the Reports folder will auto publish to the Online RMS Reports page.

Important Note: Existing folders created by your Agency's Jasper Admins that were placed under the Jasper Server AdHoc **Reports** folder were moved to the "**Non-Published Reports**" to keep them from auto publishing to the **Online RMS Reports page**. As a best practice it is recommended that you keep a backup copy of reports in the "**Non-Published Reports**" folder, once you have published the report to the Jasper Server AdHoc **Reports** folder.

APPENDIX: 11.7.0 PRODUCT CHANGE NOTICE (PCN) – DETAILED JIRA LISTING

TABLE A: Release Enhancements and Product Software Issue Resolutions

This table contains enhancement, software issue, and interface JIRAs contained in the 11.7.0 release.

JIRA #	Client Ticket #	Summary	Type of Issue	RMS Module	Functional Documentation
IA-55333	152237	Incident Reports - Add manual association to Calls for Service	Enhancement	Calls For Service	<p>Usability Enhancement to support the ability to manually associate a Calls For Service event to an incident report when adding or editing an incident. This enhancement will allow users to associate additional Calls for Service to an incident report when the need arises.</p> <p>A new Permission Category is available to Agency Admins to assign to User Roles that are allowed to delete a Calls For Service association from an Incident Report. To remove a Calls For Service association, a user must have an open supplement on the Incident Report and a role with the "Incidents – Delete Calls for Service Associations" permission or the user was the actor that manually added the Calls For Service association to the Incident Report.</p>

JIRA #	Client Ticket #	Summary	Type of Issue	RMS Module	Functional Documentation
IA-65971	367751	Tow/Impound - Remove All Other from Towing Agency listing	Bug/Defect	Tow Impound	Usability Update - The Towing Agency List of Values was updated to only show the Tow Companies from the user's organization/agency.

IA-70297	370097	Master Indices - Indicate required fields needed to look for duplicates when adding person	Enhancement	Master Indices	Usability Improvement - Highlighting of Duplicate Auto Search criteria to improve data entry on the Add Person page. Simply mouse over info bubble to show fields that must be entered for duplicate record checker to activate for People, Address, and Vehicle.
IA-70510	N/A	Custom Form: Provide for ability to Create Incidents from non-public custom forms	Enhancement	Custom Forms	<p>Usability Improvement - Added the ability for Form Admins to configure a custom form to allow a user to create an Incident Report when reviewing the custom form.</p> <p>For this option to appear, the Form must be configured with the "Allow Create Incident During Review Process (Only Applies to Freestanding Forms)" on the Forms Routing tab, the Reviewing user must have "User Forms - Create Incident From Form" permission, Agency must have Custom form feature enabled. and the Custom form must have Form Types = Freestanding Forms and Incidents.</p>

JIRA #	Client Ticket #	Summary	Type of Issue	RMS Module	Functional Documentation
IA-70568	N/A	NIBRS XML: Group B arrest report not generated when there are Group A and Group B offenses	Bug/Defect	State Submissions	State NIBRS Reporting - Software update for NIBRS XML submissions.
IA-70685	N/A	NIBRS: Data Element 34 (Offender Number to be Related) & Data Element 35 (Relationship of Victim to Offender) now required for Crimes against Property - 240 Offense	Bug/Defect	Incidents	State NIBRS Reporting - Software update for NIBRS reporting.
IA-70769	N/A	NIBRS: XML file errors for incidents with 35A offense and another property offense and either drug or property loss is Unknown	Bug/Defect	State Submissions	State NIBRS Reporting - Software update for NIBRS XML submissions.
IA-70919	N/A	MICR: Errors associated with Incidents that have lesser offenses and offender who is also victim	Bug/Defect	State Submissions	State NIBRS Reporting - Software update for Michigan MICR reporting.

JIRA #	Client Ticket #	Summary	Type of Issue	RMS Module	Functional Documentation
IA-70973	393889	Cases: Case Activity - Needing the ability to print Case Activity Narratives	Enhancement	Follow-up Cases	Print Improvement - Update to Investigative Cases to allow Printing a Case Narrative from the narrative page and to add a new print option to print Investigative Case Activity Narratives when printing the full Investigative Case.
IA-71227	395022	Create new Maintenance Value to require GEO for addresses created	Enhancement	Incident Mapping	Usability Improvement - Agency configuration maintenance settings to improve entry of Address information by requiring County and Lat and Long for Master Addresses. Have your agency admin contact Caliber support for assistance in configuring these new settings. By default, the values are being released in an "off" status. The maintenance values keywords are ADDRESS_REQUIRE_LAT_LONG and ADDRESS_REQUIRE_COUNTY.
IA-71526	N/A	Master Person: add flags for all images to carousel	Enhancement	Master Indices	Usability Improvement - For master people having images. The primary image will display first in the names section, followed by Mugshot Front, followed by person images, followed by other images.

JIRA #	Client Ticket #	Summary	Type of Issue	RMS Module	Functional Documentation
IA-71624	N/A	Agencies - Adding An Agency With An Already Existing Code Results in a Gray Screen	Bug/Defect	Admin	Software Update - Improves process for saving new agency entries to validate agency code does not already exist.
IA-71643	N/A	Permits: Date search criteria issues	Bug/Defect	Permits	Software Update - Improved Permits Search page query when searching with Only a "Date From" or a "Date To" entered.
IA-71731	N/A	Data Submission: Remove flat file fields or disable Generate Flat file button if flat file submission not an option	Enhancement	State Submissions	State NIBRS Reporting - Usability update to remove the option to generate flat files if the State Submission process only supports XML submissions.
IA-71789	N/A	IP Whitelisting - prevent locking yourself out	Enhancement	Security	Usability Improvement - Added a confirmation message to IP Whitelisting when the current client IP address is not contained in the IP range the user is attempting to delete.
IA-72393	N/A	Need streamline process to update Offense codes and related tables	Enhancement	Admin	Usability Improvement for Caliber Support to assist with applying State mandated updates to Offense/Arrest codes.
IA-72586	N/A	Simplify Ending Fleet Vehicle Assignments	Enhancement	Fleet Mgmt.	Usability Improvement - End Open Fleet Vehicle Assignments via a quick action button.

JIRA #	Client Ticket #	Summary	Type of Issue	RMS Module	Functional Documentation
IA-72594	N/A	Home Page Chart - Field Arrest Open/Pending Review.	Enhancement	Field Arrest	<p>Operational Efficiency - Depending on your Agency features and User permissions a new home page charts will be available for awareness and to manage Field Arrests that are Pending Review or have an Open status. The Field Arrest Chart agencies have the Field Arrest Review feature enabled. User must also have the “Charts – Open Field Arrest Charts”.</p> <p>The chart will now display as a dashboard pie chart on the home page. The Open Field Arrests chart is modeling a new interactive charts display. Click the magnifying glass icon on the chart to drill down to the Open Field Arrest Charts action page.</p>
IA-72598	401924	Maintenance Value NIBRS_INCLUDE_DATE should validate against the Occurred Date not Report Date	Bug/Defect	State Submissions	State NIBRS Reporting - The IBR queue processing has been adjusted to filter based on the NIBRS date range configured for submission.

JIRA #	Client Ticket #	Summary	Type of Issue	RMS Module	Functional Documentation
IA-72631	N/A	AdHoc Reports - Customer Defined Folders and Report Security/Permissions	Enhancement	AdHoc Reporting	Customer Sponsored - When a user creates a folder in the Reports folder (on the jasper admin page), Online RMS will now treat that folder as its own category. If the category does not exist a new folder will be created using the folder name. If the category already exists all reports in the folder (and any sub folders) will be placed into the existing category. Permissions for folders and reports will control what users in RMS see folder and reports.
IA-72638		End User Account Deactivation Email - Enhancements	Engineering Enhancement	Admin	Improving Awareness - The Online RMS End User Account Deactivation Emails have been enhanced to send multiple emails to users as a countdown to the days. The wording of the email has changed to be more informative and contain the days left to deactivation in both the subject and the body of the email. The source of the email has been modified to send source information in the body for internal tracking.

JIRA #	Client Ticket #	Summary	Type of Issue	RMS Module	Functional Documentation
IA-72696	N/A	Field Arrest Print - Add Arrest Log to printed report	Enhancement	Field Arrest	Print Improvement - New print option to print the Field Arrest Log when printing a Field Arrest.
IA-72702	N/A	Citation: Search results export - Index ID column displays code instead of Index ID	Bug/Defect	Printing	Software Update - Output enhanced for exporting Citation search results.
IA-72711	N/A	FIBRS: Web service to submit XML	Enhancement	State Submissions	State NIBRS Reporting - Software update for Florida State Specific FBIRS submission.

JIRA #	Client Ticket #	Summary	Type of Issue	RMS Module	Functional Documentation
IA-72737 IA-73145 IA-73148 IA-73450 IA-73451	384768 343783	Streamline Field Arrest Process	Enhancement	Field Arrest	<p>Agencies using the Online RMS Field Arrest module will experience several time saving enhancements.</p> <ul style="list-style-type: none"> • Reduce the time to complete a Field Arrest by importing data from an Incident Report or Calls for Service record. Officer can also choose to easily create a Field Arrest for an Offender on an Incident Report directly from an open Supplement. • Data fields for location, Criminal Complaints, “Arrestee has No Property”, Vehicle Impound, Next of Kin, and Log Type have been relocated, modified, or added to streamline navigation and improve data entry when completing a field arrest. • The Duplicate Field Arrest process saves even more time when arresting multiple people on the same event by allowing the selection of additional arrestees from incident reports associated to the Arrest.

JIRA #	Client Ticket #	Summary	Type of Issue	RMS Module	Functional Documentation
IA-72739	N/A	Incident Names - Alias Name - Update Page Name	Bug/Defect	Incidents	Usability Update - Label changed when selecting whether to display a Master Person's primary or alias name on an incident report. The label will now read "Change Name".
IA-72765	N/A	Held Property - report label changes	Enhancement	Property Mgmt.	Print Update - Wording changes to better align with Evidence / Held Property updates in 11.6.0.
IA-72776	402866	Module Admin: Field Arrest - Default Property Status field causes error if no value selected	Bug/Defect	Admin	Usability Update - Update to improve the Field Arrest Admin Module configuration for defaulting the Arrest Property status.
IA-72779	N/A	Incident Search - Combo Search Re-Write Query	Enhancement	Incidents	Performance Improvement - Update the query logic to improve the performance when searching Incidents using the Combo search criteria.
IA-72808	N/A	Incident - Use of Force Search Option	Enhancement	Incidents	Usability Improvement - Additional Search Criteria – Names – search by one or more Use of Force indicators entered for the offender. This enhancement will make it easier to search for and locate Use of Force incident reports.

JIRA #	Client Ticket #	Summary	Type of Issue	RMS Module	Functional Documentation
IA-72814	N/A	Address: Create new maint val to make County required	Enhancement	Master Indices	Usability Improvement - Agency configuration maintenance settings to improve entry of Address information by requiring County and Lat and Long for Master Addresses. Have your agency admin contact Caliber support for assistance in configuring these new settings. By default, the values are being released in an "off" status. The maintenance values keywords are ADDRESS_REQUIRE_LAT_LONG and ADDRESS_REQUIRE_COU NTY.
IA-72826	N/A	Location Barcode Report - Option to print to single labels	Enhancement	Property Mgmt.	Print Improvement - Ability to Select one or more Evidence / Held Property locations to print location barcodes. Check the box to spool individual barcode labels for each location to a label printer, otherwise the labels will print 20 per page on an 8 x 11.5 layout using Avery 5261 or 8161 label sheet templates

APPENDIX: SERVICE COMMITMENTS

Caliber Public Safety designs its processes and procedures related to its RMS system based on the service commitments that Caliber Public Safety makes to its business units, the laws and regulations that govern the system and the operational and compliance requirements that Caliber Public Safety has established.

Security, availability, confidentiality, and processing integrity commitments include, but are not limited to, the following:

Security Commitments

- Secure Socket Layer (SSL) FIPS140-2 compliant encryption is used to encrypt the transmission of data with Caliber hosted systems.
- Access to customer data is restricted to Caliber employees and/or subcontractors whose job function requires access.
- RMS Development, operations, and customer service personnel are required to maintain active CJIS certification.
- Systems are subject to vulnerability scanning.

Availability Commitments

- Caliber will maintain a highly available platform (99.9% uptime) that includes redundancy for critical system components except during planned downtime as communicated to users or unplanned downtime caused by circumstances beyond its reasonable control. In practice, Caliber routinely exceeds 99.99% uptime.
- User entity data is backed up daily and replicated to a secondary location.
- User entity data is maintained and stored within the United States.

Confidentiality Commitments

- Upon termination of services, Caliber will return confidential data to customers subject to the terms of the current RMS SaaS agreement.
- Caliber shall protect information designated as confidential from unauthorized access.
- Confidential data shall only be stored within Caliber's company information systems.

Processing Integrity Commitments

- The organization communicates requirements to user entities regarding the information, data, or other specifications necessary to complete processing in alignment with standard business operations.
- Data processing requests are only performed as authorized by the user entity.
- Data shall be stored and maintained in the system with no unauthorized alteration.
