INTRODUCTION

This document provides an overview of the software changes delivered in the 11.8.0 release of the Online RMS product and will assist with release preparation activities including:

- Internal staff training
- Customer release training
- Customer release notes
- Release announcement and promotion
- Online help and eLearning updates
- Updates to web site product information and product collateral

PRODUCT REQUIREMENTS

For best performance, we recommend a computer, laptop, or tablet purchased within the last 3 years; running an industry popular web browser that is actively supported by the browser manufacturer and connects to the internet using DSL, Cable, or 4G cellular. The browser must support TLS 1.2 or higher.

IMPORTANT NOTICE FOR ONLINE RMS AGENCIES

ONLINE RMS DESUPPORTS INTERNET EXPLORER (IE)

EFFECTIVE, 03 AUGUST 2021

Microsoft announced Internet Explorer (IE) 11 will stop working optimally with Microsoft 365 services on August 17, 2021. Additionally, Internet Explorer (IE) 11 desktop application will be retired by Microsoft and go out of support on June 15, 2022. Microsoft Internet Explorer (IE) is no longer supporting new web standards that are used by modern applications.

For this reason, Caliber no longer considers Internet Explorer (IE) a modern web browser and is no longer supporting Internet Explorer (IE) for use with Online RMS as of August 3, 2021. There are significant security and performance concerns with Internet Explorer (IE) 11 (see [Microsoft FAQ](#)). Agencies still using Internet Explorer (IE) should move to a modern web browser such as Microsoft Edge, Google Chrome, Mozilla Firefox, or Apple Safari for accessing Online RMS.

RELEASE MILESTONES

The following table contains the high-level release milestones for the Online RMS 11.8.0 release.

End Date	Milestone
03 Aug 2021	11.8.0 Sprint 1 Starts / 11.7.0 Release Available
17 Aug 2021	11.8.0 Sprint 1 Ends / Sprint 2 Starts
31 Aug 2021	11.8.0 Sprint 2 Ends / Sprint 3 Starts
14 Sep 2021	11.8.0 Sprint 3 Ends / Sprint 4 Starts / 11.7.1 Service Pack Available
28 Sep 2021	11.8.0 Sprint 4 Ends / Sprint 5 Starts
5 Oct 2021	11.7.2 Service Pack Available
12 Oct 2021	11.8.0 Sprint 5 Ends / Sprint 6 Starts
26 Oct 2021	11.8.0 Sprint 6 Ends / Sprint 7 (Stabilization Starts)
02 Nov 2021	11.7.3 Service Pack Available
16 Nov 2021	11.8.0 Sprint 7 Ends / Sprint 8 (Stabilization Continues)
17 Nov 2021	11.8.0 RTO (Release to Training / Operations)
30 Nov 2021	11.8.0 Code Lock
07 Dec 2021	11.8.0 Release Available

RELEASE ANNOUNCEMENT

Online RMS 11.8.0 is coming soon! As part of our customer commitment for major updates, the Online RMS training/demo environments have been upgraded to version 11.8.0 to offer customer evaluation. **As a reminder**, the production release of Online RMS 11.8.0 will take place on **Tuesday, December 7, 2021, at 1:00 a.m. (Eastern)**.

Watch the release overview videos to prepare and learn more about the new and exciting features and functionalities coming to Online RMS in the 11.8.0 release. To watch each video, navigate to the Help Menu > Training Videos Library or click the **WATCH** hyperlink below. Get a **firsthand look** at the 11.8.0 release by logging into the one of the training or demonstration environments.

End-User Focused Videos:

- General Improvements (Accurint Quick Queries & Info and Ad Hoc Notifications) - [WATCH](#)
- General Improvements (Master Address Cautions, Caution Related Events, Incident Search) - [WATCH](#)
- Copy Incident, Incident Security, and Other Incident Efficiencies - [WATCH](#)
- Field Arrest Required Location Awareness - [WATCH](#)
- Warrant Search and Other Warrant Enhancement - [WATCH](#)
- Training and Personnel - [WATCH](#)
- Tow Company Email and Vehicle Display - [WATCH](#)

Online RMS 11.8.0 includes enhancements and improvements that touch approximately 30 RMS components, including **Incident Report Writing, Incident Security, Cautions/Alerts for Master Addresses, Caution Code Related Events, Tow Impound, Master Indices, Calls For Service, Warrants, External Queries, NIBRS State Submission Compliancy, Application Interfaces (APIs), and Security upgrades**; among many other product enhancements, integration improvements, and issue resolutions. Customer obligations, operational efficiency improvements, data entry simplification, and user friendliness were all major considerations in the development of this edition.

Below are a few software enhancements available in Online RMS 11.8.0. More information on features and functionalities available in the 11.8.0 release can be found under the Help

menu by reviewing the Online Help TOC sections and by reading the Product Release Bulletin. Click Help > Online Help or simply click [HERE](#) to read more.

RMS 11.8.0 Release Highlights:

- **More time for Patrol and Other Activities**
 - Make a copy of it... With the new Copy Incident permission, you may quickly create a new incident report from an existing one. When more than one incident report is required due to various actors or crimes committed, the ability to duplicate details from the initial report will save officers time in filing reports and returning to other tasks. Copy the Crime Summary, Incident Report Types, Dates/Times, Names, Business Names, Location, Officers, Employees, Property (Not Associated with an Offense), Vehicles (Not Associated with an Offense), Associated Events (CFS, Field Arrests), Narratives, Attachments, and Custom Forms are all available.
- **Always Advancing**
 - **Improved Accountability**
 - ✓ Improved data entry for Incident report custom fields using Rule & Validations.
 - ✓ Better supervisory management for unapproved incidents via Home Page Chart enhancements.
 - ✓ Configure CAD spills to auto create Master Vehicle records regardless of whether an Incident report is created.
 - ✓ Associate master location when entering or editing an RMS Calls for Service.
 - **Increased Awareness**
 - ✓ Ability to connect one or more incident reports for a better understanding or related events.
 - ✓ Add Cautions/Alerts to Master Locations.
 - ✓ Connect events to Cautions codes for quick access to pertinent information.
 - ✓ Add Tow Company email address.
 - ✓ Master Vehicle Tow Impound display grid.
 - ✓ Search and display improvements for Personnel/Training

- **Usability and Efficiency Gains**
 - ✓ Add Attachments to an incident report without the need to file a supplement report.
 - ✓ Edit Field Arrest directly from an incident report.
 - ✓ Copy person addresses and phones to show as most recent.
 - ✓ Street # range, Incident Role, and Use of Force fields have been added to the Incident Combo search.
 - ✓ Accurant Quick Queries. Run queries for connected Addresses, People, and Vehicles retrieved in Accurant queries with a single click.
 - ✓ Search Warrants based on created date range.
 - ✓ Warrant generated number displays in Warrant search results.
 - ✓ User Groups available when sending ad hoc notifications.
 - ✓ Remove informational notifications in a more straightforward manner.
- **Enhanced Security**
 - ✓ Hide an incident report from appearing in search results and displays.
 - ✓ Set Incident Report security to default for future supplements.
- **Federal and State Compliance**
- **Evergreen Worry-free Technology Updates**
 - Technology and security updates required to make sure Online RMS remains secure and operating efficiently.
- **Miscellaneous Software Fixes and Resolutions**

We hope you share our enthusiasm for the production release of Online RMS 11.8.0. Please contact us by email at rms@caliberpublicsafety.com if you have any questions about the release.

Our Very Best,

Caliber Public Safety

NEW FEATURES & ENHANCEMENTS

Many new improvements have been included in Online RMS 11.8.0, based on customer feedback, contractual commitments, and revisions to Public Safety State and Federal standards. The overall goal of this version was to improve operational efficiencies, data management, and ease of use. For additional information on the enhancements and functionality described in this release bulletin, please consult the **Online RMS User** and **Admin Help documentation**.

ONLINE RMS 11.8.0 HIGHLIGHTS

Improvements in Incident Reporting

Make a copy of it. With the new Copy Incident permission, you may quickly create a new incident report from an existing one. When more than one incident report is required due to various actors or crimes committed, the ability to duplicate details from the initial report will save officers time in filing reports and returning to other tasks. Copy the Crime Summary, Incident Report Types, Dates/Times, Names, Business Names, Location, Officers, Employees, Property (Not Associated with an Offense), Vehicles (Not Associated with an Offense), Associated Events (CFS, Field Arrests), Narratives, Attachments, and Custom Forms are all available.

Authorized users can copy an existing incident and save it as a new Incident. To use this feature:

- Your agency must be using the Incident number generation feature.
- The user must be in the same organization as the incident report agency.
- The user's role must be given the copy incident permissions. **(Note: No roles have been assigned this permission for deployment. Agency Admins can assign the permission to roles as desired. If you need assistance with assigning this new permission, please contact Caliber Support).**

Category

Incidents - Give user the ability to copy an incident(supp 0 only) from the Incident Mega Menu.

FIGURE 1: COPY INCIDENT REPORT PERMISSION

Copy an incident from edit or view mode from the **Actions** menu on the Incident Summary tab. The copy process only copies information from supplement 0. The process does not copy offense-related information.

FIGURE 5: COPY INCIDENT - VEHICLES, OFFICERS, PROPERTY, NARRATIVES, AND ATTACHMENT GRIDS

Associated Incidents. The option to link one incident to another has been added. A new Associated Incidents grid appears on the Incident Summary tab. Select Add Incident Association to search and select related incident reports. When the new incident copy feature is used, the incidents are automatically linked together and will display in this new grid.

The ability to copy information while associating an incident report will be supported in version 11.9 (April 2022).

Associated Incidents

FIGURE 6: INCIDENT REPORT SUMMARY TAB - ASSOCIATED INCIDENTS DISPLAY

Hide a Report. Introducing the ability to hide an incident report from appearing in search results and displays. A new permission category was added to allow authorized roles to mark an incident report as hidden. This new option works in parallel with existing security measures. **(Note: No roles have been assigned this permission for deployment. Agency Admins can assign the permission to roles as desired. If you need assistance with assigning this new permission, please contact Caliber Support).**

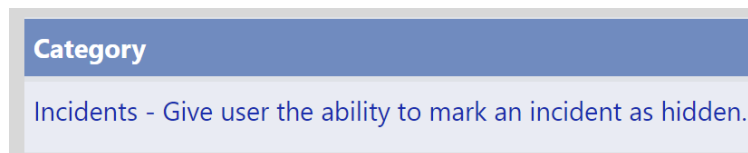

FIGURE 7: PERMISSION CATEGORY TO MARK AN INCIDENT AS HIDDEN

Setting an incident report as hidden conceals the report from search results and displaying for users that don't meet the security settings for the incident report. Selecting the **Hide Incident** checkbox automatically updates the incident report to Agency Only and Unchecks the Public Access flag. When an incident is marked as hidden, users outside the agency will not be able to see or search for the incident unless they are part of a security group or are assigned to an investigative case associated to the incident. For users inside the incident agency then the standard security rules apply.

The image shows a web interface for incident security settings. At the top, there is a 'SUPP #' field and an 'AGENCY ONLY' checkbox which is checked. Below this is a slider control with the text 'Slide the bar up or down to increase or decrease access to the Incident'. The slider is currently positioned towards the 'Restrict' end. To the right of the slider is a list of roles: Executive Command, Command Staff, Criminal Investigation Division, Records/Clerical Division, Patrol Supervisor, and Patrol Officer. To the right of the list, it says '264 users have access'. At the bottom, there is a 'DEFAULT SECURITY TEMPLATE' checkbox which is unchecked. Below that, the 'HIDE INCIDENT' checkbox is checked and is highlighted with a red rectangle.

FIGURE 8: INCIDENT SECURITY - HIDE INCIDENT

Supplement Security made easy. Use the **Default Security Template** option to set the incident report security as the default security for future supplements. The default security level will be applied to all future supplements added to the incident.

Calls For Service

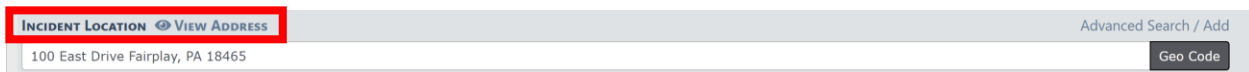

For agencies using the **Manage Calls** module to enter Calls for Service, an option appears to Search and/or Add a Master Address Location. This workflow utilizes the master address Search and Add process.

The screenshot shows the 'Manage Calls' interface for a specific call (2021-00001504). The 'INCIDENT LOCATION' field is highlighted with a red box, and the 'Advanced Search / Add' link is visible next to it. The map on the right shows the location of the incident.

FIGURE 10: MANAGE CFS - INCIDENT LOCATION - SEARCH / ADD FEATURE

The selected address displays a **View Address** link to view the Master Location details. The **Search / Add** link allows the user to select a new address if needed. If you entered the CFS Location text before associating an Address, it will remain unmodified to preserve the details of how the data was entered. Update the text as needed.

The screenshot shows the 'Manage Calls' interface for a specific call (2021-00001504). The 'INCIDENT LOCATION' field is highlighted with a red box, and the 'View Address' link is visible next to it. The map on the right shows the location of the incident.

FIGURE 11: MANAGE CFS - VIEW MASTER INDICES LOCATION

Cautions and Related Events

Getting more out of Caution Codes. Cautions have been a fan favorite for flagging alerts on Master People. Cautions have been extended to Master Addresses / Locations. Additionally, users can connect event records to Caution codes for quick access to pertinent information.

Agency Administrators can create Caution Codes for Addresses from the Caution Codes Administration table by specifying a **Caution Type** of **Address**.

FIGURE 12: CAUTION CODE ADMINISTRATION - ADD NEW CAUTION - CAUTION TYPE - ADDRESS

A new grid for Caution Codes displays on the Master Address / Location Details page.

The screenshot shows the 'Master Address / Location Details' page. It includes tabs for 'Address Details' and 'Address Summary'. The 'Address Details' tab is active, showing a form with fields for INDEX ID, STREET #, DIRECTION, STREET NAME, TYPE, DIRECTION SUFFIX, SUB TYPE, SUB #, CITY, STATE, ZIP, COUNTY, and COUNTRY. Below this is the 'Intersection' section with fields for STREET #, DIRECTION, STREET NAME, and TYPE. The 'Geographical Information' section includes REPORTING AREA, LATITUDE (Y), and LONGITUDE (X). A map is displayed on the right side. At the bottom, there is a 'Caution Codes' section with a red border, containing a 'Common Place Names' field and an 'Add' button. There is also an 'Attachments' section with an 'Add Attachment' button.

FIGURE 13: MASTER ADDRESS - NEW OPTION TO ENTER ADDRESS CAUTIONS CODES

A Master Address / Location can have one or more Cautions added to it. Enter the Start Date, an Expire Date, a Next Review Date, and any pertinent remarks.

The screenshot shows the 'Add Caution' form. It includes fields for CAUTION CODE (a dropdown menu), DATE OF INFO, START DATE, EXPIRE DATE, NEXT REVIEW DATE, and COMMENTS. There are 'Go Back' and 'Update' buttons at the bottom.

FIGURE 14: MASTER ADDRESS - ADD CAUTIONS

Address Cautions display an Alert triangle on the Address Search page and were displayed on relevant events. Click the Alert to view Caution details.

The screenshot shows the 'Address Alerts' page. It includes a 'Location Search' sidebar on the left with a search bar and filters. The main area displays a list of addresses with details such as Address, INDEX ID, COMMON PLACE NAMES, LATITUDE, LONGITUDE, and CAUTION CODES. A map is shown on the right. Below the list, there is a table for 'Active Caution Codes' with columns for Caution Code, Comments, Start Date, and Expire Date. The table shows a caution code 'Hazardous Materials Storage' with a start date of 11/17/2021.

FIGURE 15: ADDRESS ALERT WARNING

Relate Incidents, Arrests, Court Papers, Court Cases, and Permits to Cautions for Person and Address to provide awareness and access to pertinent information.

General Application Enhancements

In response to listening to our clients we are pleased to feature these general application updates focused on improving data entry, data quality, and overall application usability.

Improved Accountability

1. Unapproved Incidents Chart - The Chart was updated to display **Days in Current Status**. The counter starts fresh as the incident report changes status.

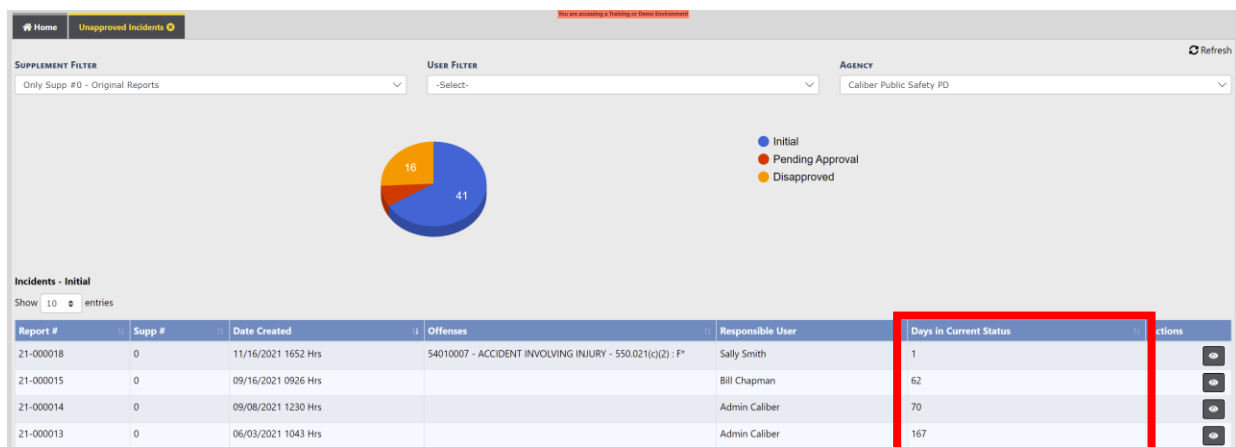

FIGURE 17: UNAPPROVED INCIDENT CHART - DAYS IN CURRENT STATUS

2. Improved Personnel & Training Records Accountability – A few usability items to enhancements the use of the Personnel and Training Modules.

- The Course Search results page now displays a column to indicate the number of Pass / Fails for the course. The display will appear **Red** with an **!**, if the course has attendees where a Pass / Fail status has not been entered.

FIGURE 22: TOW COMPANY EMAIL DISPLAYED ON TOW COMPANIES SEARCH PAGE

Enter Email Address, if known, when selecting to Specify Company and manually entering Tow information.

The screenshot shows the 'Specify Company' form. The 'Email Address' field is highlighted with a red box. The form includes fields for Company Name, Address, City, State, Zip, Phone #, Driver, Reference Number, Impound Storage, Authorizing Officer, Tow Reasons, and Comments.

FIGURE 23: SPECIFY TOW COMPANY - NEW EMAIL ADDRESS FIELD

2. **Vehicle Impounds** - New Impound Display grid added to the Master Vehicle Details page.

The screenshot shows the 'Vehicle Details' page. The 'Impounds' section is highlighted with a red box. It contains a table with the following data:

Impound ID	Agency	Date/Time of Tow	Towed From	Actions
50	Caliber Public Safety PD	11/14/2021 2028		[Icon]

FIGURE 24: VEHICLE DETAILS - IMPOUNDS DISPLAY GRID

Usability and Efficiency Gains

1. **Incident Attachments** - A new permission category was added to allow Attachments to be added to an incident report without the need to file a supplement report. **(Note: No roles have been assigned this permission for deployment. Agency Admins can assign the permission to roles as desired. If you need assistance with assigning this new permission, please contact Caliber Support).**

The screenshot shows a 'Category' dropdown menu with the following text:

Incident - Always Add Attachments to Incident Regardless of Status

FIGURE 25: NEW INCIDENT ATTACHMENTS PERMISSION

A new option for **Add Attachments** will appear in the Incidents **Actions** drop down menu for user that have the new Add Attachments permission.

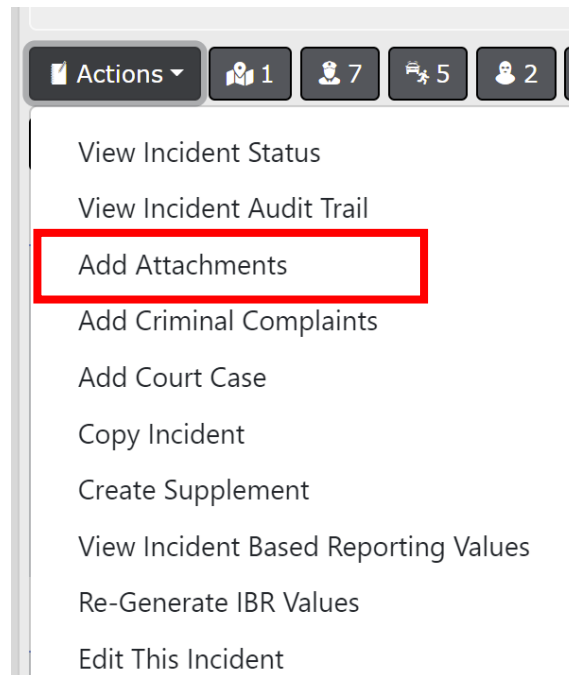

FIGURE 26: INCIDENT ACTION MENU

Selecting the Add Attachments action will allow the adding of one or more attachments to the selected incident report. Attachments added via this option will be associated to Supplement #0.

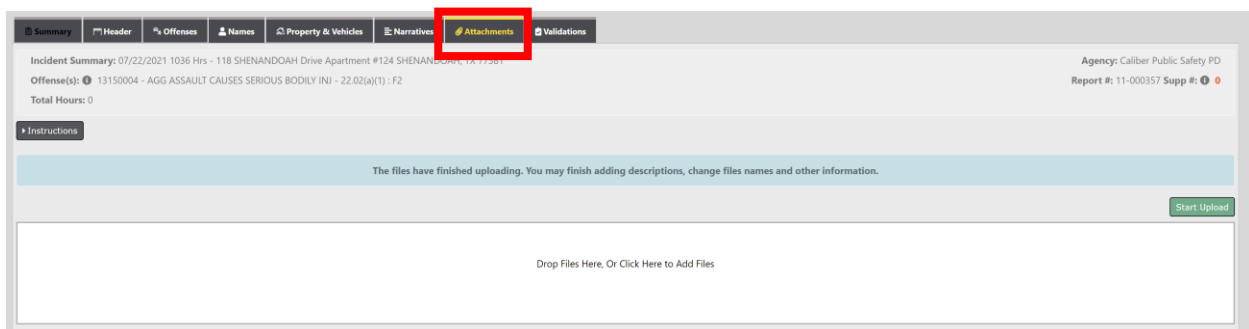

FIGURE 27: INCIDENT - ADD ATTACHMENTS TAB

2. **Send Notification** – Ability to easily select multiple users for AdHoc Notifications using User Group filters.

The screenshot shows the 'Add Notification' form. The 'Type' is set to 'INFORMATIONAL' and 'Priority' is 'High'. A red box highlights the 'Add Users From Group' dropdown menu in the 'Users to Notify' section, which lists '1st platoon' and 'Group A'.

FIGURE 28: ADD NOTIFICATION - SEND USING USER GROUP FILTERS

3. **Info Notifications** - Delete informational notifications in a more straightforward manner using a new **Delete** icon.

The screenshot shows the 'Notifications' table. A red box highlights the 'Delete' icon (a trash can) in the 'Actions' column for the first two rows of notifications.

Search Improvements

1. **Incident Combo Search** - Street # range, Incident Role, and Use of Force are now available search fields to find incident reports.

The screenshot shows the 'Incident Search' form. Red boxes highlight the following areas:

- Additional Search Criteria:** A dropdown menu set to 'Combo'.
- Incident Role and Use of Force:** Two dropdown menus, 'Incident Role' and 'Use of Force', both set to '-Select-'.
- Street #:** A range selection field with 'To' and 'From' inputs, both set to '-Select-'.

FIGURE 34: INCIDENT SEARCH - ADDITIONAL SEARCH CRITERIA

2. **Warrant Search** – Search by Warrant Creator Date range to view warrants entered within a specified date range.

The screenshot shows the 'Warrant Search' form. A red box highlights the 'Creator Date From' and 'Creator Date To' fields, both set to '-Select-'.

FIGURE 35: WARRANT SEARCH PAGE - CREATOR DATE RANGE

3. **Warrant Search Results** - Warrant generated number added to Warrant Search results display page.

APPENDIX: 11.8.0 PRODUCT CHANGE NOTICE (PCN) – DETAILED JIRA LISTING

TABLE A: Release Enhancements and Product Software Issue Resolutions

This table contains enhancement, software issue, and interface JIRAs contained in the 11.8.0 release.

JIRA #	Client Ticket #	Summary	Type of Issue	RMS Module	Functional Documentation
IA-65394 IA-73405 IA-74099 IA-74179 IA-74183 IA-74186 IA-74187 IA-74200 IA-74201	363361	Rules & Validations - Enhancements	Enhancement	Incidents	Incident Report Usability - The Incident Rules & Validation engine has been enhanced to provide greater flexibility for configuring rules that involve incident types, incident header fields, and Offender and Victim pages. Without the need for new development, Caliber Admins may now configure extra business rules to address State Specific NIBRS validations and/or Agency preferences. Rules can be developed, for example, to control the display of custom fields based on Incident Types.

JIRA #	Client Ticket #	Summary	Type of Issue	RMS Module	Functional Documentation
IA-65943	367655	Personnel Management - Add column "File Name" to Other Info section	Enhancement	Personnel	Improved Personnel & Training Records - The grid for Employee / Personnel Attachments has been enhanced to include File Name. When you need to view an attachment, you'll be able to quickly identify it thanks to this enhancement.
IA-65976	N/A	RMS Import Tracking	Engineering Enhancement	Interface	Interface Update – Internal enhancement to track the creation of records due to importing data from an external interface.
IA-66747	370956	Training - Add additional column to Manage Course display	Enhancement	Personnel	Improved Personnel & Training Records Accountability – The Course Search results page now displays a column to indicate the number of Pass / Fails for the course. The display will appear Red with an ! , if the course has attendees where a Pass / Fail status has not been entered.

JIRA #	Client Ticket #	Summary	Type of Issue	RMS Module	Functional Documentation
IA-67324	N/A	Incident: Direct user to Edit Narrative page if a Narrative is required	Enhancement	Incidents	Incident Report Usability - Add a Narrative to an Incident Supplement with fewer clicks. When a user clicks on the Narrative Tab while adding a supplement, they will be directed to the Add Narrative page if no narrative has been entered.
IA-67715	N/A	Person Mugshot Search display count discrepancies	Bug/Defect	Master Indices	Software Update – The Mugshot Line-up module has been improved to reflect the correct number of images displayed.
IA-67914	375502 396177	Attachments - Add permission to allow adding attachments to IR without a supplement	Enhancement	Incidents	Incident Report Usability - The ability to add an attachment to an incident report without completing a supplemental report has been added, per customer request. This functionality requires the addition of a new permission. For more information, see the PRB highlights section.
IA-68208	N/A	Admin: No error msg when deleting local offense code that has been added to an incident	Bug/Defect	Admin	Software Update – new error message added to provide awareness that an offense can't be deleted due to association to an incident report.

JIRA #	Client Ticket #	Summary	Type of Issue	RMS Module	Functional Documentation
IA-68249	377930	Incident: Security - Add ability to set security for future Supps	Enhancement	Incidents	Supplement Security made easy - Set the incident report security as the default security for future supplements using the Default Security Template option. All future supplements added to the incident will use the default security level.
IA-68451	378807	Tow/Impound - Add email address field to Tow Company record	Enhancement	Tow Impound	Tow Company Enhancement - The ability to capture an email address for Tow Company's is now available. Additionally, users can enter Email address, if known, when selecting to Specify Tow Company and manually entering Tow information.
IA-68516	N/A	NIBRS: More than 3 Drug Types not reported as X in the submission file	Bug/Defect	State Submissions	State NIBRS Reporting - Software update for NIBRS submission.
IA-68520	379296 RMS-I-82	Notifications - Include Filter User Groups to Select User list of values when Adding Notification	Enhancement	Notifications	Software Update from Caliber Concepts - Ability to easily select multiple users for AdHoc Notifications using User Group filters.

JIRA #	Client Ticket #	Summary	Type of Issue	RMS Module	Functional Documentation
IA-68662	380164	Warrants - Add ability to associate an existing Field Arrest	Enhancement	Warrants	Usability Enhancement - Ability to associate a Field Arrest when editing or entering a Warrant.
IA-68735	380399	ODL - Save & Continue does not save Reporting Areas	Bug/Defect	ODL	Software Update - Improve usability of Officer Daily Log module.
IA-69695	N/A	Custom Fields Validation	Bug/Defect	Custom Forms	Software Update - Enforce field validations to make sure users don't enter text longer than what is supported by the custom field type.
IA-70538	N/A	Community Reporting: Allow for multiple images upload	Enhancement	Community Reporting	Enhancing Community Reporting – 2 areas of improvement. The implementation to sites using Community Reporting will occur in 11.8.1. 1) The ability to upload multiple image files (jpeg and other image types). 2) Return generated reference number to the submitter in confirmation message.
IA-70568	N/A	NIBRS XML: Group B arrest report not generated when there are Group A and Group B offenses	Bug/Defect	State Submissions	State NIBRS Reporting - Software update for NIBRS submission.

JIRA #	Client Ticket #	Summary	Type of Issue	RMS Module	Functional Documentation
IA-70608	368766	Calls for Service - CAD interface remove single line caller name for RMS import	Enhancement	Interface	Interface Update - Improved interface logic to prevent the CFS Person's tab from displaying single-line caller names. This data has already been received from CAD, and users were confused as to why names appeared twice.
IA-70769	N/A	NIBRS: XML file errors for incidents with 35A offense and another property offense and either drug or property loss is Unknown	Bug/Defect	State Submissions	State NIBRS Reporting - Software update for NIBRS submission.
IA-70883	N/A	Master Index Person: Implement similar feature as Physical Description Populate From Most Recent for Person Addresses and Phone Numbers	Enhancement	Master Indices	Usability Enhancement - Easily copy person phones to show as most recent. Select Add Phone and Populate from Most Recent.
IA-71304	N/A	IA_CD2_CALL_TYP ES Mappings Not working for CD2 Interface Configurations	Bug/Defect	Interface	Interface Update - Improved logic handling for RMS schemas receiving spills from multiple CAD systems.

IA-71352	N/A	RMS updates to CAD Spill Interface	Enhancement	Interface	<p>Interface Update - For vehicles that have the Insurance Company incorporated with the vehicle, the RMS CAD Interface has been upgraded to load the Insurance Company information. If the Vehicle is included on the Incident Report, the Vehicle Insurance Company is stored with the Dispatch Event Vehicle and will also be stored with the Master Vehicle Insurance Record.</p> <p>The License Expiration Date for a vehicle sent by the CAD will processed and added to the vehicle information in RMS if an incident report is generated.</p> <p>The RMS Master Person ID is now sent from CAD to RMS via the CAD RMS Interface. This occurs when the CAD operator looked for a person in the RMS and added them to the CAD call. Instead of using the RMS CAD Name Matching method, when the RMS Master Person ID is received, the person will be directly matched using the Master Person ID.</p>
----------	-----	------------------------------------	-------------	-----------	---

JIRA #	Client Ticket #	Summary	Type of Issue	RMS Module	Functional Documentation
IA-71395 IA-74428	N/A	CFS: Import Incident Location when creating Incident from Dispatch	Enhancement	Calls For Service	Incident Report Usability - An option to Search and/or Add a Master Address Location appears for agencies using the Manage Calls module to enter Calls for Service. This workflow utilizes the master address Search and Add process. When creating an incident report from a Call for Service, the locations added to the Call will flow to the Incident Report.
IA-71458	394894	Interfaces - Add ability to set word case when imported into RMS	Bug/Defect	Admin	Interface Update - New XML_DOCUMENT OPTIONS have been added to the CAD to RMS Interface, allowing the ability to convert imported text a specified Case. CASE CAD PERSON for CAD Person Names and CASE ADDRESS for address fields are supported options. For clients using the CAD to RMS Interface, the setting DEFAULT is to maintain the Case from the spill. For further details, consult the Admin Guide or contact Caliber Support.

JIRA #	Client Ticket #	Summary	Type of Issue	RMS Module	Functional Documentation
IA-71629	N/A	User management: Do not allow apostrophe, commas, other non-supported characters in USER ID when creating new user via UI or data load	Bug/Defect	Admin	Software Update - The application will restrict the use of special characters in usernames to the following characters: " . @ - _
IA-71809	N/A	FL IBR: X Drug Type Code no longer valid	Enhancement	State Submissions	State NIBRS Reporting - Software update for NIBRS submission.
IA-72092 IA-74017 IA-74189	N/A	Incident Security Enhancements - Ability to Hide Incident Report	Enhancement	Incidents	Incident Security Enhancement - Introducing the ability to hide an incident report from appearing in search results and displays. A new permission category was added to allow authorized roles to mark an incident report as hidden. This new option works in parallel with existing security measures. (Note: No roles have been assigned this permission for deployment. Agency Admins can assign the permission to roles as desired. If you need assistance with assigning this new permission, please contact Caliber Support).

JIRA #	Client Ticket #	Summary	Type of Issue	RMS Module	Functional Documentation
IA-72231	N/A	Create/Match Vehicle from CFS regardless of Incident Report	Enhancement	Calls For Service	Interface Update - The Online RMS CAD Interface has been enhanced to provide the ability to load and match CAD Vehicles from the CAD XML even when there is not an Incident Report Created. A new XML_DOCUMENT_OPTIONS for the CAD interface has been added MATCH_VEHICLE_INCIDENT_ONLY. Please contact support if you would like this option enabled for your agency.
IA-72524	373684	Information Notification - Request option to Action & Delete Option	Enhancement	Notifications	Notification Usability Enhancement - Delete informational notifications in a more straightforward manner using a new Delete icon.
IA-72527	N/A	Master Vehicle - Tow Impound Grid	Enhancement	Tow Impound	Usability Update - New Impound Display grid added to the Master Vehicle Details page.
IA-72686	401808	Unfounded Group A Offenses should not be available for an Arrest Offense	Bug/Defect	State Submissions	State NIBRS Reporting - Software update for NIBRS submission.

JIRA #	Client Ticket #	Summary	Type of Issue	RMS Module	Functional Documentation
IA-72828	393593	Incident Combo Search - Add	Enhancement	Incidents	Usability Update - Street # range, Incident Role, and Use of Force are now available search fields to find incident reports via the Combo Search option.
IA-72955	403823	Incident - Cannot delete a report with a person associated to a narrative	Bug/Defect	Incidents	Software Update - Improvements to delete routine.
IA-73025	N/A	SCIBRS: New Offense Codes	Configuration	State Submissions	State NIBRS Reporting - State specific update to add South Carolina specific NIBRS Offense codes.
IA-73026	N/A	SCIBRS: New Location/Place Codes and Mappings	Configuration	State Submissions	State NIBRS Reporting - State specific update to add South Carolina specific NIBRS Place codes.
IA-73027	N/A	SCIBRS: Conditional rule for Location Types 18(Parking Lot) and 40 (ATM)	Configuration	State Submissions	State NIBRS Reporting - State specific update to add South Carolina specific NIBRS Place codes.
IA-73029	N/A	SCIBRS: New Criminal Activity Codes and Mappings	Configuration	State Submissions	State NIBRS Reporting - State specific update to add South Carolina specific NIBRS Criminal Activity codes.
IA-73031	N/A	SCIBRS: New Weapon Codes and Mappings	Configuration	State Submissions	State NIBRS Reporting - State specific update to add South Carolina specific NIBRS Weapon codes.

JIRA #	Client Ticket #	Summary	Type of Issue	RMS Module	Functional Documentation
IA-73032	N/A	SCIBRS: New Drug Code and Mappings	Configuration	State Submissions	State NIBRS Reporting - State specific update to add South Carolina specific NIBRS Drug codes.
IA-73035	N/A	SCIBRS: Add/Edit/Remove Incident Victim Validations	Enhancement	State Submissions	State NIBRS Reporting - Software update for NIBRS submission.
IA-73036	N/A	SCIBRS: New Circumstance Code Mappings	Configuration	State Submissions	State NIBRS Reporting - State specific update to add South Carolina specific NIBRS Circumstance codes.
IA-73037	N/A	SCIBRS: New Relationship Codes and Mappings	Configuration	State Submissions	State NIBRS Reporting - State specific update to add South Carolina specific NIBRS Relationship codes.
IA-73042	N/A	SCIBRS: Do not report Arrestee Segment for certain Offense Codes	Enhancement	State Submissions	State NIBRS Reporting - Software update for NIBRS submission.
IA-73044	N/A	SCIBRS: SCIBRS specific data elements - DES2 Status Indicator and DES3 Status Change Date	Enhancement	State Submissions	State NIBRS Reporting - Software update for NIBRS submission.
IA-73046	N/A	SCIBRS: Additional rule for LEOKA reporting	Enhancement	State Submissions	State NIBRS Reporting - Software update for NIBRS submission.

JIRA #	Client Ticket #	Summary	Type of Issue	RMS Module	Functional Documentation
IA-73090	N/A	Evidence - issues on discrepancy report screens	Bug/Defect	Property Mgmt.	Software Update - UI blocking element added to prevent creating duplicate reports if clicking on save or finalize buttons multiple times.
IA-73093	N/A	Fleet - search results and vehicle tab display employee twice if login id tied to multiple employee records	Bug/Defect	Fleet Mgmt.	Software Update - The Fleet Vehicle display has been enhanced to better handle instances where a user id is associated with several employee records.
IA-73156	404031	XML NIBRS file error returned from State missing victim to offense association	Bug/Defect	State Submissions	State NIBRS Reporting - Software update for NIBRS submission.
IA-73161	404031	Arrest on 000 offense do not put into Open Data	Bug/Defect	State Submissions	State NIBRS Reporting - Software update for NIBRS submission.
IA-73214	N/A	NIBRS: Group B - UCRChargeCode associated to arrestee not reported correctly	Bug/Defect	State Submissions	State NIBRS Reporting - Software update for NIBRS submission.

JIRA #	Client Ticket #	Summary	Type of Issue	RMS Module	Functional Documentation
IA-73286 IA-74108 IA-74109 IA-74184	N/A	Add Cautions Codes for Addresses	Enhancement	Master Indices	<p>Getting more out of Caution Codes. Cautions have been a fan favorite for flagging alerts on Master People. Cautions have been extended to Master Addresses / Locations. Additionally, users can connect event records to Caution codes for quick access to pertinent information.</p> <p>Agency Administrators can create Caution Codes for Addresses from the Caution Codes Administration table by specifying a Caution Type of Address. See more details in PRB highlights section.</p>
IA-73305	N/A	MICR: Victim Type Clean-up for Offense File classes 42000, 41001 and 41002	Configuration	State Submissions	State NIBRS Reporting - Software configuration update for Michigan MICR submission.
IA-73306	N/A	Warrant - incorrectly sends Warrant Served notification and ends officer assignments when added to arrest	Bug/Defect	Field Arrest	Software Update - improved processing for warrants added to field arrests.

JIRA #	Client Ticket #	Summary	Type of Issue	RMS Module	Functional Documentation
IA-73318	N/A	Field Arrest - Removing warrant from field arrest not cleaning up served information	Bug/Defect	Field Arrest	Software Update - improved processing for handling warrants removed from field arrests.
IA-73442 IA-74136	N/A	Caution Codes - Related Events	Enhancement	Master Indices	Enhance Awareness - Relate Incidents, Arrests, Court Papers, Court Cases, and Permits to Cautions for Person and Address to provide awareness and access to pertinent information.
IA-73447 IA-74258	N/A	Accurint Auto Query Person from Vehicle Query	Enhancement	Master Indices	LexisNexis Accurint Queries – For agencies subscribing to the LexisNexis embedded public data query offering, a new ability was added to quickly run additional queries for People, Addresses, and Vehicles returned from previously run query. Click on the Search button next to the record for one click access to run additional public data queries.

JIRA #	Client Ticket #	Summary	Type of Issue	RMS Module	Functional Documentation
IA-73448 IA-74258	N/A	Accurint Auto Query Person from Address Query	Enhancement	Master Indices	LexisNexis Accurint Queries – For agencies subscribing to the LexisNexis embedded public data query offering, a new ability was added to quickly run additional queries for People, Addresses, and Vehicles returned from previously run query. Click on the Search button next to the record for one click access to run additional public data queries.
IA-73595	N/A	Streamline Field Arrest - allow edit of arrest from Incident Names tab	Enhancement	Field Arrest	Incident Report Usability - Easily access and edit Field Arrests associated to an Incident report where the arrest is not complete.
IA-73636	N/A	Tow/Impound Search - Vehicle criteria retained from previous search even though field is cleared and JavaScript error on Vehicle ID info bubble in search results	Bug/Defect	Tow Impound	Software Update - Improvement for searching Tow / Impounds.

JIRA #	Client Ticket #	Summary	Type of Issue	RMS Module	Functional Documentation
IA-73648	N/A	Incident Change Name dialog - add text to help user	Bug/Defect	Incidents	Usability Update - Additional language has been added to the Incident Report Change Name window to assist users in choosing a new name. "Change Name - Select Primary or Alias name to display on Incident Report" is now the title of the dialog.
IA-73678	407291	Community Reporting - Number Generation not working on forms	Bug/Defect	Custom Forms	Usability Update - Enhanced Custom Form Number generation to work with custom forms used for Community Reporting.
IA-73701	N/A	Tow/Impound - Tow Date and Release Date search fields issue	Bug/Defect	Tow Impound	Software Update - Improvement for searching Tow / Impounds.
IA-73704	N/A	Master Person - create OLN from external search import even if state is not provided	Bug/Defect	Master Indices	Software Update - support to create a OLN entry from an external person import, when the OLN does not have a State supplied.

JIRA #	Client Ticket #	Summary	Type of Issue	RMS Module	Functional Documentation
IA-73708	N/A	Evidence Duplication - Browser Back Arrow	Bug/Defect	Property Mgmt.	Software Update - Improvements to prevent duplicate evidence from being created if the user navigates away from the page using the browser back button. It's worth noting that utilizing the browser's back button isn't advised. Use the buttons on the Online RMS application's graphical user interface.
IA-73736	N/A	Custom Forms: Fleet Vehicle custom form export - Record details column shows html	Bug/Defect	Custom Forms	Software Update - Custom Form export improvement.
IA-73737 IA-73928	N/A	Move Civil to Spring from Struts	Engineering Enhancement	Civil Process	Technology Update. The Civil Process module was changed to a more flexible, reusable, and resilient application development framework as part of our commitment to security and performance.
IA-73738	N/A	Evidence Report - label change	Bug/Defect	Property Mgmt.	Software Update - label change.

JIRA #	Client Ticket #	Summary	Type of Issue	RMS Module	Functional Documentation
IA-73748	407326	Incident Mapping Export to Excel Column header Change	Enhancement	Incident Mapping	Software Update - The header of the Incident Map export has been adjusted to read Occurred Date Start, and additional columns for Occurred Date End and Report Date have been added.
IA-73756	N/A	Data Submission: Click to Download all Generated Files as zip generates error msg if there are separate Group B arrest XMLs from one Incident Report	Bug/Defect	State Submissions	State NIBRS Reporting - Software update for NIBRS submission.
IA-73776	N/A	MECC - EACC additional Items when multiples exist on person item	Enhancement	Interface	Interface Improvement - Updates to MA EACC Court Interface.
IA-73859	N/A	FL IBR: Where there are multiple reportable property offenses, property to offense associations are not correct	Bug/Defect	State Submissions	State NIBRS Reporting - Software update for NIBRS submission.
IA-73866	N/A	Online RMS- Install script for release 11.8.0	DevTask	Admin	Online RMS- Install script for release 11.8.0

JIRA #	Client Ticket #	Summary	Type of Issue	RMS Module	Functional Documentation
IA-73915	N/A	Field Arrest Location Needs To Be Highlighted	Enhancement	Field Arrest	Software Update - Field Arrest Location will now display as a required field.
IA-73919	N/A	PORT - MA IBR - Segment length changes	Enhancement	State Submissions	State NIBRS Reporting - Software update for NIBRS submission.
IA-73935	N/A	Criminal Complaint - Offenses loading performance	Performance	Criminal Complaint	Software Performance Improvement - Criminal complaints having charges with multiple charges token will load much faster.

IA-73971	N/A	Fleet Vehicle Equipment Enhancements - MSP Sponsored	Enhancement	Fleet Mgmt.	<p>Client-sponsored – Several Fleet Equipment upgrades.</p> <p>1) The logged-in user's 'Default Search Agency' selection is now used in the fleet equipment search.</p> <p>2) Search by 'Assignment Status,' Equipment Assignment Start and End Dates, and Equipment Status LOV ('EQUIPMENT STATUS CODES').</p> <p>3) Search Results: The 'Active' column has been renamed to 'Assigned Status,' and a new column for 'Equipment Status' is available.</p> <p>4) View Equipment: The Equipment View/Edit pages have a new section that displays the assignment status and the status date. Assignment history is displayed in a new grid under 'Equipment Assignments.' Unit #, Vehicle Make, Vehicle Model, Category, Assignment Start Date, Assignment End Date, and Comments available.</p>
----------	-----	--	-------------	-------------	--

JIRA #	Client Ticket #	Summary	Type of Issue	RMS Module	Functional Documentation
IA-73971	N/A	Fleet Vehicle Edit VIN Warning - MSP Sponsored	Enhancement	Fleet Mgmt.	Client Sponsored - When the VIN information on a Fleet Vehicle record is altered from what was previously submitted, a new Data Warning Message is displayed to alert users. The user must confirm their desire to proceed with the change or pick the option to revert/cancel the VIN
IA-73972	N/A	Fleet Mileage Records Lockdown - MSP Sponsored	Enhancement	Fleet Mgmt.	<p>Client Sponsored - New maintenance setting added for 'FLEET_MILEAGE_LOCK_HOURS. T to control the lock hours for editing fleet vehicle mileage records. Out of box, the value was set to be the same as the master index lock hours setting.</p> <p>If the user has always edit mileage permission, they can edit or delete. Otherwise, the user must be the creator of the record and be with the Fleet Mileage lock hours setting.</p>

APPENDIX: SERVICE COMMITMENTS

Caliber Public Safety designs its processes and procedures related to its RMS system based on the service commitments that Caliber Public Safety makes to its business units, the laws and regulations that govern the system and the operational and compliance requirements that Caliber Public Safety has established.

Security, availability, confidentiality, and processing integrity commitments include, but are not limited to, the following:

Security Commitments

- Secure Socket Layer (SSL) FIPS140-2 compliant encryption is used to encrypt the transmission of data with Caliber hosted systems.
- Access to customer data is restricted to Caliber employees and/or subcontractors whose job function requires access.
- RMS Development, operations, and customer service personnel are required to maintain active CJIS certification.
- Systems are subject to vulnerability scanning.

Availability Commitments

- Caliber will maintain a highly available platform (99.9% uptime) that includes redundancy for critical system components except during planned downtime as communicated to users or unplanned downtime caused by circumstances beyond its reasonable control. In practice, Caliber routinely exceeds 99.99% uptime.
- User entity data is backed up daily and replicated to a secondary location.
- User entity data is maintained and stored within the United States.

Confidentiality Commitments

- Upon termination of services, Caliber will return confidential data to customers subject to the terms of the current RMS SaaS agreement.
- Caliber shall protect information designated as confidential from unauthorized access.
- Confidential data shall only be stored within Caliber's company information systems.

Processing Integrity Commitments

- The organization communicates requirements to user entities regarding the information, data, or other specifications necessary to complete processing in alignment with standard business operations.
- Data processing requests are only performed as authorized by the user entity.
- Data shall be stored and maintained in the system with no unauthorized alteration.
