Chapter 1. Introduction

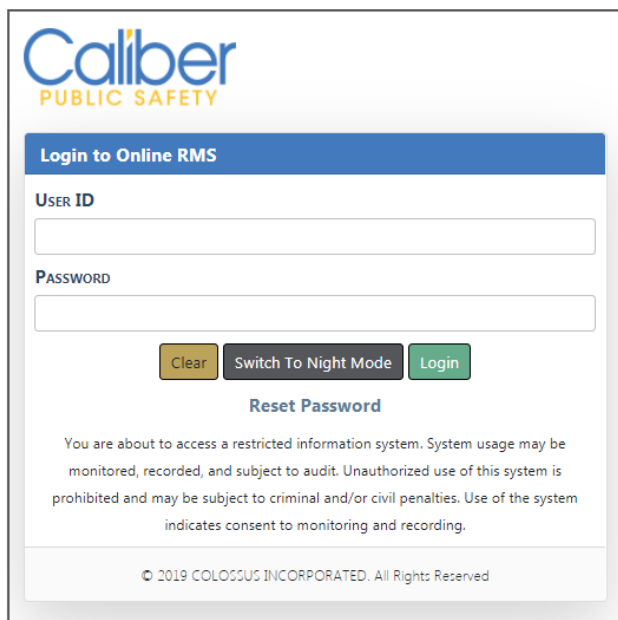

Overview

Online RMS is a comprehensive information management system designed specifically to meet the needs of federal, state, and local law enforcement and investigative agencies. It is the result of more than a decade of research, development, and direct feedback from hands-on users who prepare reports, manage records, investigate crime, and deploy resources on a day-to-day basis. Online RMS provides agency access to a central data hub to connect law enforcement with external data networks such as N-DEx, National Crime Information, and other local RMS databases.

Access to Online RMS begins with the customizable **Home Page**. For more information on the **Home Page** refer to "Home Page - Prior to RMS 11.12" on page 8.

Login Page

Online RMS is Internet based so it allows for anytime, anywhere access. As a user you will have access to the **Production and Training site**.

The screenshot shows the login interface for Caliber Public Safety's Online RMS. At the top is the Caliber Public Safety logo. Below it is a blue header bar with the text "Login to Online RMS". The main form area contains two input fields: "USER ID" and "PASSWORD". Below these fields are three buttons: "Clear" (yellow), "Switch To Night Mode" (dark grey), and "Login" (green). Below the buttons is a link for "Reset Password". A disclaimer text is present: "You are about to access a restricted information system. System usage may be monitored, recorded, and subject to audit. Unauthorized use of this system is prohibited and may be subject to criminal and/or civil penalties. Use of the system indicates consent to monitoring and recording." At the bottom, a copyright notice reads: "© 2019 COLOSSUS INCORPORATED. All Rights Reserved".

Production Site

<https://rms.public-safety-cloud.com/prod/>

Training Site

<https://rmstrain.public-safety-cloud.com/train/>

It is suggested to create a shortcut on your desktop and/or add the sites as Favorites on your Internet browser.

Caliber Main Website

<https://caliberpublicsafety.com>

For best performance, Caliber Public Safety recommends using a computer, laptop, or tablet purchased within the last three years; running an industry popular web browser that is actively supported by the browser manufacturer and connects to the internet using DSL, Cable, or 4G cellular. The browser must support **TLS 1.2** or higher.

Night Versus Day Mode

The Online RMS application offers a choice of two background colors: White or Black; **Day Mode** or **Night Mode** respectively. The **Day Mode** background appears by default when the application launches at login; however, you can set your **Mode Preference** to default to **Night Mode** if you wish.

You can also toggle between **Day Mode** and **Night Mode** at any time while in the application, regardless of the default setting.

Day Mode

Count	Notification Type	Last Notification	Priority
6	APPROVE INCIDENT REPORT - PATROL	11/14/2019 10:05 AM CST	High
103	INCIDENT APPROVED - FOLLOW UP CASE DECISION NEEDED	11/14/2019 09:46 AM CST	High
106	INCIDENT APPROVED	11/14/2019 09:46 AM CST	High
2	INCIDENT FOLLOW-UP CASE - ASSIGNMENT ENDED	09/26/2019 11:22 AM CST	Medium
14	ADMINISTRATIVE	09/16/2019 09:54 AM CST	Urgent

Night Mode

Count	Notification Type	Last Notification	Priority
6	APPROVE INCIDENT REPORT - PATROL	11/14/2019 10:05 AM CST	High
103	INCIDENT APPROVED - FOLLOW UP CASE DECISION NEEDED	11/14/2019 09:46 AM CST	High
106	INCIDENT APPROVED	11/14/2019 09:46 AM CST	High
2	INCIDENT FOLLOW-UP CASE - ASSIGNMENT ENDED	09/26/2019 11:22 AM CST	Medium
14	ADMINISTRATIVE	09/16/2019 09:54 AM CST	Urgent
1	INCIDENT FOLLOW-UP CASE - ACTIVITY UPDATE REQUESTED	07/02/2019 11:04 AM CST	High

Set Mode Preference

You can set the **Mode** to always default to either **Day Mode** or **Night Mode** when the application launches, and you can also temporarily switch between **Modes** as often as you wish during your logged in session.

Default Mode

The **Day Mode** background appears by default when the application launches at login; however, you can set your **Mode Preference** to default to **Night Mode** at login if you wish.

1. Click on your **login name** on the top menu bar, then select **My Profile**.

- Click on the **Preferences** tab in the *Manage User* window, then choose the **Mode** you wish to use as the default.

- Click the **Save** button and a confirmation message briefly appears.

Toggle Mode

You can temporarily toggle between **Day Mode** and **Night Mode** as often as you like during your current logged in session, regardless of the default setting.

There are two ways to toggle between **Modes**:

- A toggle button on the *Login* screen.
- Click on your *login name* on the top menu bar of the Dashboard.

Login Screen

Click the **Switch to Night Mode** button to change the background color from white to black.

Click the **Switch to Day Mode** button to change the background color from black to white.

Dashboard

The icon to the left of your login name at the top of the *Dashboard* displays the **Mode** that is currently active. Click on the **Mode** icon to toggle between day and night **Mode**.

Password Rules

Each user will have a unique **User ID** and **Password**.

RMS Password validation enforces defined policy configuration that align with the *FBI CJIS Security Policy Basic Password Standard*. It is recommended that agencies also implement a departmental policy for end-user password compliance.

- After initial log-in you will be prompted to set up security questions.
- Passwords are not displayed on entry.
- Passwords are encrypted for storage and transmission.
- Passwords expire every ninety (90) days.

- This option is configurable at the schema level for sites requiring expiration days different than the default configuration. Contact Caliber Support for assistance in updating this configuration setting.
- Change password using the following rules:
 - Minimum length shall be eight (8) characters. This option is configurable at the schema level for sites requiring a minimum length different than the default configuration. Agency admins should contact Caliber Support for assistance in updating this configuration setting.
 - It shall be case sensitive.
 - It shall be alphanumeric and allow for special character.
 - It shall contain one lower case letter, one capital letter, and one number.
 - It shall not be the same as the User ID.
 - Passwords are on a default rotation of ten (10) passwords. Passwords must cycle through ten passwords before re-use. This option is configurable at the schema level for sites requiring a rotation different than the default configuration. Agency admins should contact Caliber Support for assistance in updating this configuration setting.

Notes:

1. By default, you will have three (3) attempts to enter a correct password. After these attempts have been exhausted, you will be prompted to reset your password. If you are unable to reset your password using the above methods, you will need to contact your agency administrator.
 - This option is configurable at the schema level for sites requiring unsuccessful login attempts different than the default configuration. Agency admins should contact Caliber Support for assistance in updating this value.
2. Advance Authentication options are available. Agency admins should contact Caliber Support for more information.

Password Reset

There are three ways to reset a password:

- Select **Reset Password** on the login page.

- Request to **Reset Password via Email**.
- From My Profile.
- Administrator resets your password.

Forgotten Password

1. Click **Reset Password** on the **Login Page**.
2. Provide correct answers to your **Security Questions**.
3. If you answer correctly, you are prompted to create a new password.

If you do not remember the answers to the security questions, see "Reset Password via Email" below.

Reset Password via Email

You can have a new temporary password emailed to you, which can come in handy when you have forgotten your security answers.

1. Click **Reset Password** on the **Login Page**.
2. Click the **Reset Password via Email** button at the bottom of the **Security Questions** page.

Note: There is also a **Reset Password via Email** button on the *Change Password* link of My Profile. For information on My Profile, refer to "My Profile Overview" on page 51.

3. An email containing a temporary password is sent to your email account on file.
4. Enter the temporary password then create a new password when prompted.

Change Password from My Profile

1. Click **Change Password** on My Profile. For more information, refer to "My Profile Overview" on page 51.

Administrator Password Reset

Your agency administrator has the ability to reset your password without submission of a Caliber Public Safety support ticket. Contact your administrator to request a password reset.

User Account Inactivity Deactivation

Online RMS enforces a User Account Inactivity Policy in accordance with CJIS Security requirements. User accounts that remain inactive for ninety days are automatically deactivated. A warning email is sent to the user thirty days prior to account deactivation.

From: noreply@interact911.com [mailto:noreply@interact911.com]
Sent: Thursday, August 17, 2017, 4:00 AM
To: CSmith@gmail.com>
Subject: Your Caliber RMS Account Will Expire in 30 days.

Chris Smith, your Caliber RMS account will become deactivated in 30 days due to inactivity. Failure to log into your account within the next 30 days will require you to contact a System Administrator to reactivate your account. After a total of 60 days, the user's account will become inactive.

For more information refer to the agency administrator.

Home Page - Prior to RMS 11.12

Online RMS is a comprehensive information management system. Access to Online RMS begins with the customizable **Home page**. This page can display any combination of recent activities, charts of crime statistics, links to the most frequently used functions in the system, external links to frequently referenced web sites and documents, broadcast messages from the command and control center or other officers in the field, outstanding reports that need approval or additional information, and various other items.

When you first log into Online RMS, the **Home Page** displays. You can access the **Home page** from anywhere within RMS by clicking on the **Caliber** logo that is located on the top left of the window.

The basic structure of the **Home Page** consists of a Top Navigation Bar, User Ribbon, Broadcast Messages, Main Area, Side Bar and Charts.

The **Home Page** content and layout varies by user. With proper permissions, you can change what you display in the panels and which order.

For information on managing the **Home Page** layout, refer to the *Manage Front Screen Layout* section of "User Information Menu" on page 45.

Main Area

Pinned Records and *Notifications* appear in the Main Area. You have the option to change the display order or remove content; perhaps you prefer *Notifications* to appear before *Pinned Records*, or you don't want *Pinned Records* to appear on your **Home Page**.

Refer to the *Manage Front Screen Layout* section of "User Information Menu" on page 45 for instructions.

Pinned Records

You can pin incident reports, cases, or person records to your **Home Page** for quick access.

By default, you can pin up to 50 records.

- The pinned record count and remaining available pin count displays on the section title bar.

Pinned Records 1 / 50

- Your agency administrator has the ability to change the maximum number of pinned records.
- If you attempt to pin a record while at the maximum number, you are notified you need to unpin other records first.
- The pin counter color changes to yellow when within five records from the maximum.
- The pin counter color changes to red when at the maximum count.

With appropriate permissions you can view, edit, or unpin the pinned records from the **Home Page** using the buttons under the *Actions* column. A button will not display if you do not have permission to perform the function.

- When unpinning records, you must navigate from the **Home Page** for it to take effect. This allows you to re-pin the record if it was unpinned by accident.

For information on pinning incident reports, cases, or person records, refer to the respective sections.

Notifications

This area presents a grouped list of Notifications specific to the logged-in user.

For more information on *Notifications*, refer to "Notifications" on page 25.

Top Navigation Bar Area

The Top Navigation Bar provides access to Incidents, Master Indices, Records Management, Forms and Reports, and Help menus.

The Help menu includes a variety of links for submitting a ticket, accessing live and online help and training resources, requesting live assistance, and accessing the Caliber Marketplace (a menu of features and interfaces).

The Administration menu also appears for users with proper permissions.

The Top Navigation Bar adapts to mobile devices by utilizing a Collapsible Menu. For more information, refer to "Mobile Device Friendly" on page 18

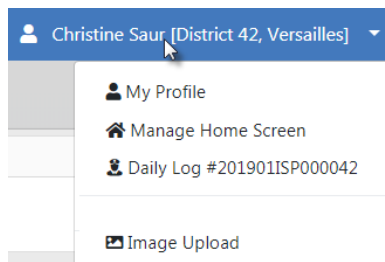

User Ribbon

The User Ribbon contains user information with menu options from which to choose, new notifications alert, a button to toggle between the night and day setting, and a button to log out.

The User Ribbon adapts to mobile devices by utilizing a Collapsible Menu. For more information, refer to "Mobile Device Friendly" on page 18

User Information Menu

Click on your user name to display the User Information Menu. Through this menu, you can change your user profile settings, manage the layout of your Home Screen, access your current Daily Log or create a new log if one doesn't already exist, upload images, and logout of RMS.

For more information on these options, refer to "User Information Menu" on page 45.

New Notification Alert

Notifications are used to relay important information to the user. There are automatic system notifications advising the user, depending on his/her role, when a report is submitted for approval, a report is disapproved, evidence is pending check-in, and other similar workflows. A user can also send an ad-hoc notification to another user or group of users.

The new notifications alert appears in the center of the User Ribbon in red. Click on the red notification to open a window listing the notifications.

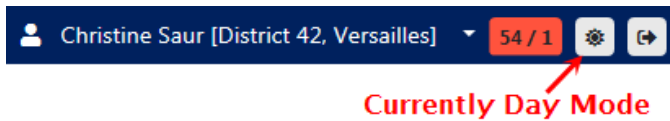

Notifications & Messages		
Notifications	Broadcast Messages	
Type	Priority	Description
ADMINISTRATIVE	Urgent	STATE_OFFICER15 Account Has Been Locked
ADMINISTRATIVE	Urgent	STATE_OFFICER15 Account Has Been Locked
ADMINISTRATIVE	Urgent	STATE_OFFICER14 Account Has Been Locked
INCIDENT APPROVED	High	Incident Report 2018D4210183 Supp #0 Has Been Approved. Offenses:35-42-2-1 B05 BATTERY- KNIFE

Click on an item in the list to open the notification.

For more information on notification alerts, refer to "Notifications" on page 25.

Toggle Night Versus Day Mode

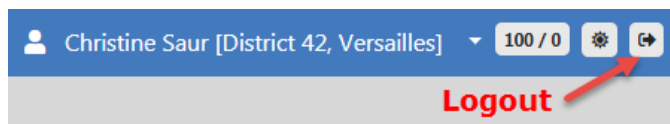

Click on the Night/Day mode icon on the User Ribbon to toggle between the two settings. When Day Mode is active, a sun-like image appears as the icon, and a moon for Night Mode.

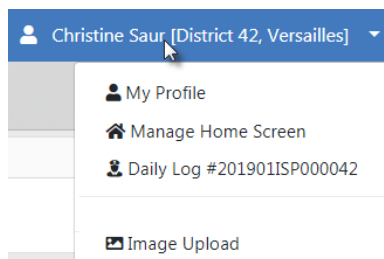

For more information on Night and Day Modes, refer to "Night Versus Day Mode" on page 2.

Logout

Click the Logout icon on the right of the User Ribbon to sign out of Online RMS and return to the Login window.

Alternatively, you can Logout through the *User Information Menu*. Click on your user name, then click Logout.

After you are logged out of RMS, click the X on the upper right corner to close the browser window.

For more information on the *User Information Menu*, refer to "User Information Menu" on page 45.

Recent Activities

The **Recent Activities** section that appears on the right side of the Home Page allows quick access to edit a user's Incident reports, Cases, Warrants, Open Field Arrests, Open Forms, Evidence Review, My Court Appearances, Forms for Review, and other areas specific to the logged in user.

Quick Links

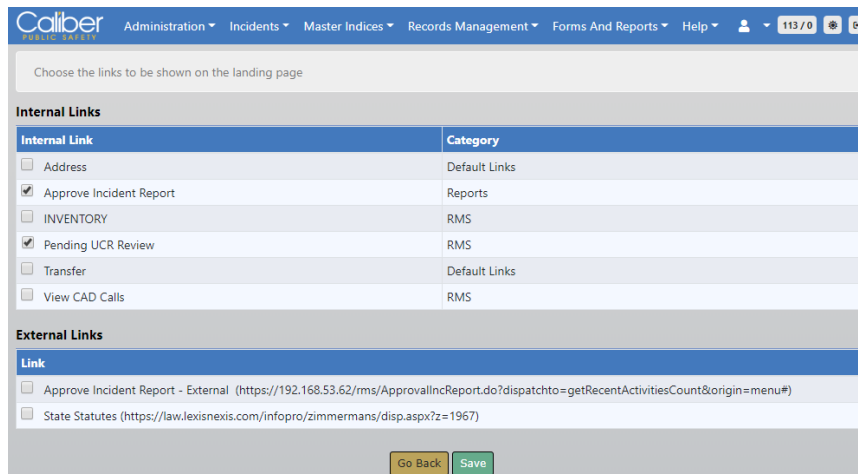

Quick Links that appear on the side bar of the Home Page allows for quick access to different areas and define processes within Online RMS. You can manage which links you want to see here.

Note: Only you, as the user, can manage these links on your Home Page; the administrator cannot choose for you.

Click on the **Manage** link to add items to the Quick Links area.

Check applicable links in the **Internal Links** section, then click **Save**.

External Links

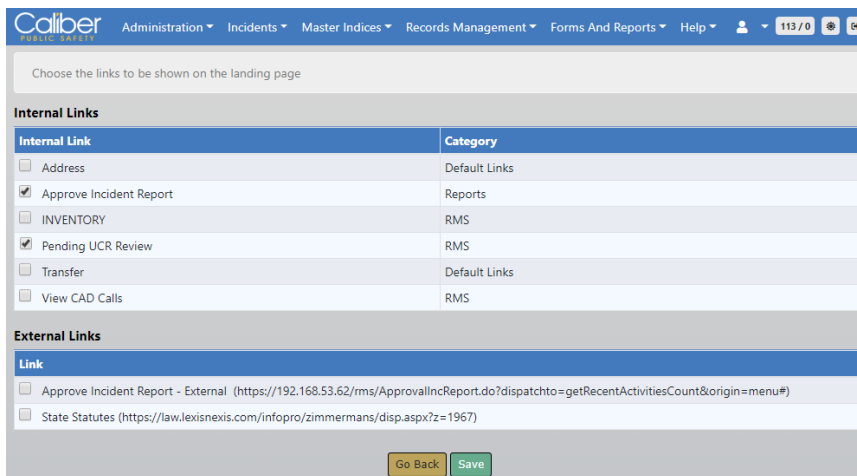

External Links that appear on the side bar of the Home Page allow quick access to external sites which open in a new browser. These are made available by your administrator. You can manage which available links you want to see on your Home Page.

Note: Only you, as the user, can manage these links on your Home Page; the administrator cannot choose for you.

Click on the **Manage** link to add items to the External Links area.

Check applicable links in the **External Links** section, then click **Save**.

Choose the links to be shown on the landing page

Charts

Charts allow users with permissions to access to statistical charts and events within Online RMS.

Home Page - RMS 11.12 and Higher

Starting with RMS 11.12.1, select users will have the option to choose a new, optional home screen interface. This new home screen retains all the functionality of the previous home screen in an updated layout.

The screenshot displays the Caliber RMS Home Page. The top navigation bar includes links for Administration, Incidents, Master Indices, Records Management, Forms And Reports, and Help. The user profile shows 157 / 0. The main content area is divided into three sections:

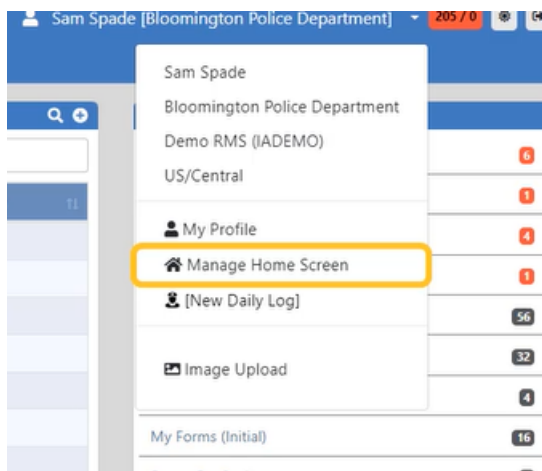

- Left Sidebar (Dashboards):** Contains sections for Notifications (Pinned Records), Charts (Daily Log by Time Category, Offense Activity, Open Field Arrests, Snap Shot, Unapproved Incidents), Actions (Add Broadcast Message, Add Notification), and Quick Links (Add Quick Links).
- Central Notifications Table:** A table with columns for Count, Notification Type, Last Notification, and Priority. It lists various notifications such as 'PROPERTY PENDING CHECK-IN', 'INCIDENT APPROVED - FOLLOW UP CASE DECISION NEEDED', and 'FORM REVIEW - Online Police Self-Reporting Form'.
- Right Sidebar (Recent Activities):** Lists recent activities including Initial Report, My Cases (Active Count), My Case Activities (Active Count), Arrests Pending Release, Forms For Review, and Complaints Pending Submission.

You may still filter notifications and search notifications, as well as sending notifications by selecting the plus sign in the top-right corner.

Other available features work the same as in previous versions. (Pinned records work the same, for example.) The charts section is permissions based; pie charts can be found under Offense Activity.

Quick links and external links offer the same features and functions; just moved from right to left on the new home screen.

If you decide to use the new home screen, the **Manage Home Screen** section under the **My Profile** tab will not work. This section is for use with the old home screen only as of the release of RMS 11.12.

Additionally, beginning with RMS 11.13.0, Dashboards will be available that can be configured by Caliber in coordination with your agency to better serve your needs. (The dashboards only work with the new home screen, not the previous home screen. The new home screen will become the default in a future release.) Users may select from among the available dashboards by clicking the gear icon next to the **Dashboards** heading on the left side of the screen.

To utilize dashboards, an agency will have to request access. Permissions are assigned by schema and role. The dashboards icon will only be visible if there is a dashboard or dashboards available; Available dashboards will vary based on agency.

The dashboards provide a variety of information (such as case management, evidence, scenes processed, use of force incidents, etc.) that can be selected for optimum user efficiency based on what data is most needed.

Dashboard Selector

- You Can Drag and Drop Dashboards To Select or Reorder Them, Or use the + / - Buttons
- If You Want A Dashboard To Show By Default When Logging In, Check the Box Next To the Name
- A  Icon Indicates The Dashboard is Either Inactive or No Longer Permitted

After making changes to displayed dashboards, make sure to refresh (otherwise the new dashboards will not be visible).

This feature is being rolled out starting with RMS 11.12.1. For more information, Contact Caliber or submit a support ticket.

Mobile Device Friendly

Online RMS content easily adapts to devices of various sizes by leveraging a scalable, responsive web-based design. Online RMS auto-adjusts layout and content according to the screen size, making navigation easy on any mobile device.

On larger screens, drop-down and other menus appear across the top of the screen.

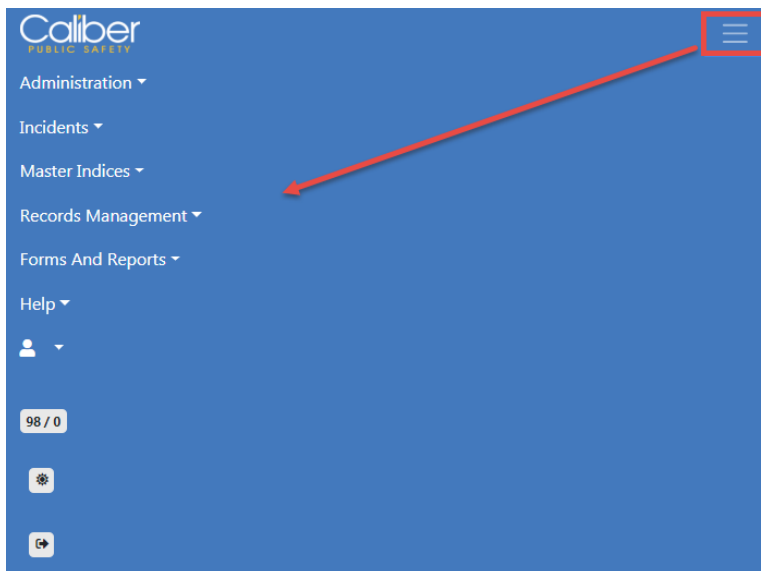

18

User Guide

7 January 2025

On smaller screens, such as mobile devices, a **Collapsible Menu** appears on the top right. Click on the **Collapsible Menu** to display various drop-down menus on the left of the screen, and click again to close.

Click on various drop-down menus for sub-menus or additional options, and click again to close.

Upload one or more images directly from your mobile device to your personal RMS Image Library. You can then easily import the images from the Image Library into an incident report, field arrest, or master person record. For more information on uploading images to the Image Library, refer to "Image Library" on page 75.

Broadcast Messages

Broadcast Messages allows users with appropriate permissions to relay information to other users, with the option to send to specific schemas.

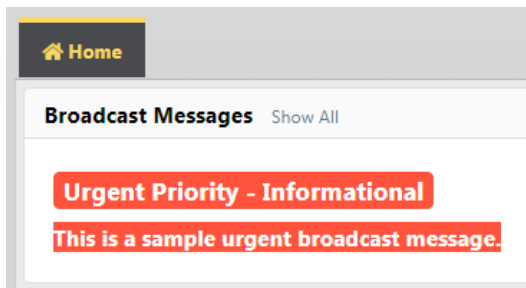

The information can be enforcement related, informational, or administrative in nature. **Broadcast Messages** relay administrative messages to users such as mandatory meeting or fire-arms qualification notices as well as time sensitive information such as an Attempt to Locate notice for a stolen vehicle or reckless driver.

Each message includes a start and end date/time. . Various message types (informational, web sites, Amber Alerts, warnings, training tips, and so forth) are selected then set with specific priority levels.

Color coded messages improves awareness and recognition of critical and high priority messages.

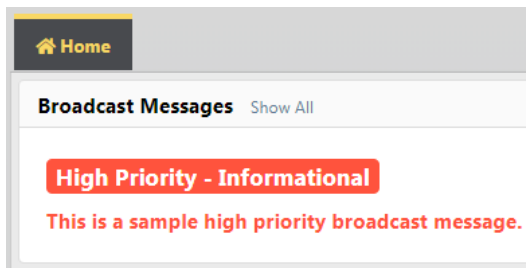

Urgent Priority Message

Full color coding of the message.

High Priority Message

Color Coding of high priority message.

Medium Priority Message

Color coding of medium priority message.

When more than one **Broadcast Message** is in the queue, each message will display for approximately fifteen seconds before transitioning to the next message. This will continue to the last message before starting the sequence again. You can display all messages in the queue by clicking on the message to open the *View Messages* window

Notifications

This area presents a grouped list of all **Notifications** for the user. The **Notification Types** can be:

- Information on the status of the user's Incidents or Arrests
- Messages sent to the user by another user or an administrator
 - Alerts from Master Indices subscriptions
 - Alerts from Warrant Logs
 - Alerts from a Public Custom Form submission.
 - Other system notifications based on the user's role

You can view a list of notifications two different ways: New notifications and all active notifications.

New Notifications

When new notifications arrive, the total number of Notifications near the top right of the screen appear with a red background. The red turns to a white background when the messages have been red as shown in the example.

Click on the notification indicator to view the list of Notifications and Broadcast messages.
Click on each tab to view.

DESCRIPTION

Users to Notify

SELECT USER

ADD USERS FROM GROUP
-Select Group To Add Users-

SELECTED USERS DOUBLE CLICK TO REMOVE

Select the **Type** and **Priority** from the drop-down lists and enter a **Description**.

In the **Select User** field, begin entering a user's name then choose from the list that appears based on the text you enter. You can choose one or multiple names that are to receive your message. When choosing names, the names appear in the **Selected Users** box. **Double Click** on a name to remove.

The image shows two parts of a software interface. The top part is a 'SELECT USER' window with a search bar containing 'dan'. Below the search bar is a list of users: 'DM FIVE - Dana Agency 1', 'DM FOUR - Dana Agency 1', 'Dana M - District 42, Versailles', 'Dana McMillan - DANA AGENCY1234', and 'DM ONE - Dana Agency 1'. The bottom part is a 'Users to Notify' window. It has a 'SELECT USER' search bar which is empty. Below it is a 'SELECTED USERS' section with the instruction 'DOUBLE CLICK TO REMOVE'. This section contains two names: 'Dana M - District 42, Versailles' and 'Christine Saur - District 42, Versailles'.

Optionally select **Add Users From Group** to add users from a defined group, such as Daytime Officers, Second Shift Officers, etc. Selecting a group adds the users of that group to the list of selected users.

When finished, click the **Save** button.

Entering Dates and Times

Dates and times can be entered using different methods.

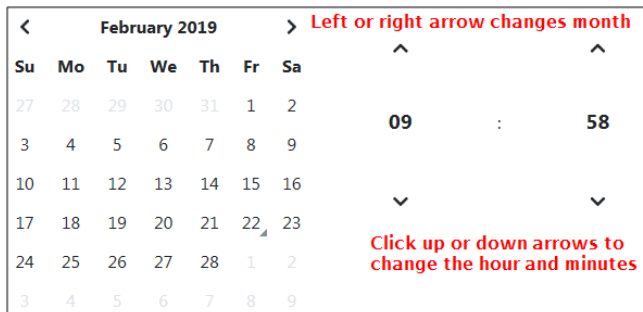

- Type a **T** in the date field then tab out to return the current date and time.
- Type **T-#** (# represents the number of days) to return a date/time less than the current month.
 - Example: If today is 03/05/2019, enter **T-1** to return the date 03/04/2019.
- Type **T+#** (# represents the number of days) to return a date/time in to the future.
 - Example: If today is 03/05/2019, enter **T+2** to return the date 03/07/2019.

- Use the **Calendar Tool**, the icon to the right of the date and time field.

Calendar Tool

Throughout Online RMS, date fields have calendar icons on the right that are used to open the **Calendar Tool**. Using the **Calendar Tool** to enter dates into the system ensures that dates are always entered in a consistent format.

Click the calendar icon  to open the **Calendar Tool**.

The calendar defaults to the current month and year and the current day displays a triangle on the bottom right.

13 14 15
20 21 22

Click the **left** or **right arrow** at the top of the window to select the appropriate month and year if it is different than the default, then click on the appropriate **day** to select. Click on the **up** or **down arrows** to select the appropriate time and hour.

Text Fields, Drop-Downs, Buttons, Check Boxes

The following list provides information about the Text Fields, Drop-Downs, Buttons, and Check Boxes used in Online RMS.

Text Fields

Type information directly into the field.

Note: Some text fields are auto-complete fields, also called AJAX fields. When you place your cursor in an auto-complete field, the field turns yellow and acts as an auto-complete field by offering drop-down choices for selection. If the entry you want is presented, click it to pull it into the field.

Note: Some text fields provide spelling auto-correct options. This will appear as a red line under a word that does not appear in the software dictionary. Right-clicking a word or term that has been underlined will cause a dialogue box with suggested corrections to appear.

Drop-Down Lists

Click to the right of a field to display a list, then click a value to select it and pull it into the field.

Buttons

There are different types of buttons: Function Buttons, Radio Buttons, and Floating Buttons.

Function Buttons

Function buttons are used to initiate system functions. Examples of function buttons include, **Quick Print**, **Print**, **Exit Report**, **Transfer**, **Exit Wizard**, and **Submit for Approval**.

Radio Buttons

Only one radio button may be selected from a group (two or more displayed buttons).

Size: ☐ Small ☒ Medium ☐ Large

Floating Buttons

Floating action buttons appear on the top right of search pages for easy navigation without scrolling.

Click on the arrow to hide, and click on the arrow again to unhide.

Check Boxes

Click the box to select (insert a check mark) or deselect (remove a check mark) to activate or deactivate an option, or to filter a list by one or more parameters.

Required Fields

Any field with a red left-hand border is required.

Column Sorting

Online RMS allows you to sort any displayed column in ascending or descending order wherever data is listed in a columnar format.

For example, **Person Search Results** are in a columnar format. Click on any column heading to sort by ascending order, or click again to sort in descending order. The column you are sort-

ing displays an up or down arrow to the right of the heading, indicating ascending or descending respectively.

Sort order indicator

Last Name	First Name	Middle Name	Title	Sex	Race	DOB
⚠️ Jones	Jerry	J		M	W	02/17/1961
Jones	Josh			M	W	03/29/1969
Jones	Janet			F	W	01/01/1960
⚠️ Jones	Jeff			M	W	01/01/1960

SmartSearch

Users can search for incidents across all agencies in the Online RMS system within the user's State, or agencies can choose to share data with other agencies outside of their State. This search adds a simple interface to perform searches the way one would in an Internet search engine, such as Google. The **SmartSearch** link is accessible from the *Incidents* main screen under the *Incident Reporting* section.

For details on using Incident **SmartSearch** refer to the Incident "SmartSearch" on page 271 .

Export Search Results

You have the ability to search data within the different modules of Online RMS, and export the results to various file types. For example, you can search Warrants, Incidents, or data in other modules to view a set of information, then export the search results to Excel or other supported formats.

There are four supported file formats from which to choose. Click on the associated icon to export the list.

- PDF (Printable Document Format)
 - File that contain a captured image of a printed document.
 - The file opens into a new tab in your browser, where you can choose to save as a file on your computer.
- MS Excel
 - Microsoft Excel is an electronic spreadsheet; typically used for storing and calculating data.
 - Gives you the option to open the document or save to a file on your machine.
 - **Note:** Online RMS supports MS Excel export up to 5,000 records.
- CSV (Comma-Separated Values)
 - Files that contain a collection of data in a standard format; typically used for exchanging data between applications that support CSV files.
 - Gives you the option to open the document or save to a file on your machine.
 - **Note:** Online RMS supports CSV export up to 5,000 records.
- XML (Extensible Markup Language)
 - A plain text file that contains a collection of data with a defined set of structure and storage rules of that data; typically used for websites.
 - Gives you the option to open the document or save to a file on your machine.

Personnel Management

The **Personnel Management** module of Online RMS allows agency administrators to manage employee information, whether or not the employees are Online RMS users. Only

administrators with the appropriate permissions can see and access this module.

There is one *Master Employee* record per person with information grouped into two tabs:

Employee Info

The *Employee Info* tab contains Employee Name, SSN, DOB, Medical Info, Driver License Number, Hire Date, Addresses, Service History, Education, Languages, Skills, Medial Info, Photos, Documents, and other information. Sensitive information such as SSN is masked with asterisks and encrypted in the database for security purposes.

Go Back Update Save

The Employee record opens to the *Employee Info* tab by default.

Note: Sensitive information such as SSN is masked with asterisks and encrypted in the database for security purposes.

Training

The *Training* tab contains training courses, certifications, and eligible ranks for that employee.

For more information refer your agency administrator or reference the *Personnel Management* chapter of the *Online RMS Administrative Guide*.

Printing from Online RMS

You can print Online RMS content wherever you see a print icon or a print button:

Print Icon: 

Print Button: 

Clicking on the icon or button generates a PDF document in a new tab in the browser keeping the current Online RMS page open. A separate tab also allows you to view the PDF before you decide whether you want to save it with a custom filename, print it, or both. If you do not want to save the PDF, simply close the tab.

Note: Internet Explorer does not support custom filenames. If you are using Internet Explorer, the filename defaults to the name of the current page's name (i.e., PersonAction, IncidentPrint). After saving the PDF, you can rename the file if you wish.

Chapter 2. Navigation Icons

Home Button

Click on the Caliber logo in the upper left corner of the window to return to your **Home Screen**, regardless of what area of the application in which you are working.

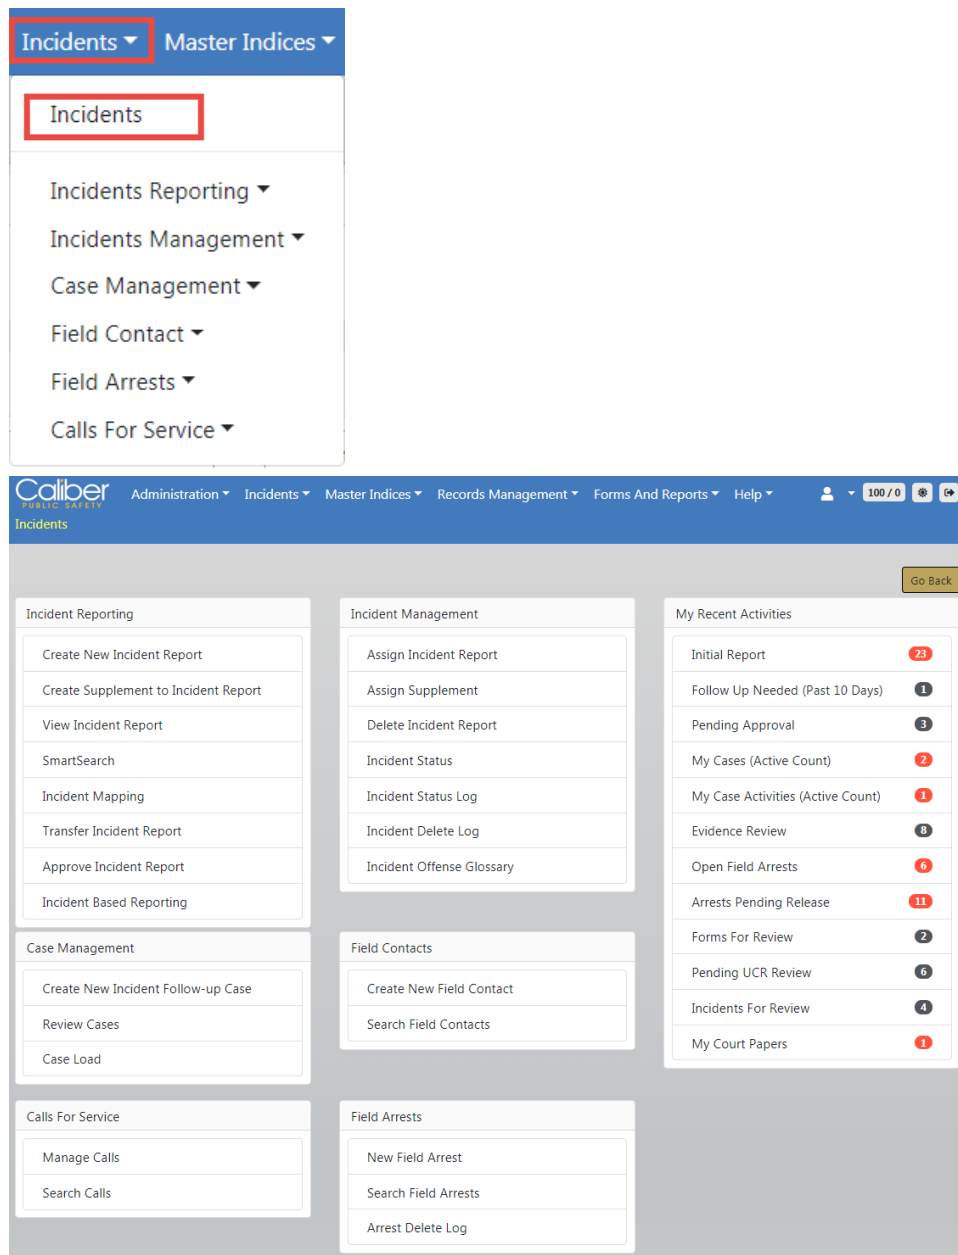

Incidents Button

The **Incidents** button is located on the navigation bar at the top of the Online RMS window. The down arrow on the right of the button indicates additional menu options are available. Click on the **Incidents** button to display menu options. There could be multiple layers of menu options. The menu options vary by agency and permissions.

Alternatively, click on the top menu option to display the full menu on one screen instead of navigating through the multiple drop-down menus.

Your *Recent Activities* also appear on right of this screen.

Master Indices Button

The **Master Indices** button is located on the navigation bar at the top of the Online RMS window. The down arrow on the right of the button indicates additional menu options are avail-

able. Click on the **Master Incidents** button to display menu options. For more information, see "Master Indices" on page 83. The menu options vary by agency and permissions.

Records Management Button

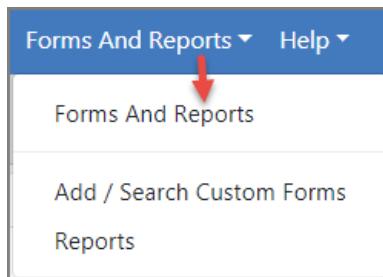

The **Records Management** button is located on the navigation bar at the top of the Online RMS window. The down arrow on the right of the button indicates additional menu options are available. Click on the **Records Management** button to display menu options. The menu options vary by agency and permissions.

Forms And Reports Button

The **Forms and Reports** button is located on the navigation bar at the top of the Online RMS window. The down arrow on the right of the button indicates additional menu options are available. Click on the **Forms and Reports** button to display menu options. This area allows you, with appropriate permissions, to search completed forms or run statistical reports.

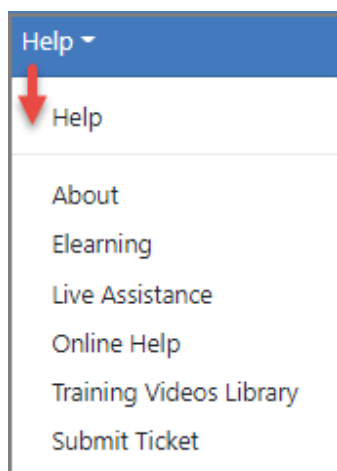

The menu options vary by agency and permissions.

For more information on *Custom Forms* and how to search for and view them, refer to “Custom Forms” on page 65.

Help Options

Click Help to display a drop-down menu. The menu options vary by agency and permissions.

About

This section provides information about the application version being used, information about the user's computer including the operating system and browser, and information about the server being accessed.

ELearning

All users can access short training classes 24 hours a day for different modules within the Online RMS. The classes contain step-by-step instructional videos and offer assessment exams.

Live Assistance

This is a support tool prompted by our Support Team. It is used to view your computer screen and even take control of your mouse and keypad to assist with support issues. This is only available when prompted by an Caliber Support Team member and is not available otherwise.

Online Help

All users have access to this self-help option 24 hours a day. This area contains the Online RMS Knowledge Base, which contains information for all areas within RMS.

Training Videos Library

Beginning with Online RMS 11.4.0, agencies can enhance users' training and learning experience with the **Online Training** feature. The **Online Training** feature offers video-based learning to all users where agencies use and enable this feature.

Submit Ticket

All users have the ability to submit a ticket to our Support Team 24 hours a day. Support tickets will be responded to by the Support Team within one business day, during regular business hours (ET). For more urgent issues please call 800.274.2911.

If configured, users with Team Support website access can automatically sign into the Team Support website from within Online RMS.

For more information on submitting tickets, refer to "Submit Ticket" on page 63.

User Information Menu

Click on your user name to display menu options. The drop-down contains *My Profile*, *Manage Home Screen*, *Current Daily Log* (or the option to create a new log if one does not already exist), and *Image Upload*.

My Profile

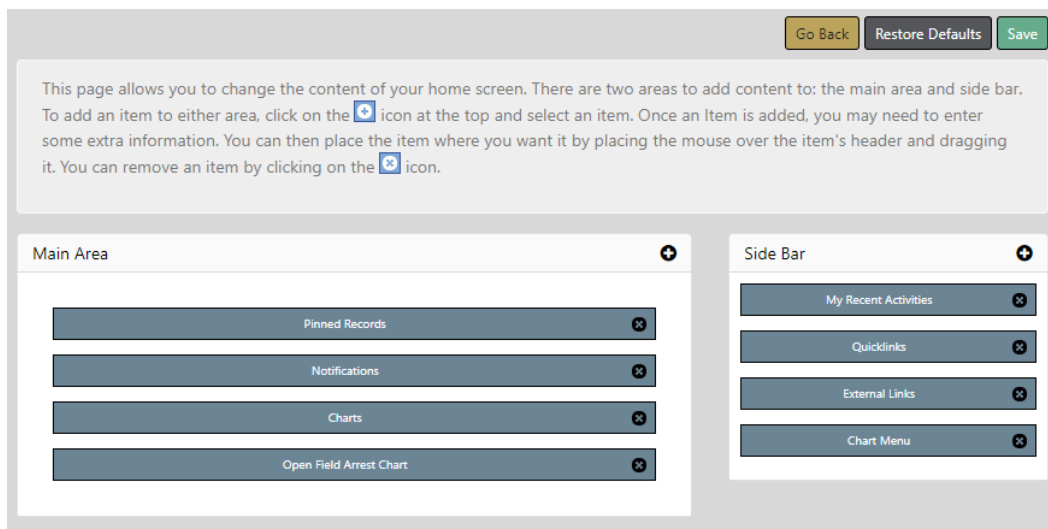

My Profile is a page that contains an organized set of links to various user settings and functions.

 A screenshot of the "My Profile" page. The page has a blue header with the title "My Profile". On the left, there is a sidebar with the user's name "Christine Saur" and various links like "Change Password", "Change Security Questions", "Change Home Agency", "Create Assignment", "Go To", "Profile Information", "Preferences", "Subscriptions", "Officer Information", and "Account History". The main content area is titled "Profile Information" and contains a "User Information" section. This section includes fields for "FIRST NAME" (Christine), "MIDDLE NAME", "LAST NAME" (Saur), "TELEPHONE", "E-MAIL" (CS), and "E-MAIL ENABLED" (checked). There are "Go Back" and "Update" buttons at the top right of the main content area.

For more information, refer to "My Profile Overview" on page 51.

Manage Home Page

You can customize your *Main Area* and *Side Bar* items by dragging and dropping the order in which they appear or omit items from showing on your home page, or click the add icon  to add items. Follow the directions displayed near the top of the window to customize the screen.

Click **Save** when you are finished making changes, click **Restore Defaults** to reset your changes back to the default settings, or click **Go Back** to return to the **Home Page**.

For more information on accessing the **Home Page** refer to "Home Page - Prior to RMS 11.12" on page 8.

Daily Log

You can access your current Daily Log or create a new log if one doesn't already exist.

If a Daily Log has not yet been created, [New Daily Log] appears in the drop-down list. Click on that option to create a new log.

An existing Daily Log will appear in the drop-down list with a log number. Click on that option to open the existing log.

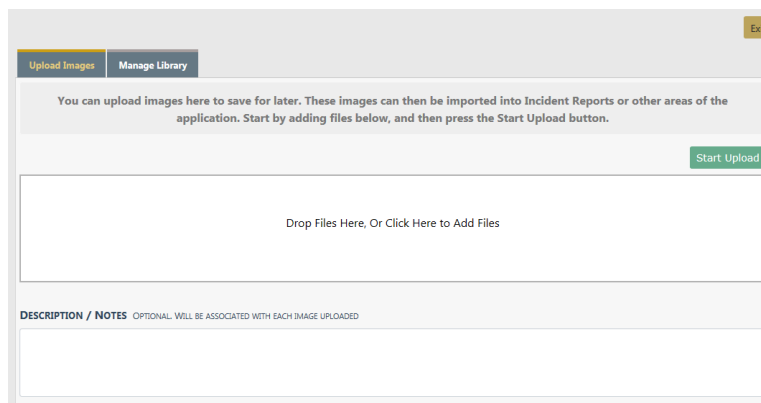

For more information on the Daily Log, refer to "Officer Daily Log" on page 539.

Image Upload

You can upload images directly from your mobile device or other devices into your personal RMS Image Library, then import later into Incidents Reports, Field Arrests, and other areas of Online RMS.

Click on the *Image Upload* option to open the upload utility.

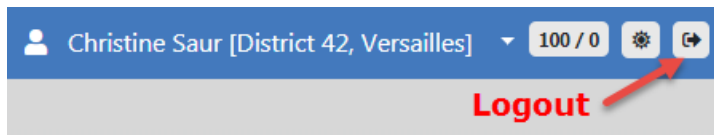

For more information on uploading images to your personal RMS Image Library, refer to "Image Library" on page 75.

Logout

The Logout option signs you out of Online RMS and returns you to the Login window.

Another option is to click the Logout icon on the right of the User Ribbon.

Once logged out, click the X on the upper right corner of the window to close.

Chapter 3. My Profile

My Profile Overview

My Profile is a page that contains an organized set of links to various settings and functions specific to each user, such as user profile information, preferences, subscriptions, officer information, change password and security questions links, and more.

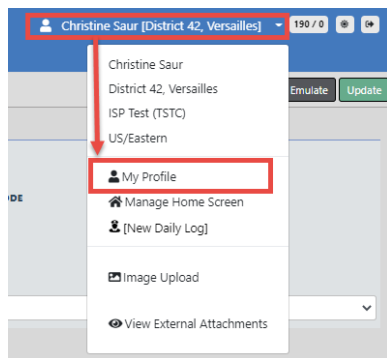

The screenshot displays the 'My Profile' interface. On the left, a sidebar lists user details for Christine Saur (User ID: CSAUR, Status: Active, Type: Full Time) and provides quick links for changing password, security questions, home agency, and creating assignments. The main area, titled 'Profile Information', contains a 'User Information' section with input fields for First Name (Christine), Middle Name, Last Name (Saur), Telephone, E-Mail (CS), and an E-Mail Enabled checkbox. Navigation buttons 'Go Back' and 'Update' are located at the top right of the main section.

A photo of the person could also be shown, if available.

Note: By default, users cannot update their profiles, Officer Information, or Employee Information unless they have been granted permissions to do so.

Access My Profile

To access **My Profile**, click your name on the upper right of the window, then select My Profile.

My Profile Page Layout

My Profile contains three sections on the left sidebar of the window:

User Information

Various user information, such as the user id, an active or inactive user account, whether the user is full or part-time, the organization and home agency of the user, whether or not the user

is an officer, and whether the user is an active or inactive employee.

This section is read-only.

User Quick Links

Links for quick access to specific functions, such as change password, change security questions, change home agency, and create assignment.

Change Password

Use this link to change your password while logged into Online RMS. When prompted, enter your new password, re-enter to confirm, then click the **Change Password** button, or click **Reset Via E-Mail** to have a temporary password emailed to you.

If you have forgotten your password, you can reset it from the Online RMS Login page. For more information, refer to "Resetting OnlineRMS Password" on page C.

Change Security Questions

Use this link to change your security questions. You can change one, two, or all three questions and answers. Click **Save**.

Change Home Agency

Use this link to change your home agency, if applicable. Select the agency from the drop-down list then click **Save**.

Create Assignment

Use this link to create an assignment, if applicable.

Select the assignment from the drop-down list, select a start date, select end date, if applicable, deselect Active if you do not want to enable the setting at this time, then click **Save**.

Go To

These are tabs to other user settings, such as profile information, preferences, external searches, subscriptions, officer information, and account history.

The tabs are based on permissions and may vary by user.

Click a tab to display settings for that tab. For example, click Preferences to view and update notification and other preference settings.

The Profile Information tab opens by default when you access *My Profile*.

Click on a tab under the **Go To** section of the left sidebar to access the tab. Profile Information is used in the below example.

The screenshot displays the 'My Profile' interface. On the left, a sidebar contains a 'Go To' section with a list of tabs: Profile Information, Preferences, External Searches, Subscriptions, Officer Information, and Account History. The 'Profile Information' tab is highlighted, and a red arrow points to it. The main content area is titled 'Profile Information' and contains a 'User Information' form. The form includes a profile picture placeholder with a question mark, and fields for First Name (Christine), Middle Name, Last Name (Saur), Telephone, E-Mail (CS), and E-Mail Enabled (checked). 'Go Back' and 'Update' buttons are located in the top right corner of the form area.

Note: Your agency administrator can update, add, enable or disable Jurisdictions for users. For more information on jurisdictions, refer to the *Caliber Public Safety Online RMS Administrator Guide*, or refer to your agency administrator.

Refer to the following for tab details:

"Profile Information Tab" on the facing page

"Preferences Tab" on the facing page

"External Searches Tab" on page 57

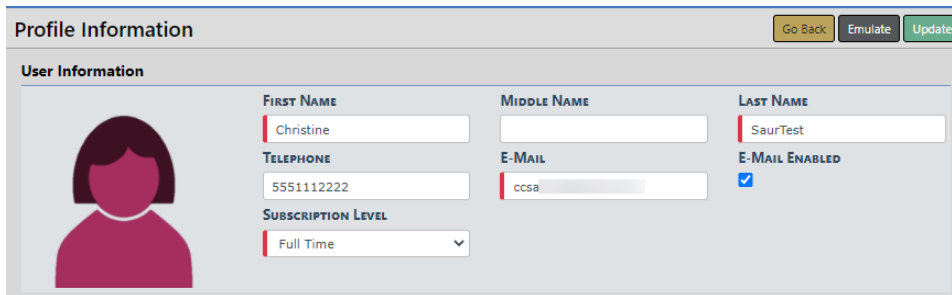

"Subscriptions Tab" on page 58

"Officer Information Tab" on page 59

"Account History Tab" on page 61

Profile Information Tab

Your Name, Telephone, and Email Address exists with an option to enable the email to receive notifications from the system.

The screenshot shows the 'Profile Information' tab with a 'Go Back' button, an 'Emulate' button, and an 'Update' button. Below the tab name is the 'User Information' section. It contains a profile picture placeholder, a 'FIRST NAME' field with 'Christine', a 'MIDDLE NAME' field, a 'LAST NAME' field with 'SaurTest', a 'TELEPHONE' field with '5551112222', an 'E-MAIL' field with 'ccsa', and a 'SUBSCRIPTION LEVEL' dropdown menu set to 'Full Time'. There is also an 'E-MAIL ENABLED' checkbox which is checked.

Make any necessary changes then click the **Update** button to save changes.

Preferences Tab

Use this tab to set notification preferences. You can enable or disable the audible alert, set email notification priority preferences, enable or disable Incident Setup Wizard, enable or disable Breadcrumb Options, set Day or Night Mode, set the Default Search Agency and Interfaces, identify Geographical Areas for court papers and warrants, and manage User Filters.

You can update your preferences from *My Profile*.

1. Access *My Profile* page. For instructions, refer to "My Profile Overview" on page 51.
2. Click **Preferences** under the *Go To* section.

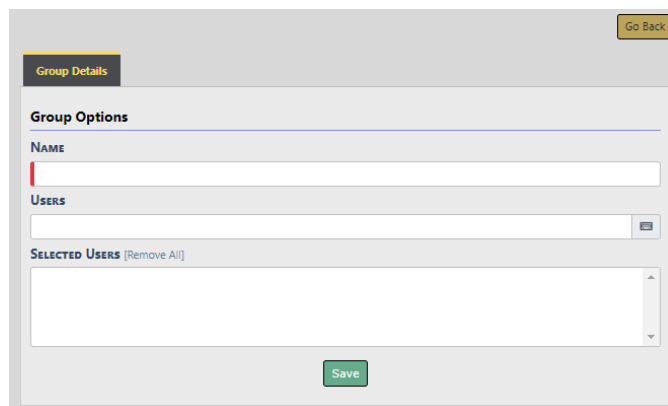

3. *Preferences* opens.

4. Complete the form as needed.
5. With proper permissions, you can optionally click the **Edit User Filters** link to include or exclude yourself in or from user groups.

For example, a supervisor can define a user group to filter notifications by daytime and weekend officers.

Name	Users	Actions
Daytime Officers	Kris LeClaire Johnny Smith	[Edit] [Delete]
Daytime Officers	Guy Schedule Felix Unger	[Edit] [Delete]
Weekend Officers	Samual Adams Howard Fine	[Edit] [Delete]

- a. Optionally, click the **Add Group** button to create a new group.

Enter a unique **Name**, select **Users**, then click **Save**.

- b. Optionally, click on the edit icon  to edit an existing group .
- c. Optionally, click on the trash icon  to delete an existing group.

External Searches Tab

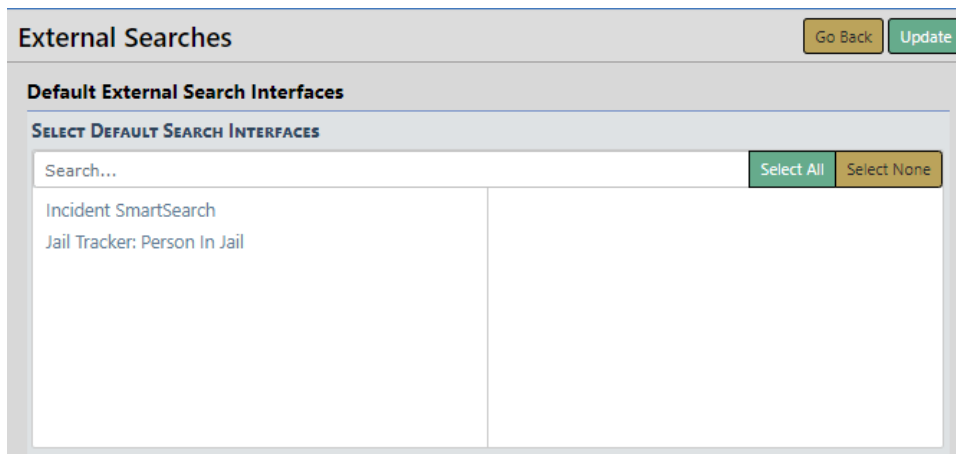

Caliber Public Safety Online RMS allows users to set their default external search interfaces.

You can access your external searches from *My Profile*.

1. Access *My Profile* page. For instructions, refer to "My Profile Overview" on page 51.
2. Click **External Searches** under the *Go To* section.

3. *External Searches* opens.

The available search interfaces appear on the left.

- Two search interfaces are shown for illustration purposes. If many are listed, then you could **search** for a particular interface rather than page down to look through a long list.
- Click on an interface in the list to **select**. The selected interface moves to the right side of the window.

Select as many available interfaces as you wish.

To **deselect**, click on an interface on the right and it moves back to the available column on the left.

- Click the **Update** button to save.

Subscriptions Tab

You can update or delete your existing subscriptions from *My Profile*.

- Access *My Profile* page. For instructions, refer to "My Profile Overview" on page 51.

2. Click **Subscriptions** under the *Go To* section.

 A screenshot of the 'Subscriptions' tab in the application. The tab is highlighted with a red box. Above the table is a 'Go Back' button. The table has columns: Name, Type, Index Name, Reason, Creation Date, and Actions. There are two rows of data: 'Vehicle' and 'Property'. Each row has an 'Add Subscription' button and a trash icon in the Actions column.

Name	Type	Index Name	Reason	Creation Date	Actions
Vehicle	Index Accessed	, 336	Asdf	05/04/2017	
Property	Index Accessed	APPLIANCE 1588	Asdf	05/03/2017	

Note: The **Emulate** button appears only for users with proper permissions.

3. Click the edit icon  to edit the subscription, or click the trash icon  to delete the subscription.

You can **Subscribe** to existing master index records (person, address, vehicle, etc.) to receive notification when someone views, updates or associates records to which you have interest.

For example, you can **Subscribe** to Williams Jones' master person record to receive notification when someone updates information on his master person record.

For more information on creating a **Subscription**, refer to "Subscribe to Master Records" on page 134.

Officer Information Tab

You can view your officer record from the *My Profile* page.

1. Access *My Profile* page. For instructions, refer to "My Profile Overview" on page 51.
2. Click **Officer Information** under the *Go To* section.

3. *Officer Information* opens.

Officer Information Go Back

4. Complete each of the fields for which you have information.

Hover your mouse over the CAD Badge blue information bubble ⓘ for mapping instructions with CAD users.

Note: For agencies with Caliber CAD spill integration with Online RMS, **CAD Badge** *must* match **Badge Number** in Caliber CAD.

Note: The system does not allow you to create or reactivate an RMS user with a duplicate badge number.

- Click the **Update** button on the top right of the form to save.

Account History Tab

Caliber Public Safety Online RMS automatically captures and logs when users log in or out of the application and whenever user account statuses change.

You can view your account history from *My Profile*.

- Access *My Profile* page. For instructions, refer to "My Profile Overview" on page 51.
- Click **Account History** under the *Go To* section.

- Account History* opens as read-only.

There are two tabs: *Status History* and *Login History*.

The *Status History* tab opens by default.

Chapter 4. Submit Ticket

Submit Ticket Overview

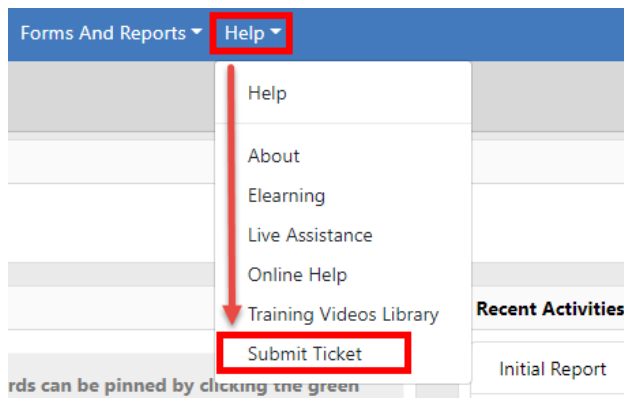

All users can submit a support ticket to our Support Team 24 hours a day from within Online RMS. How you submit a ticket depends on your permissions and agency setup:

- Enter your feedback onto an *Online RMS Support* form and submit.
- Automatically log into the Team Support website from within Online RMS and submit a ticket there.

For more information on which option you are setup to use, refer to your agency administrator.

How To Submit a Ticket

1. Click **Help** on the top menu bar, then **Submit Ticket**.

2. Follow one of the options below:
 - a. If your account is not configured to log into the Team Support website automatically, a pop-up *Online RMS Support* window opens.

Online RMS Support

We appreciate you taking the time to contact us and providing feedback on how we can improve Online RMS. Please choose among the following options.

ISSUE TYPE **APPLICATION AREA**

-Please Select- -Select-

CONTACT DIRECT PHONE #

SUBJECT

In the space below, describe the issue or enhancement request. Please be very thorough and descriptive. If you are encountering a software defect, please outline the workflow that reproduces the issue. It is preferred that you outline the workflow click by click, starting with the login screen, and ending with the screen name on which you are encountering the issue.

If you would like to **add a new user** - please include the full name, unique email address, subject, badge number, time code (Full-time, Part-time or Reserve) as well as an existing Online RMS user account we can mirror.

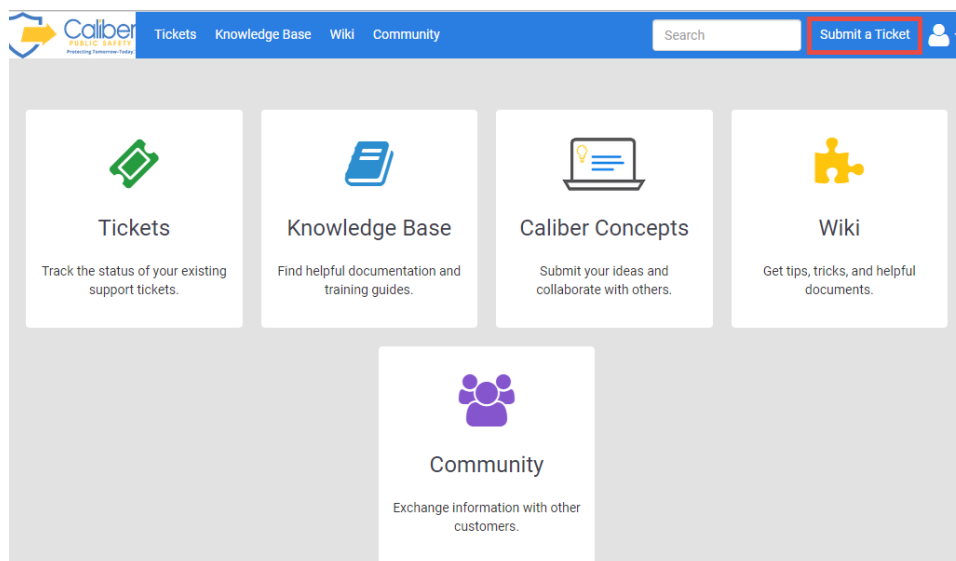

DESCRIPTION

Your agency is subscribed to our Standard Support Offering. With Standard Support, submitted tickets will be accepted 24x7 and will be responded to by the Support Team within one business day, during regular business hours (ET).

If your agency is interested in upgrading to Enhanced or Premium Support, please submit a ticket request. Your local sales representative will contact you.

Enhanced Support provides Telephone Support during regular business hours while Premium Support provides Telephone Support 24x7x365.

- Complete the form then click **Send**.
- b. If your account is configured to log you into the Team Support website automatically, Team Support opens in a separate window.

- Click **Submit a Ticket** and follow the Team Support ticket procedure.
- **Sign Out** and close the window when finished.

Chapter 5. Custom Forms

Custom Forms Overview

The Custom Forms feature must be enabled by Caliber Public Safety personnel. Only administrative users who have been assigned the appropriate role with the custom forms privileges can create or update custom forms, and only users who have been assigned roles with the custom forms privileges can use or search for the forms.

Routing for available Custom Forms notifies Online RMS users when a new submission occurs. The same review process is used for both public and non-public forms. To take action on the notification, you must have permissions to create an incident from a form.

Online RMS 11.3.2 and above supports **Community Reporting** of minor crimes, tips, and other police-related events that leverage the power of Online RMS *Custom Forms*.

For more information on **Community Reporting**, or public forms, refer to “Community Reporting” on page 303.

There are two ways to take action on submitted forms:

- From a Notification.
- From your Recent Activities.

For more information on taking action, refer to “Taking Action on Submitted Forms” on page 304.

The same method is used for searching and viewing public and non-public Custom Forms. For more information, refer to “Search For and View Custom Forms” on page 65.

Search For and View Custom Forms

To search for and view Custom Forms follow these steps:

Note: Searching for and viewing a publicly available custom form is the same as searching for a non-publicly available custom form.

1. Click on **Forms and Report** on the top menu.

- Click on the **Add/Search Custom Forms** option.
- Enter the search criteria using the fields provided. Click into the **Form Search Fields** to select Custom Form fields, and repeat to select multiple fields as shown below.

The screenshot shows the 'Search Forms' interface. On the left, a sidebar lists various forms, with 'Online Police Self-Reporting Form' highlighted in a red box. The main area displays the search criteria for this form. A red arrow points to the 'Field' column in the 'Form Search Fields' table.

Field	Search Parameter	Actions
First Name	Joe	[Icon]
Last Name	Public	[Icon]

If the form contains sub forms, an additional **Search Sub Forms** option also displays:

The screenshot shows the 'Search Preference' and 'Form Search Fields' sections. The 'Search Sub Forms' option is highlighted in a red box.

- Click the **Search** button to display the Custom Forms results that match your search criteria.

Creator	Create Date	Officer	Agency	Status	Record Details	Actions
System User, Auto	05/22/2020 15:17		Caliber Public Safety PD	Reviewed	Type: Incidents	

5. Click the **View icon**  to view the form.
6. Click the **Print Form** button to select print options, then click **Print** to open the form in a new tab in your browser. You can then download to a file or print directly to the printer.
7. With appropriate permissions, you can click the **Change Status** button to open the form for edit. Once opened, the creator of the form will have access to edit the form.

For more information on adding and managing Custom Forms, refer to the *Caliber Online RMS Admin Guide*, or your agency administrator.

If you receive a *Form Review Notification*, refer to "Taking Action via Notifications" on page 304 or "Taking Action via Recent Activities" on page 312 for more information. Refer to "Notifications" on page 25 for more information on Notifications.

Chapter 6. Attachments

Attachments Overview

Attachments are files that are accessed by other programs, such as a picture, document, spreadsheet, etc. These files are uploaded and saved to Online RMS modules that support attachments. For example, mugshot attachments could be uploaded and saved to person records, or mechanic hand-written quotes uploaded to Fleet Vehicle records.

Attachments appear in a grid, or columnar format.

Attachments Image Library + Add Attachment				
Keyword	File Name	Description	Date of Info	Actions
Mugshot - Front	383_1		09/25/2012	

You can edit and delete attachments that were created by you. Users with administrator privileges have the ability to edit and delete attachments for any user.

Click on the **Image Library** link to access your personal RMS image library that contains images uploaded by you from a mobile device, or other devices. For more information, refer to "Image Library" on page 75.

Add Attachments

Several Online RMS modules support **Attachments**. Access the module and record that contains the **Attachment** you need to add. For example, to add an Attachment tied to a person, go to that person record and page down to the **Attachment** section, then follow the directions below.

Attachments Image Library + Add Attachment				
Keyword	File Name	Description	Date of Info	Actions
Mugshot - Front	383_1		09/25/2012	

1. Click on the **Add Attachment** link to begin the upload process.

Note: Attachments are added to a temporary holding place or queue; you must then upload the files.

- a. Drag files to the **Queue** or click *Here* to add files from Windows Explorer.

The screenshot shows the 'Add Person Attachments' window. At the top right is a 'Go Back' button. Below the title bar is a '▼ Instructions' button. A red arrow points to this button with the text 'Click to display instructions'. The instructions text reads: 'You may use this to upload pdf,jpg,jpeg,bmp,png,doc,docx,xls,xlsx,txt,ppt,vsf,pptx files. Files must be no greater than 10 megabytes. You may upload a maximum of 10 files at once. Once you have uploaded the files, you will be able to add descriptions / edit file names / etc..'. At the bottom right of the instructions section is a 'Start Upload' button. Below the instructions is a large white box for file uploads. Inside this box, on the left, is the text 'Option 1: Drag and drop files into this box'. In the center is the text 'Drop Files Here, Or Click Here to Add Files'. A red arrow points to the word 'Here' with the text 'Option 2: Click on the word Here to add files'.

- b. When all the files are in the **Queue**, click **Start Upload** button to add the attachments. Click on **Remove File** to remove from the Queue.

The screenshot shows the 'Add Person Attachments' window after a file has been uploaded. The 'Go Back' button is still at the top right. The '► Instructions' button is now expanded. The instructions text reads: 'You may now modify the attachment details. If you want to make an image a mugshot, please choose an attachment type of Person Image. When finished, you may individually save each attachment by clicking Save & Close in each attachment area, or save all of them by clicking Save & Close All'. The 'Start Upload' button is still at the bottom right. Below the instructions is a large white box for the file queue. Inside this box is a thumbnail of a dog's face. Below the thumbnail is a 'Remove file' button. A red arrow points to this button with the text 'Click to remove the'.

Note: To abandon the upload process and return to the previous window click the **Go Back** button.

- c. Modify the attachment details when the following dialog window appears. The content of this window can vary.

The dialog window for editing attachment details includes the following fields:

- TYPE OF ATTACHMENT:** Person Image (dropdown)
- KEYWORD:** Image (dropdown)
- FILE NAME:** Fred_Flintstone.png (text input)
- DATE OF INFO:** 06/14/2021 (calendar icon)
- PHOTO TYPE:** Mugshot - Profile (dropdown)
- PRIMARY IMAGE:** ☐
- PHYSICAL DESCRIPTION:** Height: 5' 04"; Weight: (dropdown with plus icon)
- DESCRIPTION:** (large text area)

Buttons: Save & Close (bottom center), Save & Close All (top right and bottom right).

- d. Click **Save & Close** to save each attachment individually, or click **Save & Close All** to save all of them at once.
- e. The attachments then appear in the **Attachments** grid. You can view additional information, download, edit, or delete the attachment.

Note: Up to ten (10) items or a maximum of 10 megabytes of data can be uploaded at one time.

Edit Attachments

Several Online RMS modules support **Attachments**. Access the module and record that contains the **Attachment** you need to update. For example, to update an Attachment tied to a person, go to that record and page down to the **Attachment** section, then follow the directions below.

1. Click the edit  icon on the record you need to update.

Attachments View External Attachments Add Attachment				
Keyword	File Name	Description	Date of Info	Actions
PDF	TestDocument.txt		11/22/2019	 Download  Edit  Delete

Note: You cannot update attachments created by another user.

2. Make the necessary updates in the **Edit** window.

Note: The content of the **Edit** window will vary by module and file type. The **Edit Person Attachment** is used for illustration purposes.

Download **Edit** **Delete**

2. The file downloads to your local machine. Double-click on the file to open.

Chapter 7. Image Library

Image Library Overview

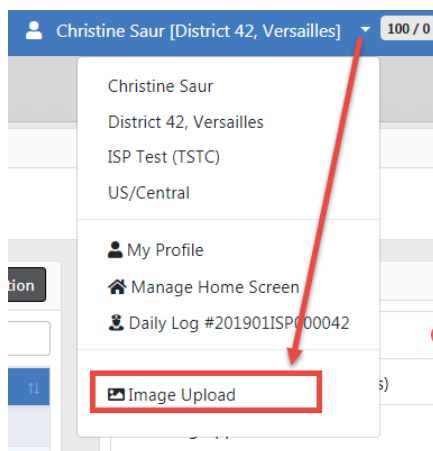

The **Image Library** is a personal RMS image library that contains images uploaded by you from a mobile device or other devices. Only your user account has access to these personal images.

You can then easily import images from your Image Library into incident reports, field arrests, and master person records.

Upload Image

You can upload images to your Image Library from your computer or directly from your mobile device.

1. Click the down arrow next to your user name on the top right of the window, then click **Image Upload**.

2. **Drag and Drop** files into the box, or click **Add Files**.

Go Back

Upload Images Manage Library

You can upload images here to save for later. These images can then be imported into Incident Reports or other areas of the application. Start by adding files below, and then press the Start Upload button.

Start Upload

Drop Files Here, Or Click Here to Add Files

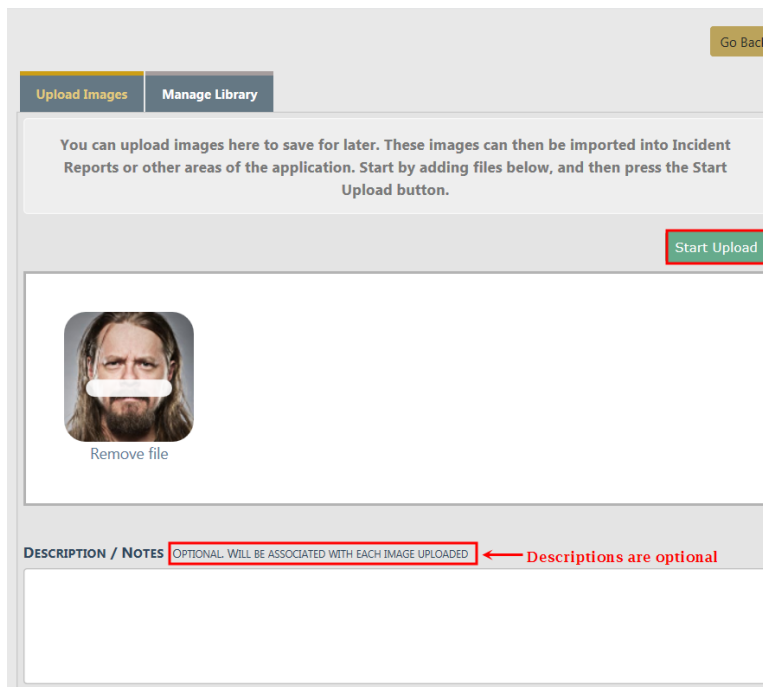

DESCRIPTION / NOTES OPTIONAL. WILL BE ASSOCIATED WITH EACH IMAGE UPLOADED

- a. If uploading from your *mobile device*, select **Camera** to take a photo and upload directly from the camera on your mobile device, or select **My Files** (or local folder) to upload from device storage.

Note: Only images are supported from the Image Uploader at this time. Video support coming in a future release that requires a subscription to large file storage option.

3. Click **Start Upload**.

The screenshot shows the 'Upload Images' tab of the 'Image Library' section. At the top right is a 'Go Back' button. Below the tabs, a message states: 'You can upload images here to save for later. These images can then be imported into Incident Reports or other areas of the application. Start by adding files below, and then press the Start Upload button.' A 'Start Upload' button is located on the right side of the upload area. Below this, a placeholder image of a man's face is shown with a 'Remove file' link underneath. At the bottom, there is a 'DESCRIPTION / NOTES' section with a red box containing the text 'OPTIONAL. WILL BE ASSOCIATED WITH EACH IMAGE UPLOADED.' and a red arrow pointing to it with the text 'Descriptions are optional'.

4. Click **Go Back** when the upload finishes.

You can delete or download images that exist in your Image Library. For more information, refer to "Manage Library " below.

You can also attach library images to incidents, arrests, and master person records.

Manage Library

You can delete or download images from your personal RMS Image Library.

1. Click on the **down arrow** next to your user name on the top right of the window, then click **Image Upload**.

2. Click on the **Manage Library** tab to access your uploaded image files.

Delete Image Files

1. Click on the **Manage Library** tab to access your uploaded image files, then select the image files you want to delete.

2. Click the **Delete Selected Images** button, then click **Yes** to confirm.

Message From RMS

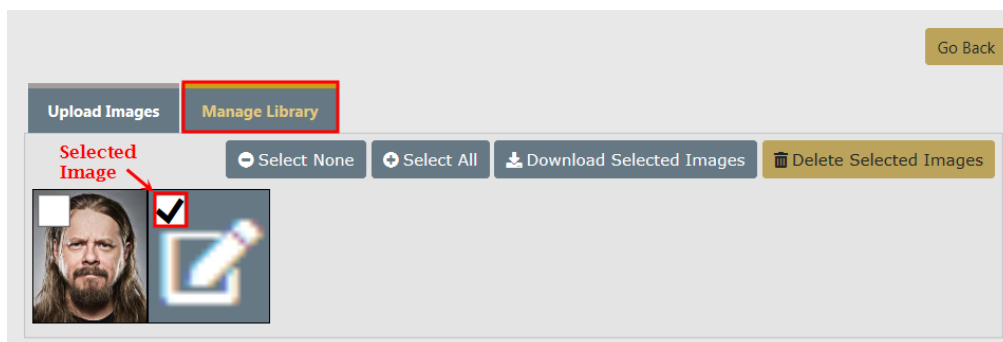

Are You Sure You Want to Delete 1 Images?

No Yes

Note: You can also delete uploaded images after you import them into an incident, fields arrest, or person record. For more information, refer to "Import Images From Library " below.

Download Image Files

1. Click on the **Manage Library** tab to access your uploaded image files, then select the image files you want to download.

2. Click the **Download Selected Images** button, then click **Open** or **Save** the files.

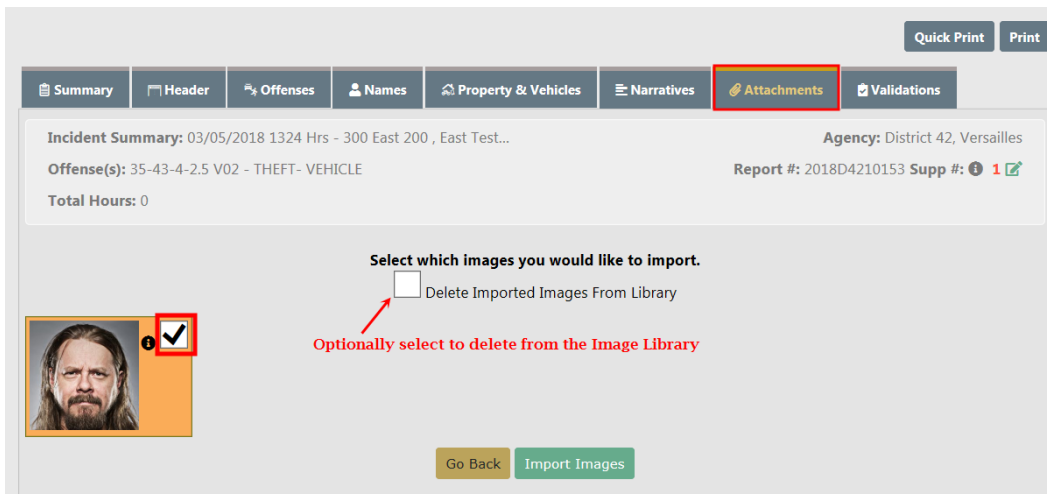

Import Images From Library

You can import image files from your Image Library into incidents, field arrests, and person records with permissions.

1. Click on the **Image Library** link under *File and Image Attachments* section. Incidents is used in this example; however, the same general process applies to field arrests and persons.

2. Select one or more images you want to import. You also have the option to delete the selected images from the Image Library.

3. Click the **Import Images** button at the bottom of the page. The image file then appears under *File and Image Attachments*.

Chapter 8. Master Indices

Master Indices Overview

Master Indices are centralized pieces of data that are accessed from different modules of the system for consistency. Each index is represented only once, such as a person, an address, a vehicle, etc. For example, all modules of Online RMS access the same person information for Joe Smith with SSN 123-12-1234 and the same vehicle information for VIN ABC1235223DE45455.

The following are considered **Master Indices**:

- Person

The **Master Person Index** stores identifying information for persons. Composite sketches and unlimited number of images can be attached, and person records can be linked to appropriate incident, arrests, and other system modules.

Note: If configured for your agency, you can take photos directly from the Online RMS Field Arrest or Master Person Index record using the **Hunter Camera** integration software installed on your local machine. The software associates the images with the *Master Person Index* record. For more information on the camera software, refer to “Hunter Camera” on page 844.

When a person is associated with an active warrant, an automatic Caution Flag appears on the master person index record:

The screenshot shows the 'Person Details' page for a person named BOB ALLEN. A red arrow points to a red banner that reads 'WARNING - Active Warrants Found'. Below the banner are several icons representing different actions or records: a person icon with '2', a person icon with '1', a person icon with '1', a person icon with '1', a person icon with '1', a person icon with '1', a person icon with '3', a person icon with '1', a person icon with '1', and a person icon with '26'. The record also includes fields for INDEX ID (949), LAST NAME (ALLEN), FIRST NAME (BOB), and SECURITY LEVEL (Level 3 - No Access to Data). There are also buttons for 'Pin Person', 'Go Back', and 'Visual'.

For more information on active warrants, refer to "Activate Warrant" on page 606.

While viewing or editing a person record, you can *Pin* it to your Home Page for quick reference.

To *Pin*, click on the green **Pin Person** button located on the top left of the page; the button color then changes from green to gold and the label changes to **Unpin Person**.

To *unpin*, click on the gold **Unpin Person** button.

For more information on pinned records that appear on the Home Page, refer to "Home Page - Prior to RMS 11.12" on page 8.

- Address

The **Master Address Index** stores address information. If a geo-file is available, the address can be validated and geo-coded (latitude and longitude values included).

- Organization

The **Master Organization Index** stores information about the organizations with which the department comes into contact. Each organization in the index can have multiple emergency contacts associated with it and link to incidents, patrols, security alarms, standard operating procedures, and other system modules.

- Vehicle

The **Master Vehicle Index** tracks a vehicle's history with the department and has the ability to link a vehicle to incidents, name, businesses, stolen vehicle history, citations, evidence, and other system modules.

- Property

The **Master Property Index** tracks stolen, lost, and recovered property. It also stores descriptive information including property disposition and associated incident and person data. Media files and documents can attach to the Master Property Index record. Property data easily transfers to evidence, and property owner information resides in the Master Person Index.

- Gang

The **Master Gang Index** stores information about street gangs with which the department comes into contact.

Master Index Security

User access to master index data in Online RMS is controlled by **Master Index Security**, a hierarchical design where **Level 1** is the lowest and **Level 3** is the highest security. The Security Level exists on every master index record, and on each user account, to control data access. The **Master Index Security** applies to all master indices: Person, Address, Organization, Vehicle, Property, and Gang.

Master Indices Security Levels

SECURITY LEVEL	
Level 1 - Access to all Data	
Level 2 - Conditional Access to Data	
Level 3 - No Access to Data	

- **Level 1**
 - No security restrictions to the master index record.
 - The default level for new master indices records.
- **Level 2**
 - Conditional security in place to restrict viewing of involvement data from the indices summary page.
- **Level 3**
 - Restrict viewing of the master indices in searches and displaying on event records.

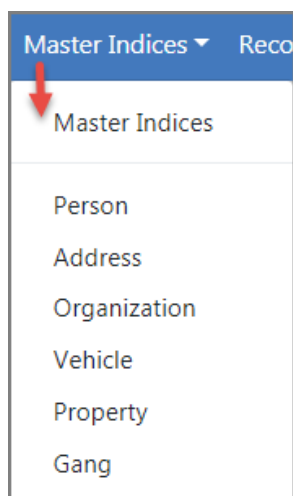

User Account Index Security Levels

- **Level 1**
 - View full details of master index records having **Security Level 1**.
 - Only view the indices demographic information for master indices records having **Security Level 2**.
 - And, Not see master indices records that have **Security Level 3**.

- The default level for all new user accounts.
- **Level 2**
 - View the full details for master indices records having **Security Level 1**.
 - View the details for master indices records having **Security Level 2**.
 - And, Not see master indices records that have **Security Level 3**.
- **Level 3**
 - View the full details for master indices records having **Security Level 1**.
 - View the full details for master indices records having **Security Level 2**.
 - And, view the full details for master indices records having **Security Level 3**.

Accessing Master Indices

Master Indices are accessible, with appropriate permissions, by selecting the **Master Indices** button on the top navigation bar. The down arrow on the right of the button indicates additional menu options are available. Click on the **Master Indices** button to display menu options.

Each Index on the list contains additional information that pertain to that Index. For example, *Person* includes gender, race, date of birth, hair and eye color, ethnicity, etc.; *Vehicle* includes the vehicle model, color, VIN, etc.

You can update and print **Master Indices** records. Beginning with the Online RMS 11.6 release, you can delete Person records with appropriate permissions. **Master Indices** records also provide Total Involvements of the record within Online RMS, Common Event Associations, and the ability to create a Subscription that notifies you when a particular record is accessed, updated, and/or associated to a module within RMS. You can also use **SmartSearch** in the person section for locating person involvement in incidents across all counties in the Online RMS system within your agency's state.

The standard configuration imposes a *100 hour edit lock rule* for all **Master Indices**. This means that the user adding the initial primary information has up to 100 hours to fix any errors but it cannot be edited by another user. Examples of primary information include an incorrect date of birth, social security number, street spelling, vehicle year, VIN, organization spelling, and gang spelling. You cannot edit primary information after 100 hours unless your administrator has given you access to do so, but you can add additional information at any time.

Note: The exceptions to this rule are Sex, Race, and Ethnicity. Updates to these fields are allowed if the previously selected value was *Unknown*, and your administrator has given you the *Master Indices - Add Missing Person Info Past Lock Hours* permission. Refer to your administrator for more information.

To access a particular master record, you must first search for the record. A *Search* window appears when you click on any one of the menu items. Search for a particular record, or groups of records, to narrow the search results, then select the record from the list. You can also export the search results to a file. For more information on searching, refer to "Searching Master Records" below.

Searching Master Records

You can search any of the **Master Indices** at any time. Generally, searches are done to identify existing records when creating an Incident report or using another module within the application. If the record already exists, copy the information directly into the Incident report or other module. It is highly recommended you review the existing information prior to using it. This will give you the opportunity to update or add additional information if it is available. If an existing record is not available, you can, with proper permissions, create the master record directly from the module in which you are working.

Note: You can search and view Master Person or Vehicle records that were created on specific dates or by specific users.

Master Indices are accessible, with appropriate permissions, by selecting the **Master Indices** button on the top navigation bar. For more information on accessing the **Master Indices** button, refer to "Accessing Master Indices" on page 86 .

A *Search* window appears when you click on any one the of menu items. Each menu item calls up a *Search* window with left-hand menu links. Choosing Master Indices or Person takes you to the Person screen of the *Search* window, choosing Address takes you to the Address screen, choosing Vehicle takes you to the Vehicle screen, etc.

Note: Person and Address search instructions are provided, though the same general process is also used when searching for Organization, Vehicle, Property, and Gang.

Person Search

A search can be done with full or partial text in any of the fields provided. You may also choose to filter results to include **Known**, **Unknown**, or **All** (both Known and Unknown) persons. Searching with less information yields more results. If too many results display, you can click on the **Refine Search** button on the top right of the *Search Results* window to add or change your search criteria.

Click the **Person in Custody** link to search for persons who are in custody. (This link will only be visible if custody records are synced to RMS.)

When custody records are synced to RMS and a person search returns a person who is in custody, an alert dialog will display. In-custody results allow you to edit the person (if there is a master person record) or create a master person record for the in-custody person if no such record exists.

Limit Results To 50 Records

Reset Search

Enter one or more search terms and click Search to continue

Enter or select one or more search criteria, then click **Search** to display a mug shot photos that match your search criteria.

Optionally, click the **Help** button for tips and guidance on this Search window.

Additional Search Criteria

You can also include **Additional Search Criteria** if configured for your agency.

- Select -

- Physical Description
- Birthplace/Citizenship
- Miscellaneous ID
- Email / Web Address
- SMT
- Address
- Phones
- Vehicles
- Cautions
- Person Images
- Combo

- Select -

Note: Choose **Cautions** from the **Additional Search Criteria** drop down to search person records by Caution Code.

Note: Choose **Person Images** to search images by photo type (mugshots, etc.) and by date range.

Note: Choose Combo to search by a combination of fields such as, physical description, miscellaneous IDs, address, phone, vehicle, caution codes, and person images.

Power Search

You can conduct a **Power Search** across other counties, if configured for your agency.

Check the **Caliber Power Search** box, then click on the **funnel**  to choose which counties you would like to include in your search.

The image shows a screenshot of the 'CALIBER POWER SEARCH' dialog box. At the top, there is a header with the text 'CALIBER POWER SEARCH' and a funnel icon. Below the header is a checkbox that is checked. The main area of the dialog is titled 'Available Counties' and contains the instruction 'Select which systems you want to search on'. There are two buttons: 'Select None' (red) and 'Select All' (green). Below these buttons is a list of four items, each with a checked checkbox: 'DEMO RMS (DEMO)', 'COUNTY DEMO, TX (TXDEMO)', 'DEMO RMS (DEMO)', and 'MODEMO (MODEMO)'. At the bottom right of the dialog are 'Close' and 'OK' buttons.

The list of available counties varies by agency.

Search Results

Every master record will be assigned an Index ID number by Online RMS when it is created. Click on the **Index ID** or the **Last Name** in the *Search Results* window to open the *View Person Details* window to view a specific record. Select the edit icon  on the *Search Results* page to update a record.

While viewing or editing a person record, you can *Pin* it to your Home Page for quick reference.

To *Pin*, click on the green **Pin Person** button located on the top left of the page; the button color then changes from green to gold and the label changes to **Unpin Person**.

To *unpin*, click on the gold **Unpin Person** button.

For more information on pinned records that appear on the Home Page, refer to "Home Page - Prior to RMS 11.12" on page 8.

Master Index Associations

The Summary tab also summarizes the associations on the top portion of the tab. Click on the total count hyperlink to go directly to a list of those records.

Click on the **Residence Address** link to access the address record.

DRIVERS LICENSE STATE Alaska	
CELL PHONE --	RESIDENCE ADDRESS 126 North 750 West IN

The address record integrates with **Google Maps** when a latitude and longitude are associated with the address, displaying the address location on the map.

The screenshot shows the 'Address Details' page. At the top, there are tabs for 'Address Details' and 'Address Summary'. Below the tabs, there is a 'SmartSearch (0)' button. A red arrow points to the 'Map' button. The main content area contains a table with the following data:

STREET #	DIRECTION	STREET NAME	TYPE
126	North	750	
DIRECTION SUFFIX	SUB TYPE	SUB #	CITY
West			
STATE	ZIP	COUNTY	COUNTRY
Indiana	-		United States of America

Below the table, there is a 'COMMENTS' section. At the bottom, there is a 'View Incidents In This Area' button. The page also shows a 'Total Involvements' section with a table:

Incidents	04/16/2018	9

Click on the **View Incidents In This Area** button to view closet incidents on the map.

Click on the **Print Report** button to print the master person record. For details, refer to "Print Master Person Records" on page 131.

If you search the **Master Indices** from within a module (Incident Report, for example), a select icon  appears that allows you to select and use the record easily. It is highly recommended you review the existing information prior to using it. This gives you the opportunity to update or add additional information if it is available.

Person Active Alerts

A red *Alert Icon*, that appears next to the person's name in the *Person Search Results* window, indicates there are **Active Alerts** on that person. Hover your mouse over the *Alert Icon* to view a summary of the all the active alerts, or click on the *Alert Icon* to open details of all active alerts in a pop-up window.

A blue *Information Bubble*, that appears to the left of the person's name, indicates a photo exists on that person's record. Hover your mouse over the bubble to view the image.

There are various types of **Person Alerts**: Active Cautions, Active Warrants, Active Court Papers, Juvenile, In Custody, etc.

If the person is a juvenile, an alert displays in red.

Agency administrators with appropriate permissions can create custom Caution Codes, Caution Categories, and assign Caution Category Roles, allowing administration of Caution Codes by specified user Roles and Categories. For example, you could have a specialized unit that keeps track of persons on probation, and only agency administrators or users assigned to this Role can add, edit or delete these codes on person records.

Refer to your agency administrator or *Online RMS Administration Guide* for details on administering Caution Codes.

View Mobile Person Results in Online RMS

For agencies using both *Caliber Mobile* and *Online RMS*, person results that exist in *Caliber Mobile* within the last 24 hours are accessible on the Master Index Search page in *Online RMS* by a **Mobile Results Available** link prefixed by the number of results found.

Click on the **Mobile Results Available** link to display the *Mobile Results*.

Address Search

The **Quick Search** returns addresses that match every typed word in the field. For example, *100 north* will return all master address records that contain the words *100* and *north*. For a list of everyone living in Indianapolis, Indiana, simply type: Indianapolis IN. You can enter the street number, direction, street name, street type, city, state, and zip, or a combination (*100 Indianapolis*, for example).

The screenshot shows the 'Address Search' interface in Online RMS. At the top, there are tabs for 'Person', 'Address Search' (highlighted with a red box), 'Organization', 'Vehicle', 'Property', and 'Gang'. Below the tabs is a 'QUICK SEARCH' section with a text input field containing '100 AsH' and a 'Quick Search' button. Below the search bar are four fields: 'STREET #' with a 'To' dropdown, 'DIRECTION' with a '-Select-' dropdown, 'STREET NAME' with a text input, and 'TYPE' with a '-Select-' dropdown. An 'Add Address' button is located in the top right corner.

Q Location Search Results

⚠ 100	100 Ash Street INDIANAPOLIS IN 01234-7777	INDIANAPOLIS, IN	01234-7777	120	Yes	

Geo Verified Yes/No

In the results list, click on an Index ID link to quickly view address details.

Zip	Index ID	Geo Verified
46102	656	Yes

You can search for records that were created within a particular date range or by a particular user.

CREATOR	CREATION DATE FROM	CREATION DATE TO
Christine Saur - District 42, Versa	04/01/2019	12/01/2019

You can search for address records by Latitude and Longitude using the **Other Info** option under *Additional Search Criteria* located at the bottom of the page.

ADDITIONAL SEARCH CRITERIA		
Other Info		
LATITUDE	LONGITUDE	SEARCH RADIUS (FEET)
37.791768	-122.3944	100

You can also search address records by Caution Code using the **Cautions** option under *Additional Search Criteria*.

For instructions on adding an address to the Master Index, refer to "Adding Address" on page 109.

Adding Master Index Records

Master Index records can be added with appropriate permissions. If the Master Index record you searched for does not exist, click on the **Add** button to create the Master Index record.

Note: Person, Address, and Property instructions are provided, though the same general process is also used when adding Organization, Vehicle, and Gang.

For details on accessing the Master Indices, refer to "Accessing Master Indices" on page 86.

For details on searching for Master Index records, refer to "Searching Master Records" on page 87.

Adding Person

After searching for a Master Person record, the *Person Search Results* screen either displays a list of names that match your search criteria, or it indicates no records are found. For more information about searching Master Indices refer to "Searching Master Records" on page 87.

To add a new person record, click the **Add Person** button to open the *Add Person* screen.

Physical Description, Person Photo/Mugshot, Residence Address and Vehicle are included on the *Add Person* screen.

Note: To maximize your screen real estate and improve usability, the *Add Person* entry fields dynamically scale to screen size, reducing the number of rows when adding a new master person record.

The system checks for duplicate Master Person, Master Address, and Master Vehicle records automatically based on certain criteria.

For a visual of the duplicate auto search criteria, hover your mouse over the information bubble  as shown below. An information box describing the criteria appears, and the criteria fields change to red.

Note: This applies to Person Information, Residence Address, and Vehicle sections.

The following describes the duplicate auto search criteria per section:

Person Information

- *Last Name and First Name*
- OR SSN
- OR *Last Name, First Name, and DOB*
- OR *DL Number and DL State*.

Note: *Sex, Race, and Ethnicity* are required, so you must also select values in these fields even though they are not criteria in the duplicate search process.

Residence Address

- *Street Number, Street Name, City, and State*

Note: Beginning with RMS 11.10, location search is greatly enhanced. Begin typing the address and the system will return RMS locations. If your agency has Google Places turned on, you will also see Google addresses. Links will appear that allow you to add addresses and/or interact with a map for location identification.

Vehicle

- VIN
- OR *License and State*

When the automatic duplicate search is complete, a message appears on the top right of each section, indicating whether or not possible duplicates are found.

For more information about duplicate records, refer to "Duplicate Records" on page 120 .

You can add a person one of two ways:

- Manually enter the data in each section.
- Import from external systems, if applicable to your agency.

Manual Entry

Enter Person Information

Enter the person information. Online RMS checks for duplicates automatically, and it displays a message indicating whether or not duplicates exist. For more information about duplicate records, refer to "Duplicate Records" on page 120.

The **Security Level** field displays for users that have an **Index Security Level** greater than 1 defined on their user profile page. There are three levels that control data access: Level 1, Level 2, Level 3. Level 1 is the default security level for new master indices records and on all new user accounts.

SECURITY LEVEL
Level 1 - Access to all Data
Level 2 - Conditional Access to Data
Level 3 - No Access to Data

For more information on Master Index Security, refer to "Master Index Security" on page 85.

When entering the DOB, a verification message displays at the top of the form when the person is a Juvenile or is older than 100.

Person Information

No Duplicates Found
 Go Back

SECURITY LEVEL

Level 1 - Access to all Data

LAST NAME	FIRST NAME	MIDDLE NAME	TITLE	DOB	SSN
Boevers	Christine		-Select-	09/25/2010	
SEX	RACE	ETHNICITY	DRIVER'S LICENSE NUMBER	DRIVER'S LICENSE STATE	
Female	White	Unknown		-Select-	

Add additional person and physical description information in the fields provided.

Enter Caution Codes

If you have appropriate permissions to add a **Caution Code** to a person record, click **Add Caution Code** to open the *Add Caution Code* form.

For details on adding a Caution Code, refer to "Caution Codes" on page 127.

Enter Residence Address

Click **Add Residence Address** to open the *Address Search* screen.

The first field *One Line Entry* on the *Address Search* screen can be used to type the entire address on one line and perform a **Geo Search** against **Google Maps** or you can add the Street #, Name, Type, and City, and State in the appropriate boxes, then click to **Geo Verify**. A green *Geo Verified* message appears on the top left of the *Residence Address* section when successfully verified.

The system imports the available information such as, County, Country, Latitude, Longitude, zip. Review the imported data for accuracy and add or update information as needed.

It is important that all addresses save with their corresponding coordinates as Online RMS uses the information when performing event mapping.

After entering address data, Online RMS checks the *Master Address Index* for duplicates automatically, and it displays a message indicating whether or not duplicates exist. For more information about duplicate records, refer to "Duplicate Records" on page 120.

Add Multiple Addresses

Click the Add Address in the Address grid to add multiple address types, such as residence, business, p.o. box, etc.

You can also select the **Make Most Recent** icon to make a duplicate of that address, then make any necessary changes.

Address	Type	Occupied	Comments	Date of Info	Actions
100 3rd Street Oaktown, IN 47561	Residence	-		10/13/2021	Make Most Recent, Edit, Delete
100 3rd Street Oaktown, IN 47561	Residence	-		07/13/2021	Make Most Recent, Edit, Delete

Enter Relations Information

Click the **Add From Master Person** link to open the *Person Search* screen to search for the name in the Master Person Index module.

Or, click the **Add Without Master Person Record** link to provide minimal information if insufficient information is available to create a master person record.

Enter Vehicle Information

After entering initial vehicle data, Online RMS checks the *Master Vehicle Index* for duplicates automatically, and it displays a message indicating whether or not duplicates exist. For more information about duplicate records, refer to "Duplicate Records" on page 120.

To remove your entered text from the residence address fields, click on the **Reset** button

Note: Add additional vehicle information in the fields provided. You must select a **Role** before allowed to save the record.

Save Entry

After entering the necessary information, click the **Save** button on the bottom or top of the screen to save the entry and open the *Person Details* screen.

The screenshot shows the 'Person Details' form. At the top right are buttons: 'Go Back', 'Visualization Tool', 'View Summary', and 'Subscribe'. Below these is a 'Person Details' header with a person icon. The form contains the following fields:

- INDEX ID:** 1135
- SECURITY LEVEL:** Level 1 - Access to all Data
- LAST NAME:** Leclaire
- FIRST NAME:** Christine
- MIDDLE NAME:** (empty)
- TITLE:** -Select-
- DOB:** 12/13/1989
- SSN:** (empty)
- SEX:** Female
- RACE:** White
- ETHNICITY:** Unknown
- DRIVERS LICENSE:** (empty)
- DRIVERS LICENSE STATE:** -Select-
- RESIDENCE PHONE:** (empty)
- CELL PHONE:** (empty)
- RESIDENCE ADDRESS:** LA PORTE, TX 77571

At the bottom are buttons: 'Go Back' and 'Save'. Below the buttons is a message: 'No Images Available Add Person Image'. At the very bottom is a section for 'Caution Codes' with a warning icon and a button 'Add Caution Code'.

Apply any additional updates if needed, then click **Save**.

Import/Update Person Results from External Systems

Import New Person

If a person record does not exist in Online RMS, data from the external data source can be imported.

Caliber Mobile

For agencies using both *Caliber Mobile* and *Online RMS*, person results that exist in *Caliber Mobile* within the last 24 hours are accessible on the *Add Person* screen by click-

ing on the **Mobile Results Available** link that is also prefixed by the number of results found.

The image shows the 'Person Search' form. At the top right, there is a button labeled 'Mug Shot Search - By Physical Description' and another labeled 'Add Person'. Below these, there is a red rectangular box. A red arrow points from the text 'Mobile Results Available link appears here if applicable' to this box. The form itself contains various input fields for personal information: LAST NAME, FIRST NAME, MIDDLE NAME, TITLE, DOB, AGE, RACE, SEX, INDEX ID, DRIVERS LICENSE, DRIVERS LICENSE STATE, SSN, NAME TYPE, CREATOR, CREATION DATE FROM, CREATION DATE TO, PHONETIC, SOUNDEX, CALIBER POWER SEARCH, and SEARCH PREFERENCE (ALL, ANY). There is also an 'ADDITIONAL SEARCH CRITERIA' dropdown and a 'Search External Systems' button. At the bottom are 'Go Back', 'Reset', and 'Search' buttons.

Select the person record from the *Mobile Results* screen.

Mobile Results		
Image	Summary	Actions
	<p>Last Name: Person First Name: Test Middle Name: N DOB: 11/07/1979 Drivers License: CO111111 Weight: 170 Eyes: BRO Hair: BLN Source: DMV: DMV Address: 444 E 10th Ave Denver Colorado 80203 VIN: ABCDE1234FGH43273 Year: 1993 Make: CHEV Model: BLA License: NJ</p>	

External Person Search Interfaces

For agencies having access to *Online RMS Statewide*, *InterDEx*, *Jail Tracker*, and other External Person Search interfaces, click on the **SmartSearch** drop-down list in the *Person Search Results* for a list of search options, or click **Online RMS DataShare Search** to view potential matches outside of the Online RMS for the person.

The image shows the 'Person Search Results' screen. At the top, there are buttons for 'Refine Search', 'New Search', 'Add Person', and 'Online RMS DataShare Search'. Below these, there is a search bar with 'Person Search Results' and a dropdown menu for 'SmartSearch (42)'. A red box highlights the text '1 result(s) found. 1 result(s) found using Online RMS DataShare Search.' Below this, there is a table with columns: Name, Title, Sex, Race, DOB, SSN, Misc ID, Name Type, Index ID, and Actions. The first row shows a person with Name 'Person', Title 'Test', Sex 'M', Race 'W', DOB '11/07/1979', SSN 'CO111111', Misc ID 'N', Name Type 'Primary Name', and Index ID '1124'. There is a red arrow pointing to the 'SmartSearch (42)' dropdown and a red box around the search results text.

The example below steps you through the *Jail Tracker* import process.

Click **Person in Jail** under **SmartSearch**, then click on **Import Record**.

Person Search Results **Person In Jail**

Manually update data as needed and select images to include, if applicable.

Click **Save** to create the applicable Master Index records or click **Go Back** to return to *Master Index Search*.

Update Existing Person

If a matching person record exists in the Online RMS, data from the external data source can be added to the existing person record. Start by selecting the person from the duplicate search results dialog box.

Caliber Mobile

For updating persons coming from Mobile DIS returns, select the duplicate existing person record during the **Add Person** flow, then select **Yes** when asked if you would like to *import your data into the person record*.

Message From RMS

Would you like to import your data into this person record?

No Yes

For details on importing a person from Caliber Mobile refer to "Caliber Mobile" on page 105.

Other External Data Sources

For *Statewide*, *InterDEx*, *Jail Tracker*, and other External Search Sources, updates to add data from the external data source can be made directly from the *Edit Person* page. Click **SmartSearch**, then click the applicable item from the list to view potential matches from external data sources.

On existing records, an **Update Record** button appears instead of **Import Record** that is shown under the *Import Person* section. Click on the link to choose information from the external data source to add to the existing person record, including photo if available.

Adding Address

Note: When adding a new person, the address can be added as part of that process. For more information about adding a person, refer to "Adding Person" on page 100.

When an initial search of the database does not locate an existing address matching the search parameters, select the **Add Address** button to add the address. For more information about searching addresses, refer to the *Address Search* section of "Searching Master Records" on page 87 .

The following fields are required if configured as such for your agency:

- County
 - Your agency administrator can require you to enter the County by setting the ADDRESS_REQUIRE_COUNTY *Maintenance Value* flag to Y. Refer to your agency administrator for more information.
- Latitude and Longitude
 - Your agency administrator can require you to enter the Lat and Long by setting the ADDRESS_REQUIRE_LAT_LONG *Maintenance Value* flag to Y.

Specific Address

The top *Address Search* line can be used to type part or all of the address on one line and perform a **Geo Search** against **Google Maps**, or you can add the Street #, Direction, Street Name, Type, and City, and State in the appropriate boxes then click to **Geo Verify**.

Note: It is important that all addresses are saved with their corresponding coordinates as Online RMS uses the information when performing event mapping.

The screenshot shows the 'Address Information' form. At the top right is a 'Go Back' button. Below it is the 'SECURITY LEVEL' dropdown set to 'Level 1 - Access to all Data'. The 'ADDRESS SEARCH' section has a text input field containing '123 Main Street' and a 'Geo Search' button. Below this are several input fields: 'STREET #' (empty), 'DIRECTION' (dropdown: '-Select-'), 'STREET NAME' (empty), 'TYPE' (dropdown: '-Select-'), 'DIRECTION SUFFIX' (dropdown: '-Select-'), 'SUB TYPE' (dropdown: '-Select-'), 'SUB #' (empty), 'CITY' (empty), 'STATE' (dropdown: '-Select-'), 'ZIP' (empty), 'COUNTRY' (dropdown: '-Select-'), and 'COUNTRY' (dropdown: 'United States of America'). There is also a 'COMMENTS' text area. A red box highlights the 'ADDRESS SEARCH' field, and a red arrow points from it to the 'Geo Verify' button in the 'Geographical Information' section. A red text box with an arrow pointing to the 'Geo Verify' button contains the text: 'Perform one-line search or enter address into individual fields, then click Geo Verify to verify the address'. The 'Geographical Information' section includes a 'REPORTING AREA' dropdown, 'LATITUDE (Y)' and 'LONGITUDE (X)' input fields, and 'Go Back' and 'Save' buttons at the bottom.

The **Geo Search** returns either an exact address match along with a map showing a pin positioned on it and will fill in the Latitude and Longitude for the searched address, or a possible list of address matches from which you choose fills in the Latitude and Longitude information. If the returned pin on the map is not in the exact location, you can move the pin by clicking on the map in the location that the pin should be positioned; this updates the Latitude and Longitude coordinates.

Example of an exact match:

Geographical Information Geo Verify

REPORTING AREA: -Select- LATITUDE (Y): 37.791768 LONGITUDE (X): -122.3944

37 47 30.365 N 122 23 39.937 W

Exact Match Found

- 123 Main St, San Francisco, CA 94105, USA (Exact Match Found)

Go Back Save

Note: Beginning with software version 11.13, maps have +/- buttons to facilitate zooming in and out for users not using a mouse.

If multiple addresses appear in the list a **Use This Location** link appears next to every listed address record. Click the **Use This Location** link to choose a selected address and add it to the record.

Geographical Information Geo Verify

REPORTING AREA: -Select- LATITUDE (Y): 37.223087 LONGITUDE (X): -95.706035

37 13 23.113 N 95 42 21.726 W

Multiple Matches Found

- W 7th St, Fort Worth, TX, USA [Use This Location](#)
- 7th St, Los Angeles, CA, USA [Use This Location](#)

Map Satellite

Once the correct **Geo Location** is selected and the coordinates are updated, verify the address information entered into each field.

Note: Vehicle, Gang, and Organization information is added by using the same process; searching for an existing record first. If the record does not exist, select the *add* hyperlink.

Intersections

Intersection information can be parsed from Google search results and imported into the address record.

Enter the intersection information into the **Address Search** field then click **Geo Search**. to view the Goggle search results.

ADDRESS SEARCH

main street and front street, Bloomington Illinois 61701 Geo Search

In the Google search results window, click the **Use This Location** link to parse the intersection information and import into the record.

The screenshot shows the 'Geographical Information' window. It includes a 'REPORTING AREA' dropdown set to '-Select-', and input fields for 'LATITUDE (Y)' and 'LONGITUDE (X)'. A map is displayed with 'Map' and 'Satellite' buttons. A red box highlights a search result: 'undefined. Some possible matches: • N Main St & W Front St, Bloomington, IL 61701, USA[Use This Location]'. A red arrow points to the 'Use This Location' link.

A close-up of the search results snippet from the previous image. It shows the text 'undefined. Some possible matches:' followed by a bullet point: '• N Main St & W Front St, Bloomington, IL 61701, USA[Use This Location]'. A red arrow points to the 'Use This Location' link.

The screenshot shows two forms: 'ADDRESS SEARCH' and 'Intersection'.
ADDRESS SEARCH form fields include:
 - Search bar: 'main street and front street, Bloomington Illinois 61701'
 - 'Geo Search' button
 - 'STREET #' input field
 - 'DIRECTION' dropdown: 'North'
 - 'STREET NAME' input field: 'Main'
 - 'TYPE' dropdown: '-Select-'
 - 'DIRECTION SUFFIX' dropdown: '-Select-'
 - 'SUB TYPE' dropdown: '-Select-'
 - 'SUB #' input field
 - 'CITY' input field: 'Bloomington'
 - 'STATE' dropdown: 'Illinois'
 - 'ZIP' input field: '61701'
 - 'COUNTY' dropdown: '-Select-'
 - 'COUNTRY' dropdown: 'United States of America'
 - 'COMMENTS' text area
Intersection form fields include:
 - 'STREET #' input field
 - 'DIRECTION' dropdown: 'West'
 - 'STREET NAME' input field: 'Front'
 - 'TYPE' dropdown: 'Street'
 - 'DIRECTION SUFFIX' dropdown: '-Select-'
 - 'DISTANCE' input field and dropdown: '-Select-'

Dynamic Map Marker

For events occurring at locations that are not at a specific address, you can drag the map marker location on the map to use Geo-Coordinates for that location. Choose a result from the location matches found, then drag the Map Marker to the exact location on the map to update the Geo-Coordinates for the Master Location record.

A message appears stating that moving the marker results in a change to the lat long, but not the written address. Select **No** to abort the change, or **Yes** to continue.

The screenshot shows a web application interface for RMS. A modal dialog box titled "Message From RMS" is displayed in the center, containing the text: "Moving the map marker will result in a change to the lat long, but not the written address. Do you want to continue?" with "No" and "Yes" buttons. Below the dialog, the "Intersection" section contains fields for "STREET #", "DIRECTION", "STREET NAME", "TYPE", "DIRECTION SUFFIX", and "DISTANCE". The "Geographical Information" section includes a "REPORTING AREA" dropdown, "LATITUDE (Y)" and "LONGITUDE (X)" fields, and a map. The map shows a location in Brooklyn, NY, with a red pin marker. To the right of the map, a list of "Multiple Matches Found" is displayed, including "514 E 7th St, Brooklyn, NY 11218, USA (Exact Match Found)" and "514 E 7th St, Austin, TX 78701, USA (Exact Match Found)".

Other Countries

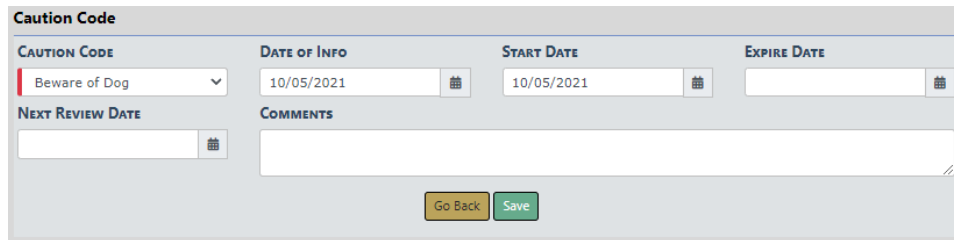

When choosing a **Country** other than the *United States*, the system does not validate or enforce **Zip Code** entry rules.

The screenshot shows the "Address Information" form. The "SECURITY LEVEL" is set to "Level 1 - Access to all Data". The "ADDRESS SEARCH" section includes a "Geo Search" button. The form fields are organized into two columns. The left column includes "STREET #", "DIRECTION", "DIRECTION SUFFIX", "CITY", and "COUNTY". The right column includes "STREET NAME", "TYPE", "SUB TYPE", "SUB #", "STATE", "ZIP", and "COUNTRY". The "COUNTRY" field is set to "Tunisia". The "ZIP" field is empty and highlighted with a red border.

Caution Codes

You can add caution codes to an address after saving the record.

Click **Add Caution Code** to open the *Add Caution Code* window.

Select the **Caution Code** and enter the needed information, then click **Save**.

You can then add related events and attachments to the Caution Code.

For more information on Caution Codes, refer to "Caution Codes" on page 127.

Adding Photos

Adding the First Photo

1. Select the **Add Person Image** link on a *Master Person Index* record that does not yet have a photo.

Adding Additional Photos

1. Page down and select the **Add Attachment** or **Image Library** link.

Permits [Add Permit](#)

Attachments [Image Library](#) [Add Attachment](#)

To add image files from your personal *Image Library*, select the **Image Library** hyperlink. If images do not exist in your Image Library, then the hyperlink does not appear.

2. Refer to "Add Attachments" on page 69 or "Image Library" on page 75 for more information.

Adding Property

When an initial search of the database does not locate an existing property record that matches the search parameters, select the **Add Property** button. For more information about searching, refer to "Searching Master Records" on page 87 .

Note: If applicable to your agency and with appropriate permissions, you can click on the **Records Management** top menu, then **Create Held Property** to add a property record. This option is only available to users with the *Evidence - Create Held Property* permission.

The *Add Property* form opens.

Select a **Security Level**. For more information on Master Index security levels, refer to "Master Index Security" on page 85.

Select a **Category**. The fields that appear on the form may change based on the Category you choose.

Enter details of the property in the fields provided.

Select the **Save** button to create the record and open the *Edit Property* form.

Add Permit

Enter other information into the fields provided and click **Save**.

Optionally click on the plus sign (+) to associate the various categories, such as person, organization, properties, permits, or add additional information such as details or attachments. These categories vary by agency and permissions.

- An alternative method is to select an option from the drop-down list that does the same thing.

- Also, you can click the **Log Property Evidence/Held Property** button to log the property as either evidence or held property. For more information on evidence and held property, refer to "Evidence/Property Mgmt Module Overview" on page 497.

Note: To have access to the **Evidence** drop-down option and the **Log Property Evidence/Held Property** button, you must have the *Master Indices - Add Evidence to Master Index Property* permission.

Click on the **Subscribe** button to receive a notification when another user views, updates or associates the property record. For more information on subscribing, refer to "Subscribe to Master Records" on page 134.

Duplicate Records

When attempting to enter a new person, address, organization, vehicle, property, or gang index record through the *Master Indices* menu, the system compares the entered data with existing records, and if a match between the two is found, an error message displays. If you continue creating the duplicate record, the system requires a reason as to why and the record is saved for later review.

Note: While the examples listed in this section reference Person, a similar process applies to all *Master Indices*.

For descriptive information on *Master Indices*, refer to "Master Indices Overview" on page 83.

For instructions on entering a new person or address record, refer to "Adding Person" on page 100 or "Adding Address" on page 109, respectively.

When entering a new Person record, the system checks for possible duplicate records and a message displays indicating whether or not a possible duplicate is found.

No Duplicates Found

If no duplicates are found, a green *No Duplicates Found* message appears on the top right of the section.

Possible Duplicates Found

A **Potential Duplicate Found** warning message appears if the system detects a match between the new record and an existing record.

Note: Error messages are highlighted in yellow for purposes of illustration here. These error messages appear in **red** in the application.

Place of Birth:				

Edit Record

You can update an existing record rather than create a new record, if appropriate. The *Details* screen appears after you select the **Edit** icon in the *Actions* column of the Potential Duplicates list.

The screenshot shows the 'Person Details' form. At the top, there are tabs: 'Go Back', 'Visualization Tool', 'Create Photo Lineup', 'View Summary', and 'Manage Subscription'. Below the tabs is a 'Person Details' section with a profile picture, a dropdown menu for '-Add-', and a list of social media icons. The main form area is divided into sections: 'INDEX ID' (396), 'SECURITY LEVEL' (Level 1 - Access to all Data), 'LAST NAME' (JONES), 'FIRST NAME' (WILLIAMS), 'MIDDLE NAME' (empty), 'TITLE' (-Select-), 'DOB' (03/03/1965), 'SSN' (empty), 'SEX' (Male), 'RACE' (White), 'ETHNICITY' (Not Hispanic or Latino), 'DRIVERS LICENSE' (OLN123456), 'DRIVERS LICENSE STATE' (Alaska), 'RESIDENCE PHONE' (empty), 'CELL PHONE' (empty), and 'RESIDENCE ADDRESS' (126 North 750 West IN). At the bottom, there are 'Go Back' and 'Save' buttons.

Make the necessary updates, then click **Save**, or click **Go Back** to return to the **Add Person** screen.

If you choose to click **Save** to create the record, even though potential duplicates are found, a screen appears asking you to select existing records as duplicates. Select duplicate records, or click the *I Don't Want to Select a Duplicate* button to create the record without selecting duplicates. You must enter the reason for the duplicate.

The screenshot shows the 'Potential Person Duplicates' screen. It features a table with the following columns: Index Id, Last Name, First Name, Middle Name, DOB, Race, Sex, SSN, Name Type, Other, and Actions. A row is highlighted for Index Id 396, Last Name JONES, First Name WILLIAM, DOB 03/03/1965, Race White, Sex Male, Name Type Alias, and Other Residence Address: 126 North 750 West IN, DL #: OLN123456 / AK. Below the table, there is a red warning message: '* If you don't want to select a duplicate, enter a reason and click the button below'. There is a text input field for a reason and a button labeled 'I Don't Want to Select a Duplicate'.

- Master Index Organization address.
- Organization Summary Tag.
- Master Index Person Address.

Click the **Update** button to save.

Deleting Master Index Records

You can edit, delete, and collapse **Master Index** records with appropriate permissions. However, you cannot delete records that are linked to other Online RMS modules.

A **Delete** button appears on the top of the window while on a Master Index record as shown in the example below. This applies to all master index types: Person, Address, Organization, Vehicle, Property, and Gang.

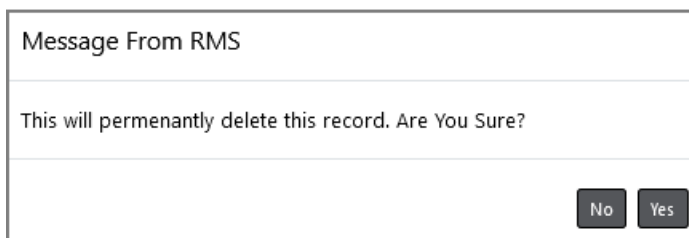

The screenshot shows the 'Person Details' form in the Online RMS system. At the top right, a navigation bar contains buttons: 'Go Back', 'Delete' (highlighted with a red box), 'Visualization Tool', 'View Summary', and 'Subscribe'. Below the navigation bar, the form displays various fields for a person's record. The 'INDEX ID' is 1126. The 'SECURITY LEVEL' is 'Level 1 - Access to all Data'. The 'LAST NAME' is 'Poharcyk', 'FIRST NAME' is 'Robin', and 'MIDDLE NAME' is 'R'. The 'TITLE' is '-Select-', 'DOB' is '01/10/1910', and 'SSN' is '122-22-2222'. There are also icons for 'Pin Person', 'Go Back', 'Delete', 'Visualization Tool', 'View Summary', and 'Subscribe'.

For details on accessing the Master Indices, refer to "Accessing Master Indices" on page 86.

For details on searching for Master Index records, refer to "Searching Master Records" on page 87.

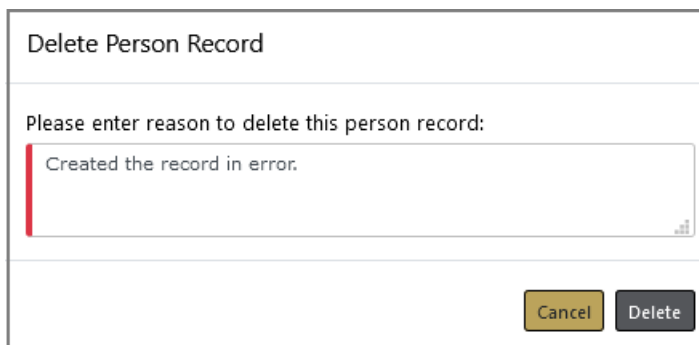

Click on the **Delete** button, then answer **Yes** to confirm deletion.

The dialog box is titled 'Message From RMS'. It contains the text: 'This will permanently delete this record. Are You Sure?'. At the bottom right, there are two buttons: 'No' and 'Yes'.

The process then scans the system for possible links to other Online RMS modules.

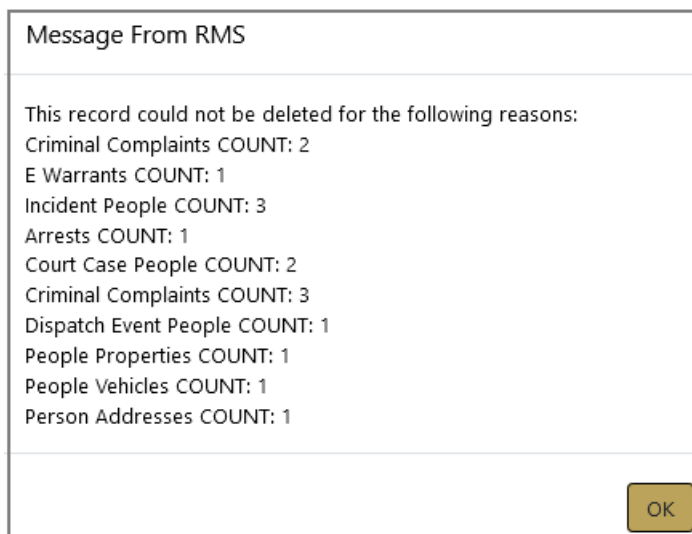

- If the Master Index record is not linked to other Online RMS modules, a window appears where you enter the **Reason** you want to delete the record.

A dialog box titled "Delete Person Record". It contains a text input field with the placeholder text "Please enter reason to delete this person record:". The input field contains the text "Created the record in error.". At the bottom right of the dialog box are two buttons: "Cancel" and "Delete".

Click **Delete** to delete the record and return to the *Person Search* page.

- If the Master Index record is linked to other Online RMS modules, a message displays stating the record cannot be deleted with a list the linked modules.

A dialog box titled "Message From RMS". It contains a list of reasons why a record cannot be deleted. At the bottom right of the dialog box is an "OK" button.

This record could not be deleted for the following reasons:

- Criminal Complaints COUNT: 2
- E Warrants COUNT: 1
- Incident People COUNT: 3
- Arrests COUNT: 1
- Court Case People COUNT: 2
- Criminal Complaints COUNT: 3
- Dispatch Event People COUNT: 1
- People Properties COUNT: 1
- People Vehicles COUNT: 1
- Person Addresses COUNT: 1

Click **OK** to close the window.

Note: Delete activity is written to a log automatically. Create an AdHoc report to view the delete log data.

Print Master Person Records

Master person records can be printed from the *View Person Details* page.

To print a master person record:

Search for and select the appropriate master person record.

For details on accessing the Master Indices, refer to "Accessing Master Indices" on page 86.

For details on searching for Master Index records, refer to "Searching Master Records" on page 87.

Access the *View Person Details* page using one of the following two methods from the *Search Results*:

Refine Search

Select one or more options listed, or **Select All** to include all options. (Beginning with 11.13 and higher, there is an option to redact the SSN for the person detail printed.)

Click the **Print** button.

A PDF document opens in a new tab in your browser. Print directly to the printer or save the PDF document giving it a custom filename.

Note: If you are using Internet Explorer, refer to "Printing from Online RMS" on page 39 for special instructions.

Subscribe to Master Records

You can **Subscribe** to existing master index records (person, address, vehicle, organization, property, and gang) to receive a notification when someone views, updates or associates the master index records to which you have an interest.

For example, you can **Subscribe** to Williams Jones' master person record to receive notification when someone applies updates to his master person record.

Follow these steps to Subscribe:

1. **Search** for the master person record to which you want to subscribe.

For more information on searching, refer to "Searching Master Records" on page 87.

2. From the search results grid, **View** or **edit** the record to which you want to subscribe.

<div> <div>Refine Search</div> <div>New Search</div> <div>Add Person</div> <div>Online RMS Statewide Search</div> </div>											
<div> <div>Q Person Search Results</div> <div> <div>3 / 3</div> </div> </div>

<div> <div>Refine Search</div> <div>New Search</div> </div>											

3. The view or edit form opens, based on which option you chose.
4. Whichever option you chose, a Subscription button appears on the top right of the window.

The button varies on whether this is an existing or new subscription:

Subscribe

 = Add a new subscription.

= Update or delete the existing subscription.

5. Click the button that applies in this case.
6. The **Subscription** form opens.

If adding a new subscription, an empty *Add Subscription* form opens.

If managing an existing subscription, the *Edit Subscription* form opens.

7. Select or deselect the appropriate check boxes and provide the reason for the subscription.

If the **Silent Subscription** box is checked, the subscription cannot be viewed by another user.

8. Click **Save**.

9. If you want to delete the existing subscription, click the **Delete** button, then confirm deletion.

Chapter 9. Photo Lineup

Photo Lineup Overview

The **Photo Lineup** module allows the agency to discover or confirm the identity of a suspect by displaying an array of photos of that person. Lineup images support multiple photo types such as mugshots, drivers license photos, etc., and you can mark an image as the primary image. The **Photo Lineup** module is included with the full subscription to Online RMS; however, the agency can contact Caliber Public Safety Support if they choose to disable this feature.

Access to *create*, *edit*, *view*, or *delete* a **Photo Lineup** is controlled by permissions set by your administrator. Refer to your administrator for more information.

Access Points

The **Photo Lineup** module is accessed from three areas of Online RMS:

- Records Management Menu.
- View and Edit Person pages.
- Follow-up Case Management module.

Records Management Menu

Access the **Photo Lineup** module from the **Records Management** menu.

View and Edit Person Pages

Search and select a person from the *Master Name Index* that has a person photo. For detailed instructions on how to search and access *Master Person* records refer to "Searching Master Records" on page 87.

A screenshot of the 'Person Details' page in the software. The page has a header with navigation buttons: 'Go Back', 'Visualization Tool', 'Create Photo Lineup' (highlighted with a red box), 'View Summary', and 'Manage Subscription'. Below the header is a 'Person Details' section with a profile picture of a man, a date '09/12/2012', and a row of social media-style icons with counts. Below this is an 'INDEX ID' field with the value '396'. At the bottom, there are three input fields for 'LAST NAME' (containing 'JONES'), 'FIRST NAME' (containing 'WILLIAMS'), and 'MIDDLE NAME'.

If an image does not exist for that person, select *Add Person Image*. For more information refer to "Adding Photos" on page 114.

Add Person Image

Click to add the first photo

Follow-up Case Management module.

Create a **Photo Lineup** from **Involved Names and Organizations** grid in the **Follow-up Case Management** module.

Open a Case, page down to the **Involved Names** section, then click on the Hand icon.

NOTE: For more information on accessing the **Case Management** module refer to "Case Management" on page 455.

Create Photo Lineup

Create a **Photo Lineup** from a *Master Person Index* record that already has an existing photo. If the person does not yet have a photo, one must be added. For instructions on adding an initial photo refer to "Adding Photos" on page 114.

1. Search and select a person from the *Master Name Index*. For instructions on searching for a person refer to "Searching Master Records" on page 87.
2. Select the **Create Photo Lineup** button.

The screenshot shows the 'Person Details' page. At the top, there are navigation buttons: 'Go Back', 'Visualization Tool', 'Create Photo Lineup' (highlighted with a red box), 'View Summary', and 'Manage Subscription'. Below these is a 'Person Details' section with a photo of a man, a date '09/12/2012', and a row of social media-style icons. Below that is an 'INDEX ID' field with the value '396'. At the bottom, there is a form with three fields: 'LAST NAME' (JONES), 'FIRST NAME' (WILLIAMS), and 'MIDDLE NAME' (empty).

3. Select **Yes** to confirm the creation of the **Photo Lineup**.

The screenshot shows a confirmation dialog box titled 'Message From RMS'. The message inside says 'Create Photo Lineup For This Person?'. At the bottom right, there are two buttons: 'No' and 'Yes'.

4. The **Photo Lineup** page appears.

- The left side of the window contains **Lineup** details such as the name, photo count, status, dates, lineup images, etc.
- The right side of the window contains tabs, with each tab serving a particular purpose.

- The primary person photo displays under *Suspect* on the left side of the page.
- A *Lineup* window displays a status of *Complete* or *Not Complete*. You can save your unfinished work and complete it another time.
- The **Photo Count** is the number of images that must be on a lineup as specified by the Agency.

5. You must enter a Lineup **Name**.
6. Optionally, click on the **Search On Suspect Physical Description** drop-down menu to select the physical description information for the person image, to use for searching and finding similar images. After selecting from the list, search parameters will populate automatically based on your selection. Adjust the parameters as needed.

Or you can manually enter the search parameters without selecting from the drop-down list.

For example, if the search parameter displays *Large* you can change it to *Small*; or change it to *-Select-* if you do not want to include the build in your search.

Physical Description Search Upload Images Uploaded Image Library Access Log

SEARCH ON SUSPECT PHYSICAL DESCRIPTION

Height: 5'07" **Click in this field to display a list of items from which to choose**

HEIGHT FROM 5' 05"	HEIGHT TO 5' 09"	WEIGHT To
SEX Male	RACE Hispanic	ETHNICITY Not Hispanic or Latino

HAIR COLOR -Select-	HAIR STYLE -Select-	HAIR LENGTH -Select-

7. Select the **Limit results to** drop down list to adjust the maximum number of photos in your search results as needed.

Limit Results To 50 Records

8. Select the **Search** button to find person photos in Online RMS that match your search criteria. The matching person photos appear on the bottom of the window.

9. You can either select from the displayed images for the **Lineup**, upload image files from your local or network drive, or both.

Select Displayed Images

- a. **Double click** on the displayed images you want to add to the lineup. The chosen images appear on the bottom left of the window under **Images**.

Upload Image File

- a. Select the **Upload Images** tab, and select the **Add Files** button or **Drag Files** to add photos from your local computer or network drive. For more information on uploading files, refer to "Add Attachments" on page 69.
 - b. Imported images files are added to **Images** automatically and saved in the **Uploaded Image Library** tab for future use.
10. Get additional photo information.
 - a. Click on the **Quick View** folder icon to open a **Person Quick View** tab containing details of that person.

Click on the X to close the tab, if you wish.

- b. Click on the + icon to view a larger image of the lineup photo.

- c. Click on the 🔄 icon to replace this image with another.

A *Select Image* window appears with images from which to choose.

11. If you wish to save your changes and finalize the **Lineup** later, click the **Save** button. The **Save** button changes from red to green.

Once saved, you may return to this **Lineup** to make additional changes until you finalize it by marking it as *Complete*.

12. Finalize the photo **Lineup**.

- a. When you are satisfied the **Lineup** is complete, click the **Complete** button to finalize.
- b. The status changes from *Not Complete* to *Complete*.

Note: The number of lineup images must match the **Photo Count** as specified by the Agency before the lineup can be completed.

13. Click the **Print** icon to the right of the **Complete** button to print the **Lineup**. For detailed instructions on how to print a photo lineup refer to "Print Photo Lineup" on page 148.
14. Click **Access Log** tab to view a log who accessed the lineup. For more information refer to "Access Log" on page 152.

Remove a Photo

You may want to remove a photo from the **Lineup** window or from the **Uploaded Image Library** tab.

1. Click the upper right **X** on the photos you want to remove from the **Lineup** window or from the **Uploaded Image Library** tab.

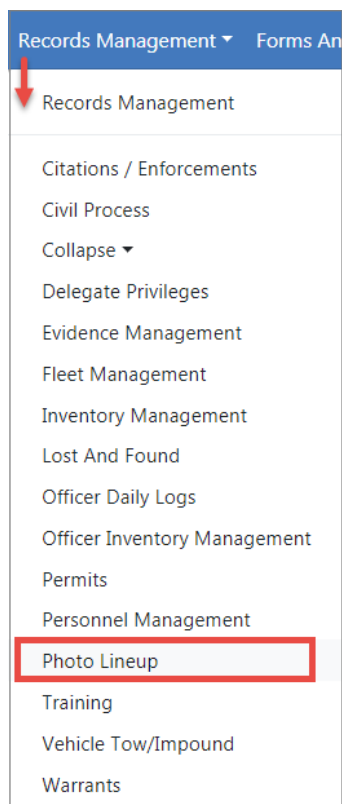

Note: Clicking the X removes the image immediately, without a confirmation window.

2. Click the **Save** button.

Search Lineups

Search Lineups to *view*, *print*, *edit* or *delete* a lineup.

1. Select **Photo Lineup** from the **Records Management Menu**.

2. Click the **Display** drop-down box to select the group of Lineups to search.

Note: User permissions set by the administrator determines what appears in this list. See your administrator for more information.

3. The grid results will change based on the selected **Display** option.

Click the **Reset** button to clear the entered Search text.

You can *print, view, edit, or delete* **Lineups** from the search results, providing your user account has the proper permissions to do so.

For more information on viewing, editing, or deleting **Lineups** refer to "View, Edit, Delete Lineups" on the next page

For more information on printing **Lineups** refer to "Print Photo Lineup" on the next page.

Print Photo Lineup

The **Photo Lineup** can be printed from the **My Lineups** search results list, while viewing a Lineup, or while editing a Lineup by clicking on the Print icon .

1. Using one of the above methods, the **Print Options** window appears after clicking the Print icon.

The image shows a 'Print Options' dialog box. It has a title bar 'Print Options'. Inside, there are three options, each with a checkbox: 'ONE IMAGE PER PAGE?' (checked), 'INCLUDE SIGNATURE LINE?' (unchecked), and 'INCLUDE IMAGE KEY?' (unchecked). At the bottom right, there are two buttons: 'Cancel' (yellow) and 'Run Report' (green).

2. Check all options that apply then click **Run Report**.

A PDF document opens in a new tab in your browser. Print directly to the printer or save the PDF document giving it a custom filename.

Note: If you are using Internet Explorer, refer to "Printing from Online RMS" on page 39 for special instructions.

View, Edit, Delete Lineups

You can *view*, *edit*, or *delete* **Lineups**, depending on your permissions set by your administrator. Refer to your administrator for more information.

1. **Search** for the **Photo Lineup** you want to *view*, *edit*, or *delete*. For details on searching refer to "Search Lineups" on page 146.

The icons listed under the **Actions** column of your search results indicate what is available to you, and it can differ by Lineup.

When an icon does not display, then that action is not available to you. For example, if you do not see the *Edit* icon, then you cannot edit that particular **Lineup**.

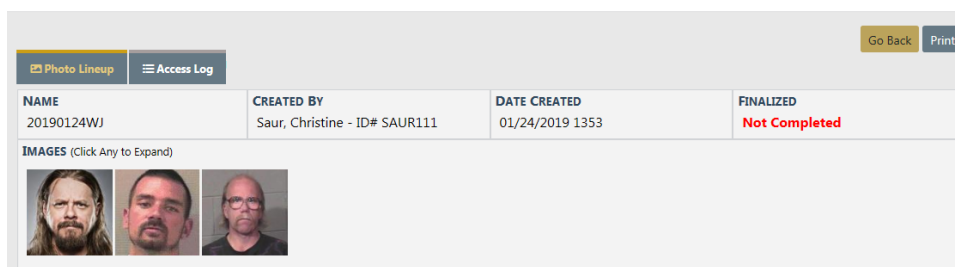

Note: Click the *Print* icon on the Lineup that appears in the search result grid, or print Lineups from other areas of the **Photo Lineup** module. For more information on printing refer to "Print Photo Lineup" on the previous page.

View

1. Click the *View* icon on the **Lineup** that appears in the search results grid.

2. The **Photo Lineup** contains photos, the date the **Lineup** was created, the person who created it, the current status, and an **Access Log** tab that tracks who *viewed* or *printed* the **Lineup**.

Enlarge an Image

Click on an image to enlarge it, then use the left and right arrows to view the other images, or click the upper right X to close it.

View the Access Log

Click on the **Access Log** tab to view who accessed the **Lineup**. For more information refer to "Access Log" on page 152.

The screenshot shows the 'Access Log' interface. It has a 'Photo Lineup' tab and an 'Access Log' tab. Below the tabs, there's a table with columns: NAME, CREATED BY, DATE CREATED, and FINALIZED. The table shows one entry for '20190124WJ' created by 'Saur, Christine - ID# SAUR111' on '01/24/2019 1353', with a status of 'Not Completed'. Below the table, there's a 'Show' dropdown set to '10' and a 'Search' field. A table of activity entries follows, with columns: Activity Type, Date, Activity User, First Name, Last Name, and Agency Name. The table shows three entries, all 'View' activities by 'Christine Saur' from 'District 42, Versailles'. At the bottom, there's a 'Showing 1 to 3 of 3 entries' message and 'Previous', '1', 'Next' navigation buttons.

NAME	CREATED BY	DATE CREATED	FINALIZED
20190124WJ	Saur, Christine - ID# SAUR111	01/24/2019 1353	Not Completed

Activity Type	Date	Activity User	First Name	Last Name	Agency Name

Chapter 10. Crime Visualization Tool

Crime Visualization Tool Overview

The **Crime Visualization Tool** displays connections, or network, between persons, vehicles, addresses, phones, and involvement in police-related events in a graphical format to identify complex relationships, which then improves the likelihood of solving more crimes. The **Crime Visualization Tool** produces a graph, also known as the **Spider Chart**, because of its web-like appearance.

The **Spider Chart** is made up of a network of associations that are connected: People, places, things, and events. The following **Network Associations** are currently supported:

Organizations

- People
- Addresses
- Phone Numbers
- Vehicles
- Incidents
- Field Contacts
- Organizations (Relationships)
- Custom Forms

People

- Vehicles
- Gangs

Spider Chart

The **Crime Visualization Tool** that generates the **Spider Chart** is accessible from various pages of Online RMS such as Incident Summary, Persons, etc., by clicking on the **Visualization Tool** button or other method, depending on the Online RMS page. For more information on accessing the **Crime Visualization Tool** refer to "Access Points" on page 165.

Below is an example of a **Spider Chart** generated from the *Edit Person* page for Billy Smith. Billy Smith appears in the center of the chart with connecting lines to each association, also known as **Element**.

A closer view of the same chart shows the associated label to each **Element**, such as Grandparent, Victim, Child, etc.

Click on an **Element** to open a box containing links to either view the data in a new tab, or include all associations to that **Element** on the **Spider Chart**.

Note: Double Click on an **Element** to immediately open all associations to that **Element** on the **Spider Chart** without displaying the box.

Click the **X** on the right side of the tab to close.

Click on the **Person Details** or **Person Summary** sub-tabs to view details of the associations, or a summary.

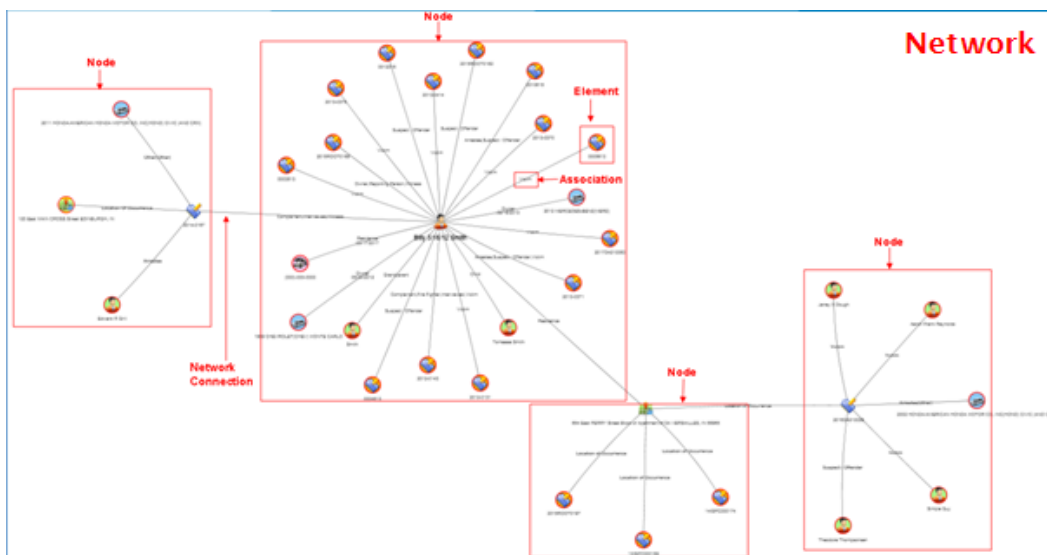

Spider Chart Components

Structure and Terminology

The Spider Chart consists of several components:

- Network
 - A visual representation of the entire collection of nodes, elements and associations, and how they interrelate.
- Node

- Collection of elements and their association to one another.
- Element
 - The representation of specific people, places, things or events.
- Association
 - A line with description showing how elements are associated with one another.
- Network Connection
 - A line that represents the connection between Nodes within the Network.

Manually Re-size the Chart

You can re-size the chart by using the mouse, keyboard, or the resizing icons.

Mouse

Click anywhere on the chart then move the mouse wheel away from you to enlarge the image on the screen, or move the mouse wheel toward you to decrease the size of the image.

Keyboard

Press the **Ctrl** and **+** (plus sign) keys simultaneously to enlarge the image, or press the **Ctrl** and **-** (minus sign) keys to decrease the size.

Resizing Icons

The resizing icons allow you to easily zoom in, zoom out, re-center, or move the visualization up, down, left or right.

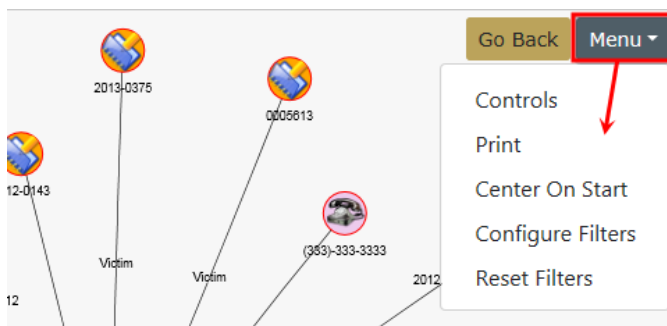

Manually Reposition the Chart

Click anywhere on the chart then drag to a new location on the screen.

Re-Center and Filter the Chart

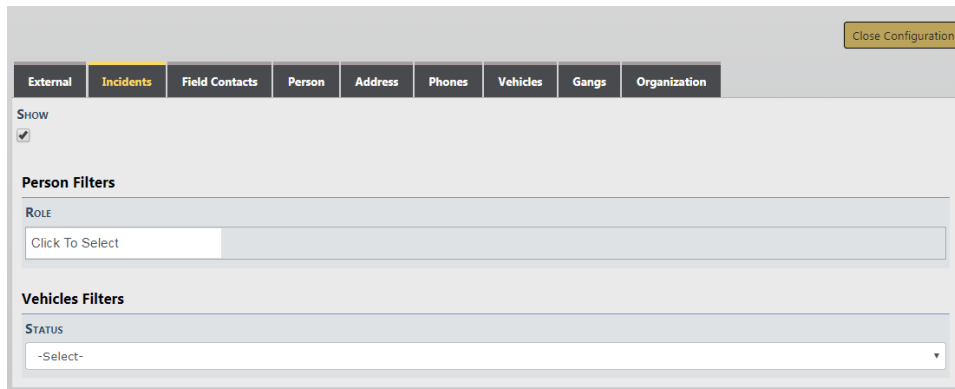

Click on the **Menu** button on the top right to re-center the chart and include or exclude filters, print, and set controls.

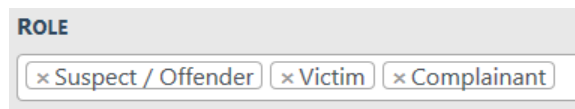

Center on Start

- Re-centers the **Network** display on the screen.

Configure Filters

- Select one or multiple roles from the list. To remove a chosen role, click on the X.

- Select one status from the list
- Click **Close Configuration** to apply the Filters.

Note: Filters are reciprocal, which means if you filter the incident category using person details, it also filters on the person category of the associated incidents.

Reset Filters

- Clears any Filters applied and redraws the chart.

Access Points

The **Crime Visualization Tool** is currently accessible from the following pages in Online RMS for users with the *Crime Visualization Tool Role*:

Note: For more information on the *Crime Visualization Tool Role* contact your administrator.

- Incident Summary.
- Master Indices Details, in both *View* and *Edit* modes.

- Organization, Person, Address, Vehicle, and Gang.
- Field Contacts, in both *View* and *Edit* modes.

Incident Report

The **Crime Visualization Tool** is currently accessible from the Online RMS Incident Report page for users with the *Crime Visualization Tool Role*:

Note: For more information on the *Crime Visualization Tool Role* contact your administrator.

Click on the **Actions** button then click on the **Visualization Tool** menu option.

The screenshot displays the Online RMS Incident Report interface. At the top, there are buttons for 'Exit Report', 'Quick Print', and 'Print'. Below these are tabs for 'Summary', 'Header', 'Offenses', 'Names', 'Property & Vehicles', 'Narratives', 'Attachments', and 'Validations'. The 'Summary' tab is active, showing incident details: 'Incident Summary: 04/09/2019 0833 Hrs - 100 North Main Street BLO...', 'Offense(s): 35-43-2-1 B02 - BURGLARY- APARTMENT COMPLEX', 'Agency: District 42, Versailles', 'Report #: 2019D4210229', and 'Supp #: 0'. A red box highlights the 'Actions' button in the left sidebar, which has opened a dropdown menu. In this menu, the 'Visualization Tool' option is highlighted with a red box. Other options in the menu include 'View Incident Status', 'View Incident Audit Trail', 'Create Supplement', 'View Incident Based Reporting Values', 'Edit This Incident', 'Warrant / Charge Request', and 'Narrative Maintenance'. The main content area shows a table with columns: 'Lead Investigator', 'Assignment Status', 'Case Status', 'Next Update Due', and 'Actions'. The first row shows 'Assign to Patrol', 'Open', '07/16/2019', and icons for viewing and editing. Below the table, there are sections for 'REPORT TYPES' (Burglary / Building) and 'SUMMARY' (Stolen property reported).

The **Spider Chart** will open with the **Incident Report** as the center **Element**. For more information on **Spider Chart** refer to "Spider Chart" on page 157.

Field Contact

The **Crime Visualization Tool** is currently accessible from the Online RMS Field Contact page in both the View and Edit modes, for users with the *Crime Visualization Tool Role*.

For more information on **Field Contacts**, refer to "Field Contacts" on page 407

Neighbors complaining about noise.					

The **Visualization Tool** displays a **Spider Chart** with the center **Element** as the record you are on, along with lines leading to its associated records. For example, the center **Element** would be the record in the above example. For more information on **Spider Chart** refer to "Spider Chart" on page 157.

Master Indices Detail Pages

The **Crime Visualization Tool** is currently accessible from the Online RMS **Master Indices** detail pages in both the *View* and *Edit* modes, for users with the *Crime Visualization Tool Role*.

For more information on **Master Indices**, refer to "Master Indices" on page 83.

The **Visualization Tool** displays a **Spider Chart** with the center **Element** as the record you are on, along with lines leading to its associated records. For example, if you open the tool from Billy Smith's Person record, the center **Element** is Billy Smith. For more information on **Spider Chart** refer to "Spider Chart" on page 157.

The **Visualization Tool** is available in either the *View* or *Edit* mode of each category. Below are a few examples.

Chapter 11. Calls for Service

Calls For Service Overview

Track and Document Calls

The **Calls For Service (CFS)** module allows a user to track calls and document how the call was received, caller's name, type of call, location of call, notes regarding the call, and disposition information. If units are dispatched then the user can capture dispatch, on scene, and clear dates/times for each unit dispatched. If the call requires an Incident report, the CFS user can initiate the report for the responding unit which will link the CFS information to the Incident. This module was designed for agencies that do not require the full functionality of Caliber CAD.

Enhanced Integration from Caliber CAD

Agencies with an active Caliber CAD interface benefit from enhanced integration to Online RMS. The integration interface transfers Caliber CAD person and vehicle call information to the Online RMS **Calls For Service** module, and it initiates an Incident Report for the responding unit linking the Caliber CAD data to the report.

Integration to Online RMS include the following 11.8 enhancements:

- Vehicle insurance company information now transfers with vehicles that have the vehicle insurance company included with the vehicle. The vehicle insurance company is stored with the dispatch event vehicle and with the master vehicle insurance record if the vehicle is included on the Incident Report and stored in the RMS Master Vehicle index.
- The License Expiration Date is processed for a vehicle sent by CAD. The vehicle description contains the expiration year and month in the Master Vehicles if an incident report is created with the vehicle.
- The CAD RMS Interface sends the Master Person ID from CAD to RMS when the CAD user searches RMS for a person and adds that person to the CAD transfer. When the RMS Master Person ID is sent from CAD, the person is directly matched with the Master Person Record in RMS instead of using the RMS CAD Name Matching process.

Create Field Arrest and Import Call Data

Beginning with Online RMS 11.7.0, with appropriate permissions, you can create a Field Arrest and import data from an existing Incident or Calls for Service record into the arrest record, avoiding unnecessary data entry. This process also associates the Field Arrest to the Incident or Calls for Service record automatically.

For details, refer to "Create Field Arrest and Import Data" on page 365.

Access Calls For Service

The **Calls For Service** module is located on the top Navigation Bar under the *Incidents* menu option. Click on the **Calls For Service** menu option to display a sub-menu that allows you create, edit, view, and search calls.

To create, edit, or view calls, refer to "Manage Calls for Service" below.

To search calls refer, to "Search Calls for Service" on page 183.

Manage Calls for Service

You can create, edit, view calls by selecting the Calls For Service **Manage Calls** sub-menu. For details, refer to "Calls For Service Overview" on the previous page .

After selecting **Manage Calls** The Manage Dispatch screen appears with two tabs, *Call List* and *Call Map*. The *Call List* tab opens by default.

Menu		Call List								
New Call										
Options										
Exit										
Officers										
		Call #	Call Date	Caller Name	Incident Location	Call Type	Call Priority	Status	User	Actions
		0000000139BLAH20	03/16/2020 07:43	Tom Smith	1 North Meridian Street INDIANAPOLIS, IN 46204	100	High	Open	Elmore, Phil	
		0000000138BLAH19	11/20/2019 08:53		400 Elm Street Fortville, IN 46040			Open	Saur, Christine	
		0000000137BLAH19	03/25/2019 11:28					Open	Simpson, Homer	

Using the Columns and Options buttons at the bottom of the screen, you can configure how the Call List displays.

Select the **Columns** button to open a screen to which you can choose what columns you want to view. The left side of the box is the columns you have chosen, the right side of the box are additional columns that are available. Choose the + sign to add and the - sign to remove.

Ok

Cancel

Select the **Options** button to select whether or not to display calls that you do not own, along with the time range of the calls to view. The example shows *Time For Last Closed Call: 1 day ago*, to see all calls through the last call that was closed one day ago. This is adjustable based on what you would like to view. Grid Size is normally *Fit to Screen*.

The image shows a dialog box titled "Options". It contains three sections: a checkbox labeled "DISPLAY OTHER CALLS I DON'T OWN" which is checked; a text input field labeled "TIME FOR LAST CLOSED CALL (E.G. 1 HOUR 2 DAYS AGO)" with the value "1 day ago"; and a dropdown menu labeled "GRID SIZE" with the selected option "Fit To Screen". At the bottom right are "Cancel" and "Ok" buttons.

From the **Calls for Service** screen the Officer or Dispatcher has the ability to initiate a New Call, edit or view a call, Toggle Officers, Show Map, and Exit.

Initiate New Call

To start a **Call for Service**, access the *Manage Calls For Service* menu option, then click the **New Call** button at the top of the *Calls For Service* screen to open a *New Call* tab.

For more information on how to access the Manage Calls For Service menu option, refer to "Manage Calls for Service" on page 172.

Addresses are *Geo Verified*. As with address section in RMS you can also associate a common place name as well.

PHONE NUMBER

For information on editing a call, refer to "Edit a Call" below.

Edit a Call

Once the call is initiated, dispatch information such as time and place is available. For more information on initiating a call, refer to "Initiate New Call" on the previous page.

Note: When opening a call for editing, the application will check to see if you wish to take ownership of the call in order to edit it. Users cannot edit calls they do not own.

The Officer/Dispatcher has the ability to add any additional Incident Notes. You can return to the call later to finish your edits by accessing the *Manage Call For Service* sub-menu option. For more information on accessing the *Manage Call For Service* sub-menu, refer to "Manage Calls for Service" on page 172.

On the *Edit Call* screen, sub-tabs and a notes section at the bottom of the screen appear, including the following:

- Call Information with the caller name and the phone number. This tab opens by default.
- Officers tab for adding officers to the call.
- People tab for adding involved persons.
- Vehicle tab for adding involved vehicles.
- Incident Reports tab for creating a new incident from the call and assigning to the primary officer.
- Attachments tab for attaching photos or document files.
- History tab that shows you historical information based upon the address.

The screenshot displays the 'Edit Call' interface. At the top, there are tabs for 'Call Information', 'Officers', 'People', 'Vehicles', 'Incident Reports', 'Attachments', and 'History'. The 'Call Information' tab is active. The form contains the following fields:

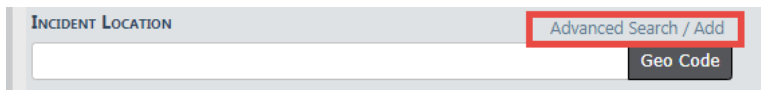

- DISPATCH AGENCY:** Indiana State Police
- CALL DATE / TIME:** 03/16/2020 0743
- CALL RECEIVED:** 911 Call
- CALLER NAME:** Tom Smith
- PHONE NUMBER:** (111)222-3333
- EVENT TYPE:** Police
- CALL / ACTIVITY:** 100
- PRIORITY:** High
- CLOSE DATE / TIME:** (empty)
- DISPOSITION TYPE:** Incident Report
- INCIDENT LOCATION:** 1 North Meridian Street INDIANAPOLIS, IN 46204
- COMMON PLACE:** (empty)
- REPORTING AREA:** -Select-
- LATITUDE:** 39.767399
- LONGITUDE:** -86.157866
- CALLER LOCATION:** 5 North Meridian Street INDIANAPOLIS, IN 46204
- INCIDENT NOTES:** [Type a line and press enter to add]

A map is displayed on the right side of the form, showing the location of the incident. The map includes labels for 'Map', 'Satellite', 'Indianapolis', 'Conrad', 'Rhythm! ry.Center', 'Fogo de Chão Brazilian Steakhouse', and 'E Court St'. At the bottom of the screen, there are buttons for 'Exit', 'Update', and 'Update & Exit'.

Call Information Tab

You are taken directly to the **Call Information** sub-tab when the *Edit Call* tab opens as shown in the above image. This tab contains the caller information, location, and incident notes.

For agencies manually entering CFS records, you can select the location from Master Address/Locations. Click on the **Advanced Search / Add** link to search for an address then select it to add it to the CFS record.

INCIDENT LOCATION

Advanced Search / Add

Geo Code

When the address record is added to the CFS record, a **View Address** link appears above the location. Click on the link to view the Master Index record.

INCIDENT LOCATION

VIEW ADDRESS

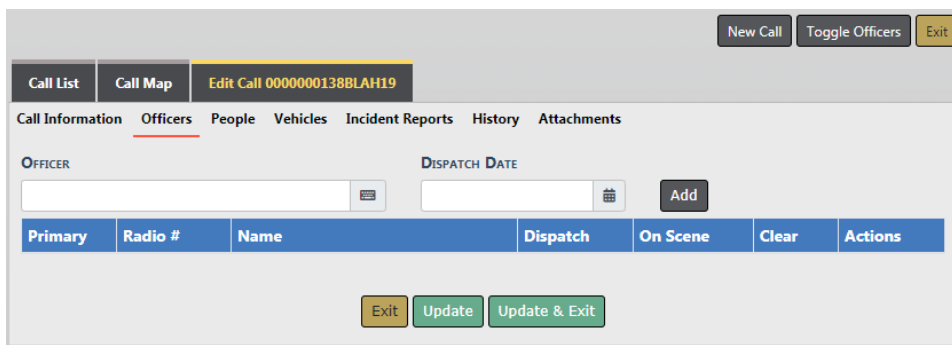

400 Elm Street Fortville, IN 46040

If you are creating an incident, this address also pulls into the Incident automatically.

To close a call, enter the Close Date/Time and select a Disposition from this drop-down list. For more information on closing a call refer to "Close a Call" on page 183.

Officers Tab

Use the **Officers** sub-tab to assign the call to specific Officers and enter the Date and Time the officers are Dispatched; from this screen you also have the ability to indicate an On-scene time and Clear time.

Exit Update Update & Exit						

People Tab

The **People** sub-tab is where involved persons are added. The first step in adding a person is to search for an existing Master Person record. The *Master Person Index* contains a unique record for each person. If the person you are looking for does not exist, then you have the option to create the *Master Person Index* record for that person.

The **Add Master Index Person** link allows you to search the *Master Person Index* for an existing person record, or add a person to the Master Index. The **Add Person** link allows you to add a person to the **Call for Service** record.

Click on **Add Master Index Person** to first search for the person. The *Master Index Search* screen for person appears. Enter the information you want to search on and click the **Search** button to view a list of person records that match your search criteria.

If the person record appears in the results list, click the **Hand** icon in the *Actions* columns to select it and add it to the call. If the person record does not appear in the results list, then click the **Add Person** link on the *Person Search Results* screen to create the *Master Person Index* record before adding it to the call.

Note: For more information on searching, selecting, and creating *Master Person Index* records refer to "Master Indices" on page 83.

Vehicles Tab

The **Vehicles** sub-tab is where involved vehicles are added. The first step in adding a vehicle is to search for an existing Master Vehicle record. The *Master Vehicle Index* contains a unique record for each vehicle. If the vehicle you are looking for does not exist, then you have the option to create the *Master Vehicle Index* record for that vehicle.

The **Add Master Index Vehicle** link allows you to search the *Master Vehicle Index* for an existing vehicle, or add a vehicle to the Master Index. The **Add Vehicle** link allows you to add a vehicle to the **Call for Service** record.

The screenshot shows the 'Vehicles' tab selected in the 'Edit Call 0000000138BLAH19' window. At the top right are buttons for 'New Call', 'Toggle Officers', and 'Exit'. Below the tabs, the 'Vehicles' tab is active, showing a table with columns: Index ID, Vehicle Info, and Actions. The table contains one row with Index ID 'N/A' and Vehicle Info 'VIN: 123445654154BBC545 Year: 2019 Make: CHEVROLET(CHEV) Model: CAMARO'. The Actions column has icons for edit and delete. Above the table, the 'Add Master Index Vehicle' button is highlighted with a red box. Below the table are buttons for 'Exit', 'Update', and 'Update & Exit'.

Click on **Add Master Index Vehicle** to first search for the vehicle. The *Master Index Search* screen for vehicle appears. Enter the information you want to search on and click the **Search** button to view a list of vehicle records that match your search criteria.

If the vehicle record appears in the results list, click the **Hand** icon in the *Actions* columns to select it and add it to the call. If the vehicle record does not appear in the results list, then click the **Add Vehicle** link on the *Vehicle Search Results* to create the *Master Vehicle Index* record before adding it to the call.

Note: For more information on searching, selecting, and creating *Master Vehicle Index* records refer to "Master Indices" on page 83.

Incident Reports Tab

The next sub-tab is the **Incident Reports** tab. Most agencies that are using CFS within Online RMS, or a CAD product, will have the Create Incident Report permission turned off at officer level, and make all incident reports start from CFS or CAD. In CFS under the *Incident Reports* tab you will see the **Create Incident Report** button.

The screenshot shows the 'Incident Reports' tab selected in the 'Edit Call 0000000138BLAH19' window. At the top right are buttons for 'New Call', 'Toggle Officers', and 'Exit'. Below the tabs, the 'Incident Reports' tab is active, showing a table with columns: Report #, Supp #, Agency, and Reporting Officer. Above the table, the 'Create Incident Report' button is highlighted with a red box. Below the table are buttons for 'Exit', 'Update', and 'Update & Exit'.

This will take you into creating an Incident Report for the officer in Online RMS.

History Tab

The **History Tab** will give you database history within Online RMS, based on the Address, the Calling Party Name, or the phone number of calling party.

Edit, Take, View Calls

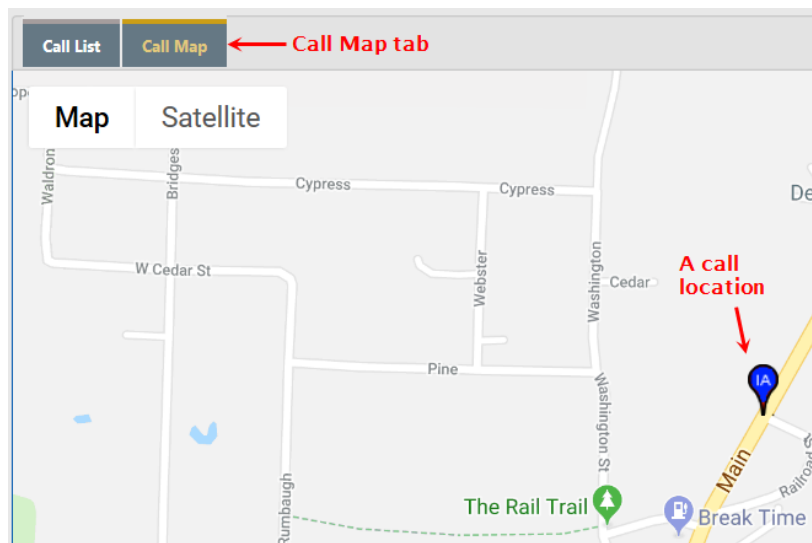

Under the *Actions* column you can edit, take, or view calls.

- **Edit:**  Indicates that the Call is in progress and assigned to an officer.
- **Take:**  Indicates the Call is in progress and has NOT been assigned to an officer. Click it to take ownership of the call.
- **View:**  Indicates the Call is complete.

Note: Dispatchers can edit or view another dispatcher's call they have started. This is a permission that needs to be requested in the application to allow another dispatcher to take ownership of the CFS and edit it.

Note: Officers can be dragged and dropped from the Call Officer grid to the **Edit Call** tab.

The **Call Map** tab displays a map with the call locations.

Clear, Dispatch, or Mark Call as OnScene

With the appropriate permissions, you have the ability to **Clear**, **Dispatch**, or mark an officer **On Scene**, directly from the **Call List**.

Click on the plus (+) sign on the left of the call to display officers that are assigned to the call, if any. The plus (+) sign changes to a minus (-) sign with information displayed directly below.

Calls that do not have an officer assigned have a *Dispatch#* with a red-orange background.

<div><div></div></div>	0000000138BLAH19	11/20/2019 08:53	400 Elm Street Fortville, IN 46040			Open	Saur, Christine	<div><div></div><div></div></div>

Click the **Dispatch** button to dispatch the officer, click **On Scene** to mark the officer as on the scene, or click **Clear** to clear the call. The current date and time replaces the button on the screen.

Close a Call

When the officer is finished with the call it is now time to close out the call and finalize. The call must first have a clear time and date associated to it.

To close the call, add the clear time, clear date, and disposition on the Edit call tab of the *Manage Dispatch* form. For more information on accessing the *Manage Dispatch* form, refer to "Manage Calls for Service" on page 172.

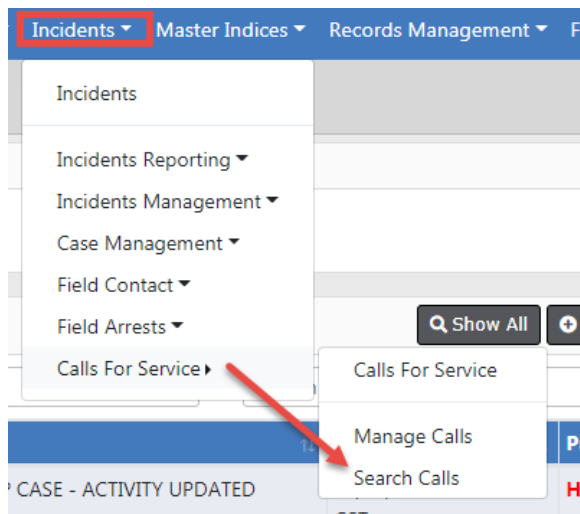

Note: The **Clear** time/date on the *Call List* is not the same as the **Close** time and date. Closing a call also requires a disposition of the call. For more information about the *Call List*, refer to "Call List" on page 181.

The screenshot shows the 'Edit Call' form in the RMS system. The form is titled 'Edit Call 00000001388LAH19'. It has tabs for 'Call List', 'Call Map', and 'Edit Call'. The 'Edit Call' tab is active. The form contains several sections: 'DISPATCH AGENCY' (Indiana State Police), 'CALL DATE / TIME' (11/20/2019 0953), 'CALL RECEIVED' (-Select-), 'CALLER NAME' (empty), 'PHONE NUMBER' (empty), 'EVENT TYPE' (Police), 'CALL / ACTIVITY' (-Select-), 'PRIORITY' (-Select-), 'CLOSE DATE / TIME' (11/14/2019 1013), 'DISPOSITION TYPE' (CITATION ISSUED), 'INCIDENT LOCATION' (empty), 'COMMON PLACE' (-Select-), 'REPORTING AREA' (-Select-), 'LATITUDE' (empty), 'LONGITUDE' (empty), 'CALLER LOCATION' (empty), and 'INCIDENT NOTES' (empty). There are buttons for 'New Call', 'Toggle Officers', 'Exit', 'Exit', 'Update', and 'Update & Exit'.

Click **Update** to save updated info and stay in Call record. Click **Update & Exit** to save updated info and exit the Call record. Click **Exit** to return to the previous screen without saving.

Search Calls for Service

You can search calls by selecting Incidents from the top navigation bar, Calls For Service, then **Search Calls** option on the sub-menu.

After selecting the **Search Calls** option on the sub-menu, a *Calls for Service Search* screen appears.

Calls can be searched using any criteria on the search screen. Enter the search criteria then click the **Search** button, located on the top or bottom of the screen. If you search without entering any search criteria, the results will return the most current 200 records.

Scroll down to view additional call details.

Click the **Print** button to print.

If applicable, click the **Switch to Edit Status** to edit the call. For more information on editing a call, refer to "Edit a Call" on page 175.

If your agency is setup to integrate calls from Caliber CAD and you have appropriate permissions, a **Create Incident** button appears if the CFS record integrated from Caliber CAD without an Incident Report assigned.

Calls For Service Search / Calls For Service Search Results / View Dispatch			
Go Back	Print	Switch To Edit Status	Create Incident

You must have access to create Incident Reports and a role with one of the following permission categories:

- Calls for Service - Create Incident From My Calls
- Calls for Service - Create Incident From My Agency Calls

Click the **Create Incident** button to create the Incident Report.

Note: CFS records that integrated from Caliber CAD include person and vehicle data from the CAD Call for Service event; this applies only to agencies using the Online RMS CFS module and sites with an active CAD Interface.

Note: Warrant information displays only if your agency is using the **Warrants** module.

Search Calls for Service by Unit History

If the feature is enabled, you can also search calls for service by Unit History by selecting Incidents from the top navigation bar, Calls For Service, then **Unit History** option on the sub-menu.

The screenshot displays the Caliber Public Safety web application. The top navigation bar includes links for Administration, Incidents, Master Indices, and Records Management. The 'Incidents' dropdown menu is open, showing options such as Incidents Reporting, Incidents Management, Case Management, Field Contact, Field Arrests, Criminal Complaint, Court Cases, Court Appearances, and Calls For Service. The 'Calls For Service' option is selected, opening a sub-menu with 'Manage Calls', 'Search Calls', and 'Unit History'. The 'Unit History Search' form is visible in the background, featuring fields for Agency (District 42, Versailles), Units (Click To Select), Logged By, and Report Number (No Report, Has Report, Specify).

To search using unit history, enter data in the fields shown, where applicable, and select **Search** to return results.

Chapter 12. Incidents

Incidents Overview

Incidents Reports can be created in Online RMS manually, or integrated from Caliber CAD for Agencies with an active Caliber CAD interface.

The *Integration Interface* transfers Caliber CAD call information to the Online RMS **Calls For Service** module and initiates an Incident Report for the responding unit, linking the Caliber CAD data to the report.

Beginning with Online RMS 11.7.0, you can create a Field Arrest and import data from an incident or Calls for Service into the arrest record to avoid unnecessary data entry.

Note: If the CFS module and integration is turned on, and the integration process cannot match people that exist on the CFS record with RMS, the unmatched names appear on the Names tab of the Incident Report. With appropriate permissions, you have the option to add unmatched people to the Master Index in RMS, then associate them with the Incident Report. For details, refer to "Names Tab" on page 218.

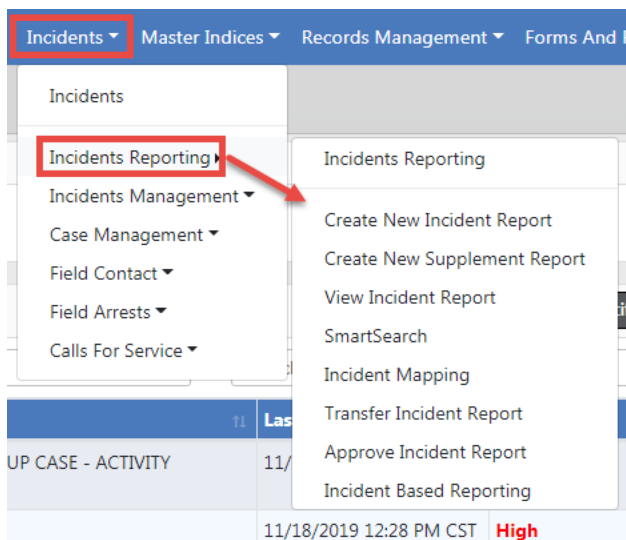

- **Incident Reporting** includes the following activities:
 - Create New Incident Report manually, or by integration from Caliber CAD, if applicable.

Note: The *Wizard* leads you through each section of the incident report to help you fulfill the system requirements for a valid incident report. The *Wizard* can be turned on and off, but you should leave it on to help ensure that you complete required information. This practice helps to prevent problems with validation at the end of the incident creation process.

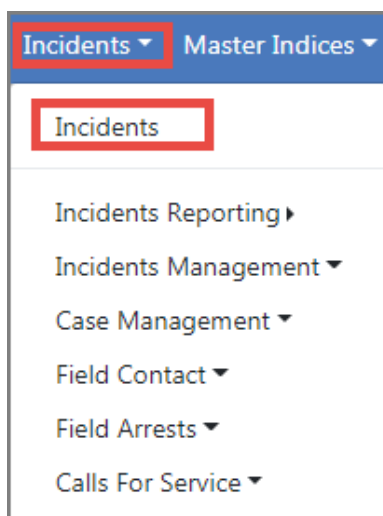

- Create Supplement to Incident Report
- View Incident Report

Note: With appropriate permissions, investigators can create a case on an initial unapproved Incident to begin working on an investigation without waiting for Incident approval. Refer to "Create a Follow-Up Case" on page 459 for details.

- SmartSearch
 - Incident Mapping
 - Transfer Incident Report
 - Approve Incident Report. (Available with proper permissions.)
 - Incident Based Reporting (Available with proper permissions.)
- You can access these features from the Incident Reporting sub-menus. Click **Incidents** on the top navigation bar, then click the **Incident Reporting** to display more options from which you can select.

Or, you can click **Incidents** on the navigation bar, then click **Incidents** again to display all Incident options. Click on an option to access that module.

Note: Items that appear are based on permissions and vary by user.

Top Buttons

The **Incident Report** contains various buttons that enable the user to *Pin Incident*, *Exit Report*, *Quick Print*, *Print*, *Transfer* the report to a different user, *Show* or *Exit* the Wizard. The *Submit for Approval* button remains inactive (gray) until the components of the report are completed appropriately and the report is ready for review by an officer supervisor or CID supervisor.

The top buttons appear regardless which tab the user is on.

While viewing or editing an incident record, you can *Pin* it to your Home Page for quick reference.

To *Pin*, click on the green **Pin Incident** button located on the top left of the page while on the *Summary* tab; the button color then changes from green to gold and the label changes to **Unpin Incident**.

To *unpin*, click on the gold **Unpin Incident** button.

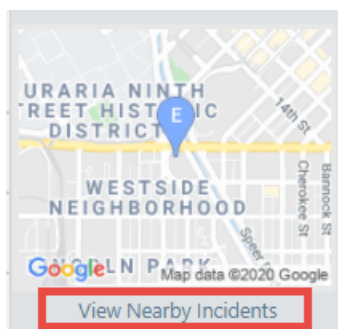

For more information on pinned records that appear on the Home Page, refer to "Home Page - Prior to RMS 11.12" on page 8.

Google Maps Integration

Google Maps appears on the *Summary* tab of the Incident, showing the location of the report location when a latitude and longitude are associated with the address.

Report Location			
ADDRESS 1770 Block of Lincoln Denver, CO 80104	LATITUDE 39.739577	LONGITUDE -104.999408	
REPORTING AREA	INCIDENT NIBRS CITY CANNELTON	INCIDENT LOCATION REMARKS	
COMMON PLACE NAME	CAMPUS CODE Off Campus		
GEOGRAPHIC LOCATION District 42. Versailles	COUNTY OF OCCURRENCE Hancock	TOWNSHIP OF OCCURRENCE	

Click on the **View Nearby Incidents** link to view incidents on the map.

Incident Report - Requirements And Rules

General Requirements:

There are four (4) minimum requirements before a report can be submitted for approval:

- Report/Occurrence Dates and Times

- Report Location
- Reporting Officer
- Narrative

Additional validation requirements may exist such as Media Crime Summary, Incident Types, Reporting Area, and Completion of Custom Form started within the Incident.

Additional validation requirements will be driven by any Offenses added to the report and possibly Custom Fields created by the agency.

Information entered on the Incident saves automatically as it is selected for the report. The Narrative auto saves every 60 seconds as the user is creating it.

Cross-tab Validations:

Online RMS 11.8.0 and above expands features for states that need to satisfy unique NIBRS requirements. Such as allowing Rules and Validations on the Incident Offenders and Victim tabs in addition to the Incident Header and Incident Offense tabs, a more comprehensive selection of custom fields, and the ability to configure validation rules across tabs.

For example, suppose your state has particular IBR reporting guidelines requiring you to supply specific Incident Offender data when the victim is older than 17. Then, with help from Caliber staff, your agency can add a validation rule to a custom field on the Incident Offender tab requiring the user to supply that information when the victim is older than 17.

Incident Rules:

- The Initial Report is designated as “Supp# 0” and Supplements are then added in sequential order (e.g., Supp. # 1, 2, 3, etc.).
- A user can submit another report owner’s Incident.
- Incidents can be edited when in *Initial* or *Disapproved* status, otherwise will result in a Supplement.
- Incidents that have been *Approved* can only be Supplemented.

Field Arrests, Field Contacts, Citations, and Warrants can be associated to an **Incident Report** within the **Summary** tab of the report.

Associated CAD information can be found within the **Header** and **Summary** tabs in the **Calls For Service** section.

Incident Security

Incident Security uses a hierarchical design. A user account is assigned incident security based on general rights to view the details of an incident report. **Animal Control** is the lowest incident security level and **Executive Command** is the highest incident security level.

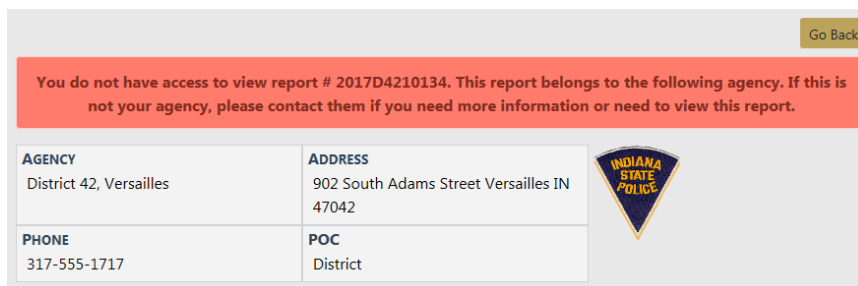

Incident Security applies to each individual Incident Supplement. In addition to the security level, there are also security control to restrict to *Agency Only* and for *Security Groups*.

The default security for Incident Reports is set at the *Patrol Officer* level. This means users with *Patrol Officer* security rights can:

- View Incident Supplements having a security level of *Patrol Officer* or less.
- Cannot view Incident Supplements having a security level greater than *Patrol Officer*, unless the user is added to a security group assigned to the Incident Report.

It is understood that some Incident Reports will be of a more sensitive nature and may require a higher security level to minimize the number of users that have access to the report.

Users without the proper security level receive an access denied message when selecting an Incident report.

The security of an Incident Report can be set by clicking on **Change Security** button from the **Incident Approve/Disapprove** screen when supervisors approve the supplement.

Incident Summary: 04/07/2021 1510 Hrs - 200 North Main Street Masontown, IN

- **Agency Only** - Check this box to restrict the Incident Report to users at your agency only.
- **For Public Release** - Deselect this box to print NOT FOR PUBLIC RELEASE across the top of the Incident report. This button is active (green) by default.
- **Update All Supplements** - Check this box to update the security on all Supplements.
- **Incident Security Levels** - Set the Incident's security level at a level equal or less than his or her security rights. This means other users at that level or above would have access to the report across all agencies (unless the Restrict to Agency Only is selected).
- **Security Groups** - Available security groups can be selected which will allow any user in the selected group to have access regardless of their individual security level. If **Restrict Access to Selected Security Groups** is checked, the Incident report can only be accessed by members of the selected Security Group.

Note: If access is restricted to the selected security groups, a message appears on the summary tab of the incident indicating which security groups have access.

Actions 1 1 1

1 Initial Report Security Groups: ANGTEST

Report Header

REPORT ID	REPORT SECURITY
3320	Marine Patrol

- **Default Security Template** - This option allows the user to set one supplement as the default security template. All future supplements added to the Incident inherit the same security level.
 - When the Hide Incident box is selected, the Default Security Template box will automatically be selected when you save changes.
- **Hide Incident** - Check this box to mark the Incident as hidden. Hidden Incidents can only be seen by users who meet the security requirements, and are in the same agency as the Incident. An exception is if the user is part of a security group set for one of the supplements.

Note: This option is only available to users who have both the hidden permission and full access to all supplements.

- Hidden Incidents do not appear in searches, nor in other Online RMS modules that lists associated incidents, such as field arrest, warrants, visualization tool, citations, field contacts, evidence, etc., unless the user meets security requirements as stated above.
- When you check the **Hide Incident** box, the **Update All Supplements** checkbox is automatically checked and disabled to ensure the security on all supplements are identical.

The **Incident Security** screen can also be accessed at any time through the **Incident Status** screen by clicking on the **Security** icon .

<input checked="" type="checkbox"/>	Report Type	Date	Reporting Officer	Supplement Owner	Approval Status	Security Level	Security Groups	Actions
<input checked="" type="checkbox"/>	Original Report	04/07/2021	Christine Saur #SAUR111	Christine Saur	Pending Approval	Patrol Officer		 
<input checked="" type="checkbox"/>	Supp #1	10/12/2021	Christine Saur #SAUR111	Christine Saur	Initial Report	Patrol Officer		 

You can access the **Incident Status** screen from the *View Incident Report* screen, or from the *Incident Report* menu. For more information on accessing the *Incident Report* menu, refer to "Incidents Overview" on page 189. For information on changing the Incident Status, refer to "Changing Incident Status" on page 276.

Incident Report - Report Validations

The Online RMS program has a built-in **Wizard** that guides you through the creation of the **Incident Report**. Navigational buttons are displayed to navigate through the report. The use of the Incident **Wizard** is highly recommended.

National Incident-Based Reporting System (NIBRS) validations use tab indicators to assist the user in entering all required information. The required information may change depending on the offense(s) added to the report. A tab that lists NIBRS validation information displays on the **Incident Validations** tab.

Verify Incident Report	
Online RMS has found errors on the Incident report which require attention before the report may be submitted. You may use the links below to help guide you to the particular area of the report needing modification. Once all of the errors have been resolved, you may submit the report for approval.	
Add Narrative	At least one Narrative is required.
Incident Officers	At least one Reporting officer is required.
Selected Incident Types	Incident Types are required for incidents from this agency.
Incident Summary	Incident report requires a Media/Crime Summary.
Add Incident Location and NIBRS City	Incident Location, NIBRS City is Required.
35-43-2-1 B02 - BURGLARY- APARTMENT COMPLEX	Offense requires Property or Vehicle details.
35-43-2-1 B02 - BURGLARY- APARTMENT COMPLEX	Offense Requires Victim Type of Person or Organization
35-43-2-1 B02 - BURGLARY- APARTMENT COMPLEX	Offense requires Victim and Victim to Offender Relationship.
County of Occurrence	County of Occurrence is required for incidents from this agency.

The **Incident Validations** tab lists any missing required information to assist you. Click on any of the validations listed in **Incident Validations** to return to the area within the report to add or edit data. Once all the minimum required information has been entered, the report can be submitted for approval.

Click the **Exit Wizard** button to view and edit the report in **Form Mode**. This mode allows you to navigate through the necessary tabs in any order without following the linear style used in the **Wizard** mode. Navigating to the **Summary** tab, or clicking on the tabs instead of the navigational buttons, may also cause you to exit the **Wizard** mode. Click the **Show Wizard** button at the top of the page to return to **Wizard** mode.

Note: The **Wizard** mode is only available when editing a *Supp 0* incident.

View Incident Audit Trail

Another valuable security tool for the Investigator is the **View Incident Audit Trail** feature. Information is captured anytime someone accesses an incident report. If you suspect another user is accessing or attempting to access an incident report set above their security level, you can view these access attempts.

To view the audit entries, select *View Incident Report*. When the correct report is located and selected, select the **Actions** button, then **View Incident Audit Trail** menu option

The screenshot shows the Incident Report interface. At the top, there are buttons for 'Pin Incident', 'Exit Report', 'Approve/Disapprove', 'Quick Print', and 'Print'. Below these are tabs for 'Summary', 'Header', 'Offenses', 'Names', 'Property & Vehicles', 'Narratives', 'Attachments', and 'Validations'. The 'Summary' tab is active, showing incident details: 'Incident Summary: 11/01/2017 2300 Hrs - 1776 Lincoln Street Floor #8 Denver...', 'Agency: District 42, Versailles', and 'Report #: 2017D4210135 Supp #: 0'. Below this is a section for 'Add Disapproval Comments' and an 'Actions' button. The 'Actions' dropdown menu is open, showing options: 'View Incident Status', 'View Incident Audit Trail' (highlighted with a red box), 'Create Supplement', 'View Incident Based Reporting Values', 'Edit This Incident', and 'Visualization Tool'. Below the menu, there are fields for 'REPORT SECURITY' (Patrol Supervisor), 'REPORT TYPES' (Child Custody, Hate Crime), 'REPORT DATE' (11/02/2017 1314), 'OCCURRENCE DATE START' (11/01/2017 2300), and 'OCCURRENCE DATE END'.

Anyone who accesses or attempts to access the Incident Report appears in the Audit History.

The screenshot shows the 'Audit History' tab selected. It displays a table with the following data:

Activity Type	Date	Activity User	First Name	Last Name	Agency Name
IncidentView	02/01/2019 1012 HRS	CSAUR	Christine	Saur	District 42, Versailles
IncidentView	02/01/2019 0949 HRS	CSAUR	Christine	Saur	District 42, Versailles
IncidentView	10/05/2018 0910 HRS	STATE_OFFICER11	Homer	Simpson	District 42, Versailles
IncidentView	11/16/2017 1500 HRS	CSAUR	Christine	Saur	District 42, Versailles
IncidentView	11/02/2017 1315 HRS	D_OFFICER	Dana	M	District 42, Versailles
IncidentView	11/02/2017 1314 HRS	D_OFFICER	Dana	M	District 42, Versailles

At the bottom of the table, there is a 'Go Back' button.

Create Incident Report

The Incidents module is where you input, retrieve, and edit professional law enforcement reports. Create reports step-by-step using the **Incident Report Wizard**. Each report is val-

idated against state or federal guidelines which are driven by any offense(s) entered on the report.

Depending on your agencies configuration, incidents may be created manually or automatically via the **Caliber CAD** interface. Mobile users may also have access to generate a report in CAD using **Caliber Mobile**.

Incident Reports generated by **Caliber CAD**, or other CAD system through a system interface, will contain information generated by CAD or imported through the CAD interface.

Once logged into Online RMS the Home Page displays. You can edit the CAD generated Incident from the *Recent Activities* section under **Initial Report** by clicking on the number to the right.

Incident Reports generated by the *Calls For Service* module contain the call dates and times in the **Header** tab. When you log into Online RMS, you can edit the CFS generated Incident from the *Recent Activities* section under **Initial Report**. These calls can be searched using the *Calls for Service* module. The associated call will show in the **Header** and **Summary** tabs of the **Incident Report**.

Incidents created manually by officers will use the following workflow:

The **Create New Incident Report** feature is located in the **Incidents** menu under **Incident Reporting**.

This allows you to create a report using your agency's numbering format. Some agencies will use *Automatic Number Generation* where the Incident report number will be populated automatically, and some agencies will have the opportunity to manually enter the report number based on the agency's business practice.

 A screenshot of the 'Create New Incident Report' form. The form has a blue header with the title 'Create New Incident Report'. Below the header is a section titled 'Incident Report Number and Summary'. Inside this section, there is a text box with the instruction 'Please verify the following information and click finished to create a new incident report'. Below the text box are several fields: 'AGENCY' with a dropdown menu showing 'District 42, Versailles'; 'REPORT #' with the text 'Auto Generated'; 'SECURITY LEVEL' with a dropdown menu showing 'Patrol Officer'; and 'MEDIA/CRIME SUMMARY' with a large text area and a 'Check Spelling' link. At the bottom of the form are two buttons: 'Go Back' and 'Finished - Go To Next Section'.

Select the Security Level, if different than the default.

Enter the Media/Crime Summary, and optionally click *Check Spelling* to validate and correct any spelling errors.

Click **Finished - Go To Next Section**. The wizard steps you through each tab, one at a time.

Incident Report Tabs

- *Summary tab*-provides a summary of all the information entered on an incident report.

- *Header tab*- captures the dates/times, report location, and reporting officer(s), associated arrests, and associated calls for service for the incident.
- *Offenses tab*-captures any and all offenses associated with the report. Validations are offense driven and will alert the user of necessary information.
- *Names tab*-captures Offenders, Victims, and Other Incident Names such as witnesses who are associated with the report.
- *Property & Vehicles tab*-captures applicable property or vehicles associated with the report. Evidence is also created in this section (See Incident Evidence section for a detailed explanation).
- *Narratives tab*-captures the users narration of the details surrounding the incident. You can insert an image directly into the body of the Narrative.
- *Attachments tab*-captures an incident related attachments such as crime scene photos or statements. Forms such as the Marijuana Eradication Form can be completed in this section also.
- *Validations tab*-does a final check of your report to ensure the minimum requirements are met based on the offense(s) entered on the report.

Note: With appropriate permissions, you can *Pin* the Incident while on the Summary tab to add it to your Home Page for quick reference. For more information, refer to "Incidents Overview" on page 189.

Header Tab

Regardless of which method is used to initiate the report, the following workflow is the same for editing and completing a report; the only difference you may see is pre-populated information from CAD or Calls For Service module.

The **Header Tab** contains 3 separate sections: *Report Types & Times*, *Location*, and *Officer*. By using the **Wizard** the sections are completed in the listed order, though the use of the **Wizard** is not required.

The screenshot shows the 'Header' tab selected in a report interface. The top navigation bar includes buttons for 'Exit Report', 'Quick Print', 'Print', 'Transfer', 'Exit Wizard', and 'Submit For Approval'. Below this, a row of tabs shows 'Summary', 'Header' (highlighted with a red box), 'Offenses', 'Names', 'Property & Vehicles', 'Narratives', 'Attachments', and 'Validations'. The main content area displays 'Incident Summary: 12/13/2018 1332 Hrs' and 'Offense(s): No Offense Specified'. On the right, it shows 'Agency: District 42, Versailles' and 'Report #: 2018D4210207 Supp #: 0'. At the bottom, three circular icons represent 'Types & Times', 'Location', and 'Officers'.

Click on each button to access that information.

Report Types & Times

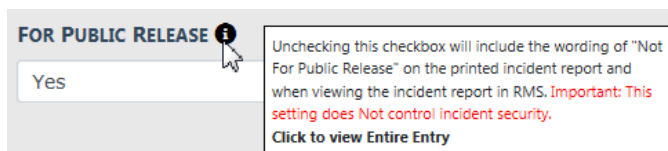

The *Header Information* area includes Report Security, For Public Release, Report Agency/District, the Media / Crime Summary box, Incident Report Types, Report Date, Occurrence Date Start, Incident Classification, and other information.

Report Security

Select the Incident Report security level.

For Public Release

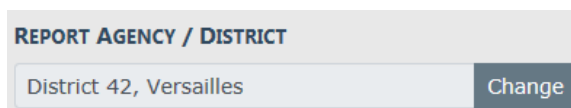

This field defaults to **Yes**. Change this value to **No** if this Incident should not be public. Hover over or click on the information bubble for more information.

The screenshot shows a form section titled "FOR PUBLIC RELEASE" with a dropdown menu currently set to "Yes". To the right of the dropdown is an information bubble icon. A tooltip is displayed, stating: "Unchecking this checkbox will include the wording of 'Not For Public Release' on the printed incident report and when viewing the incident report in RMS. Important: This setting does Not control incident security. Click to view Entire Entry".

Report Agency/District

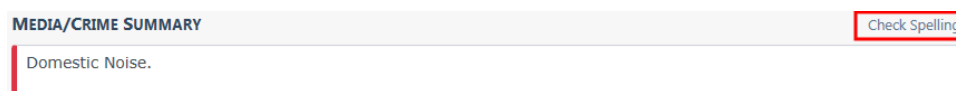

Select the **Change** button to change the listed reporting agency. You must have proper permissions to access this function.

The screenshot shows a form section titled "REPORT AGENCY / DISTRICT". Below the title is a text box containing "District 42, Versailles" and a "Change" button to its right.

Media/Crime Summary

The Media/Crime Summary is designed to enter a brief description of the Incident. After entering a description, optionally select **Check Spelling** to open the *WebSpellChecker* window. When finished checking your entered text, select **Finish Checking**.

The screenshot shows a form section titled "MEDIA/CRIME SUMMARY". Below the title is a text box containing "Domestic Noise.". To the right of the text box is a "Check Spelling" button, which is highlighted with a red rectangle.

Incident Report Types

The Incident Type selection box is designed to categorize the general nature of the incident. Multiple selections may be selected to cover all applicable types that occurred during the incident. Incident Type is a searchable field when searching for incidents.

Click into the box and select all the applicable Incident Report Types from the provided list.

Click on the X to remove a selected type from the list.

Incident Report Dates and Times

The Incident Report Times area contains the various times associated with the incident, Report Date, Occurrence Date, Dispatch Date, On Scene Date and Clear Date. These incident date(s) and time(s) may be completed in Incident Reports generated by Caliber CAD or by the Calls For Service module but they still need to be verified by the user for completeness and accuracy. Editing is permitted as needed.

REPORT DATE	OCCURRENCE DATE START	OCCURRENCE DATE END
03/12/2019 1145	03/12/2019 1145	
DISPATCH DATE	ON SCENE DATE	CLEAR DATE

You can click on the date icon on the right of each date field to select a date and time, or type T in the field then tab out to return the current date and time.

Additional Information

Complete the Additional Information section as needed.

Field Arrests and Calls For Service

Click on the **Add Field Arrest** link to associate a Field Arrest to the Incident, if applicable.

Field Arrests	+ Add Field Arrest
Calls For Service	

Enter the search criteria in the *Field Arrest Search* form to locate the Arrest record, then click the **Search** button.

If no Location exists, type in the provided field to supply one. (This is the same screen you will see if you select **Change Location** in the previous screen.)

The screenshot shows a web interface with a header "ADDRESS" in blue. Below it is a yellow text input field with the placeholder text "Start Typing An Address Here...". To the right of the input field are two buttons: "Back To Previous Section" and "Skip Location Section".

Beginning with RMS 11.10, location search is greatly enhanced. Begin typing the address and the system will return RMS locations. If your agency has Google Places turned on, you will also see Google addresses. Links will appear that allow you to add addresses and/or interact with a map for location identification.

Note: A green checkbox will display when an address is geo-verified.

The screenshot shows the same web interface as before, but the input field now contains the text "1600". Below the input field, a dropdown menu is open, displaying "Showing 2 of 2 Results". The results are listed as follows:

- 1600 West 200 North Greenfield IN
- 1600 West 200 North Apartment 30F Greenfield IN

Below the results, there are links for "Not What You're Looking For? Search **Other Sources**" and "Not Finding A Location? Create A New:". Under "Create A New:", there are links for "Postal", "Intersection", "Highway / Mile Marker / County Road (Non-Residence)", and "Show Me All The Fields".

Update Details

Update Details allows you to update the details of the location.

Change Location

Change Location allows you to change the location, address of the Incident. You may also add an address to the Master Index if it doesn't already exist.

First search for an existing address to determine if the address already exists before adding a new one. It is recommended that you search by individual fields rather than the *Quick Search* field. See "Adding Address" on page 109 for further instructions on adding addresses to the Master Index.

If adding a new address, click the **Save and Select** button. This saves the address to the Master Indices and selects the record for the report.

Click the **Save & Continue** button at the bottom of the window to advance to *Officers*.

Officers

The Officers section is where all officers and employees involved in the incident are listed. The officer creating the report will default as the *Reporting Officer*.

Officers							+ Add Officer + Add Mass Officers	
Last Name	First Name	ID	Title	Agency	Incident Role	Supp #	Actions	
Saur	Christine	SAUR111		District 42, Versailles	Reporting	0	 	
Employees							+ Add Employee	
Back to Previous Section				Finished - Go To Next Section				

Click the **Add Officer**, **Add Mass Officers**, or **Add Employee** hyperlink to add additional officers or employees.

Add Officer

Use this link to add one officer at a time. Begin entering the officer name in the **Find Officer** field to display a list of names that match the entered text, then click the appropriate name from the list. Select the **Role** from the drop-down list.

Note: All Supplement reports must have a *Reporting Officer* associated with the report.

Select **Add Other Agency Officer** to add officers from other agencies. These are officers who are not Online RMS users within the current schema.

The 'Add Incident Officer' form contains the following fields and controls:

- Buttons: 'Search Officers' and 'Add Other Agency Officer' (highlighted with a red box).
- Fields: FIRST NAME, MIDDLE NAME, LAST NAME, SUFFIX, AGENCY (dropdown menu showing 'District 42, Vers'), TITLE, BADGE #, and CAD BADGE # (with an information icon).
- ROLE: A dropdown menu currently showing '-Select-'.
- Buttons: 'Cancel' and 'Save' at the bottom right.

Click **Save** to add the officer to the Incident.

Add Mass Officers

Use this link to add multiple officers at one time. Begin entering the officer name in the **Find Officer** field to display a list of names that match the entered text, then click the appropriate name from the list. Select the **Role** from the drop-down list. Click **Add Officer** to add another officer, and repeat until all officers are included.

The 'Add Incident Officers' form displays a list of officers with the following structure:

- Header:** 'Add Incident Officers'.
- Buttons:** 'Click to add additional officers' (text) and '+ Add Officer' (button, highlighted with a red box and an arrow).
- Table:**

FIND OFFICER	ROLE	
Icer Joe Hedges(Badge #: 7049) - All Other	Assisting	[Trash Icon]
[Empty Field]	-Select-	[Trash Icon]
- Buttons:** 'Cancel' and 'Save' at the bottom right.

Click **Save** to add all selected officers to the Incident.

Add Employee

Use this link to add an employee to the Incident. Begin entering the employee name in the **Find Employee** field to display a list of names that match the entered text, then click the appropriate name from the list. Select the **Role** from the drop-down list.

Add Incident Employee

FIND EMPLOYEE

Max Clark - District 42, Versailles, Non Sworn #3066

Clerk

Cancel Save

Click **Save** to add the employee to the Incident.

Click the **Finished - Go To Next Section** button to advance to the *Offenses* tab.

Offenses Tab (Mass Offense Entry)

Upon completing the three sections of the **Header Tab** you are then taken to the **Offenses Tab**, where you enter any applicable offenses for the incident report.

If no offense was committed during this incident, select the **Skip Offense Section** and you are taken to the next tab of the report, the **Names** tab. This ability to skip the offense section allows for the agency to create incidents for recording non-criminal incidents (accidents, civil matters, ordinance violations, etc.).

You may enter one offense at a time for an incident, or add multiple offenses at one time. If you wish to add offenses one at a time, refer to "Offenses Tab (Single Offense Entry)" on page 214.

To add multiple offenses for the same incident, begin by entering text into the **Offenses** field, which will cause offenses to autofill with matching options. Select the offense you wish to add by clicking on the entry from the drop-down menu, which will cause the offense to appear below. (Details added in, say, the first offense will filter down to the other offenses in the mass entry.)

[Quick Select Report Type Offenses](#)

Click the link to open a dialog box that lists the offense(s) from which to choose. You can filter by Incident Type by selecting from the list. Only one offense appears in the below example for illustration purposes.

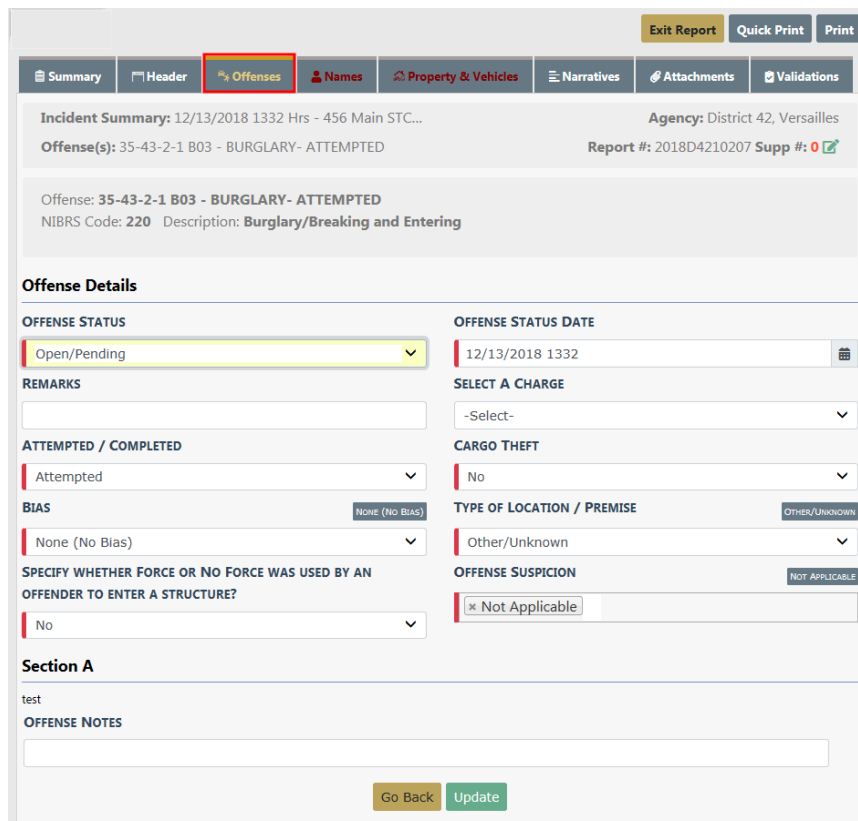

The dialog box titled "Incident Type Offenses" contains a dropdown menu labeled "FILTER BY INCIDENT TYPE:" with "-Select-" selected. Below the dropdown, the text "35-42-2-1.3 - Battery- Domestic" is displayed. A red box highlights a button with a hand icon, and a "Cancel" button is at the bottom right.

If you do not choose a related offense, a notification appears on the Validations tab.

Add Narrative	At least one Narrative is required.
Add Incident Location and NIBRS City	Incident Location, NIBRS City is Required.
Domestic Dispute	Requires at Least One Related Offense
County of Occurrence	County of Occurrence is required for incidents from this agency.

Once the offense has been selected, the system will display the **Offense Details**. This screen is used to describe the status of the offense and collect information related to state reporting guidelines.

The "Offense Details" screen shows incident information for "12/13/2018 1332 Hrs - 456 Main STC..." at "Agency: District 42, Versailles". The offense is "35-43-2-1 B03 - BURGLARY - ATTEMPTED" with NIBRS Code 220 and description "Burglary/Breaking and Entering". The "Offense Details" section includes fields for "OFFENSE STATUS" (Open/Pending), "OFFENSE STATUS DATE" (12/13/2018 1332), "REMARKS", "ATTEMPTED / COMPLETED" (Attempted), "BIAS" (None (No Bias)), "SPECIFY WHETHER FORCE OR NO FORCE WAS USED BY AN OFFENDER TO ENTER A STRUCTURE?" (No), "SELECT A CHARGE" (-Select-), "CARGO THEFT" (No), "TYPE OF LOCATION / PREMISE" (Other/Unknown), and "OFFENSE SUSPICION" (Not Applicable). A "Section A" section contains a "test" label and an "OFFENSE NOTES" text area. Buttons for "Go Back" and "Update" are at the bottom.

Select the appropriate answers about the offense by using the drop down menus or multi-select menus provided. Click on **None**, **Unknown**, and **Not Applicable** buttons to quickly enter that selection into the field, when applicable.

After the mandatory questions have been completed, select the **Save** button, which will then take you back to the **Offenses** tab for review.

Hover your mouse over the information bubble  to the left of the NIBRS code to view the NIBRS Crime Description.

Additional offenses may be added by clicking the **Add Another Offense** hyperlink and repeating the same process.

Click on the **Update All Offense's Status** hyperlink to update the offense status and status date on all edited offenses on the Supplement.

Select the **Offense Status** and enter the **Offense Status Date**, then click **OK**.

Depending on the offense(s) selected on the Incident, certain tabs may turn red. This indicates that additional information in those tabs is needed to validate the state reporting require-

ments for the agency. Placing the mouse pointer over the red tab displays a pop-up window displaying the required information.

Optional **Modus Operandi** information can also be added at the bottom of the page. Clicking the **Add Modus Operandi** link will display the **Modus Operandi** page where entry, exit, method, means, and trademark information can be added and associated to one or more of the offenses listed on the report.

Back to Previous Section Finished - Go To Next Section

Agencies using Caliber CAD and entering person contact data, the Person Name data is automatically added to the incident report in Online RMS without user action using one of the following criteria:

- *Person exact match.* Caliber CAD CFS Contact Type matches Online RMS involvement role.
 - Person is added to the incident report Offenders, Victims, or Other Names section automatically without user action.
- *Person exact match.* Caliber CAD Person Contact Type is **not** provided **nor** matches Online RMS involvement role.
 - Person is added to Master Person Index automatically without user action. Use **Quick Select Names - CF People** option to add person to incident report.
- *No Person exact match.*
 - Use **Quick Select Names - CFS People** option to create the master person index record and add to the incident report.

Quick Select Names - CFS People

If the CFS module and integration is turned on, and the integration process cannot match people that exist on the CFS record with RMS, the unmatched names appear in this section of the **Names Tab**. With appropriate permissions, you have the option to add unmatched people to the Master Index in RMS, then associate them with the Incident Report.

Incident Summary: 02/11/2019 0800 Hrs - 420 Oakbend Drive Lewis...
Agency: District 42, Versailles

Offense(s): No Offense Specified
Report #: 2019D4210213 Supp #: 0

Note: People listed in the below grid are from the CFS call on this report. These people could not be matched with RMS results due to too little information. You can use the provided actions to add them and use the person add screen to enter the missing information and select a potential duplicate.

Quick Select Names - CFS People

Name	Address	Physical Description	Call #	Roles	Actions
Jones, Susan Sex: Female			0000000139BLAH20	Suspect / Offender	
Henry, Fred Sex: Male			0000000139BLAH20	Other Contact Person	
Doea, Jane Bonny Race: Unknown Sex: Female			0000000139BLAH20	None Specified	

Click the appropriate icon in the *Actions* column to add the name as an Offender, Victim, or Other Person. Hover your mouse over each icon for a description of what the icon does.

Note: A green icon suggests the Recommended Action based on the CFS Contact Type/Involvement Role. For example, if the *Add as Offender* icon is green, that is the recommended action.

Note: Names appearing as black text, lack unique person identifiers required to match to or create a new master person index record.

After clicking the appropriate icon, the **Add Person** screen appears. Fill in the appropriate information then add and select the person. When adding a new person record, the system notifies you if there are potential duplicates.

- For more information, refer to "Adding Person" on page 100.

Offenders Section-Adding Unknown Offender(s)

- **Add Unknown Offender**

Selecting the **Add Unknown Offender** hyperlink prompts you to list the number of unknown offenders by using a drop down menu. Once the number of unknown offenders is selected, add applicable sex, race, age, and description to each. *Not Known* is also an acceptable answer.

Offenders Offender Information Not Known **Add Offender** Add Unknown Offender

If the **Add Offender** hyperlink is chosen you are taken to the **Master Indices Person Search** screen.

You can select person records for the incident report three ways:

- Search by entering your own criteria, then select from the search results list.
- Create new master person record and add it to the incident report.
- Search for a person that exists on a CFS record that is associated to the incident report, if applicable, then select from the search results list. An **Associated CFS Available** link appears if the incident is associated to a CFS record.

For more information on searching, selecting, and creating *Master Person* records, refer to "Master Indices" on page 83.

Note: Always search for *Master Person* prior to adding a new record. Search as broadly as possible to yield more results, then Refine Search as necessary to narrow the search. This will help to prevent Master Indices duplicate records for the same Person, Address, etc.

Once all information has been added to the person record, click the **Select** button to continue to the next screen to add additional NIBRS/UCR related information for that person.

- When finished updating the offender information, and if the Field Arrest module is turned on and role of arrestee has been added, you receive a prompt asking if you would like to create a Field Arrest for this offender.

Click **No** to return to the Incident without creating the Field Arrest, or click **Yes** to create the Field Arrest. For more information, refer to "Names Tab" on page 218. No matter what you choose, the process creates the offender record and adds it to the Offender section of the Incident.

If you select the box indicating that the Offender was also a victim of the offense, you are asked to confirm. Select **Yes** to confirm.

Message From RMS

Only choose this option if this Incident Report involves a single reciprocal offense such as domestic battery / assault that involved 2 or more offenders where each offender was also the victim for the offense.

No Yes

Select the **Save** button to return to the **Names** tab where the person will appear added to the Offender Section. If the offender was also a victim, the name is also listed under the victim section. Add additional offenders if applicable.

Offender Section-Create and Edit Field Arrest

If the Field Arrest Module is turned on for your agency and you have appropriate permissions, you can create a Field Arrest and import incident data into the offender's arrest record using one of the following methods:

- Click on the **Add Field Arrest** icon  next to the offender's name when it exists.

Select the items you want to import from the list that appears then supply any necessary information from additional fields that appear based on your selection.

Click **Yes** when asked to confirm the creation of the Field Arrest.

The *Edit Field Arrest* form opens. Update the Field Arrest as needed and click **Update**. For more information on updating Field Arrests, refer to "Edit Field Arrest" on page 370.

Click **Go Back** to return to the Incident Report.

The **Add Field Arrest** icon  changes to **Edit Field Arrest** . You can now edit the Field Arrest while on the Names tab of the Incident.

- Click the **Add Offender** link to add an offender to the Incident and role of arrestee has been added. After you finish adding the offender information, a prompt appears asking if you want to create a Field Arrest for this offender.

Message From RMS

Would you like to create a field arrest for this offender?

No Yes

Click **Yes** at the prompt, then follow the steps in "Create Field Arrest from Incident" on page 267

Incident Victim(s)

Society crimes will default **Society** as the victim.

Persons and Organizations can be added to the Incident following the same process used to add a Known Offender. For details on adding a Known Offender refer to "Offender Section- Adding Known Offender(s)" on page 221.

At the bottom of the screen is an optional area where you can note Victim Rights Notification information if applicable.

Click **Continue** to return to the names tab where the person added can be seen. Add Additional victims in the same manner if applicable. If no other names are needed click the **Finished - Go To Next Section** button to proceed to the **Property & Vehicles** tab.

Adding Organization as Victim

Select the **Add Organization** hyperlink to advance to the **Master Indices Organization Search** screen. Search for the Organization they need to add to the report as a victim.

Note: Always search the Master Indices prior to adding a new record. Search as broadly as possible to yield more results then Refine Search as necessary to narrow the search. This will help to prevent duplicated records for the same Person, Address, etc. in the Master Indices.

The search results display either a list of organization names meeting the search parameters or will indicate that there were no results found.

If the desired organization is listed, you can select the existing record as the victim for the report. Best practice is to review the information by clicking on the Organization Name or Index ID to review the information and verify it is up to date prior to selecting the record for the report.

Organization Name	Organization Type	Organization #	Street #	Direction	Street Name	City	State	Zip	Index Id	Actions
Automation Incorporated	Computer Systems and Services including	911	122	West	Elm	Chicago	Illinois	60610	240000006	
Automation Industries	Law Office	123	2740	North	ADDISON MEADOWS	INDIANAPOLIS	Pennsylvania	46203	240000007	
Automation Solutions	Business/Personal Services	456	456	West	Livingwell	Denver	Colorado		240000014	
Fake Org Automation	Unknown	12345							240000028	
Mike's Auto Shop	Automotive & Service Station								4	

If the organization does not already exist in the Master Indices, select **Add Organization** to add the new record. Enter the Organization Name and Type fields then click **Save**, or click **Save & Select** to save and add to the Incident. Add additional known information such as the organization's address, phone number, employee information, and attachments.

Organization View Organization Summary Update Organization Change Organization

NAME	TYPE	BUSINESS #	INDEX ID
Automation Industries	Law Office	123	240000007

Click the **Save** button to add to the Incident. Add additional names and organizations for the report if applicable.

Other Names

Additional persons and organizations can be added to the report when applicable.

Other Names Add Person Add Organization

The entry of **Other Names** is performed using the same method as adding a Person, Organization, Victim, or Known Offender.

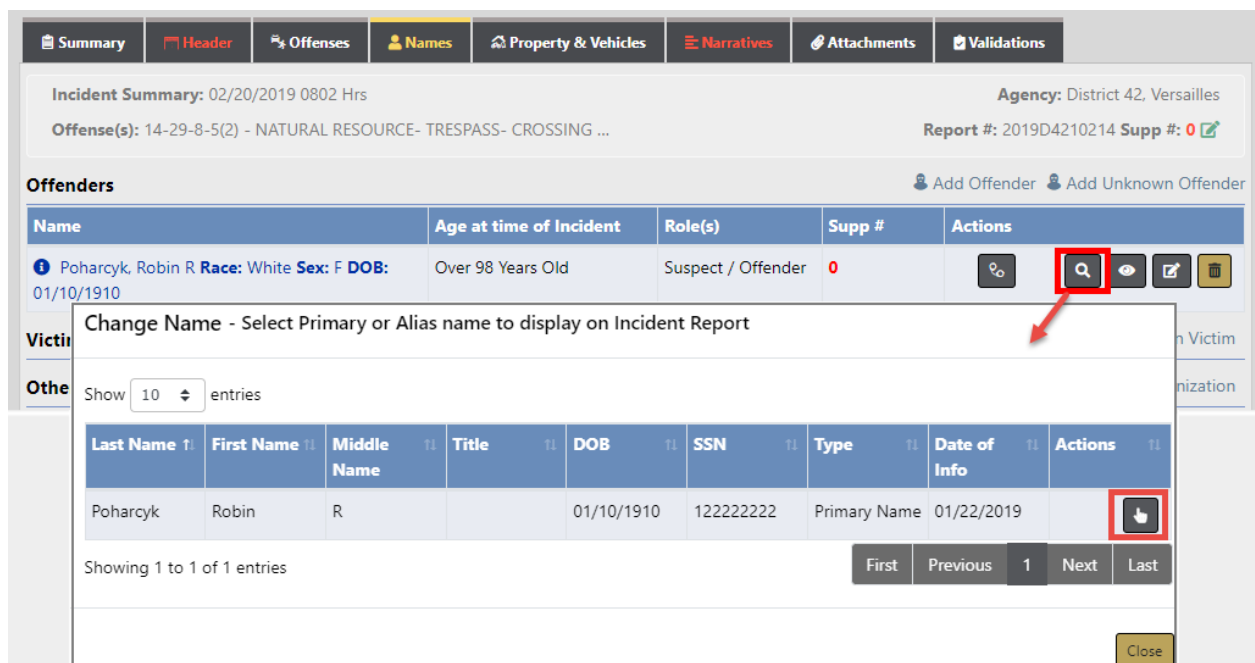

For more information on adding a Known Offender refer to "Offender Section-Adding Known Offender(s)" on page 221.

For more information on adding an Organization as a Victim refer to [#AddOrgAsVictim](#).

Select the **Finished - Go To Next Section** button to proceed to the *Property & Vehicles* tab.

Changing a Name

You can change a name from primary to alias or visa versa if you have already added a name in one or more of the name sections of the incident. Click on the magnifying glass  then select  a name that appears in the list.

The screenshot shows the RMS interface with the 'Names' tab selected. The 'Offenders' section displays a table with one entry: Poharcyk, Robin R. The 'Actions' column for this entry has a magnifying glass icon highlighted with a red box. A modal window titled 'Change Name - Select Primary or Alias name to display on Incident Report' is open. It shows a table with one entry: Poharcyk, Robin R. The 'Actions' column for this entry has a hand cursor icon highlighted with a red box. A red arrow points from the magnifying glass icon in the 'Offenders' table to the modal window.

Name	Age at time of Incident	Role(s)	Supp #	Actions
Poharcyk, Robin R Race: White Sex: F DOB: 01/10/1910	Over 98 Years Old	Suspect / Offender	0	  

Last Name	First Name	Middle Name	Title	DOB	SSN	Type	Date of Info	Actions
Poharcyk	Robin	R		01/10/1910	122222222	Primary Name	01/22/2019	

Property & Vehicles Tab

The **Property & Vehicles Tab** contains all the incident related property and vehicles.

If there is an offense on the report that requires property or vehicle association to satisfy NIBRS/UCR validations, the tab will be red and there will be instructions on the page stating the requirement.

Add Property

Click the **Add Property** button to display menu items from which to choose. You can add a single piece of property, or multiple (mass) property types listed.

There are five **Categories** for adding property: *Property*, *Drugs*, *Documents*, *Currency*, and *Guns*.

The majority of the time when dealing with a piece of property for an Incident report, the piece of property has not been dealt with by the user's agency. For this reason you are presented with the **Add Property** screen instead of a **Master Indices** search screen.

- **Add Single Property**

Click **Add Single Property** to display the *Property Information* screen. Select the **Category** to display additional fields to describe the property in more detail.

Go Back Save & Select

Note: If you have reason to believe the piece of property you are going to enter on the report has been dealt with previously, use the **Search Properties** button to the top right, locate the existing property in the **Master Indices**, and add it to the report.

Note: Drug property quantities and measures may be edited through supplements that appear on the current report, but may only be edited by a user if they appear on an incident for which that user has ownership and if the QTY = 0 or UOM = Not Reported.

Enter necessary data, then click **Save & Select** to save your entry and add it to Incident Property.

- **Add Mass Entries**

You can add multiple (mass) property types for *Property*, *Drugs*, *Documents*, *Currency*, and *Guns*. If you choose any one of the Mass options, you can add multiple property records on one screen, rather than add them one at a time.

Refer to "Mass Entry" on page 233 for details.

Note: If you are entering *Mass Currency*, currency should only be used when dealing with large amounts of currency where the denominations are known. For smaller amounts, use the *Property* category and select **Cash** from the

drop-down list. For example, *\$500 stolen from a person* would be entered as *Property*, Cash and the description could state *Miscellaneous 5, 10, & 20, dollar bills*.

Enter the property information in the fields provided then click **Save** to display *Additional Information*.

You have the ability to process the property as **Evidence/Held Property**, **Lost & Found**, or **None** (neither), providing your agency elected to turn on these modules.

Additional Information

Only associate a piece of property to an offense if that property was a 'target' or incurred a loss resulting from that offense (i.e., the property was Stolen & Recovered, Burned, Counterfeited/Forged, Destroyed/Damaged/Vandalized, or for drug seizures) ⓘ

CURRENT STATUS
Confiscated

Scroll to the right to see all fields, and the Processing options

Note: The offenses that require at least one property appear in red, otherwise they appear in black.

If you select *Recovered* as the **Current Status**, a **Recovered Date/Time** required field appears.

Note: On setting status to **recovered**, RMS allows the user to capture recovered date and address and select an address from a list of all locations associated with the report.

Enter the property details in the fields provided; be sure to scroll to the right to see all fields. See "Evidence/Held Property" on page 230 for instructions on entering the details.

Be sure to scroll to the far right for *Processing* radio buttons.

Add additional property rows if needed.

There are two ways to add additional property:

- To add one row, click the **Add** button on the left.
- To add multiple rows, enter the number of rows you want to add in the text box next to the **Add More Rows** button, then click the **Add More Rows** button.

Select the **Current Status** and, the **Date of Info** if different than the default, and any **Comments**.

You can associate all property listed with all offenses, none, or a specific offense.

After selecting offense option, enter additional information if prompted.

When an offense on the report requires a property or vehicle association, validations are in red advising of the requirement. Make note of the instructions indicating what property should be associated to what types of offenses. Hovering over the blue information bubble will provide examples.

Additional Information

Only associate a piece of property to an offense if that property was a 'target' or incurred a loss resulting from that offense (i.e., the property was Stolen & Recovered, Burned, Counterfeited/Forged, Destroyed/Damaged/Vandalized, or for drug seizure) 

Note: You can associate property to an offense later by clicking on the edit icon

under the Actions column on the *Property & Vehicles* tab.

Click the **Save** button.

If you selected the **Evidence/Held** radio button on one or more property items, click **Yes** to enter the items as evidence/held property when prompted.

- The *Evidence/Held Property* screen opens where those are listed in mass.

Go Back Save

- Enter the information in the fields provided, and be sure to scroll to the right for all fields.
- Select the **Save** button.

You are taken back to the **Property & Vehicles** tab for review.

Add Vehicle

Selecting the **Add Vehicle** hyperlink will display the **Search Vehicle** screen.

The screenshot shows a web-based form for searching vehicle records. At the top right is an 'Add Vehicle' button. Below it is a 'Vehicle' tab. The form contains several input fields and dropdown menus: YEAR, MAKE, MODEL, VIN, TYPE, STYLE, LICENSE PLATE, LICENSE STATE, INDEX ID, CREATOR, CREATION DATE FROM, CREATION DATE TO, and SEARCH PREFERENCE (ALL, ANY). At the bottom left, there is an 'ADDITIONAL SEARCH CRITERIA' dropdown menu that is open, showing options: Select, Additional Details, Towing Company, Misc ID, People, Organization, and Incident Status. At the bottom right are 'Go Back', 'Reset', and 'Search' buttons.

Note: Always search the Master Indices prior to adding a new record. Search as broadly as possible to yield more results and Refine Search as necessary to narrow the search. This helps to prevent duplicated records for the same Person, Address, Vehicles, etc. in the Master Indices, and it keeps all RMS system activities related to the record in a centralized location.

The search results display either a list of records matching the search parameters or will indicate that there were no results found. If the desired record is listed you can select the existing record as the victim for the report. Best practice is to review the information by clicking on the VIN or Index ID to review the information and verify it is up to date prior to selecting the record for the report.

- The **Property & Vehicles** tab of the Incident Report.

Select **Print Evidence/Held Property** and the *Incident Properties Reports* window displays.

Select which properties to include, then select the **Print Labels** button.

A PDF document opens in a new tab in your browser. Print directly to the printer or save the PDF document giving it a custom filename.

Note: If you are using Internet Explorer, refer to "Printing from Online RMS" on page 39 for special instructions.

Narrative Tab

While on the **Narrative** tab, click on the **Add Narrative** button to open the Narrative entry screen where there is a built-in editor with formatting tools that supports grammar and spell checking, and provides the ability to format the body of the narrative.

You can insert an **image** directly into the Narrative. Before you insert an image, click into the body of the Narrative where you want to place the image.

There are two ways to insert an image on the Incident Narrative:

1. Click on the **Image** icon on the tool bar.

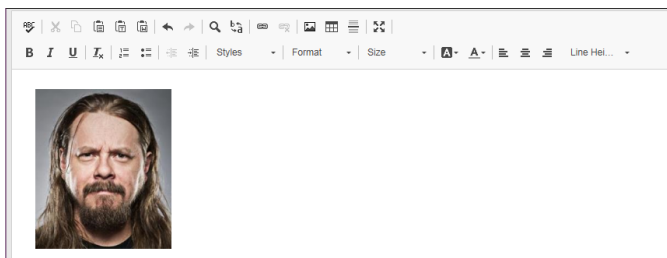

A dialog window appears giving you the option to select a file.

Click **Browse** then select an image file and click **Open**.

Select the **Image Size**, then click **OK**.

The image inserts into the body of the narrative.

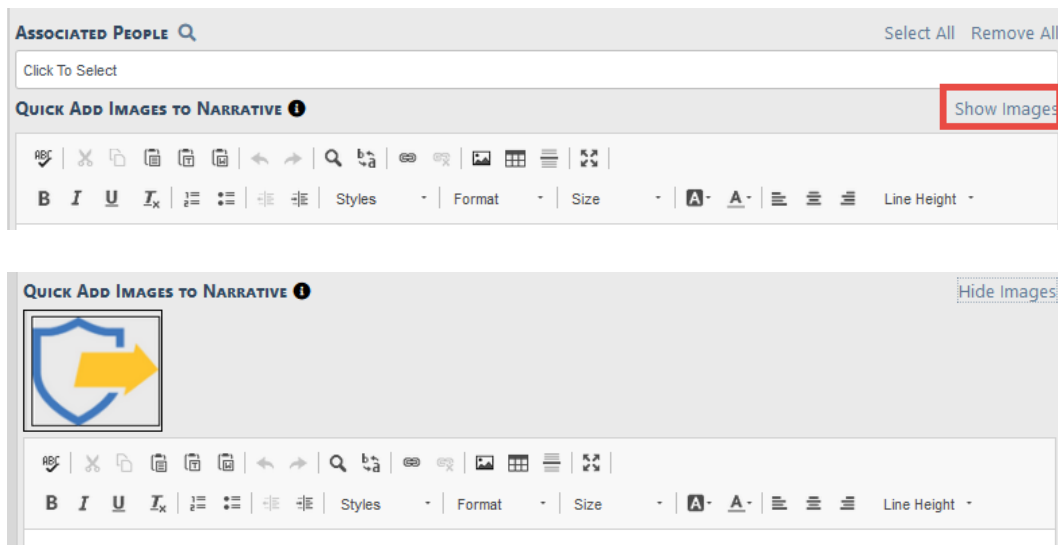

To *remove the image* from the body of the narrative, click on the image then press the **Delete** key on your keyboard.

2. Insert image from your **Image Library**.

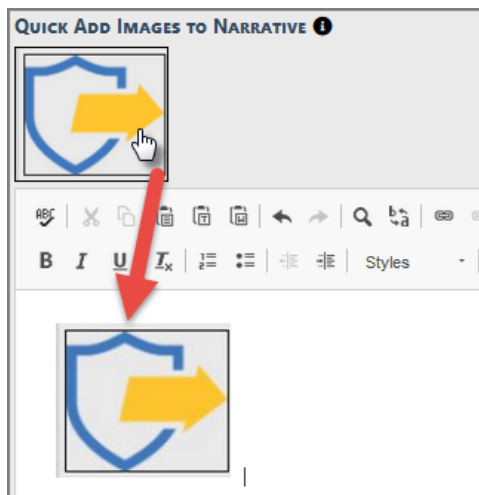

Note: This option is not available when entering Arrest or Case Narratives.

Select the **Show Images** link to display the images in your personal Image Library.

To hide the photos, click the **Hide Images** link on the upper right.

Click on the **image** to select and insert it into the Narrative.

The **styles editor** allows you to format elements within the narrative. Starting with RMS 11.15, this includes a style for **redact** (which operates similar to **marker**, but highlights black instead of yellow).

The built-in *Spelling and Grammar Checker* identifies mistakes and corrects them as you type your narrative.

Some agencies may use **Narrative Templates** to guide you in creating their narrative. If a template is selected, the information will be applied to the narrative for you to complete and edit as required.

The **Narrative Title** will default to *Original Narrative* but you may edit the title if necessary.

Select **Associated People** to associate the Incident persons to the Narrative. Select as many that apply.

There are icons for printing the narrative and for saving the narrative which can be used at any time while the narrative editor is open.

As the narrative is being typed, the system auto-saves the narrative every sixty seconds in the event the connection is lost or the computer becomes unusable. The system will also provide auto-complete options as you type to make data entry easier and faster.

If the application attempts to save and is not able to reach the server, you are presented with a Warning indicating the connection may be lost. Navigating away from this screen may cause you to lose up to 60 seconds worth of your narrative. Simply reestablish your connection and select the **Click Here to Try Again** link so the narrative can be saved to the server and continue the auto save feature.

You should only have one workstation logged in to Online RMS at any given time.

If you have two workstations open on the Narrative screen, the first session open to the Narrative page is saved in Online RMS. If you write a lengthy narrative on the second open session, it does not save on your report.

Note: Always **Save and Exit** your Narrative when leaving the computer for any length of time, or move to a different computer to complete your report.

The **Quick Reference** icon  is a hyperlink that displays a window in the upper left hand corner which provides easy access to all the people, organizations, vehicles and property, and case narratives within the incident report.

Note: If no items exist for a particular tab, that tab does not appear. For example, if a Case Narrative does not exist with an associated Case, then the Case Narrative tab does not appear.

The **Quick Reference** window contains blue hyperlinks. By clicking on the blue hyperlink you add that particular information directly into your report's narrative in the area where your cursor is located.

You may also place your mouse over the blue information bubbles to see additional information.

Note: You may also type the @ symbol followed by the first few letters of the field you want, such as **@Off**, **@Loc** etc. directly in the narrative text. This will bring up quick references to add into the narrative.

Once the narrative has been completed you can select the **Save & Continue** button which will display the **Narrative** tab for review. Additional narratives may be added to the report by selecting the **Add Narrative** link to the top right which will open a new narrative entry screen.

Note: If the agency is configured to bring over notes from CAD, you will see those narratives listed. You can view, edit, or delete the existing narrative as needed. A new narrative can be added by selecting the **Add Narrative** link.

When you have completed the narrative(s) for the report, select the **Finished - Go To Next Section** button to navigate to the **Attachments** tab.

Attachments Tab

The **Attachments** tab is used to capture incident related attachments such as crime scene photographs or statements, and you can download existing attachments. This is also the location where *Custom Forms* can be completed if the agency is using them.

The screenshot shows the 'Attachments' tab selected in the top navigation bar. Below the navigation bar, there are buttons for 'Exit Report', 'Quick Print', 'Print', 'Transfer', 'Exit Wizard', and 'Submit for Approval'. The main content area displays 'Incident Summary: 12/13/2018 1332 Hrs - 456 Main STCT Apartment #1...' and 'Offense(s): 35-43-2-1 B03 - BURGLARY - ATTEMPTED'. The 'Agency' is listed as 'District 42, Versailles'. The 'Report #' is '2018D4210207' and 'Supp #' is '0'. Below this, there is a section titled 'File And Image Attachments' with links for 'Image Library', 'Add Attachment', 'Image Viewer', and 'Download Selected Attachments'. At the bottom, there are buttons for 'Back To Previous Section', 'Finished - Go To Next Section', and 'Submit for Approval'.

To add a file or image as an attachment, select the **Add Attachment** hyperlink. For more information on adding and downloading attachments, refer to "Attachments" on page 69.

To add an image file from your personal Image Library, select the **Image Library** hyperlink. If images do not exist in your Image Library, then the hyperlink does not appear. For more information on the Image Library, refer to "Image Library" on page 75.

To view an image, select the **Image Viewer** hyperlink.

When all attachments are saved and closed the system returns to the **Attachments** Tab where the files will be displayed.

There are icons next to each file in the *Actions* column that allows you to download, view, edit, and delete the file.

Agency Forms can also be completed in the attachments section of the incident report. Select and complete the form from the drop-down menu. Refer to your administrator for details.

Select the **Finished - Go To Next Section** button to advance to the **Validations** Tab.

Validations Tab

The **Validations** Tab allows a final check of your report to ensure the minimum requirements are met based on the offense(s) entered on the report. The validation check occurs automatically when navigating to the **Validations** tab. The validation process verifies all the minimum requirements are met, then lists information still required for the report along with a hyperlink to that section of the report

Verify Incident Report

Online RMS has found errors on the incident report which require attention before the report may be submitted. You may use the links below to help guide you to the particular area of the report needing modification. Once all of the errors have been resolved, you may submit the report for approval.

Selected Incident Types	Incident Types are required for incidents from this agency.
Incident Summary	Incident report requires a Media/Crime Summary.
Add Incident Location and NIBRS City	Incident Location, NIBRS City is Required.
35-43-4-2 T02 - THEFT- AIR CONDITIONER/FAN	Offense requires Property details.
35-43-4-2 T02 - THEFT- AIR CONDITIONER/FAN	Offense Status Date cannot be prior to Incident Report Occurrence date or a date in the future.
Brown Charlie Snoops Race:White SEX:Male Age:45 Years Old	Victim Offense Details Required

Verify Incident Warnings

Audit warnings represent data situations that are commonly flagged by IBR authorities as uncommon or overly used that should be evaluated by the agency prior to submission. The goal of this process is to ensure the quality and accuracy of data submitted to the IBR authority. Corrections are NOT required for approval.

Type	Message
NIBRS	Incident contains a Hate Bias Motivation. Please verify that Hate/Bias was a factor in the incident.

Click on each hyperlink in blue to correct the errors. After each correction, click **Save**, **Continue**, or **Update** (the button differs on each form) to return to the Validations page, or click **Return to Incident Validation** to return without saving.

A message appears in the **Incident Validations** tab when the report passes all validations.

The screenshot shows the 'Validations' tab selected in a tabbed interface. The incident summary is '03/27/2018 1257 Hrs - 789 North Livingwell Court D...'. The agency is 'District 42, Versailles'. The report number is '2018D4210158' and the support number is '0'. A green message bar at the bottom states 'The Incident Report is valid.'

Once the report is valid, submit it for approval. For more information on submitting for approval, refer to "Submit For Approval" below.

Submit For Approval

When the report passes all validations, it is ready for approval submission. Submit the report for approval by selecting the **Submit for Approval** button located at the far right hand of the screen just above the tabs.

This screenshot is similar to the previous one but includes additional buttons at the top: 'Exit Report', 'Quick Print', 'Print', 'Transfer', 'Show Wizard', and 'Submit for Approval'. The 'Submit for Approval' button is highlighted with a red box. The rest of the interface, including the incident summary and the 'Validations' tab, remains the same.

Users with approval authority will receive a message to either approve or submit the request.

The dialog box titled 'Submission Options' contains the text: 'You have authority to approve incidents. Would you like to approve or submit for approval?'. At the bottom, there are three buttons: 'Cancel', 'Approve', and 'Submit'.

By selecting the **Submit** button, the **Submission** screen appears. The *Approving Agency* defaults to your home agency and the *Approving Group* defaults to the *Approving Supervisor*. A text box is provided to supply additional information for the *Approving Supervisor*. Select the **Submit** button for submission.

[Yes](#)

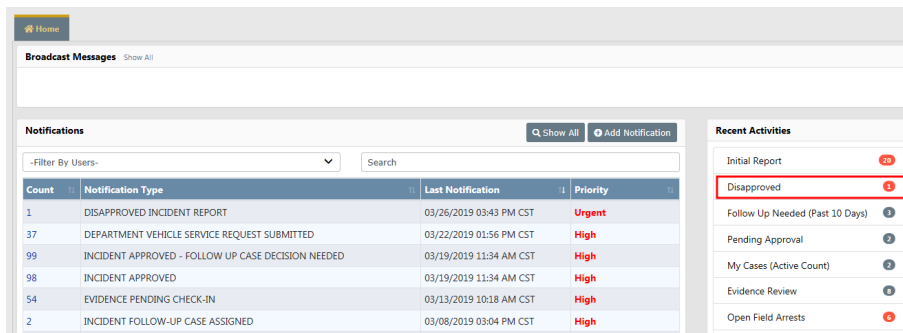

The *Approving Supervisor* receives notification that the Incident Report needs approval. For more information about the approval process refer to "Approve/Disapprove Incident Report" on page 427.

There may be times when the *Approving Supervisor* **disapproves** the Incident Report and routes it back to you for more information or to make corrections. After making corrections, you have an opportunity to resubmit for approval. For more information, refer to "Disapproval Notice Corrections" below.

Disapproval Notice Corrections

The *Approving Supervisor* may **disapprove** the Incident Report and route it back to you for more information or to make corrections. You will then have an opportunity to make the necessary corrections and resubmit for approval.

The Recent Activities section of your Home page displays those that have been disapproved.

The *Approving Supervisor* receives notification that the Incident Report needs approval. For more information about the approval process refer to "Approve/Disapprove Incident Report" on page 427.

Click **Go Back** to return to your Home page.

Summary Tab

The **Summary** tab contains a summary of all the information that is contained in the other tabs of the current Incident Report.

Information in the **Summary** tab is divided into sections, such as Officers, Employees, Offenders, Victims, Narratives, etc.

The icons under the tab headers and Incident description are hyperlinks that direct you to each section. Hover your mouse over the icon to view a description of the hyperlink.

For example, select the *Offenses* hyperlink and you are directed to the *Offenses* section of the **Summary** tab.

Offenses Update All Offenses' Status Add Offense							
NIBRS	Severity	Offense	Remarks	Status Date	Status	Supp #	Actions
13A	1	35-42-2-1 B05 BATTERY- KNIFE		04/30/2018 1355	Unfounded	0	
23D	2	35-43-4-2 T02 THEFT- AIR CONDITIONER/FAN		04/30/2018 1353	Warrant Request	0	

Add data to the Incident Report in sections that contain an **Add** hyperlink. For example, the **+ Add Person** hyperlink opens the **Person Search** screen to begin the process of adding a person to the report.

The **+ Add Field Arrest** hyperlink under the Field Arrests section provides the ability to associate a *Field Arrest* to the report, or you can create a Field Arrest from the Offender section and associate it to the Incident automatically.

Beginning with Online RMS 11.7.0, with appropriate permissions, you can create a Field Arrest and import data from an existing Incident or Calls for Service record into the arrest record, avoiding unnecessary data entry. This process also associates the Field Arrest to the Incident or Calls for Service record automatically.

- Click on the **Add Field Arrest** icon  next to an offender's name on the **Summary** or **Names** tabs.
- For details on the create and import field arrest process, refer to "Create Field Arrest from Incident" on page 267.

The **Calls for Service** section is located toward the bottom of the **Summary** tab. Page down or click on the icon hyperlink to go directly to the CFS section.

In the **Calls For Service** section, view the associated CFS by selecting the **View** icon  under the **Actions** heading, click the **Add Call for Service** link to search for and associate an existing call for service record to the incident, or click the delete icon  to remove the association.

Calls For Service Add Call for Service						
Dispatch #	Agency	Event Type	Caller	Location	Dispatch Date	Actions
2019-00000250	District 42, Versailles	Police		145 RILEY AVE, GREENFIELD, IN, Hancock	06/17/2019 13:42	

- The **Add Call for Service** link appears for any user able to edit the incident report.
- The delete icon  appears when the user is the original creator of the association or the user has permissions to delete the association.

- When deleting the association, a prompt appears asking you to enter a **Comment** as to why you are deleting the association. The comment, report number, and dispatch number are stored in an audit table.

The Summary tab also contains an **Actions** button that allows you to perform certain actions. Click on the button to view a drop-down list of choices from which to choose. This list is based on permissions and varies by agency.

Note: Authorized users can add attachments to supplement 0 while outside the normal approval workflow and when the Incident is not in edit mode. For details, refer to "Add Attachments Outside Incident Workflow" on page 284.

Add Criminal Complaints

This option is available providing you have the appropriate permissions and the feature is turned on for your agency.

Perform one of the following options on the **Summary** tab to add a Criminal Complaint:

- Click the **Actions** menu button, then click **Add Criminal Complaints**.
- or **Page down** on the Summary tab to the Criminal Complaints section and click **Add Criminal Complaints**.

The *Create Criminal Complaint* form opens.

Create Criminal Complaint(s)

Select the **Offenders**.

- The names listed are only the Incident suspect/offenders that do not already have a criminal complaint associated with the incident.
- A Criminal Complaint is created for each person selected.
- Only displays.

Select one or more **Charges**.

- At least one charge is required.

Select the **Complaint Type** from the drop-down list.

If applicable, check the box to make yourself the **Complaint Officer**.

If the Incident has Custom Forms, an option displays allowing you to select any or all **Custom Forms** to be associated with the criminal complaint.

If applicable, check the box if you want to attach the full **Incident Printed PDF Report**.

- If the Incident has **Custom Forms** and it is configured to create a fillable form, the fillable form PDF is associated with the criminal complaint instead of the custom form.

Click **Save** to create the Criminal Complaints and associate them to the Incident Report supplement automatically.

- The complaints are listed in a grid on the *Summary* page. You can further edit the complaint and submit for approval.

Add Court Case

Perform one of the following options on the **Summary** tab to add a Court Case:

- Click the **Actions** menu button, then click **Add Court Case**.
- or **Page down** on the Summary tab to the Court Case section and click **Add Court Case**.

The *Create Court Case* form opens.

Create Court Case

Click **Save** to create the Court Case and associate to the Incident Report supplement automatically.

Add Associated Incidents

You can associate an incident report with another. There are two ways to do this:

- Click on the **Add Associated Incident** link in the *Associated Incidents* section of the *Summary* tab to search for and select an Incident.
- An association to another incident happens automatically during the *Copy Incident* process, if utilized by your agency. For more information on the *Copy Incident* process, refer to "Copy an Incident" on the next page.

From the grid for the associated incident, select the  icon to import data from that incident.

Associated Incidents ➕ Add Incident Association

Incidents that are hidden do not appear in this grid unless you have proper permissions to view them. For more information on hidden Incidents, refer to "Incident Security" on page 194

Crash Reporting

If configured for your agency, this option is a single sign-on to the Ethos home page for States where the LexisNexis Ethos Crash application is available.

Copy an Incident

If your agency chooses to use this feature, authorized users can copy an existing incident and save it as a new Incident.

Requirements to use this feature:

- Your agency must be using the Incident number generation feature.
- The user's role must be given copy incident permissions and be in the same organization as the incident.

You can copy an incident from edit or view mode from the **Actions** menu on the Incident *Summary* tab.

The process does not copy offense-related information. For example, property or vehicles directly related to offenses do not copy to the new Incident, whereas, they do copy over if they are not offense-related.

The following information can be copied to the new incident:

- General information from the header, including custom fields.
- People or organizations.
- Custom forms.
- Attachments.
- Narratives.
- Property and vehicles.

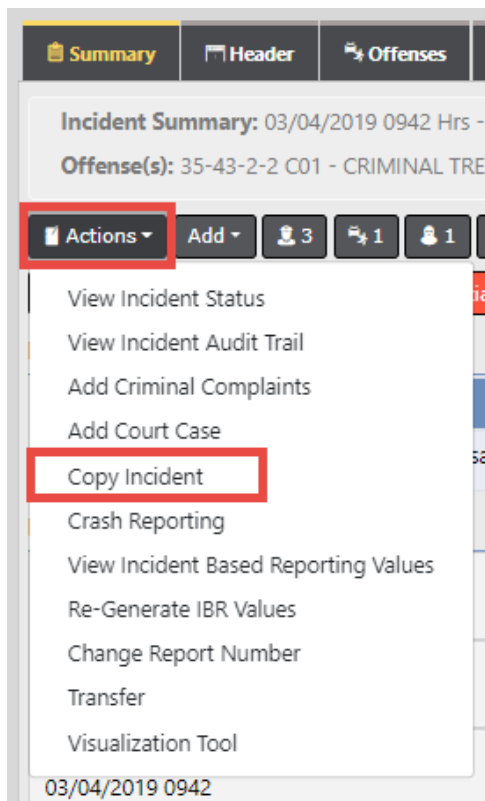

Only basic information copies to the new Incident at this time; additional information will be included in a future release.

- Employees.
- Offenses.
- Officers.
- Associated CFS and Fields Arrests.

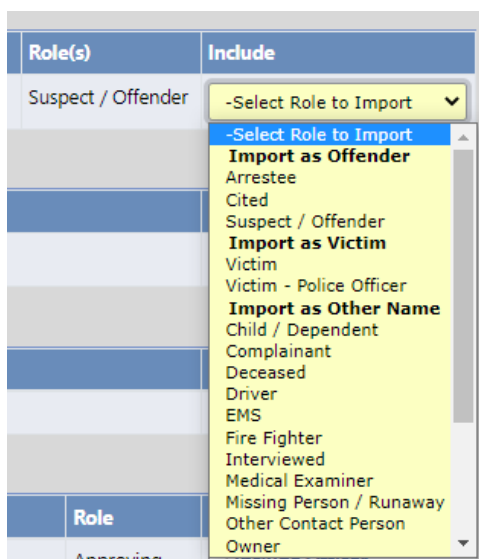

The copy process only copies information from supplement 0. If you are copying information from an Incident that has multiple supplements, the new Incident includes information from supplement 0 and not from subsequent supplements.

Follow these steps to copy an incident to a new Incident record:

1. View or edit the Incident.
2. Click on the **Action** button on the *Summary* tab, then click **Copy Incident**.

3. The *Copy Incident* screen opens.
4. For each person and business, select the **Role to Import** into the new Incident. The role could be the same or different on the new Incident than the role on the original Incident. The original role appears in the *Roles(s)* column.

Note: If you do not select a role to import, that name or business does not import into the new incident record.

5. Select the **Location** to copy to the new Incident. This is the main location for the Incident. Only one location can copy to the new Incident at this time.
6. Select all other information you want to copy to the new Incident, such as property, vehicles, officers, calls for service associations, field arrest associations, narratives, attachments, etc. Other than location, you can choose one or multiple within each of the other categories.

The screenshot shows a vertical list of selection options for copying information to a new incident. Each option consists of a blue header bar with the word 'Include' and a light blue bar below it with a checkbox and a label. The first option has a checked checkbox and the label 'Use this Location'. The second and third options have unchecked checkboxes and the label 'Include Officer'. The fourth option has a checked checkbox and the label 'Include Narrative'.

Include
<input checked="" type="checkbox"/> Use this Location
<input type="checkbox"/> Include Officer
<input type="checkbox"/> Include Officer
<input type="checkbox"/> Include Narrative

If the Narrative is associated to a person and that person is copying to the new Incident, then the narrative copies with the person. If you choose to copy the narrative but not the person, the narrative copies to the new Incident without the person.

Note: Calls for Service and Field Arrests are the only associated events that copy over to the new Incident (not citations, for example).

7. Make any changes to other information on the Incident, if needed.
8. Click **Save**.
9. A supplement 0 report is created with a new Incident number.

10. The process associates the original and new Incident reports automatically. Page down while on the *Summary* tab to view the association.

Criminal Complaints				+ Add Criminal Complaints
Court Cases				+ Add Court Case
Associated Incidents				+ Add Incident Association
Report #	Incident Summary	Report Date	Actions	
2019D4210216	asdf	03/04/2019 0942		

You can also associate another Incident by clicking on the **Add Incident Association** link.

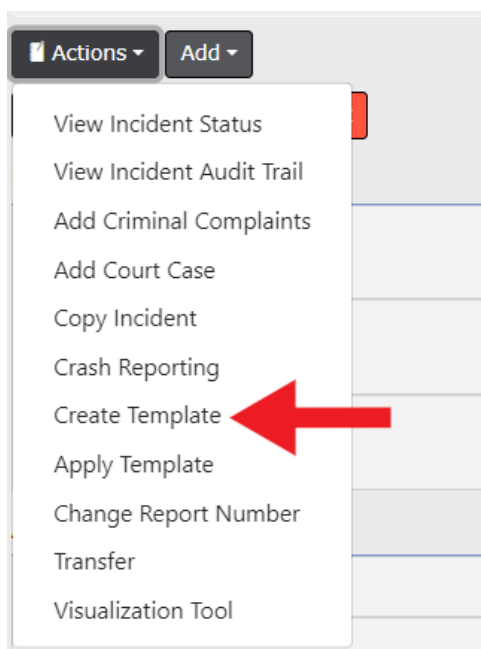

Incident Templates

If your agency chooses to use this feature, authorized users (including users who have ownership of the incident to be edited) can create an apply templates to incidents for frequently used incident scenarios and details.

Creating Incident Templates

Follow these steps to create a template.

1. View or edit the Incident.
2. Click on the **Action** button on the *Summary* tab, then click **Create Template**.

3. From the *Create Template* window, enter a template name and description.

4. Using the check-boxes, select the elements from the incident report that you wish to include in the template. The elements that can be included are Medisa Summery, Incident Types, Location, Offenses, Victims, and Narratives.

Note: You may choose to make a template for your user profile ONLY by selecting the **Limit To My User** check-box. Leaving this box unchecked will create a template available to the entire agency or organization, depending on the user's permissions level.

5. Select **Save** to save the template. You will be prompted to confirm the creation of the template. (Choose **Yes** to confirm or **No** to cancel.
6. You will see a brief message confirming the template has been created before you are returned to the *Summary* tab.

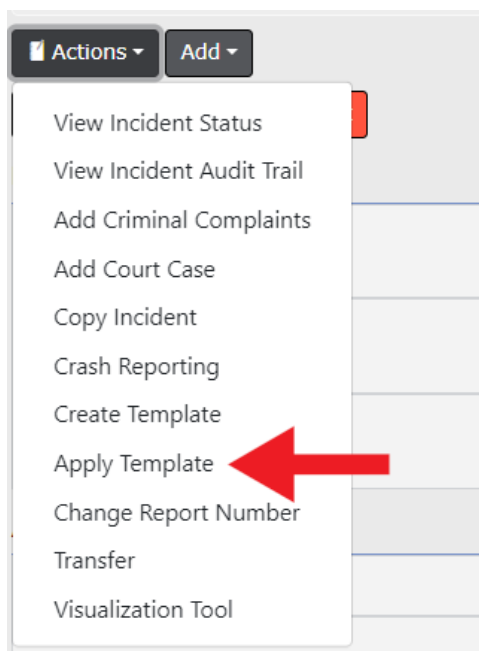

Note: Meta data and custom fields are carried over when creating templates.

Applying Incident Templates

After you have created templates, Follow these steps to apply a template.

Note: Applying a template will only add information to an incident. It will never remove data. Duplicate items will not be added twice, but the user may choose to replace the incident location with the location from the template, if desired. Adding a template adds everything in the template; at this time, there is no option to select individual items from the template to include or exclude.

1. View or edit the Incident.
2. Click on the **Action** button on the *Summary* tab, then click **Apply Template**.

3. A list of templates for your user profile appears. You may choose from among your profile's templates, or use the drop-down window to select an agency template (if available).

Apply Template

Select A Template From The List Below To See Details And Apply.

View Incident Reports

The option to **View Incident Reports** is in the Incidents menu.

A **Incident Search** window opens, where you can search for a particular incident to view by entering data in any field or combination of fields. For more information on incident searching, refer to "Incident Search" on page 270.

Click on the view icon  in the incident Search Results to view the Incident Report.

The *Summary* tab opens by default. If the report has more than one Supplement, the number of Supplements are listed next to the  icon.

Note: The *Summary* tab will also advise if a follow-up Case has been assigned to the incident.

Note: With appropriate permissions, an investigative case can be created directly from an *initial unapproved* Incident report using the **Actions** button.

Note: If access is restricted to the selected security groups, a message appears on the summary tab of the incident indicating which security groups have access.

For more information on the *Summary* tab, refer to "Summary Tab" on page 252.

The screenshot shows the Incident report interface with the following elements and annotations:

- Pin Incident** button (top left).
- Eight Tabs** (top): Summary, Header, Offenses, Names, Property & Vehicles, Narratives, Attachments, Validations.
- Exit Report**, **Quick Print**, and **Print** buttons (top right).
- Incident Summary**: 06/07/2018 1419 Hrs - 500 Center Lake Water Tower-Clubhouse-...
- Agency**: District 42, Versailles
- Report #**: 2018D4210170 **Supp #**: 0
- Offense(s)**: 35-43-4-2 T01 - THEFT- AGRICULTURE (Annotation: **Hover over bubble to view NIBRS Code description**)
- Actions** button (Annotation: **Click to modify and manage Supplements**)
- Security Groups**: ANGTEST (Annotation: **Message if access is restricted to security groups**)
- Status**: Closed- No Action / Closed (06/29/2018)
- State Status**: READY TO BE PROCESSED-ORIGINAL
- Follow-Up Incident Cases** table:

Case #	Agency	Lead Investigator	Assignment Status	Case Status	Next Update Due	Actions
2018D4210198	District 42, Versailles	M, Dana - Lead Investigator	Assign to Patrol	Open	02/22/2019	[Icons]
- Report Header** table:

REPORT SECURITY Patrol Officer	REPORT TYPES Child Abandon
SUMMARY asdf	
REPORT DATE 06/07/2018 1419	OCCURRENCE DATE START 06/07/2018 1419
OCCURRENCE DATE END	

Click on each tab heading to navigate to the different tabs of the Incident report.

Note: With appropriate permissions, you can *Pin* the Incident while on the Summary tab to add it to your Home Page for quick reference. For more information, refer to "Incidents Overview" on page 189.

Click on the **Actions** button to perform additional tasks shown.

The screenshot shows the **Actions** dropdown menu with the following options:

- View Incident Status
- View Incident Audit Trail
- Add Criminal Complaints
- Add Court Case
- Crash Reporting
- Edit This Incident
- Create Case
- Narrative Maintenance
- Visualization Tool

Create Field Arrest from Incident

Beginning with Online RMS 11.7.0, with appropriate permissions, you can create a Field Arrest and import data from an existing Incident or Calls for Service record into the arrest

record, avoiding unnecessary data entry. This process also associates the Field Arrest to the Incident or Calls for Service record automatically.

You can initiate this process two ways from the Incident:

- When the **Add Field Arrest** icon  appears next to an existing offender's name. This can be done from the Summary or Names tab of the Incident.
- When you add an offender to the Incident

Note: The  icon only appears on offenders who do not already have an Arrest associated with the Incident.

Offenders					Add Offender Add Unknown Offender	
Name	Age at time of Incident	Role(s)	Supp #	Actions		
 R, Georgie (Alias); Primary Name: Rock, George Race: White Sex: M	21 Years Old	Suspect / Offender, Arrestee	0	   		
 Smith, Harold Race: White Sex: M DOB: 03/02/1999	22 Years Old	Suspect / Offender	0	    		

Follow these steps to initiate the process to create the Field Arrest and import Incident data:

1. Choose one of the following options:

- Click on the **Add Field Arrest** icon  of an existing offender.
- Click on the **Add Offender** link and follow the normal process to add the offender. For details, refer to "Names Tab" on page 218.

When finished entering offender information, a prompt appears asking if you want to create a Field Arrest for this offender.

Message From RMS

Would you like to create a field arrest for this offender?

No
 Yes

Click **Yes**.

- The *Import and Create Field Arrest* screen appears, prepopulated with the Incident data that can import into the arrest.

Select From Below What Items You Want To Import

ARREST DATE

06/29/2021 1349

ARRESTING OFFICER

I Am The Arresting Officer

AGE AT TIME OF ARREST

22 Years Old

Arrest Location

Location	Source	Include
2300 West Broad Street RICHMOND, VA 23269-2051	Location of Incident	<input type="radio"/> Use This Address

Other Names

First Name	Last Name	DOB	Race	Sex	Roles	Include
Flarg	Flarg	01/01/1920	White	M		-Select Role to Import

Vehicles

Year	Make	Model	VIN	Include
2017	ACURA(ACUR)	LEGEND	345456544545645	<input type="radio"/> Use This Vehicle

Charges

Charge	Include
CRIMINAL TRESPASS- PROPERTY	<input type="checkbox"/>

- Make any necessary changes to the data in the fields provided and make the appropriate selections.

For details on the *Import and Create Field Arrest* screen, refer to "Create Field Arrest and Import Data" on page 365.

- Click **Save** then **Yes** to confirm creation of the Field Arrest.
- The process creates the Field Arrest record and associates the Field Arrest record to the Incident automatically. The association appears on the Summary tab of the Incident.
- The process updates the existing offender on the incident with the role **Arrestee** and the **Add Field Arrest** icon  no longer appears next to the offender's name since they are now listed as an offender on the Incident.

If you are creating a new offender, the process adds that offender to the Incident, gives it the role **Arrestee**, and does not display the **Add Field Arrest** icon  next to the name.

- The *Edit Field Arrest* screen appears. Make any necessary changes to the Field Arrest record.

For more information on editing a Field Arrest, refer to "Edit Field Arrest" on page 370.

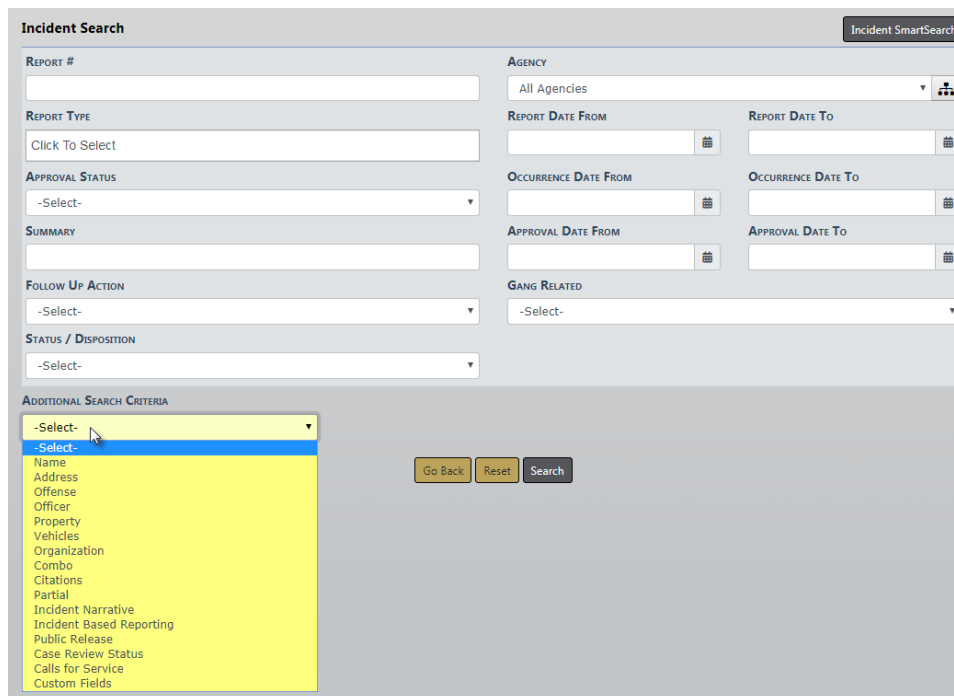

- If applicable, click **Complete** and **Submit for Review** if the review feature is turned on. You are then returned to the Field Arrest.
- Click **Go Back** on the Field Arrest to return to the Incident.
- Click on the **Names** tab of the Incident.

Note: The Names tab is red, indicating arrestee details are needed. This process does not currently update the arrestee details for you; however, Incident validation still applies as with other incidents, indicating more information is needed.

- Click the **edit icon**  on the offender record to update the arrestee details to satisfy validation if needed.

Incident Search

The **Incident Search** window allows you to search for incidents by entering data in any field or combination of fields, including by NIBRS code. When entering the report number you can use the % sign as a wildcard. For example, if you were looking for report number 2018D4210149, you could enter %10149 and the report would be located. Agency defaults to your agency, but with appropriate permissions, a different agency in your workgroup can be selected. Select the *Additional Search Criteria* for more search options.

Note: You can include **Use of Force** in your search criteria by first selecting **Name** or **Combo** under *Additional Search Criteria*.

Select **Combo** as the *Additional Search Criteria* to enter criteria for vehicle, officer, property, offenses, modus operandi, address, and person. When you select Combo, additional search fields appear where you can enter search criteria for the aforementioned areas.

You can search for incidents across all agencies within the user's state by clicking on the **Incident SmartSearch** button on the top right of the screen. For more information on **SmartSearch** refer to "SmartSearch" on page 271.

If you type in a specific report number, the system takes you directly to the report. If you click the **Search** button without entering any search criteria, a message appears in red at the top of the screen instructing you to specify at least one field when performing a search. Regardless of which method you use to query the system, except for specific report number, you will receive a list with reports matching your search criteria.

Agency	Report #	Report Date	Supp #	Summary	Actions
D42	2019D4210231	11/21/2019 0937 Hrs	0	1001 North East Main Street INDIANAPOLIS, IN Offense(s): 1; 35-43-2-1 B03 - BURGLARY-ATTEMPTED	
D42	2019D4210230	06/18/2019 1457 Hrs	0	100 North Main Street BLOOMINGTON, IL 61701 Offense(s): 1; 35-43-2-1 B02 - BURGLARY- APARTMENT COMPLEX	
D42	2019D421022	06/18/2019 1457 Hrs	0	Stolen property reported. Click to view Entire Entry	

At the top of the *Incident Search Results* window there is a **Show Map** feature that plots the listed reports with GEO Verified addresses using **Google Maps**. The **Export Results** allow you to export the list to a PDF document which can be printed, export to an Excel document, export to a Comma Spaced Values (CSV) file, or to an Extensible Markup Language (XML) file.

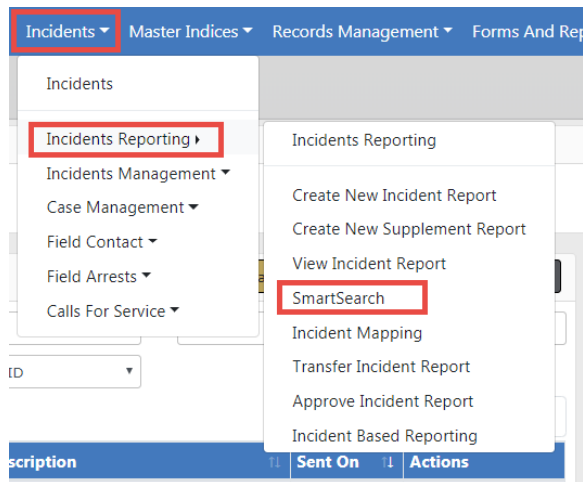

Click on the view icon  to view the Incident Report. The *Summary* tab opens by default. If the report has more than one Supplement, the number of Supplements are listed next to the  icon.

SmartSearch

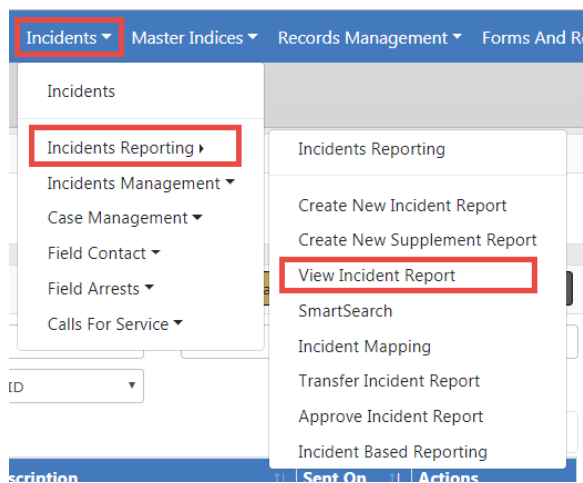

Users can, with appropriate permissions, search for incidents across all agencies in the Online RMS system within the user's State, outside of the State if configured by your agency, or both. You can also limit your search using date range filters. This search adds a simple interface to perform searches the way one would in an Internet search engine, such as Google.

You can access **SmartSearch** two ways:

- Click the *Incidents* menu on the top navigation bar, click *Incidents Reporting*, then click the *SmartSearch* option.

- Or click the *Incidents* menu on the top navigation bar, click *View Incident Report*, then click the **Incident SmartSearch** button on the Incident Search screen.

CREATION DATE TO

LOCAL/EXTERNAL RESULTS

Local & External Results

Enter a word or phrase into the search box on the upper left, then click the **Search** button. The results display based on how well they match the entered text.

Note: The **SmartSearch** only searches on Approved incident reports. Incident reports with other statuses can be searched using the standard View Incidents option in the Incidents menu.

The default sorting option is *Relevance*, which means **SmartSearch** sorts the returning documents based on how well they match the entered text. There are other sorting options available in the *Sort By* area.

To ensure that each document contains every search word specified, check the *Match All* option. This forces the search to return documents which only contain all of the words or phrases entered in the search bar.

Review the search results in a *List* format, or on a *Map*.

The green icons on the right side of the page indicate what areas of the incident report are being searched. Hover your mouse over an icon to view what it represents. Click on each icon

to disable or enable an area. Disabling will cause **SmartSearch** to exclude that area from the search; red icon excludes and green includes.

Optionally, enter a date range to filter your search results for specific date ranges.

You can filter by *Local Results Only*, *External Results Only*, or *Local & External Results* if configured by your agency.

If you chose to display the results in a *List*, the results highlight the text matching your query. If any *Offenders* in the matched reports have mug shots, these also display. You can view the report by clicking on the **Incident Report #** link at the top of each result. This opens a new tab, letting you view the report details without actually leaving the search page. To return to the search page, click the Search tab.

Click on the print icon to print a specific Incident Report that appears in the results list.

Printing Options

When viewing the **Incident Report** you may choose to **print selected incidents** by selecting the applicable check boxes.

The **Print** button takes you to a full menu of print options. The top of the window has available print templates for easy selection.

- *Standard*-prints the main areas of the report and associated people. The checked areas can be edited to further customize your print.
- *Media*- selects the most common public information areas to include and appropriate redaction options. The checked areas can be edited to further customize your print. Please refer to your agency's policy on Public Information.
- *Full*- selects all areas of the report including attachments, forms and person details. The checked areas can be edited to further customize your print.

Note: Only Known master people can be printed.

Note: If you are using Internet Explorer, refer to "Printing from Online RMS" on page 39 for special instructions.

Changing Incident Status

With proper authority you can change the status of an *Approved Report* to either *Initial* or *Disapproved* from the **Incident Status** screen. Every change to the **Incident Status** is tracked in the *Status History*.

You can access the **Incident Status** screen from the *View Incident Report* screen, or from the *Incident Report* menu.

From View Incident Report

Click on the *Incidents* menu on the top navigation bar, select the *Incidents Reporting* sub-menu, then select *View Incident Report* to display the Incident Search screen. For more information using this method, refer to "View Incident Reports" on page 265.

Note: Once ownership has changed hands, only the new owner can edit it as if it were an *Initial Report* of their own.

Delete Initial Incident Report

A report that is initial status, and not submitted for approval, can be deleted by the owner of the report or by other users who have the delete authority. This can be done until you submit the report for approval. As the owner of a report, you can quickly access it from **Recent Activities** using the **Initial Report** link.

Recent Activities	
Initial Report	12
Approved (Past 10 Days)	1

Note: Before proceeding further be aware that reports that are deleted are not recoverable from the database. A *Delete Log* is available, where a list of reports that have been deleted and by whom can be viewed.

Use the following procedure to delete one of your reports that is still in **Initial Status**.

1. If needed, click the *Home* tab in the upper left corner of the screen to open your *Home* page.
2. From the **Recent Activities** section, click on the number link to the right of **Initial Report** to open the **Recent Activities** window with a listing of your recent incident reports that are still in **Initial Status**.

Add Attachments Outside Incident Workflow

Authorized users can add attachments to an Incident Report outside the Incident workflow by searching for the incident.

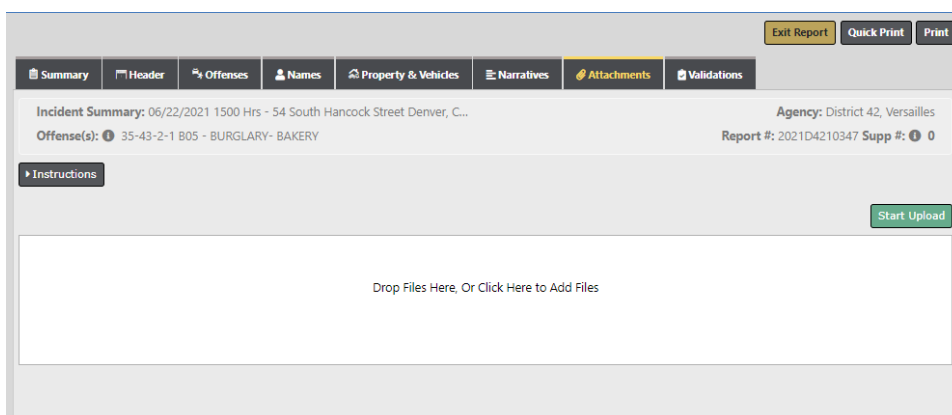

Attachments that are added outside the workflow are set to supplement 0.

Note: The user's role must have the permission *Incident - Always Add Attachments to incident Regardless of Status* to perform this action.

To add an attachment while on an Incident, select the **Actions** button, then **Add Attachments** menu option.

The *Attachments* tab opens where you can upload the attachment.

For details on uploading attachments, refer to "Add Attachments" on page 69.

After uploading, the attachment then displays in the grid with a red info bubble indicating the attachment was added outside the approval process. Hover over the info bubble to view the message.

Expunging Records

Refer to your agency's policy on **Expunging Records**. When an agency is required to expunge a record, the specifics on what needs to be expunged are in the Court Order.

With proper permissions you can expunge an offender/arrestee from an Incident Report or expunge an entire Field Arrest. Expunged records will no longer be visible throughout Online RMS unless the user is granted permissions to view expunged details.

For detailed instructions on expunging records in Online RMS refer to "Expungements" on page 779.

Crash Reporting

Crash Reporting can be accessed from the Incidents Menu. From the menu, the user may choose to view the Crash Reporting landing page, create a new crash report, view crash reports that have been submitted and are pending submission, and search entered crash reports.

Crash Reporting Landing Page

From the Crash Reporting landing page, users may search existing crash reports, see initial crash reports and reports pending approval, and view approved/disapproved crash reports.

The **Crash Reporting** fields offer a variety of entry options and will guide the user through the needed and available information for the report. Enter all appropriate information (including required information flagged in **red** on the screen), then select **Save & Continue**.

Vehicles

The Vehicles menu allows the user to enter vehicle information for the crash report.

If there are no vehicles available from which to select, add vehicles as required. Vehicle 1 is typically the vehicle that caused the crash, but your agency may have specific or different requirements.

When entering information, you may enter drive and passenger information directly within the report. RMS Online will access the People Search as required when filling out these fields.

When moving from one section to another, you will be prompted to save any unsaved report entries.

People

When drivers and passengers are known, they may be entered in the crash report.

Select **Save & Continue** after entering applicable information.

Attachments

Attachments, including PDF files, can be added to a crash report from this menu.

Associations

Crash reports can be associated to incidents, etc. using this menu.

Security Level

Users with appropriate permissions may set the desired security level for the crash report. Security for Crash Reporting is maintained at the Crash level, not the level of individual supplements. **Any access restrictions applied to a crash report will apply to all supplements attached to that crash report.** (This differs from the way security is handled for Incidents, for example. Individual supplements attached to an Incident can have different security levels.)

The screenshot shows the 'Edit Security' interface for a crash report in the Caliber Public Safety system. The interface is divided into several sections:

- Crash Info:** Displays the Crash Number (2024D42118), Agency (District 42, Versailles), Crash Date (07/30/2024 0800), Security Level (Marine Patrol), and a large number '31' representing the number of users with access, with a 'View Users' link below it.
- Security Level & Agency Restrictions:** This section contains a checkbox for 'Agency Only (District 42, Versailles)' which is checked. Below this is a vertical slider control for 'Allow' (red) and 'Deny' (green). To the right of the slider is a list titled 'Security Levels With Access' containing the following roles:
 - Executive Command
 - Command Staff
 - Records/Clerical Division
 - Criminal Investigation Division
 - Patrol Supervisor
 - Patrol Officer
 - Marine Patrol
- Buttons:** At the bottom right of the main content area are 'Go Back' and 'Update' buttons.
- Workgroup:** On the right side, there is a 'Workgroup' section with a search bar and a list of workgroups including 'ANGTE', 'Mtest', 'NO AG', 'TEST 2', and 'Test 42'.

For More Information

For more information on Crash Reporting, contact Caliber Public Safety.

Chapter 14. Supplement to Incident Reports

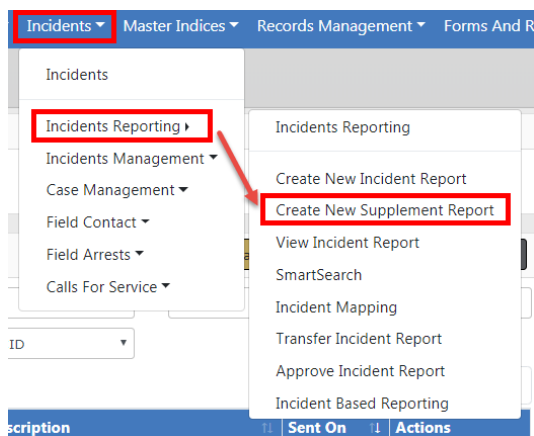

Create Supplements

Once an **Initial Report** is in the system, **Supplement Reports** can be created and attached to the **Initial Report**. The **Initial Report** is designated as *Supp# 0* and additional Supplements are then added in sequential order (e.g., *Supp. # 1*, *Supp. # 2*, etc.). Create **Supplements** to your own reports or to reports belonging to other users.

A **Supplement** can be entered to a report from your agency, even if the **Initial Report** is not yet completed; however, you cannot create a supplement to a report from another agency unless that **Initial Report** has been approved.

Supplements can be created using different methods:

- From the Incidents Menu.

Search for the report by using the provided *Incident Search* screen. You must enter at least one search criteria. For more information on searching for incidents, refer to "View Incident Reports" on page 265.

Select the appropriate incident from the search results.

- From an existing Case, to which an Incident is associated.

Access the Case, then page down to the *Associated Incident(s)* section. Click on the Create Supplement icon  on the appropriate Incident. For more information on Cases, refer to "Case Management" on page 455.

Associated Incident(s)						
Report #	Incident Summary	Offenses	Comments	Date Of Info	Associated Event #	Actions
2019D4210230	06/18/2019			06/18/2019	This Case	   
2019D4210216	03/04/2019 - 700 North Broadway Street Greenfield, IN			06/18/2019	This Case	    

Create Supplement

- From the *Actions* menu when viewing an incident report.

Summary | Header | Offenses | Names | Property & Vehicles

Incident Summary: 04/03/2019 1514 Hrs - 123 Cherry Lane Golden, IN

Offense(s): 35-43-2-1 B01 - BURGLARY- AIRPORT

Whichever method you choose, a *Confirm Incident Supplement* window appears once you elect to create a Supplement:

Confirm Incident Supplement

Click Generate to create a new incident supplement

Cancel

Generate

Click **Generate** to continue with creating the **Supplement**.

There is no Incident Wizard when creating **Supplements** since there are only two minimum requirements which must be met before it can be submitted for approval.

- Reporting Officer for the Supplement
- Narrative

Although these are the two minimum requirements, a user is able to contribute any and all applicable information to a **Supplement** including *Attachments*.

Note: The system adds you as a *Reporting Officer* automatically.

Supplement Rules

- The **Initial Report** is designated as *Supp# 0* and **Supplements** are then added in sequential order (e.g., *Supp. # 1*, *Supp. #2*, etc.).
- You can add a supplement that does not include NIBRS reporting data (i.e., add a narrative only) and submit for approval without satisfying any NIBRS validations that may exist from a previous supplement.
- You must be the owner of the *Supp* to edit it.
- Incidents can only be edited when in **Initial Status** or **Disapproved Status**.
- Incidents cannot be edited while in **Approved Status**.
- Incidents can only be deleted when in **Initial Status**.

Supplement Templates

Agency Templates can be used when creating the *Narrative* section of the **Supplement**. At the top of the built-in narrative creator, there is a drop-down box labeled **Select a Template** where you can choose a template.

The screenshot shows the 'Narrative' tab selected in a report interface. At the top, there are buttons for 'Exit Report', 'Quick Print', 'Print', 'Transfer', and 'Submit for Approval'. Below these are tabs for 'Summary', 'Header', '% Offenses', 'Names', 'Property & Vehicles', 'Narratives' (which is highlighted with a red box), 'Attachments', and 'Validations'. The 'Incident Summary' section displays '12/12/2018 1342 Hrs - 600 East Haythorne Avenue Terre Haut...' and 'Agency: District 42, Versailles'. The 'Offense(s):' field shows 'No Offense Specified'. The 'Report #' is '2018D4210206 Supp #:' followed by a red '2' and a green checkmark. In the 'Narrative' section, there is a 'SELECT A TEMPLATE' dropdown menu (highlighted with a red box) showing a list of templates: 'Test', 'All Counties Incident Narrative Test', and 'Adams County Incident Narrative Test 1'. To the right of the dropdown is a 'NARRATIVE TITLE' field containing 'Supplement #2 Narrative'. Below the title field are icons for 'Save', 'Print', and 'Toggle Preview'. A 'NARRATIVE NOT SAVED' warning is visible. At the bottom, there is a rich text editor toolbar with various formatting options.

Select a template from the list, complete the narrative, then click **Save**.

Chapter 15. Community Reporting

Community Reporting Overview

In response to COVID-19, Caliber Public Safety is offering a new product feature with Online RMS 11.3.2 to support **Community Reporting** of minor crimes, tips, and other police-related events. The **Community Reporting** feature leverages the power of Online RMS *Custom Forms* for your agency to embed a form in an existing website using only a couple of lines of HTML code.

With this enhancement, your agency can create their **Community Reporting** public forms using the *Custom Forms* module and making the forms available to the public via your agency's website.

Benefits of **Community Reporting**:

- Promote social distancing by reducing officer to public interactions for minor police reports.
- Better service your community by reducing non-essential contacts to ensure officers are available to provide help when emergencies arise.
- Keep officers on patrol and protect communities by offering an alternate method for the public to report minor police reports without the need to dispatch an officer.

Routing for available Custom Forms notifies Online RMS users when a new submission occurs. The same review process is used for both public and non-public forms.

There are two ways to take action on submitted forms:

- From a Notification.
- From your Recent Activities.

For more information on taking action, refer to “Taking Action on Submitted Forms” on page 304.

The same method is used for searching and viewing public and non-public Custom Forms. For more information, refer to “Search For and View Custom Forms” on page 65.

Note: For details on **Community Reporting** configuration, refer to the *Online RMS Admin Guide* or your agency administrator.

Taking Action on Submitted Forms

Routing for *Publicly or Non-Publicly Available Custom Forms* notifies Online RMS users when a new submission of a form occurs. Users designated by name or by role on the *Custom Form* configuration page, by your Online RMS agency administrator, receive a notification every time the public or non-public makes a new submission of a form. The process leverages the existing workflow and power of the Online RMS *Custom Forms* module. Taking action to review a *Custom Form* submission is the same for both public and non-public.

There are two ways to take action on submitted forms:

- “Taking Action via Notifications” on page 304.
- “Taking Action via Recent Activities” on page 312.

Taking Action via Notifications

When a new public or non-public form is submitted, a notification appears on the **Online RMS Home Page** within your **Notifications** queue.

Count	Notification Type	Last Notification	Priority
10	FORM REVIEW	05/22/2020 03:17 PM CST	High

The **Notification Type** for form submissions is FORM REVIEW - *FORM NAME*.

Note: For more information on **Notifications**, refer to “Notifications” on page 25.

Follow these steps to review and take action.

- Manually inform** the submitter by email or phone call.

Note: Informing the submitter does not happen automatically; this is a manual process.

Review without a Police Report

Follow these steps when the submission involves an event that does not require a police report. You do, however, want to show the *Custom Form* was **Reviewed** and **Accepted** by your agency.

1. Click **Review**.

The screenshot shows a web interface for reviewing a submission. At the top, there are three tabs: 'Approve Form' (with a thumbs up icon), 'View Form' (with an eye icon), and 'Attachments' (with a paperclip icon). To the right of these tabs are two buttons: 'Go Back' and 'Save'. Below the tabs is a section titled 'COMMENT' with a large yellow text area containing the text 'Reviewed public submission.'. Below the comment area is a section titled 'Other Users To Notify'. This section includes an 'ADD USER' label above a text input field with a search icon on the right. Below the input field is a section titled 'SELECTED USERS' with the text 'DOUBLE CLICK TO REMOVE' to its right. Below this is a large empty rectangular area for listing selected users. At the bottom of the form is a section titled 'CREATE INCIDENT' with an unchecked checkbox.

2. Enter a **Comment**.
3. **Add** other **Users** to notify others from review routes for awareness only.
4. Leave the **Create Incident** box *unchecked*.
5. Click **Save**.

Review and File a Police Report

Follow these steps when the submission involves a crime or event for which you need to **file an official police report**. Police reports can be associated during the review process, or after approval. In other words, if the form is already reviewed, you can still add associations if you have the appropriate user permissions.

1. Click **Review**.

SELECTED USERS DOUBLE CLICK TO REMOVE

CREATE INCIDENT **CREATE SUPPLEMENT** **CREATE CASE** **CREATE CASE ACTIVITY**

☐ ☐ ☐ ☐

2. You have the option to **Create Incident**, **Create Supplement**, **Create Case**, or **Create Case Activity**. (Forms must be enabled for these items to be included as check boxes on the form. This is done by an administrator.)
3. To create an incident, check the **Create Incident** box on the *Approve Form* tab.
4. To create a supplement, check the **Create Supplement** box on the *Approve Form* tab. (Users may search for an incident, then select it to create a supplement. It will attach the custom form to that incident within that supplement number.)
5. To create a case, check the **Create Case** box on the *Approve Form* tab. (This works much the same way as creating a supplement, and will attach the custom form as an attachment to the case.)
6. To create case activity, check the **Create Case Activity** box on the *Approve Form* tab. (Users must first search for a case, then create case activity on that case and attach the form. Attachments are made to the actual case, not the case activity.)
7. When you create an incident, depending on the configuration by your agency, the **Report Number** will either be *Auto Generated* or require *manual entry of a Case Number* requested and obtained from a CAD system, respectively as shown below.

If the Report Number is **Auto Generated** as shown in the first example above, no additional action is required for the Report Number.

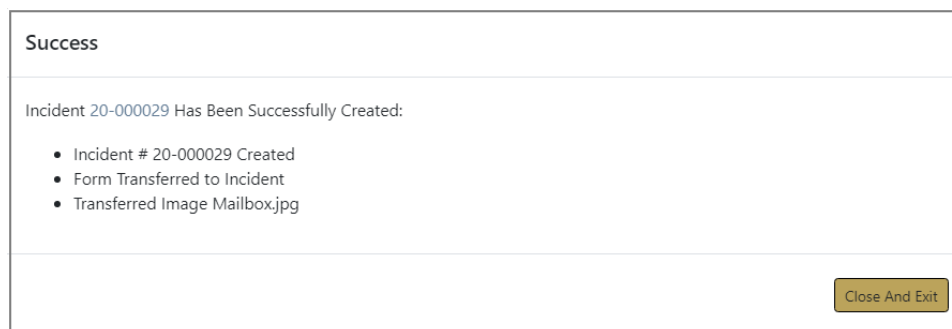

If the **Report Number Options** displays as shown in the second example above, enter the **Report Number** based on one of the following options you choose:

- a. The default option is to enter the digits of the Report Number obtained from CAD. RMS then generates the number using the **format defined**.
 - b. You can select the option to enter the **full #** obtained from CAD in the specified format.
8. Add **Other Users to Notify** to notify them for awareness purposes only. If your agency administrator requires at least one user, a note appears in red.

9. Complete the remaining fields on the *Approve Form* tab.

Note: The *View Form* tab easily switches views, to view the Form for information needed to complete the Incident Fields on the *Approve Form* tab.

- a. **Report Date/Time** - Default to the system date and time. Update as needed.
 - b. **Occurrence Date/Time** - Set to the date and time reported by the form submitter.
 - c. **Incident Type** - This can be set to default to a **Type**, allowing tracking of incident reports originating from a *Publicly or Non-Publicly Available Custom Form*. If defaulted, it is recommended that you do not change the value.
 - d. **Summary** - This field relates to the Crime/Media Summary field on the incident report.
 - Use the **Copy From** LOV to select copy text from a *Custom Form* field to the Summary.
 - Use the LOV multiple times to **copy** information from multiple fields in the *Custom Form*.
 - e. **Responsible User** - Default to your name as the creator of the incident report. You can select another user from your agency to assign/transfer the report.
 - f. **Narrative** - Optional entry. Use this field to quickly create the Narrative for the incident report.
 - Use the **Copy From** LOV to select copy text from a *Custom Form* field to the Narrative.
 - Use the LOV multiple times to **copy** information from multiple fields in the *Custom Form*.
10. Click **Save** to create the **Incident Report** and set the **Status** of the *Custom Form* to **Reviewed**.
11. A message displays indicating an **Incident Report** was created and the *Custom Form* and Image were automatically associated to the **Incident Report**.

- The user assigned to the incident report can take action to complete the report from their **Recent Activities - Initial Report** queue.
- Complete the incident report, adding location, offenses, names, and property/vehicles as required.

Taking Action via Recent Activities

As an alternative to taking action via a *Notification*, you can, if you have access to review *Publicly or Non-Publicly Available Custom Forms*, **Take Action** from your *Recent Activities - Forms For Review* queue.

Recent Activities	
Initial Report	4
Evidence Review	1
Open Field Arrests	7
Arrests Pending Release	2
My Cases (Active Count)	0
My Case Activities (Active Count)	0
My Forms (Initial)	6
Forms For Review	8
Incidents For Review	4

The process of reviewing the Custom Form from *Recent Activities* is the same as taking action from a *Notification*.

For information on accessing *Recent Activities*, refer to “Home Page - Prior to RMS 11.12” on page 8.

For information on taking action from a *Notification*, refer to “Taking Action via Notifications” on page 304.

Note: Once a *Form Review* is complete by either Accepting (Reviewing) or Rejecting the Custom Form, the notification deletes automatically and the Custom Form no longer appears for review in the *Recent Activities - Forms For Review* queue.

Chapter 16. Criminal Complaint

Criminal Complaint Overview

The **Criminal Complaint** module allows users, with appropriate permissions, to create and manage criminal complaints against arrestees and offenders, and approve or disapprove through a guided review process before submitting to the state.

Note: To utilize this module, it must be turned on for your agency.

Your agency has the option to utilize a 1 or 2 level approval process:

1-Level Approval Process

The creator of the complaint sends it to the supervisor for approval.

The supervisor can disapprove and send the complaint back to the creator.

The supervisor approves and submits the complaint data to the court in one action, or approves then submits later.

2-Level Approval Process

The creator of the complaint sends it to the supervisor for approval.

The supervisor can disapprove and send the complaint back to the creator.

The supervisor approves the complaint.

The court officer can disapprove an approved complaint and send the complaint back to the creator.

The court officer submits the approved complaint data to the court.

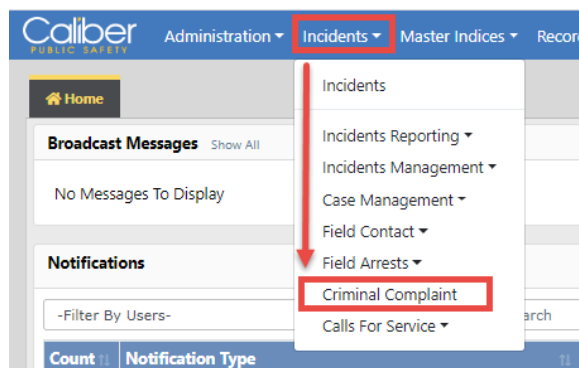

For more information on the approval process, refer to “Approve or Disapprove Criminal Complaint” on page 441.

Accessing Criminal Complaint Module

If turned on for your agency, and you have appropriate permissions, the **Criminal Complaint** module is accessible using various methods.

Standalone Module

To access the **Criminal Complaint** standalone module, select the **Criminal Complaint** option from the *Incidents* drop-down menu.

From the Field Arrest

There is a Criminal Complaints section on the Field Arrest, where you can, with appropriate permissions, add a Criminal Complaint or access existing Criminal Complaints.

For more information, refer to "Edit Field Arrest" on page 370.

From the Incident Report

With appropriate permissions, you can add Criminal Complaints from the Actions Menu or the Criminal Complaints grid on the Summary tab of the Incident Report. You can also access existing Criminal Complaints from the Criminal Complaints grid.

For more information, refer to "Summary Tab" on page 252.

From Recent Activities

For your convenience, any **Initial Complaints**, **Complaints Pending Submission**, and **Complaints Submitted** within a past number of days defined by your administrator, appear under *Recent Activities* on your home page.

Recent Activities	
Initial Report	27
Pending Approval	2
My Cases (Active Count)	3
My Case Activities (Active Count)	3
Evidence Review	8
Open Field Arrests	7
Arrests Pending Release	11
Forms For Review	19
Incidents For Review	1
Complaints Pending Submission	19
Complaints Submitted (Past 10 Days)	1
Complaints - Initial	1
My Court Papers	1

Click on an activity to display the result list, for quick access to view or edit a complaint to add Case Number, appearance information and more.

For more information on editing, refer to "Edit a Criminal Complaint" on page 320.

For more information on viewing, refer to "View a Criminal Complaint" on page 327.

Criminal Complaint Search

To search **Criminal Complaints** follow these steps:

1. Access the *Criminal Complaint* module. For instructions, refer to "Criminal Complaint Overview" on page 313.

2. A *Criminal Complaint Search* window appears.

Note: Click on the **Add Criminal Complaint** button to add a **Criminal Complaint**. For more information, refer to “Add a Criminal Complaint” on page 317.

Note: Click on the **Delete Log** button to view the *Criminal Complaint Delete Log*, a listing of deleted Criminal Complaints.

3. Enter the search **criteria** into the fields provided. The more criteria you use, the shorter the results list.
 - Select **Additional Search Criteria** to search on Custom Fields.
4. Click the **Search** button to display the search results.

Criminal Report Number	Date/Time	Agency	Complaint Type	Person	Status	Submission Status	Actions
20COMP0032	03/19/2020	District 42, Versailles	Summons	Martin, Sue	Initial		View, Edit, Delete
20COMP0031	03/13/2020	District 42, Versailles	Hearing	Martin, Sue	Approved		View, Edit, Delete

You can, with appropriate permissions, view, edit, and delete **Criminal Complaint** records from the results window.

- Click on the **View icon**  to view. For more information on viewing, refer to “View a Criminal Complaint” on page 327.
- Click on the **Edit icon**  to edit. For more information on editing the **Criminal Complaint**, refer to “Edit a Criminal Complaint” on page 320.
- Click on the **Delete icon**  to delete, enter a **Comment** at the prompt to explain why you are deleting it, then click **Delete**.

Add a Criminal Complaint

To add a **Criminal Complaint** record follow these steps:

1. Access the *Criminal Complaint* module. For instructions, refer to “Criminal Complaint Overview” on page 313.
2. The *Criminal Complaint Search* screen appears. Before adding the criminal complaint, it is recommended you first search for the criminal complaint record to verify whether or not it already exists, though not required. For instructions on how to search refer to “Criminal Complaint Search” on page 315.
3. Click on the **Add Criminal Complaint** button on the *Criminal Complaint Search* screen.

4. The *Criminal Complaint Search / Person Search* screen appears.

With Online RMS version 11.5 and higher, certain fields are set as required or disabled and the available **Hearing Type** list of values changes based on the selected **Complaint Type**.

Examples:

- If **Complaint Type** = *Arrest*, then **Charge Type**, **Hearing Type** and **Threat Type** list of values become disabled to not allow entry.
- If **Complaint Type** = *Warrant*, then **Charge Type** and **Hearing Type** list of values becomes disabled to not allow entry and **Threat Type** becomes required.

Note: Configurations for required and disabled fields are managed by Caliber Admins. If your agency uses Criminal Complaints and would like to use these configurations, please contact Caliber Public Safety Support.

Note: Criminal Complaints may be associated to citations in the same way arrests and incidents are associated in Criminal Complaints.

If the Criminal Complaint is associated with a Field Arrest, the **Arrest Tracking Number** displays as read-only. The label could show **Arrest Tracking Number**, or **OBTN**, depending on your agency's configuration.

Complaint Details	
CRIMINAL COMPLAINT NUMBER	DATE AND TIME
20COMP0056	06/16/2020 1149
SUBMISSION STATUS	SUBMISSION STATUS DATE AND TIME
COURT	COURT CASE NUMBER
-Select-	
CHARGE TYPE	OBTN
Only Misdemeanors	

4. Select **Person Address** from the available choices.
5. Select **Officer** under the Complainant Details section.

The select officer link displays a dialog listing all officers on associated arrests and incidents for quick selection.

You can quickly select any officer associated to the incidents and arrests identified on the criminal complaint record.

Click **Select Myself as Officer** to set the officer as yourself, click **Select Officer** to select an officer from an associated record, or type in the auto-complete field to add any other officer.

Only one officer can be chosen.

6. Enter any **Comments**.
7. Make any necessary updates in the available fields near the top of the form, then click the **Update** button to save your changes.
8. If applicable, click the **Select Arrest** link to associate an *Arrest* with the Criminal Complaint, based on the Criminal Complaint person's involved records.

Only one *Arrest* can be associated with the Criminal Complaint. The **Select Arrest** link does not display when an *Arrest* association exists.

The OBTN, if initially blank, populates automatically from the associated *Arrest* record.

For more information on arrests, refer to “Field Arrest Overview” on page 355.

9. If applicable, click the **Select Incident** link to associate an *Incident* with the Criminal Complaint.

Note: The **Select Incident** link only displays if there are incidents where the person on the complaint is the offender.

Select Incident				
Report #	Incident Summary	Offenses	Report Date	Actions
2019D4210232	This is a test incident report.		11/26/2019 1147	
2019D4210229	Stolen property reported.		04/09/2019 0933	
2019D4210214	Trespassing on neighbor's property.		02/20/2019 1002	

Only one *Incident* can be associated with the Criminal Complaint.

- a. **Select** the applicable Incident.
- b. The selected *Incident* displays in the grid. The **Select Incident** link does not display when an *Incident* association exists.

Incidents				
Report #	Incident Summary	Offenses	Report Date	Actions
2019D4210229	Stolen property reported.		04/09/2019 0933	

If there is an arrest associated with the incident where the arrestee is the complaint defendant, Online RMS adds the arrest to the complaint, if not already associated. If that arrest has an OBTN, the OBTN is also added to the complaint.

10. If applicable, begin typing the address in the Location Details **Address** field. Select the appropriate address. Existing locations may be removed and new ones added, if needed. You may be prompted to add a county if required by your agency.
11. Click **Add Offense** or **Select Offense(s)** to include at least one Offense.
 - a. If you choose **Add Offense**, an *Add Offense* dialog box appears.

2017D4210119			08/15/2017 0700

Arrests that are associated with the Criminal Complaint appear in a grid near the bottom, similar to Incidents.

View Criminal Complaint is read-only.

For instructions on editing, refer to “Edit a Criminal Complaint” on page 320.

- Optionally, click the **Print** button to print, if applicable; A PDF file opens as a new tab in your browser from where you can print or download. If you are using Internet Explorer, refer to "Printing from Online RMS" on page 39 for special instructions.

5. Optionally, click on the Incident **Report #** link or the view icon  , if applicable, to open the Incident Report associated to the **Criminal Complaint**.

Incidents			
Report #	Incident Summary	Offenses	Report Date
2017D4210119			08/15/2017 0700

6. Click the **Submit For Approval** button to submit the **Criminal Complaint** for approval.

For more information, refer to “Submit Criminal Complaint for Approval” on page 329.

Submit Criminal Complaint for Approval

You can submit a **Criminal Complaint** record for approval two ways:

- From the *View Criminal Complaint* form.
- From the *Edit Criminal Complaint* form.

To submit for approval, follow these steps:

1. Access the *View* or *Edit Criminal Complaint* form.

For instructions on viewing, refer to “View a Criminal Complaint” on page 327.

For instructions on editing, refer to “Edit a Criminal Complaint” on page 320.

2. Click on the **Submit for Approval** button on the top right of the form.

3. A message appears when more information is needed before you can submit the request. If this message does not appear, continue to the next step.

Message From RMS
The complaint cannot be submitted without the following required fields:
At Least One Charge is Required

Note: The content of the message box varies, as it is based on missing information. (i.e., One charge code required, DOB required, etc.)

- a. Make note of the needed corrections, then click **OK**
- b. *Edit* the **Criminal Complaint** record to include the missing information.

For instructions, refer to “Edit a Criminal Complaint” on page 320. You can then submit for approval from the *Edit Criminal Complaint* page after you have made the appropriate corrections.

4. If the **Arrest Tracking Number (OBTN)** is blank, then a message box appears informing you that this number is required to submit for approval.

Answer **Yes** to generate the number.

5. Online RMS sets the **Criminal Complaint** status to *Pending Approval* and it generates a *Criminal Complaint Approval Request* notification to users with the role configured for the notification type.

Notifications			
-Filter By Users-		Search	
Count	Notification Type	Last Notification	Priority
107	Gang Alert	06/19/2020 11:25 AM CST	Urgent
3	CRIMINAL COMPLAINT APPROVAL REQUEST	06/18/2020 03:20 PM CST	High
16	DISAPPROVED INCIDENT REPORT	06/11/2020 11:32 AM CST	Urgent

Note: After submitting for approval, and if you have *Review* permissions, Online RMS immediately displays the *Edit Complaint* screen with the **Approve/Disapprove** buttons allowing for self-approval. If you also have *Submit* permissions and your agency is configured for court submissions, the **Approve & Submit** button displays.

- If the complaint is **Disapproved**, Online RMS generates a notification to the creator of the Criminal Complaint. The creator has the option to resubmit for approval. For more information, refer to “Take Action on Disapproved Notifications” on page 331.
- If the complaint is **Approved**, Online RMS creates a Court Case automatically, providing your agency has the Court Case module turned on. For more information on Court Cases, refer to “Court Case Overview” on page 333.

Note: For users with a printed criminal complaint, on submission to the court, a PDF of the printed complaint will be generated automatically and attached to the criminal complaint itself.

- If the approved complaint data is **Submitted** to the court and is **successful**, the *Submission Status* on the Criminal Complaint changes to *Submitted* automatically.
- If the approved complaint data is **Submitted** to the court and is **unsuccessful**, the *Submission Status* on the Criminal Complaint changes to *Submission Error* automatically. You can review and update the Criminal Complaint as needed, then resubmit. For more information on court submissions, refer to “Approve or Disapprove Criminal Complaint” on page 441.

For information on the approval process, refer to “Approve or Disapprove Criminal Complaint” on page 441.

Take Action on Disapproved Notifications

If the supervisor *Disapproves* your *Criminal Complaint Request for Approval*, Online RMS generates and sends you a **Disapproved** notification.

Count	Notification Type	Last Notification	Priority
1	CRIMINAL COMPLAINT DISAPPROVED	06/23/2020 09:30 AM CST	High
111	INCIDENT APPROVED	06/22/2020 08:40 AM CST	High
105	INCIDENT APPROVED - FOLLOW UP CASE DECISION NEEDED	06/11/2020 10:08 AM CST	High

For more information on Notifications refer to "Notifications" on page 25.

Follow the steps below take action on the notification:

1. Click on the **Count** in the first column of the notification grid to view the *Criminal Complaint Disapproved* list. There is only one in this example.

For more information on submitting for approval, refer to “Submit Criminal Complaint for Approval” on page 329.

Chapter 17. Court Case

Court Case Overview

The **Court Case** module allows users, with appropriate permissions, to create and manage court cases against arrestees and offenders.

Accessing the Court Case Module

The **Court Case** module must be turned on for the agency, and users with appropriate permissions can access it using various methods.

Standalone Module

To access the standalone **Court Case** standalone module, select the **Court Cases** option from the *Incidents* drop-down menu.

For information on searching for a **Court Case**, refer to “Court Case Search” on page 334

From the Criminal Complaint

You can access **Court Cases** that are associated with Criminal Complaints.

1. Access the appropriate Criminal Complaint.

For more information on accessing, refer to “Criminal Complaint Overview” on page 313.

2. On the Criminal Complaint record, page down to the **Court Case** section.

Location Details

3. Click the **Court Case ID** link to view the record, or click the **Edit icon**  to update the Court Case record.

For more information on updating the **Court Case** record, refer to “Edit Court Case” on page 338.

From the Incident Report

You can create or view associated **Court Cases** while viewing or editing an Incident Report.

For details, refer to "View Incident Reports" on page 265 and "Summary Tab" on page 252.

Court Case Search

To search **Court Cases** follow these steps:

1. Access the standalone *Court Case* module. For instructions, refer to “Court Case Overview” on page 333.
2. A *Court Case Search* window appears.

Refine Search New Search

Note: If you elect to include Court Appearances in your search, the results list will also include various Court Appearance fields such as, ID, date, type, status, reason, and officer.

You can, with appropriate permissions, view, edit, and delete **Court Case** records from the results window.

- Click on the **View icon** to view. For more information on viewing, refer to

- Click on the **Edit icon**  to edit. For more information on editing the **Court Case**, refer to .
- Click on the **Delete icon**  to delete, enter a **Comment** at the prompt to explain why you are deleting it, then click **Delete**.

Court Case Add

There are two ways to add a Court Case:

- Through the standalone Court Case module.
- Through the Criminal Complaint module, if your agency has the module turned on.
 - The Court Case is created automatically from the Criminal Complaint when it is approved. The information from the Criminal Complaint pulls into the Court Case record automatically.

For more information on Criminal Complaint, refer to “Criminal Complaint Overview” on page 313.

To add a **Court Case** record follow these steps:

1. Access the standalone *Court Case* module. For instructions, refer to “Court Case Overview” on page 333.
2. The *Court Case Search* screen appears. Before adding the court case, it is recommended you first search for the court case record to verify whether or not it already exists, though not required. For instructions on how to search refer to “Court Case Search” on page 334.
3. Click on the **Add Court Case** button on the *Court Case Search* screen.

4. The *Add Court Case* screen appears.

Chapter 18. Court Appearances

Court Appearances Overview

Court Appearances are added through the Court Case module. A Court Appearance cannot exist without a Court Case.

Accessing Court Appearances

From the Incidents Top Menu

Select **Court Appearances** from the *Incidents* drop-down menu.

You must have *Manage Court Appearances* permissions to see the **Court Appearances** option on the list.

The *Search Court Appearances* form opens. Search for and select the Court Appearance record.

For information on searching **Court Appearances**, refer to “Court Appearances Search” on page 348.

From the Court Case

Court Appearances are associated to Court Cases.

1. Access the appropriate Court Case.

For more information on accessing Court Cases, refer to “Court Case Overview” on page 333.

2. On the Court Case record, page down to the **Court Appearances** section.

Court Appearance ID	Type	Appearance Date / Time	Status	Reason	Officers	Actions

4. Click the **Update** button to apply your changes.
5. Optionally, click the **Add Officer** link to add an officer, then click **Save**.

6. Optionally, **Add Attachments**.
7. Optionally, click the **Add Next Court Appearance** button on the top right of the form to schedule the next court appearance.

View Court Appearances

To view a **Court Appearance** as read-only, follow these steps:

1. Search for the Court Appearances record, from the standalone module or from the Court Case. For more information, refer to “Court Appearances Overview” on page 345.
2. Click on the **View** icon  to open the *View Court Appearance* form, with the Court Case Details shown at the top.

Chapter 19. Field Arrest

Field Arrest Overview

The **Field Arrest** module can be used to document the necessary information associated with an arrest. Once you select a person from the **Master Indices** or create a new person record, you can edit the **Field Arrest** information. The **Field Arrest** can stand alone or it can be associated to an Incident Report.

Beginning with Online RMS 11.4.0, you can add a **Criminal Complaint** associated to a **Field Arrest**, providing you have the appropriate permissions and the feature is turned on.

Hunter Camera integration allows Online RMS to send a message to a virtual camera on our local machine, then receive pictures back and post to the Online RMS *Master Person Index* record.

Livescan integration transmits the most recent arrest and arrestee information from the *Master Person Index* to **LiveScan**.

Beginning with Online RMS 11.7.0, with appropriate permissions, you can create a Field Arrest and import data from an existing Incident or Calls for Service record into the arrest record, avoiding unnecessary data entry. This process also associates the Field Arrest to the Incident or Calls for Service record automatically.

Recent Activities

Certain **Field Arrest** links appear under Recent Activities on your Home page. The below example shows two examples.

Recent Activities	
Initial Report	28
Pending Approval	2
My Cases (Active Count)	3
My Case Activities (Active Count)	3
Evidence Review	8
Open Field Arrests	7
Arrests Pending Release	13

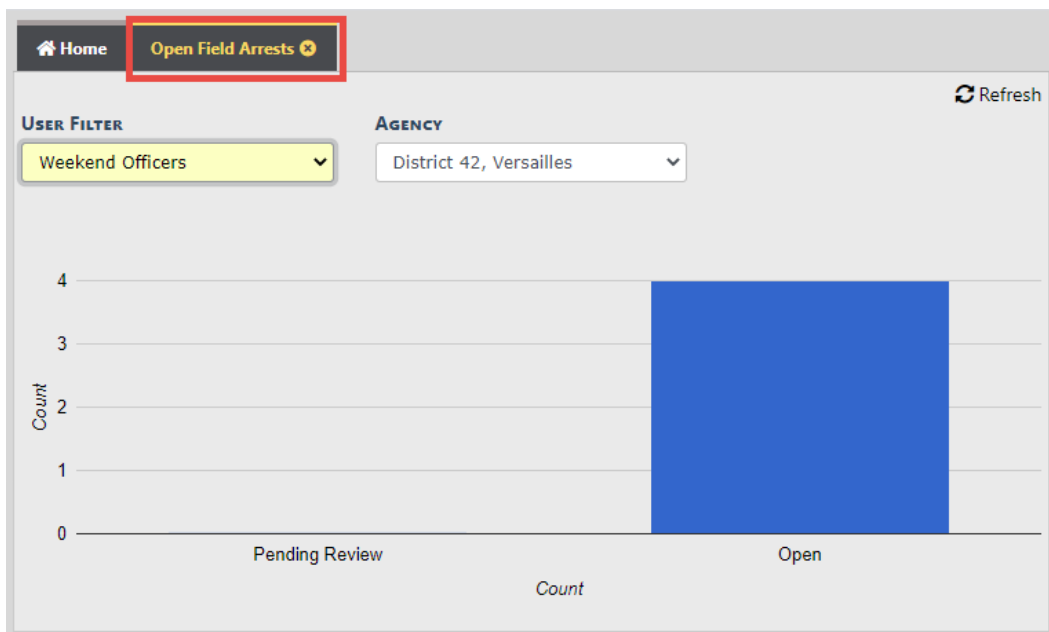

For more information about Recent Activities, refer to "Home Page - Prior to RMS 11.12" on page 8.

With proper permissions you can also view a Field Arrest Chart on your Home Page that shows a count of those that are open and pending review. Refer to "User Information Menu" on page 45 for information on adding the Field Arrest Chart to your Home Page.

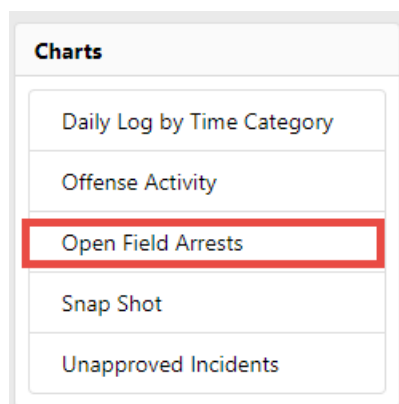

Click on the magnifying glass on the upper right of the pie chart to open the static bar chart as a separate tab.

You can move between your Home Page and the chart by clicking on the associated tab, allowing you to keep the Open Field Arrests tab open until you close it.

Note: You can also open the static bar chart as a separate tab by clicking on **Open Field Arrests** under the *Charts* section of your Home Page.

Click **Refresh** to include the most current data since you've last opened the chart.

Click on the **X** to close the tab.

Open Field Arrests

Click on the link to view a list of arrests that are open. You can then edit a **Field Arrest** that appears on the list.

Field Arrests Pending Release

Agencies using Field Arrests and having a **Disposition** configured with a **Status Code** of *Complete Without Release*, displays an **Arrests Pending Release** link under Recent Activities.

Click on the link to view a list of arrests that are pending release.

Recent Activities (Arrests Pending Release)

13 Result(s) Found

Go Back

Arrest #	Arrest Date	Last Name	First Name	Placement	Placement Date	Actions
2009657	09/23/2020 1123	Henry	James	Jail 1	10/29/2020 1220	
2009652	09/17/2020 1114	Thomas	Max	Jail 1	10/29/2020 1310	
1706559	06/01/2017 0200	Potter	Harry	Jail 2	06/01/2017 0230	

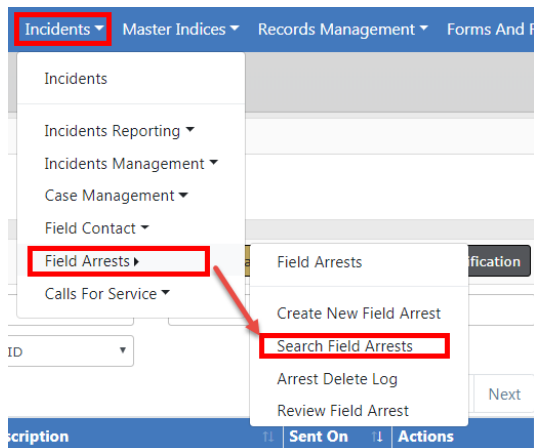

Click on the release icon  on the right to release the Field Arrest to open the *Release Field Arrest* form.

On the *Release Field Arrest* form, change the **Disposition** to *Released*, then click the **Update Disposition** button.

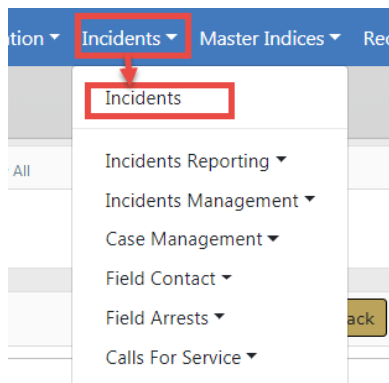

Search Field Arrests

To view or edit an existing **Field Arrest** you must first **Search** for the record. There are two ways to search, either method will open the *Search Field Arrests* screen:

- Click on the **Incidents** drop-down menu on the top *Navigation Bar*, click on **Field Arrests**, then **Search Field Arrests**.

- Or, click the **Incidents** label on the top Navigation Bar, click Incident on the sub-menu, then click the **Search Field Arrests** link.

The screenshot displays the Caliber Public Safety interface with several menu sections. The 'Field Arrests' section is highlighted with a red box, and a red arrow points to the 'Search Field Arrests' option. The interface includes the following sections:

- Incident Reporting**
 - Create New Incident Report
 - Create Supplement to Incident Report
 - View Incident Report
 - SmartSearch
 - Incident Mapping
 - Transfer Incident Report
 - Approve Incident Report
 - Incident Based Reporting
- Incident Management**
 - Assign Incident Report
 - Assign Supplement
 - Delete Incident Report
 - Incident Status
 - Incident Status Log
 - Incident Delete Log
 - Incident Offense Glossary
- My Recent Activities**
 - Initial Report (14)
 - Follow Up Needed (Past 10 Days) (2)
 - My Cases (Active Count) (1)
 - Evidence Review (5)
 - Open Field Arrests (5)
 - Arrests Pending Release (12)
 - Forms For Review (4)
 - Pending UCR Review (10)
 - Incidents For Review (3)
- Case Management**
 - Create New Incident Follow-up Case
 - Review Cases
 - Case Load
- Field Contacts**
 - Create New Field Contact
 - Search Field Contacts
- Field Arrests** (highlighted)
 - New Field Arrest
 - Search Field Arrests (highlighted with red arrow)
 - Arrest Delete Log
- Calls For Service**
 - Manage Calls
 - Search Calls

After choosing one of the two search methods, the *Field Arrest Search* screen appears. Enter the search criteria then click **Search** to display the *Search Results*. Click the **Reset** button to clear the entered criteria if you wish to start over.

The screenshot displays the 'Field Arrest Search' screen with the following search criteria fields:

Click a link to view the Arrest

From the *Search Results* window, you have the ability to export the search results to various file types using the four icons directly above the *Search Results* grid. For more information on exporting search results refer to "Export Search Results" on page 36.

Click the **Arrest Number** link to view the *Field Arrest*, click the **Edit** icon to update the *Field Arrest*, or click the **Delete** icon to delete.

For more information on editing the **Field Arrest** refer to [FieldArrestEdit.htm](#).

For more information on deleting a **Field Arrest** refer to "Delete Field Arrest" on page 400.

Note: The **Edit** and **Delete** icons are available if you have proper permissions to perform that action. Refer to your administrator for more information on permissions.

Note: A column for *Age of Arrestee* also appears in the search results, while *Arrest Number* has been updated to *Booking/Arrest #*.

Click the **Refine Search** button to return to the *Field Arrest Search* form to update the criteria you initially entered, or click **New Search** to enter new criteria.

Create Field Arrest Manually

To create a new **Field Arrest** manually, select *New Field Arrest* from either the Incidents menu or the Incident drop-down on the top Navigation Bar.

OR

Note: You can also create a Field Arrest from an Incident and import the Incident data. For details, refer to "Create Field Arrest from Incident" on page 267.

1. The **Person Search** screen opens. This searches through the *Master Person Index* records to locate existing records that match your entered criteria.

2. Search for the person or use the **Add Person** button on the upper right to add the person.
3. Once the *Person Search Results* screen appears, use the Select icon  to select the correct person.

Last Name	First Name	Middle Name	Title	Sex	Race	DOB	SSN	Misc ID	Name Type	Index ID	Actions
Smith	Harold			M	W	03/02/1999			Primary Name	1249	

From the *Person Search Results* window, you have the ability to export the search results to various file types using the four icons directly below the *Search Results* tab.

For more information on exporting search results refer to "Export Search Results" on page 36.

For more information on searching *Master Person Index* records, refer to "Master Indices" on page 83.

- If the person is **associated** to existing Incident or Calls for Service records, the *Field Arrest Quick Booking* screen appears, otherwise skip this step.

Report #	Occurrence Date	Location	Agency	Offenses	Actions
2021D4210347	06/22/2021 1500	54 South Hancock Street Denver, CO 12345	District 42, Versailles	BURGLARY- BAKERY CRIMINAL TRESPASS- PROPERTY

- a. Verify the information under *Person Information* to be accurate. Enter the **Arrest Date and Time**, **PBT**, and **Comments**.
 - b. Click the **Edit Person** link to add or update person information if needed.
 - Click the **Save** button after updates are complete to return to the *Add Field Arrest* screen.
 - c. Click the **Save** button on the *Add Field Arrest* screen to save the entered data.
6. The *Edit Field Arrest* screen opens.

For more information on editing a Field Arrest, refer to "Edit Field Arrest" on page 370.

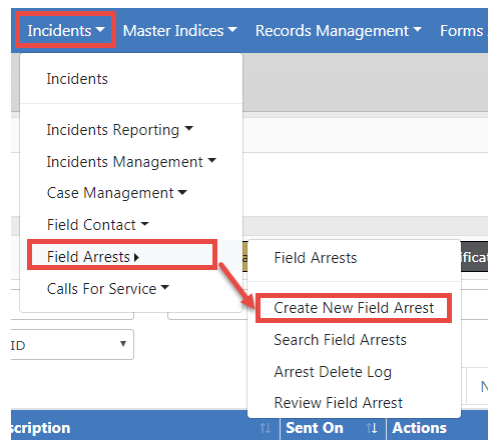

Create Field Arrest and Import Data

Beginning with Online RMS 11.7.0, with appropriate permissions, you can create a Field Arrest and import data from an existing Incident or Calls for Service record into the arrest record, avoiding unnecessary data entry. This process also associates the Field Arrest to the Incident or Calls for Service record automatically.

Follow these steps to create a Field Arrest and import the data:

1. Initiate a new Field Arrest from the Incident top menu.

Note: If you are creating a Field Arrest from an Incident record, skip to **Step 6**. For more information on creating an arrest form an Incident, refer to "Create Field Arrest from Incident" on page 267.

2. Search for and select the person.

For more details on searching and selecting the person, refer to the first few steps of "Create Field Arrest Manually" on page 361.

3. If the person you select **is associated** with existing Incident or Calls for Service records, the *Field Arrest Quick Booking* screen appears.

- Offender information and photo, if available, appears on the left of the screen.
- This screen allows you to optionally import data from either an Incident or Calls for Service record, or create an Arrest without importing data. To create an Arrest without importing, refer to "Create Field Arrest Manually" on page 361.

If the person you select is **not associated** with existing Incident or Calls for Service records, the *Add Field Arrest* screen opens rather than the above. You must manually enter Field Arrest data. For instructions, begin with the *Add Field Arrest* section of "Create Field Arrest Manually" on page 361.

4. Select either **Quick Arrest From Incident** or **Quick Arrest From Call For Service**.

The data that displays in the grid changes based on your selection.

- The grid displays the Incidents or Calls for Service records to which this person belongs, and only those records that you have permissions to see within your organization.
 - If you select Incident, and do not have permissions to access an Incident Supplement to which the offender is associated, that Incident does not appear in the grid.
5. Select  the appropriate record in the grid to import.
 6. The *Import and Create Field Arrest* screen appears.

Select From Below What Items You Want To Import

ARREST DATE 06/29/2021 1349 **ARRESTING OFFICER** I Am The Arresting Officer **AGE AT TIME OF ARREST** 22 Years Old

Arrest Location

Location	Source	Include
2300 West Broad Street RICHMOND, VA 23269-2051	Location of Incident	<input type="radio"/> Use This Address

Other Names

First Name	Last Name	DOB	Race	Sex	Roles	Include
Flarg	Flarg	01/01/1920	White	M		-Select Role to Import

Vehicles

Year	Make	Model	VIN	Include
2017	ACURA(ACUR)	LEGEND	345456544545645	<input type="radio"/> Use This Vehicle

Charges

Charge	Include
CRIMINAL TRESPASS- PROPERTY	<input type="checkbox"/>

- The person's name and other information appear on the left along with a photo, if one exists.
- The data source appears under the person's photo:
 - *Importing from Incident or Importing from Dispatch.*
 - The Incident or Dispatch number.
- People and Addresses:
 - If importing data from an Incident, the people and addresses have Master Person and Address Indices records.
 - Calls for Service people and addresses may not have Master Person and Address Indices records; however, you are given the option to create them.
- The fields prepopulate with Information from the data source automatically; however, you can make any necessary changes.

7. The **Arrest Date** defaults to today's date. Click into the field and select another date if needed.
8. The **Arresting Officer** defaults to the logged in user. Other officers defined in the data source also appear on the list. To change to another officer, click into the field and select the appropriate officer from the list.
9. **Age at Time of Arrest** is calculated for you based on the offender's birth date. This field is read-only.
10. Locations defined in the data source are listed under **Arrest Location**. If multiple locations exists in the data source, they all appear here.

Incident and Calls for Service location data are handled differently during the import process:

- Incident Locations are Master Address Index records. Click **Use This Address** to choose a location.
- Calls for Service Locations may not be Master Address Index records. If not, the **Create Address** button appears.

100 OAK ST APT 44, WILKINSON	Dispatch Incident Location	Create Address
------------------------------	----------------------------	----------------

Click the **Create Address** button to create the Master Address Index record, then the button changes to **Use This Address**.

11. **Other Names** and **Victim Names** also appear on this screen, depending on whether or not they exist in the data source. The example used only shows **Other Names**.
 - On each name, click the drop-down box to select which **Role to Import**.
 - When importing CFS data, the **Create Person** button appears if the person is not a Master Person Index record. Click the button to create the Master Person Index record, then you can select the **Role to Import**.

Paul	McCartney	11/14/1946	Male	Create Person
------	-----------	------------	------	---------------

- When creating a new person, the import process also updates the CFS event person record with the Master Person Index.

12. Select the **Vehicle**, if applicable.
13. Select the **Charge**, if applicable.

Additional fields appear.

Charges		
Charge	<input type="checkbox"/> Include	
CRIMINAL TRESPASS- PROPERTY <input checked="" type="checkbox"/>		
CATEGORY	CLASS	
Misdemeanor	Class 1 Misdemeanor	
OFFENSE DATE	OFFENSE COUNT	CSAU
03/03/2021	1	Completed
BOND TYPE	BOND AMOUNT	DOMESTIC RELATED
-Select-		<input type="checkbox"/>

- Arrest charges have bond fields that the Incident doesn't.
- Select the **Bond Type** and enter the **Bond Amount**.
- Update other fields as needed.

14. Click **Save**.

15. Incidents only:

If you are importing Incident data outside of an Incident and *you have* an existing open Supplement:

- The process creates the Field Arrest.
- The process associates the Field Arrest to the open Supplement and the role of *Arrestee* is added to the offender.

OR

If you are importing Incident data outside of an Incident and *you do not* have an existing open Supplement:

- A prompt appears asking if you want to create a Supplement.
 - If **Yes**, then the process creates the Field Arrest, associates it within the Supplement, and adds the role of *Arrestee* to the offender.
 - If **No**, then the process associates the Field Arrest to whatever Supplement the offender was added, and the role *Arrestee* is *not added* to the offender.

16. The *Edit Field Arrest* screen opens.

17. Make any necessary changes to the Field Arrest record.

For more information on editing a Field Arrest, refer to "Edit Field Arrest" on the next page.

Edit Field Arrest

The *Edit Field Arrest* screens allows you to enter details of the **Field Arrest**.

The screenshot displays the 'Edit Field Arrest' interface. At the top right, there are action buttons: 'Go Back', 'Duplicate', 'Print', 'Transmit Livescan', and a camera icon. Below these are links for 'Minimize', 'View Person', 'Edit Person', and 'Change Person'. The main section is titled 'Most Current Person Information' and contains a form with the following fields:

LAST NAME Smith	FIRST NAME Billy	MIDDLE NAME 3/16/12	DOB 09/08/1956 (Age at Time of Arrest: 62 Years Old)	SEX Male	RACE White	 (1/1) 11/21/2016 Download Original Image
ETHNICITY Hispanic or Latino	DRIVER'S LICENSE # DL123487566	DRIVER'S LICENSE STATE Virginia	SSN 123-45-6789			
ALIASES SmithNWesson (Nickname)						
RESIDENCE PHONE (333)-333-3333	ADDRESS (RESIDENCE) 654 East PERRY Street Block of Apartment #13A VERSAILLES, IN 58965			HEIGHT 6' 01"	WEIGHT 185	
EYE COLOR Black	HAIR COLOR Black	COMPLEXION Light Brown	PLACE OF BIRTH United States of America	CITIZENSHIP United States of America		
Misc IDs TNOR20000169 (OBTN) TNORC20000036 (OBTN) DL123487566 (OLN)						INDEX ID 42

Below the form are 'Previous Section' and 'Next Section' buttons. A navigation bar contains icons and counts for various sections: Arrest, Arrestee Information, Officers - 1, Associated Events - 3, % Charges / Warrants - 0, Names - 2, Property - 0, Vehicle / Towing - 1, Criminal Complaints, Narratives - 1, Attachments - 0, Questions, Validations, and Log. The 'Arrest Information' section at the bottom includes fields for ARREST NUMBER (1902593), ARRESTING AGENCY (District 42, Versailles), CREATOR NAME (Saur, Christine), and CREATOR DATE (02/05/2019 1343), with a 'Change' button next to the agency field.

There are action buttons on the top right of the *Edit Field Arrest* screen.

Note: Certain buttons may not be visible, depending on your agency's configuration.

This close-up shows the top right corner of the screen. It features a row of action buttons: 'Go Back', 'Duplicate', 'Print', 'Transmit Livescan', a camera icon, and 'View Field Arrest'. Below these buttons are the navigation links: 'Minimize', 'View Person', 'Edit Person', and 'Change Person'.

- **Go back** - Return to the previous screen.
- **Duplicate** - Duplicate the Arrest record for each Arrestee systematically to avoid duplicate manual entry.

For more information, refer to "Duplicate Field Arrest" on page 397.

- **Print** - After the **Field Arrest** form is complete, you can print a *Field Arrest Report* from this page.

For details, refer to "Print Field Arrest" on page 402.

- **Transmit Livescan** - After the Arrest record is complete, transmit the most recent physical description and the person images associated with that physical description to LiveScan.

For details on using the LiveScan software, refer to “LiveScan” on page 847.

- **Camera** - After the Arrest record is complete, take a photo using *Hunter Camera*. Depending on your agency's configuration, there may be one or multiple cameras from which to choose.

One: 

Multiple:  -Select- 

For details on using the camera software, refer to “Hunter Camera” on page 844.

- **View Field Arrest** - Allows the user to toggle back and forth between viewing the field arrest and editing the field arrest.

Individual tabs located in the center of the *Edit Field Arrest* screen organize the **Field Arrest** details.

You may wish to minimize the *Person Information* box so it is easier to go through your report. Do this by selecting **Minimize** at the top of the screen.

1. If you haven't already, add the **Location**. The location pulls from the **Master Address Index**. The recommendation is to always search for an existing Master Address record before adding a new one to prevent duplicates. The Location is required.
 - a. Click the **Quick Search** link to open the *Quick Search* window.

You have the option to search by the street address only, or by separate fields that make up an address such as street number, street name, city, etc.

Close Advanced Search / Add

Note: If the **Location** you are looking for does not exist, click the **Advanced Search/Add** button to add it to the **Master Address Index**. For more information on adding a Master Address index record, refer to "Master Indices" on page 83.

- Click the Select icon  to select the **Location** you want to add.
- Only one location is associated to an arrest record. When you select a location, the **Quick Search** and **Advanced Search/Add** buttons change to view, edit, and remove location:

 View Location  Edit Location  Remove Location

- Click the **View Location** button to view details of that address.

- e. Click **Edit Location** to change the address data, or click **Remove Location** to remove the location from the arrest record.
2. Give the field arrest a **Disposition**: Based on what is selected, there are additional boxes that need to be completed as shown in the example below:

A screenshot of a 'Disposition' form. It has three sections: 'DISPOSITION' with a dropdown menu showing 'Transported to Jail', 'PLACEMENT COUNTY' with a dropdown menu showing '-Select-', and 'RELEASE FROM CUSTODY DATE' with a date input field and a calendar icon.

A screenshot of a 'Disposition' form. It has three sections: 'DISPOSITION' with a dropdown menu showing 'Released', 'PLACEMENT COUNTY' with a dropdown menu showing '-Select-', and 'RELEASE FROM CUSTODY DATE' with a date input field and a calendar icon.

3. Click the **Add Reference** link to add a Reference Number in the *Add Reference Number* window if applicable.

A screenshot of a 'Reference Numbers' section. It features a red-bordered button labeled '+ Add Reference'.

4. Enter the appropriate Reference information and click the **Save** button.

A screenshot of the 'Add Reference Number' window. It contains two dropdown menus: 'REFERENCE TYPE' with 'Court Case #' selected, and 'REFERENCE #' with '253625' entered. At the bottom are 'Cancel' and 'Save' buttons.

5. Click **Next Section** on the *Edit Field Arrest* screen to navigate to *Arrestee Information* tab, or click on the *Arrestee Information* tab.

Note: Each tab has a **Next Section** link that advances you to the next tab. Or you may click on the individual tabs to navigate between tabs manually.

The data elements on this tab will directly update the Arrestee's master person information

+ Populate From Most Recent Cancel Save

- a. If arresting a previously known person you can import the existing **Physical Description** from the *Master Person* record. Click on the **Populate From Most Recent** button to populate the data from the most recent *Master Person* record.
- b. Update fields as needed.
- c. Click **Save**, or click **Cancel** to return to *Edit Field Arrest* screen without adding a **Physical Description**.
- d. Continue adding all other necessary information.

Note: **Citizenship** under the **Birth Place** section is required. If **Country** is blank, it defaults to the same value as **Citizenship**. If needed, you can select a different Country than Citizenship.

Note: The **Email/Web Addresses** section supports social media sites, such as Facebook, Twitter, LinkedIn, Instagram, Snapchat, YouTube.

7. If you would like to add multiple addresses, you can click the **Make Most Recent** icon on an existing address to make a duplicate of that address, then make any necessary changes.

Addresses + Add Address					
Address	Type	Occupied	Comments	Date of Info	Actions
 6081 East 82nd Street #415 INDIANAPOLIS, IN 46250	Residence	-		07/12/2018	  

Note: Beginning with RMS 11.10, location search is greatly enhanced. Begin typing the address and the system will return RMS locations. If your agency has Google Places turned on, you will also see Google addresses. Links will appear that allow you to add addresses and/or interact with a map for location identification.

8. Click **Next Section** on the *Edit Field Arrest* screen, or click on the *Officers* tab.

Officer

Ensure the information is correct on the **Officers** tab.

 Arrest	 Arrestee Information	 Officers - 2	 Associated Events - 0	 Charges / Warrants - 1	 Names - 2	 Property - 0
 Vehicle / Towing - 1	 Criminal Complaints	 Narratives - 2	 Attachments - 0	 Questions	 Validations	 Log
						 Add Officer  Add Non-Agency Officer

The **Field Arrest** accommodates multiple officers with different roles.

1. Click the **Add Officer** link to add officers to the **Field Arrest**.

The 'Add Officer' form contains two sections. The 'OFFICER' section has a dropdown menu showing 'Officer Joe Hedges(Badge #: 7049) - All Other'. The 'ROLE' section has a dropdown menu showing 'Assisting'. At the bottom right are 'Cancel' and 'Save' buttons.

2. Choose the appropriate **Officer** and associated **Role**, then click **Save**.
3. The added officer then appears in the **Officer** tab of the Field Arrest record.

The **Add Non-Agency Officer** link appears for multi-tiered agencies. With the proper permissions assigned by your administrator, this button allows you to assign officers from outside of your agency. For more information see your administrator.

Associated Events

This tab gives you the option to associate an **Incident** or **Calls for Service** to this **Field Arrest**. To waive the option, check the **An Associated Event Is Not Required For This Field Arrest** box.

The image shows a series of tabs for a Field Arrest record. The tabs are: Arrest, Arrestee Information, Officers - 2, Associated Events - 0 (highlighted with a red box), Charges / Warrants - 1, Names - 2, Property - 0, Vehicle / Towing - 1, Criminal Complaints, Narratives - 2, Attachments - 0, Questions, Validations, and Log. Below the tabs is a checkbox that is checked, with the text 'An Associated Event Is Not Required For This Field Arrest' below it.

If you want to associate an **Incident** or **Calls for Service**, leave the box unchecked. You can either *create* or *select an existing Incident*, or *select an existing Call*.

Note: You may assign multiple **Associated Events** to the same **Field Arrest**.

Create Incident

Create Incident only applies if your agency allows the manual creation of incidents.

1. Select the **Create Incident** link to create an **Incident**. The *Incident Report Number and Summary* screen opens.

The screenshot shows the 'Incidents' management interface. At the top, there are links for '+ Create Incident' and '+ Select Incident'. Below this is the 'Incident Report Number and Summary' form. The form contains several sections: 'AGENCY' with a dropdown menu showing 'District 42, Versailles'; 'REPORT #' with the text 'Auto Generated'; 'SECURITY LEVEL' with a dropdown menu showing 'Patrol Officer'; and 'MEDIA/CRIME SUMMARY' with a text area containing 'Loud arguing heard by several neighbors.' and a 'Check Spelling' button. At the bottom of the form are two buttons: 'Go Back' and 'Finished - Go To Next Section'. A red arrow points from the 'Check Spelling' button to the text area.

2. Enter the necessary information, then click the **Finished - Go To Next Section** button.

Note: Click the **Check Spelling** button to check your spelling before going to the next section if you wish.

3. The *Incident Associations* form opens.

- The selected CFS then appears on the **Associated Events** tab of the **Field Arrest** record.
- When you are finished adding the necessary associated events, click the **Next Section** button to advance to the **Charges/Warrants** tab.

Validations on Field Arrest Imports

The **Field Arrest** can be associated to an **Incident Report**, and data from the **Field Arrest** can be imported into the **Incident Report**.

When associating a **Field Arrest** to an **Incident Report**, don't assume all of the **Field Arrest** information is automatically associated to the **Incident Report**, for this has led to improper

UCR and NIBRS reporting.

If a **Field Arrest** is associated to a report, then Online RMS verifies that at least one offense from the associated **Field Arrest** was added to the **Incident Report**, if no offense was associated or added to the **Incident Report** then validation errors occur:

- Field arrest information - At least one offense from the field arrest must be included.

If a **Field Arrest** is associated to a report, then Online RMS verifies that Arrestee (person name) from the associated **Field Arrest** is added to the **Incident Report**, if no arrestee was associated or added to the **Incident Report** then validation errors occur:

- Field Arrest Information - Arrestee from field arrest must be included on report.

Charges and Warrants

On this screen you have the option to **Add Charges**, **Add System Warrants**, and **Add External Warrants**.

Arrest	Arrestee Information	Officers - 1	Associated Events - 0	Charges / Warrants - 0	Names - 0	Property - 0
Vehicle / Towing - 0	Criminal Complaints	Narratives - 0	Attachments - 0	Questions	Validations	Log

Charges [+ Add Charges](#)

System Warrants [+ Add System Warrant](#)

External Warrants [+ Add External Warrant](#)

Note: If there is an active *System Warrant* a red link appears to the left of **+Add System Warrant** with the person's name. Click the red link for Warrant options.

1. Click the **Add Charges** link to add the Charge.
2. For the **Charge Code** type in a portion of the offense description then select from the drop-down.

Note: You must enter each charge separately.

3. If the Charge is domestic related, check the **Domestic Related** box.
4. If a Charge is selected that has a default Bond Type or Amount configured for the Charge Category and Class related to the Charge Code or directly at the Charge Code level, the **Bond Amount** and **Type** automatically populates for you. You can update the Bond information as needed.
5. Click the **Add** button on the top right of the screen to add additional charges. Alternatively, you can enter the number of charges in the Add Charges text box to add a set of fields for that many charges.

6. Click the **Save** button to add the Charges to the Field Arrest.
7. Click the **Add System Warrant** and **Add External Warrant** links to add that information, if appropriate.

- a. Click **Add System Warrant** to open *Warrant Search*.

The screenshot shows the 'Warrant Search' form. It has a title bar with 'Warrant Search' and two buttons: 'View Delete Log' and 'Add Warrant'. The form is organized into three columns. The first column contains fields for LAST NAME, PERSON INDEX ID, AGENCY (dropdown), ISSUING COURT (radio buttons for SELECT and SPECIFY, with a dropdown), STATE WARRANT ID, NCIC #, and INCIDENT REPORT #. The second column contains fields for FIRST NAME, WARRANT INDEX ID, ORIGINAL / CHARGING AGENCY (radio buttons for SELECT and SPECIFY, with a dropdown), JUDGE, BOND TYPE (dropdown), BOND AMOUNT, and WARRANT #. The third column contains fields for DOB (calendar icon), WARRANT TYPE (dropdown), STATUS (dropdown), PLAINTIFF, REFERENCE TYPE (dropdown), and REFERENCE #.

- b. **Search** for the existing Warrant, then select from the results list to add it to the Arrest.
If the Warrant does not exist, you can click on the **Add Warrant** button on the Warrant Search screen. For more information on searching or adding Warrants, refer to [WARRANTS.htm](#).
- c. Click **External Warrants** to open the *Add External Warrant* form.

The screenshot shows the 'Add External Warrant' form. It has a title bar with a 'Go Back' button. The form contains the following fields: WARRANT # (text input), OUT OF STATE (checkbox), COUNTY (dropdown), BOND TYPE (dropdown), BOND AMOUNT (text input), CHARGE DESCRIPTION (text input), and COMMENT (text area). A 'Save' button is located at the bottom center.

- d. Enter the appropriate information, then click **Save** to add it to the Arrest. (Beginning with RMS 11.15 and higher, this form also includes a field for the case number.)
8. Once you have completed all information, click the **Next Section** button to advance to the *Names* tab.

Names

The **Names** tab contains **Next of Kin/Emergency Contacts**, **Victims**, **Other Names**, and **Other Organizations**.

The relations here directly update the Arrestee's master person information

Next of Kin / Emergency Contact [Add Next of Kin / Emergency Contact](#) [Add Partial](#)

Related Person	Relation	Next of Kin	EC	Dependent	Date of Info	Actions
BOB Smith RACE: Asian SEX: Male	Acquaintance or Former Roommates	No	No	No	08/03/2017	

Victims [Quick Search](#) [Advanced Search / Add](#)

Name	Date	Notification Method	Comment	Actions
Name: Joe Smith Sex: Male Race: White				

Other Names [Quick Search](#) [Advanced Search / Add](#)

Other Organizations [Quick Search](#) [Advanced Search / Add](#)

Next of Kin/Emergency Contact

1. Click the **Add Next of Kin/Emergency Contact** link to open the *Master Person Search* screen to search for the name in the Master Person Index module.

[+ Add Next of Kin / Emergency Contact](#)

2. Or, if when Arrestees do not provide sufficient information to create a master person record. Click the **Add Partial** link to provide minimal information, then search the master index with the entered data.

[+ Add Partial](#)

- a. If a matching master person index record is not found, you can save it to the arrest without creating a master person record.
- b. If a matching master person index record is found, select the record to add it to the arrest.

Victim, Other Names, Other Organizations

1. Click the **Quick Search** link to search for the name or organization in the associated Master Indices module. If you do not find it in the Master Index, click the **Advanced Search/Add** link to add.

[+ Quick Search](#) [+ Advanced Search / Add](#)

For more information on searching in and adding records to the Master Indices, refer to "Master Indices" on page 83.

Once you have completed all information, click the **Next Section** button to advance to the *Property* tab.

Property

The **Property** tab is applicable only when *Field Arrest Property* is setup to be used from the *Field Arrest Module Admin* page.

Enter **Property** that needs to be inventoried and belonging to the Arrestee.

If there is no property to be inventoried, check the **Arrestee Property Not Inventoried** box.

If the arrestee has no property, check the **Arrestee Has No Property** box. This checkbox is not available when there is property on the arrest.

If there is **Property** to be inventoried, follow the next steps:

1. Click the **Add Personal Property** link to open *Property Details*.

[+ Add Personal Property](#)

Note: The **Arrestee Property Not Inventoried** box must be unchecked for the **Add Personal Property** link to appear.

2. The *Logging Officer* defaults to the *Arresting Officer*. Make sure this information is accurate.

- Using the Drop-downs and free text boxes, enter the appropriate description and any comments.
- Click the **Add Additional Property** link to add additional property, if applicable
- Click the **Save** button.
- The **Property** appears in the grid and a **Print Selected Property Labels** link appears.

 Print Selected Property Labels  Add Personal Property

- Select one or more property records, then click the **Print Selected Property Labels**.

Property  Print Selected Property Labels  Add Personal Property

Notice the **Release Property** link no longer appears. In this example, there are no longer existing property records that are eligible for release; if there were, the link would still be available.

Vehicle/Towing

The **Vehicle** must exist in the *Master Index* module before you can associate it to an Arrestee. With the proper permissions, you can add it to the *Master Vehicle Index* if it doesn't exist. For more information about the *Master Index* module, refer to "Master Indices" on page 83.

Associate a Vehicle

1. Associate a vehicle to the Arrestee one of three ways:

Select Vehicle Associated to Arrestee

Note: This option is available only when at least one vehicle is associated with the Arrestee.

Click the **Select Vehicle Associated to Arrestee** link, if available, to add a **Vehicle** associated with the Arrestee. This link appears only when at least one vehicle is linked to the person listed as the Arrestee.

[+ Select Vehicle Associated to Arrestee](#)

Click the **Select** icon  to select the vehicle you want to associate with the Arrestee.

SEIZED ☐ STORED ☐

Update

Vehicle Tow/Impound Add New Impound Add Existing Impound

You can click the **View Vehicle** link to view vehicle details or click the **Remove Vehicle** link to remove it from the Field Arrest.

3. Check the **Seized** box if the vehicle was seized.
4. Check the **Stored** box if the vehicle was stored.
5. Click the **Update** button to save your updates.

Add Vehicle Tow/Impound

Vehicle Tow/Impound appears at the bottom of the screen.

1. Click the **Add New Impound** link to add a new record, or click **Add Existing Impound** to select an existing Impound record, then enter the necessary information.
2. If a vehicle record already exists on the Field Arrest, a warning stating the existing vehicle and towing information may be overwritten. Click **Yes** to continue and overwrite the existing vehicle and towing information, or click **No** to exit without overwriting.

Message From RMS

If you continue, vehicle and/or towing information may be overwritten

No Yes

Note: When adding an existing Impound record, the vehicle associated with the Impound is added to the Arrest.

3. Click the **Update** button after all information is entered.
4. Once you have completed all information, click the **Next Section** button to advance to *Criminal Complaints* tab.

Criminal Complaints

1. Click the **Add Criminal Complaint** link to add a criminal complaint, if applicable. This option appears providing you have the appropriate permissions and the feature is turned on.

Criminal Complaints

Note: If you receive a **OBTN** required message, click **OK**, then navigate to the **OBTN** (Offender Based Tracking Number for criminal complaints) on the *Arrest* tab.

Message From RMS

OBTN required to create criminal complaint.

OK

Note: The label **OBTN** could appear as **Arrest Tracking Number** for your agency. This label is configurable by agency.

COMMENT

Update

- The Arrestee, Arresting Officer, Location, and Offenses from the Field Arrest pulls into the Criminal Complaint form automatically as shown below.

Arrests					
Arrest #	Arrest Date	Agency	Charges	Last Name	First Name
1709571	09/06/2017 0700	District 42, Versailles	UTILITY/TRANSPORTATION- AIRCRAFT- OPERATE INTOXICATED/HEALTH DISORDER	ARNEY	DUSTIN

Incidents	
+ Select Incident(s)	

Location Details	
⚡ Quick Search + Select Location	

Offenses				
Charge Code	Description	Comments	Offense Date	Actions
8-21-4-8	UTILITY/TRANSPORTATION- AIRCRAFT- OPERATE INTOXICATED/HEALTH DISORDER		09/06/2017 0000	 

- Make the appropriate changes on the *Edit Criminal Complaint* and click the **Update** button.

For more information on editing the Criminal Complaint, refer to “Edit a Criminal Complaint” on page 320.

- Optionally, click the **Print** button to print the Criminal Complaint.
- Optionally, click the **Submit for Approval** button to submit the Criminal Complaint for approval.

For more information on submitting for approval, refer to "Submit Criminal Complaint for Approval" on page 329

Note: When the Criminal Complaint is approved, the approval process creates a Court Case automatically, providing your agency has the Court Case module turned on. For more information on Court Case, refer to “Court Case Overview” on page 333.

- Click **Next Section** to navigate to *Narratives* tab, or click on the *Narratives* tab.

Narrative

The **Narrative** is not required to complete the **Field Arrest**. You can create one or multiple **Narratives**.

- Click the **Add Narrative** link to open the *Add Narrative* screen. You must enter a **Title** and additional information in the body of the narrative.

2. You can use the formatting icons to customize the layout of your narrative. The built-in *Spelling and Grammar Checker* identifies mistakes and corrects them as you type.

Note: For more information on Narratives, refer to "Narrative Tab" on page 240.

Note: The Narrative auto-saves every 60 seconds while you type. The last saved date and time displays on the form.

3. To insert images, you must use the **Image** icon.

4. Click the **Save** button.
5. Click on the Print icon  if you wish to print the Narrative. Refer to "Printing from Online RMS" on page 39 for details.
6. Once you have completed all information, click the **Next Section** button to advance to the *Attachments* tab.

Attachments

Attachments are files that are accessed by other programs, such as a picture, document, spreadsheet, etc. These files are uploaded and saved to the **Field Arrest**. You can have none, one, or multiple **Attachments**.

The screenshot shows the 'Field Arrest' interface with the 'Attachments - 0' tab selected and highlighted with a red box. Below the tabs, the 'File And Image Attachments' section contains two links: 'View External Attachments' and 'Add Attachment', with the latter also highlighted by a red box. Below this is an 'Attached Forms' section with an 'Add Form' button and a dropdown menu currently set to '-Select-'.

1. Click on the **Add Attachment** link to add attachments, or click **Image Library** to add image files from your personal *Image Library*. If images do not exist in your Image Library, then the hyperlink does not appear.

Refer to "Attachments" on page 69 or "Image Library" on page 75 for more information.

2. Click the **Go Back** button after uploading **Attachments**.
3. Once you have completed all information, click the **Next Section** button to advance to the *Questions* tab.

Questions

The screenshot shows the 'Field Arrest' interface with the 'Questions' tab selected and highlighted with a red box. The form contains two main sections: 'MEDICAL COMMENT' with a large text area, and 'Drugs Screening' with three questions and radio button options. The 'Save' button is at the bottom.

Question	Options	Answer
Did person have drugs in possession	<input type="radio"/> Yes <input checked="" type="radio"/> No <input type="radio"/> N/A	
Did the person appear intoxicated?	<input checked="" type="radio"/> Yes <input type="radio"/> No <input type="radio"/> N/A	Slurring his words.
Were minors present and was action taken?	<input type="radio"/> Yes <input checked="" type="radio"/> No <input type="radio"/> N/A	

1. Select and enter appropriate information in the fields provided.
2. A red left border in the **comments** fields indicates comments are required. The border may appear depending on the answer you provide to the left of the comment. In the below example, the comments field becomes required when you indicate the person appears intoxicated.
3. Click the **Save** button.
4. Once you have completed all information, click the **Next Section** button to advance to the *Validations* tab.

Validations

You must enter all required information before the system allows you to create the **Field Arrest** record. Tabs with missing required information display in **red**. Hover your mouse over the **red** tab to display a missing data message.

The **Validations** tab will also display the errors that are causing **red** tabs.

1. Click on each red tab to enter the missing data. Repeat until there are no longer **red** tabs.

Note: If no errors, then there will be no **red** tabs.

2. Click on the **Complete** button at the top of the screen.
3. Enter any comments and click the **Submit** button. An approval *Notification* is sent to the *Approval Group*.
4. The **Field Arrest** is now complete.

Log

Activities affecting the **Field Arrest** are written systematically to the **Log** tab, creating a trail of events. For example, the system generates a **Log** entry when the **Field Arrest** is created, is updated, and another when it is submitted for approval. The **Log** entry includes the user name, date, and general description of the event.

To add your own Log entry:

1. Click on the **Add Log** button.

The screenshot shows the 'Arrest Log' interface. At the top, there is a navigation bar with tabs: Arrest, Arrestee Information, Officers - 2, Associated Events - 0, Charges / Warrants - 1, Names - 2, Property - 0, Vehicle / Towing - 1, Criminal Complaints, Narratives - 2, Attachments - 0, Questions, Validations, and Log. The 'Log' tab is highlighted with a red box. Below the navigation bar, there is a table titled 'Arrest Log' with columns: Creator Name, Date Created, Type, and Log Entry. The table contains one entry: Homer Simpson, 11/13/2018 1158, and a log entry 'Review status updated from Pending Review to [Empty]'. To the right of the table, there is a red box containing the 'Add Log' button.

2. Select the **Log Type** and enter your **Log comments**.

The screenshot shows the 'Add Log' form. It has a 'LOG TYPE' dropdown menu with 'Dispense Medication' selected. Below it is a 'Log' text area containing the comment 'Nurse dispensed medication to the arrestee.'. At the bottom right, there are 'Cancel' and 'Save' buttons.

3. Click **Save** to create and commit the entry to the Log.

Note: Log entries cannot be updated or deleted.

Duplicate Field Arrest

There are times when multiple arrests occur for the same location and charges. You must create a separate **Field Arrest** record for each Arrestee, and for your convenience, the **Duplicate**

button at the top of the *Edit Field Arrest* form duplicates the **Field Arrest** record for each Arrestee systematically to avoid duplicate manual entry.

During the **Duplicate** process, you also select the **Field Arrest** areas to **Duplicate**, such as officers, narrative, charges, etc.

When adding a new **Field Arrest** the *Edit Field Arrest* screen appears automatically after selecting the Arrestee. For more information on adding **Field Arrests** refer to "Create Field Arrest Manually" on page 361.

To **Edit** an existing **Field Arrest** you must first **Search** for the **Field Arrest** you want to **Edit**, then select the appropriate **Field Arrest** to open the *Edit Field Arrest* screen. For more information on searching **Field Arrests** refer to "Search Field Arrests" on page 358.

1. When the *Edit Field Arrest* screen appears, click the **Duplicate** button on the top right to begin the duplication process.
2. The *Duplicate Field Arrest* screen appears.

Go Back

Arrest Summary: 02/05/2019 1433 Hrs ⓘ Agency: District 42, Versailles Arrest #: 1902593

Charges:

Duplicate Field Arrest

- Click Add Arrestee to select a new arrestee. You can add as many arrestees as you like. For each arrestee, a new field arrest record will be created.
- You can then choose which sections you would like duplicated.

BEFORE DUPLICATING THIS ARREST, ENSURE THE DATA IS CORRECT! Once you duplicate the arrest, you will have to edit each duplicated arrest if any changes are needed.

Arrestees Click to add an arrestee → Add Arrestee

Person	Actions
Sections To Duplicate	
Section	Include
Disposition	<input checked="" type="checkbox"/>
Officers (1)	<input checked="" type="checkbox"/>
Custom Fields (1)	<input type="checkbox"/>

Select what you wish to duplicate

Duplicate

3. Adding all applicable Arrestees is the first step in the duplication process. Click the **Add Arrestee** link to open the *Master Index Search* screen.
4. Search and select the person to add it to the duplicate Field Arrest record. For more information on searching and selecting a person, refer to "Master Indices" on page 83.
5. Click the **Add Arrestee** link to add another Arrestee if needed. You may add as many Arrestees as necessary.

6. After adding all the Arrestees, **select** the appropriate sections to duplicate. The list that appears in the *Sections to Duplicate* section vary based on the information that exists on the original **Field Arrest** record.
7. Click the **Duplicate** button to create a duplicate record for each Arrestee listed, or click **Go Back** at the top of the *Duplicate Field Arrest* screen to return to the *Edit Field Arrest* screen without duplicating.
8. If you chose to click the **Duplicate** button a confirmation message appears.

Message From RMS

You are about to duplicate this arrest for 1 arrestee(s). Click YES to duplicate or NO to cancel.

No Yes

9. Click **Yes** to duplicate, or click **No** to return to the *Duplicate Field Arrest* screen without duplicating.
10. If you chose to duplicate, the *Duplicate Field Arrest Results* screen appears indicating success or failure. Read the Instructions at the top of the screen to understand how to interpret the results.

Back To Original Arrest

Please check the results and ensure everything was duplicated properly. Anything in **red** indicates something went wrong.

Each arrest listed below will now appear in your field arrest recent activities, so even if you leave this page you can still access them there.

Each duplicated arrest will also have a log entry indicating the arrest it originated from. It may be used as a reference if needed.

Results

SUCCESS: Arrest # 1902594 created with arrestee ⓘ **Name:** Ranelle Marie Clark **Sex:** Female **Race:** White **DOB:** 03/16/1959 (Age:59)

- **Officers**
 - Officer : Saur, Christine
- **Location**
 - 1001 North East Main Street INDIANAPOLIS, IN
- **Narratives**
 -
- **Incidents**
 - Report #2018D4210207 associated

Back To Original Arrest

11. Click **Back to Original Arrest** to return to the original **Field Arrest**.

To view Field Arrests for the other Arrestees, you must **Search** for their Field Arrest records. For more information on searching Field Arrests refer to "Search Field Arrests" on page 358.

You may edit the individual **Field Arrest** records. For information on editing Field Arrest records refer to "Edit Field Arrest" on page 370.

Delete Field Arrest

To **Delete** an existing **Field Arrest** you must first **Search** for the **Field Arrest** you want to **Delete**. For more information on searching **Field Arrests** refer to "Search Field Arrests" on page 358.

1. In the *Search Results* window locate the appropriate **Field Arrest** record then click on the **Delete** icon  under the *Actions* column. If the **Delete** icon does not appear on that record then you do not have delete permissions. See your administrator for more information on permissions.

Arrest Number	Status	Arrest Date	LastName	First Name	Charges	Warrants	Incidents	Actions
1902594	Open	02/05/2019 1433	Clark	Ranelle			2018D4210207	 

2. A confirmation box appears after you click on the **Delete** icon.

Message From RMS

Are you sure you want to delete Field Arrest # 1902594?

This arrest has incidents associated with it. If you delete this arrest, they will be un-associated from it

3. Click **Yes** to confirm or **No** to return to the *Search Results* without deleting. If you choose to delete the arrest, any associated incidents become unassociated.
4. If you clicked **Yes**, you must then enter the reason for the delete, then click the **Delete** button. Or click **Cancel** to abort the delete process.

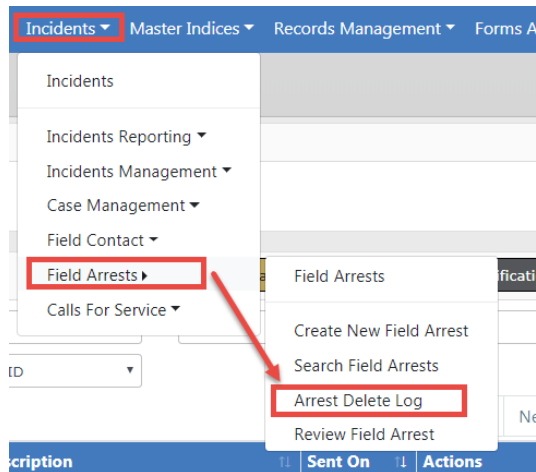

Delete Field Arrest Comments

DELETE COMMENT

Created for training purposes.

View Arrest Delete Log

The deleted **Field Arrest** is logged automatically for tracking purposes. To view the log entry, select the *Incidents* menu, *Field Arrests*, then *Arrest Delete Log*.

1. The *Search Arrest Delete Log* screen appears.

2. Search for the log entry by entering a date range or Arrest Number if you know it, or leave all fields blank to view all log entries, then click the **Search** button to return a list of all log entries that match your search criteria.
3. You can export the search results to various file types, view the comments that were entered at the time the arrest record was deleted, and view the deleted log entry.

Note: For more information on exporting the results refer to "Export Search Results" on page 36.

The PDF includes a barcode , arresting officer, arrestee information such as, SSN, address, DOB, offenses, and physical description.

Chapter 20. Field Contacts

Overview

A **Field Contact** gives you the ability to document a situation such as an encounter with a suspicious person. The situation is such that it does not warrant an *Incident Report* but you still want to document it in the event something comes of it. That way it is searchable and you see the **Field Contact** associations within the *Master Indices* section. **Field Contacts** are located in the *Incidents* menu where you can search existing or create new **Field Contacts**.

When completing a **Field Contact**, you are able to document:

- Notes
- Location
- People
- Officers
- Vehicles
- Gangs
- Organizations
- Attachments
- Associate existing Incidents from within the Field Contact.
- Create Incidents from within the Field Contact.

- Associate existing Calls from within the Field Contact.

An *Incident Report* can also be generated from the **Field Contact**, similar to the **Field Arrest**. Once the **Associate Incident** link is selected, you will be able to select what information should be transferred to the *Incident Report*.

Add a Field Contact

Field Contacts are located under the Incidents menu.

Click **Create New Field Contact** menu option to open the Add Field Contact form.

 A screenshot of the 'Add Field Contact' form in the Caliber Public Safety application. The form is divided into several sections. At the top, there are fields for 'AGENCY' (District 42, Versailles) and 'AGENCY ONLY' (No). Below these are 'CONTACT TYPE' (a dropdown menu set to '-Select-') and 'CONTACT DATE' (03/14/2019 0836). The 'SUMMARY' section has a large text area. The 'Terry Stop Data' section is repeated twice, each with a 'TYPE OF STOP' dropdown menu (set to '-Select-') and a 'COMMENT' text area. At the bottom of the form, there are two buttons: 'Go Back' and 'Save & Continue'.

Enter the necessary data.

Click **Save & Continue** to open the **Edit Field Contact** form.

Enter the applicable sections of the **Edit Field Contact** form, then click the **Save** button:

- Field Contact Details
- Stop Data
- Location
- People
- Officers
- Vehicles
- Gangs
- Organizations
- Attachments
- Add (associate) existing Incidents from within the Field Contact.
- Create Incidents from within the Field Contact.

Note: Once the **Associate Incident** link is selected, you will be able to select what information should be transferred to the *Incident Report*.

- Add (associate) existing Calls from within the Field Contact. If the selected Incident is associated with a Calls For Service, a dialog box with the information appears, giving you the option to associate the Calls For Service to the Field Contact.

Once the **Field Contact** is completed, you can increase the **Security Level** if necessary.

The screenshot shows the 'Edit Field Contact' form. At the top right are buttons: 'Go Back', 'Visualization Tool', 'View Summary', and 'Print'. Below these is a toolbar with icons for various actions. The main form area is titled 'Field Contact Details' and contains a table with the following data:

CONTACT ID	AGENCY	SECURITY LEVEL
285	District 42, Versailles	Patrol Officer

Below the table, there is a 'CONTACT TYPE' dropdown menu set to 'Knock and Talk' and a 'CONTACT DATE' field set to '12/13/2018 1354'. A red arrow points to a 'Change Security' button located next to the 'Patrol Officer' text in the 'SECURITY LEVEL' column.

Note: For more information on the **Edit Field Contact** form, refer to "Edit a Field Contact" on page 412.

Search for a Field Contact

Field Contacts are located in the *Incidents* menu where you can search existing or create new **Field Contacts**.

1. Select **Search Field Contacts** from the menu to open the *Search Field Contacts* form.

2. Enter the necessary data that assists with finding the **Field Contact** record.

The **Additional Search Criteria** allows you to include information from a specific section, if needed. Additional search fields will appear if you choose one of the available options from the list.

Vehicle example:

Custom Fields example:

NOTE: *Custom Fields* is available for agencies that have the *Custom Fields* feature enabled. *Custom Fields* captures data defined by the agency. For more information refer to your administrator.

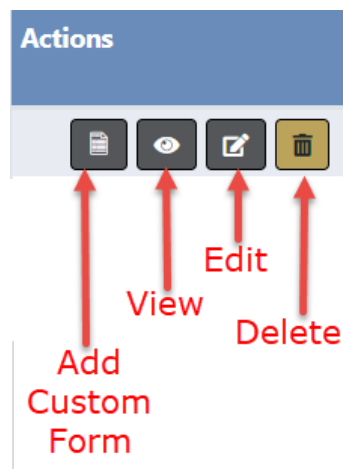

- Click the **Search** button to view the *Search Results*.

Contact Id	Contact Type	Agency	Summary	Contact Date	Actions
285	Knock and Talk	District 42, Versailles		12/13/2018	[Edit] [View] [Delete]

From the *Search Results* window, you have the ability to export the search results to a file using the icons below the *Search Results* tab. For more information refer to "Export Search Results" on page 36.

- If you want to make changes to your current search or start a new search, click the **Refine Search** button or the **New Search** button, respectively.
- The icons under the *Actions* column of the *Search Results* allow you to *Edit*, *View*, or *Delete* a **Field Contact**, if you have the proper permissions. If an icon does not display, then you do not have access to perform that function.

For more information refer to "Edit a Field Contact" below, "View a Field Contact" on page 414, or "Delete a Field Contact" on page 419.

Edit a Field Contact

To edit a **Field Contact** you must first **Search** for the **Field Contact**, then select the *Edit* icon in the **Search Results** window. For more information on searching refer to "Search for a Field Contact" on page 410.

1. Select the **Edit** icon on the **Field Contact** record in the Search window to open the **Edit Field Contact** page.

There are several sections that make up the **Edit Field Contact** page. Each available section is listed across the top as icons. Click on any icon to go directly to the corresponding section, or scroll down the page to each section. The number that appears on the icon indicates the number of records associated with that icon. For example, the number 1 on the Officer icon indicates there is one officer record, and no number indicates there isn't a record associated with that icon.

Go Back Visualization Tool View Summary Print

Field Contact Details

CONTACT ID	AGENCY	SECURITY LEVEL
285	District 42, Versailles	Patrol Officer Change Security
CONTACT TYPE	CONTACT DATE	
Knock and Talk	12/13/2018 1354	

Note: Field Contacts can associate with a Calls for Service (CFS) event while in Edit mode. Click on the **Calls for Service Go To** link or page down to the **Calls for Service** grid to add an associated CFS to a Field Contact record. If the CFS has associated incidents, a pop-up window appears to select incidents that should also be related to the Field Contact.

- Click the **Print** button to print the **Field Contact**. For more information refer to "Print Field Contacts" on page 419.
- Click the **Visualization Tool** button to view display connections between people, addresses, involvements, etc., in a graphical format. For more information refer to "Crime Visualization Tool" on page 155.

Note: This button is based on user permissions and is not visible to all users. For more information contact your administrator.

- Click the **View Summary** button to view a summary of the **Field Contact**.

Go Back Visualization Tool Edit Interview Print Report

Click **Go Back** to return to the *Search Results*, or click **Edit Interview** to return to the **Edit Field Contact** page.

- Complete all applicable sections and click the **Save** button after each section. For detailed instructions refer to "Enter or Update Field Contact Details" on the facing page.

View a Field Contact

Field Contacts are located in the *Incidents* menu where you can search existing or create new **Field Contacts**. To view a Field Contact you must first search for the record.

Click **Search Field Contact** menu option to open the search form and enter the criteria to find and view the appropriate **Field Contact**. For more information on searching, refer to "Search for a Field Contact" on page 410.

Enter or Update Field Contact Details

Whether you are creating a new **Field Contact** record or updating one that already exists, the process of entering the details is fundamentally the same.

Field Contacts data is grouped into various sections: field contact details, notes, locations, people, vehicles, gangs, etc.

The **Field Contacts** module utilizes *Master Indices*. *Master Indices* are centralized pieces of data that are accessed from different modules of the system for consistency. Each index is represented only once, such as a person, gang, vehicle, and organization.

Note: For more information on *Master Indices* refer to "Master Indices" on page 83.

Sections containing **Quick Search** and **Advanced Search** links utilize the *Master Index*. Caliber strongly recommends that you first search the *Master Index* to determine whether or not this data already exists before adding or updating. If the record exists, you must use it in the **Field Contact**. If the record doesn't exist, then you can create it, providing you have the proper permissions. For more information on permissions see your administrator.

Click the **Save** button to save the entered data.

Location, People, Vehicles, Gangs, Organizations

 Location	 Quick Search  Add Location
 People	 Quick Search  Add Person
 Vehicles	 Quick Search  Add Vehicle
 Gangs	 Quick Search  Add Gang
 Organizations	 Quick Search  Add Organization

There are two types of searches:

Quick Search

- Limited Master Index search. For example, for person you can only search by last name, first name, DOB, sex, race, and driver's license number.

Person Example

Quick Search

LAST NAME	FIRST NAME	DOB
<input type="text"/>	<input type="text"/>	<input type="text"/>
SEX	RACE	DRIVERS LICENSE
<input type="text" value="-Sex-"/>	<input type="text" value="-Race-"/>	<input type="text"/>

Vehicle Example

Quick Search

VIN	LICENSE PLATE	LICENSE STATE
<input type="text"/>	<input type="text"/>	<input type="text" value="-Select-"/>

Advanced Search

To perform an advanced search, click on the **Advanced Search/Add** button at the bottom right of the Quick Search window .

- Extensive Master Index search. For example, in addition to the Quick Search criteria for person, you can also search by age, middle name, physical features, age range, and more.
- This feature also allows you to add new *Master Index* records if they don't already exist, providing you have the proper permissions. See your administrator for more information.

<input type="button" value="Go Back"/> <input type="button" value="Reset"/> <input type="button" value="Search"/>		

Officers

Click **+Add Officer** to open Quick Search and select additional officers.

Attachments

Click **+Add Attachment** to attach files or images. For instructions, refer to "Add Attachments" on page 69.

Click **+View External Attachments**, if applicable.

Incidents

Click **+Add Incident** to search for and select an existing Incident to associate with the Field Contact record.

Click **+Create Incident** to create a new incident and associate it to the Field Contact record.

- When prompted, click **Yes** to continue or **No** to cancel.
- If chose **Yes** to continue, the *Create New Incident Report* wizard steps you through the incident creation process. For more information on creating an incident report, refer to "Create Incident Report" on page 198.

Calls for Service

Click **+Add Call** to search for and select an existing calls for service record to associate with the Field Contact record.

Attached Forms

If applicable to your agency, you can attach a custom form.

Select an item from the **Add Form** drop-down list to open the chosen form. Complete the necessary fields, then click **Save** to remain on the form, or **Save And Exit** to save the form and return to the Field Contact form. Or click **Cancel** to return to *Edit Field Contact* form without adding a custom form.

Delete a Field Contact

On rare occasions you may need to delete a **Field Contact** record, if you have proper permissions to do so.

Note: **Field Contacts** can be deleted only by the creator.

1. Search for the **Field Contact** record you want to delete. For more information on searching refer to "Search for a Field Contact" on page 410.
2. The **Field Contact** record you want to delete should appear in the Search Results window.

The screenshot shows a search results interface. At the top, there are buttons for 'Refine Search' and 'New Search'. Below these, a status bar indicates '1 result(s) found'. The main content is a table with the following columns: Contact Id, Contact Type, Agency, Summary, Contact Date, and Actions. A single record is displayed with the following values: Contact Id: 285, Contact Type: Knock and Talk, Agency: District 42, Versailles, Contact Date: 12/13/2018. The Actions column contains three icons: a magnifying glass, a pencil, and a trash can (the delete icon). At the bottom of the table, there are again buttons for 'Refine Search' and 'New Search'.

Contact Id	Contact Type	Agency	Summary	Contact Date	Actions
285	Knock and Talk	District 42, Versailles		12/13/2018	  

The **Delete** icon  in the *Actions* column allows you to **Delete** the record listed. If the delete icon does not display, then it is likely you do not have permissions to delete it. For more information on permissions, refer to your administrator.

3. Click the **Delete** Icon  on the record you want to delete.
4. Enter **Delete Comment** then click **Delete**.

The screenshot shows a dialog box titled 'Delete Field Contact'. Inside the dialog, there is a section labeled 'DELETE COMMENT' with a text input field. Below the input field, there are two buttons: 'Cancel' and 'Delete'.

Print Field Contacts

You can print a Field Contact you are viewing or editing.

For more information on editing a Field Contact refer to "Edit a Field Contact" on page 412.

For more information on viewing a Field Contact refer to "View a Field Contact" on page 414.

1. Click the **Print** button while viewing or editing the **Field Contact**.

The screenshot shows the 'Field Contact Details' form. At the top right, there are four buttons: 'Go Back' (yellow), 'Visualization Tool' (grey), 'View Summary' (grey), and 'Print' (grey). A red arrow points to the 'Print' button. Below the buttons is a row of icons. The form fields are as follows:

CONTACT ID	AGENCY	SECURITY LEVEL
285	District 42, Versailles	Patrol Officer Change Security

CONTACT TYPE	CONTACT DATE
Knock and Talk	12/13/2018 1354

2. Select the **Print Options** you would like to include, such as images, PDF, or Form attachments.
3. Select **Print**.

A PDF document opens in a new tab in your browser. Print directly to the printer or save the PDF document giving it a custom filename.

Note: If you are using Internet Explorer, refer to "Printing from Online RMS" on page 39 for special instructions.

Chapter 21. Incident Mapping

Access Incident Mapping

To access **Incident Mapping**, click on the **Incidents Reporting** drop-down menu on the top *Navigation Bar*, then click on **Incident Mapping**.

Screen Layout

Incident Mapping contains two windows that overlay the map:

- Filter Options
- Current Query

The *Current Query* displays search results based on the defined *Filter Options*.

Filter Options Window

The screenshot shows the 'Filter Options' window with the following sections:

- Filter Options** (button in top right)
- Date Options**
 - DATE / TIME FROM**: 03/19/2022 1629
 - DATE / TIME TO**: 03/20/2022 1629
 - OR SELECT A RANGE**: Last 24 Hours
 - Apply Dates** button
- Time Slider**
 - 0000 HRS to 2400 HRS
 - Slider bar
- Draw Mode**
 - DRAW MODE**: ☒ Circle ☐ Draw a Shape ☐ Select Shapes
 - RADIUS**: 0.5
 - UNITS**: Miles
 - Start a New Circle** button
- Display Options**
 - DISPLAY MODE**: ☒ Marker ☐ Cluster ☐ Heat
 - ☒ Show Outlines Of Shapes
 - ☒ Show Events in Side Bar
- Shapes**
 - ☒ Show All Colors ☐ Show Only Selected Colors
 - Indiana State Police** (selected)
 - ☐ Ang Test
 - ☐ CADTest
 - ☐ Downtown
 - ☐ Example Shape
 - ☐ LargeCADArea

- **Filter Options** - Clicking this button hides the Filter Options window.
- **Date Options** - Select a start date and time and an end date and time. You may also select a date range from the drop-down list, such as *Last 24 Hours*, *Week to Date*, *Last Week*, *Month to Date*, etc. There is also a Time Slider if you want to select just a specific Time range. Click the **Apply Dates** button.

- **Draw Mode** - This allows you to select a *Circle Radius*, *Draw a Shape*, or *Select Shapes*. If you select the *Circle* option, you need to select Radius and Units. The Radius and Units defaults to 0.5 Miles.
- **Display Options** - These are options on how the search results display.
- **Shapes** - are the Areas to which you want search results to be returned. Check the box next to the applicable areas then click the **Apply Selected Shapes** button when it appears. The **Apply Selected Shapes** button does not display until at least one area box is checked.
- **Search Address** - To search for a specific address, select the magnifying glass icon  on the top of the window to open the search window.

The image shows a 'Find Address' search window. It has a title bar 'Find Address'. Below the title bar is a section labeled 'ADDRESS' containing a yellow text input field and a 'Search' button. At the bottom right of the window is a 'Close' button.

Enter the street address then select the **Search** button or press **Enter** to display a list of matching addresses. Click on the *[Draw Circle At Center]* link if you want to draw a circle on the map around a specific address from the list.

The image shows the 'Find Address' search window with search results. The 'ADDRESS' section now contains a dropdown menu with '100 Main Ave' selected. Below the dropdown is a list of results: '100 Main Ave, Passaic, NJ 07055, USA[Draw Circle At Center]' and '100 N Main Ave, Fallbrook, CA 92028, USA[Draw Circle At Center]'. The second result is highlighted with a red box, and a red arrow points to it with the text 'Click to draw circle around address'. A 'Close' button is at the bottom right.

- **Configure** - To configure what and how event types Incidents, Active Warrants, Court Papers, and Calls for Service are displayed on the map, select the **Configure** icon .

Your search results reflect what you select in the *Basic Configuration* tab.

After making your selections on each tab, click the **Exit Configuration** button to return to the previous screen.

- *Exit Incident Mappings window.* To exit the Incident Mappings window and return to your Home Page, select the **Go Back** icon .
- *Center Map* - To center the Map on the screen, select the **Center Map** icon .
- *Refresh* - Select the refresh icon  to reset the map and query settings.
- *Hide or Unhide Filter Window* - To hide or unhide the Filter Window, select the **Filter Options** button.

Query Window

The screenshot displays the Query Window interface. On the left, there are filters for Date/Time (01/01/2019 1002 to 02/07/2019 1002), Time Slider (0000 HRS to 2400 HRS), Draw Mode (Circle, Draw a Shape, Select Shapes), Display Options (Marker, Cluster, Heat), and Shapes (Ang Test, CADTest, Downtown, Example Shape, LargeCADArea). The central map shows Indianapolis with several incident markers labeled 'Warrant' and 'Field Arrest'. On the right, the 'Events (10)' section shows the 'Current Query' with start and end dates, a query description, and a list of event types. Below this, the 'Field Arrests (1)' section shows details for a specific arrest, including address, arrest number, date, agency, person, and charges. At the bottom right, the 'Active Warrants (9)' section shows details for a specific warrant, including address, state ID, date issued, reference number, agency, person, and address. A red box highlights the 'Export to Excel or print results' link in the 'Field Arrests' section.

From the *Current Query* section of the **Query Window** you have the ability to print or export the search results to an Excel document.

Click the **Zoom On Map** link to zoom to a specific event on the map.

The screenshot shows a zoomed-in view of the 'Field Arrests (1)' section. It displays details for a specific arrest, including address (1001 North East Main Street INDIANAPOLIS, IN), arrest number (1902593), arrest date (02/05/2019 14:33), arresting agency (District 42, Versailles), geographic agency (District 42, Versailles), person (Smith, Billy 3/16/12 - DOB: 09/08/1956 RACE: White), and charges. A red box highlights the 'Zoom On Map' link, which is used to zoom to a specific event on the map.

Anyone with permissions to view warrant locations on the **Incident Map** can also view, print and comment directly from the map to the Warrant. You must enter a Log Date and Time, Action Type and Comment. This will be added to the Warrant Log.

Review Cases	Search Field Contacts
Case Load	

Calls For Service	Field Arrests
Manage Calls	New Field Arrest
Search Calls	Search Field Arrests
	Arrest Delete Log

Approve/Disapprove Incident Report

You can initiate the approval process one of three ways:

- Click on *Pending Approval* in **Recent Activities** section, located on the right side of the home page.
- Directly from the **Notification** when Incident Reports are submitted for approval.

- Directly from the **Incident**.

Note: You can *disapprove* or change the status back to *Initial Status* on approved incidents by way of the Incident Status form. For more information, refer to "Changing Incident Status" on page 276.

Note: If your agency configures *Review Routing*, a *Secondary Review Route* may initiate additional review opportunities after an incident is approved. With Online RMS 11.6 and above, the reviewer may also include Disapproval Comments during *Secondary Review*.

Initiate from Recent Activities

Initiate the incident approval process by clicking on *Pending Approval* under Recent Activities.

The screenshot displays the Online RMS interface. On the right sidebar, under 'Recent Activities', the 'Pending Approval' item is highlighted with a red box and a red arrow. The main content area shows a table of notifications.

Count	Notification Type	Last Notification	Priority
7	APPROVE INCIDENT REPORT - PATROL	11/21/2019 10:24 AM CST	High

Approval/Disapprove Process

After choosing a method to initiate the approval process, the *Incident Approval* screen appears, defaulting on the Summary tab.

The screenshot displays the 'Incident Approval' screen with the 'Summary' tab selected. The top navigation bar includes buttons for 'Exit Report', 'Approval Utilities', 'Approve/Disapprove', 'Quick Print', and 'Print'. Below this, a secondary navigation bar shows tabs for 'Summary', 'Header', 'Offenses', 'Names', 'Property & Vehicles', 'Narratives', 'Attachments', and 'Validations'. The 'Summary' tab is active, showing incident details: 'Incident Summary: 03/06/2019 1435 Hrs - 100 North Main Street BL...', 'Agency: District 42, Versailles', 'Offense(s): 35-45-1-3 - PUBLIC ORDER- DISORDERLY CONDUCT', 'Report #: 2019D4210217', 'Supp #: 0', and 'Total Hours: 0'. Below the summary, there are buttons for 'Add / Edit Disapproval Comments', 'Actions', and a status bar showing '2 Pending Approval' and '1 Initial Report'. The 'Report Header' section contains a table with fields for 'REPORT ID' (3206), 'REPORT SECURITY' (Patrol Officer), and 'REPORT TYPES' (Disturbance). Below this is a 'SUMMARY' section with the text 'Loud music at 2am.' and a table with 'REPORT DATE' (03/06/2019 1435), 'OCCURRENCE DATE START' (03/06/2019 1435), and 'OCCURRENCE DATE END'. The 'ISP' section includes 'GANG INVOLVED' and 'Alcohol Involved Info' with fields for 'ALCOHOL INVOLVED' and 'NUMB'. The 'Additional Information' section is at the bottom.

You can perform various functions, such as check for warnings, search for offense or NIBRS codes, add disapproval comments if applicable, and review the incident report. Supervisors can also edit the incident report providing the agency is setup to allow this function.

Note: If your agency configures *Review Routing*, a *Secondary Review Route* may initiate additional review opportunities after an incident is approved. With Online RMS 11.6 and above, the reviewer may also include Disapproval Comments during *Secondary Review*.

Approval Utilities

Optionally, click on the **Approval Utilities** button on the top right of the page to view *Warnings* and search for offense or NIBRS codes using the *Offense Glossary*.

This screenshot shows the top navigation bar of the application. The 'Approval Utilities' button is highlighted with a red box. Other buttons visible include 'Exit Report', 'Approve/Disapprove', 'Quick Print', 'Print', 'Property & Vehicles', 'Narratives', 'Attachments', and 'Validations'.

Approval Options

Depending on your agency's business practice, supervisors may have various options when approving a report:

- Restricting reports to the internal *Agency Only*. The **Route to External Agency** button is gray when the report is restricted to the internal agency, and green when selected to route to external agencies.
- Click on the **Change Security** button allowing for greater internal security among the users within an agency.
- Choose the **Follow-up Action**.
- Choose the **Status/Disposition**.
 - Your agency administrator has the ability to map *Incident Status* codes to *Offense Status* codes to prevent mismatches. During the approval process, if you set an *Incident Status* to something other than what has been mapped to an *Offense Status*, a message appears disallowing that selection and it prompts you to verify the information and make any necessary changes. Refer to your agency administrator for more information.

Note: The Follow-up/Action option you choose drives what Incident Status/Dispositions are available for selection.

The different options available will depend on the workflow selected for **Case Management** by your agency. The *Notifications to Be Sent* section generates a notification to request a follow-up Case determination in an optional workflow. For more information refer to "Case Management" on page 455.

Make other necessary updates.

Click the **Approve** button to finalize the approval, or click the **Approve and Print** button to finalize the approval and print.

Disapprove

When **Disapprove** is selected, a comments box displays so the supervisor can advise the user of the reason for the disapproval. Enter comments then click the **Submit** button.

Approve or Disapprove Field Arrests

As an Officer Supervisor for your agency, you receive notifications when officers submit **Field Arrests** for approval. You can initiate the approval process one of three ways:

- Click on the new *Notification* link to view the Notification, then click the **Take Action** button to open the **Review Field Arrest** form. For more information on Notifications refer to "Notifications" on page 25.
- Directly from the notification by clicking on the select icon under the Actions column.

Notifications

Approve Field Arrest

Go Back Approve Disapprove Print

Person Information

Approve

Click the **Approve** button on the **Approve Field Arrest** screen, then click **Yes** in the confirmation window to approve.

Message From RMS

Are you sure you want to complete this action? You will be taken away from this page once the Approval is complete.

No Yes

Disapprove

Click the **Disapprove** button on the **Approve Field Arrest** screen, then enter **Comments** and click **Save**.

Disapprove Field Arrest

Disapproving the arrest will send a notification to the creator to make edits.

COMMENT

Need more details in your narrative.

Cancel Save

The creator of the **Field Arrest** will receive a **Disapproved** notification.

Approve or Disapprove Criminal Complaint

Approval Levels

The agency has the option to utilize a 1 or 2 level approval:

1-Level Approval Process

The creator of the complaint sends it to the supervisor for approval.

The supervisor can disapprove and send the complaint back to the creator.

The supervisor approves and submits the complaint data to the court in one action, or approves then submits later.

2-Level Approval Process

The creator of the complaint sends it to the supervisor for approval.

The supervisor can disapprove and send the complaint back to the creator.

The supervisor approves the complaint.

The court officer can disapprove an approved complaint and send the complaint back to the creator.

The court officer submits the approved complaint data to the court.

Level 1 is the default setting. Your agency administrator can elect to turn on the 2-Level Approval Process using the **Maint Value** settings under the *Administration* menu.

For more information on **Maint Value** settings, refer to the Maintenance Values chapter of the *Caliber Online RMS Administrator Guide*.

Approve the Complaint

If you have permissions to approve Criminal Complaints, you receive *Criminal Complaint Approval Request* notifications when users submit Criminal Complaints for approval.

Edit Criminal Complaint

Go Back Print Approve Disapprove

The approval action buttons that appear on the top right of the screen vary based on your permissions, the approval level defined by your agency, and the complaint status.

You may see one or more of the following: **Approve**, **Approve & Submit**, **Submit**, **Disapprove**. Refer to the next step for details.

4. Review the complaint then finalize the approval by following the appropriate approval level defined by your agency:
 - [1-Level Approval Process](#)
 - [2-Level Approval Process](#)

For more information on approval levels, refer to "Approval Levels" on page 441.

For more information on updating the Criminal Complaint, refer to "Edit a Criminal Complaint" on page 320.

1-Level Approval Process

1. The officer supervisor performs one of the following actions:

Approve Approve & Submit Disapprove

- **Approve** - Approve the complaint.

- A brief green *Success* message appears across the top of the screen when the approval is successful. If it is not successful, a red *Failed* message appears across the top.
- Upon success, a **Submit** button replaces **Approve & Submit**, allowing you to submit to the court as a separate step later.
- Upon success, the approval process changes the Criminal Complaint status to *Approved*, and the **Approve** button no longer appears.
- If the Court Case feature is turned on for your agency and the approval is successful, the process generates a Court Case record and displays it on the complaint.

Court Case				
Court Case ID	Court Case Number	Status	Filed Date	Actions
35		Filed	06/23/2020 1026	

Note: The officer manually enters the **Court Case Number** after the Criminal Complaint is submitted and accepted by the court. The court provides the **Court Case Number**.

- **Approve & Submit** - Approve the complaint and submit the data to the court as a single action. For more information on **Submit**, refer to "Submit to Court" on the facing page
- **Disapprove** - Disapprove the complaint. For disapprove instructions, refer to [#disapprove](#).

2-Level Approval Process

1. The officer supervisor receives notification to approve or disapprove the complaint.

- **Approve** - Approve the complaint.
 - A brief green *Success* message appears across the top of the screen when the approval is successful. If it is not successful, a red *Failed* message appears across the top.
 - Upon success, the approval process changes the Criminal Complaint status to *Approved*, and the **Approve** button no longer appears.

- If the Court Case feature is turned on for your agency and the approval is successful, the process generates a Court Case record and displays it on the complaint.

Court Case				
Court Case ID	Court Case Number	Status	Filed Date	Actions
35		Filed	06/23/2020 1026	

Note: The officer manually enters the **Court Case Number** after the Criminal Complaint is submitted and accepted by the court. The court provides the **Court Case Number**.

- **Disapprove** - Disapprove the complaint. For disapprove instructions, refer to [#disapprove](#).
2. If approved by the officer supervisor, the court officer receives notification to submit the data to court. The court officer also has the option to disapprove the approved complaint.

- **Submit** - Submit the complaint data to the court. Refer to "Submit to Court" below.
- **Disapprove** - Disapprove the approved complaint. For disapprove instructions, refer to [#disapprove](#).

Submit to Court

The behavior varies slightly, depending on whether your agency is utilizing **1-Level Approval Process** versus **2-Level Approval Process**.

If your agency is utilizing **1-Level Approval Process**:

1. Click the **Submit** button or **Approve & Submit** button on the complaint, whichever applies to your agency.
 - If submission is **successful**, a brief message appears across the top of your screen in green and the *Submission Status* on the Criminal Complaint changes to *Submitted* automatically.
 - If submission is **unsuccessful**, the *Submission Status* on the Criminal Complaint changes to *Submission Error* automatically. Review and update the Criminal Complaint as needed, then resubmit.

If your agency is utilizing **2-Level Approval Process**:

1. The court officer receives notification to submit the complaint data to the court.
2. Click **Submit** on the complaint.

For more information on the different approval levels, refer to "Approval Levels" on page 441.

Disapprove

1. Click the **Disapprove** button on the *Edit Criminal Complaint* screen, then enter **Comments** and click **Save**.
2. The creator of the Criminal Complaint receives a **Disapproved** notification. The user has the option to take action, including resubmitting for approval.

For more information on users taking action, refer to "Take Action on Disapproved Notifications" on page 331.

Incident Security

The default security for **Incident Reports** is set at the Patrol Officer level. This means anyone with Patrol Officer Security rights and above can access these reports. It is understood that some **Incident Reports** will be of a more sensitive nature and may require a higher security level to minimize the number of users that have access to the report. The security of an **Incident Report** can be done by clicking on **Change Security** from the **Incident Approve/Disapprove** screen.

Report Type	Date	Reporting Officer	Supplement Owner	Approval Status	Security Level	Actions
Original Report	12/13/2018	Christine Saur #SAUR111	Christine Saur	Initial Report	Patrol Officer	 

The **Incident Security** screen can also be accessed at any time through the **Incident Status** screen by clicking on the *Security* icon.

The screenshot shows the 'Incident Report' configuration page. At the top, it displays 'Incident Summary: 03/21/2022 1706 Hrs' and 'Agency: District 42, Versailles'. Below this, there are several sections:

- Supp #**: A text field containing 'Original Report'.
- AGENCY ONLY**: A checkbox that is currently unchecked.
- FOR PUBLIC RELEASE**: A checkbox that is checked, with a red '1' icon and the text 'Applies To All'.
- UPDATE ALL SUPPLEMENTS**: A checkbox that is unchecked, with a red '1' icon.
- Slide the bar up or down to increase or decrease access to the Incident**: A slider control with a red bar on the left (labeled 'Allow') and a green bar on the right (labeled 'Restrict'). A list of security groups is shown in the center: Executive Command, Command Staff, Criminal Investigation Division, Records/Clerical Division, Patrol Supervisor, and Patrol Officer. A vertical scrollbar on the right indicates '152 users have access'.
- DEFAULT SECURITY TEMPLATE**: A checkbox that is unchecked, with a red '1' icon.
- HIDE INCIDENT**: A checkbox that is unchecked, with a red '1' icon.
- RESTRICT ACCESS TO SELECTED SECURITY GROUPS**: A checkbox that is unchecked.
- Search...**: A text field with a dropdown menu showing 'ANGTEST', 'NO AGENCY TEST', 'TEST 2 EXCLUSIVE', and 'Test 42'. Buttons for 'Select All' and 'Select None' are to the right.
- Go Back** and **Save & Exit** buttons are at the bottom.

Agency Only- Selecting this button will restrict the **Incident Report** to users at your agency only.

For Public Release- Clicking the button to turn it gray will cause NOT FOR PUBLIC RELEASE to be printed across the top of the **Incident Report**.

Update All Supplements - Selecting this button updates all supplements you have access to.

Incident Security Levels- A user can set the Incident's security level at a level equal or less than their security rights. This means other users at that level or above would have access to the report across all agencies (unless the *Restrict to Agency Only* is selected).

Security Groups- Available security groups can be selected which will allow any user in the selected group to have access regardless of their individual security level. If *Restrict Access to Selected Security Groups* is selected, the **Incident Report** can only be accessed by members of the selected Security Group.

Default Security Template- When this checkbox is checked, future supplements will have the same security level, workgroups, and agency-only flag as this supplement.

Hide Incident - Only displayed for authorized users. If checked, the incident is not visible except to users within the incident security level.

Incident Management

Assign Supplement

Supervisors can create a *Supplement* to an Incident Report and assign it to another user.

- Click **Assign Supplement** in Incidents menu.
- Search for and select the Incident to which you wish to create the **Supplement**.
- Click **Assign Supplement** at bottom of page.
- Enter the **Reporting Officer** you want to assign.
- Click **Assign Officer** at bottom of page.
- You will be prompted to create a comment for the officer.
- Click **Assign** at the bottom of page.
- The officer will receive a Notification regarding assignment.

Note: Beginning with RMS 11.15, supplements can be assigned from the Incident **Action** menu from the *Summary* tab.

Delete Incident Report

Reports can be deleted by users who have ownership of the report or by Supervisors.

Once a report is selected, the user can delete the report. A confirmation screen appears and users are required to give a reason for the deletion.

A screenshot of a web-based confirmation dialog titled "Delete Incident". The dialog has a light gray header bar with the title. Below the header, the text "Please enter a comment for deletion of 2019D4210218 Supp # 0" is displayed. Underneath this text, the word "COMMENT" is written in blue, followed by a text input field with a red vertical bar on the left side. At the bottom right of the dialog, there are two buttons: a yellow "Cancel" button and a green "Delete" button.

Note: Reports that are deleted are not recoverable from the database.

Incident Status

Users can view the status of a report from this location. The different report statuses are:

- Initial Report
- Pending Approval
- Approved Report
- Disapproved Report

Supervisors can use this section to change the status of a report from *Approved Report* to either *Initial* or *Disapproved* status to allow the user to edit the report. Every change in a report's status is tracked in the **Status History**.

From the Incident Status screen, click on the Change Status icon.

The screenshot shows the Incident Status screen. At the top, there are buttons for 'Go Back' and 'Change Report #'. Below this, the incident summary is displayed: 'Incident Summary: 06/29/2018 2335 Hrs - 500 East Broadway Street Apartmen...' and 'Offense(s): 35-43-2-2 C03 - CRIMINAL TRESPASS- PROPERTY'. The agency is 'District 42, Versailles' and the report number is '2018D4210171'. A table lists the reports:

Report Type	Date	Reporting Officer	Supplement Owner	Approval Status	Security Level	Actions
Original Report	06/29/2018	SERGEANT-CAPTAIN-WIN Greg QA Wright #9696	Homer Simpson	Approved Report	Patrol Officer	[Change Status] [Lock]
Supp #1	09/20/2018	SERGEANT-CAPTAIN-WIN Greg QA Wright #9696	Homer Simpson	Initial Report	Patrol Officer	[Change Status] [Lock]

At the bottom of the table, there is a 'Go Back' button.

The screenshot shows the 'Change Incident Report Status' form. It has the following fields:

- CURRENT STATUS:** Approved Report
- NEW STATUS:** A drop-down menu with '-Select-' selected.
- NOTIFY REPORT OWNER:** A checkbox that is checked.
- REASON FOR CHANGE:** A text area for entering the reason for the change.

At the bottom right, there are 'Cancel' and 'Update Status' buttons.

Select a new status from the drop-down menu and enter the reason for the change, you also have the ability to select to notify the report *Owner of the Status Change*.

Incident Status Log

This area is where users can search for an incident and obtain a *History* of the status changes and/or updates for any report.

Incident Delete Log

Deleted reports are listed in a report log with all the pertinent information for the report, including the required reason for the deletion.

Report #	Supp #	Agency	Deletion Comment	Deleted By	Deleted Date
2017-0014	0	District 42, Versailles	Testing delete	Simpson, Homer	04/19/2017
2012ISP0000019	0	District 42, Versailles	Test	Simpson, Homer	06/21/2012
2012ISP0000021	0	District 42, Versailles	Test	Simpson, Homer	06/21/2012
2012ISP0000022	0	District 42, Versailles	Test	Simpson, Homer	06/21/2012
2012ISP0000020	0	District 42, Versailles	Test	Simpson, Homer	06/21/2012
2012ISP0000023	0	District 42, Versailles	Test	Simpson, Homer	06/21/2012
2012ISP0000018	0	District 42, Versailles	TEST	Simpson, Homer	06/15/2012

Note: Remember that deleted reports cannot be recovered.

Using Charts to Visualize Data

Charts provide a mechanism to users to visualize data in a quick and efficient manner right from the home page. There are two different types of charts we offer

- **Non-interactive** image charts which appear right on the home page,
- A menu of **Interactive** charts which can be accessed on the right side bar.

Home Page Image Charts

These charts are not interactive and are meant to give a very quick summary of data. As of our current release, they include:

- *Offenses - Last 24 Hours*- This is a pie chart which summarizes offense in the last 24 hours. The offenses are grouped according to their NIBRS codes to offer simple cat-

egories such as larceny, assault, etc... Note that this chart's functionality is expanded in the interactive charts Offense Activity and Snap Shot, which are described below.

- **Non-Approved Reports** - This pie chart shows counts of all initial incident reports (Supp 0) which are not approved (i.e. either in initial status, pending approval, or disapproved). A more interactive version is available in the interactive charts, described below.

Above is an example of how the image charts are shown on the Online RMS home page

Interactive Charts

Interactive Charts are accessible from the right side bar of the home screen. Look for the section labeled **Charts**.

Count	Notification Type	Last Notification	Priority
92	INCIDENT APPROVED	02/11/2019 10:28 AM CST	High
11	APPROVE INCIDENT REPORT - CID	02/11/2019 10:26 AM CST	High
3	APPROVE INCIDENT REPORT - PATROL	02/08/2019 01:37 PM CST	High
95	INCIDENT APPROVED - FOLLOW UP CASE DECISION NEEDED	01/31/2019 02:03 PM CST	High
4	INCIDENT REVIEW REQUEST	12/14/2018 06:00 PM CST	High
16	INCIDENT FOLLOW-UP CASE - NEW SUPP FILED	12/11/2018 07:30 AM CST	High
1	INCIDENT FOLLOW-UP CASE - ASSIGNMENT ENDED	11/30/2018 03:03 PM CST	Medium
5	INCIDENT REPORT TRANSFERRED - CLERK	10/24/2018 10:59 PM CST	High
1	INCIDENT REPORT TRANSFERRED	06/19/2018 10:41 AM CST	High
6	INCIDENT FOLLOW-UP CASE TRANSFER - PATROL	05/09/2017 01:53 PM CST	High
10	INCIDENT FOLLOW-UP CASE REQUESTED - CID	05/02/2014 12:10 PM CST	High
3	INCIDENT FOLLOW-UP CASE CLOSED - CID SUPERVISOR	01/22/2014 11:44 AM CST	High
1	INCIDENT FOLLOW-UP CASE TRANSFER - CID	11/14/2013 10:30 AM CST	High

When you click on a chart link, a new tab opens on the home page to display that chart. Click on the X to close the tab.

Some charts have controls such as date ranges to allow you to customize the data you want to see.

Various **Interactive Charts** are available.

- Daily Log by Time Category
- Offense Activity
- Open Field Arrests
- Snap Shot
- Unapproved Incidents
- Calls for Service

Offense Activity

This chart displays offenses, by count, for various date ranges, and even allows you to display offense counts based on the time of day. The **Select a Display** select box allows you to choose what date range you want for visualizing data. It will either display a daily or monthly view depending on which range is selected. For example, the week to date option would show a daily view; however month to date & last month has far too many days to make sense on a graph, so it is shown in a monthly view.

You can also select **Show Results by Time of Day** to change the display to group offenses based on the time of day the occurred. The time of day is split up into four hour intervals starting from midnight.

The **Agency** filter is available for multi-tiered agencies to view events at the top organization level for all agencies, or an individual agency beneath the parent organization.

Regardless of the display you select, results will be shown in color coded *Stacks*, with a legend at the bottom indicating what colors represent what offenses. You can hover the mouse over a particular section to show the offense type & count, and you can click on a

section to bring up a list of actual Incident Reports containing those offenses on that date / time.

When viewing the incidents, you can click on the **Quick Tab** icon in the *Actions* column to open another tab which will give you a summary for that Incident Report. This is similar to the Incident Summary Page, but is presented in a view-only manner to give you quick access to the report.

Open Field Arrests

This bar chart identifies Arrests that are in *Open* or *Pending Review* status.

As a Officer Supervisor you can open the **Field Arrest Chart** and drill down to the details to either approve or disapprove the **Field Arrests**.

Hover your mouse over the blue boxes to see a total count, and click the blue boxes to display details of those counts in the bottom grid.

Click on the icons to the right to *view*  or *review*  an entry in the bottom grid. If an icon does not display, then you do not have access to that function.

- The **View** icon opens the *View Field Arrest* form. For more information on the dis-approval process refer to [ApproveDisapproveFieldArrest.htm](#)

Snapshot

This is a by-the-numbers chart which varies based on what features your agency has access to. Currently it contains the following:

- A count of offenses.
- A count of citations based on the citation type.
- A map showing incident data.

This chart has a **Select a Display** option which allows you to select different date ranges. It is different from other charts in the date range options it presents, as it is only meant to display very recent data.

Unapproved Incidents

This is a more interactive version of the Non-Approved Reports chart featured on the home page. It gives you the option to display only initial incident reports (supplement 0) which are currently not approved (Initial, Disapproved, or Pending Approval), or all supplements not approved. You can click on a section of the chart to bring up a list of the incidents that fall under the category you clicked. You can then use the **Quick Tab** icon in the *Actions* column to view the details of the report.

Calls for Service

You can view CFS event imported from CAD or directly entered via the Online RMS module. The chart provides awareness of activities for shift briefings. Time ranges allow users to view events from a prior shift or particular time frame. Geo-coded events are available for plotting on a map display. You can filter by agency and user groups.

Chapter 23. Case Management

Case Management Overview

Case Management is controlled based on one of three options selected by your agency:

- The approving officer supervisor can create a **Case** and send the notification to the CID supervisor for assignment, or not create a **Case** and not send a notification to the CID supervisor.
 - If a decision to create a **Case** is made, the supervisor creates it and assigns it to a lead investigator, and if appropriate an officer.
 - The supervisor approving the report selects a follow-up action and disposition. An *Incident Approved* notification requesting a *Follow-up Case Decision* is forwarded to a person or persons with a CID Supervisor Role (determined by the agency) for review. The CID Supervisor then reviews the **Incident** and decides to close the **Incident** without further follow-up, or to create a follow-up **Case**, and assign it to an officer.

For information on closing an Incident without a follow-up case, refer to "Close Incident with no Follow-Up Case" on page 474

- All approved Incidents are sent to the CID supervisor for a **Case** creation decision.
- No Case is automatically created and no notification is sent to the CID supervisor. The CID supervisor must manually create any Cases using the Case Management module.

What is the difference between an Incident Report and a Case?

In Online RMS, when a user takes a *Report*, he creates an **Incident Report**. If the type of report written needs follow-up activity, that **Incident** can then be associated with a follow-up **Case** for investigative purposes.

A **Case** is a way to manage the investigative process for one or multiple **Incident Reports**. For example if you have several burglary reports and suspect that all the burglaries are connected, each burglary will have its own **Incident Report** but all the reports can be assigned to one **Case**. This allows anyone investigating the burglaries access to all the information in one location without having to look up the individual reports. Cases can have more than one

officer assigned to them. The officers have the ability to add notes to their cases and can send those notes to their supervisors to keep them updated.

Accessing the Case Management Module

Case Management functions are centrally located under the *Incidents Menu* on top *Navigation Bar*.

Case Management functions can also be accessed from the *Incidents Page*.

The screenshot displays a web interface for incident management. It is organized into several sections:

- Incident Reporting**: Includes links for 'Create New Incident Report', 'Create Supplement to Incident Report', 'View Incident Report', 'SmartSearch', 'Incident Mapping', 'Transfer Incident Report', 'Approve Incident Report', and 'Incident Based Reporting'.
- Incident Management**: Includes links for 'Assign Incident Report', 'Assign Supplement', 'Delete Incident Report', 'Incident Status', 'Incident Status Log', 'Incident Delete Log', and 'Incident Offense Glossary'.
- Case Management** (highlighted with a red border): Includes links for 'Create New Incident Follow-up Case', 'Review Cases', and 'Case Load'.
- Field Contacts**: Includes links for 'Create New Field Contact' and 'Search Field Contacts'.
- Field Arrests**: Includes links for 'New Field Arrest', 'Search Field Arrests', and 'Arrest Delete Log'.
- Calls For Service**: Includes links for 'Manage Calls' and 'Search Calls'.

A 'Go Back' button is located at the bottom right of the interface.

Case Management Form

Pin Case

While viewing or editing a Case record, you can *Pin* it to your Home Page for quick reference.

To *Pin*, click on the green **Pin Case** button located on the top left of the page; the button color then changes from green to gold and the label changes to **Unpin Case**.

To *unpin*, click on the gold **Unpin Case** button.

For more information on pinned records that appear on the Home Page, refer to "Home Page - Prior to RMS 11.12" on page 8.

Case Management Contains Four Tabs

1. Case Information

- Contains detailed information about the case, such as the case number, agency, status, security level, important dates, assigned officers, associated incidents, associated field arrests, associated field contacts, offenses, involved names and organizations, involved warrants, associated LEA cases, and attachments.

2. Case Activities

- The *Case Activities* tab contains activities on the case such as notes made by the officer or investigating officer, status and type of activity performed on the case, important dates, and the hours worked on each activity. You can also assign officers and other information when adding a Case Activity.
- On an existing Case Activity, with appropriate permissions you can request an update from all assigned officers by clicking on an icon.

The screenshot shows the 'Case Activities' tab in the Case Management interface. At the top, there are tabs for 'Case Information', 'Case Activities' (selected), 'Access Log', and 'Case Logs'. Below the tabs, case details are displayed: LEA Case #: 2017D4210140, Agency: District 42, Versailles, Assignment Status: Assign to Patrol, Case Status: Open, and Case Hours: 1.5. A section for 'Case Activities' includes filters for 'More than 5 days', 'Within 5 days', and 'Overdue', along with 'Show All Descriptions' and 'Add Case Activity' buttons. A table lists activities with columns: Activity Type, Status, Activity Date, Assigned Officers, Notify Users, Next Review Date, Activity Description, and Actions. The first row shows a 'Case Note' activity from 11/26/2019 assigned to 'Saur, Christine' with a next review date of 12/10/2019. The 'Actions' column for this activity contains several icons, including one highlighted with a red box and a red arrow. A red text box points to this icon with the message: 'Click to request an update from all assigned officers'. At the bottom, it says 'Showing 1 to 1 of 1 entries' and a 'Go Back' button is present.

The assigned officers receive a *Notification* to update the Case Activity. The Notification appears under the *Notifications* grid on their *Home* page. For more information on Notifications, refer to "Notifications" on page 25.

Notifications				
-Filter By Users-		Search		
Count	Notification Type	Last Notification	Priority	
1	INCIDENT FOLLOW-UP CASE - ACTIVITY UPDATE REQUESTED	07/02/2019 11:04 AM CST	High	
61	EVIDENCE PENDING CHECK-IN	07/01/2019 05:05 PM CST	High	

3. Access Log

- The system automatically logs when the case is viewed or updated. The log captures the user's name, agency, and the date it occurred. The *Access Log* tab displays those log entries in a read-only format.

Activity Type	Date	Activity User	First Name	Last Name	Agency Name
View	11/26/2019 1542 HRS	CSAUR	Christine	Saur	District 42, Versailles
View	11/26/2019 1427 HRS	CSAUR	Christine	Saur	District 42, Versailles
View	11/21/2019 1640 HRS	CSAUR	Christine	Saur	District 42, Versailles

4. Case Logs

- Activity that occurs on the case.

Log Type	Notification Type	Activity Type	Created By	Creator Date	Sent To	Comments
Activity Hours Update	N/A	Case Note	Saur, Christine	11/26/2019 1546	N/A	Hours for Case Note on 11/26/2019 1542 changed from 1.5 to 1.5
Activity Hours Update	N/A	Case Note	Saur, Christine	11/26/2019 1543	N/A	Hours for Case Note on 11/26/2019 1542 changed from 0 to 1.5

Create a Follow-Up Case

Multiple methods are available in creating a follow-up Case, depending on your permissions:

- From the initial unapproved Incident, investigators can create a case to begin working on an investigation without waiting for Incident approval.
- During the Incident review process. Incidents can be reviewed during the approval process, from a Notification, or from the Follow-Up Needed link under Recent Activities.

For information on the Incident approval process, refer to "Approve/Disapprove Incident Report" on page 427.

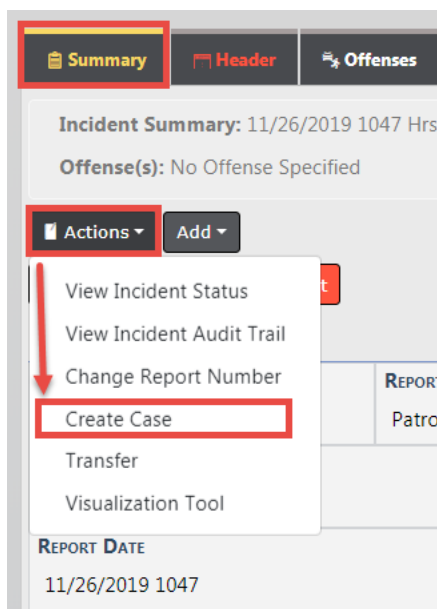

- From the Case Management menu.

For information on accessing Case Management, refer to the *Access Case Management Module* section of [CaseManagementOverview.htm](#).

Initiate from the Initial Unapproved Incident Report

Create an investigative case directly from an initial unapproved Incident report. You must have the permission *Create Case from Unapproved Incident* to access this feature. Refer to your agency administrator for details.

1. On the initial unapproved Incident report, click the **Action** button from the Summary tab, then select **Create Case** from the drop-down menu.

2. The *Add Case* screen appears. Enter the Case data then save. For more information on entering data, refer to "Enter Case Data" on page 463

Initiate through Incident Review

1. Create a Case while reviewing the Incident. Review the Incident by choosing one of the following methods:
 - From the Approval Process

- The supervisor selects an **Incident Follow-up Action** of either *Follow-up Patrol*, *Follow-up CID*, or *Suspend/Pending Further Info*.

Incident Summary: 09/19/2017 1212 Hrs - 200 Main Apartment #... Agency: District 42, Versailles
 Offense(s): 15-17-18-6 - AGRICULTURE/ANIMAL- IMPORT DISEAS... Report #: 2017D4210126 Supp #: 0

- The *Add Case* screen appears. Enter the Case data then save. For more information on entering data, refer to "Enter Case Data" on the facing page

Initiate from the Case Management Menu

1. Create a Follow-Up Case from the Case Management Menu.

For additional methods of accessing the Case Management menu, refer to the *Access Case Management Module* section of [CaseManagementOverview.htm](#)

2. The *Add Case* screen appears. Enter the Case data then save. For more information on entering data, refer to "Enter Case Data" below

Enter Case Data

You can enter Case data when you create a new Case or update an existing Case.

1. If you are creating a new Case, initiate a new Case Follow-Up by using an available method. For details on the available methods, refer to "Create a Follow-Up Case" on page 459.

The *Add Case* page appears.

Enter necessary data then click the **Save** button to open the *Edit Case* screen.

2. If you are updating an existing Case, search for the Case then choose update to open the *Edit Case* screen. For more information on searching for and updating a Case, refer to "Review Cases" on page 478
3. The *Edit Case* screen contains four tabs: Case Information, Case Activities, Access Log, Case Logs. The *Case Information* tab opens by default. For general information about the four tabs, refer to "Case Management Overview" on page 455.

Note: While viewing or editing, you can *Pin* the Case at anytime to add it to your Home Page for quick reference. For more information, refer to "Case Management Overview" on page 455.

Note: You can print a report wherever the print icon  or print button  displays. For details, refer to "Print Case" on page 494.

4. Select an **Assignment Status** which allows the assignment of the case to either Patrol or CID. A **Case Status** must also be chosen. Set a **Solvability** to the Case, set an **Next Update Due**, and add a **Comment**.
5. The **LEA Case #** generates automatically. If you chose to change the **LEA Case #**, select the **Change LEA Case#** button, select an existing Incident Report number when prompted, then click **OK**.
6. The CID Supervisor has the ability to change the security level of the Case by clicking on the **Change Security** button to open the *Edit Case Security* screen. After changes are made, click **Save** to return to the *Edit Case* screen.

For more information on setting the security level, refer to "Set Case Security Level" on page 473.

7. Next, the CID Supervisor will select the **Solvability** of the Case from the drop-down.

8. The CID Supervisor has the ability to change the **Next Update Due** date. The default is 60 days.
9. Next is the **Assignment Status**. The selections available vary by agency.
10. Next, the CID Supervisor will choose the **Case Status** from the drop-down selection.
11. The CID Supervisor has the ability to hover over the information bubble near the **Case Access Users** to see all the individuals who have access to the Case. If the CID Supervisor chooses to change the **Security level** of the case, they will select the **Change Security** button and select the security level to which they feel appropriate for the Case. Remember, if a patrol officer is assigned to the Case and Case is set at the *Criminal Investigations Division*, the Patrol Officer will not be able to access the Case.
12. Each Officer and Supervisor assigned to the Case has the ability to log the Case hours by using the **Case Hours** fields. After selecting the appropriate hours, select **Update Case Hours**.
13. Finish completing the upper section of the Case, then select the **Update** button.

Note: There are icons located under the *Actions* column throughout the remaining sections of the Case. Hover your mouse over each icon for a description of what each one does: Review incident security/status, view incident, create a new supplement, associate an incident, print, and delete.

14. Page down to the *Assigned Officer(s)* section. Click on the **Assign Officer** link to assign an officer.

Assigned Officer(s)

Note: One Lead Investigator Officer is required.  Assign Officer

Note: One Lead Investigator Officer is required. The CID Supervisor must assign a Lead Incident Officer.

For more information on assigning officers, refer to [#AssignCaseOfficer](#).

15. When at least one officer is assigned, a **View Assignment History** link appears in the *Assigned Officer(s)* section.

Assigned Officer(s)

 View Assignment History

Close Save

Or, you can schedule an individual property record by clicking the Schedule Disposition Date icon  under the *Actions* column on a specific Involved Property record, enter a **Disposition Date** and **Comment** when prompted, then click **Save**.

- Check each evidence/held property record that applies, or check the box on the upper left to select all.
- Enter the **Disposition Date** and **Comments**.

- d. Check the **Notify Evidence Custodians** box, if applicable.
 - e. Click **Save**.
22. Involved Warrants appear in the **Involved Warrants** section as read-only.
 23. Click the **Associate LEA Case** link to associate LEA Cases.
 24. Attach a form in the **Attached Forms** section by selecting from the list.
 25. Click the **Add Attachment** link to add attachments to the Attachments section. Attachments can be photos or documents.

Assign Officer to Case

1. To **Assign** an officer to the Case, click the **Assign Lead Incident Officer** or **Assign Officer** link.
 - The **Assign Lead Incident Officer** link only appears when a lead Incident officer has not yet been assigned. It defaults the case to the officer who created the incident report. That officer can then be assigned to the case as the lead or as an assisting officer.
 - The **Assign Lead Incident Officer** link directly assigns the reporting officer to the case and the supervisor selects their role.
2. If the **Assign Officer** link is used, choose from a list of officers to assign to the case. Click the select icon  to choose an officer from the results list.

Search

2. Search for the Incident and select it from the results grid. For more information on searching for Incidents, refer to "View Incident Reports" on page 265.
3. The selected Incident Report appears in the *Associated Incidents(s)* grid of the Case.

Associate a Field Arrest

1. To associate a Field Arrest to the Case, click the **Associate Field Arrest** link.

Associated Field Arrests	Associate Field Arrest
Associated Field Contacts	Associate Field Contact

2. A *Field Arrest Search* screen appears.

3. Search for the Field Arrest you want to associate to the Case. For details on searching for a Field Arrest, refer to "Search Field Arrests" on page 358.
4. Select the appropriate Field Arrest from the results grid by clicking on select icon  in the *Actions* column. The selected Field Arrest then appears under the *Associated Field Arrests* section of the Case.

Associate a Field Contact

1. To associate a Field Contact to the Case, click on the **Associate Field Contact** link.

2. A *Field Contact Search* screen appears.
3. Search for the Field Contact you want to associate to the Case. For more information on searching for a Field Contact, refer to "Search for a Field Contact" on page 410.
4. Select the appropriate Field Contact from the results grid by clicking on select icon  in the *Actions* column.
5. A warning message appears informing you that by associating the Field Contact to the Case, limited access to the Field Contact occurs. Only users with access to the Case are able to view or edit the Field Contact. Click **No** to return to the Case without associating the Field Contact, or click **Yes** to associate the Field Contact to the Case.

6. If you chose **Yes**, the selected Field Contact then appears under the *Associated Field Contacts* section of the Case.

Set Case Security Level

1. To set the **Security Level** of the Case go to the top of the Case Information tab. Click the **Change Security** button to display the *Security Setting* screen.

The screenshot shows the 'Case Information' tab with the 'Change Security' button highlighted. Below this, the 'Security Setting' screen is displayed. It includes fields for 'LEA Case #', 'AGENCY', 'ASSIGNMENT STATUS', 'SECURITY LEVEL', 'SOLVABILITY', and 'CASE STATUS'. The 'SECURITY LEVEL' is currently set to 'Patrol Supervisor'. Below these fields, there is a section for 'Case Access Levels' with a vertical slider bar. The slider is currently at the 'Allow' level, and the text '141 users have access' is displayed. To the right of the slider, there is a list of users with access: Executive Command, Command Staff, Criminal Investigation Division, Records/Clerical Division, Patrol Supervisor, and Patrol Officer. Below the list, there is a checkbox for 'AGENCY ONLY' which is currently unchecked. At the bottom, there are 'Go Back' and 'Save' buttons.

The CID Supervisor only has the ability to restrict up to the level of *Criminal Investigations Division*. If they restrict further, they would not have access to the Case. At this point, the CID Supervisor has the ability to see what users have access to the Case.

2. To adjust the security slide the bar up or down that is located just left of the **Case Access Level**. Sliding the bar up will allow more users access to the case, sliding the bar down will restrict access. Security can further be adjusted by assigning the case to a **Security Group**. Anyone within the **Case Access Level** box, and persons included in the **Security Group**, will have access to the case. If the box located below the **Security Group** is checked, this will restrict access to only persons in the **Security Group** and the officer assigned to the case.

Note: If the user making the assignment is not part of the **Security Group** they will not have access to the case if the **Restrict Access** box is checked.

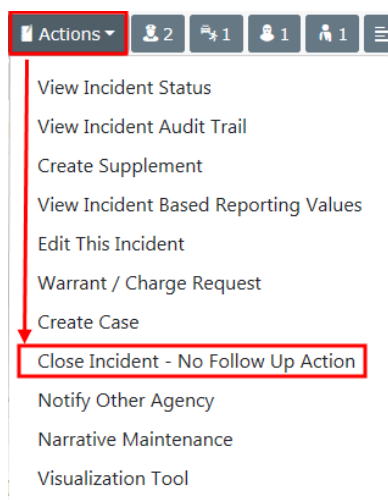

3. Click the **Save** button.

Ensure that person(s) who are not supposed to have access to the incident report cannot access the report; the incident security must be set. Associating a report to a “Case” which has restricted access will NOT restrict access to any incident report associated with that case. The incident report security has been restricted as well if you want to secure the incident report access. Incident security can be set at the time of approval of the report or by the USER reviewing the incident report. The supervisor reviewing the “incident report” cannot restrict access above his level. This prevents anyone from “locking” themselves out of the report.

The Lead Investigator along with the CID Supervisor needs to remember that if the Case security is changed, it does not automatically change the security of the associated Incident Report. The Lead Investigator and/or CID Supervisor must also change the security of the Incident Report if deemed appropriate.

Close Incident with no Follow-Up Case

To close an incident from the review process with no **Follow-up Case** needed, the CID Supervisor selects the **Close Incident - No Follow Up Action** menu option from the **Actions** button.

A window appears where the **Incident Disposition** is selected from a list, then select the **Close** button to close the incident with no case follow-up.

The CID Supervisor can also keep an Incident, but not create a **Case**:

When the CID Supervisor decides a **Case** should not be created for the Incident, they select *Closed-No Action* for the **Follow-up Action** and select the reason for the **Incident Status/Disposition**. Select an **Incident Status**. The report can then be approved by selecting the **Approve** button.

For more information on the Incident approval process, refer to "Approve/Disapprove Incident Report" on page 427.

Note: While viewing or editing, you can *Pin* the Case at anytime to add it to your Home Page for quick reference. For more information, refer to "Case Management Overview" on page 455.

Review Cases

You can search for and review selected Cases to which you have permissions. Review mode provides read-only details of the Case and a data summary of each module to which the Case is linked:

- Assigned Officers
- Incidents
- Associated Field Arrests
- Offenses
- Involved Names and Organizations
- Involved Vehicles
- Involved Warrants

Note: While Review mode is read-only, you have the option to toggle to edit mode to apply updates.

To review the Case:

1. From the **Incidents** menu, select **Case Management**, then **Review Cases** to open the *Case Search* screen.

2. Enter the search criteria. The *Additional Search Criteria* drop-down box provides more search options such as, *Field Contacts* and others.

3. Click **Search** to open the *Search Results* page listing the records that match your search criteria.

 Case Incidents

- Optionally make additional changes or page down and add officers, narratives, and other information to the Case Activity.

When adding officers, you can assign yourself as the officer, add an officer group, or assign one officer by clicking on the respective link.

- Custom Field** support allows agencies to capture custom data by adding agency specific data elements, such as text fields, list of values, checkboxes, etc. The **Custom Field** feature must be enabled for it to be available.

For more information on adding information to the Case Activity, refer to "Update Case Activity" below.

Update Case Activity

You can update a Case Activity by using one of three methods:

- From the **Case Activity** tab of an existing Case.

For more information on searching and selecting a Case, refer to "Review Cases" on page 478.

- From the **My Case Activities** link under the *Recent Activities* section on your *Home* page. You must be associated with at least one existing Case Activity for the link to appear.

For more information on **My Case Activities**, refer to "Show My Case Activities" on page 492.

- When creating a new Case Activity.

For more information on creating a Case Activity, refer to "Create Case Activity" on page 481.

1. Open the *Edit Case Activity* page of the Case Activity you want to update, using one of the methods mentioned above.

The screenshot shows the 'Edit Case Activity' page. At the top, it displays case information: LEA Case #: 00000143CASE2017, Agency: District 42, Versailles, Assignment Status: Assign to Patrol, Case Status: Open, and Case Hours: 0. Below this, there are several input fields: Activity Date (11/27/2019 1255), Activity Type (Case Note), Hours Spent (0.0), Add Hours, Start Date, End Date, Next Review Date (12/11/2019), Priority (-Select-), and Status (-Select-). There is a 'Set Next Default Date' button. Below these fields is a large text area for 'Activity Description'. At the bottom of the form, there are buttons for 'Go Back', 'Notify User/Supervisor', and 'Update Activity'. Below the form, there are sections for 'Assigned Officers', 'Narratives', 'Attached Forms', and 'Case Incidents', each with a corresponding '+ Add' button.

Make the necessary changes to the top section then click the **Update Activity** button to save.

2. To notify specific users of the case update, click the **Notify User/Supervisor** button to open the *Notify User/Supervisor* form.

The screenshot shows the 'Notify User/Supervisor' form. It has a title bar 'Notify User/Supervisor'. Below the title bar, there is a 'USERS' section with a search bar containing 'Saur, Christine'. Below the search bar is a 'COMMENT' section with a text area containing 'Setting up a test case.' At the bottom right of the form, there are two buttons: 'Cancel' and 'Send'.

Select one or more **Users** to notify and type a **Comment**.

Click **Send** to send a Notification message to the selected users informing them of the case update. The notification appears on the users home page under Notifications.

Count	Notification Type	Last Notification	Priority
2	INCIDENT FOLLOW-UP CASE - ACTIVITY UPDATED	11/27/2019 02:12 PM CST	High

For more information on notifications, refer to "Notifications" on page 25.

3. In the Officer section, optionally click the **Assign Myself** link to add yourself as the officer, click on the **Assign Officer Group** link to assign two or more officers, or click on the **Assign Officer** link to add one officer.
4. Optionally, click the **Add Narrative** link to add a Narrative.

Give the Narrative a **Title** and enter your comments using the available format options. The system auto-saves the Narrative every sixty seconds in the event the connection is lost or the computer becomes unusable.

The screenshot displays the 'Narrative' tab in the Caliber Public Safety software. At the top, there are buttons for 'Go Back' and 'Print'. Below these, case information is shown: 'LEA Case #: 00000143CASE2017', 'Assignment Status: Assign to Patrol', 'Case Hours: 0', 'Agency: District 42, Versailles', and 'Case Status: Open'. The main area is titled 'TITLE' and contains a text box with the placeholder text 'Test Case Activity Narrative'. Below the text box is a rich text editor toolbar with various icons for text formatting (bold, italic, underline, strikethrough, bulleted list, numbered list, indent, outdent, link, unlink, image, table, table of contents, undo, redo, search, find and replace, link, unlink, image, table, table of contents, undo, redo, search, find and replace). The text box contains the text 'This is an example of a narrative. You can format the text by using the above formatting options.' At the bottom of the text box, there is a status bar showing 'body' and 'Images 0/15'. Below the text box are 'Go Back' and 'Save' buttons.

You can use the formatting icons to customize the layout of your narrative. The built-in *Spelling and Grammar Checker* identifies mistakes and corrects them as you type.

You can *insert an image* by clicking on the **Image** icon.

Note: For more information on Narratives, refer to "Narrative Tab" on page 240.

Note: You have the ability to reference the Case Activity Narrative on the Incident Narrative using the Quick Reference icon. For more information, refer to "Narrative Tab" on page 240.

Optionally, click the **Print** button to print the current narrative. For more information on Case printing, refer to "Print Case" on page 494.

Click the **Save** button when you are finished, then click **Go Back** to return to the Case Activity.

Narratives				+ Add Narrative
Title	Created By	Date Of Info	Actions	
Test Case Activity Narrative	Christine Saur	06/27/2019 12:42	  	

With proper permissions, you can view, edit, or delete the Narrative by clicking on the respective icons in the *Actions* column.

- With proper permissions, you can create a Supplement to a Case Incident that appears in the grid. Click on the **Create Supplement** icon.

Case Incidents

The *Next Review Date* column uses color indicators that quickly identifies cases with upcoming review dates, or have surpassed the next review date.

Activity Date	Next Review Date
11/27/2019 1255	12/11/2019 ●

3. With appropriate permissions, you can view or edit your Case Activities. Click on the view or edit icon that appears in the *Actions* column, respectively.

Note: You can edit the Case Activity even when the status is set to Complete.

For more information on updating the Case Activity, refer to [UpdateCaseActivity.htm](#).

Print Case

You can print a report wherever the print icon  or print button  displays.

Differences between the print icon and print button:

- 
 - Generates a PDF document in a new tab that you can either send to the printer or save to a file.
 - Additional print options are not available.
- 
 - May display additional *Print and Report Options* that allows you to include or exclude various information on the report.

Note: In some instances, such as on the *Case Activity Narrative*, this button generates a PDF document without providing additional print options.

2. Enter a custom **Report Title** if you wish.
3. Click **Print** when finished making your selections.
4. A PDF document appears in a new tab. Either print directly to the printer or save to a file.

Chapter 24. Evidence/Property Mgmt Module

Evidence/Property Mgmt Module Overview

The **Evidence/Property Management Module** captures descriptive information about property that is introduced as Evidence or Held Property. This property can be associated with incidents, cases, offense, and other system modules. Unlimited multimedia files and documents (receipts, court documents, etc.) can be associated.

Property must exist in the *Master Property Index* for it to be introduced as evidence or held property. For information on Master Indices, refer to "Master Indices Overview" on page 83.

The evidence custodian is responsible for tracking evidence or held property after an officer has placed it in one of the temporary storage locations. The evidence custodian typically takes the property from the temporary location and places it in a more permanent location in the agency's evidence or held property room. Any user with appropriate permissions can dispose evidence. Every action taken with a piece of property can be tracked in the Online RMS **Evidence/Property Management Module**.

Other available features:

- A full *Chain of Custody* log is captured and can be searched.
- The system supports bar code reader for easy *check-in* and *checkout*.
- *Mass Checkout* can be performed when there are many pieces of evidence or held property associated with the same incident.
- Evidence *Disposition* and *Disposal* are tracked by the system.

Check-In From Notification

The first step in taking ownership of a piece of evidence or held property is to complete a **Check-In**. This can be accomplished by taking *Action* on the system generated **Notification** which is the most common process. The **Check-In** process is also available within the **Evidence/Property Management Module**. For more information refer to "Check-In" on page 505.

Click on the Select icon  to **Take Action**.

Evidence / Held Property Processing

[Signature](#)

[Go Back](#) [Save](#)

The **Description** and **Comments** can be edited by the custodian, and **Evidence Processing** can also be added.

Select the **Location** and make any other necessary changes.

Click the **Signature** button to sign if needed, or click **Save** to take the action. The Notification no longer appears on the *Home* screen.

Evidence/Property Mgmt Access

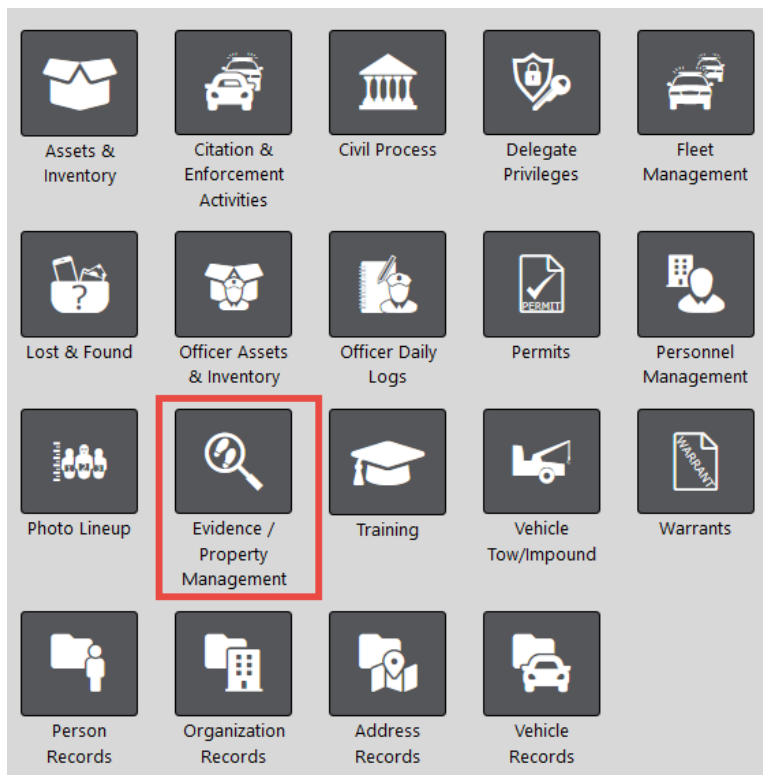

There are various access points to Evidence/Property Management functions, depending on your permissions:

- To open *Evidence/Property Management*, click on the **Records Management** top menu, then click on the **Evidence/Property Management** sub-menu.

Or, click on the **Records Management** top menu, click **Records Management** again, then click **Evidence/Property Management**.

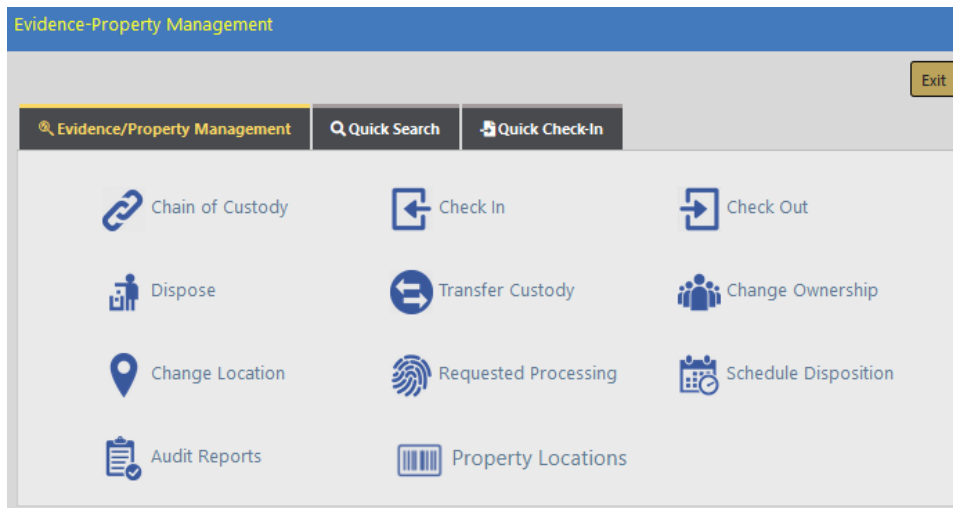

For more information, refer to "Evidence/Property Management Landing Page" on the facing page.

- To quickly create a Master Property Index record for held property, click on the **Records Management** top menu, then click on the **Create Held Property** sub-menu.

Note: This option is only available to users with the *Evidence - Create Held Property* permission.

The *Add Property* form opens. For detailed instructions, refer to "Adding Property" on page 118.

Evidence/Property Management Landing Page

The *Evidence/Property Management* landing page contains three tabs:

- Evidence/Property Management
 - Contains a link to all the property management functions. The *Evidence-Property Management* screen defaults to this tab.
- Quick Search
 - Allows you to search property records by **System ID**, **Incident Report #**, or both. Additional search options include **Officer First Name**, **Officer Last Name**, and **Officer Badge #**. You must fill in at least one. (Name search is available in other searches as well, not just Quick Search.)
- Quick Check-In
 - Allows you to **Check In** property quickly by using the barcoded **System ID** and **Location Code**.

For details on accessing the *Evidence/Property Management* module, refer to "Evidence/Property Mgmt Access" on page 499.

Evidence/Property Management Tab

The *Evidence/Property Management* tab contains several links.

For details on accessing the *Evidence/Property Management* module, refer to "Evidence/Property Mgmt Access" on page 499.

Chain of Custody

This screen has a wide range of functionality. The evidence custodian can search using any of these fields (fields may change and offer drop-down selections based on category selection):

CHECKED IN BY:

Choose the **Type** from the drop-down list.

Choose the **Location** from the drop-down list.

Note: The **Location** values are filtered based on whether the item is evidence or held property.

Add a **Description** and **Comment** for each item as required.

If you wish, you can also add additional evidence items to the **Check In** list by clicking on the **Add Evidence** button on the top right of the screen. The **Add Evidence / Held Property** button takes you back to the *Evidence/Held Property - Check In* screen. Follow the same process as above to search and select the Evidence you want to add then click **Continue**. The additional Evidence is then added to the **Check In** list.

Make other changes if needed, then click the **Signature** button to sign if necessary.

Note: RMS now supports dual to/from signatures for both parties involved in evidence transfers (where applicable). A user may also configure a PIN (Personal Identification Number) by editing their profile and then entering a PIN to enter their signature. Only the person whose PIN is being created may log in and create their PIN.

Click **Save** to save your changes and remain on the page to print **Receipts, Labels, or Chain of Custody**. For details, refer to "Print Labels, Chain of Custody, Receipts" on page 529.

Click **Save & Exit** to save your changes and exit the page.

Note: If you are not in a *Multi-tier Organization*, the **Status** will default to *Check-In* and the **Location** will default to the previously checked in location, if it exists.

Note: An *Evidence Custodian* taking action on an *Evidence Pending Check-In* notification will default the **Location** to the previously checked in location, if the **Status** is set to *Check-In*.

Note: Qualified administrators may set the *EVIDENCE_DELETE_FROM_INCIDENT* maintenance value from Y to N. Set to **Y** to delete evidence when property is deleted from an incident. Set to **N** to maintain the evidence record when property is removed from the incident.

Check-Out

The **Check-Out** link will allow the user to search for property to **Check-Out**. The **Status** of the property must be *Checked-In* or *Check-out* to take this action.

Once the item is located and selected, you can document the person it is going to and the destination.

Select a **Category** and enter other search criteria. The fields below the Category change based on your Category selection.

Click **Search**. Or if you are equipped with a barcode scanner, click the **Barcode Search** button to search records by scanning the barcode.

The *Check Out Search Results* screen appears.

The additional records are then added to the **Change Ownership** list.

Click the **Signature** button to sign if necessary.

Click **Save** to save your changes and remain on the page to print **Receipts**, **Labels**, or **Chain of Custody**. For details, refer to "Print Labels, Chain of Custody, Receipts" on page 529.

Click **Save & Exit** to save your changes and exit the page.

Change Location

The Evidence Custodian can use this link to show evidence or held property movement from one place to another. The **Status** of the evidence or held property must be *Checked-In* or *Check-out* to take this action. An example would be moving evidence from one shelf to another within the evidence or held property room. Another example would be consolidating evidence in temporary lockers to make lockers accessible for more evidence or held property.

Click on the **Change Location** link on the **Evidence/Property Management** page to display the *Evidence - Held Property Search - Change Location* screen.

DISPOSITION COMMENTS

Go Back Save Save & Exit

Choose **Disposition Date** from the drop-down list and enter **Disposition Comments**.

If you wish, you can also add additional evidence or held property to the **Scheduled Disposition** list by clicking on the **Add Evidence/Held Property** button on the top right of the screen to open the *Evidence - Held Property Search Scheduled Disposition* screen. Follow the same process as above to search and select the evidence or held property you want to add, then click the **Continue** button. The additional records are then added to the **Scheduled Disposition** list.

Note: RMS now supports searching for evidence associated to incidents that are past the statute of limitations. The statute of limitations is configurable by users with appropriate permissions in RMS Administration>Tables>State Offense Codes (or in NIBRS). Where a piece of evidence is associated to multiple incidents/offenses, the "younger" of the incidents/offenses determines the search result returned.

Audit Reports

Audit Reports allows Evidence Custodians to perform self-audits of their agency's evidence or held property vault. Perform audits at any time.

Click on **Audit Reports** from the **Property Management** home window to display the available reports.

The screenshot shows the 'Generated Audits' tab selected. At the top right is a 'Go Back' button. Below the tabs, there is a 'Show' dropdown set to '10' and a search bar. The table has columns: Report #, Audit By, Audit Date, Finalized Date, and Actions. The Actions column contains icons for viewing, editing, and deleting each report. At the bottom, it says 'Showing 1 to 10 of 14 entries' and has pagination controls for 'Previous', '1', '2', and 'Next'.

Report #	Audit By	Audit Date	Finalized Date	Actions

- Complete the fields.
- Click **Save**.

Quick Search Tab

This option works the same way as the **Evidence - Held Property Search**. The process, however, is shortened by using a scanner and barcode system.

The screenshot shows the 'Quick Search' tab selected in the 'Evidence/Property Management' module. It features two input fields: 'SYSTEM ID' and 'INCIDENT REPORT #'. Below these fields are 'Reset' and 'Search' buttons. An 'Exit' button is located in the top right corner.

Quick Check-In Tab

This option works the same way the **Check-In** link works. The process, however, is shortened by using a scanner and barcode system.

The screenshot shows the 'Quick Check-In' tab. It contains a table with columns: System ID, Type, Agency, Property Information, Custody From, Location, Description, and Actions. Two rows are visible, one for System ID 829 and another for 820. Below the table, there are fields for 'AGENCY' (District 42, Versailles), 'Custody Date / Time' (04/09/2021 1602), 'Checked In By' (Saur, Christine, ID# SAUR111), and a 'Check In Comment' text area. At the bottom, there is a 'Signature' field and buttons for 'Go Back', 'Save', and 'Save & Exit'.

Print Labels, Chain of Custody, Receipts

The **Evidence/Property Management Module** provides the ability to print the chain of custody, label, or receipt by clicking on the respective button when available:

Three buttons are displayed: 'Print Chain of Custody', 'Print Label', and 'Print Receipt'.

For more information on the Evidence/Property Management Module, refer to "Evidence/Property Mgmt Module Overview" on page 497.

Print Chain of Custody

Click on the Chain of Custody button to open the chain of custody in a new tab in the browser.

Chapter 25. Barcode Search Process

Barcode Search Process Overview

The **Barcode Search** feature allows you to input multiple items into the **Evidence/Property Management Module** automatically by scanning the barcode label through the Property Management menu.

Access the scanning process through applicable links on the *Property Management* menu. For instructions on accessing the *Evidence/Property Management* menu, refer to "Evidence/Property Mgmt Access" on page 499.

Click on one of the links to open the respective *Search* screen, then click on the **Barcode Search** button on the top right.

Click the **Start Scanning** link to start the process of scanning each label. As each label is scanned there will be a beep from the system and a listing of the item will appear on the screen in the grid. You can delete a particular item if needed.

When you are finished scanning, click the **Stop Scanning** icon and select the **Continue** button.

The system then continues to function as described in the "Evidence/Property Mgmt Access" on page 499 section.

Click **Save** to save your changes and remain on the page.

Click **Save & Exit** to save your changes and exit the page.

Location Barcode Report

This link allows the Evidence Custodian to print a report showing the evidence and held property locations in the evidence room, along with a corresponding **Barcode**. This allows agencies to scan the location with a barcode scanner rather than select it from the **List of Values** (LOV).

Mega Menu

When viewing the Chain of Custody for any piece of evidence or held property, there is a **Mega Menu** to the top left. Evidence Custodians can use this menu to take action and change the **Status** of the item without leaving the window. The *Actions* available will be shown based on the **Current Status** of the evidence or held property.

Click on the **Mega Menu** button to display a drop-down of items from which to choose.

Choices available under the **Mega Menu** vary depending on the evidence **Current Status**.

Create Evidence or Held Property without An Incident Report

Officers can create property and indicate that the property is also evidence or held property without creating an incident report with appropriate permissions. This functionality is not a part of the default setup but can be requested by an agency administrator if desired.

To create evidence or held property without an incident report, the officer navigates to **Master Indices**, selects the *Property Tab*, then clicks the **Add Property** hyperlink. For information on accessing **Master Indices**, refer to "Master Indices" on page 83.

Click the **Category** to display additional fields specific to that Category to describe the property in more detail.

Chapter 26. Officer Daily Log

Officer Daily Log (ODL) Overview

The **Daily Log** summarizes the officer's activities during their shift, such as assignments, issued equipment, report assignments and filings, and other activities. The officer can enter data as needed, and specific actions, such as creating incident reports, are automatically captured in the log by the system.

As an officer, you can access your existing current log from the *Home Page* by clicking on your user name in the upper right corner, then click **Daily Log** (notice the current log number also displays).

If a Daily Log has not yet been created, a **[New Daily Log]** option appears on the menu instead of the exiting Daily Log that contains a number. Click on **[New Daily Log]** to create.

Note: For instructions on creating a new Daily Log, refer to "Create New Log" on the facing page.

Note: Once closed, the **Officer Daily Logs** are maintained in *Records Management*. Before a supervisor posts an officer's log, it can be viewed, edited or deleted by the owner of the log. After Supervisors post the logs, the log can be viewed as needed under *Records Management*. A supervisor can un-post a log using the **Un-Post** feature to allow log corrections or modifications.

There are two tabs in the **Officer Daily Log**:

- Assignment Information
- Activity Log

Create New Log

You can create a new Daily Log from the *Home* page by clicking on your user name in the upper right corner, then click **New Daily Log**.

A *Shift Start Time* window opens, defaulting to the current date and time. Change the date and time if needed, then click **OK**.

A screenshot of a 'Shift Start Time' window. The window has a title bar 'Shift Start Time'. Below the title bar, there is a section labeled 'SHIFT START TIME'. Inside this section, there is a text input field containing the date and time '05/20/2021 1038'. To the right of the input field is a calendar icon. At the bottom right of the window is a green 'Ok' button.

An *Assignment Information* form appears. Enter the appropriate information in the fields provided.

The screenshot shows the 'Assignment Information' form. At the top right are buttons for 'Exit Log', 'Help / Tips', and 'Close Log'. The form is divided into several sections:

- Assignment Information:** Contains fields for 'DAILY #' (with a 'New' button), 'STATUS' (with a 'New' button), 'ASSIGNMENT' (a dropdown menu showing '-Select-'), 'DATE' (with a calendar icon and '05/20/2021'), and 'SHIFT' (a dropdown menu showing '-Select-').
- NOTES:** A large text area for entering notes.
- REPORTING AREAS:** A section with a 'Click To Select' dropdown.
- Officers:** A table with columns 'Badge #', 'Name', 'On Time', 'Off Time', and 'Actions'. It includes an '+ Add Officer' button. One officer is listed: SAUR111, Saur, Christine, 05/20/2021 10:38.
- Vehicles:** A section with a '+ Add Vehicle' button. It shows 'No Vehicles Added'.
- Equipment:** A section with a '+ Add Equipment' button. It shows 'No Equipment Added'.

At the bottom of the form is a green 'Save & Continue' button.

- The **Daily#** generates a number for you systematically after saving the form.
- The **Status** defaults to *New*.
- Select **Assignment** and **Shift** from the drop-down lists.
- Enter any **Notes** and select the **Reporting Area**.
- Complete the Officers, Vehicles, Equipment sections as needed.

Note: For more information on *Assignment Information*, refer to [AssignmentTab.htm](#).

Click **Save & Continue**.

An *Activity Log* tab opens. Click **Add Activity Log** to create an entry.

Update

With appropriate permissions, you can add an existing custom Form to the fleet vehicle, edit the fleet vehicle , add a vehicle service request .

Note: For more information on accessing your current log, refer to "Officer Daily Log (ODL) Overview" on page 539.

Assignment Tab

The Officer Daily Log defaults to the **Assignment Information** tab. Complete the top portion of the *Assignment Information*.

The screenshot shows the 'Assignment Information' tab selected. At the top right are buttons for 'Exit Log', 'Help / Tips', and 'Close Log'. Below the tab header, there are two sub-tabs: 'Assignment Information' (active) and 'Activity Log'. The form contains the following fields:

- DAILY #**: 201901ISP000042
- STATUS**: Open (dropdown menu)
- ASSIGNMENT**: Officer Daily (dropdown menu)
- DATE**: 01/22/2019 (with a calendar icon)
- SHIFT**: 8-5 Shift (dropdown menu)
- NOTES**: A large text area for notes.
- REPORTING AREAS**: A section with a 'Click To Select' button.

Complete the Officers, Vehicles, and Equipment sections as needed.

For more information on Officers, refer to "Officers" below.

For more information on Vehicles and Equipment, refer to "Vehicle & Equipment" on the next page.

Officers

There may be times an additional officer needs to be added to the ODL. To do this, select **Add Officer** under the *Officers* section.

Dispatch: Use the calendar tool to enter the dispatch date, and then type in the time you were dispatched to the scene. This may be auto-generated from CAD from the Dispatch Center.

On Scene: Current date is entered by the system, but you must enter the time you arrived on scene.

Clear: You must enter a date and time in these fields to save and/or continue.

Time Category: Start typing in this auto-complete field and the system displays a list of similar entries. Select the appropriate entry.

Comments: Type text in the text field. You can enter whatever information you want to include here, OR click **Apply Template** to copy standard text that has already been entered for you in a template.

Note: Administrators set up and maintain activity codes and templates in the *Tables* module. Administrators can refer to the *Tables* chapter in the RMS Administrator Guide for more information.

Report #: If applicable, enter a **Report Number**. If you completed an incident report as a part of this activity, you would enter the incident report number here.

Ticket #: If applicable, enter a **Ticket Number**. During the course of a traffic stop, you might issue a ticket or Citation. If so, you would record the ticket/Citation number here.

Add Activity: Select the Show All arrow to display a list of activity codes.

Apply Template: Apply a pre-configured template for the activity.

When all applicable fields are complete, select **Save** to save the record.

Continue working as follows:

Select **Add Activity Log** to enter another activity in the log.

Edit Activity Log

Select **Edit** to the far right of a log entry to open it and make any changes.

Delete Activity Log

Select **Delete** to the far right of the log entry to completely remove the entry.

Switch to Edit Status

At this point you may choose to **Switch to Edit Status** if you have discovered something that would need editing.

Note: For more information on switching to edit status, refer to "Switch to Edit Status" on page 558.

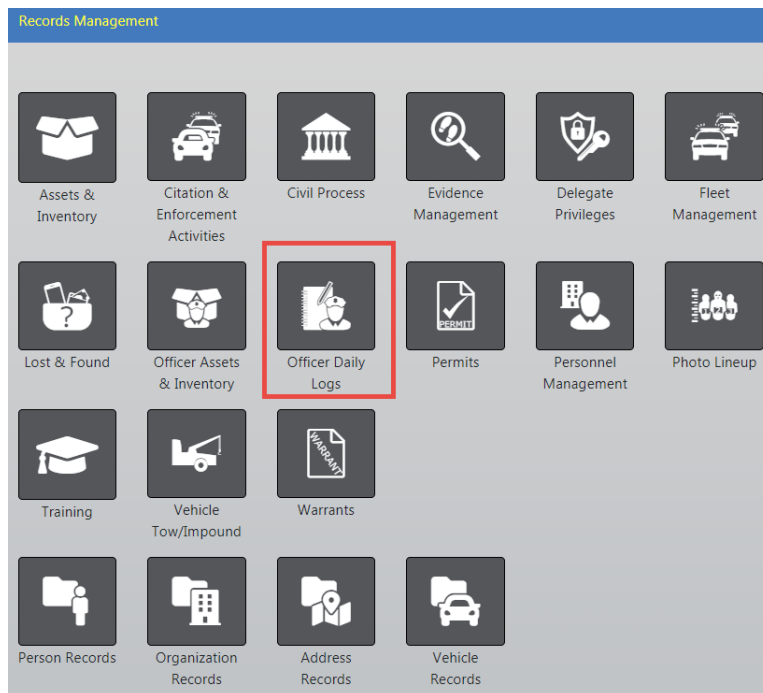

Log Search

Use the following procedures to search Officer Daily Logs:

Select *Records Management* from the top menu, then select *Officer Daily Logs*.

Or, select *Records Management* to open the Records Management menu, then select *Officer Daily Logs*.

Whichever method you choose, the *Search Daily Logs* screen appears.

The 'Daily Log Search' screen contains the following fields and controls:

- Officer Daily Log Search** section:
 - DAILY #**: Text input field.
 - STATUS**: Dropdown menu with '-Select-'.
 - ASSIGNMENT**: Dropdown menu with '-Select-'.
 - SHIFT**: Dropdown menu with '-Select-'.
 - DATE FROM**: Text input field with a calendar icon.
 - DATE TO**: Text input field with a calendar icon.
 - POSTED**: Dropdown menu with '-Select-'.
 - REPORTING AREA**: Dropdown menu with '-Select-'.
 - AGENCY**: Dropdown menu showing 'District 42, Versailles' and an Agency Structure icon.
- Officer** section:
 - FIRST NAME**: Text input field.
 - LAST NAME**: Text input field.
 - INTERNAL # / BADGE ID**: Text input field.
- Buttons at the bottom: 'Go Back', 'Reset', and 'Search'.

Enter the search criteria into the available fields or leave blank to return all records.

Note: Do not leave the *Agency* field blank. You may search for ODL records in the agency or any agency within the organization. Pick from the agency LOV or click on the Agency Structure icon  to display and select an agency.

Select **Search** to display the *Daily Logs Search Results* page with a list of search results.

<div> <div> <div></div> <div></div> <div></div> <div></div> </div> <div>1 result(s) found</div> </div> <div> <div>Refine Search</div> <div>New Search</div> <div>Post Selected Logs</div> </div>							
Posted	Daily #	Date	Status	Assignment	Reporting Area(s)	Officers	Actions

Note: If needed, select **Refine Search** to narrow the search results by adding more parameters, or click **New Search** to start over with a new search.

The Posted column remains blank when there is an *Open* or *Closed* status.

The Status column displays the current status of the log, such as Open, Edit, Closed.

Select the View icon  to view a report.

Select the Edit icon  to edit a log.

Select the delete icon  to delete a log.

Post and Un-post Logs

Note: Only supervisors with the proper role assignment can post and un-post daily logs.

Use the search feature to display a list of logs from which to choose. Refer to "Log Search" on page 551 for instructions on searching.

Post Logs

There are two ways to **Post** logs:

- Select and post one or more logs from the search results window.
- Post a log you are currently viewing.

Post Logs from Search Results

Search for a group of logs to post. For more information on searching logs, refer to "Log Search" on page 551.

In the Search Results window there is a box under the *Posted* column, next to the Logs that have not yet posted. Select each log you wish to post, then click the **Post Selected Logs** button. For your convenience, there is a button on the bottom and on the top right.

Posted	Daily #	Date	Status	Assignment	Reporting Area(s)	Officers	Actions

A Successful dialog box displays. Select **OK**.

Message From RMS
Log Successfully Un-Posted
<div>OK</div>

The log can now be edited by the officer who created it.

Print Report

Daily Log Reports can be printed, saved to a file on your computer, or both.

Use the search feature to view the log you wish to print. Refer to "Log Search" on page 551 for instructions.

After you have searched and selected the Log you wish to print, click on the **Print Report** button on the *View Log* screen.

DAILY #	STATUS	DATE	ASSIGNMENT
201811ISP000036	Closed	11/14/2018	Court Testifying
SHIFT	ASSIGNMENT ID		
8-5 Shift	47		
NOTES			

A PDF document opens in a new tab in your browser. Print directly to the printer or save the PDF document giving it a custom filename.

Note: If you are using Internet Explorer, refer to "Printing from Online RMS" on page 39 for special instructions.

Close or Exit the Daily Log

You have the option to exit or close the ODL. There is a difference between the two.

Close the Daily Log

The last button at the top of the **ODL** is the **Close Log** button. Use this button to close your log at the end of the day/shift and make it available to your supervisor for review and posting. Once you select this option, you will not be able to edit the log.

Message From RMS

Are you sure you want to close this log? Once you do, you won't be able to edit it

No Yes

Click **Yes** to begin the close process, or click **No** to return to the *Activity Log* tab.

If you clicked **Yes**, an **Edit Officer** window appears.

Chapter 27. Citations Enforcement

Citations/Enforcement Overview

This module is a collection of Citation/Enforcement activities against persons, businesses, and/or vehicles. These activities can be related to Incident Reports, other Citation/Enforcement Activities, and other defined report types.

To access **Citation/Enforcement** records, select the **Citations/Enforcements** option from the *Records Management* drop-down menu or select the **Citation/Enforcement Activities** icon/link from the *Records Management* main page.

OR

After selecting one of the above options, the **Citation Search** page opens. You can either search for an existing citation by entering search criteria into the available field then click **Search**, or click the **Add Citation** button to add a new citation.

Note: Checking the box for Citations Without Charges will filter results for citations that do not have any charge information entered.

The **Nature of Offense** field is free text that allows you to enter additional charging information not contained in the Charge Code LOV. For agencies having an interface that imports citation data into Online RMS from an *eCitation System*, the **Nature of Offense** field contains charging descriptions as entered in the *eCitation System* when a charge code does not exist in Online RMS.

The **Additional Search Criteria** allows you to include information from a specific section, if needed. Additional search fields appear if you choose one of the available options from the list.

Note: *Custom Fields* is available for agencies that have the *Custom Fields* feature enabled. *Custom Fields* captures data defined by the agency. For more information refer to your administrator.

- Click the **Search** button to display the **Search Citations** results grid with a list of records matching the search criteria.

You have the ability to export the search results to various file types such as, PDF, MS Excel, CSV, and XML using icons above the IndexID on the Search Results grid. For more information refer to "Export Search Results" on page 36.

Click the **Add Citation** button to add a new citation. For more information on adding a new citation refer to "Add a New Citation" on page 563.

Your assigned roles determine which actions are available to you from the *Actions* column, located on the right. If an icon does not appear in the Action column then you do not have the ability to perform that action.

For example, if the **Delete** icon does not appear in the *Action* column, then you do not have the ability to delete that item.

- The **View** icon  allows you to view a snapshot of the record listed. For more information on viewing Citations refer to "View Citation" on page 570.
- The **Edit** icon  allows you to open and edit the record listed.
- The **Delete** icon  allows you to delete the record listed. For details on deleting Citations refer to "Delete Citation" on page 578.

Click **Refine Search** or **New Search** to return to the **Citation Search** page, where you can redefine your search, start a new search (click **Reset** to clear all fields), or **Go Back** to return to the previous page.

3. Click the **Edit** icon to open the **Edit Citation/Enforcement Details** page.

There are several sections that make up this page. Edit details and search for, add, or change relevant persons, vehicles, organizations, etc.

[illegible]

Click on the **Duplicate** button to create another **Citation** identical to the one you are on. For more information refer to "Duplicate Citation" on page 577.

Click on the **Print** link in the **Print Options** menu to print the **Citation**. For more information refer to "Print Citation" on page 580.

4. Complete all applicable sections and choose **Update**. For detailed instructions see "Enter or Update Citation Details" on page 572.

View Citation

1. Complete the necessary fields on the **Citation Search** page to search for the **Citation** you want to **View**.

3. Click the **View** icon  to open the **Citation/Enforcement Details** page.
4. Click on the **Go Back** button to return to the search results, or click on the **Print** button to print the **Citation**. For more information refer to "Print Citation" on page 580.

Enter or Update Citation Details

Whether you are creating a new **Citation** or updating one that already exists, the process of entering the details is fundamentally the same.

Citation data is grouped into various sections. The **Citation** module utilizes *Master Indices*. *Master Indices* are centralized pieces of data that are accessed from different modules of the system for consistency. Each index is represented only once, such as a person, an address, a vehicle, a location, and the organization.

Note: For more information on *Master Indices* refer to "Master Indices" on page 83.

Person, Vehicle, Location, Organization

Sections containing **Search** links for details like Person, Vehicle, and Organization utilize the *Master Index*. You must first search the *Master Index* to determine whether or not this data already exists before adding or updating. If the record exists, you must use it in the **Citation**. If the record doesn't exist, then you can create it, providing you have the proper permissions. For more information on permissions see your administrator.

Click the **Update** button in each section to save the entered data.

Racial Profiling

The **Enforcement Type** determines whether or not the Racial Profiling fields appear. For example, the fields appear when *Ordinance Violation* is chosen, but not for *Parking Meter*.

Select an option from the drop-down menu in each field of the **Racial Profiling** section. Click the **Race Known At Time of Stop** button if it is a true statement; green represents true and gray represents false.

Violations and Charges

For Violations, enter the **Posted Speed Limit** and **Actual Speed limit**, if applicable, and select one or multiple violation **Methods** from the drop-down list.

Click **Save**.

Click on the *+Add Charge* link to open the **Citation Charge** window. Begin typing the desired Charge Statute to view a list of similar charges then select the one you need from the list.

Select the **Class** and **Disposition**. These each contain a drop-down list in accordance with the **Charge Statute** selected.

Complete all other fields required by your Agency, then click **Save**.

Note: Multiple charges can be listed on one citation (according to your Agency).
You must add additional items for each charge (Class, Disposition etc.).

Click **+Add Charge** to add additional charges, if applicable. Click **Save** after entering each **Charge**.

Click **Go Back** to return to the previous page.

Bond

To enter Bond information, select the **Bond Type** from the drop-down list, enter the **Bond Amount**, **Appearance Date**, and click the **Must Appear** button if the person must appear; the button turns green when selected.

Click **Save**.

Associate Incident Reports

You can associate Incident Reports to the Citation. Click on **+Add Incident Report** to open the Incident Search screen, search for the incident and select it. For more information on searching Incidents, refer to "View Incident Reports" on page 265.

PDF documentation can be added to the citation automatically where applicable, if such documentation exists in the incident report or as attached to a person entry, etc.

Relate Citations

You can associate other citations with the current citation. Click **+Add Citation/Enforcement**, enter the **Enforcement Ticket#** in the field provided, click **Quick Search**, then select the appropriate Citation from the results list.

Related Citations / Enforcements + Add Citation / Enforcement

Enforcement Ticket # × Quick Search Cancel

Citation Quick Search

Index ID	Ticket Number	Enforcement Date	Enforcement Type	Agency	Actions
393	2018CL01	02/08/2019 16:00	Parking Meter	District 42, Versailles	

Cancel

Associate Other Related Reports

You can associate other reports as defined by your agency. Click **+Add Report** to open the *Add Related Report* window, enter the **Report #**, select the **Report Type** from the drop-down list, enter necessary **Comments**, then click **Save**.

The 'Add Related Report' form contains the following fields and controls:

- REPORT #**: A text input field containing '2018RCF55'.
- REPORT TYPE**: A dropdown menu with 'Court Case' selected.
- COMMENTS**: A text area containing 'This is an example.'
- Buttons**: 'Cancel' and 'Save' buttons at the bottom right.

Attached Forms

If applicable to your agency, you can attach a custom form. Select an item from the **Add Form** drop-down list to open the chosen form. Complete the necessary fields, then click **Save** to remain on the form, or **Save And Exit** to save the form and return to the Citation. Click **Cancel** to return to the Citation without adding a custom form.

The 'Attached Forms' section includes:

- Attached Forms** header with a document icon.
- Add Form** button.
- Attachments** header with a paperclip icon.
- Go Back** button.
- Dropdown menu** showing options: '-Select-', '1 Custom Form to Rule Them All', 'Derek Test Form', 'Inheritance Test Form', 'RMS Demo Form', and 'TTN114300'.

Attachments

You can add photos and documents to the Citation. Click on **+Add Attachment** to open the *Add Attachments* screen. For more information on Attachments, refer to "Attachments" on page 69.

All Other Sections

Data entry in all other sections are fundamentally similar to adding Charges, but with different information.

Duplicate Citation

In cases where two or more people are being cited for the same charge(s), it may be more efficient to create one ticket, duplicate it, and then edit the duplicate for another person. The process can be repeated as many times as needed.

1. After entering and saving the **Citation**, click the **Duplicate** button to open the **Duplicate Citation** window.

The screenshot shows the 'Duplicate Citation' window. At the top is a navigation bar with links: Administration, Incidents, Master Indices, Records Management, Forms And Reports, and Help. Below the navigation bar is the title 'Duplicate Citation'. A prompt says 'Select what information you want to duplicate'. Under 'ITEMS TO DUPLICATE', there is a search bar and two columns of items. The left column contains 'Violations', 'DUI', and 'Conditions'. The right column contains 'Location', 'Person', 'Organization', 'Vehicle', 'Citing Officer', 'Other Officers', 'Employees', and 'Bond'. There are 'Select All' and 'Select None' buttons. Below the items is a 'TICKET #' section with a text box containing 'Auto Generated'. Under 'COMMENTS', there is a large text area. At the bottom right are 'Cancel' and 'Save' buttons.

2. Click the items in the left column that you want to duplicate, which moves these items to the right column. Click any item in the right column to remove it, sending it back to the left-column list.
3. The ticket number is auto-generated. Enter any additional comments and click the **Duplicate** button at the bottom of the window to display the message prompt:

The screenshot shows a message prompt from RMS. It says 'Message From RMS' and 'Citation Duplication Successful, Would You Like to Edit it Now?'. At the bottom right are 'No' and 'Yes' buttons.

4. Click **Yes** to edit the duplicate citation as needed. For more information on editing a citation, refer to "Edit Citation" on page 565.

Delete Citation

On rare occasions you may need to delete a **Citation**, if you have proper permissions to do so.

1. Complete the necessary fields on the **Citation Search** page to search for the **Citation** you want to **Delete**. For more information on searching for a Citation, refer to "Edit Citation" on page 565.

Note: If you are using Internet Explorer, refer to "Printing from Online RMS" on page 39 for special instructions.

Chapter 28. Permits

Permits Overview

The **Permits** module allows you to view, create, or modify permit information. **Permits** include alcohol permits, bicycle licenses, burning permits, gun purchase permits, parking permits, etc. The type of permit is controlled by the Agency Administrator.

There are two ways to access the **Permit** module:

1. Click *Records Management* on the navigation bar, then click the **Permits** option from the drop-down menu.

2. Or click *Records Management* on the navigation bar, click the **Records Management** option from the drop-down menu, then click the **Permits** icon/link.

Either option opens the *Permit Search* page.

A screenshot of the 'Permit Search' form. The form has a title bar 'Permit Search' and an 'Add Permit' button. It contains several search criteria sections: 'PERMIT #' with a text input; 'AGENCY' with a dropdown menu set to 'All Agencies'; 'PERMIT TYPE' with a dropdown menu set to '-Select-'; 'PURCHASE TYPE' with a dropdown menu set to '-Select-'; 'STATUS' with a dropdown menu set to '-Select-'; 'REASON' with a dropdown menu set to '-Select-'; 'PERMIT ID' with a text input; 'SHOW DATE CRITERIA' with a checkbox; and 'ADDITIONAL SEARCH CRITERIA' with a dropdown menu set to '- Select -'. At the bottom, there are three buttons: 'Go Back', 'Reset', and 'Search'.

Search Permits

From the **Permit** page complete as many of the fields in the *Permit Search* section as you can.

If applicable, click the **Show Date Criteria** button to open the *Date Criteria* section.

If you need to add or change information in the **Permit**, do so then select **Update Details**.

If you need to go back to the previous page, select the **Go Back** button.

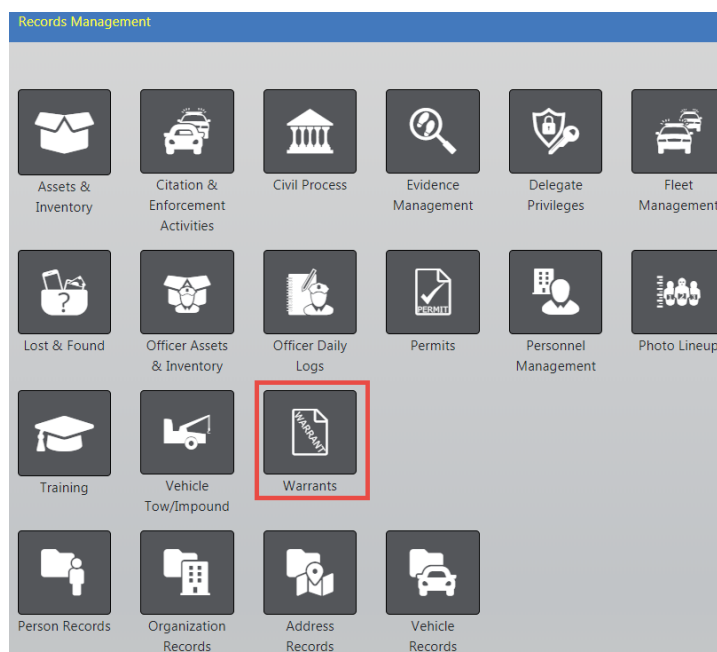

Chapter 29. Warrants

Warrants Overview

The **Warrants** module handles the workflow of warrants in the Online RMS system. Information entered in this module drives the process of creating, activating, serving, and/or recalling warrants. Warrant logs are maintained throughout the lifecycle of the warrant, as are notifications to users in the system regarding the **Warrant**.

To access the **Warrants** module, select the **Warrants** option from the *Records Management* drop-down menu or select the **Warrants** icon/link from the *Records Management* pages.

Or click *Records Management* on the navigation bar, click the **Records Management** option from the drop-down menu, then click the **Warrants** icon/link.

You are initially brought to the **Warrant Search** page. Caliber Public Safety recommends that you always search for a **Warrant** prior to adding a new one.

You can view the warrant delete log, add a warrant, and view warrants on the map from the search results page. For more information on search warrants, refer to "Warrant Search" below.

Warrant Search

The **Warrant Search** page allows you to search for a group of warrants or a specific warrant. You can also *View Delete Log* and *Add Warrant* from this page by clicking on the respective links on the top right of the page.

For more information on deleting a warrant, refer to "Delete Warrant" on page 614.

For more information on adding a warrant, refer to "Add Warrant" on page 595.

Warrant Search View Delete Log + Add Warrant

INCIDENT REPORT # <input type="text"/>	WARRANT # <input type="text"/>	

On the **Warrant Search** page, complete the fields necessary to produce the desired search results. For example, enter the last name *Evans* and first name *Christoph* to display records that match that criteria.

Enter information into the **Warrant Search** page then click **Search** or press the **Enter** key, click **Reset** to clear the entered search data to start the search over, or click **Go Back** to return to the previous screen without searching.

Warrants that meet the search parameters are listed. Icons that display in the *Actions* column depend on your assigned role.

Refine Search New Search

Select the **Show Map** button on the top right of the search results window to open a new tab displaying the current search results on a map. The map appears for the currently displayed page. For example, while you are on page two of three, the map refers to page two only.

- Only warrants with a service address that is GEO-coded display on the map.

A message stating *"No service addresses are able to be mapped..."* on the Maps tab when none of the Warrants in the search results have a GEO-coded service address.

- Click on any pin on the map to open a pop-up window containing warrant index id, warrant number, address, warrant type, issued date, reference numbers, agency, person, and charges.

Select the **Add Warrant** button to add a new warrant.

Select the **View** icon  in the *Actions* column to view a warrant.

Select the **Edit** icon  to update a warrant. For more information refer to "Edit Warrant" on page 599.

Select the **Delete** icon  to delete a warrant. For more information refer to "Delete Warrant" on page 614.

Note: If there is one charge, then it appears in the Charge column; if multiple charges, an information bubble  appears. Hover over or click on the bubble for more information.

Add Warrant

There are two ways to add a warrant from the **Warrant** module:

- Select the **Add Warrant** link from the *Warrants Search* page

- Select the **Add Warrant** button from the *Warrant Search Results* page.

Index ID	Status	Agency	Date Issued	Last Name	First Name	DOB	State ID	Actions
347	Initial	Indiana State Police	01/17/2019 1100	Jackson-Smith	Henrietta	10/20/2005		

Either option will open the *Master Index Search* page. Enter the necessary criteria to search for the person for whom to apply the **Warrant**, click **Search**, then select the appropriate person record for the Warrant.

Note: If the person for whom you are searching does not exist, select the **Add Person** button on top of the *Search Results* page to add that person. Refer to "Adding Person" on page 100 for instructions. After you have added the person to the Master Index, you can then select the record to add a warrant for that person.

For more information on the *Master Index*, refer to "Master Indices" on page 83.

When you select the appropriate person record, the **Add Warrant** page opens. The person data populates from the *Master Person Index* record automatically.

COMMENTS
This is a text Warrant.

NOTIFY USER
☒

Save

Select the **Assign Date** if other than the default.

Enter **Comments**, if appropriate.

Check **Notify User** if you want to notify the user of the assignment.

Click **Save** to add the officer assignment to the Warrant.

Optionally, assign additional officers.

Add associated **Incidents** and **Calls For Service**, if applicable.

Incidents	+ Add Incident
Calls For Service	+ Add Call

Add Incident

Select the **Add Incident** link to search for and select an existing incident to associate to the Warrant.

If the selected Incident has associated *Calls For Service*, a list of those Calls appear and you may choose whether or not to also associate the *Calls For Service* to the warrant.

Add Call

Select the **Add Call** link to search for and select an existing Calls to associate to the Warrant.

Complete the *Warrant Charge* section. Select the **Charge Category** and **Charge Class**, then the **Warrant Charge**.

Within the Warrant Charge field, search for arrest charges and statutes by entering numbers or text to display a list from which to choose.

Note: The **Warrant Charge** displays a list based on data entered into the **Charge Category** and **Charge Class** fields.

Enter the **Charging Agency** section, if applicable.

Enter **Extradition** and **State Warrant** information (if applicable).

Once all applicable information has been added, click **Save** to add the Warrant.

Edit Warrant

From the *Warrant Search Results* page, select the Edit icon  icon in the *Actions* column of the Warrant you want to edit. For more information on searching for a warrant, refer to "Warrant Search" on page 592.

The *Edit Warrant* page appears.

The *Edit Warrant* page contains up to eight action buttons on the top right of the window:

Go Back Delete Duplicate Activate Print Comment Serve Warrant Save

- **Go Back** returns to the previous page.
- **Delete** a warrant, refer to "Delete Warrant" on page 614.
- **Duplicate** a warrant, refer to "Duplicate Warrant" on page 604.
- **Activate** a warrant from initial status, refer to "Activate Warrant" on page 606.
- **Print** a warrant, refer to "Print Warrant Report" on page 614.
- Log a **Comment**, refer to "Warrant Log" on page 611.
- To **Serve Warrant**, refer to "Serve Warrant" on page 608.
- **Save** applies your updates to the database.

Note: The appearance of the action buttons are controlled by the warrant Status. For example, the Serve Warrant button does not appear when the warrant status is Served.

The *Edit Warrant* page contains three tabs:

- For information on the Warrant Information tab, refer to "Warrant Information Tab" below.
- For information on the Warrant Log tab, refer to "Warrant Log Tab" on page 603.
- For information on the Attachments tab, refer to "Attachments Tab" on page 604.

Warrant Information Tab

The **Edit Warrant** window opens to the Warrant Information tab by default. For information on **Warrant Log** refer to "Warrant Log" on page 611, and for information on **Warrant Attachments** tab refer to "Warrant Attachments" on page 613.

Choose or Add Alias Name

Select the down arrow to the right of the **Select an Alias** field to choose another name from the drop down list. If there are no names to choose from and you need to add an Alias, select the **Update Details** link in the upper right corner to open the *Person Details* page.

Warrant Log

Warrant activity is systematically logged for tracking purposes, and you have the ability to manually create a log entry.

A log entry is created automatically when the warrant is created, updated, deleted, etc. Each entry captures the user's name, date, type of change, and comments.

The **Warrant Log** tab is accessible through the *Edit Warrant* page. For more information, refer to "Edit Warrant" on page 599.

You can export the results to PDF, Excel, CSV, or XML formats by clicking on one of the icons above the Warrant Index ID column. Hover your mouse over the icon to view the file format.

Chapter 30. Civil Process

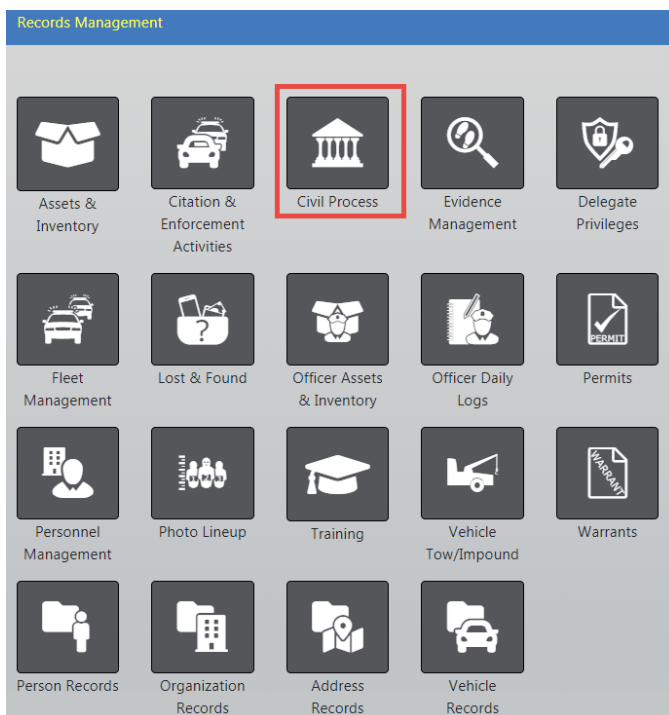

Overview

The Civil Process application is found within the *Records Management* section. Click on Records Management You can hover over the tab and drag and drop or you can hard click on the tab and screen will open as it looks below.

To access the **Civil Process** module, select the **Civil Process** option from the *Records Management* drop-down menu.

Or, select the **Civil Process** Icon/link from the *Records Management* pages.

When you click on **Civil Process** you are first taken to a *Search* page section within **Civil Process**. Searching this module is done similar to other areas within Online RMS.

Note: The terms *Court Paper* and *Civil Progress* used throughout this chapter are synonymous with each other.

Court Paper

Search

The search feature allows you to search upon any of the standard fields and additional criteria fields to generate the information you are seeking. Just like with our other search areas those results can then be exported out as reports to manage the data.

Next two sections are about the Persons/Organizations to be served and the Other Persons/Organizations involved with the paper. Caliber Public Safety recommends using the **Advanced Search/Add** link to search *Master Index* data. For more information on *Master Index*, refer to "Master Indices" on page 83.

To Be Served People						Add Unknown Person Quick Search Person Advanced Search / Add
Person Details		Service Address	Status	Role	Fee Total	Actions
Name: Incident Person01 Sex: Female Race: Black or African American DOB: 11/01/1970 (Age:48)			Active	Petitioner	\$36.12	View Edit Add
To Be Served Organizations						Quick Search Organization Advanced Search / Add
Other People						Quick Search Person Advanced Search / Add
Other Organizations						Quick Search Organization Advanced Search / Add

- The **Add Unknown Person** link captures service where evictions might be involved, or total number of people to be served is not known. Agencies have different uses for this.
- The *Other People/Organizations* section captures the non-serveable persons or organizations of the paper. Typical usage is for the payor, and where garnishments and fees are handled.

Perform search on the person /organization that you would like serve. Select the person that is to be served, if exists, by the **Index I.D.** or by using the **Select** icon  in the **Actions** column. Add new person if not in the *Master Index*. For more information on adding a person refer to "Adding Person" on page 100 in the *Master Indices* section.

Refine Search New Search Add Person Online RMS Statewide Search

FEE COMMENT

Save

Fee details are discussed little more in detail later. From the officer serving the paper they typically only have access to the non gray boxes and the comment section. Attempts also can be captured in the log with a note of mileage. The use of this would be a business process determine by agency of when and whom applies Fee details.

Click **Save** to save the person/organization record to the Court Paper.

Adding **Other Person/Organization** to paper is done by some advanced search/add method. After selecting from *Master Index* or adding new you will be taken to this page. For more information on *Master Index*, refer to "Master Indices" on page 83.

Note: The Fee collection only shows after the **Payor Role** is selected. You can have more that one role assigned.

Chapter 31. Vehicle Tow/Impound

Overview

The **Vehicle Tow/Impound** module is found under the *Records Management* menu on the *Home Page*

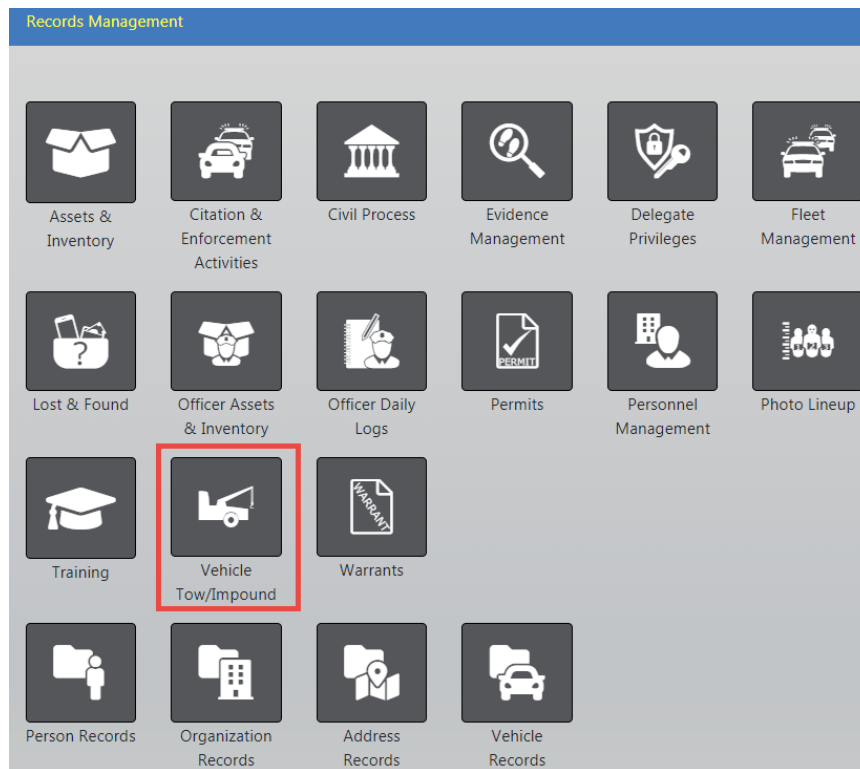

You can access this module two ways:

- Click *Records Management* on the top navigation bar, then click **Vehicle Tow/Impound**.

- Click *Records Management* on the top navigation bar, click on the *Records Management* option that appears in the drop-down list, then click the **Vehicle Tow/Impound** link.

Either method opens the *Vehicle Tow/Impound Search* screen. After selecting the icon you are taken to *Search* application. You can either view the delete log, add a new record, or search the system for data that matches specific criteria.

Click the **Go Back** button to return to the *Vehicle Tow/Impound Search* page.

Enter your search criteria on the *Vehicle Tow/Impound Search* page to search and locate existing records that match your entered criteria.

When searching by Make and Model, begin entering a portion of the word and a list will appear from which to choose. For example, enter *Chev* in the **Make** field to display a list that contains *Chev* then click on the appropriate item that appears on the list. Optionally, do the same for **Model**

MAKE MODEL

chev

- CHEVALLERO MOTOR HOME(CHVL)
- CHEVELLE MOBILE HOMES, INC(CHEX)
- CHEVROLET(CHEV)
- CHEVRON CORP(CHEP)
- CHEVELLE HOMES SALES CORP OF ALABAMA(CHEV)

The **Additional Search Criteria** allows you to include other fields such as People, Organization, Officers, Tow Company, and Custom fields. Choose an option and enter criteria in the fields that appear based on your selection.

If you choose **Custom Fields**, the **Available Fields** appear; click in the field and choose from the drop-down list.

ADDITIONAL SEARCH CRITERIA

Custom Fields

AVAILABLE FIELDS

-Select Field-

Note: Custom Fields is available for agencies that have the Custom Fields feature enabled. Custom Fields captures data defined by the agency. For more information refer to your administrator.

Click the **Search** button to display the search results.

With proper permissions, you can view, edit, delete Tow/Impound records, release holds, or release vehicles using the icons that appear under the *Actions* column. Only the icons to which you have access appear. If you do not have permissions to perform any of these tasks, refer to your agency administrator.

Action Icons

-  View Vehicle Tow/Impound Record
-  Edit Vehicle Tow/Impound Record. For instructions on editing tow records, refer to "Update Existing" on page 638.
-  Delete Vehicle Tow/Impound Record

-  Release Holds. For instructions on releasing holds, refer to "Vehicle Holds" on page 643.
-  Release Vehicle. All Holds must be released before you can release a vehicle.

Enter New Vehicle Tow

Access the *Vehicle Tow/Impound Search* page. For more information on accessing the *Vehicle Tow/Impound Search* page refer to "Overview" on page 631.

On the *Vehicle Tow/Impound Search* page, click the **Add Vehicle Tow/Impound** button to open the *Master Index Search* page. Search for the Master Vehicle Index record you want to add to the Tow/Impound module.

If the Master Vehicle Index record you are searching for does not exist, then click the **Add Vehicle** link to add a new Master Vehicle Index record. For more information on Master Indices refer to "Master Indices" on page 83.

In the *Vehicle Search Results* window, click the **Select**  icon on the vehicle you want to add to a new **Tow/Impound** record.

Update Existing

Search for the *Vehicle Tow/Impound* record you want to update. For more information on searching for existing records, refer to "Search Vehicle Tow/Impound" on page 633.

The creator can edit their initial impound records within or outside lock hours, regardless if there is a release date nor not. However, impound records that are pending approved or approved cannot be edited.

On the *Search Results* window identify the record you want to update then click the update icon  in the *Actions* column to open the *Edit Impound* page. The page consists of a side-bar menu and multiple sections that permit editing of the impound information.

Note: All vehicle **Holds** must be released prior to releasing the vehicle. For instructions on releasing **Holds**, refer to "Vehicle Holds" on page 643.

Click either the **Quick Search** or **Advanced Search** link to search and select the person or organization to whom the vehicle is **Released To**.

Note: If the person or organization record does not exist and you have proper permissions, you can create the *Master Person Index* or *Master Organization Index* record by clicking on the **Advanced Search** link. For instructions on creating a *Master Person Index* record, refer to the "Adding Person" on page 100 section of the *Master Indices* chapter (follow a similar process when adding *Master Organizations*). For more information on permissions, refer to your agency administrator.

Click the **Save** button. A **Successfully Updated** message briefly appears above the **Released Date**.

A record is added to the **Log** automatically.

Click on the **Go Back** button at the top of the page to return to the *Search Results* page. The **Release Vehicle** icon  no longer displays in the **Actions** column on the vehicle record, indicating the vehicle is no longer in impound status.

Refine Search New Search Add Vehicle Tow/Impound

Impound Id	Vehicle Id	Towing Agency	Tow Date	Towed From	Approval Status	Actions
203	765	District 42, Versailles	01/31/2019 09:39	DENVER	Initial	   

Click on the **Go Back** button to return to the *Vehicle Tow/Impound Search* page.

Logs

The *Log* tab of the *Edit Impound* page displays impound activity that was systematically logged for that particular vehicle, including manual log entries you create. For details on accessing the *Edit Impound* page, refer to "Update Existing" on page 638.

The number of log entries can get long. To search for particular log entries, enter a keyword in the search text field then click the **Search** button.

Optionally, click on **Add Log Entry** to create your own log entry, then enter **Comments** and the **Save** button.

You can edit or delete manual log entries; however, log entries generated by the system are read-only. Click the edit icon  to update the record, or click the trash icon  to delete.

Print

You can print the *Vehicle Tow/Impound* record from the *Edit Impound* page. For instructions on accessing the *Edit Impound* page, refer to "Update Existing" on page 638.

Click the **Print** button on the top right of the window.

The screenshot shows the top right of the application window with buttons 'Go Back', 'Print' (highlighted with a red box), and 'Submit'. Below is a navigation bar with 'Tow/Impound', 'Holds', and 'Log'. A 'Vehicle' section contains a table with the following data:

VIN	MAKE	MODEL	LICENSE PLATE	LICENSE STATE	LICENSE TYPE
ZZFG651AS32165	JEEP/JEEP USE ONLY FOR THOSE	GRAND CHEROKEE	123	AG	Amateur radio

The *Tow/Impound Print Options* window opens. Select the options you want to include in the report; green options are included and gray options are not.

The 'Tow/Impound Print Options' window displays a list of options to be included in the printout. The options are organized into two columns:

- TOW RELEASE** (checkbox)
- INVENTORY** (checkbox)
- PDF ATTACHMENTS** (checkbox)
- TOWING COMMENTS** (checkbox)
- TOW SUMMARY COMMENTS** (checkbox)
- GARAGE OWNER SECTION** (checkbox)
- CUSTOM FIELDS** (checkbox)
- IMAGE ATTACHMENTS** (checkbox)
- RELEASE COMMENTS** (checkbox)
- REDACT DOBs** (checkbox, checked)

At the bottom, there are buttons: 'Cancel', 'Select All', 'Select None', and 'Print'.

Click the **Print** button on the bottom right.

A PDF document opens in a new tab in your browser. Print directly to the printer or save the PDF document giving it a custom filename.

Note: If you are using Internet Explorer, refer to "Printing from Online RMS" on page 39 for special instructions.

Chapter 32. Inventory and Assets

Inventory Overview

Inventory Management allows an organization to designate storage locations and maintain on-hand stock items. A user-defined hierarchy and shared item descriptors provide the agency with a means to perform uniform data entry across the entire organization. Managers of these locations can assign items to officers, employees, locations, vehicles, and organizations. Additionally management capability allows officers, employees, and supervisors to manage and track issued equipment. Accountability is maintained for each transaction which creates a history within the module.

Inventory Roles

There are three system-level inventory roles for the *Assets* and *Inventory* Modules:

- *Inventory Manager* role is given to any user who manages warehouse locations.
- *Inventory Sub-Manager* role is given to any user who is not a warehouse manager but who has control over non-warehouse (other) locations.

Note: The two roles above are mutually exclusive. That is, no user should have both roles at the same time.

- *Inventory Admin* role is given to the user who controls the administrative set-up of the module. (This role can be combined with the Inventory Manager role) In addition, four pre-existing roles (Officer, Officer Supervisor, CID User, and CID Supervisor) have been given the new permission categories prefixed with Inventory For Officers.

Anyone who uses inventory management should have the *Inventory - Basic Access* permission category in order to have the basic inventory functionality.

Two basic permission categories are:

- Inventory - Show the Inventory Main Screen
- Inventory - Show the Officer Inventory Screen

Note: A user must have one of these to get started.

Note: Vehicle Make, Model, Type, and Styles share admin tables with the *Fleet Management Module*.

Inventory Management Page

When the administration or setup portion of *Inventory Management* is complete, the **Inventory Management** page appears. For more information on **Inventory Administration** refer to your agency administrator.

To gain access to the Inventory Management page, you must be assigned as a Location Manager. If you are not assigned as a Location Manager a message appears on the right stating you do not have manager access to locations. If you have Inventory_Manager permissions, an **Administration** button also appears on the **Inventory Management** page.

If visible, click the **Administration** button, to open the **Inventory Administration** page to set up Location Manager. For more information on **Inventory Administration** refer to the *Caliber Online Administration Guide*.

If the **Administration** button is not visible, contact your agency administrator.

Add Inventory

Add Inventory allows you to add quantities to current items. Use the following procedures to add Inventory:

From the *Inventory Management* page, select the **Add New Inventory** link to open the *Search For Existing Inventory* page.

The screenshot shows a web form titled "Advanced Search - Search For Existing Inventory". At the top right are "Go Back" and "Add New Item" buttons. The form contains several input fields and dropdown menus: "INVENTORY NUMBER", "STATUS" (dropdown), "AVAILABILITY" (dropdown), "UNIT #" (with a calendar icon), "BARCODE", "SERIAL NUMBER", "MAKE" (with a calendar icon), "MODEL" (with a calendar icon), "EXPIRATION DATE FROM" (with a calendar icon), "EXPIRATION DATE TO" (with a calendar icon), "MAINTENANCE DATE FROM" (with a calendar icon), "MAINTENANCE DATE TO" (with a calendar icon), "SEARCH ON TYPE" (dropdown), and "SEARCH ON CURRENT CUSTODY" (dropdown). At the bottom are "Reset" and "Search" buttons.

Note: The first step to adding inventory is always to search for existing inventory with descriptions that apply to the item(s) you want to add. This is to ensure that duplicate entries are not made. The goal is to locate and use existing entries to add additional quantities so that the same descriptors are shared across the entire organization.

Perform the search to display the Search Results page. For details refer to "Search for Existing Inventory" on the next page.

If there are no matches to your search then you need to add the new inventory. For details refer to "Add New Inventory" on page 657.

If the search results returns records, add the inventory to existing inventory. For details refer to "Add to Existing Inventory" on page 655

Reset Search		

Complete as many of the fields in the Advanced Search section as you can.

- The Inventory Number field is not required, and it only applies if your agency uses inventory numbers.
- Select/enter values for any of the fields for which you have information.

- Any field with an Auto Filter icon  to the right provides a list that matches your text. Begin typing in this field and it brings up a selection based on what you have typed. The fields that display **-Select-** contains a drop-down selection from which to choose. Click a selection to pull it into the field.

If you choose **Search On Type**, additional fields appear based on your selection.

If you choose to **Search on Current Custody**, additional fields appear based on your selection.

Once you have made the selections, select **Search**.

If you select **Search** without entering a valid search field, the *Search For Existing Inventory* page displays with an error message as shown.

Add to Existing Inventory

Once you have performed a search and the search results page returns, locate an item description that matches the item(s) you want to add to the inventory then select the  next to the item to add to the inventory.

DESCRIPTION

Enter as much information regarding the new Inventory item.

Page down to fill in the *Product Details*, *Destination* and *Order* tabs. Required fields display a red border to the left of the field. Be sure to check all tabs for required fields.

The screenshot shows a web interface for inventory management. At the top, there are three tabs: 'Product Details And Quantity', 'Destination', and 'Order'. A red arrow points to the 'Order' tab with the label 'Tabs'. Below the tabs, the 'QUANTITY' section contains two radio buttons: 'Specify # of Items' (which is selected) and 'Specify Grouping of Items'. Below this is a text input field labeled 'TOTAL ITEMS ENTERED' containing the number '1'. Underneath is a checkbox labeled 'ENTER INDIVIDUAL ITEMS' which is currently unchecked. At the bottom right of the form is a green 'Save' button.

Once all information is entered for the New Inventory Item, select **Save**.

You receive a notification that you are about to enter an amount of items into the system, select **Yes** or **No**.

Edit Entries

The inventory manager can edit entries in the inventory module. However, the manager must always be aware that item descriptors are shared so edits affect other agencies in the same organization.

- Editing Item Descriptors (shared): When adding new inventory the inventory manager searches to determine if the item descriptors already exist in Online RMS. If search results return a match, the manager selects item descriptors to add new quantity on-hand to update the warehouse. While reviewing the search results, the user can also edit item descriptors.

Note: Changes affect all entries across the entire organization. A warning banner displays across the top of the page if matching records exist.

There are a total of 11 items. Updating this record will update all of these items.

- Editing Item Details (not shared): While browsing existing inventory (stock on-hand), the manager can edit the on-hand detail specific to the warehouse. Fields open for edit include: Unit Number, Serial Number, Barcode Number, Expiration Date, Maintenance Date, Status, Usability, and the Disposed check box.

Log entries can be reviewed or created as needed per item. Custody history is also available for viewing and is updated automatically each time an event takes place

Select the  icon next to the item you wish to edit to display the edit page.

The screenshot shows the 'Item Properties' edit page. At the top right is an 'Exit' button. Below the title bar, a message states: 'There are a total of 11 items. Updating this record will update all of these items.' The form contains several sections: 'INVENTORY NUMBER' (text input), 'CATEGORY' (dropdown menu showing 'Clothing - Pants - Class A - Teflon - Silver - S'), 'MAKE' (text input with 'Acme'), 'MODEL' (text input with 'PA340'), 'PRIMARY COLOR' (dropdown menu showing 'Black'), 'SECONDARY COLOR' (dropdown menu showing 'Black'), 'LINE' (dropdown menu showing 'Mens'), 'SIZE' (dropdown menu showing '13'), 'DESCRIPTION' (text area with 'Uniform Shoes'), 'SELF CHECKOUT' (checkbox), 'CONSUMABLE' (checkbox), 'SERVICE LIFE' (with '2' in the 'Years' field and '0' in the 'Months' field), 'QUANTITY TYPE' (dropdown menu showing 'Box'), 'AMOUNT' (text input with '0'), 'SUB-QUANTITY TYPE' (dropdown menu showing 'Pallet'), and another 'AMOUNT' (text input with '0'). An 'Update' button is at the bottom center.

Make the needed changes then select **Update**. A message appears across the top of the page letting you know the Inventory Item has been updated. Select **Exit**.

You may edit another item or elect to **Go Back** so you can search for another item to perform the same or a different task.

Browse

Using the **Browse** feature, the inventory manager can search one or more warehouse locations by the type and category tree. (An advanced search is available for greater refinement.) The search results allow the inventory manager to select items to create a list. The inventory manager can then take action on the list, which is treated as a single group, and the selected action is applied to all items in the list. Actions available allow the inventory manager to assign items as needed to meet various needs. (Online RMS records each transaction as it occurs.)

From the *Inventory Management* page, click the **Browse** option to display the Browse screen.

The number of locations available to the current user is shown to the far left in the *Locations* banner near the top of the page.

Click the blue information bubble icon to the left of *Locations* to set the locations.

Set Locations	
D42 - Garage	<input checked="" type="checkbox"/>

To make the listed location available, ensure the box to the right is checked

To make the location unavailable, remove the check mark

Types are listed in the **By Type & Category** section in the upper left.

Categories are contained within the types folders.

The *Other Search Options* contains *Advanced Search*. Click on the Advanced Search button to view additional search fields.

The 'Other Search Options' section contains a button labeled 'Advanced Search' which is highlighted with a red box and a red arrow. Below this button are several search fields:

- INVENTORY NUMBER: Text input field.
- UNIT #: Text input field.
- MAKE: Text input field with a dropdown arrow.
- EXPIRATION DATE FROM: Text input field with a calendar icon.
- MAINTENANCE DATE FROM: Text input field with a calendar icon.
- SEARCH ON TYPE: Dropdown menu with '-Select-' selected.
- STATUS: Dropdown menu with '-Select-' selected.
- BARCODE: Text input field.
- EXPIRATION DATE TO: Text input field with a calendar icon.
- MAINTENANCE DATE TO: Text input field with a calendar icon.
- AVAILABILITY: Dropdown menu with '-Select-' selected.
- SERIAL NUMBER: Text input field.
- MODEL: Text input field with a dropdown arrow.

At the bottom of the section are two buttons: 'Reset' and 'Search'.

Enter the search criteria then click the **Search** button to return results.

Disposition Comments:

When you choose to Specify Groups **Add Entry** and **Add Disposal Entry** links appear. Click on the links to enter additional information.

Current Custody	Count	Lot #	Expiration Date	Status	Usability	Sub Location	Actions
OTHER LOCATION test	1	123_4-5		N/A	N/A	N/A	<input type="radio"/> Check In All <input type="radio"/> Dispose All <input checked="" type="radio"/> Specify Groups
Total Needing Entry: 1		Add Entry Add Disposal Entry					

A notification appears at the top of the screen advising the **Check In** was successful.

Note: For items checked back into a specific location, the on-hand count increases and the current location updates.

Packs

A **Pack** is a collection of items within a single grouping, i.e. initial issue. The **Pack** can then be checked out (assigned) as necessary.

Note: Before a new **Pack** can be created, the inventory manager must set up a pack category in the inventory tree under the appropriate type. (Pack categories can be set up under more than one type.) This is done via the *Inventory Setup* tab in the *Inventory Administration*.

From the *Inventory Management* page, select the **Packs** option to open the *Inventory Management - Manage Packs* page.

Go Back Add Pack

- Click in the Pack Name field and type a meaningful name to identify this grouping.
- In the Type field, select the type of inventory item to be grouped in this pack.
- In the Category field, select the appropriate pack category.
- If you want individuals to be able to check out this pack, click the Self Checkout box.
- In the Description field, type a brief description of the item.
- Select **Save** to return to the previous page where the new **Pack** now appears.

Inspections / Audits

Online RMS allows users with the appropriate roles to create inspections/audits and maintain the records. The idea is to create each type of inspection/audit that the agency needs. Print the report and use it to record the results of an inspection or audit.

Note: An **Audit** is a count of items by type, location, custody, and so forth. An **Inspection** also provides information about the item(s). The printed paper report available from each instance of an inspection/audit is used to record the results of the inspection/audit. The content of the report is persistent (stays the same over time) unless edited.

From the *Inventory Management* page select **Inspections / Audits**.

The *Inspection Search* page appears.

This page displays first to allow you to locate any existing inspection reports that suit your purpose, and if none are available, use the **Add Inspection** link to create a new one.

If you know that you need to create a new inspection, there is no need to perform a search, click the **Add Inspection** button to open the *Inventory Management - Add Inspection* page and create a new inspection (audit).

You can search by Inspection Date or Next Inspection Date (use the calendar icon to specify a beginning and/or ending date), by Status (New, Completed, Canceled), or you can limit the search to only the inspections you have created by clicking the Limit to My Inspections box, or just click Search to return a list of all inspection records, which may be an extensive list.

Complete the fields to limit your search as needed, then click **Search** to display the *Inspection Search Results* page.

Refine Search New Search Add Inspection								
Id	Inspection Name	Search Notes	Agency	Inspection Date	Next Inspection Date	Status	Creator	Actions
117	Silver Striped Teflon Pants		District 42, Versailles	05/15/2017	07/01/2017	New	Homer Simpson	
108	Silver Striped Teflon Pants		District 42, Versailles	04/05/2013	07/01/2017	Cancelled	Homer Simpson	
113	Smith And Wesson		District 42, Versailles	04/05/2013	04/12/2013	New	Homer Simpson	

The icons in the *Actions* column allow you to edit the inspection (if you are the owner), print it, or review it. If an icon is not available to you, then you do not have permissions to perform that action.

User Inventory Management

Use the following procedure to access the *User Inventory Management* module:

From the Home page, click the *Records Management* label to display a drop-down menu as shown.

Select the *User Inventory Management* option to display the *Inventory Management* page as shown below. There are four tabs available:

- View My Stock
- Self Check Out
- Self Check In/Transfer

- **Dispose Consumable Items**

Note: Depending upon your agency's configuration set-up and your roles and permissions, the options displayed may vary.

Select **View My Stock** to open the view *My Stock - Search Results* page.

This allows the Officer/Employee to view the items that have been issued or checked out to them.

Self Checkout

The **Self Checkout** feature addresses the need for specific items to be available on a routine basis. To maintain accountability, items designated by the inventory manager for **Self Checkout** can be checked out and in without manager intervention from Self Checkout locations.

For example, if hand held radar units were assigned to a patrol room and designated as available for **Self Checkout**, anyone with appropriate permissions on any shift can check the radar out and back in as needed.

Chapter 33. Fleet Management

Overview

The **Fleet Management** module provides the ability to manage ownership costs and service maintenance activities for agency vehicles and equipment assigned for officers' use. Use this module to manage crash reports, track mileage and costs, maintenance history, what is due for maintenance, and submit or manage service requests for needed maintenance or repairs.

This module is available with full subscription access to Online RMS. It is disabled by default but can be enabled, and additional user training is available for purchase. Contact Caliber Public Safety Support for more information.

Fleet Management can be configured specific to your agency's needs, such as an eligible list of equipment and service types, service vendors, allowable vehicle types and categories, inspection types, and more. Refer to the *Online RMS Administrator Guide* for details.

Fleet Management Permission Categories

There are five permission categories tied to the Fleet Management module:

- **Fleet Managers** have the authority to access the Fleet Management Dashboard, create or view fleet vehicles, edit all fleet vehicles and equipment records, manage crash reports, approve service requests, manage vehicle assignments they have created, and create and edit service maintenance records.

If given the *always-edit assignment* permission, fleet managers can edit assignments created by other users.

If given the *always-edit fuel & Oil* permission, fleet managers can edit fuel/oil/mileage records created by other users.

Fleet managers can delete vehicles, only if given specific permissions.

- **Mid-Level Managers** have all the Fleet Manager's permissions except the following: The ability to add vehicles and edit the primary vehicle fields or any custom fields associated with the vehicle.

- **Fleet Officers** view fleet vehicles and equipment currently or previously assigned to them, assign themselves to existing vehicles, create fuel & oil and service requests on vehicles to which they are appointed.
- **Fleet Clerk** views fleet vehicles and add fuel & oil records with mileage, and edit records only if you are the creator and only if within lock hours.
- **Application Administrators** configure the set-up of the module, such as define the eligible list of equipment and service types, vehicle types and categories, service vendors, inspection types, and more. Refer to the *Online RMS Administrator Guide* for details.

Permission categories can be assigned to any role to allow the agency to best manage user access to application modules.

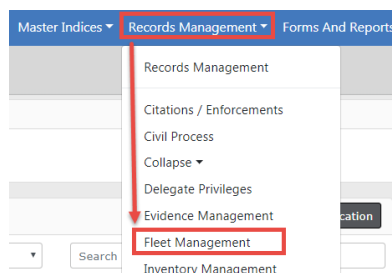

The person with the **Fleet Manager** permission category could also be an **Application Administrator**, or it could be two different people.

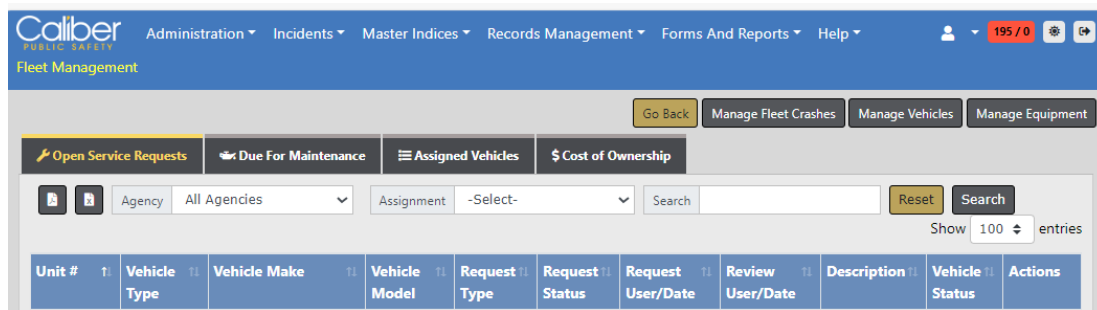

Note: Vehicle Make, Model, Type, and Styles for Fleet Vehicles share admin tables with the *Inventory and Asset Module*. Configure these values at the Organization level. The *Inventory and Asset Module* must be enabled, and the **Application Administrators** must also have the **Inventory_Manager** role. Refer to the *Inventory and Asset* section of the *Online RMS Administrator Guide* for details.

Fleet Manager

Dashboards in the *Fleet Management* section all filter on agency based on the user's search preference setting.

Click on the **Records Management** menu to access the **Fleet Management Dashboard**, an interactive user interface used as a launching pad for viewing and managing fleet data. *Open Service Requests* is shown by default.

1. There are four tabs that contain existing vehicle information:

The active tab is a different color than the other tabs.

Open Service Requests

- Vehicles tied to submitted maintenance requests that are pending completion.

Due for Maintenance

- Vehicles that meet set criteria since the last performed service maintenance.

Assigned Vehicles

- The tab includes actions for attached custom forms, end open assignments, add fuel/oil mileage records, and select.

Cost of Ownership

- The total cost (purchase price + fuel and oil costs + maintenance and repair costs), total mileage or hours on the vehicle, and the cost per mile or hour. The dashboard defaults to this tab.

- Four buttons on the top right of the window:

- Click the **Manage Fleet Crashes** button to add, update, or delete fleet crash reports. For details refer to "Manage Fleet Crash Reports" on page 681.

Note: You can also create or manage a Crash Report under the **Manage Vehicles** option.

- Click the **Manage Vehicles** button to add, update, or delete vehicles. For details refer to "Manage Vehicles" on page 700.
- Click the **Manage Equipment** button to add, update, or delete equipment associated with vehicles. For details refer to "Manage Equipment" on page 694.
- Click the **Go Back** button to return to the dashboard.

- You can change the number of entries that appear in the grid. Click on the **Show Entries** ☒ and select 10, 25, 50 or 100. The default is 10.

- The bottom of the window displays the number of entries and it allows you to navigate between pages.

The highlighted number is the page currently being viewed. Click **Next** to advance to the next page, or click the page number you want to view. Click on **Previous** to view the previous page.

5. Each tab allows you to filter the grid data that appears in the grid. Depending on permissions you can filter by agency, assignments, and a specific word or phrase.

- Click on the tab you want to view, if different than the default **Cost of Ownership**.
- Select one, two, or all three search options:
 - If applicable, optionally select an **Agency** from the list. The results list immediately displays only records pertaining to that selection.
 - Optionally, select an **Assignment** from the list. The results list immediately displays only records pertaining to that selection.
 - Optionally, enter text into the **Search** box, then click the **Search** button or press **Enter** to display only records matching the entered text. The displayed list dynamically changes based on the entered text.

Search text example:

On the **Cost of Ownership** tab enter *Chev* in the text box, then click **Search** or press **Enter** to show only records containing *Chev*. Change the text to *Impala* then click **Search** or press **Enter** to display only records containing *Impala*.

Note: Screen captures of tabs herein may refer to previous versions of the software, but the functionality remains the same.

Unit #	Vehicle Type	Vehicle Make	Vehicle Model	Vehicle Category	Total Miles/Hours	Total Cost	Cost Per Mile/Hour	Total Hours Down	Vehicle Status	Assignment	Actions

PRIMARY COLOR	SECONDARY COLOR	
DESCRIPTION		
STATUS Assigned	UNIT NUMBER ddd	CATEGORY
ASSIGNMENT	GROUP	BUDGET
RATING	FUNDING VENDOR	
PURCHASE DATE	PURCHASE PRICE	PURCHASE FROM
PURCHASE COMMENT		

The *View Fleet Vehicle* window contains three tabs:

Vehicle
Assignments
Fuel / Oil / Mileage

Vehicle

- Detailed information about the vehicle itself, such as license number, purchase price, make and model, current mileage, etc.; maintenance records; associated equipment; and service requests with statuses. The *View Fleet Window* opens to this tab by default as shown in the above image.

Assignments

- A history of officers or employees who are non-officers assigned to the vehicle, including dates.

Fuel/Oil/Mileage

- Summarization of fluid types and the dates and costs with mileage.
- d. Click on the **Back** button to return to the **Dashboard**. For your convenience, this button is located on the upper right of the window and on the lower center of the window; either will return you to the **Dashboard**.

Manage Fleet Crash Reports

The **Manage Fleet Crashes** button on the **Fleet Management Dashboard** allows Fleet Managers to *Search, Add, Edit, or Delete* fleet crash report data.

To update or delete crash reports you must first search for the crash record. Depending on permissions, the search results provide the option to update, delete, or view the crash data. The search page also provides the option to create a new crash report.

Note: The **Manage Fleet Crashes** button only appears if you have appropriate permissions.

Note: With appropriate permissions, you can also create or manage Crashes from the *Edit Fleet Vehicle* screen. Refer to "Edit Vehicles " on page 711 for details.

Search Fleet Crash Reports

1. Click on the **Manage Fleet Crashes** button on the **Fleet Management** dashboard. For details on accessing the dashboard refer to "Fleet Manager" on page 676.
2. The *Crash Search* screen appears. Enter various pieces of information about the crash report such as, status, cause, dates, crash report number, vehicle id, etc.

Note: The Agency of the crash report defaults to the Fleet Manager's agency; however, with proper permissions you can change it to any agency within your organization by selecting from the drop down list.

To add a crash report, click the **Add Fleet Crash** button on the top right of the screen. For instructions on adding a crash report refer to "Add Crash Report" on the facing page.

The fields with **-Select-** supply a specific list from which to choose. For example, to search for a **Cause** click in the field and select from the drop down list.

The fields with an  on the right supply a list of available values based on data you type in the field. For example, click into the **Officer/Employee** field and type a portion of the name to view a list that matches your entered text, then click on an option from the list to populate the Officer/Employee field.

Note You must select from the list that appears for the system to function as intended, even if you manually enter data into this field to narrow down your choices.

Select any applicable check boxes that apply to the search. For example, select **On Traffic Stop** to search for crash report that pertain to traffic stops.

3. Either click **Reset** to clear all fields to start over, click **Go Back** to return to the Fleet Management dashboard, click **Search** to display a list of existing crashes that match the entered data.

If you selected **Search**, the results display in a grid.

Crash Report #	Reference Numbers	Officer/Employee	Unit #	Vehicle ID	Crash Date / Time	Summary	Agency	Status	Cause	Preventable?	Actions
015-20		Livingwell, Charles, ID# 2014		70	03/26/2020 1616		District 42, Versailles	Closed	Accident	Yes	  
005-20		Livingwell, Charles, ID# 2014	DM123	57	03/03/2020 1458		District 35, Evansville	Open		No	  

Click **Refine Search** to modify your current search criteria, click **New Search** to start the search over. Click on the Crash Report Number of the crash record to view details, or click on the **View** icon  on the right.

4. To export the search results to a file, refer to "Export Search Results" on page 36.

Add Crash Report

Fleet Managers, with proper permissions, have the ability to add crash reports to fleet vehicles.

There are two ways to initiate a new crash report:

- From the *Crash Search* page.
- From the fleet vehicle record.

Perform the following steps to add a crash report:

1. Access the **Fleet Management Dashboard**. For details on accessing the dashboard refer to "Fleet Manager" on page 676.
2. Choose one of the following methods to initiate a new crash report:

From the Crash Search page:

- a. Click on the **Manage Fleet Crashes** button on the **Fleet Management Dashboard** to open the *Fleet Crash Search* page.
- b. Click on the **Add Fleet Crash** button.
- c. The *Vehicle Search* page opens.
- d. Search for the vehicle record that you want to associate with the crash report. For more information on searching for a vehicle record, refer to "Search Vehicles " on page 700.

- e. Click the *Select* icon  on the appropriate vehicle record in the results grid to add the vehicle to the new crash report.

35 result(s) found									
Vehicle ID	Unit Number	Make	Model	Status	Agency	Assigned Officers/Employees	Purchased Date	Current Mileage	Actions
72	Test1	DODGE(DODG)	Charger	Assigned	District 34, Jasper	Super Maj Captain, Frawley, Fred, ID# 454	12/01/2020	100	   

- f. The *Edit Fleet Crash* page opens.

From the Fleet Vehicle:

- a. Click on the **Manage Vehicle** button on the **Fleet Management Dashboard** to open the *Vehicle Search* page.
- b. Search for the vehicle record that you want to associate with the crash report. For more information on searching for a vehicle record, refer to "Search Vehicles " on page 700.
- c. In the *Fleet Vehicle Search Results* grid, click the *Edit* icon  on the vehicle you want to associate with the new crash report.

35 result(s) found									
Vehicle ID	Unit Number	Make	Model	Status	Agency	Assigned Officers/Employees	Purchased Date	Current Mileage	Actions
72	Test1	DODGE(DODG)	Charger	Assigned	District 34, Jasper	Super Maj Captain, Frawley, Fred, ID# 454	12/01/2020	100	   

- d. The *Edit Vehicle* page opens.
- e. On the *Edit Vehicle* page, **page down** to the *Crashes* section of the fleet vehicle record.

Crashes								
Crash Report #	Crash Type	Crash Cause	Status	Officers/Employees	Preventable	Crash Date / Time	Summary	Actions
010-20			Open		No			 
005-20			Open	Livingwell, Charles, ID# 2014	No	03/03/2020 1358		 

- f. Click on the **Add Fleet Crash** link located on the top right of the *Crashes* section.
- g. Click on the **Yes** button when asked if you want to continue.
- h. The *Edit Crash* page appears.
3. Enter the relevant information on the *Edit Crash* page, then click **Update**.

For more information on the *Edit Crash* page, refer to "Edit Crash Report" on page 686.

Delete Crash Report

To delete a crash report you must first **Search** for the crash report. The **Search Results** will provide the option to delete.

1. Click on the **Manage Fleet Crashes** button on the **Fleet Management** dashboard. For details on accessing the dashboard refer to "Fleet Manager" on page 676.
2. The *Crash Search* screen appears. Search for the crash report you want to delete. For instructions on how to search, refer to "Search Fleet Crash Reports" on page 681.

Example of search results:

35 result(s) found

The icons on the right allow you to *Edit*, *View*, or *Delete*.

Note: If you do not see the delete icon, then you do not have appropriate permissions to do so.

3. Click on the trash icon  to delete the appropriate equipment. The confirmation screen appears.

Message From RMS

Are You Sure?

No Yes

4. Click **Yes** to delete or **No** to return to the results window without deleting.

Edit Crash Report

Fleet Managers, with proper permissions, have the ability to edit crash reports.

There are two ways to access the *Edit Fleet Crash* page:

- By searching for a specific crash report using the *Crash Search* page.
- From the fleet vehicle itself.

Perform the following steps to edit a crash report:

1. Access the **Fleet Management Dashboard**. For details on accessing the dashboard refer to "Fleet Manager" on page 676.
2. Choose one of the following methods to access the *Edit Fleet Crash* page:

From the *Crash Search* page:

- a. Click on the **Manage Fleet Crashes** button on the **Fleet Management Dashboard**.
- b. The *Crash Search* screen appears. Search for the crash report you want to update. For instructions on how to search, refer to "Search Fleet Crash Reports" on page 681.

Search results example:

4 result(s) found										
Crash Report #	Officer/Employee	Unit #	Vehicle ID	Crash Date / Time	Summary	Agency	Status	Cause	Preventable?	Actions
007-20	Gordmanson2, Christian (osuper), ID# 90	dmm3	55	03/05/2020 1222		District 42, Versailles	Open		No	 
005-20	Livingwell, Charles, ID# 2014	DM123	57	03/03/2020 1358		District 35, Evansville	Open		No

Go Back **Reset** **Search**

- b. Enter as much information as possible to find the address record, then click the **Search** button to display results that match your entered criteria.

For more information on searching address records, refer to the *Address Search* section of "Searching Master Records" on page 87.

- c. Click on the select icon  to select the appropriate address record that appears in the grid.

Street #	Dir	Street Name/Type	Dir Suffix	Sub Type	Sub #	City/State	Zip	Common Place	Reporting Area	Geo Verified	Index ID	Actions
123		Cherry Lane				Golden, IN				Yes	1690	 

When address you need does not exist:

When the address you are looking for does not exist in the system, you can, with appropriate permissions, add the record then select it.

Click on the **Add Address** button on the top right to add a new address record. If the button does not appear on your screen, then you do not have appropriate permissions.

For more information on adding an address record, refer to "Adding Address" on page 109.

- d. The address is added to the *Location Details* grid of the Crash Report.

- e. Optionally, enter **Location Comments** then click on the **Update** button to save.
- f. Click the **Change Location** link to change the address, if applicable. The link open the *Address Search* form.
- g. Click the **Remove Location** link to remove the location and location comment from the grid, if applicable. Then confirm deletion.

Officer/Employee

1. Click on the **Add Officer/Employee** or **Change Officer/Employee** link, whichever applies.
2. The *Assigned Officers/Employee* windows appears.

Assigned Officers/Employees

Officer(s)/Employee(s)	Assign Start Date	Assign End Date	Actions
Cid Detective, MANNY, Benjamin (cid), ID# 306	03/14/2020 1748		
Supervisor, Lauren, Ralphie (off), ID# 1010	03/11/2020 1346		

OFFICER/EMPLOYEE

Cancel
Save

Officers/employees assigned or previously assigned to the vehicle the past twelve months appear in the list.

3. Select the appropriate officer/employee from the list provided.
4. Click **Save**.

To remove an officer/employee, click on the delete icon then confirm deletion.

Associate Incident

1. If applicable, click on the **Associate Incident** link to associate the crash report with an incident.
2. The *Incident Search* window opens. Enter the search criteria and click the **Search** button to display the results, then select the appropriate incident from the results grid. For more information on searching for incidents, refer to "Incident Search" on page 270.
3. To remove an associated incident from the crash report, click the delete icon then confirm deletion.

If the delete icon is not present, then you do not have appropriate permissions.

Note: This removes the association to the incident from the crash report; it does not remove the incident from the system.

References

1. If applicable, click on the **Add Reference** link to include a reference.

A dialog box titled "Reference" with a close button (X) in the top right corner. It contains two sections: "REFERENCE TYPE" with a dropdown menu showing "Tracking #" and a downward arrow, and "REFERENCE NUMBER" with a text input field containing "123456". At the bottom right are "Cancel" and "Save" buttons.

Note: Items specific to crash reports:

- Maintenance records created within a crash report are only visible within the crash report, not in the Service Maintenance grid on the fleet vehicle itself.
 - Costs associated with service maintenance records within a crash report are not included in the Cost of Ownership on the fleet vehicle itself.
 - Mileage associated with the service maintenance records within a crash report are not used when determining Next Service Mileage and Next Service Date on the fleet vehicle itself.
5. To edit an existing service/maintenance record on the crash report, click on the edit icon , make changes, then click **Save**.
 6. To delete a service/maintenance record from the crash report, click on the delete icon , then click **Yes** to confirm deletion.

Crash Towing

1. If applicable, click on the **Add Towing** link to add towing to the crash report. A *Vehicle Towing* window opens.
2. You can **Select Company** then choose from a drop-down list, or **Add Company** and complete the necessary information.

The image shows a 'Vehicle Towing' form window. At the top, there are two radio buttons: 'SELECT COMPANY' (selected) and 'ADD COMPANY'. Below this is a 'COMPANY NAME' dropdown menu with 'Lake Towing Company' selected. The form is divided into several sections: 'ADDRESS' with a text field containing '300 Miami Trail Road'; 'CITY' with a text field containing 'Lowell'; 'STATE' with a dropdown menu showing 'Indiana'; 'ZIP' with a text field containing '46356'; 'PHONE' with a text field containing '800', a separator, a text field containing '555', a separator, and a text field containing '3333'; 'DRIVER' with a text field containing 'Robin Poharcyk'; 'REFERENCE NUMBER' with a text field containing '12345'; and 'TOW DATE' with a text field containing '03/02/2020' and a calendar icon. Below these is a 'TOW COST' text field containing '\$75.00' and a 'COMMENTS' text area. At the bottom right are 'Cancel' and 'Save' buttons.

3. Click **Save** to add the towing record to the crash report.
4. To edit an existing towing record on the crash report, click on the edit icon , make changes, then click **Save**.

- To delete a towing record from the crash report, click on the delete icon , then click **Yes** to confirm deletion.

Attachments

- If applicable, click on the **Add Attachment** link to attach a photo or document to the crash report.

For more information on adding attachments, refer to "Add Attachments" on page 69.

For general information about attachments, refer to "Attachments Overview" on page 69.

Manage Equipment

The **Manage Equipment** button on the **Fleet Management Dashboard** allows Fleet Managers to *Search*, *Add*, *Edit*, and *Delete* equipment data. Equipment examples are handcuffs, shotguns, radar guns, etc.

To update or delete equipment you must first search for the equipment record. The search results will provide the option to update, delete, or view the equipment data.

Search Equipment

- Click on the **Manage Equipment** button on the **Fleet Management** dashboard. For details on accessing the dashboard refer to "Fleet Manager" on page 676.
- The **Fleet Equipment Search** screen appears. Enter various pieces of information about the equipment such as, equipment type, make, model, etc.

Note: The Agency of the equipment defaults to the Fleet Manager's agency; however, with proper permissions you can change it to any agency within your organization by clicking on the .

To add equipment click the **Add Equipment** button. For instructions on adding equipment refer to "Add Equipment " on the next page.

The fields with **-Select-** supply a specific list from which to choose. For example, to search for the **Equipment Type** *Handcuffs*, click on the  and a list will appear, then click *Handcuffs* from the list.

NOTE: Equipment Types are unique per Organization.

The fields with an  on the right supply a list of available values based on data you type in the field. For example, click into the **Make** field and type *Acme* to view a list of *Acme* options from which to choose, then click on the option you want and it appears in the **Make** field.

MAKE

Acme Chemicals x 

Note You must select from the list that appears for the system to function as intended, even if you manually enter data into this field to narrow down your choices.

3. Either click **Reset** to clear all fields to start over, click **Back** to return to the Fleet Management dashboard, click **Search** to display a list of existing equipment that matches the entered data, or **Add Equipment** to add the equipment to the database.

If you selected **Search**, the results display in a grid. The example below is a search result for **Equipment Type** *Handcuffs* and **Agency** *District 42, Versailles*.

Equipment Id	Type	Make	Model	Agency	Active	Actions
22	HANDCUFFS	Acme Chemicals	GAS-1 mask	District 42, Versailles	true	
19	HANDCUFFS	Smith And Wesson	Focus	District 42, Versailles	true	
17	HANDCUFFS	911 Gear	Camaro	District 42, Versailles	true	
14	HANDCUFFS	Ruger	Focus	District 42, Versailles	true	

Click **Refine Search** to modify your current search criteria, click **New Search** to start the search over. Click on the Equipment ID of the equipment record to view details, or click on the **View** icon  on the right.

- To export the search results to a file refer to "Export Search Results" on page 36.

Add Equipment

Fleet Managers have the ability to add equipment to the Fleet Management module by way of the **Fleet Management Dashboard**. For details on accessing the dashboard refer to "Fleet Manager" on page 676.

- Click on the **Manage Equipment** button on the **Fleet Management** dashboard.
- The **Fleet Equipment Search** screen appears. Before adding the equipment, it is recommended you first search for the equipment to verify whether or not it already exists, though not required. For instructions on how to search for equipment refer to "Search Equipment" on page 694.
- Click on the **Add Equipment** button on the **Fleet Equipment Search** window. Enter the Equipment information in the fields provided.

- The **Agency** of the equipment defaults to the Fleet Manager's agency; however, you can change it to any agency within the organization by clicking on the .
- The fields with **-Select-** supply a specific list from which to choose. For example, to search for the **Equipment Type Handcuffs**, click on the  and a list will appear, then click *Handcuffs* from the list.

Update

- Click **Go Back** to return to the **Fleet Equipment Search** screen.

Delete Equipment

To delete equipment you must first **Search** for the equipment. The **Search Results** will provide the option to delete the equipment data.

1. Click on the **Manage Equipment** button on the **Fleet Management** dashboard. For details on accessing the dashboard refer to "Fleet Manager" on page 676.
2. The **Fleet Equipment Search** screen appears. Search for the equipment you want to delete. For instructions on how to search for equipment refer to "Search Equipment " on page 694.

The results below are based on a search for equipment type Radar.

Equipment Id	Type	Make	Model	Agency	Active	Actions
27	RADAR	RADAR CO	Lazer	District 42, Versailles	true	  
20	RADAR	Smith And Wesson	Focus	District 42, Versailles	true	  

The icons on the right allow you to *Edit*, *View*, or *Delete*.

3. Click on the trash icon to *Delete* the appropriate equipment. The following confirmation screen appears.

Message From RMS

Are You Sure?

No Yes

4. Click **Yes** to delete or **No** to return to the results window without deleting.

Edit Equipment

To edit equipment you must first **Search** for the equipment. The **Search Results** will provide the option to edit the equipment data.

1. Click on the **Manage Equipment** button on the **Fleet Management** dashboard. For details on accessing the dashboard refer to "Fleet Manager" on page 676.
2. The **Fleet Equipment Search** screen appears. Search for the equipment you want to update. For instructions on how to search for equipment refer to [FleetManagerManageEquipSearch.htm](#).

The results below are based on a search for equipment type Radar.

Equipment Id	Type	Make	Model	Agency	Active	Actions
27	RADAR	RADAR CO	Lazer	District 42, Versailles	true	  
20	RADAR	Smith And Wesson	Focus	District 42, Versailles	true	  

The icons on the right allow you to *Edit*, *View*, or *Delete*.

3. Click the *Edit* icon on the equipment record you want to update and the **Edit Equipment** form opens.

The screenshot shows the "Edit Equipment" form. It has a "Go Back" button in the top right. The form is divided into several sections: "AGENCY" (District 42, Versailles), "TYPE" (RADAR), "MAKE" (RADAR CO), "MODEL" (Lazer), "SERIAL NUMBER" (10101), "OAN" (empty), "COST" (500), "PURCHASE VENDOR" (ISP Vendor), "VENDOR COMMENTS" (like new), "PROCUREMENT DATE" (11/30/2017), and "DESCRIPTION" (smoke test radar). At the bottom, there are "Go Back" and "Update" buttons.

4. Modify the necessary information then click the **Update** button to save.

5. Click **Go Back** to return to the **Fleet Equipment Search** screen.

Manage Vehicles

The **Manage Vehicles** button on the **Fleet Management Dashboard** allows Fleet Managers to *Search, Add, Edit, and Delete* vehicle data.

To update or delete vehicles you must first search for the vehicle. The search results provide the option to update, delete, or view fleet vehicle data.

Search Vehicles

1. Click on the **Manage Vehicles** button on the **Fleet Management** dashboard. For details on accessing the dashboard refer to "Fleet Manager" on page 676.
2. The **Fleet Vehicle Search** screen appears. Enter various pieces of information about the vehicle, such as VIN, Make, Model, etc.

Note: The Agency of the vehicle defaults to the Fleet Manager's agency; however, with proper permissions you can change it to any agency within the organization by clicking on the  .

Go Back Reset Search

To add a vehicle click **Add Vehicle**. For details refer to "Add Vehicles " on page 706.

The fields with **-Select-** supply a specific list from which to choose. For example, to search for a vehicle **Type** of *Automobile* click on the  and a list will appear, then click *Auto-mobile* from the list and it appears in the field.

TYPE

-Select- 

Note: The list of available **Styles** dynamically changes based on the chosen **Type**.

The fields with an  on the right supply a list of available values based on data you type in the field. For example, click into the **Make** field and type *chev* to view a list of *chev* options from which to choose, then click on the option you want and it appears in the **Make** field.

MAKE

CHEVROLET(CHEV) 

Note You must select from the list that appears for the system to function as intended, even if you manually enter data into this field to narrow down your choices.

Note: The list of available **Models** dynamically changes based on the chosen **Make**.

Check the **Vehicle Not Assigned** checkbox to search for vehicles that have not been assigned.

You can also reduce your search results by including **Additional Search Criteria**, along with your other search parameters or by themselves, by using the drop-down list at the bottom left of the *Fleet Vehicle Search* screen. For example, you can search for all *Chevrolet* vehicles assigned to officers by selecting **Officer/Employee** in the **Additional Search Criteria** drop-down, then check the **Assigned?** box if not already checked when the name fields appear. You can also optionally add name or badge information. Click **Search** to display the results or click **Reset** to begin the search over.

Note: The Officer search option searches both officer and employee records to accommodate assignments where employees are not officers.

The image shows two parts of the user interface. The top part is a dropdown menu titled 'ADDITIONAL SEARCH CRITERIA' with the following options: 'Officer/Employee', '-Select-', 'Officer/Employee' (highlighted), 'Repairs', 'Equipment', and 'Custom Fields'. The bottom part is a search form with the same dropdown menu set to 'Officer/Employee'. Below the dropdown are four input fields: 'LAST NAME', 'FIRST NAME', 'BADGE #', and 'ASSIGNED?'. The 'ASSIGNED?' field has a checked checkbox. At the bottom of the form are three buttons: 'Go Back', 'Reset', and 'Search'.

You can also search **Custom Fields** if configured by your agency. The **Available Fields** appears; click in the field and choose from the drop-down list.

The image shows two parts of the user interface. The top part is a dropdown menu titled 'ADDITIONAL SEARCH CRITERIA' with the following options: 'Custom Fields' (highlighted), and a dropdown arrow. The bottom part is a dropdown menu titled 'AVAILABLE FIELDS' with the following options: '-Select Field-', '-Select Field-' (highlighted), 'Fleet Vehicle Fields', and 'Test'.

Then enter the **Search Parameter** at the prompt and click **Search**.

4. When the search results display, either click **Refine Search** to update your current search criteria or click **New Search** clear all fields to start over.

Click on the **Vehicle ID** of the vehicle record to view details, or click on the View icon

Click on the Add Custom Forms icon to easily add custom forms to the fleet vehicle.

For more information, refer to "Add Custom Forms to Fleet Vehicle and Assignments" below.

5. To export search results to a file refer to "Export Search Results" on page 36.

Add Custom Forms to Fleet Vehicle and Assignments

Your agency administrator controls whether or not Custom Forms are available for selection on Fleet Vehicle or Fleet Vehicle Assignments. For more information on availability of Custom Forms, refer to your agency administrator.

To Add a Custom Form to a Fleet Vehicle

1. Choose one of the following options.

Option 1

- a. Access *Manage Vehicles > Fleet Vehicle Search > Fleet Vehicle Search Results*.

Fleet Management / Fleet Vehicle Search / Fleet Vehicle Search Results

7 result(s) found

Vehicle ID	Unit Number	Make	Model	Status	Assignment	Agency	Assigned Officers/Employees	Purchased Date	Current Mileage	Actions
50		CHEVROLET(CHEV)		Available		District 42, Versailles		07/03/2017	34500	   
28	ddd	CHEVROLET(CHEV)	IMPALA	Assigned		District 42, Versailles			15020	   
27		CHEVROLET(CHEV)		Assigned		District 42, Versailles	USER, TESTER - (Badge #: 98765)		1260	   

For details on accessing *Manage Vehicles*, refer to "Fleet Manager" on page 676.

- b. Click the Add Custom Forms icon .
- c. Select the available Custom Form from the list.

Attached Forms

Add Form -Select-

Cancel

- d. Go to Step 2.

Option 2

- a. Access *Edit Fleet Vehicle* and click on the **Vehicle** tab, if not already on the tab.

 **Vehicle**  Assignments  Fuel / Oil / Mileage

For details on accessing *Edit Fleet Vehicle*, refer to "Edit Vehicles " on page 711.

- b. Page down to the **Attached Forms** grid then select the form.

Attachments  View External Attachments  Add Attachment

Attached Forms

Add Form -Select-

- c. Go to Step 2.

Option 3

- a. Access *Cost of Ownership* of Fleet Management.

Unit #	Vehicle Type	Vehicle Make	Vehicle Model	Vehicle Category	Total Miles/Hours	Total Cost	Cost Per Mile/Hour	Total Hours Down	Vehicle Status	Assignment	Actions
Car 4		DODGE(DODG)	Ramcharger		0	\$0.00	\$0.00	0	Dana's Status		
D123		TOYOTA(TOYo)	Highlander		20,001	\$135.00	\$0.01	1	Assigned	Command Staff	
DMM2					0	\$0.00	\$0.00	0	Assigned		

For details on accessing *Cost of Ownership*, refer to "Fleet Manager" on page 676.

- b. Click the Add Custom Forms icon .
- c. Select the available Custom Form from the list.

- d. Go to Step 2.
2. The chosen form opens.
3. Complete the form and optionally print.
4. Click **Save** to save your entry and stay on the form, or click **Save and Exit** to save your entry and close the form.
5. If you click **Save**, a **Submit for Review** button appears. Click to submit for review if appropriate.
6. The Custom Form record then appears in the **Attached Forms** grid of the fleet vehicle record.

Form Name	Creator Name	Date Created	Assignment Start Date	Assignment End Date	Actions
Ang Test Custom Form	SERGEANT-CAPTAIN-WIN Todd Simpson(Badge #: 9696) - District 42, Versailles	07/08/2021 1241			
Ang Test Custom Form	Chief Charles Livingwell(Badge #: 2014) - District 42, Versailles	06/25/2021 1109	11/30/2020 1247		

Note: Custom Forms added to the Fleet Vehicle do not have an Assignment Start Date and Assignment End Date, whereas Custom Forms added to the Fleet Vehicle Assignment do.

To Add a Custom Form to a Fleet Vehicle Assignment:

1. Choose one of the following options:

Option 1

- a. Access *Edit Fleet Vehicle*, click on the **Assignments** tab.

For details on accessing Edit Fleet Vehicle, refer to "Edit Vehicles " on page 711.

- b. Click the Add Custom Form icon .

Option 2

- a. From the *Vehicles* grid on the *Edit Officer Daily Log*.

For details on accessing the Officer Daily Log, refer to "Officer Daily Log (ODL) Overview" on page 539.

- b. Click the Add Custom Form icon .

2. Select the available custom form from the list.

3. Go to "To Add a Custom Form to a Fleet Vehicle" on page 703 and page down to step 2.

Add Vehicles

Fleet Managers have the ability to add vehicles to the Fleet Management module by way of the **Fleet Management Dashboard**. For details on accessing the dashboard refer to "Fleet Manager" on page 676.

1. Click on the **Manage Vehicles** button on the **Fleet Management** dashboard.
2. The **Fleet Vehicle Search** screen appears. Before adding the vehicle, it is recommended you first search for the vehicle to verify whether or not it already exists, though not required. For instructions on how to search for vehicles refer to "Search Vehicles " on page 700.
3. Click on the **Add Vehicle** button on the **Fleet Vehicle Search** window to open the **Add Fleet Vehicle** screen. Enter the Vehicle information in the fields provided.

Note: Custom Fields, if applicable, appear on the screen immediately above the grid section on the *Vehicle* tab. The custom field Test is used as an example.

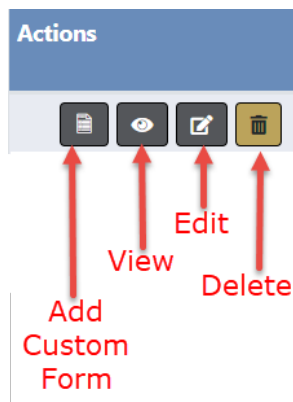

Delete Vehicles

This applies to users with permissions to delete vehicles.

To delete vehicles you must first **Search** for the vehicle. The **Search Results** will provide the option to delete the vehicle data.

1. Click on the **Manage Vehicles** button on the **Fleet Management** dashboard. For details on accessing the dashboard refer to "Fleet Manager" on page 676.
2. Search for the vehicle you want to delete, then in the search results window click the *Delete* icon on the vehicle record you want to delete. For instructions on how to search for vehicles refer to "Search Vehicles " on page 700.

3. A confirmation window appears. Click **Yes** to delete or **No** to return to the search results window without deleting.

Note: If the vehicle is assigned to an officer, the option to delete is not allowed.

Edit Vehicles

To edit vehicles you must first **Search** for the vehicle. The **Search Results** will provide the option to edit the vehicle data.

1. Click on the **Manage Vehicles** button on the **Fleet Management** dashboard. For details on accessing the dashboard refer to "Fleet Manager" on page 676.
2. Search for the fleet vehicle you want to update, then in the search results window click the **Edit**  icon on the vehicle record you want to update. For instructions on how to search for vehicles refer to "Search Vehicles " on page 700.

You can add a custom form  to the vehicle from *Fleet Vehicle Search Results* without entering edit mode with appropriate permissions. For more information, refer to "Add Custom Forms to Fleet Vehicle and Assignments" on page 703.

3. The **Edit Fleet Vehicle** form opens with three tabs that contain vehicle information, past and current officers assigned to the vehicle, and fuel/oil/mileage history.

4. The **Vehicle** tab opens by default. You can update, add or delete various vehicle information.

ASSIGNED OFFICERS 		LAST DATE STATUS WAS CHANGED 02/19/2024 0923

[Update](#)

Note: Custom Fields, if applicable, appear on the screen immediately above the grid section on the *Vehicle* tab. The custom field Test is used as an example.

Note: Cost of Ownership does not include service maintenance records created within a crash report.

Note: Be aware of the following crash report items:

- You can create or manage crash reports from the *Edit Fleet Vehicle* screen.

Click the **Add FleetCrash** link to create a crash report, or click the edit icon  on a crash record in the grid to update a crash report. For details on managing crash reports, refer to "Manage Fleet Crash Reports" on page 681.

- Maintenance records created within a crash report are only visible within the crash report, not in the Service Maintenance grid on the fleet vehicle itself.
- Costs associated with service maintenance records within a crash report are not included in the Cost of Ownership on the fleet vehicle itself.
- Mileage associated with the service maintenance records within a crash report are not used when determining Next Service Mileage and Next Service Date on the fleet vehicle itself.

Click the **Go Back** button to return to the **Fleet Vehicle Search Results** window, if you wish.

5. Modify the necessary vehicle information on the top half of the form, then click the **Update** button to save.

Note: If you modify the VIN number, a message displays asking if you would like to continue.

Message From RMS
The vehicle VIN has been changed. Would you like to continue?
<div>No Yes</div>

6. Add, edit, or delete additional vehicle information that appears in grids below the **Update** button. While the instructions below only show one example, a similar method applies to all grid sections.

Add Additional Vehicle Information

- a. To add, click on the  button in the grid next to the item you want to add. Enter the necessary data in the window that appears.

For example, to add Inspection data, click on the  button next to *Add Inspection* and the following window appears:

Inspection

TYPE
-Select-

STATUS
-Select-

REFERENCE NUMBER

COMMENTS

INSPECTION DATE
03/15/2019

Cancel Save

- b. Enter the necessary data then click **Save** to add, or **Cancel** to exit and return to the previous screen.

Edit Additional Vehicle Information

- a. Click on the edit icon to the right of the item you want to update.

Type	Status	Inspection Date	Comments	Actions
Safety	Pass	12/04/2018	Tested for safety and it passed, but must be retested in the near future.	 

- b. An Inspection window appears displaying the current information for that item.
- c. Update as needed then click **Save** to apply the updates, or **Cancel** to return to the **Edit Fleet Vehicle** window without saving.

Delete Additional Vehicle Information

- a. Click on the trash can icon to the right of the item you want to delete.

Type	Status	Inspection Date	Comments	Actions
Safety	Pass	12/04/2018	Tested for safety and it passed, but must be retested in the near future.	 

- b. A confirmation window appears. Click **Yes** to delete or **No** to return to the **Edit Fleet Vehicle** window without deleting.

Message From RMS

Are You Sure?

No Yes

Vehicle Assignments

You can assign vehicles to officers or employees, regardless if they have a user account or not.

1. Click on the **Assignments** tab to add, edit, and delete officer/employee assignments.

Officer(s)/Employee(s)	Assign Date	Assign End Date	Mileage	Comments	Actions
Smith, Johnny, ID# emp123 03/31/2020 1610 - Smith, Johnny, ID# emp123 03/31/2020 1610 - Smith, Johnny, ID# emp123 03/31/2020 1610 - Livingwell, Charles, ID# 2014 03/31/2020 1611 -	03/31/2020 1510		25500 -		
Livingwell, Charles, ID# 2014 03/31/2020 1333 - 03/31/2020 1348	03/31/2020 1232	03/31/2020 1348	25000 - 25500		

Showing 1 to 2 of 2 entries

Previous 1 Next

With permissions, you can click to quickly add a custom form to the fleet vehicle from the Assignments tab. For more information, refer to "Add Custom Forms to Fleet Vehicle and Assignments" on page 703.

Note: New Assignments cannot be created on a vehicle with a **Status** of *Sold* or *Out of Service*. A cannot assign message displays if you try to assign a vehicle that is no longer available.

• Cannot Assign this Vehicle Because it Currently has a Status of Out of Service

2. Officers/employees can be assigned two ways: Edit an existing assignment, or add a new assignment.

Add a New Assignment

- a. Click on **Add Assignment** to create a new assignment and enter the necessary data in the window that appears as shown below.

Save

If you enter an **End Date**, the date flows into the **End Date** field that is located under Offer Assignment.

Note: You must enter at least one officer.

- b. As you enter the officer name, a list of names appear. Click on the appropriate officer name.

For example, if you enter the letters **ch**, a list will appear with all officers that contain the letters **ch** anywhere in their name. Click on the appropriate officer name to fill in the Officer field.

The dates of the officer must be within the dates of the Assignment. The officer **Start Date** will default to the Assignment start date, but it can be changed.

- A warning displays if the officer is assigned to the same vehicle at the same time or the officer has more than one open assignment.
 - A list of officers assigned to this vehicle displays if they conflict with the new assignment.
- c. Click on  *Add Officer/Employee* to add additional officers to the assignment, if any.
- You can assign an officer or an employee who is not an officer.
 - A list of vehicles the officer/employee is assigned to displays if they conflict with the new assignment.
- d. Click **Save** to create the assignment, or click **Cancel** to return to the **Assignments Tab** without saving.

Edit an Existing Assignment

Note: If given the *always-edit assignment* permission, you can edit assignments that were created by other users; otherwise, you can only edit those that are created by you.

- a. Locate the Assignment you would like to edit, then click on the edit  icon to display the Officer/Employee Assignment window.
- b. Update the necessary information, such as Start Mileage, Comments, etc. If the Vehicle Assignment contains an **End Date**, that date flows into the Officer Assignment **End Date** field.
 - Starting mileage is entered at the time of assignment and ending mileage when the assignment is complete.
 - A warning displays if the assignment date overlaps with existing assignments.
- c. Click on *Add Officer/Employee* to add additional officers/employees, if applicable. Multiple officers/employees can be added. You can assign employees who are not officers.
- d. Enter the **End Date** to end an Assignment for an officer, if applicable.
- e. Click **Save** to apply the changes, or click **Cancel** to return to the **Assignment Tab** without saving.

Note: Creating a new Assignment updates the Status of the vehicle to Assigned.

Note: Assigned vehicles display to the officer in the Daily Log module.

Note: Additional officers added to the Daily Log must also be added manually to the Assignment within Fleet Management. Refer to "Officers" on page 545 for more Daily Log information.

End Assignments

To close an entire Assignment, you must enter the **End Date** for all officers as well as the Assignment itself.

1. Click on the **Assignments** tab, then click the edit  icon on the **Assignment** you want to close.

Officer(s)/Employee(s)	Assign Date	Assign End Date	Mileage	Comments	Actions
Smith, Johnny, ID# emp123 03/31/2020 1610 - Smith, Johnny, ID# emp123 03/31/2020 1610 - Smith, Johnny, ID# emp123 03/31/2020 1610 - Livingwell, Charles, ID# 2014 03/31/2020 1611 -	03/31/2020 1510		25500 -		
Livingwell, Charles, ID# 2014 03/31/2020 1333 - 03/31/2020 1348	03/31/2020 1232	03/31/2020 1348	25000 - 25500		

You can also end open assignments quickly. Click on the End Open Assignments icon

, enter the **End Date**, then click **Save**.

End Open Assignments

END DATE

06/25/2021 1418

Cancel Save

This ends any open assignments for officers assigned to the vehicle.

2. Enter the **End Date**.

Note: The officer/employee End Dates must be on or before the Vehicle Assignment End Date. Also, ending an Vehicle Assignment updates the Status of the vehicle.

3. Click **Save** to apply the changes, or click **Cancel** to return to the **Assignment Tab** without saving.

Manage Fuel, Oil, Mileage

Vehicle **Fuel**, **Oil**, and **Mileage** are managed under the **Fuel/Oil/Mileage** tab on the **Edit Fleet Vehicle** screen.

DESCRIPTION

Cancel Add Details Save

Requesting Officer defaults to the current user, but can be changed if the user is a Fleet Manager.

A notification is sent to all Fleet Managers when the Service Request is saved.

6. Click **Save** to create the Service Request, **Cancel** to return to the **Edit Fleet Vehicle** window without saving, or click **Add Details** to add **Attachments** to the **Service Request**.

If you clicked the **Add Details** button, a *Service Request Information* window appears where you can add attachments.

Note: Attachments are added to a temporary holding place or queue; you must then upload the files to the Service Request record.

For detailed instructions on adding attachments, refer to "Add Attachments" on page 69.

Edit a Service Request

To edit a Service Request that is associated to a vehicle you must first **Search** for the vehicle, then edit the vehicle in the **Search Results** window.

1. Click on the **Manage Vehicles** button on the **Fleet Management** dashboard. For details on accessing the dashboard refer to "Fleet Manager" on page 676.
2. Search for the vehicle associated with the **Service Request**. For instructions on how to search for vehicles refer to "Search Vehicles " on page 700.
3. Click the edit  icon on the vehicle record that is associated with the **Service Request**.

- Page down to the **Service Request** section on the **Edit Fleet Vehicle** window, then click on the edit  icon on the **Service Request** record you need to update.

- Click **Save** to Approve then click **Go Back** to the **Edit Fleet Vehicle** window. Or click **Go Back** to abort the change without saving.

If you chose to save, a **Notification** is sent to the **Requested by User** upon approval of the Service Request. The **Requested by User** then clicks on the Notification and opens the details to **Review, Reply, or Take Action**.

Complete a Service Request

After the Service Request has been approved and the maintenance has been done satisfactory, the Service Request should be marked complete. To complete a **Service Request** the Fleet Manager can associate the **Service Request** to a **Service Maintenance** record, or edit the vehicle and select the Edit icon for the **Service Request**. Change the Status on an existing Service Request.

Note: For detailed instructions on associating the **Service Request** to a **Service Maintenance** record, refer to "Add Service Maintenance and Repair" on page 730.

Change the Status on an existing Service Request:

- Click on the **Manage Vehicles** button on the **Fleet Management** dashboard. For details on accessing the dashboard refer to "Fleet Manager" on page 676.
- The **Fleet Vehicle Search** screen appears. Search for the vehicle you want to delete. For instructions on how to search for vehicles refer to "Search Vehicles " on page 700.

The results below are based on a search for a Toyota Highlander.

5. A confirmation message appears.

Message From RMS

Are You Sure?

No Yes

- Click **Yes** to delete or **No** to return to the results window without deleting.

Note: Deleting a **Service Request** also removes it from an associated **Service Maintenance** record.

Add Service Maintenance and Repair

Service Maintenance records reflect the total service cost associated to an invoice, and **Service Repair** records reflect detailed costs of that invoice.

For example, a **Service Maintenance** record contains the total invoice amount of \$100 for invoice number 1234, and there are two **Service Repair** records (tire repair \$50 and oil change \$50) that equal \$100 for invoice number 1234.

To add a **Service Maintenance** record to a vehicle you must first **Search** for the vehicle, then edit the vehicle in the **Search Results** window.

- Click on the **Manage Vehicles** button on the **Fleet Management** dashboard. For details on accessing the dashboard refer to "Fleet Manager" on page 676.
- The **Fleet Vehicle Search** screen appears. Search for the vehicle. For instructions on how to search for vehicles refer to "Search Vehicles " on page 700.

The results below are based on a search for a Toyota Highlander.

8 result(s) found

Download Edit Delete

For more information on adding attachments, refer to "Add Attachments" on page 69.

- Click **Save**, or click **Go Back** to return to the **Edit Fleet Vehicle** window. Both pending and approved **Service Requests** can be associated with a **Service Maintenance Record**.

Note: A **Service Request** can be associated with only one **Service Maintenance Record**.

Note: All selected **Service Requests** will become marked as **Complete**.

Update Service Maintenance and Repair

Service Maintenance records reflect the total service cost associated to an invoice, and **Service Repair** records reflect detailed costs of that invoice.

For example, a **Service Maintenance** record contains the total invoice amount of \$100 for invoice number 1234, and there are two **Service Repair** records (tire repair \$50 and oil change \$50) that equal \$100 for invoice number 1234.

To update a **Service Maintenance** record to a vehicle you must first **Search** for the vehicle, then edit the vehicle in the **Search Results** window.

- Click on the **Manage Vehicles** button on the **Fleet Management** dashboard. For details on accessing the dashboard refer to "Fleet Manager" on page 676.
- The **Fleet Vehicle Search** screen appears. Search for the vehicle. For instructions on how to search for vehicles refer to "Search Vehicles " on page 700.

The results below are based on a search for a Toyota Highlander.

8 result(s) found									
Vehicle ID	Unit Number	Make	Model	Status	Agency	Assigned Officers/Employees	Purchased Date	Current Mileage	Actions
70		TOYOTA(TOYo)	Highlander	Assigned	District 42, Versailles	Livingwell, Charles, ID# 2014, Smith, Johnny, ID# emp123, Smith, Johnny, ID# emp123, Smith, Johnny, ID# emp123		25600	  
66	D123	TOYOTA(TOYo)	Highlander	Assigned	District 42, Versailles	Supervisor, Lauren, Ralphie (off), ID# 1010, Cid Detective, MANNY, Benjamin (cid), ID# 306		131001

Note: The Fleet Manager can associate none, one, or multiple **Service Requests** to the **Service Record**. All selected **Service Requests** will become marked as **Complete**.

- Click the **Save** button to save your changes, then click **Go Back** to return to the **Edit Fleet Vehicle** window.

Mid-Level Fleet Manager Overview

By having the **Mid-Level Fleet Manager** permission category, you can perform everything the Fleet Manager can do in the **Fleet Manager** module, except for the following:

- Cannot add vehicles.
- Cannot edit the primary vehicle fields.
- Cannot edit any custom fields associated with the vehicle.

For a permission category breakdown, refer to "Fleet Management Permission Categories" on page 675.

Fleet Officer

By having the **Fleet Officer** permission category, you can perform the following in the **Fleet Management** module:

- View fleet vehicles currently or previously assigned to you.
- Search all vehicles regardless of the assignees.
- Assign a vehicle to yourself or add yourself to an existing assignment.
- You can create and edit Fuel & Oil records and Service Requests to your assigned vehicle.
- You can delete or edit Fuel/Oil/mileage records that you have created, but not records created by others.
- You can add an existing custom form to the vehicle.
- Add attachments to your assigned vehicle.

Note: Only Fleet Managers and Administrators have the ability to add, update, and delete Fleet Vehicles.

Below is an overview of the basic functionality:

1. Click on the **Records Management** menu then **Fleet Management** sub-menu to open the Fleet Management page.
2. Click the **Manage Vehicles** button to access **Fleet Vehicle Assignments**.

3. Vehicles *Currently assigned* to you display by default. You also have the option to change the *Display* to view vehicles *previously assigned* to you.

You may also search all vehicles, regardless of the officer assignment. Click on the **Search Vehicles** icon to display the **Fleet Vehicle Search** window.

For details on searching all vehicles refer to "Search All Vehicles " on page 739.

4. You can change the number of entries that appear in the grid. Click on the **Show Entries**  and select 10, 25, 50 or 100. The default is 10.

Show  entries

5. Click the  to view the record or  to edit.
6. Click the  icon , if available, to quickly add a custom form to the fleet vehicle without entering edit mode in step 5.

Note: This icon displays only when custom forms are available to add to the assignment.

For details on adding a custom form, refer to "Add Custom Forms to Fleet Vehicle and Assignments" on page 703.

7. Click the icon  to quickly add Fuel/Oil/Mileage, if available, instead of entering edit mode in step 5.
- a. The Fuel/Oil/Mileage form opens.

- b. Complete the form then click **Save**.
 - c. The Fuel/Oil/Mileage record then appears on the fleet vehicle record.
8. You can also optionally **Search** or filter Vehicle Assignments to return a list that only matches the entered text.

Enter the text you want to search on in the Search text box, then click the **Search** button or press **Enter** to display only records matching the entered text. The displayed list dynamically changes based on the entered text. For example, enter *Ford* to list only vehicles that contain the word Ford. Click **Reset** to remove the entered text and display all vehicles.

9. Click **Go Back** to return to the **Records Management** menu, from which to access the different Online RMS modules.

For information on **Records Management**, refer to "Records Management Button" on page 43.

View Vehicle

Click the **View** icon to view a particular vehicle record and the associated information. Information in the **View Fleet Vehicle** window is read-only and cannot be changed.

The **View Fleet Vehicle** window contains three tabs:

- Vehicle
 - Detailed information about the vehicle itself, such as license number, purchase price, make and model, current mileage, etc.; maintenance records; associated equipment; and service requests with statuses. The **View Fleet Window** opens to this tab by default as shown in the above image.
- Assignments
 - A history of officers assigned to the vehicle, along with the dates.
- Fuel and Oil

- Summarization of the type of fluids put in the vehicle, along with the dates.

Click on the **Back** button to return to the **Fleet Vehicle Assignments** window. For your convenience, this button is located on the upper right of the window and on the lower center of the window.

Click on the download icon  in the *Attachment* section of *Vehicle* tab to download available documents or photos.

4. Optionally add, edit or delete Attachments. For detailed instructions refer to "Add and Update Attachments" on page 743.

Delete Service Requests

1. From the **Edit Fleet Vehicle** window, locate the **Service Request** to delete then click the Delete icon .

Service Requests + Add Service Request				
Type	Status	Request Date	Description	Actions
General	Pending	02/20/2019		 

Note: You can delete **Service Requests** that were created by you. The Delete icon does not display on **Service Requests** that have been set up by someone else.

For further details on how to delete refer "Delete Data " on page 753.

Manage Fuel, Oil, and Mileage

By having the **Fleet Officer** permission category, you can add, update, or delete **Fuel/Oil/Mileage** records that are assigned to you. However, the ability to update or delete may vary, depending on whether or not your agency is utilizing the lock hours feature, or you always have edit fuel and oil permissions.

For example, when the lock hours are set to 100, you can edit the record if you are the creator, and today is within 100 hours of record creation.

Note: Fleet Managers may update and delete fuel, oil & Mileage records, regardless of the configured lock hours.

Mileage	Creator	Date of Info	Comments	Fuel / Oil	Costs	Payment	Actions
13505	Simpson, Homer	12/18/2018 0924		Fuel: 10 Oil: 10 Fluid: Air Conditioning Coolant	Fuel: 100 Oil: 100 Fluid: 100	Vendor: Cop Stuff	 

Add Fuel, Oil, and Mileage

1. Click on *Add Fuel / Oil / Mileage Record* on the **Fuel/Oil/Mileage** tab to add a new record, then enter the relevant information.

Fuel/Oil/Mileage

Update

Edit Fuel, Oil, and Mileage

You can edit fuel, oil, and mileage records under the following conditions:

- You are the creator of the record and the system time is within the configured lock hours of the creation date.

For example, when the lock hours are set to 100, you can edit the record if you are the creator, and today is within 100 hours of record creation.

For more information on lock hours, refer to your agency administrator.

- Or, you always have edit fuel, oil, and mileage permissions.

1. Click on the edit  icon and apply the necessary updates.

Note: As a Fleet Officer you cannot update or delete **Fuel, Oil, Mileage** records created by another user.

Optionally, click the **Hide Fields** button to display only relevant fields for which you need to supply data.

2. Click **Save** to apply the changes, or click **Cancel** to return to the **Fuel/Oil/Mileage Tab** without saving.

Delete Fuel, Oil, Mileage

You can delete records under the following conditions:

- You are the creator of the record and the system time is within the configured lock hours of the creation date.

For example, when the lock hours are set to 100, you can delete the record if you are the creator, and today is within 100 hours of record creation.

For more information on lock hours, refer to your agency administrator.

- Or, you always have delete fuel/oil/mileage permissions.

1. Click on the delete icon  to delete a Fuel/Oil/Mileage Record.
2. A confirmation window appears. Click **Yes** to delete or **No** to return to the **Fuel/Oil/Mileage** window without deleting.

2. Enter the vehicle details into the **Fleet Vehicle Search** window then click **Search**. For detailed instructions on how to search for vehicles refer to "Search All Vehicles " on page 739.
3. Click the edit  icon to the right of the vehicle in the **Fleet Vehicle Search Results** window you want to assign.

Note: Vehicles with a status of *Sold* or *Out of Service* cannot be edited by an officer.

With permissions, you can click  to quickly add a custom form to a fleet vehicle from the *Fleet Vehicle Search Results*. For more information, refer to "Add Custom Forms to Fleet Vehicle and Assignments" on page 703.

4. Click on the **Assignments** tab from the **Edit Fleet Vehicle** window.

+ Add Assignment

Click **Go Back** to return to the **Fleet Vehicle Search Results** window, if you wish.

- Officers can be assigned two ways: Add yourself to new or existing assignment.

Add Yourself to a New Assignment

- Click on **+ Add Assignment** on the **Edit Fleet Vehicle** window to create a new assignment and enter the necessary data.

Vehicle Assignment

START DATE	END DATE	START MILEAGE	END MILEAGE
03/15/2021 1115			

COMMENTS

Officer/Employee Assignment

OFFICER/EMPLOYEE	START DATE	END DATE
Charles Livingwell	03/15/2021 1115	

Cancel Save

The **Officer/Employee** defaults to you and cannot be changed.

- Enter your **Start Date** if different than the default.
- Click **Save** to create the assignment, or click **Cancel** to return to the **Assignments Tab** without saving.

Add Yourself to an Existing Assignment

- Locate the Assignment in the **Edit Fleet Vehicle** window, then click the edit  icon to display the *Officer/Employee Assignment* window.

The bottom **Officer/Employee** defaults to you and cannot be changed. Other fields in gray cannot be changed.

- The **Start Date** defaults to the current date but may be changed.
- Enter the **End Date** and **Comments**, if applicable.

Note: To end the Assignment, there must be an **End Date** on the Assignment itself.

- d. Click **Save** to apply the changes, or click **Cancel** to return to the **Assignment Tab** without saving.

Note: You can create or edit *Fuel and Oil* and *Service Requests* for the vehicle once you have assigned yourself to the vehicle. For details refer to "Manage Fuel, Oil, and Mileage" on page 746.

Your new assignment puts the vehicle in ODL and sets status to *Assigned*. The new assignment also appears in your **Current Assignments** window.

End Self-Assignments

To close an entire Assignment that you assigned to yourself, you must enter the **End Date** on both the *Vehicle Assignment* and *Officers/Employee Assignment* sections. You cannot close an Assignment that was created by another user.

Note: The End Dates must be on or before the Assignment End Date.

6. Click **Save** to apply the changes, or click **Cancel** to return to the **Assignment Tab** without saving.

Delete Assignments

You may delete assignments that are created by you, and only when you are the only officer on the assignment.

1. Locate the assignment to delete then click on the Delete icon .

Note: You do not have the authority to delete assignments without a Delete icon  under the *Actions* column.

2. A confirmation window appears. Click **Yes** to delete or **No** to exit without deleting.

No

Yes

Click **Yes** to delete or **No** to return to the previous window without deleting.

Fleet Clerk

By having the **Fleet Clerk** permission category, you can perform the following in the **Fleet Management** module:

- View fleet vehicles.
- You can add fuel, oil & mileage records to fleet vehicle records.
- You can edit fuel, oil & mileage records only if you are the creator and only within the lock hours.

Note: Fleet Managers and Administrators have the ability to add, update, and delete Fleet Vehicles that were created by others if given appropriate permissions.

To access Fuel, Oil, & Mileage:

1. Click on the **Records Management** menu then **Fleet Management** sub-menu to open the Fleet Vehicle Search page.
2. Search for and select the Vehicle.

Note: For more information on searching and selecting, refer to "Search Vehicles" on the facing page.

The **View Fleet Vehicle** window contains three tabs:

Vehicle

- Detailed information about the vehicle itself, such as license number, purchase price, make and model, current mileage, etc.; maintenance records; associated equipment; and service requests with statuses. This tab opens by default.

Assignments

- A history of officers assigned to the vehicle, along with the dates.

Fuel/Oil/Mileage

- A summary of the type of fluids put in the vehicle with dates, along with mileage. Access this tab to add records, or update records if you are the creator and only if within the lock hours.

Note: The Vehicle and Assignment tabs are read-only.

Click on the **Fuel/Oil/Mileage** tab to add, update, or delete records. Refer to "Search Vehicles" below for details.

Or, click on the **Go Back** button to return to the previous window.

Search Vehicles

1. Click on the **Records Management** menu then **Fleet Management** sub-menu to open the Fleet Vehicle Search page.

The *Edit* and *Delete* icons appear on fuel/oil/mileage records to which you have appropriate permissions.

Edit Fuel , Oil, and Mileage

You can edit records under the following conditions:

- You are the creator of the record and the system time is within the configured lock hours of the creation date.

For example, when the lock hours are set to 100, you can edit the record if you are the creator, and today is within 100 hours of record creation.

For more information on lock hours, refer to your agency administrator.

- Or, you always have edit fuel and oil permissions.
- Click on the edit  icon and apply the necessary updates.
 - Click **Save** to apply the changes, or click **Cancel** to return to the **Fuel/Oil/Mileage Tab** without saving.

Delete Fuel , Oil, and Mileage

You can delete records under the following conditions:

- You are the creator of the record and the system time is within the configured lock hours of the creation date.

For example, when the lock hours are set to 100, you can delete the record if you are the creator, and today is within 100 hours of record creation.

For more information on lock hours, refer to your agency administrator.

- Or, you always have delete fuel and oil permissions.
1. Click on the delete icon  to delete a Fuel/Oil/Mileage Record.
 2. A confirmation window appears. Click **Yes** to delete or **No** to return to the **Fuel/Oil/Milage** window without deleting.

Chapter 34. Lost and Found Property

Lost and Found Property Overview

The **Lost and Found Property** module allows you to create, save, and edit *Master Property* records and mark them as lost. The **Lost and Found Property** module is included with the full subscription of Online RMS, though it is disabled for initial deployment. Please contact Caliber Support if your agency would like this module enabled.

When the module is enabled, user access is controlled by permissions configured by your administrator. For more information on permissions see your administrator.

This module utilizes the **Master Property Index**, where property data is represented only once for consistency. **Master Property** data is easily transferred to a new **Lost and Found Property** record by searching the **Master Property Index** for the appropriate property record. For more information on **Master Indices** refer to "Master Indices" on page 83.

Lost and Found Property can be created and managed two ways within Online RMS:

- From the **Standalone Module** by selecting the *Lost and Found* option under the *Records Management Menu*.
- **Incident Lost and Found Property** (similar to logging property as evidence or held property).

Standalone Module

There are two ways to access the **Lost & Found Standalone Module**:

- Click the **Records Management Menu** then click the **Lost and Found** submenu option.

- Click on the **Records Management Menu** then click on the **Lost & Found** link.

The *Property Lost & Found Search* screen appears. Click on the **Add New Lost & Found** button to create a new **Lost & Found** record if necessary.

3 result(s) found

ID	Agency	Property	Found By	Date Found	Current Custody	Custody Date	Actions
<input type="checkbox"/> 35	District 42, Versailles	ANTIQUES	Officer Saur	11/13/2017 0723	Safe in Storage Room	11/13/2017 1703	
15	District 42, Versailles	ANTIQUES	Joshua	08/23/2017 0300	Disposed	08/23/2017 1551	
2	District 42, Versailles	ANTIQUES	Dana McMillan2	08/22/2017 0400	Disposed	08/23/2017 0905	

[Refine Search](#) [New Search](#)

Click **New Search** to start a new search, or **Refine Search** to modify your search.

You can **Export** the *Search Results* to a file by clicking on one of the export icons. For more information on exporting *Search Results* refer to "Export Search Results" on page 36.

From the *Search Results* window you can handle one record, or multiple records at once.

Specific Record

Dispose, Edit, or Delete a specific record.

If an icon does not appear in the *Actions* column then you do not have proper permissions to perform that *Action*. For example, if the **Dispose** icon does not appear then you do not have permissions to **Dispose** that record. For more information on permissions refer to your administrator.

Multiple Records

Online RMS provides a function to process multiple **Lost & Found** records at once. **Mass Dispose**, **Mass Change Custody**, and **Print Labels** buttons appear when one or more records on the *Property Lost & Found Search Results* screen are selected. Click one of the three buttons to process all selected records.

The screenshot shows the 'Property Lost & Found Search Results' screen. At the top, there are buttons for 'Refine Search', 'New Search', and 'Add New Lost & Found'. Below these, a status bar indicates '3 result(s) found' and '1 Item(s) Selected'. Three buttons are visible: 'Mass Dispose', 'Mass Change Custody', and 'Print Labels'. A table below lists the search results:

ID	Agency	Property	Found By	Date Found	Current Custody	Custody Date	Actions
35	District 42, Versailles	ANTIQUES	Officer Saur	11/13/2017 0723	Safe in Storage Room	11/13/2017 1703	[Icons]
15	District 42, Versailles	ANTIQUES	Joshua	08/23/2017 0300	Disposed	08/23/2017 1551	[Icons]
2	District 42, Versailles	ANTIQUES	Dana McMillan2	08/22/2017 0400	Disposed	08/23/2017 0905	[Icons]

At the bottom of the table, there are buttons for 'Refine Search' and 'New Search'.

For more information on processing records in bulk refer to "Mass Lost and Found Functions" on page 774.

Add Lost and Found Property

Before you add a new record, first search to ensure it doesn't already exist. For more information on searching, refer to "Search Lost and Found Property" on page 763

The search results displays a message when the record you are searching for does not exist.

Create a New Master Property Index Record

If the record you are searching for does not appear in the *Lost & Found Search Results* then it's likely it does not exist in the index, so you need to create it.

Click on the **Add New Lost & Found** button on the top right of the *Lost & Found Search Results* window to display the *Add Property* screen.

Choose one **Category** on the *Add Property* screen. Additional fields appear based on the selected **Category** as shown in the below examples.

Click the **Print Receipts** button to print receipts, or click **Exit** to return to the *Search Results* screen without printing receipts.

If you chose to **Print Receipts** then you click **Open** to print, **Save** for more options, or **Cancel** to return to the *Search Results* screen.

Disposed appears on the property record in *Search Results*. Hover your mouse over or click on the blue circle to display detailed **Disposed** information.

Mass Lost and Found Functions

Mass Lost and Found Functions allow you to process **Lost & Found** records in bulk. There are three bulk (mass) functions available:

- Dispose
- Change Custody
- Print Labels

To process records in bulk, access the **Lost & Found Standalone Module** then search for the record(s) you want to process in bulk.

For more information on accessing the Standalone Module refer to "Standalone Module" on page 761.

For more information on searching **Lost & Found** records refer to "Search Lost and Found Property" on page 763.

From the *Search Results* window select one or more records you want to process, and with the proper permissions, **Mass Dispose**, **Mass Change Custody**, and **Print Labels** buttons appears.

Print Labels

After selecting one or more records in the *Search Results* screen that need a label, click the **Print Labels** button.

Incident Report Lost and Found

Lost & Found property can be created from the *Property & Vehicles* tab on the *Incident Report* and marked as **Lost & Found**. You can choose to single or mass properties.

Note: The **Lost & Found** module must be turned on for your agency to utilize this module and functionality.

The screenshot displays the 'Incident Report' interface. At the top, there is a navigation bar with tabs: Summary, Header, Offenses, Names, **Property & Vehicles** (highlighted with a red box), Narratives, Attachments, and Validations. Above these tabs is a secondary bar with buttons: Exit Report, Quick Print, Print, Transfer, Exit Wizard, and Submit For Approval. Below the tabs, the 'Incident Summary' section shows the date and time '02/20/2019 0907 Hrs' and the agency 'District 42, Versailles'. The 'Offense(s)' section lists '14-29-8-5(2) - NATURAL RESOURCE- TRESPASS- CR...'. The 'Report #' is '2019D4210215' and 'Supp #' is '0'. Below this, the 'Properties' section shows 'TOTAL VALUE(\$): 1500.00' and a dropdown menu set to 'All'. To the right of the dropdown are buttons for 'Print Evidence' and 'Add Property' (highlighted with a red box).

For more information on Lost & Found from the *Property & Vehicles* tab on the *Incident Report* refer to "Property & Vehicles Tab" on page 226.

Chapter 35. Expungements

Expungements Overview

When an agency is required to expunge a record, the specifics on what needs to be expunged are contained in the court order.

Note: Please refer to your agency's policy on Expunging Records.

This document provides suggestions for accommodating the expungement order by deleting or modifying records contained in Online RMS.

Note: Beginning with **Online RMS 11.14.0**, the workflows for expungements have been enhanced significantly. These include the ability to expunge field arrests, charges, citations, warrants, and offender roles within incidents.

If the order specifies an offender on an incident report:

With appropriate permissions, you can expunge the offender from the report using the Offender incident expungement workflow. For workflow details, refer to "Expunge Offender or Arrestee" on page 783.

If the order specifies an arrest:

With appropriate permissions, you can expunge an arrest record by using the Arrest Expungement process. For details, refer to "Expunge Field Arrest" on page 791.

If the order specifies to delete an Incident Report, Arrest, and all related information:

It is easy to locate the Incident, and Arrest reports then delete them from Online RMS. When creating the delete comment, it may be beneficial to cite the court order.

Incidents

Incident reports must be in Initial status to allow for deletion:

- If the report is in *Approved* status, refer to "Changing Incident Status" on page 276 for detailed instructions on changing the status to *Initial*.

For detailed instructions on deleting an Incident report, refer to "Delete Initial Incident Report" on page 283.

Below illustrates how to delete an initial report from Recent Activities, and the required comment dialog box:

Report #	Supp #	Summary	Actions
2020D4210280	0	07/25/2020 15:00 Hrs - 123 East Main Avenue North denver, CO 80401 - Offense(s) - 35-43-4-2 T68 - THEFT- POSSESS STOLEN PROPERTY	  

Delete Incident

Please enter a comment for deletion of 2020D4210280 Supp # 0

COMMENT

Cancel

Delete

Note: Deleted reports are not recoverable from the database.

Field Arrests/Citations/Field Contacts

If ordered, users with authority can delete Field Arrests, Citations, and Field Contacts using similar steps as with Incidents by first querying for the record.

To delete Field Arrests, refer to "Delete Field Arrest" on page 400.

To delete Citations, refer to "Delete Citation" on page 578.

To delete Field Contacts, refer to "Delete a Field Contact" on page 419.

Investigative Case

If there is a follow-up Investigative Case associated with the Incident report, the delete process automatically removes the Incident from the associated Investigative Case.

- The associated Investigative Case should also be reviewed to delete any case comments that may reference the expunged person by name.

Person Record

It is not necessary to delete a person record from Online RMS. Once an Incident report is deleted, the association to that report is deleted from the Master Indices Person record.

If preferred, an agency can choose to edit the Master Person record specified in the expungement order to change the person's name rather than delete the individual events.

As an example, some agencies change the person's name to the reference number of the expungement order to preserve the event records and remove any ability to find records when searching for the person's name. If this flow is preferred, keep in mind the individual records will need to be reviewed to remove the person from associated narratives or comment fields.

Orders to expunge records need to be handled on a case-by-case basis.

After reviewing your agency's current policy at the time of the order, and the decision is made on what records need to be deleted or edited, you can proceed to delete or edit those records within Online RMS. If you need further assistance, please submit a ticket to our Support Team.

External Repositories

Caliber Online RMS contributes information from approved reports to external repositories such as NDEX. It may be necessary for agencies to expunge information contributed to these repositories by contracting them directly and following their expungement process.

Interfaces

Your agency may contribute information to Caliber Online RMS through an interface with an external program. After the necessary information is expunged from Online RMS, you may need to contact the external vendor directly and follow their process to expunge the records in their program.

Examples of external interfaces are electronic ticket writers, crash reporting systems, and DWI/DUI reporting software.

Un-Expunge

With proper permissions you can **Un-Expunge** an offender or arrestee on an Incident Report, or an entire Field Arrest. For more information, refer to "Un-Expunge" on page 795.

Note: Expunged records are not visible throughout Online RMS unless the user is granted permissions to view expunged details.

Accessing the View Person Page

As with many areas of Online RMS, you can access the *View Person* page different ways:

- From the Master Person Record.

Search for the Master Person record by clicking on the **Master Indices** menu on the *Top Navigation Bar*, then click **Person** from the drop-down list to open the *Master Index Search* page.

Enter the person's last name, first name, or other information to yield the desired results, then click the **Search** button to open the *Person Search Results* page.

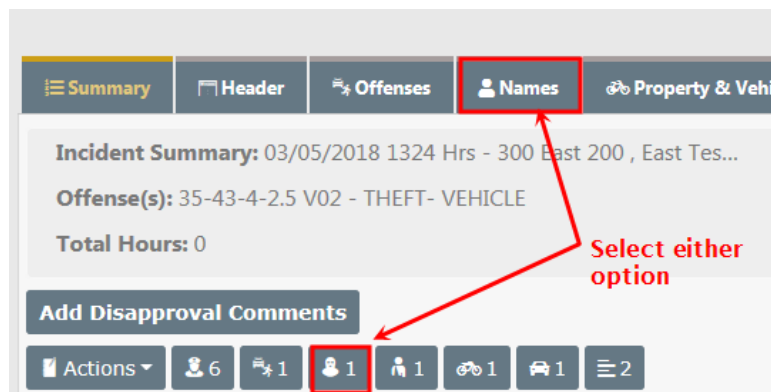

Click on the appropriate person's **last name** to open the *View Person* page, then click on the *Person Summary* tab.

The screenshot shows the 'Person Search Results' page. At the top, there are buttons for 'Refine Search', 'New Search', 'Add Person', and 'Online RMS Statewide Search'. Below these is a search bar with the text 'Person Search Results'. A message states '2 result(s) found. 2 result(s) found using Online RMS statewide search.' Below this is a table with columns: Last Name, First Name, Middle Name, Title, Sex, Race, DOB, SSN, Misc ID, Name Type, Index ID, and Actions. The first row shows 'Aaberg' as the last name, 'Ken' as the first name, and other details. Below the table, there are three tabs: 'Person Details', 'Person Summary' (which is highlighted with a red box), and 'Index Summary'.

Last Name	First Name	Middle Name	Title	Sex	Race	DOB	SSN	Misc ID	Name Type	Index ID	Actions
Aaberg	Ken			M	W	07/09/1975	123-45-6789	asdf 4444 kjkjkjkl 46456456 2548p731	Primary Name	469	

Note: For more information on Master Indices refer to "Master Indices" on page 83.

- From the Incident Report.
 - Search for and view the Incident Report. For more information on searching and viewing Incident Reports, refer to "View Incident Reports" on page 265.
 - While on the Incident Report click on the **Names** tab or the **Offenders** link.

- Locate the Offenders grid then click on the person's **Name** to open the *View Person* page.

Offenders				
Name	Age (Yrs)	Role(s)	Supp #	Actions
Aaberg, Ken Race: White Sex: M DOB: 07/09/1975	42 Years Old	Suspect / Offender	0	

Note: For more information on viewing Incident Reports refer to "View Incident Reports" on page 265.

Expunge Offender or Arrestee

You can expunge an offender or arrestee from a Incident Report, providing the Incident Report is *approved* and you have *Expunge Records* permissions. Refer to your agency administrator for more information on *Expunge Records* permissions.

Incident **Expungements** apply to the offender only as there may be more than one offender.

The Person Summary tab on the *View Person* page displays an **Expunge** column in the Involved Incidents grid. A red Expunge icon appears in the **Expunge** column on records that qualify for expungement.

Note: For details on how to access the *View Person* page refer to "Accessing the View Person Page" on the previous page.

Note: Beginning with Online RMS 11.14.0, the workflows for expungements have been enhanced significantly. These include the ability to expunge field arrests, charges, citations, warrants, and offender roles within incidents.

Locate the Incident Report on the Summary tab of the *View Person* page from which you want to **Expunge** the offender, then click on the red Expunge icon  in the **Expunge** column to open the *Expunge Person* page.

Involved Incidents

Users without the *Expungement - View Expunged Records* permission do not see the Incident Involvement, and the Involvement counts do not include the Incident from which the person was expunged. For more information refer to "Expungement Results" below.

Expunged records are not visible in Online RMS without the *Expungement - View Expunged Records* permission. Refer to your system administrator for more information on permissions.

Expungement Results

Online RMS protects the identity and related data of expunged offenders or arrestees by applying restrictions based on a combination of user permissions and an Expunged flag placed on the data.

Offender or Arrestee Name Restrictions

The offender or arrestee's name is replaced with the word **EXPUNGED** for users *without* the *Expungement - View Expunged Records* permission.

The offender or arrestee's name displays with an **[EXPUNGED]** tag for users *with* the *Expungement - View Expunged* permission.

- Incident Summary Tab - Offenders Grid.
- Incident Names Tab - Offenders Grid (no view icon).
- Incident Names Tab - View Victim page - Victim/Offender relationship.
- Incident Property/Vehicle Tab - View Property page - Property Owner.
- Incident Property/Vehicle Tab - View Vehicle page - Vehicle Owner.
- Visualization - Incident Quick View - Offender Grid.
- Incident Mapping - Incident Quick View - Offender Grid.
- Case Management - Involved Names Grid.
- Evidence/Property Labels - Property Owner.
- Evidence/Property Lab Report - Suspect/Offender box.

Summary	Header	Offenses	Names	Property & Vehicles
Incident Summary: 07/28/2015 1713 Hrs - 100 Ash Street INDIANAPOLIS, IN 46204 Offense(s): 35-42-2-1.5 - BATTERY- AGGRAVATED				
Offenders				
Example for user with View Expunged Records permissions				
Name				Age (Yrs)
ⓘ Akbar, Allah Race: Middle Eastern Sex: M DOB: 04/02/1980 [EXPUNGED]				35 Years

Other Expunged Data Restrictions

The following changes are applicable throughout Online RMS for users *without* the *Expungement - View Expunged* permission.

- Master Indices - Person Common Event Associations (offender is not displayed at all).

- Visualization - Offender or Arrestee to Incident link.
- Visualization - Person Quick View - Person Summary tab (Incident not displayed for offender).
- Photo Lineup - Person Quick View - Person Summary (Incident not displayed for offender).
- Person Collapse - Person Quick View - Person Summary tab (Incident not displayed for offender).
- Incident Narratives - If updated during the expunge process, only the edited expunged version can be viewed.
- Incident Search - Name / Combo additional search criteria (Incident not returned when searching by offender).
- Incident Smart Search - by name (Incident not returned at all).
- Incident Smart Search - by any other part of incident (offender not displayed / image not displayed).
- Case Search - Name additional search criteria (Incident not returned when searching by offender).

Online RMS displays the above data with an **[EXPUNGED]** tag on the record for users *with* the *Expungement - View Expunged* permission. Users with this permission can also view both the original Incident Narratives and the edited expunged versions.

Note: Regardless of the user's permissions, the Print Incident page does not display the expunged offender or arrestee's name, and Quick Print will not print the expunged offender or arrestee.

Expungements - RMS 11.14 and Higher

The improved workflows for expungements and unexpungements starting with RMS 11.14 allow users with the appropriate permissions to expunge and unexpunge individuals associated with incidents citations, field arrests, and warrants.

Note: Contact Caliber Public Safety Support for assistance in enabling permissions.

Expunging a person from a record can be done from an approved incident report (it cannot be done from an unapproved incident report) or from a person's master name index summary tab.

To expunge a person from an approved incident report, navigate to and view the incident.

From the summary tab, click on the **actions** dropdown.

Select **Expunge Offender**.

A new window will be displayed listing all offenders associated with this incident.

Expunge Offender

Name	Age at time of Incident	Supp #	Actions
Kessler, Bob Role(s) Arrestee, Suspect / Offender, DOB: 01/01/1971	52	0	[Select Icon]
Kessler, Jon Role(s) Arrestee, Suspect / Offender, DOB: 05/22/1970	53	0	[Select Icon]

Buttons: Cancel, OK

Click on the select icon for the offender to be expunged, which opens the expunge/seal window.

From the expunge/seal section, choose either the **Arrestee** or the **Offender** role.

Note: Choosing Offender will expunge a person from both the Offender and Arrestee roles. Choosing Arrestee will only remove the person from the Arrestee role.

The screenshot shows the 'Expunge/Seal' window in the Caliber Public Safety Online RMS. The window is titled 'Expunge/Seal' and contains several sections:

- Incident Information:** Displays incident details such as 'Incident Summary: 11/27/2023 0733 Hrs - 1000 North Manchester Drive Greenfield, IN 46140' and 'Offense(s): 35-43-2-1 Burglary (S: F)'. It also shows the agency 'MODEL COUNTY POLICE DEPT' and report number 'MCPD23000530'.
- Person Information:** A table with fields for Last Name, First Name, DOB, Sex, Race, Ethnicity, Height, Weight, Eye Color, Hair Color, Complexion, and Index ID. The person's name is Jon Kossor, DOB is 05/22/1970, and Index ID is 52.
- Expunge/Seal:** A dropdown menu with options: '-Select-', 'Arrestee', and 'Offender'. The 'Arrestee' option is currently selected.
- Incident Narratives:** A table with columns for Title, Created By, Date Of Info, Supp#, and Actions. It shows one narrative titled 'Original Narrative' created by 'Talent, Marty' on 11/27/2023.
- Attachments:** A table with columns for Keyword, File Name, Description, Date of Info, and Expunge/Seal. It lists two image files: 'MCPD23000530-0_1' (Original File Name: Burg window.jpg) and 'MCPD23000530-0_2' (Jon Kossor Original File Name: Jon Kossor.jpg).
- Attached Forms:** A table with columns for Form Name, Status, Creator Name, Date Created, and Expunge/Seal.

Review the incident summary and incident narrative for any references to the person to be expunged, and edit the narratives (by clicking the **Edit** icon) if any changes must be made to remove references to the expunged person.

Click **Save** to return to the **Expunge/Seal** window.

Expunge any attachments by checking the individual record or selecting the checkbox to select all records.

Note: Comments, when flagged in red, are required to explain why the expungement was conducted.

Click the **Expunge/Seal** button to save the expungement. The incident will now display as expunged/sealed and the names will be replaced with this indication for users who do not have permissions to view expunged/sealed records.

When expunging a person from that person's **Summary** tab, navigate to the person summary (such as by searching Master Indices) and locate the expunge/unexpunge icons.

These icons will not be displayed for users who lack permissions to do so. Click the appropriate icon and enter any required comments when performing expungements/unexpungements.

Note: Warrants can only be expunged from the incident or field arrest with which they are associated.

Expunge Field Arrest

If you have the *Expunge Records* permission, locate the Involved Field Arrest on the Person Summary tab of the *View Person* page that you want to **Expunge**, then click on the red Expunge icon in the **Expunge** column to open the *Expunge Arrest* page.

Note: For details on how to access the *View Person* page refer to "Accessing the View Person Page" on page 782.

Note: Beginning with **Online RMS 11.14.0**, the workflows for expungements have been enhanced significantly. These include the ability to expunge field arrests, charges, citations, warrants, and offender roles within incidents.

Involved Field Arrests							
Expunge	Arrest Number	Role(s)	Arrest Date	Agency	Charges	Incidents	Actions
	1507452	Arrestee	07/22/2015 0023	District 42, Versailles	35-43-4-2 T12 - THEFT- BUILDING MATERIAL	2015ROOT0154, 2015ROOT0156

Users *without* the *Expungement - View Expunged Records* permission do not see the Arrest Involvement or the Involvement counts for the expunged Field Arrest. Refer to your agency administrator for more information on permissions.

Users *with* the *Expungement - View Expunged Records* permission the Involvement counts remain unchanged, the Field Arrest displays with an **[Expunged]** tag, common events to people, organizations, addresses, vehicles and property display, and an Un-Expunged icon appears to reverse the expungement.

Note: For more information on reversing an expungement refer to "Un-Expunge" on page 795.

Expungement Results

Online RMS protects the identity and related data of expunged records by applying restrictions based on a combination of user permissions and an Expunged flag placed on the data.

For users *without* the *Expungement - View Expunged Records* permission, the Field Arrest will *not* display as follows:

- Field Arrest Search Results (search by number, Arrestee, Names).
- Incident Summary Tab - Arrest Grid (if associated).
- Warrants - Arrest Grid (if associated).
- Incident Names Tab - View Victim Page- Victim/Offender relationship.
- Master Indices - Common Event Associations/Involvement Counts.
- Incident Mapping - Incident Quick View.
- Visualization - Incident Quick View.

Online RMS displays the above data with an **[EXPUNGED]** tag on the record for users *with* the *Expungement - View Expunged* permission. Users with this permission can also view both the original Incident Narratives and the edited expunged versions.

Expunge/Seal Field Arrests and Charges

Note: Beginning with **Online RMS 11.14.0**, the workflows for expungements have been enhanced significantly. These include the ability to expunge field arrests, charges, citations, warrants, and offender roles within incidents. (If a warrant is to be expunged, it must be attached to the incident or the field arrest in question. **Expungements cannot be done on incidents that are not approved.**)

Expunge/Seal is controlled by user permissions. A user with sufficient permissions can expunge/seal records and view expunged/sealed records.

Chapter 36. Training Videos

Training Videos Overview

Beginning with Online RMS 11.4.0, agencies can enhance users' training and learning experience with the **Online Training** feature. The **Online Training** feature offers standard Caliber video-based learning to all users and optionally, agency-specific videos. In addition, the agency administrator can enable a feature that pops up videos on a particular page, requiring users to watch the videos.

Benefits of Video-Based Learning

- A cost-effective training approach.
- Provides up-to-date training opportunities.
- Provides a **Training Video Library** where users can keep track of their videos.

Note: For more information on the **Training Video Library**, refer to “Training Videos Library” on page 798.

- Provides the ability to watch videos more than once.
- Ability to enforce required training.
- Provides a history of e-training participation.

Video Rules and Requirements

- Agency must have the **Online Training** feature turned on and configured to get the pop up (required) videos. Contact Caliber Public Safety to turn on and configure this feature.
- Agency must enable this feature on the agency profile for users to have access to non-standard videos.

- No roles or permissions are associated with this feature; the **Online Training** feature controls access.
- Supports only MP4 files at this time.
- Contact Caliber Public Safety to upload videos.
- The agency administrator has the option to require user acknowledgment after viewing the video.
- The **date and time** watched by users are saved to the database on videos that **require acknowledgment**.

Acknowledgment Required vs. Optional

The agency administrator has the option to **require your acknowledgment** after viewing videos. By acknowledging a video, you are stating that you have watched the video in its entirety. The video pops-up automatically each time you log into Online RMS and access a page to which the video is associated until you acknowledge having watched it.

Unlike videos that require acknowledgment, **optional** videos do not pop-up automatically when you log into Online RMS.

All videos are stored in your **Training Videos Library**. You can watch videos whenever you wish by navigating to your **Training Videos Library**.

For more information on **watching** and **acknowledging** videos, refer to “Watch Training Videos” on page 803.

For more information on **Training Videos Library**, refer to “Training Videos Library” on page 798.

Training Videos Library

Training videos reside in your personal Online RMS **Training Videos Library**, where you can keep track of the videos you have and haven't watched, and you can watch these videos as often and as many times as you wish.

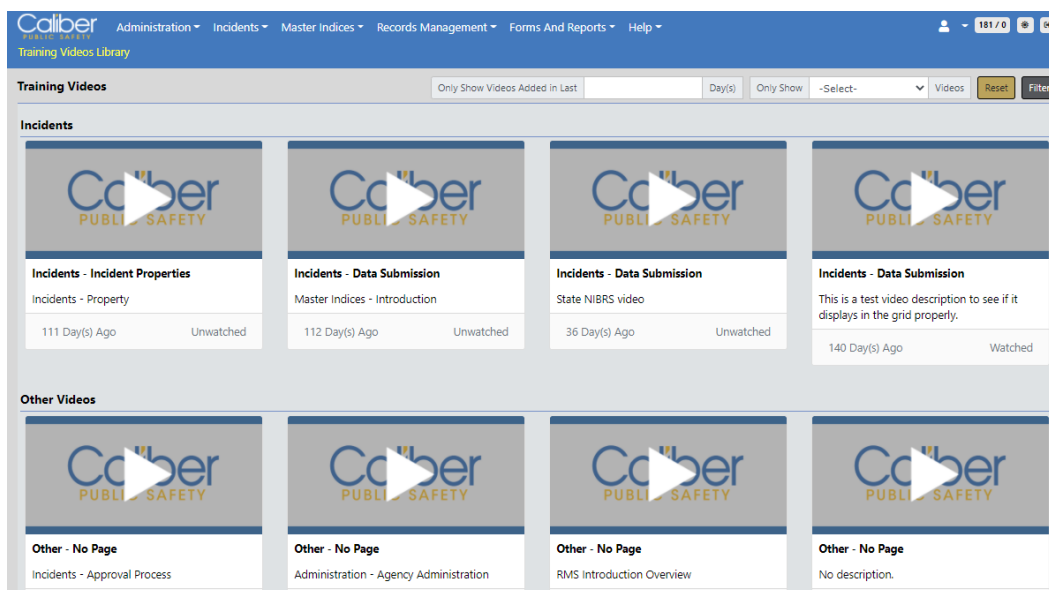

Access the Training Videos Library

Follow these steps to access your **Training Videos Library** in Online RMS:

1. Click **Help** on the top navigation menu, then click **Training Videos Library**.

2. The **Training Videos Library** Opens.

Understanding the Training Videos Library

Videos can be divided into groups

Group examples:

- Incidents
 - This group contains incident-based reporting videos.
- Other Videos
 - This group contains videos that do not fall into the other groups.

Grouping happens when the pop-up option is turned on and the agency administrator configures specific videos to pop-up on a specific page.

For example, if the agency administrator turns the feature on and they configure the Incident Category video to pop-up on the Incidents page, the Incident Category page displays under the Incidents category.

This the pop-up feature is not turned on, all videos appear under the Other Videos category.

Video Elements

1. Click to **Play**.
2. The **Group** to which the video belongs (i.e., Incidents or Other Videos).
3. **Description** of the video.

4. The **number of days** the video has been in your Training Video Library.
5. **Status** of the video (i.e., Watched or Unwatched).

Filter Video List

Across the top of the **Training Video Library**, you have the option to filter the video list by only showing videos that have been added within a *specified number of days*, and only show *watched* or *unwatched* videos.

Show Videos Added in Last Number of Day(s)

1. Click into the **Only Show** field and select **Watched** or **Unwatched** from the list. **Watched** is used in the example.
2. Click **Filter** to display only the videos that match your criteria.

Show Videos with Combined Criteria

1. Enter the **number of days** in the field provided.
2. Click into the **Only Show** field and select **Watched** or **Unwatched** from the list. **Watched** is used in the example.
3. Click **Filter** to display only the videos that match your combined criteria.

Watch Training Videos

Follow these steps to watch training videos in Online RMS:

1. Identify the training video you wish to watch. There are two ways to do this:
 - a. When a video *requires your acknowledgment*, the video pops up automatically each time you log into Online RMS and access a page to which the video is associated until you acknowledge having watched it.
 - b. Or, you can go to your **Training Videos Library** for a list of videos available to you. For details on accessing videos in your **Training Videos Library**, refer to “Training Videos Library” on page 798.
2. Click the **Play** button to launch the video with additional options.

1. The **Group** to which the video resides in your Training Video Library.
2. Hover mouse over, or click on the **information bubble** to view the description of the video.
3. Click on **Open in New Window** to open the video in a new window, separate from Online RMS.
4. Click to **Play** the video.
5. The length of time left and total video time, respectively.
6. Click to manage the **audio**.
7. Click to watch the video in **Full Screen** mode.
8. Click to **Download** the video or view it **Picture in Picture**.

9. Click **acknowledge** after watching the video in its entirety.

Note: This option only appears when an acknowledgment is required. For more information, refer to your agency administrator.

Note: The video pops up automatically every time you log into Online RMS, until you acknowledge having watched it.

10. Click to **Close** the window.

Note: This option grays out if an acknowledgment is required, and the acknowledgment checkbox has not been checked.

11. Click **Watch Later** if you wish to close and return to the video later.

Note: This option appears only if an acknowledgment is required, and it grays out when the acknowledgment box is checked.

Note: If you do not acknowledge having watched the video, the video pops up automatically each time you log into Online RMS and access a page to which the video is associated.

3. After the video plays and the window is closed, the video status changes from **Unwatched** to **Watched**.

Chapter 37. Training Module

Overview

The Online RMS **Training** module provides users with proper permissions the ability to create **Training Courses** and **Certifications** with date ranges and required prerequisites, then easily track employee involvement to ensure they each obtain and maintain the necessary training and certification based on their job duties.

This module is available with full subscription access to Online RMS. It is disabled by default but can be enabled, and additional user training is available for purchase. Contact Caliber Public Safety Support for more information.

The **Training** module can be configured specific to your agency's needs, such as an eligible list of course types (i.e. gun safety, mobile training, etc.) and classification levels. Refer to the Online RMS Administrator Guide for details on configuring these items.

There are two components to the **Training** module:

- *Courses*

Training classes with specific focus to refine skills (i.e., Online RMS training).

Attendees can be assigned to Courses two different ways:

- a. From the Course Instance record.
- b. From the Employee record.

- *Certifications*

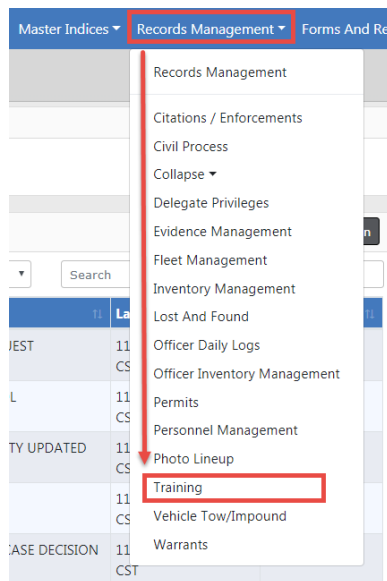

Proof of achieving specific skills or knowledge level that are mandatory for specific job duties (i.e., gun safety certification).

Attendees can be assigned to Certifications one way:

- a. From the Employee record.

Training Module Dashboard

Click the **Records Management** menu on the *Top Navigation Bar*, then click on the **Training** option to access a consolidated pathway for viewing and managing training data from a single screen.

Basic Training 100						50	10	4	
Basic Training 102	Intermediate	Classification 2	District 35,			301	51	1	

Note: The **Training Dashboard** contents are based on permissions and can vary by user. For more information on permissions, refer to your system administrator.

The **Training Dashboard** consists of several features:

1. There are five tabs that contain various course and certification information. Each tab contains links that allow you to view or edit information, depending on your permissions set by the agency administrator. Available links vary by tab as outlined below.

Upcoming Courses

- A current list of active courses.
- View or edit upcoming courses.

Expired / Missing Courses

- A list of employees not registered for a required course for their employee type, or a list of employees who are attendees of a course that has expired.
- View or edit employee records.

Near Expired Courses

- A list of employees who are attendees of a course nearing expiration.
- View or edit employee records.

Expired Certifications

- A list of expired certifications by employee.
- View or edit employee records.

Near Expired Certifications

- A list of certifications about to expire by employee.
- View or edit employee records.

2. Three buttons on the top right of the window:

- Click the **Manage Courses** button to add or update courses. For more information refer to "Manage Courses" on page 813.
- Click the **Manage Certifications** button to add or update certifications.
- Click the **Go Back** button to exit the dashboard.

3. You can change the number of entries that appear in the grid. Click on the **Show Entries**  and select 10, 25, 50 or 100. The default is 10.

Show 10  entries

4. The bottom of the window displays the number of entries and it allows you to navigate between pages.

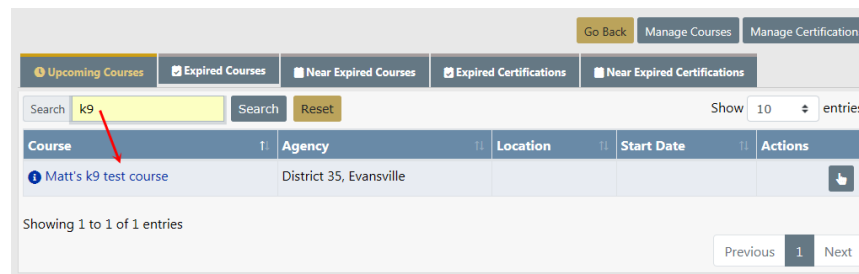

This example shows 10 entries per page. The highlighted number on the right is the page currently being viewed. Click **Next** to advance to the next page, or click the page number you want to view. Click on **Previous** to view the previous page.

5. Each tab allows you to **Search** or filter data that appears in the grid.

- a. Click on the tab you want to view, if different than the default **Upcoming Courses**.
- b. Enter text into the **Search** text box, then click the **Search** button or press **Enter** to display only records matching the entered text. The displayed list dynamically changes based on the entered text.

For example, on the **Upcoming Courses** tab enter *k9* in the text box, then click **Search** or press **Enter** to show only records containing *k9*.

Note: Click the **Reset** button to remove the entered search text and list all available records.

6. Example of accessing information within a tab. The same general process applies to all tabs.

View Details Two Ways

- a. Click on a **Course** to view details about that particular course. This is view only, details cannot be changed here.

Close

Click on the **Close** button to close the window and return to the **Training** dashboard.

Edit the Details

- a. Or click on the **Select** icon  under the *Actions* column to edit the details of a particular course.
- b. Click on the **Back** button to return to the **Dashboard**. For your convenience, this button is located on the upper right of the window and on the lower center of the window; either will return you to the **Dashboard**.

Exit Training Module

- a. Click the **Go Back** button to return to the Records Management main menu.

Courses

There are two components to **Courses**:

- Template
- Course Instance

Template

A **Template** is a standard form that is used as a starting point when creating **Course Instances**. For example, users with proper permissions can create a **Template** that is pre-populated with a standard class description that will pull into the newly created **Course Instance** automatically.

Note: For more information on permissions and managing **Training Templates** refer to the *Online RMS Admin Guide*..

Course Instance

A **Course Instance** is a specific course to which employees can be assigned. There could be multiple records of the same course, but with different dates or other information. When creating a **Course Instance**, with proper permissions, you can either choose an existing **Template** from a list or create a new **Template** and **Course Instance** at the same time without moving between menus to do both.

Note: The phrase **Course Instance** is often referred to as **Course** throughout this guide.

Manage Courses

The **Manage Courses** button on the **Training** dashboard allows you to, with proper permissions, *Search*, *Add*, and *Edit Course Instance* data.

To update course data you must first search for the course. The search results will provide the option to update or view the course data.

Note: Once a Course Instance is created, you cannot delete it. Enter the appropriate **End Date** if created in error or if you need to end a particular Course Instance for whatever reason.

Search Courses

1. Click on the **Manage Courses** button on the **Training Dashboard**. For details on accessing the dashboard refer to "Training Module Dashboard" on page 808.
2. The **Course Search** screen appears.
3. With proper permissions you can select an **Agency** within the organization by using two methods.
 - a. Click in the Agency field then select from the list that appears.

Click to view Organization Hierarchy

Go Back Add Course

NAME	AGENCY	COURSE TYPE	COURSE CLASSIFICATION
<input type="text"/>	District 42, Versailles	-Select-	-Select-
COURSE ID	CATALOG COURSE	INSTRUCTOR	LOCATION
<input type="text"/>	-Select-	<input type="text"/>	<input type="text"/>
START DATE FROM	START DATE TO	END DATE FROM	END DATE TO
02/10/2019 0000	<input type="text"/>	<input type="text"/>	<input type="text"/>
ADDITIONAL SEARCH CRITERIA			
<input type="text"/>			

Go Back Reset Search

- b. Click on the hierarchy icon next to the **Agency** field to display the organization hierarchy.

The screenshot shows a dialog box titled "Agency Structure". At the top is a search bar with a "Search" button to its right. Below the search bar, the text "Indiana State Police" and "JEFF PD" is visible. A vertical scrollbar is on the right side of the list. At the bottom right of the dialog is a "Close" button.

Hover over the agency to display a list of the agency's units.

This screenshot shows the same "Agency Structure" dialog box, but with "Indiana State Police" highlighted in blue. Below the agency name, a list of units is displayed: Area Units-A1, Area Units-A2, Area Units-A3, Area Units-A4, Area Units-A5, CAR and X Units, CID, CIS-CID, CPS, CSI, CVED, DANA AGENCY1234, DES, District 13, Lowell, District 14, Lafayette, Dup - Area Units-A1, Dup - Area Units-A2, and Dup - Area Units-A3. A vertical scrollbar is on the right side of the list. The "Close" button is at the bottom right.

Click on the agency you want to include in the search and the agency name appears in the **Agency** field.

4. The fields with **-Select-** supply a specific list from which to choose. For example, to search for a specific **Course Type** click in the field and a list will appear, then click on an item from the list.
5. Optionally reduce your search results to include only **Additional Search Criteria** by using the drop-down list at the bottom left of the screen., then enter the appropriate information in the additional fields that appear on the screen.

Refine Search
New Search

- The Pass/Fail column represents the total number of attendees that passed and the total that failed, respectively.
- If the total number of attendees equals Total Pass + Total Fail, the numbers display in black, otherwise the numbers display in red with an exclamation point.

Click **Refine Search** to modify your current search criteria, or **New Search** to start the search over. Click on the course name to view course details, or click the Edit icon in the **Actions** column to edit the course. For details on editing the course refer to "Edit Course" on page 818.

7. To export search results to a file refer to "Export Search Results" on page 36.

Add Course

Add courses by way of the **Training** dashboard. For details on accessing the dashboard refer to "Training Module Dashboard" on page 808.

1. Click on the **Manage Courses** button on the **Training** dashboard.

2. The **Course Search** screen appears. Before adding the course, it is recommended you first search for the course to verify whether or not it already exists, though not required. For instructions on how to search for courses refer to "Search Courses " on page 813.
3. Click on the **Add Course** button on the **Course Search** window to open the *Add Course* screen.

Go Back Save

- Select a course template from the **Catalog Course** list.

If you do not see an option on the list that fits the course you are adding, you can select the **-New Course-** option, located at the top of the list, and the system creates a Course Template automatically based on the data you enter on the *Add Course* form. Once you save the record, it will then appear in the **Catalog Course** list and is available to other users who also have the permissions to manage courses.

4. Once you choose a **Catalog Course**, other fields on the form become available to accept data. Enter the appropriate data in the fields provided.

5. Click **Save** to create the Course record, or click **Go Back** to return to the **Course Search** screen without creating the record.

When you select **Save**, the **Edit Course** screen displays.

Additional information can be added such as, **Attendees** and **Groups**. For detailed instructions refer to "Edit Course " below.

All **Attachments** and **Prerequisites** reside on the Class Template or Catalog Course that you chose for the class record; if they do not exist on the course template, then they do not appear on your course record. Adding attachments and prerequisites to class templates is an admin function (with the exception of additional attachments specific to this instance).

Note: If you need to add attachments or prerequisites to a course, refer to the Online RMS Admin Guide for instructions or see your administrator.

Edit Course

To edit a course you must first **Search** for the course. The **Search Results** provides the option to edit the course data.

1. Click on the **Manage Courses** button on the **Training** dashboard. For details on accessing the dashboard refer to "Training Module Dashboard" on page 808
2. The **Course Search** screen appears. Search for the course you want to update. For instructions on how to search for courses refer to "Search Courses " on page 813.
3. In the Course Search Results, click on the **Edit** icon  that appears in the *Actions* column of the course record you want to update. The **Edit Course** form opens.

- h. If you made changes or added attachment, click **Update**, then **Go Back** to return to the **Edit Course** form, otherwise click **Go Back**.
- i. Attendees that are successfully enrolled in the course appear in the **Attendees** grid.

Attendees  Add Attendee						
Name	Agency	Cost	Score	Pass/Fail	Completed Date	Actions
PAUL TOBIN	District 21, Toll Road - SC					 

Note: When enrolling an attendee, the system also add the course to the attendee's Online RMS Employee record automatically. For more information refer to the *Online RMS Administrator Guide* or your system administrator.

Edit an Attendee

- Click the **Edit** icon  on the attendee record you want to update and the **Edit Attendee** form opens.

- Enter the relevant information then click **Update** to save your changes.
- Click **Go Back** to return to the **Edit Course** page.
- Make other needed updates if needed, then click **Update**. Click **Go Back** to return to the **Course Search Results** page.

Delete an Attendee

- Click the **Delete** icon  on the attendee record you want to delete.
- A confirmation window appears. Click **Yes** to delete or **No** to return to the **Edit Course** window without deleting.

- You can restrict the class to specific groups.

Add a Group

- Click on the **Restrict to Group** link while on the **Edit Course** form. The **Group** window appears.

- b. Click on the **Group** field and select a group from the list. This list is configurable and is maintained by your administrator.

- c. Click **Save** to add the group or **Cancel** to return to the **Edit Course** window without adding the group.

Delete a Group from the Course

- a. Click the **Delete** icon  on the group record you want to delete from the course.

Groups + Restrict to Group	
Group	Actions
Level 1 Officers	

- b. A confirmation window appears. Click **Yes** to delete or **No** to return to the **Edit Course** window without deleting.

Note: When deleting an enrolled attendee, the system also removes the course from the attendee's Online RMS Employee record automatically. For more information refer to the *Online RMS Administrator Guide* or your agency administrator.

9. Hour categories can be added to the course instance in the same manner as described herein, although the specifics differ. (Categories are defined by an administrator and each

category **may only be added once** to the course instance.) Hours stem from the course template, but can be edited or removed and additional hours added.

10. Cost categories can also be added to the course instance in the same manner as described herein. (Cost categories are defined by an administrator.) Costs stem from the course template, but can be edited or removed and additional costs added.
11. Additional attachments can also be added to the course instance.
12. Click the **Go Back** button to return to the **Course Search Results** screen.

Cancel Course

To cancel a course, select the **Cancel Course** check box and fill in the fields that become available when the box is checked. Then click **Update**.

The screenshot shows a web form for canceling a course. At the top is a large empty text area. Below it are four fields: 'CANCEL COURSE' with a checked checkbox, 'CANCEL REASON' with an empty text box, 'CANCELED BY' with an empty text box and a user selection icon, and 'CANCELED ON' with a yellow date picker. At the bottom are two buttons: 'Go Back' (yellow) and 'Update' (green).

Manage Certifications

The **Manage Certifications** button on the **Training** dashboard allows you to, with proper permissions, *Search*, *Add*, and *Edit Certification* data.

To update certification data you must first search for the certification. The search results will provide the option to update or view the certification data.

Note: Once a Certification is created, you cannot delete it. Enter the appropriate **Expiration Days** if created in error or if you need to end a particular Certification for whatever reason.

Associating a certification to an employee is an administrator function. Refer to the *Online RMS Administrative Guide* for details or contact your agency administrator.

Search Certifications

1. Click on the **Manage Certifications** button on the **Training Dashboard**. For details on accessing the dashboard refer to "Training Module Dashboard" on page 808.
2. The **Certification Search** screen appears.
3. With proper permissions you can select an **Agency** within the organization by using two methods.
 - a. Click on the Agency field then select from the list that appears.

NAME:

AGENCY: District 42, Versailles 

CREATION DATE FROM: 

CREATION DATE TO: 

Buttons: Go Back, Add Certification, Go Back, Reset, Search

Click to display Organization Hierarchy

- b. Click on the hierarchy icon to display the organization hierarchy.

Chapter 38. Reports

Reports Overview

A **Report** returns a set of data in a structured format, so the information is easy to view, follow, and understand. Online RMS offers a variety reports that can be viewed and printed, such as Incident Reports, User Reports, and NIBRS Reports to name a few. Some reports may include charts or graphs that summarize data at a glance.

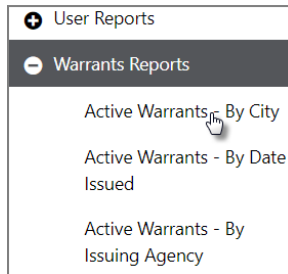

Available reports vary by agency and permissions. For more information on permissions refer to your administrator.

Reports are accessed from the top menu of Online RMS.

Reports are grouped by Module or custom-grouped by your agency administrator. Click the plus sign (+) next to a Module to expand the available reports, then click on a report you want to generate.

Note: Your agency administrator can custom-group Ad-Hoc reports into their own categories, or add to existing categories. Before Online RMS 11.7.0, all Ad-Hoc reports were listed under Other Reports. For more information, refer to your agency administrator or *Caliber Online RMS Administrator Guide*.

Enter available parameters to restrict the set of records that appear in the report. The *Active Warrants - By City* report below is used as an example. The parameters vary by report.

 A screenshot of the 'Active Warrants - By City' report configuration page. At the top, there are three buttons: 'Go Back', 'Refresh Reports', and 'Open Ad-Hoc Tool'. Below the title, there is a section for 'Issued Date' with three input fields: 'ISSUED DATE FROM', 'ISSUED DATE TO', and 'OR SELECT A RANGE'. The 'OR SELECT A RANGE' field is a dropdown menu currently showing '- Select A Range -'. At the bottom of the configuration area is a 'Run Report' button.

If applicable, page down to the bottom and select the **Output Type** from the drop-down list.

 A screenshot of the 'Output Type' dropdown menu. The title 'Output Type' is at the top. Below it, the text 'SELECT AN OUTPUT TYPE' is displayed. The dropdown menu is open, showing 'PDF File' as the selected option.

If applicable, you can choose different layout options for the report, as shown in the Incident Type Report below.

 A screenshot of the 'Layout Options' section for a report. It contains three sections: 'PRINT OFFICER' with a checkbox, 'PRINT LOCATION' with a checkbox, and 'SORT BY' with a dropdown menu showing 'Date'.

Click the **Run Report** button located at the bottom of the screen.

A PDF document opens in a new tab in your browser. Print directly to the printer or save the PDF document giving it a custom filename.

Note: If you are using Internet Explorer, refer to "Printing from Online RMS" on page 39 for special instructions.

Chapter 39. Interfaces

Interfaces Overview

An **Interface** is where two systems meet and interact. Caliber Public Safety leverages this technology to share information between our flagship products. For example, Online RMS accepts Call for Service information from Caliber CAD NG to create RMS Incident Reports and allow users to view CAD Calls for Service (CFS) information while logged into RMS. Another example is where the Court Case Management System (CMS) can retrieve and use Online RMS Citation data using a Web Interface. Standard interface fees may apply to enable an interface.

Citation to Court Case Management System

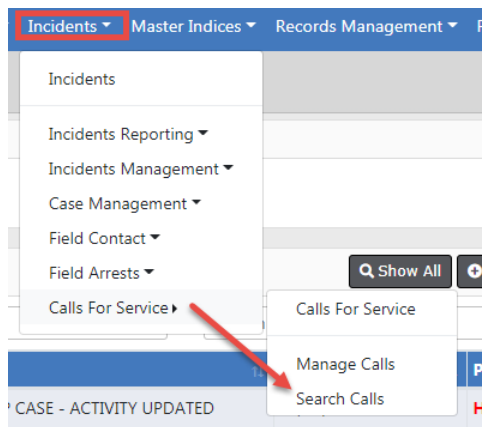

This Online RMS web service loads **RMS Citation** data into the **Court Case Management System (CMS)** as one-way only; data transmits from one system to another but does not return to the originating system.

Request a copy of the *Online RMS Web Services Guide* if you are interested in this interface. The standard interface fee applies to enable this interface.

CAD to RMS Calls for Service

Online RMS accepts Caliber CAD NG Call for Service (CFS) information to create *RMS Incident Reports* and allow users to search and view CAD CFS information while logged into RMS. CFS data that is spilled from CAD cannot be modified in RMS.

CAD CFS data spilled to Online RMS is searched and viewed from the **RMS Incidents** menu.

Master Vehicles

Prior to Online RMS 11.8.0, the CAD Interface only matched or created Master Vehicles in Online RMS when there was an Incident Report created in the transfer.

With Online RMS 11.8.0, the CAD interface provides a setting to perform one of the following:

- Match or create Master Vehicles from the CAD data transfer with Online RMS Master Vehicles even when there is not an Incident Report created.
- Match or create Master Vehicles from the CAD data transfer with Online RMS Master Vehicles only when an Incident Report is created in the transfer.

The default minimum matching criteria is as follows:

- VIN or Make
- License Plate and Year of the vehicle

Note: Contact Caliber to customize the minimum matching criteria for your agency.

InterDEX Queries

When searching directly from the Person, Vehicle or Property tab on the Master Indices screen, select the **Search External Systems** link to expand the list of available search interfaces for the master indices.

The screenshot displays the InterDEX search interface. At the top, there are tabs for 'Person', 'Address', 'Organization', 'Vehicle', 'Property', and 'Gang'. The 'Person' tab is selected. Below the tabs, there are several search criteria fields arranged in a grid:

- LAST NAME:** A text input field.
- FIRST NAME:** A text input field.
- MIDDLE NAME:** A text input field.
- TITLE:** A dropdown menu with '-Select-' as the current selection.
- DOB:** A date input field with a calendar icon.
- AGE:** A range input field with 'To' and a date input field.
- RACE:** A dropdown menu with '-Select-' as the current selection.
- SEX:** A dropdown menu with '-Select-' as the current selection.
- INDEX ID:** A text input field.
- DRIVERS LICENSE:** A text input field.
- DRIVERS LICENSE STATE:** A dropdown menu with '-Select-' as the current selection.
- SSN:** A text input field.
- NAME TYPE:** A dropdown menu with '-Select-' as the current selection.
- CREATOR:** A text input field with a calendar icon.
- CREATION DATE FROM:** A date input field with a calendar icon.
- CREATION DATE TO:** A date input field with a calendar icon.

Below these fields, there are checkboxes for 'PHONETIC', 'SOUNDEX', and 'CALIBER POWER SEARCH'. To the right, there is a 'SEARCH PREFERENCE' section with 'ALL' and 'ANY' buttons. At the bottom, there is an 'ADDITIONAL SEARCH CRITERIA' dropdown menu with '- Select -' as the current selection. A red box highlights the 'Search External Systems' link below the dropdown menu. At the very bottom, there are 'Go Back', 'Reset', and 'Search' buttons.

First Name: MR
SSN: 111-11-1111

Online RMS displays a candidates list of potential matching results returned from *InterDEx*. Select **Expand Details** to view additional information known for the person. Select **Import Record** to create a new master person record using the name information returned.

For details on importing a person record, refer to the *Import/Update Person Results from External Systems* section of "Adding Person" on page 100.

Hunter Camera

If configured for your agency, you can take photos directly from the Online RMS Field Arrest or Master Person Index record using the **Hunter Camera** integration software installed on your local machine. The software associates the images with the *Master Person Index* record.

General Guidelines

- One or multiple Hunter Cameras can be configured. If multiple, then you can choose which camera to use.
- Online RMS requires that the person record have a recent physical description. If the physical description is not recent, Hunter Camera prompts you to enter a new description.

Take Photos

Follow these steps to take photos from the Field Arrest or Master Person record using the **Hunter Camera** integration software:

1. Edit the Field Arrest or Master Person Index record, then click on the **Hunter Camera** button on the top right of the screen.

If your agency and local machine is configured to use multiple Hunter Cameras, first **select** a camera from the drop-down list, then click on the **Hunter Camera** button.

2. If the person's physical description does not exist or is not recent when you click on the camera button, a dialog box appears asking you to enter the physical description.

Physical Description

HEIGHT	WEIGHT
<div>-Select-</div>	<div></div>
EYE COLOR	HAIR COLOR
<div>-Select-</div>	<div>-Select-</div>
FACIAL HAIR	HAIR LENGTH
<div>-Select-</div>	<div>-Select-</div>
BUILD	SKIN COLOR
<div>-Select-</div>	<div>-Select-</div>
HAIR STYLE	GLASSES
<div>-Select-</div>	<div><input type="checkbox"/></div>
AGE	DATE OF INFO
<div>110</div>	<div>07/21/2020</div>
<div><div>Populate From Most Recent</div><div>Cancel</div><div>Save</div></div>	

- a. Enter data in the fields provided or click **Populate From Most Recent** on the bottom of the dialog box to pull in existing data then make the necessary updates.
 - b. Click **Save**.
 - c. The physical description saves and associates to the *Master Person Index* record.
3. **Take** the picture then click **Send** in the Hunter Camera software.
4. The Hunter Camera dialog box appears, waiting for the images to save to the *Master Person Index* record.

Note: You can close the dialog box or keep the dialog box open while another user transmits other images from the Hunter Camera software on their machine; as images transfer to the *Master Person Index* record, the images appear on the upper right of the Field Arrest record.

LiveScan

If configured for your agency, you can transmit arrest and arrestee information, including images to **LiveScan** directly from the Field Arrest record.

General Guidelines

- Images and the arrestee's physical descriptions are associated with the *Master Person Index* record and not the Field Arrest.
- LiveScan interface requires the arrestee's birth country, birth date, OBTN, and other data. LiveScan prompts you to enter missing data.
- An OBTN is required for LiveScan. If a OBTN does not exist on the Field Arrest, Online RMS creates one automatically.
- Images are not required, but if they exist, the images associated with the most recent physical description are sent through the LiveScan interface.
- LiveScan accepts front, right, and left profile images along with SMT images.

Transmit LiveScan

Follow these steps to transmit Field Arrest data and any images to LiveScan:

1. Access the *Edit Field Arrest* of the appropriate Field Arrest record.
2. Click on the **Transmit Livescan** button on the top right of the *Edit Field Arrest* screen.

3. If LiveScan detects missing data, a dialog box appears with instructions.

- a. Click **OK**.
 - b. Enter the missing information, then click the **Transmit Livescan** button again.
4. Online RMS generates an OBTN number automatically if it doesn't exist.
 5. A green *successful transmission* message briefly appears across the top of the screen when the transmission completes successfully.

Note: If configured for your agency and the proper software is installed on your machine, you can take photos directly from the Field Arrest or Master Person Index record using the **Hunter Camera** integration software. For more information, refer to “Hunter Camera” on page 844.

LexisNexis Queries

When searching directly from the Person, Vehicle or Property tab on the Master Indices screen, select the **Search External Systems** link to expand the list of available search interfaces for the master indices.

Vehicle	2002 PONTIAC AZTEK Search				
Vehicle	1994 SKYLINE Search				

As long as you see a **Search** button, you can drill down even further for more information.

A new tab opens each time you click on a **Search** button.

You can move between tabs, or close each down by clicking on the **X** in the tab header.

Appendix A. Training Accounts

Generic Training Accounts

When you connect to the Online RMS Training Database, you may utilize any of the following generic accounts. Each role has a selection of accounts and can be used by multiple individuals. These accounts are available for any actions you wish to perform in the Online RMS system. The training system does not contain any real criminal data so please ensure you only enter test data. For example, we often use cartoon characters or invented names and identifiers. Real address locations can be utilized to view the mapping functionality.

Simply go to the following website to enter the Online RMS Training DB:

<https://rmstrain.public-safety-cloud.com/train>

Training Accounts user IDs and passwords will be distributed by the administrator.

Appendix B. Resetting Passwords

Resetting OnlineRMS Password

This guide explains how to reset the Online RMS password from the workstation web browser.

- Click the **Reset Password** link at the Online RMS login screen.
- Type the **User ID** and click the **Go** button.

The screenshot shows a web form titled "Reset Password" with a blue header. Below the header is a label "USER NAME" followed by a yellow input field. At the bottom of the form are two buttons: "Cancel" (yellow) and "Go" (green).

- For added security, the user will be prompted with three security questions. There are different questions available and they are configurable by the administrator or user with proper permissions. Answer the security questions and click the **Submit** button.

Questions can vary by user and apply only when configured.

The screenshot shows a web form titled "Reset Password" with a blue header. Below the header is a red box with the text "Please enter answers to the following security questions." Below this are three questions, each with a yellow input field: "COLOR OF YOUR FIRST CAR", "IN WHAT TOWN WAS YOUR FIRST JOB", and "NAME OF THE CITY YOU WERE BORN". At the bottom of the form are three buttons: "Cancel" (yellow), "Reset Password via Email" (dark grey), and "Submit" (green).

Note: If you have forgotten your password click on the **Reset Password via Email** link to receive a confirmation email. For further assistance contact your agency administration or refer to "Forgotten Password Procedure" below

Note: If no user security questions are found in the system, a window appears where you must reset your password via email.

- Once the credentials are validated, the user is taken to the *Change Password* screen.
- The password rules are as follows:
 - The minimum password length shall be 8 characters.
 - Passwords shall be case sensitive.
 - Passwords shall be alphanumeric and allow for special characters.
 - Passwords shall contain at least one lower case, one capital letter, and one number
 - Passwords shall need to be reset every 90 days.
 - Passwords will be on a rotation of three (10) passwords.
 - The maximum amount of password attempts is five (5). Once the account is locked, the password will need to be changed.
- Type a new password in the **Enter** and **Re-Enter** fields and click **Submit**.
- A warning message will appear if the password rules are not followed.
- Once completed, the user will be transported to their *Home* screen.

Note: Click the **Cancel** button to abort the process at any time.

Forgotten Password Procedure

With the release of Online RMS 10.9, we have instituted a security policy that every user have a unique email address associated to their account. This requirement grants users with improved, self-administered password resets.

Note: In addition, this complies with the CJIS policy many of our users must follow. For information about this and the email address requirement,

review the additional document called Secure Email Account Requirement for Online RMS users.

To facilitate the self-administration for forgotten passwords and/or security questions, Caliber Public Safety has implemented a new **Reset Password** procedure at the Online RMS login screen.

The reset password procedure will work in the following fashion:

1. At the Online RMS login screen, click the **Reset Password** link.
2. Type the **User ID** and click the **Go** button.

The screenshot shows a web form titled "Reset Password" with a blue header. Below the header is a label "USER NAME" in blue. Underneath is a yellow input field with a red vertical bar on the left. At the bottom of the form are two buttons: "Cancel" (yellow) and "Go" (green).

3. Click on the **Reset Password via Email** link to receive a confirmation email

The screenshot shows a web form titled "Reset Password" with a blue header. Below the header is a red box with the text "Please enter answers to the following security questions." in white. Underneath are three labels in blue: "COLOR OF YOUR FIRST CAR", "IN WHAT TOWN WAS YOUR FIRST JOB", and "NAME OF THE CITY YOU WERE BORN". Each label is followed by a yellow input field. At the bottom of the form are three buttons: "Cancel" (yellow), "Reset Password via Email" (dark grey), and "Submit" (green).

4. You are prompted to provide the unique email address on file for your user account. Enter the email address then click the **Go** button. A confirmation message displays on screen:

"A new password has been sent to your email address. Please follow the instructions on the email for further information."

If an incorrect email address is given, an error is presented and you cannot continue with the password reset.

5. An email is sent to you from Online RMS with the new temporary password.
6. Login with your User ID and this temporary password. You must re-register your account by:
 - Providing three new and unique security questions (using the drop down fields).
 - Providing answers to these new security questions.
 - Resetting and confirm a new password (following the same secure password rules when they initially registered their accounts)

Appendix C. Incident Based Reporting

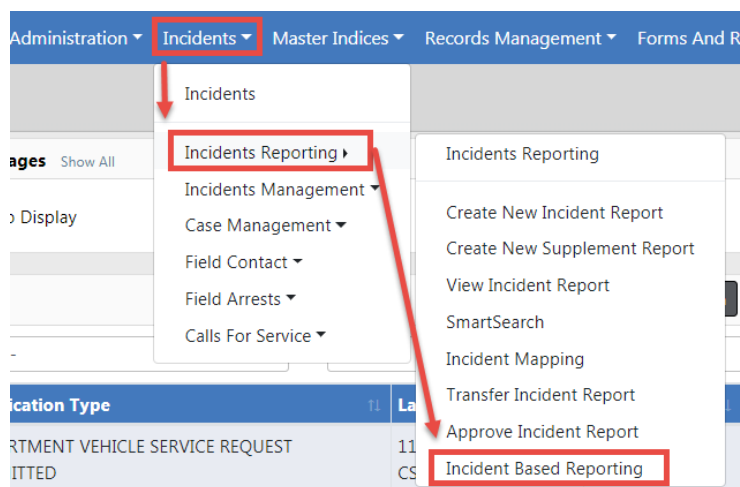

Overview

The purpose of this document is to provide instructions on producing Incident Based Reports from the Online RMS application. The application collects FBI data based on the National Incident Based Reporting (NIBRS) requirements.

You access a data set (file) that contains all Agency reports that have a reportable offense that is in approved status. They filter out the reports for inclusion in the file to be used to create the NIBRS Reports. This is typically on a monthly basis but can be filtered as necessary.

1. From your *Home* page there are three ways to access the **Incident Based Reporting** module of the application.

- a. Incidents>Incident Reporting>Incident Based Reporting

- b. Click on the *Incidents* tab and when the *Main Incident Menu* opens find **Incident Based Reporting** under the *Incident Reporting* header.

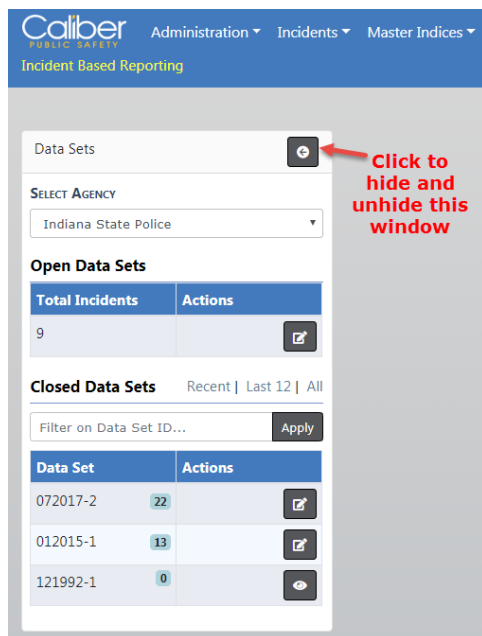

- c. If available, click on the **Pending UCR Review** link in the *Quick Links* box. If the **Pending UCR Review** link doesn't appear, you can with appropriate permissions, add this link to the *Quick Links* box. This appears only on your Home Page, no one else's. For instructions, refer to the Quick Link section of "Home Page - Prior to RMS 11.12" on page 8.

Note: While UCR functionality is still available within Online RMS, the FBI is no longer accepting UCR Summary Data as of Jan 1, 2021.

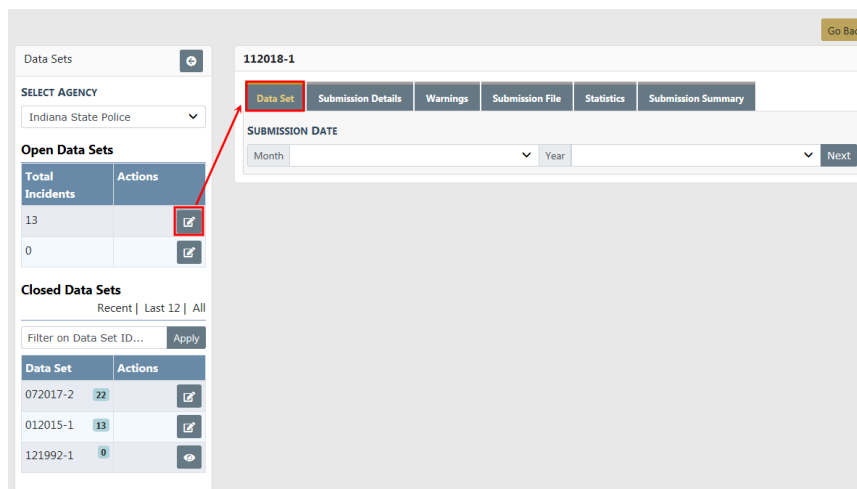

Any option above opens the *Data Sets* details page:

2. Accessing Open Data Sets.

- Find the *Open Data Set* you want to open and click on the **Edit** icon  under the *Actions* column.

The right windows display six tabs of *Open Data Set* topics, defaulting to the **Data Set** tab.

3. Accessing Closed Data Sets.

- Find the *Closed Set* you want to open and click on the **Edit** icon  under the *Actions* column.

The right windows display two tabs of *Closed Data Set* topics, defaulting to the **Closed Data Set** tab.

Warnings Warning Notification History ← Two sub-tabs

The Data Audit Warnings tab provides the opportunity for an agency to self-audit incident reports included in the data submission that may be at risk of a data audit by the IBR authority. Data audits represent data situations that are commonly flagged by IBR authorities as uncommon or overly used that should be evaluated by the agency prior to submission. The goal of this process is to ensure the quality and accuracy of data submitted to the IBR authority.

# of Affected Incidents	Type	Message
1	NIBRS	Incident has both Burglary and Theft offenses. Because larceny/theft is an element of Burglary, agencies should not report the larceny as a separate offense if it is associated with the unlawful entry of a structure. Please verify that the larceny is a separate offense. If not, remove it from the incident.
1	NIBRS	Incident was listed as being a Cargo Theft. Please review the incident and verify that a cargo theft actually occurred.
4	NIBRS	Incident contains a Hate Bias Motivation. Please verify that Hate/Bias was a factor in the incident.
2	INCIDENT	Incident contains an offender 10 years old or younger. Please verify this for accuracy.
1	NIBRS	Incident contains a Hate Bias Motivation of Unknown. The state and federal IBR authorities will expect this to be updated as the investigation of an incident continues. Failure to update can trigger an audit in the future.

1. Review the warnings.
2. Click the **Next** button to advance to the **Submission File** tab.

Generate the Submission File

There are two types of submission files:

- Flat Files

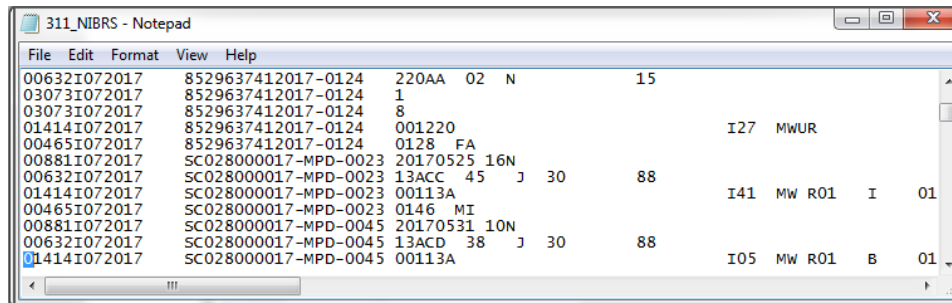

A flat file contains data that is stored in plain text format, and there is one record per line. Columns are typically separated by a tab, comma, or another single value character; Online RMS creates flat files with tabs to separate the columns.

- XML Files

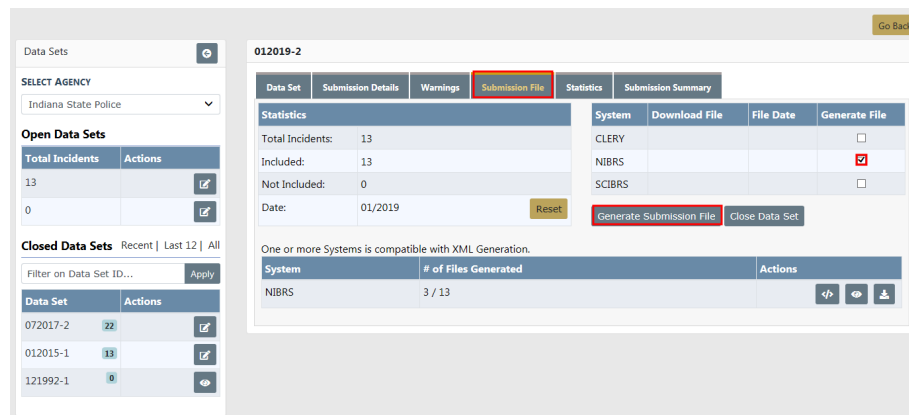

An XML file is an XML (Extensible Markup Language) data file. They are plain text files that store information in a hierarchical standard format that is commonly used in data transfers. Unlike flat files, *custom tags* are used in XML files instead of *tabs* to define different columns of data.

Flat File

A flat file contains data that is stored in plain text format, and there is one record per line. Columns are typically separated by a tab, comma, or another single value character; Online RMS creates flat files with tabs to separate the columns.

- To generate the submission file you must first check the appropriate checkboxes in the *Generate File* column, then click the **Generate Submission File** button.

The **Generate Submission File** button and the section above the button appears only when flat file submission is an acceptable file format for your state.

- Depending on the number of files being included in this file, it may take a few minutes to generate the file. Once complete the **Download File** and **File Date** will fill in.

Note: With Online RMS 11.7.0 and above, the IBR submission process verifies if an incident with NIBRS data has been modified before including it with the data set for submission to the state. For more information, refer to the *Incident Based Reporting Guide - NIBRS* found under the Help Menu in Online RMS.

XML File

An XML file is an XML (Extensible Markup Language) data file. They are plain text files that store information in a hierarchical standard format that is commonly used in data transfers. Unlike flat files, *custom tags* are used in XML files instead of *tabs* to define data.

```
<?xml version="1.0" encoding="UTF-8"?>

```

The **Statistics** section on the *Submission File* tab help you to identify how many reports were in the original query and how many you did not include.

The **System** type section is specific to your agency or State. NIBRS is the basic, and is used by all agencies that report by Summary UCR Reports, and agencies that report directly to the NIBRS Unit at the FBI.

112019-1

For more information on XML submission files, refer to the *Incident Based Reporting Guide - NIBRS* found under the Help Menu in Online RMS.

Statistics Report

The **Statistics** tab is to help you identify how many reports were in the original query and how many you did not include if you unchecked any reports. In the center is the **System** type that is specific to your agency and/or state. NIBRS is the basic and will be used by all agencies that report by **Summary UCR Reports** and those agencies reporting directly to the NIBRS Unit at the FBI.

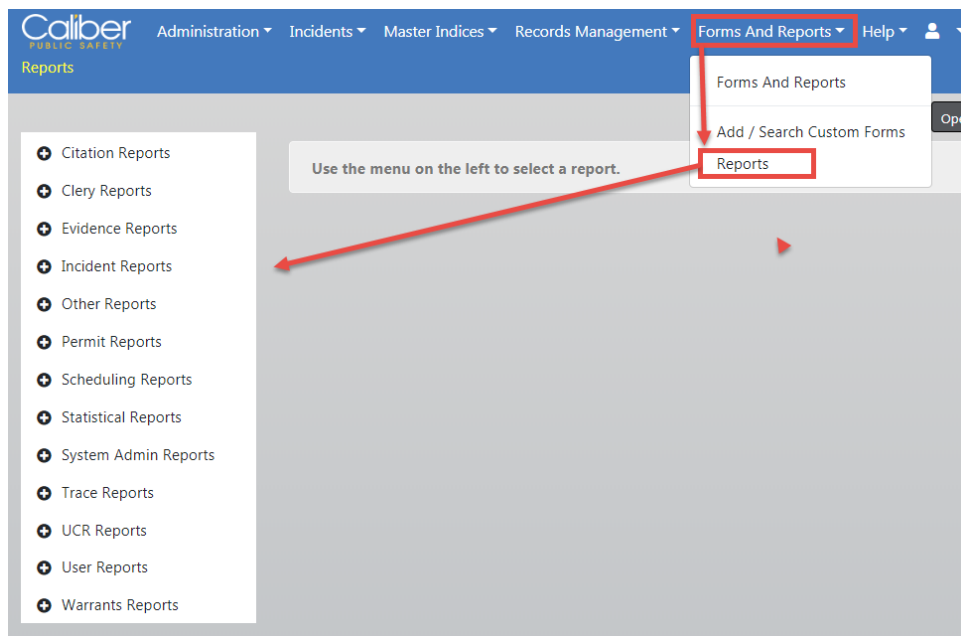

Note: While UCR functionality is still available within Online RMS, the FBI is no longer accepting UCR Summary Data as of Jan 1, 2021.

Run Summary UCR Reports

Note: While UCR functionality is still available within Online RMS, the FBI is no longer accepting UCR Summary Data as of Jan 1, 2021.

1. From your *Home* page click on the **Forms and Reports** tab at top of screen. Then click on **Reports**.

- a. On the left is a list of *Report Category*, click on the **UCR Reports** category banner to display the UCR available reports in alphabetical order.

Trace Reports

UCR Reports

- Arson
- Cargo Theft Incident Report
- Domestic Violence (WY)
- Drugs Seized by Type and Quantity
- Hate Crimes Incidents
- Human Trafficking
- Law Enforcement Officers Killed or Assaulted (LEOKA)
- Maryland Domestic Violence Form9
- Persons Arrested - Adults
- Persons Arrested - Juveniles
- Return A Report
- Supplement to Return A
- Supplementary Homicide

User Reports

- b. Click on the Report you wish to run, most likely the **Return A**. A filter opens on the right of the window.

Return A Report

Return A Report UCR Report. UCR reports are only available for agencies using the standard FBI NIBRS configuration.

Run Report

- c. Click on the **Data Set** file or files you want to include. You can also enter search criteria to shorten the available list.

The format of the listed files:

291 - 13 - January 2019 - IPSC (291 is the file number you created, 13 is the number of reports in the file and Month Year is based off the median date of those reports. And then of course your ORI#)

Report Parameters

DATA SET(S)

Search... Select All Select None

- 320 - 1 - July 2015 - D16
- 315 - 1 - January 2015 - D13
- 314 - 1 - February 2015 - D13
- 313 - 1 - July 2015 - D13
- 311 - 23 - July 2017 - IPSC
- 310 - 14 - January 2015 - IPSC

The selected parameters move from the left to the right window. To deselect a parameter, click on the parameter in the right window to move it back to the left.

The screenshot shows a window titled "Report Parameters". Inside, there is a section labeled "DATA SET(S)" with a search bar and two buttons: "Select All" and "Select None". Below the search bar is a list of data sets, each with a unique identifier, a date range, and a type. The list is split into two columns.

DATA SET(S)	DATA SET(S)
315 - 1 - January 2015 - D13	320 - 1 - July 2015 - D16
314 - 1 - February 2015 - D13	313 - 1 - July 2015 - D13
310 - 14 - January 2015 - IPSC	
305 - 1 - December 1992 - IPSC	
303 - 1 - July 2015 - IPSC	
302 - 1 - January 2014 - D13	

- d. If **Show Detail** button is selected, the report lists the report number that the returned data was from so that you can verify any information that does not appear to be accurate. The button turns green when selected, otherwise it remains gray.
- e. It is recommended that you enter something into the **Header Help** field to help you identify the report that you are about to create, i.e. January 2019, December 2018, etc. Then click **Run File**.

Note: Creating the file may take several minutes to complete.

- f. Once completed open the PDF file that was created then **Print** or **Save**. You will then need to enter this information into the Worksheet file that was provided by the UCR Unit of the FBI or report UCR data to your State Reporting Agency as they have specified.

Finalize Data Set

1. Once you have completed your **Reports** it is necessary that you **Finalize** the **Data Set** that you closed when making the file. Return to the *Incident Based Reporting* page. Find the Data Set that you closed under the *Closed Data Sets* list.

For more information on accessing the *Incident Based Reporting* page, refer to "Overview" on page G.

2. Click the **Edit** icon  under the *Actions* column next to that file. It asks you if any errors were reported. As Summary UCR Reporting Agency you do not get an error report, so click the **No** button.

If errors were reported and you want an error report, click **Yes**. For more information, refer to "Errors Reported" on the facing page.

3. A warning displays stating this will set all Incidents to *Accepted* and *Finalized*. Click **Yes**.
4. The necessary actions on this **Data Set** are now complete.

Errors Reported

1. If errors are reported, click **Yes**.
2. A list of the reports appear. You can filter the list by entering one or more report numbers into the **Report#** field. Separate reports with a comma. Click **Apply Filter**.
3. Click the Apply Filter button as **Rejected**.
4. Click the **Update** button.
5. A message appears stating the action cannot be undone. Click **Yes** to continue or **No** to cancel.
6. You are returned to the report list to accept all the other reports.

Accepting Reports after Error Reports have marked Rejected

1. Once you have rejected the reports with errors you must mark all the other reports as accepted.
2. If your file has more than 50 or 100 records go to the bottom of the page and change the page count to 100, then return to the top of the list.
3. Click on the button **Apply Status to All on Page**.
4. Open this list and select **Accepted**.
5. Once selected it will mark all the radio buttons as **Accepted**, except the reports you rejected.
6. On the right side it will tell you how many reports on that page you will be updating to **Accepted** and the click the **Update** button. You will get the *This action cannot be undone* warning again.
7. If you have more than one page, navigate to the next page and repeat the marking as **Accepted**. You will have to change the **LOV** back to *Apply Status to All on Page* and then back to **Accepted** before the **Update** button will become available again. Continue this until you have marked all reports on all pages as accepted.
8. Once you have all the reports marked as either **Rejected** or **Accepted**, click on the **Accept and Finalize** button.
9. When the confirmation window appears, confirm you are sure.

Glossary

A list of definitions for terms and abbreviations associated with Caliber products follows. All terms included here are not necessarily found in the *Caliber Online RMS User Guide* or the *Caliber Online RMS Administrator Guide*.

9-1-1 or 911 – A three-digit telephone number used to report an emergency requiring response by a public safety agency (from *NENA Master Glossary of 9-1-1 Terminology*)

911 service area – The geographic area to which the government has granted authority to provide 911 service

911 system – A telephone system that automatically connects a person dialing “911” to an established PSAP through traditional telephone service facilities

abandoned call – A call placed to 911 in which the caller disconnects before the call can be answered by the PSAP attendant

access line – The connection between a customer premises network interface and the local carrier that provides access to the public switched telephone network

accident reports – Report category that enables sorting and viewing of accident query and accident state reports

active window – Indicated by a blue title bar, a window with which a user can interact

add-ons – Agency-defined field used to customize RMS for specific local needs,

AFIS – Automated Fingerprint Identification System (US FBI)

AFR – Abbreviation for *Automated Field Reporting*

alarm – Any notification made to an emergency agency that a situation exists or may exist and requires a response. An alarm can be generated via an electronic alarm system, telephone, radio, word-of-mouth, and so forth.

alert – A message, error, or notification of a situation (incoming calls, timer alerts, mail messages, and so forth) that may require immediate attention

ALI Database – Alternative name for DMS (Database Management System)

ALIDBS – Abbreviation for ALI Database

alias – A name, other than that recorded on an individual's birth certificate, by which the individual may be known

alternate routing – The routing of a 911 call or message over a designated substitute route when the primary 911 lines are unavailable for immediate use

Amber Alert – Broadcast system for *America's Missing: Broadcast Emergency Response*, Amber Alerts are immediate, up-to-date information to aid in the safe recovery of a missing child. Amber Alerts are dispatched to law enforcement, the media, and the public.

ANI/ALI – Abbreviation for *Automatic Name/Location Information/Identifier or Identification*

AOC – Abbreviation for *Authority Operation Center*

API – Abbreviation for application programming interface

Application – Generic term for a program or system that handles a specific business function

Application Programming Interface (API) – An interface used by programmers to write interfaces between their system and another vendor's system, thereby simultaneously integrating multiple systems

Application Software – A complete, self-contained program that can perform work for a user. This is in contrast to system software such as an operating system, server processes, and libraries that exist in support of application software.

AREA – Patrol Area/Zones/Beats

area of fire origin – The specific location where a fire started. May be a room, a portion of a room, a vehicle, a portion of a vehicle, or an open area devoted to a specific use. Every fire has an area of fire origin. (From NFIRS 5.0 Ref. Guide)

arrival time – The time at which a 911 call is received (if it generates an incident record) or at which an incident is created (if the call generates a manually-created incident)

arrived – Status of a unit indicating that it is assigned to respond to an incident and has arrived at the location specified on the incident record

assigned unit – A unit that is assigned (dispatched, en route, arrived, and so forth) to an incident. Some systems may be configured to consider units designated as busy (such as out for food, out for fuel, or at the station) as assigned.

Assigned Units Window – A CAD window that displays all units assigned to an incident. Some systems may be configured to consider units designated as busy (such as out for food, out for fuel, or at the station) as assigned.

Attendant Window – A CAD window that displays alerts to inform users of events or incidents that may require immediate attention

audit trail – Automated system records that show if database/fields have been changed, what changes were made, who made them, and when

automatic – When applied to fire protection devices, a device or system providing an emergency function without human intervention

automatic location identifier – Automatic PSAP display of a caller's telephone number, the phone location, and any additional emergency services information. If phone number is also included, it may be called ANI-ALI.

automatic number identification – Telephone number associated with the access line from which a 911 call originates

automatic vehicle locator – A product that allows a client to receive Global Positioning Satellite (GPS) coordinates, locating a client unit's position

available unit – A response unit not currently assigned to an incident

Available Units Window – A CAD/WebCAD window that displays all units (individuals, stations, and/or cars) not currently assigned to an incident. Some systems may be configured to consider units designated as busy (out for food, out for fuel, at the station, etc.) as assigned.

AVL – Abbreviation for *Automatic Vehicle Location*

B&E – Abbreviation for *breaking and entering*

bitmap – A picture representation that displays on the screen instead of text or numeric characters

BMP – File extension for bitmap, an image format commonly used on the web and in web applications

BOLO – Abbreviation for *Be on the Lookout*

building – A structure enclosed with walls and a roof and having a defined height (from NFIRS 5.0 Reference Guide)

busy – Status of a unit indicating that it is not assigned to an incident but is unavailable or may be slow to respond due to its current activities. Busy units include units that are out for food, out for service, at the station, and so forth. Some systems may be configured to consider units designated "busy" as assigned.

CAD – Abbreviation for *Computer Aided Dispatch*

call – An incident phoned into a police, fire, or EMS dispatch center

Call Detail Recording – Process of providing a written record, by telephone number, of all 911 calls received by a PSAP

Call Number Sequence – Sequence numbers in CAD to track and record CAD calls

Call Relay Method – Process by which a 911 call is answered at the PSAP and the call taker relays the information to the appropriate public or private safety agency for further action

Call Taker – The person in an agency that receives a call for an incident. This person may or may not be a dispatcher.

CFS – Abbreviation for *calls for service*

Caliber CAD – Caliber's CAD Solution

Call Transfer Method – Process by which the PSAP call taker determines the appropriate responding agency and transfers the 911 caller to that agency

casualty (fire) – A person who is injured or killed at the scene of a fire (from NFIRS 5.0 Reference Guide)

CATP – Abbreviation for *customer acceptance test plan*

charge – An accusation of wrongdoing, particularly an official statement that accuses someone of committing a crime

check box – An interface icon that when clicked turns an option *on (checked)* or *off (empty)*. When two or more checkboxes are offered as selections, the user may check as many choices as are applicable (unlike radio button selections, where the user can only select one option).

CID – Abbreviation for *Criminal Investigation Division*

CIR – Abbreviation for *Criminal Incident Report*

citation – A writ or ticket for a person to appear in court on a specific date to respond to a charge of breaking the law

citation reports – Report category that enables sorting and viewing the following report types: Charges by Person, Court Schedule, Ticket Inventory, and Officer Activity

civil process reports – Report category that enables sorting and viewing the following report types: Civil Process by Sector, Court Schedule, Payments Received, and Papers by IV-D

civilian fire casualty – Any non-fire service casualty who is injured or killed at the scene of a fire (from NFIRS 5.0 Reference Guide)

CIS – Abbreviation for *Criminal Information System*, a Caliber state switch interface product. CIS has also been referred to as *Javelin*. No product queries NCIC directly. NCIC queries are a result of a properly formatted query to a state switch.

CJIS – Abbreviation for *Criminal Justice Information System*

class – A type (Fire, Law, EMS) of incident or a type of responder

class group – The unit associated with an incident. The class group is a subset of the class.

CLR – Abbreviation for *clear*, a status code

COC – Abbreviation for *Chain of Custody*

combustible – A material that will release heat energy on burning (from NFIRS 5.0 Reference Guide)

complaint type – Complaint types convey more than just a description of the complaint. Each type has an associated priority, class, ten code, and responding departments. Your agency should determine the information for each complaint type and enter them into the system.

Computer Aided Dispatch (CAD) – Electronic dispatching system used to manage an agency's communications center

computer hardware – Devices capable of accepting and storing computer data, executing a system sequence of operations on computer data, or producing control outputs, including the computer, monitor, keyboard, printer, cabling, and other peripherals.

Computer Telephony Integration – Also called computer-telephone integration or CTI, is a common name for any technology that allows interactions on a telephone and a computer to be integrated or coordinated. The term is predominantly used to describe desktop-based interaction for helping users be more efficient, though it can also refer to server-based functionality such as automatic call routing.

configuration – The functional and/or physical characteristics and interrelationships of project hardware and software

COTS – Abbreviation for *Commercial off the Shelf*

Criminal Justice Information System – A division of the FBI that has the mission of reducing terrorist and criminal activities by maximizing the ability to provide timely and relevant criminal justice information to the FBI and to qualified law enforcement, criminal justice, civilian, academic, employment, and licensing agencies concerning individuals, stolen property, criminal organizations and activities, and other law enforcement related data. Each state has its own CJIS division. (*from CJIS Web site mission statement*)

CS – Abbreviation for *CAD Station*

CTI – Abbreviation for *Computer Telephony Integration*

daily files – Daily records update file received by PSAPs from telephone companies. Contains any changes made to subscribers, subscriber phone numbers, or subscriber addresses.

data – Numbers, text, graphics, images, and sound stored in a form that can be used by a computer

data integration server – An XML-based communications server that allows almost instant integration and use of any new data source

DBF – File extension for Data Base File, the dBase file format, used with SHP (see SHP)

data-sharing software – Systems such as NCIC Client that enable information to be sent and received from a single workstation to other workstations, databases and agencies elsewhere

default routing – The capability to route a 911 call to a designated (default) PSAP when the incoming call cannot be selectively routed due to ANI failure or other causes

DEM – Abbreviation for *Digital Elevation Model*

department – A specific segment of a responding agency, such as any city police department, any county sheriff, and any fire district department

design – Tasks associated with specifying and sketching the features and functions of a new application prior to coding

DGN – File extension - DesiGN file, the Microstation drawing format

DIG – Abbreviation for *Digital Information Gateway*

DIS – Abbreviation for *Data Integration Server*

dispatch center – The location from which a public or private safety agency's mobile units are dispatched.

dispatch time – Present duration (in minutes) in which the user must dispatch a unit to an incident before a supervisor receives an alert indicating that the incident is awaiting assignment

dispatched – Status of a unit that is assigned to respond to an incident

dispatcher – The person in an agency that enters a call for an incident into the CAD system. This person may or may not be a call taker.

disposition – The final outcome of a CAD incident

dissemination – Information concerning property or court dockets that is released to individuals involved in the case

DMV – Abbreviation for *Department of Motor Vehicles*

DNR – Abbreviation for *Department of Natural Resources*

DOB – Abbreviation for *Date of Birth*

DOT – Abbreviation for *Department of Transportation*

DRG – Abbreviation for *Digital Raster Graphic*

drop-down selection menu – A list of selections that displays when a down arrow on an input field is clicked

DSP – Abbreviation for *Dispatch*, a status code

DWG – File extension - DraWinG file, the AutoCad drawing format

DXF – File extension - Drawing eXchange Format, an AutoCad export file

E 911 (enhanced 911) – An emergency telephone system that includes network switching, database and CPE elements that can provide selective routing, selective transfer, fixed transfer, Automatic Location Identification (ALI), and Automatic Number Identification (ANI)

elapsed time – The duration since the previous contact time. Once a unit is assigned, the elapsed time indicates the time that has passed since the AGN STAT time.

EMD – Abbreviation for *Emergency Medical Dispatch*

emergency call – A telephone request for service which requires immediate action to prevent loss of life, reduce bodily injury, prevent or reduce loss of property, and other emergency situations as defined by local policy

Emergency Medical Dispatch – Critical medical advice offered by specially trained 911 call answering personnel. Advice follows approved protocols, given in logical sequence, for such conditions as heart attacks, choking, and child birth. Protocols are administered by phone until the arrival of emergency medical personnel on the scene.

Emergency Service Number – A three- to five-digit number that represents a unique combination of emergency services agencies (Law, Fire, EMS) designated to serve a specific range of locations within a geographical area. ESNs are set up by the telephone company in conjunction with subscriber input and transmitted along with E911 data. ESNs are not always available in the E911 ALI feed.

Emergency Service Zone – A geographical territory consisting of a specific combination of law enforcement, fire, and EMS coverage areas

EMS – Abbreviation for *Emergency Medical Service*

EMS Zone – Also called *Run Zone*, a specific area by which EMS responsibilities are defined

En Route – Status of a unit indicating that it is assigned to respond to an incident and is proceeding to the location specified on the incident record

ENR – Abbreviation for *Enroute*, a status code

environment – The set of tools and the physical surroundings in which software is developed, tested, and/or deployed

ESN – Abbreviation for emergency service number

ESRI – Abbreviation for Environmental Systems Research Institute (3rd party supplier of GIS and database software)

evacuation route – A route for a specific geographic area that dispatchers can use to instruct citizens in case of an evacuation

event code – Unique alphanumeric code that identifies the circumstance or occurrence that resulted in a call for help. Event codes may differ from one agency to another and are established by your agency administrator.

exposure – A fire incident that results from a single igniting event. For record-keeping purposes, the initial fire incident(primary ignition event) is "Exposure 1" and each subsequent fire resulting from that initial exposure is sequentially numbered.

exposure – (fire) A fire in a building, structure, vehicle, or outside property resulting from a fire outside that building, structure, vehicle or outside property (from NFIRS 5.0 Reference Guide)

expungement – Permanently deletes chosen records from the RMS tables; there is no audit trail or logging of this activity.

Extensible Markup Language – (XML) A markup language that defines a set of rules for encoding documents in a format that is both human-readable and machine-readable. It is a highly compressible, standard markup language that defines a way of transmitting and representing data used for applications and the internet.

fatality – An injury that is fatal or becomes fatal within one year of the incident (from NFIRS 5.0 Reference Guide)

FDID – (Fire Department ID) A unique, five-character identifier assigned by the state to identify a particular fire department within that state (From NFIRS 5.0 Reference Guide)

field – An area on the screen into which you can enter information into a system

Field Reporting – Caliber applications used for wireless (via Mobile) reporting of various documents, such as incident reports, traffic tickets, and accident reports. Also functions as a stand-alone that can be accessed via a LAN workstation or notebook computer. All information entered into a report is reviewed by a supervisor and fed into a database.

fire casualty – A person working for an fire department who is injured or killed at the scene of a fire (From NFIRS 5.0 Reference Guide)

fire fatality – An injury that is fatal or becomes fatal within one year of a fire incident (From NFIRS 5.0 Reference Guide)

fire plan database – The fire plan database contains detailed information about a specific site for use in a fire or other emergencies. This information will help your agency respond quickly and efficiently to situations that are dangerous or have the potential to become dangerous. Using a fire plan, you can create and store address-specific information that includes data crucial to those responding to a fire.

fire (run) zone – A specific area by which fire responsibilities are defined.

footprint – A specific geographical area covered by a wireless cell or cell sector

function key (F key) – The computer keys labeled **F1** through **F12**, some of which may be assigned special functions (For example, **F8** is usually reserved for the *Exit* function in Caliber products.)

gcpk – file extension - geocoding package used for location calculations

geocoding – GIS operation to locate geographic coordinates associated with an address or point on map

geoprocessing – GIS operation to manipulate spatial data, including geocoding, searching, and routing

GIS – Abbreviation for *Geographical Information System*

Global Positioning System – (GPS) A space-based satellite navigation system that provides location and time information in all weather conditions, anywhere on or near the Earth where there is an unobstructed line of sight to four or more GPS satellites. The system provides critical capabilities to military, civil and commercial users around the world. Maintained by the United States government, it is freely accessible to anyone with a GPS receiver.

gpk – file extension - geocoding package used for route determination

GPM – Gallons per minute

GPS – Abbreviation for *Global Positioning System*

GPS Tracker – GPS/AVL tracking software

group – 1. (CAD) The unit associated with the same specific incident. The class group is a subset of the Class field. 2. (ENS) A list of call recipients that belong to the same area or community.

GUI – Abbreviation for *Graphical User Interface*

hardware – Physical equipment used to process, store, or transmit computer program data

hazardous materials – Any material that is an air-reactive material, flammable or combustible liquid, flammable gas, corrosive material, explosive material, organic peroxide, oxidizing material, radioactive material, toxic material, unstable material, or water reactive material; and any substance or mixture of substances that is an irritant or a strong sensitizer or that generates pressure through exposure to heat, decomposition, or other means. (From NFIRS 5.0 Ref. Guide)

hazmat – Abbreviation for *Hazardous Materials*

high cross street – A term used to indicate the next street that intersects a particular street in the direction in which that street's numbers ascend

hot sync – Using a third party device manager application, this allows the import and export of applications, files and data between computer servers and a desktop or laptop computer.

html – Abbreviation for *Hyper Text Markup Language*

hypertext – Text that is displayed electronically and contains links

iamap – File extension - Caliber map project file

icon – On a Windows interface, an image or button containing an image that represents various system functions

in service – Status of a response unit indicating that it is available for assignment. Often referred to as *On Duty*.

inactive window – Indicated by a gray title bar, a disabled window with which a user cannot interact because another window is selected

incident – An event that results in a call for help. CAD assigns an incident number to every call for help so that the call can be assigned to units as necessary. Incident records include details of the initial information given by the caller as well as details of every action the organization takes as a result of the call.

incident number – A unique, sequential number assigned to a specific incident record

Incident Wizard – An RMS feature that allows users to configure the system so that the appropriate screens automatically display upon creation of an incident record. This feature helps to ensure that all relevant known incident data is entered into RMS

interface – A connection between two devices or systems

ISSI – Abbreviation for *Individual Short Subscriber Identity*

ISPS – Abbreviation for *Caliber Safety Portal System*

issue – A problem to be solved or a decision that has not been made

JMS – Abbreviation for *Jail Management System*

JPG (jay-peg) – Abbreviation for the file extension *Joint Photographic Experts Group* which is an image format commonly used on the Web

jurisdiction – An overall area of responsibility. An installation could provide service for one or more jurisdictions. For example, an installation could be responsible for just one small county so it would need only one jurisdiction. Another installation could provide service for the county and the major city within that county. This installation could use two jurisdictions, one for the county, and one for the city.

LAN – Abbreviation for *Local Area Network*

latitude – The angular distance north or south of the earth's equator, measured in degrees along a meridian, as on a map or globe. Latitude lines run parallel to the equator. Values range from 0 degrees at the equator to 90 degrees at the North and South Poles. Minutes and seconds range from 0 to 59. (From *NFIRS 5.0 Ref. Guide*)

layer – Map (GIS) data layer that can be portrayed in map legend as an individual feature

LEO – Abbreviation for *Law Enforcement Officer*

LINK – Abbreviation for *Law Information Network of Kentucky*

link – Text that when clicked takes you to another page, topic, site, and so forth. Also called hyperlinks, links are typically underlined and of a different color than the surrounding text. An image can also be used as a link.

literal – A term used to refer to generic field names, or labels, for user-defined fields. Some RMS and JMS modules allow users to set up agency-specific fields. These fields must be assigned names (labels). Thus, a literal is a name/label that an agency assigns to a field.

local area network – A computer network that encompasses a discrete area, such as in a building. In a law enforcement agency, this may include Dispatch, CAD, GEO, MIS, and desktop computers.

location – The address at which an incident is occurring as provided by the ALI system or the caller

login – A process in which a user identifies and authenticates himself/ herself to a computer

longitude – Angular distance on the earth's surface, measured east or west from the prime meridian to the meridian passing through a position, expressed in degrees (or hours), minutes, and seconds. Longitude lines run north/south, are parallel at the equator, and converge at the North and South Poles. Values range from 0 at Greenwich, England, to 180 degrees at the International Date Line west of Hawaii. Minutes and seconds range from 0 to 59. (From *NFIRS 5.0 Ref. Guide*)

low cross street – A term used to indicate the next street that intersects a particular street in the direction in which that street's numbers descend

Maps – Map display of GIS data (raster and vector)

marker – Map icon/symbol used to display specific data (search results, incident, or unit location)

Master Street Address Guide (MSAG) – Computerized geographical file or database that consists of all streets and address ranges within the 9-1-1 system area. Key to selective routing capability of E911 systems; requires constant updating.

MDT – Abbreviation for *Mobile Data Terminal*

MM – Abbreviation for *Mile Marker*

MNI – Abbreviation for *Master Name Index*

MO – Abbreviation for *Method of Operation*

mobile property type – Property designed to be movable whether or not it still is (from NFIRS 5.0 Reference Guide)

move-ups – Move-Ups provide dispatchers with information when handling various types of calls, such as EMS. For example: When a dispatcher requests to view EMS move-ups, the system checks this database to see if the current situation matches any situations in the database. If a match is found, the instructions are displayed to the dispatcher. These instructions can indicate what station should move up a unit to provide back-up coverage. They should also include whatever information your agency normally expects a dispatcher to have access to when dealing with a particular EMS situation.

mpk – File extension - ESRI map package file, vector map graphic data

MSAG – Abbreviation for *Master Street Address Guide*

Narrative – Additional description or details, in free-form text, associated with an incident

National Crime Information Computer – NCIC is a computerized index of criminal justice information that is available to Federal, state, and local law enforcement and other criminal justice agencies, and it is operational 24 hours a day, 365 days a year. The NCIC system provides a computerized database for ready access by a criminal justice agency making an inquiry and for prompt disclosure of information in the system from other criminal justice agencies about crimes and criminals. This information assists authorized agencies in criminal justice and related law enforcement objectives, such as apprehending fugitives, locating missing persons, locating and returning stolen property, as well as in the protection of the law enforcement officers encountering the individuals described in the system.

National Emergency Number Association – NENA's mission it is to foster the technological advancement, availability, and implementation of a universal emergency telephone number system in the United States. In carrying out its mission, NENA promotes research, planning, training and education. The protection of human life, the preservation of property and the maintenance of general community security are among NENA's objectives.

National Institute of Corrections – The National Institute of Corrections (NIC) is an agency of the United States government. It is part of the United States Department of Justice, Federal Bureau of Prisons. NIC provides support programs to assist federal, state, and local corrections agencies and provides funds to support programs that are in line with its key initiatives.

National Law Enforcement Telecommunication System – NLETS is the International Justice and Public Safety Information Sharing Network – a state-of-the-art secure information sharing system for state and local law enforcement agencies. It provides electronic messaging to allow information exchange between state, local, and federal agencies and support services to justice-related computer programs.

NCIC – Abbreviation for *National Crime Information Computer*, located in Washington, D.C.

NENA – Abbreviation for *National Emergency Number Association*

NFIRS – Abbreviation for *National Fire Incident Reporting System*

NIC – Abbreviation for *National Institute of Corrections*

NLETS – Abbreviation for *International Justice and Public Safety Network* formerly known as *National Law Enforcement Telecommunication System* (<https://www.nlets.org>)

NOK – Abbreviation for *Next of Kin*

Objective Jail Classification System – developed guidelines for assessing jail inmates' individual custody and program needs

OCA – Abbreviation for *Originating Case Agency*

OCC Number – The number of occupants at a location

occupancy – The specific property use of a building or portion of a building

Off Duty – See *Out of Service*

officer reports – Report category that allows access and viewing of Associated Papers and Case Assignment Records

OJC – Abbreviation for *Objective Jail Classification*

OMS – Abbreviation for *Offender Management System* which is replacing JMS

On Duty – See “in service”

on-site materials – Any significant amounts of commercial, industrial, energy, or agricultural products or materials on the property, whether or not they became involved in the fire. Note: For more information, refer to the NFIRS 5.0 Complete Reference Guide, available from www.fema.gov/nfirs.

ORI – Abbreviation for *Originating Agency Identifier*, a nine-digit code used by agencies on the law enforcement network

Originating Case Agency – A term used in RMS Case Management to refer to the first agency to respond to and/or create a report about an incident

ORION – Abbreviation for *Originating Agency Identifier On-line Directory*

OS – Abbreviation for *On Scene*, a status code

out of service – Status of a unit indicating that it is not assigned to an incident but is unavailable for assignment, often referred to as Off Duty

PACE – Abbreviation for *Pro-Active Criminal Enforcement*

patrol area – Geographical area of a jurisdiction that a unit works

PCB – Abbreviation for *product change bulletin*

PCN – Abbreviation for *product change notice*

PCS – Abbreviation for *Public Communications Supervisor*

pending call – A call to which no units have been assigned

person history reports – Report category that enable sorting and viewing of the following report types: Person Involvement, Crimes by Person, Gender and Race Profile, Arrest History Summary, Civil and Warrants by Defendant, Civil and Warrants by Plaintiff, and Sex Offender Registration

phases – The divisions of a software development life cycle into discrete stages (requirements, design, code, test, and so forth)

pictometry – Aerial image capture and display, orthogonal and oblique images (3rd party)

place alias – A common name for a business, landmark, or general location that a caller may use to identify a place when unsure of the exact location

place file – Function that cross-references a place (alias) name with a location record.

png – File extension - Portable Network Graphics which is a commonly used image format

pod – Used in JMS/OMS, this term is equivalent to cell block

POI – Abbreviation for *Point of Interest*

pop-up – A window that opens "pops up" when an option is selected or a function key is pressed. A pop-up window usually contains a menu of commands and stays on the screen only until a command is selected.

priority – Level of importance assigned to an incident. CAD includes the following priorities: Priority 1 - Emergency. Priority 2 - Important, but not an emergency. Priority 3 - Less important; not an emergency.

probation – An alternative to prison/jail in which offenders can remain in the community under court supervision

process – The step-by-step sequence of activities (systematic approach) that must be carried out to complete a project

Product Change Bulletin – A document summarizing changes (such as fixes, enhancements, and usability improvements) to a product since the last major release (for example, 10.1 to 10.2)

Product Change Notice – A document summarizing changes (such as fixes, enhancements, and usability improvements) to a product since the last minor release (for example, 10.1.1 to 10.1.2)

property – An item of value that can be FIXED on the Earth's surface, i.e., water, land, roadways, structures, buildings, or MOBILE, i.e., ships, airplanes, trains, trucks, automobiles (from NFIRS 5.0 Reference Guide)

proximity distance – Relative distance that determines when the symbols for two or more AVL units merge together to show up as one symbol on the GIS map

PSAP – Abbreviation for *Public Safety Answering Point*

Public Safety Answering Point – The initial answering location of a 911 call. Sometimes called a 911 center.

Quality Assurance – The process of tracking and oversight functions for monitoring project performance, adherence to commitments, and budget requirements

radio button – Interface icon with a round button shape that can be clicked to indicate a choice. A radio button operates like the buttons on a radio tuner, when a button is pressed, all other buttons are disengaged, allowing only one selection at a time.

Records Management System – Also known as RMS, a centralized electronic package of modules used to enter, maintain, track and manage data related to criminal incidents, evidence, cases, and so forth

remark – A comment or note that may be appended to a unit's log or sent to a unit's pager as an alphanumeric text message

responding unit – The unit currently assigned to respond to an incident

response – Deployment of an emergency service resource to an incident (from the NFIRS 5.0 Reference Guide)

rich text format – generic word processing format

RL – Abbreviation for *Radio Log*

RMS – Abbreviation for *Records Management System*

route – GIS function used to determine route/directions from one point on a map to another

RTF – Abbreviation for *rich text format*, a file extension

run cards – Run cards are sets of instructions for dispatchers to follow based on given situations. Each run card contains one set of instructions.

run number – A chronological value assigned to a recorded incident. Also called *OCA number* or *case number*.

SBN – A file extension used by files that store the spatial index of the features used by Maps

SBX – A file extension used by files that store the spatial index of the features used by Maps

SDE – Abbreviation for *Spatial Database Engine*

SDTS – Abbreviation for *Spatial Data Transfer Standard*

scope – The magnitude of the effort required to complete a project

sealing – A means to flag records as sealed. This activity produces no audit trail nor is it logged. Typically, general users do not have access to sealed records, but with appropriate permissions set up in File Maintenance, a user may be allowed access.

search reports – A report category that can be used to sort vehicle, charge, person, and property records

sequence number – Number identifying a row in the System Monitor table. Clicking on the sequence number displays the incident details. The sequence number is not permanently associated with the incident record displayed in the row. In other words, an incident may be moved to another row and consequently associated with another sequence number as incidents are added to or removed from the table.

session time out – Inactive status of an application that occurs when a page is left open and untouched for a customer defined / configured duration (example: 30 minutes). The User Login page displays at session time out, prompting the user to log in again.

sid – File extension - MrSid georeferenced raster graphic file, aerial imagery map data

SME – Abbreviation for *Subject Matter Expert*

Spatial Database Engine – Helps manage spatial data to provide a quicker retrieval of that data from database engines such as Oracle, SQLSever, and Informix

Spatial Data Transfer Standard – A standard used to describe earth-referenced spatial data. It was designed to easily transfer and use spatial data on different computer platforms.

SOD – Abbreviation for *Special Operations Division*

solvability factors – Factors that influence whether crimes are more or less likely to be solved. Agencies assign relative weights to these factors. These weights are then used to assess the solvability of a case to determine assignment of investigative resources.

soundex – A coded name index based on the way a word sounds rather than the way it is spelled. Names that sound the same, but are spelled differently, like SMITH and SMYTH have the same code and are filed together. The soundex coding system allows you to find a surname even though it may have been recorded under various spellings.

SOP – Abbreviation for *Standard Operating Procedures*

SQL – Structured Query Language

SSM – System Status Monitor

specifications – General term for the wide variety of paper-based descriptions of a program or system

stacking – This allows a user to hold/stack an incident for a certain unit. Example: If a unit is on an incident and a second incident is created in that unit's zone/beat, the user can hold-/stack the second incident until the unit clears the first incident.

station – A particular fire station within a fire department. If used, station IDs are assigned locally.

teleco – Abbreviation for *telephone company*

telecommunicator – The person in an agency that monitors phone activity and talks with the callers dialing 911. This person may or may not be a dispatcher.

testing – The set of defect removal tasks that include execution of all, or part, of an application on a computer

TMD – Abbreviation for Tactical Map Display

tpk – File extension - ESRI tile package file, raster map graphic data

TS – Abbreviation for *Traffic Stop*

UCR – Abbreviation for *Uniform Crime Reporting*

UID – Abbreviation for *Unit ID*

Uniform Crime Reporting – A collective effort on the part of city, county, state, tribal, and federal law enforcement agencies to present a nationwide view of crime. Agencies throughout the country participating in the UCR program provide summarized reports on offenses known to law enforcement and reports on persons arrested. (From the *Introduction of the U.S. Department of Justice's [FBI] Uniform Crime Reporting Handbook - 2004*)

Uniform Crime Reports (UCR) – An FBI program that collects and disseminates data on arrests and crimes

unit – An entity dispatched using a single code. A unit might be one officer, a patrol car, an EMS station, or even a fire station.

use of force – A classification of an incident, indicating that use of force was required

vacant – Not occupied or put to use; with no furnishings or equipment present

validation – Process that ensures that the entered data is correct

VIN – Abbreviation for *Vehicle Identification Number*

VINE – Victim Information and Notification Everyday. VINE is a system that allows crime victims across the U.S. to obtain up-to-date information about criminal cases and the custody status of offenders at any time over the telephone, through the Web, or by e-mail.

warrant – A judicial writ authorizing an officer to make a search, seizure, or arrest, or to execute a judgment

warrant reports – A report category of that enables sorting and viewing of the following types of reports: Warrants Served by Officer, Warrants to Expire, Served by Officer/Date Range, Status Snapshot by Date Range, Warrants by Dept/Status, Warrants by Process Dept, and City/County Warrant Report

wildcard character – A character, usually an asterisk, that is used to take the place of other unknown characters to perform searches. For example, to search for a person with the name *Jansen* or *Jensen* you would use "j*nsen" to find all occurrences of both.

wildcard search – The Master Vehicle Index (MVI) and Master Name Index (MNI) modules allow for wildcard searches to broaden search terms and find information. In RMS, the

wildcard symbol is an asterisk (*). This symbol is used to search the indices for possible matches to, or hits on, data entries.

wildland – An unsettled, uncultivated region or minimal to no development, covered with timber, woodland, brush, or grass. (From NFIRS 5.0 Ref. Guide)

window – A section of a screen that contains an application or part of an application

wrecker – A vehicle that is used in recovering or removing a wreck, especially a truck with a hoist and towing apparatus used in towing disabled or wrecked vehicles

XML – File extension and Abbreviation for *Extensible Markup Language*. XML is a highly compressible, standard generalized markup language to define a way of transmitting and representing data. Designed to transmit data used for applications and the internet.

zone – An area to which dispatchers are assigned to dispatch responsibilities; may include an entire city or county or only certain regions, depending on zoning, which is based on the agency's call activity and the agency size
